NEWSY NOTES
FROM ANNAPOLIS

Community Service—Interesting Con-
cert.—Miss Florence Ritchie
"showered"—Personal
Items.

Annapolis Royal.—A most interest-
ing concert was given on Friday
evening at the Baptist Church, by the
Mission Band, under the direction of
Mrs. A. Gibson, and presided over by
Mrs. W. C. MacPherson. The various
members of the attractive programme
were well presented, consisting of the
following:—Hymns—by the choir;
Dialogue in costume—by Mrs. C. Al-
len, and the Misses, Annie Longmire,
Blanch Harnish, Lillian Dixon, Violet
Harnish, Averil Coombs, Evelyn Har-
nish, Daisy Spurr, Ola Harnish, Ella
Canavan, Ruth Carr, Addie Spurr,
Muriel Barnum; Quartette—
"Sometime, Somewhere" by Mrs. Al-
len, Miss Annie Longmire, and the
Misses Evelyn and Blanche Harnish;
Exercises and Recitations—by Alton
Coombs, Allan Gibson, Elsie Rawding,
Clifford Beeler, Bertha Barnum,
Ruby Carr, Muriel Barnum, Annie
Coombs, Violet Rawding, Willetta
Taylor, Eleanor Douglas, Donald
Willis, Harold Barnum, Addie Spurr,
Vivian Munroe, Kenneth Spurr, Har-
old Ritchie, and Alice Carr. The
silver collection, which was taken up
by Addie Spurr and Averil Coombs,
amounted to over eighteen dollars.

The Community Service for October
was held in the Town Hall on Wed-
nesday evening, with Rev. B. C.
Borden, acting as chairman. Rev. A.
Gibson, of the Baptist Church, and
Rev. R. A. Nels and Rev. R. B.
Thomas took part in the prayers and
Scripture reading, and the principal
speaker was Rev. S. J. Woodroffe, who
is acting as Rector at St. Luke's
Church, during the absence of Rev.
T. C. Mellor. A number of the fa-
vorite community hymns were sung
with Mrs. Robert Hardwick presid-
ing at the organ.

Messrs. John and W. H. Harris, J.
N. and Eric McClafferty, returned on
Friday from their hunting trip with
a fine luck, which they had cap-
tured early that morning. They were
also successful in bagging a number
of terrapins.

Lamont Munroe, son of Mr. and
Mrs. Horace Munroe, of Upper Cle-
ments, has joined the staff of the local
branch of the Royal Bank of Canada.
Mr. R. S. Miller, and his son, Wil-
liam, have rented apartments in Yar-
mouth, and Mrs. Miller will join them
there the first of the month. The
removal of the family, who have been
residents of Annapolis Royal for over
thirty years is much regretted, and
Mrs. Miller, who is an active mem-
ber of Fort Anne Chapter I. O. O. E.,
and a Sunday school teacher of St.
Luke's Church, will be missed by a
large circle of friends.

A pleasing function took place on
Friday evening, when the friends of
Miss Florence Ritchie, met at the
home of Mrs. Edgar Wentzell, St.
Anthony's Street, and "showered" her
with a large collection of beautiful
and useful gifts. Miss Ritchie's mar-
riage takes place on October 32nd,
after which she will make her home
in Boston.

Mr. and Mrs. Fred Corning are re-
ceiving congratulations, on the ar-
rival of a little daughter.

Mr. Reginald Buckler of the Rail-
way Mail Service, with his family,
expects to move to Halifax next week.
Both Mr. and Mrs. Buckler are na-
tives of Annapolis Royal, and their
departure, with their bright little
family, is a source of deep regret.

Mr. J. Herbert Howard, of Newport,
R. I., is a guest at the home of his
uncle, ex-Councillor, A. G. Herbert.

Messrs Walter and Charles Buck-
ler, of Boston, former well-known
residents of Annapolis County, have
been spending a short vacation here.

WEDDING
Ruffee—Amberman

Middleton.—A wedding of interest
to many in this vicinity took place
on Wednesday morning last, at the
home of the bride, when Josephine
A., daughter of Mr. and Mrs. Y. H.
Amberman, of Middleton, was united
in the holy bonds of matrimony to
James Alburn Ruffee, of Bridgetown.
The ceremony was performed by Rev.
P. A. Walker, pastor of the United
Church, in the presence of friends
and immediate relatives of both par-
ties.

The rooms were beautifully deco-
rated with autumn leaves, fern and
asters, and the bridal party stood
under an arch of the same.

The bride, who was unattended,
was groomed in crab apple flat crepe,
embroidered with oriental blue, and
finished with bands of black satin.
She wore a black satin hat, flanged
with velvet, ostrich trimmed, and
black satin slippers. Her only orna-
ment was a string of pearls, and
she carried a bouquet of Ophelia
roses. The wedding march was
played by Miss Ruth Mills, of Gran-
ville Ferry.

The bride's travelling costume was
of castor point twill, with a velvet
coat and hat of the same shade.

Immediately after the ceremony
a dainty wedding breakfast was
served to the guests.

There was an exceptionally large
number of gifts of china, linen, and
other fancy articles from friends of
the popular couple in various parts
of the county.

Mr. and Mrs. Ruffee left by morn-
ing train for Yarmouth, and will
spend three weeks in Boston and
vicinity. On their return they will
reside at Bridgetown, where the
groom holds a position in the Cust-
oms-Excise office.

BEAR RIVER

Mr. Lewis Clarke, who has been
visiting at his home here, left for
Boston on Friday.

Miss Marjorie MacDormand left for
Halifax on Monday, where she has
accepted a position.

Miss Agatha McGinty, of Mill Vil-
lage, is visiting at the home of Mr.
and Mrs. Burpee Alexander.

Miss Florence Vroom left for
Sackville, N. B., on Tuesday.

TAG DAY FOR
PARADISE SCHOOL

Proceeds Used For Maps and Equip-
ment.—S. S. Convention Largely
Attended.—Rev. W. D. Wil-
son Gives Address on
"The Home" at
Moncton.

Colonel C. E. Bent and party of
friends motored to Bear River on the
11th, inst.

Miss Leola Banks left for her
school at Waldeck West, on Mon-
day.

Mrs. Wentzell and son Frank, of
Wentzels Lake, are the guests of
Mr. and Mrs. W. L. Rhodenizer.

Mr. Gordon Longley, manager of
the Royal Bank of Canada, at Clark's
Harbour, is visiting his parents, Mr.
and Mrs. H. W. Longley.

On Tuesday afternoon Miss Bell,
lecturer on Home Economics of the
Women's Institute, spoke to the
ladies of the Paradise branch of the
W. I. at the home of Mrs. Byron
Chesley. Refreshments were served
at the close of her talk.

On Saturday the children of Para-
dise school had a "Tag Day" and few
were the ones who escaped being
tagged, twenty-two dollars being
realized. The Section has made sev-
eral additions to the equipment of
the rooms this year, thus making the
work more interesting and helpful to
both teachers and pupils. These "Tag
Benefits" are to go towards buying
maps, boards and constructive ma-
terial for their work, and the pupils
will be adding a "Thank You" to those
who are so interested in the welfare
of their school.

Mr. and Mrs. Jacques have return-
ed from Glace Bay, where they were
called by the sudden death of their
son, Arthur. Much sympathy is felt
by the community for Mr. and Mrs.
Jacques in their sorrow.

Mrs. Stewart Kinley, of the parson-
age, Windsor, is the guest of Mr. and
Mrs. Joseph Longley.

Mr. George Cormack, of Boston,
Mass., is spending his vacation at
the parsonage.

At the Annapolis County S. S. Con-
vention held in Lawrence town, on
October 13th, Paradise was well rep-
resented. About forty of the children
under the supervision of their teach-
ers, together with several of the
young people being conveyed there in
large teams, driven by Messrs. Robert
and Max Longley. Members of
the senior classes remained for the
evening session. All voted the Con-
vention a success and the addresses
given will be very helpful in the next
year's work.

Miss Dorothy Hodge, primary
teacher, spent the week end in An-
napolis, the guest of Miss Whitman.

On Sunday morning Rev. Mr. Wil-
son, of Middleton, addressed an au-
dience in the Paradise Baptist Church,
his subject being the two-fold mis-
sion—"The Temperance Question"
and "The Home" at Moncton. He
showed to us very clearly our re-
sponsibility in these matters. At the
close of his address a unanimous vote
was given in favor of the continuance
and enforcement of the "Prohibition
Act."

Mr. and Mrs. E. G. Morse and fam-
ily and Miss Marion Morse, spent
Wednesday in Digby.

CHARLES H. FAY, PROMINENT
MINING ENGINEER PASSES
AWAY

Deceased Was a Brother of Stipen-
dary F. R. Fay, of This Town.
Was a Frequent Visitor and
Had Many Friends Here.

Stipendary Magistrate F. R. Fay
received a notice from the Supt. of
St. Peter's Hospital, Albany, New
York, that his brother, Charles H.
Fay passed away at that institution
on October 8th.

Mr. Fay was a Mining Engineer, of
New York, and had been prominent
in the development of many gold
mines in Mexico and Arizona, among
at them being the Rio Del Monte, one
of the best paying gold mines in the
United States. Mr. Fay was a fre-
quent visitor to our town, where he
spent his childhood, and many of his
friends will regret to hear of his
demise.

Personal Mention

One of the nicest courtesies you
can show your friends is let them

friends in Halifax this week.

Mr. A. B. Graves, of Kingston Vil-
lage, was a guest of the Editor over
the week end.

Mrs. John Ross is visiting friends
in Middleton this week.

Mr. Douglas Gaul spent the week
end at Aylesford.

Mr. Fred Gesner, of Belleisle se-
cured a fine moose at the first of the
season and also shot a large buck
last week. The Editor and family
enjoyed a fine large steak from the
latter and appreciate Mr. Gesner's
kindly courtesy.

WILLIAMSTON GIRL
FOUND DEAD IN BED

Miss Mabel Grant Retires apparently
in Good Health, But Passes
Away in Sleep.

Middleton.—Miss Mabel Grant of
Williamston, was found dead Friday
morning at Melvorn Square. She had
been keeping house for Abner Phin-
ney for a brief time during the ab-
sence of his wife, and Thursday even-
ing retired in apparently good health.
In fact, she had spent the evening in
a neighbor's house, and had not
spoken about feeling ill. When Mr.
Phinney called this morning there
was no response and on investigation
it was found that she had been dead
for some time. Dr. Spangale was
summoned, and stated that death had
resulted from heart trouble and high
blood pressure.

Miss Grant is survived by her par-
ents and a number of brothers and
sisters.

One of our subscribers informs us
that he had fifty replies to an ad. in
the MONITOR, offering a high grade
cow for sale. Still some people even
yet ask if it pays to advertise.

Rev. P. R. Hayden, who is a skill-
ful hunter has been going into the
woods every season since 1913, and
each year has secured a moose. This
rather exceeds the record of Mr. Av-
ard Beeler, to which we referred in
last week's issue.

Miss Edna and Miss Belle Clarke
and Miss Ellen Marshall, left last
week for Boston. Mr. and Mrs. Clarke
motoring with them to Yarmouth (the
former has accepted a position as
stenographer with a prominent firm).

The two latter young ladies have
entered the New England Baptist
Hospital to train as nurses. Just
before their departure, all were
tendered an enjoyable surprise party
by their friends at the home of Mr.
and Mrs. Clyde Marshall.

SMITH'S COVE

Mrs. John Berry, of Clements vale,
was the guest of her son, William
Berry, for several days last week.

Miss Centh Thomas, left on Wed-
nesday, October 7th, for Milton,
Queens Co., where, as convener of the
Agricultural Committee of the Wom-
en's Institute, she lectured at the
public school exhibition, which was
held on October 8th. On the evening
of the same day a reception was held
in her honor at the home of Professor
S. D. Henry. Miss Thomas returned
home on October 9th.

Oskey Smith was successful in
getting a deer on Friday morning,
October 16th.

A social was held on Tuesday eve-
ning of last week at the home of
Mr. and Mrs. William Berry. Clam
chowder, pie and candy were sold.
The proceeds amounted to \$13.65,
which will be paid on the parsonage
fund. During the evening games and
music were heartily enjoyed by those
present. The next affair will be in
the form of a community sing, to be
held in the Temperance Hall, on the
evening of the 27th of October. Candy,
etc., will be for sale and a silver col-
lection taken.

Home Division met as usual on
Wednesday evening, October 14th, but
with a better attendance than has
been had for some time. Everyone
seemed to be in good spirits and a
very pleasant and profitable evening
was spent by all present. The officers
for the present quarter were installed
and other business transacted. Plans
are being made for a Halloween e'en
social, the proceeds of which are to
be used towards repairing the hall.
Not only was the attendance and
social spirit of the evening far above
the average, but the financial side
was encouraging in the extreme. The
officers for the present quarter are
as follows:

W. P.—Mrs. George Winchester.
W. A.—Mrs. S. J. Smith.
P. S.—Frances J. Austin.
Treas.—A. J. Cornwall.
Chap.—I. W. Wilson.
R. S.—Mrs. Dean Clayton.
A. R. S.—Greta MacGregor.
Con.—Mrs. Spurgess Weir.
Asst. Con.—Stella Weir.
I. S.—Dean E. Clayton.
O. S.—John Marshall.
P. W. P.—Stella Woodman.
Pianist—Greta MacGregor.
Worthy Patron—Hilda Winchester.

Next Sunday evening, in the ab-
sence of our pastor, Rev. Frank
Smith, the pulp of the Baptist
Church will be filled by a visiting
clergyman.

WEDDING
Parrott—Connell

The home of Mr. and Mrs. R. For-
rest Connell, was the scene of a very
pretty wedding, on the morning of
October the fourteenth, 1925, when
their daughter, Mary Marguerite, be-
came the bride of Lindsay Scott Par-
rott, of Saskatoon, Sask.

The bride, who was given away by
her father, was prettily attired in
pale green canton crepe, embroidered
in gold, and carried a shower bouquet
of pink roses and maidenhair fern.
The wedding march was played by
the bride's sister, Miss Ruth Connell.
The ceremony was performed by
Rev. Cranwick Jost, D. D., in the
presence of immediate relatives and
friends.

Immediately after the ceremony, a
dainty luncheon was served.

Among congratulations received,
were messages from Mr. and Mrs.
Frederic Tutts, Halifax; Mr. and Mrs.
Thomas Cosgrove, St. John, and the
teaching staff of Mayfair School,
Saskatoon, of which, Miss Connell
had lately been a member.

Out of town guests were Mr. and
Mrs. J. Vincent Thompson, Water-
ville, Kings Co., Mr. and Mrs. J. E.
Connell, Paradise, Mrs. H. W. Fish,
Clements vale, and Mr. and Mrs.
James W. Connell, of Annapolis Roy-
al, N. S.

The bride, who was the recipient
of many beautiful gifts, is followed to
her future home, with the good wish-
es of her many friends here.

Mr. and Mrs. Parrott left on the
west bound express for Toronto,
Niagara, Chicago, and other points
of interest. They will reside in Sas-
katoon.

Local Happenings

Some two weeks ago we mentioned
the issue, by the Clergy of the Rural
Deanery of Annapolis, (Middleton) to
Weymouth, inclusive, of a Deanery
Parish Magazine, with the Rev. R. A.
Miller, rector of Middleton, as gen-
eral Editor. We are informed that
the first issue was so well received,
that remained quite a number to be
called on when the issue had all been
used. Miss Hamilton kindly under-
took the distribution for Bridgetown,
and either she, or Canon Underwood,
will gladly give (or receive) infor-
mation regarding the Magazine, and
take subscriptions. Quite a number
have already become annual subscrib-
ers.

In Kings College Mock Parliament,
one of our Bridgetown boys, Charles
LeBrun, received the Cabinet appoint-
ment as Minister of Labor and In-
dustry.

Among successful deer hunters, we
understand, are Messrs. J. I. Fester,
O. P. Covert.

Mr. Louis Brooks, who has been
with the Brockway-Smith Corpora-
tion for over a year, has, during that
time received promotions. A short
time ago he was appointed foreman
of the sash room, in which fifty men
are employed, and has been sent on
a number of out of town commissions
by his firm, which is one of the large-
est of its kind in the United States.

The departure of Mr. and Mrs. Brooks
and family from Bridgetown was
much regretted, but their many
friends here are pleased to learn that
Mr. Brooks' services are so highly
appreciated by his Massachusetts
employers.

A very delightful surprise was
given Rev. and Mrs. F. E. Roop on
Friday evening, October 9th, when
about thirty-five of their friends
gathered to celebrate their twenty-
fifth wedding anniversary. A very
enjoyable evening was spent in games
and music. They were presented with
a silver casserole and a sum of money
also a bouquet of roses and ferns.
After this dainty refreshments were
served. The party broke up by sing-
ing Auld Lang Syne—Acadian.

On Tuesday, November 3rd, at 8
p.m., the ladies of the Rink Commit-
tee held a "Bridge" and Auction 45'
in the Ruggles Block. A cordial
welcome is extended to all. Tickets
50c. Refreshments will be served.
The proceeds go to the Rink Fund.
30-11c.

Middleton G. W. V. A. and ex-
service men will hold a parade and
Memorial Service on Sunday, Nov.
8th, at 2 p.m. All returned men in
vicinity are invited to be present and
will meet at the American House,
Middleton, at 2 p.m. A band will in
all probability be secured for the
occasion and it is the intention to
have a firing party.

NOT NEW—BUT THE TRUTH

(St. John Globe)

Some experts contend that good trading facilities build population and real estate values; others say that good stores follow population, but again, all agree that local prosperity can never come until adequate trading facilities are established.

Good stores are the life of any community. Moreover we know we cannot have good stores if they are not profitably supported. No town was ever built by its inhabitants sending their money out of town. A dollar spent in town travels from the home to the grocer, to the butcher, then to the hardware merchant, and so on around the whole wheel of home trade. Spent in town the dollar remains in the town and adds to the town's wealth. By and by some man gathers enough of these floating home town dollars, builds another home or makes an addition to his store, and so values increase, benefiting everybody. Spend out of town the dollar has gone forever.

There are some folks who buy their spoils of cotton and now and then a yard or two of goods at home, but when they want to buy a fur coat or a piano they get out the mail order catalogue or go out of town. They use the home town merchants to fill their petty needs but when he has a chance to make a reasonable profit, they forget him. It's scarcely fair, is it? And if it is, it isn't very sensible. We are all working together to make the home town brighter and better and the property of everyone, our own included, more valuable.

We may have our differences of opinion in matter of politics; we may not agree on the subject of religion; some of us have notions that other folks think are crazy and other folks have ideas we think lack in sound reasoning; but on one point we are all agreed: we all want to see our home-town grow and prosper.

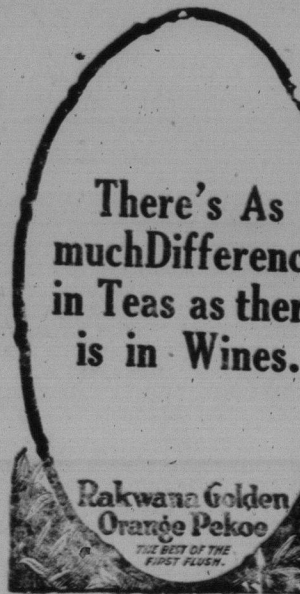

Press Comment

WORKSHOP AND SCHOOLROOM
London Daily Mail (Rothermere, Ind.)—The true object of education should be to build up character and promote intelligence, energy and mental discipline. The workshop and the farm may often be a better school than the classroom for all but the exceptional pupils who have a real bent for learning and study. By all means let us give due scope to these latter, but let us recognize that they are not typical, and that it is futile to proceed as if all children have an aptitude for book-learning and need as much of it as can be supplied to them.

SOUND AT HEART

London Daily Express (Beaverbrook, Ind.)—The British people are absolutely sound at heart. The majority of trade unionists are far more sensible than their leaders, and the majority of the leaders are far more sensible than the masses. Only they do not talk so much. But then Englishmen of all classes do not in moments of grave crisis like, trust or follow men whose only title to distinction is the habit of irresponsible loquacity. So that the Red revolution to be accomplished through

There's As much Difference in Teas as there is in Wines.

Rakwana Golden Orange Pekoe

the medium of the trade unions is a myth.

BALANCE OF POWER
J. A. S. in the Westminster Gazette (Mod. Lib.)—Unless Germany makes up her quarrel with France and comes on equal terms into the League of Nations. . . . It is almost certain that she will one day make common cause with Russia, and establish a formidable equisite to the French group of powers. This may look remote, but so did the Franco-Russian Alliance in the days of the Dred-Kaisers, when all the wise men were convinced that the union of Czarism and French democracy was a total impossibility.

COMPOUNDING WITH CREDITORS.

Rome Popolo d'Italia; France and Italy are placed in different circumstances from those which govern Great Britain and Belgium, for the two latter nations have only to liquidate a war debt owing to the United States, while the governments of Paris and Rome have borrowed money from Great Britain in addition. It is a logical result that the sums which France and Italy are in a position to put aside for the liquidation of their debts should be available for the payment not only of their debts to the United States, but also of those owing to Great Britain.

ONE RUSSIAN VIEW

Moscow Izvestia: America tries to enter upon closer relations with Britain's self-governing Dominions so as to prepare thereby an eventual dismemberment of the British Empire. Thus, slowly but systematically, the United States is laying the foundation for, and enlarging the scope of, its political influence all over the world. In the Far East, America pursues the same policy; it tries to establish its economic, military and naval preponderance, and by means of pacifist and humanitarian declarations it undermines the position of its competitors and "friends" so as to strengthen its own position.

THE FACE IN THE PULPIT

London Daily News: One has some sympathy with the cleric, who, re-buked for his unfortunate facial expression in the pulpit, has restored by inviting the "middle-faced Christian" in the congregation to "come up and try for themselves." . . . It must be very hard for a preacher to know exactly what countenance his congregation expect him to wear. A cheerful countenance is held by some people—and they are not a few—a grave offence. We have known doctors to whom it has proved a serious handicap; and at least one celebrated specialist, whose insistent gloom was warmly appreciated by his patients.

CANADA'S APPLE CROP PRODUCTION

Yield for 1925 Estimated Three Per Cent. in Excess of 1924

CROP: 2,950,335 BARRELS

Export Business Promises to Be Larger, With England and Continent Cross Below the Average.

OTTAWA.—Canada's commercial apple crop for this year is now estimated at an increase of three per cent. over 1924, or 2,950,335 barrels, and seventy-five per cent of a five-year average, according to the fruit and vegetable crop report just issued by the Department of Agriculture.

All provinces show a decrease, except Ontario, where there is an increase of approximately one-half million barrels. The greatest decrease is reported from Nova Scotia with over 276,000 barrels less than last year. The apple crop in England and continental Europe is below average. These conditions, it is stated, point to a steady outlet for Canadian apples on the export markets and, providing there are no industrial disturbances between now and spring, the demand should be good with orderly marketing.

With the crop in Nova Scotia considerably below average and the Virginias, the principal exporting barrel states, with only 50 per cent of a crop, it is expected Ontario will resume its former position of an exporting province.

A recent survey of British Columbia's commercial apple crop conditions shows the crop to be better than anticipated earlier in the season and is estimated at 2,318,158 boxes. The heaviest crop is reported from the southern Okanagan and the Narrows Lakes district, while decreases owing to winter injury are found in Salmon Arm, northern Okanagan, Creston and Grand Forks districts. The crop situation in the lower Fraser Valley, Vancouver Island and along the mainland of the C. P. R. from Lytton to Ashcroft, B. C., is lighter than last year. Fruit is of good quality and color throughout the province.

The commercial apple crop in Ontario is now placed at 174 per cent, or 1,199,856 barrels, compared with 684,510 in 1924, and 1,242,698 of a five-year average. Weather conditions, especially during the past month, have been very favorable to the sizing and coloring of the fruit.

In Quebec, the crop is now estimated to be 99.5 per cent, or 70,553 barrels, as compared with 71,175 barrels in 1924. Weather conditions continued favorable during September with the result apples have improved in size and are of good quality.

In New Brunswick, the crop is estimated at 55,433 barrels, which is 80 per cent of 1924. The fruit promises good size and color, although there is some developing. However, there is expected to be a fair percentage of high grade fruit packed.

SIXTEEN RULES FOR HEALTH

There really should be no such person as the "tired business man." Even the man who expends great mental energy daily in solving important business problems should not, for that reason alone, find himself "all in" when the day's work is done. These rules are the groundwork of a healthful living programme to be followed after any unfavorable physical factor has been eliminated from the body:

1. Ventilate every room you occupy.
2. Wear light, loose, and porous clothes.
3. Seek out-of-doors occupations and recreations.
4. Sleep out-of-doors if you can.
5. Avoid overeating and overweight.
6. Avoid excess of high protein foods, such as meat, fish, eggs; also excess of salt and highly-seasoned foods.
7. Eat some hard, some bulky, some raw foods daily.
8. Eat slowly and taste your food.
9. Use sufficient water internally and externally.
10. Secure thorough intestinal elimination daily.
11. Stand, sit and walk erect.
12. Do not allow poisons and infections to enter the body.
13. Keep the teeth, gums and tongue clean.
14. Work, play, rest, and sleep in moderation.
15. Breathe deeply take deep-breathing exercises several times a day.
16. Keep serene and whole-hearted.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 230,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 88 per cent replied "Yes."

This means that 88 out of every 100 women are in better health because they have given this medicine a fair trial.

CANADA'S GOLD PRODUCTION IN 1924

The production of gold for the year 1924 as reported by the Dominion Bureau of Statistics, showed an output of 1,525,380 fine ounces valued at \$31,532,402, an increase of 24 per cent above the total of the previous year.

The production in 1924 was the greatest in the history of Canada. In the year 1900 when the production of the Yukon placers was at its height, the total lode and placer gold produced in Canada was 1,500,657 ounces valued at \$27,598,152.

Grain figures issued by the Harbor Commission of Montreal show that on August 1st all grain shipment records were broken by one day's delivery of 2,277,712 bushels of grain to outgoing ships. Harbor officials state that this is the first time that grain shipments in one day have topped the two million bushel mark.

Installation of machinery at the new annex of the Dominion Textile Mill at Montmorency Falls, Quebec, will be started by January first next. About 300 additional employees will be required to operate the plant. At present there are about 1,300 employed at the mills.

A prophecy that the Orient would become in the very near future a really large importer of Canadian wheat was made recently by Hon. Dr. J. H. King, Minister of Public Works. In predicting, increased Orient trade in grain, Dr. King pointed out that imports of wheat from Canada for 1923-1924 increased by 400 per cent.

Over fifteen thousand men left the east on the first harvesters excursion from the east to the wheat fields in the middle of August. Four other excursions are to follow from Toronto later in August and September, when it is expected that the majority of the remainder of the 50,000 men required for the harvest will travel west.

British teachers touring Canada under the auspices of the Overseas Educational League are now enjoying all the various forms of entertainment to be found in the Canadian Pacific Rockies. They have been riding trails, hiking, fishing, motoring, bathing in the sulphur springs at the Banff Springs Hotel and were the guests at a dinner there given by J. M. Gibbon, secretary of the Trail Riders of the Canadian Rockies.

Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financial prospects of a good crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion were some of the reasons offered by New York financial experts for the consistent above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

The total number of students in Canadian universities and colleges in 1924, was 52,639, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion Bureau of Statistics. Under the category of colleges, the total number in 1924 was 83. Of this total six are agricultural, one for pharmacy, one for veterinary science, 28 theological, 39 affiliated, one school for higher commercial studies, one college of art and one military college.

During the coming winter Canada will see the debut of a new transportation device known as the Snow-motor. This consists of two hollow cigar shaped cylinders or drums to which flanges, resembling cork screws, are attached. These drums are fixed to an automobile or tractor in the place of the wheels and, by rotating actually float the machine over the snow. The snow-motor is regarded as especially valuable in the transportation of lumber; it can operate in countries where other methods of transportation are impossible or too costly and can also make roads which other vehicles can use. It is manufactured in Detroit and will be on the market in Montreal during the coming winter.

DR. BUSTARD URGES RELIGION IN SCHOOL
Only Way to Stop Crime, He Tells Baptists.
Boston.—The tide of criminality that is sweeping over the country can be stemmed only when Jesus Christ is enthroned in educational institutions. Rev. Dr. W. W. Bustard told the opening meeting of the Boston Baptist Social Union in Ford Hall last night. Pres. Alvin F. Pease presided.

Dr. Bustard said that the schools of the country are Godless and the colleges without religious influence. The colleges have plenty of culture, but if culture would have saved the world it would have been saved long ago, he said.

There is little use in talking about world peace without ever mentioning the Prince of Peace. Christ must be enthroned in politics, education and industry before there will be any possibility of permanent peace, he asserted.

Dr. Bustard said the American home has changed for the worse and that this is an important factor in the creation of the young gunmen with whom the country is infested. He pictured criminality attacking the young gunmen are not the old tough robbers, but young men who have forgotten Christ.

ALPINE CLUB OF CANADA ENJOYS RECORD MEET

(Upper) Abbotts Pass Hut and (Lower) Camp. (Lower) Director V. B. Moffatt reports at the annual meeting. (Inset) Mr. Wheeler, vice, congratulates Capt. MacCarthy, who just returned from capturing Mount Logan.

"The camp this year was one of the best climbing camps we ever had," said T. B. Moffatt, recording the outing of the Alpine Club of Canada, at Lake O'Hara, this summer. The weather was ideal and there was work for all classes to do, hikes to Lake McArthur and Ossa, and to the Oribin Pass. The shorter climbs were available for the graduates, such as Shafer and Orlary. The more seasoned climbers had Huber, Victoria, Lefroy and Hunabee.

The high mountains were in a better condition this year than they have ever been before owing to the scarcity of ice. From 50 to 60 members were out every day climbing, the two days' trip over the passes being very popular, through the courtesy of the Canadian Pacific Railway, which placed its hut, situated at the top of the Abbot Pass, at the disposal of the members, the work of climbing was greatly facilitated.

The annual business meeting of the Club was held at Lake O'Hara Camp on August 25th. This was an auspicious occasion, for Captain MacCarthy, leader of the Mount Logan expedition and Henry S. Hall, one

ST. PIERRE AND MIQUELON "ISLANDS OF MYSTERY"

Tales of Runa Running, Piracy and Shipwreck Keep Their Name in Print.

St. Pierre—Now and again, or rather more frequently, the chronicles of events on the New England coast mention St. Pierre and Miquelon. It is usually a rum runner captured by the coast-guard, a tale of piracy, or a shipwreck. So by these little two and three masted schooners the only French territory in all North America contrives to keep its names bobbing into print.

It is always "a schooner from Miquelon," and little is learned of the town and land which send adventurers forth. It is safe to say that no place with an area equal to the 93 square miles of the Miquelon group with its scant 6000 inhabitants has a history more crowded with adventure, with hardships endured and conquered, with picturesque custom and mode of life.

Even Captain James Cook, that master adventurer of England who opened to the envious eyes of the world the simple delights of the South Seas, played a chapter in the history of the Miquelon Islands, France first occupied these gorse grown fragments of granite, 15 miles from the south coast of Newfoundland, in 1669. In 1702 the British took the fortifications erected against them only two years before and administered the land until 1763.

It was in that year that James Cook, already well on his climb from obscure birth to high rank as ship master and surveyor, was chosen to make a final survey of the islands before they were turned back to France. He found the new governor, M. D'Alou, with the rebellious colonists already in St. Pierre Harbor aboard a frigate and transports. It was contrived however to keep them cooped up aboard for a month while Cook ran his lines. Then the reins were handed to France.

But the little islands were not to be overlooked during the next sixty years. In 1775 the English descended on them and burned the settlement; in 1783 the treaty of Versailles restored them to France; in 1793 the British repeated their depopulating act; in 1802 France regained possession but lost them next year; and finally they came to peace with human destroyers under the tri-color in 1814 by the peace of Paris.

The war of human desire for land and conquest was only an incidental affliction of the islands. At all

times a grimmer battle is waged against the elements which sweep the land with such cruel winds that only the gorse can grow. The gazetteers of 20 years ago said "almost the sole occupation of the inhabitants is fishing." Only in that way did nature provide a living in the vicinity, which still must be wrung precariously and meagerly in the face of great odds against life and health.

It remained for its greatest continental neighbor to brighten the prospects for the Saint Perrols, The United States passed a prohibition law. Overnight, it seemed, St. Pierre regained in the eyes of America the importance it had lost since the last treaty changed its flag.

Visitors poured in on business and pleasure. Its strategic location made it the chief warehouse in one of the largest businesses between Europe and America. Ships brought in huge bottled cargoes and deposited them in its warehouses. A little later after contributing a tax schooner loaded at the St. Pierre piers for ports not too definitely announced. Times were good. The trade had little protection on the high seas however, and piracy was added to the dangers of storm.

Since the early summer drive against the rum rows the business at St. Pierre has fallen off, although it has not stopped. Many ships resumed their fishing in the season which is drawing to a close. So all Miquelon hangs with interest on conditions in the United States and hopes fervently that prohibitions will not be too harshly enforced.

EASY MONEY

The newspapers recently carried a story about a man in Florida making a fortune in real estate in a few hours. He bought a tract of beach land containing 115 acres for \$3,000,000, paying \$1,000,000 in cash. He subdivided the tract into 700 lots and announced a sale to an expectant throng of smaller speculators. Eight hours after the sale opened the lots had been disposed of for the tidy sum of \$10,997,000, thus netting for the operator a gross profit of \$7,997,000.

Would not that make a fine and edifying illustration for those moral maxims which used to adorn the top of the page in the copy-books of the old-fashioned schools? How well it fits into that exhortation to thrift, "Take care of the pennies and the pounds will take care of themselves." How aptly it demonstrates that "There is more art in saving than in gaining." How beautifully it proves that "To have you must save."

In Florida, as elsewhere on this continent, there are men working their hearts out on the land. They are producers; they are making the land subserve the absolute necessary requirements of mankind. They are producing food and the raw materials of clothing. They find it no sinecure. They are burdened with mortgages and heavy taxes. They are frequently the victims of uncertain markets and prices that do not meet the costs of production.

The real estate agent in Florida never intended to use the land he bought. He had a far better scheme than that for making the land pay. He bought it in a chunk and sold it in small pieces to people who wanted it for purposes of pleasure. He made \$8,000,000 in eight hours on 115 acres. He made as much in those eight hours as 25,000 farmers will make off a similar acreage in a year, and a good year at that. He did not add a cent to the wealth of the world. He fed nobody, he clothed nobody, he housed nobody. He hired some men to drive a few stakes into his land and the operation made him a multi-millionaire. Society did not benefit in the slightest degree by his energy, his enterprise or his ability. He simply got away with \$8,000,000 of unearned money because the law permits people to make money in that way. He appropriated for himself a socially created value.

Some day, when we have a real democracy, society will not allow individuals to appropriate values that are created by society itself, and when that day comes the speculator in real estate will find himself compelled to go out and do some useful work if he would live.—Grain Grower's Guide.

WHAT GOOD ROADS MEAN TO OUR CITY

(By Frederick Bente, Director Federal Trust and Savings Bank at Hollywood.)

When Caesar took a northern ride and grabbed the Gauls for Rome. What was the first thing that he tried to make them feel at home? Did he increase the people's loads and liberty forbid?

No, he dug in and built good roads—THAT'S what old Caesar did.

Did Caesar plant his iron heel upon the freeman's breast, Or did he try to make them feel that Roman rule was best?

What did he do to make them glad he came their lands amid? He made good roads replace the bad THAT'S what old Caesar did.

He built good roads from hill to hill—good roads from vale to vale, He ran the good roads movement till Rome got all the kale.

He taught the folks to buy at home—built roads their ruts to rid, Until all roads led up to Rome—THAT'S what old Caesar did.

If any town would make itself a place upon the map, Where folks will come and bring their pelf and live in plenty's lap, If any town's its own abodes of poverty would rid, Let it DIG in and build good roads Just like old Caesar did.

QUESTING

Westward of the sunset, where the sea is ever blue, Somewhere sails a galleon, with an ear-ringed, grizzled crew, Living over lives of strife, as deep-sea sailors do, For moldores, moldores of Spain!

Down the breeze comes cutlass-clash, oath and tetter-clank, Boom of belching culverin, creak of straining plank, Shrieking, scream of captive maid, splash as bodies sank, For moldores, moldores of Spain!

Click or dice on blood-stained planks, drinking chorus roared, Snap of skull-flag aloft, toast of all aboard, Crash of shattered treasure chest, and clink of golden hoard, Of moldores, moldores of Spain!

Down, and blood-red waves a-swirl, cleft by sharp black fin; Dusk, and crimp of light-o'-love, ravening tribe of sin, Quick to follow buccanniers, rolling boldly in, With moldores, moldores of Spain!

How escape the debtors chains? How forget despair? How avoid the ghastly dance jigged on empty air? Ship with fortune's gentlemen, and seek the beauty rare, Of moldores, moldores of Spain!

Westward of the sunset, those tall ships ever ride, Manned by blades in lace and rags, poverty and pride—Gentlemen of Fortune, who lived the life and died, For moldores, moldores of Spain!

Miss Isabell Williams, of Digby, spent the week end at the home of Mr. and Mrs. Elmer Weir.

Earl Cossaboom and Donald Cossaboom left on Friday to resume their duties in U. S. A.

Miss Florence Cossaboom, who is teaching in Weymouth North, is spending a week at her home here.

Douglas Cossaboom left on Saturday, October 3rd, for Wolfville, where he is attending Acadia Collegiate Academy.

Elmer Weir spent several days last week at North Range, buying vinegar and evaporator apples.

The W. M. A. S. met on October 25th, at the home of Mrs. Minard Weir. A successful meeting was held in spite of the bad storm which prevailed.

The Women's Institute met on Tuesday last with Miss A. Cumming. Mrs. Minerva Sallis is spending some months at the home of Mrs. George Austin.

We are sorry to report Mrs. Oscar Morcan still very ill, after being confined to her home for eight months or more.

Miss Josephine Winchester is attending the Provincial Normal College at Truro.

TOURIST TRAFFIC WAS VERY HEAVY

Two Million American Citizens Visited Canada During September

Ottawa.—The following statement was handed out by the Department of Immigration:

"Canadians continue to return to Canada from the United States in large numbers. Although September returns are not yet complete, it is estimated that in that month alone 2,000 Canadians who had been resident in the United States for more than six months returned to Canada declaring their intention of remaining permanently in this country.

In the same period about 1800 persons entered Canada from the United States as immigrants, largely of the agricultural class, and bringing with them cash and effects to enable them to begin farm operations in Canada.

"Some idea of the traffic in tourist and non-immigrant classes is gained from the fact that it is estimated that in September two mil-

lion persons of these classes entered Canada from the United States. "While the movement to Canada is increasing, the movement of Canadians to the United States is falling off very sharply."

At one of the principal boundary ports the Canadians, both native born and naturalized, admitted to the United States during the fiscal year ended June 30th, 1924, numbered 25,390. For the fiscal year ended June 30th, 1925, the number of Canadians admitted to the United States at the same time numbered 14,708—a falling off of practically fifty per cent.

Makes Many Warm Friends

COMFORT

AFTER all, home is home—a place of genial warmth, perfect protection from winter's biting cold.

And home is only half a home if you have to sit around in shivering discomfort, wearing a thick, heavy sweater coat.

Perfect home comfort is now easy to have. The new Gilson "Magic" Tungsten Plate Furnace gives heating efficiency never before attained. Twenty-six patented features—all striking improvements—over old-style furnaces.

Gives quicker heat, cleaner heat, more heat. Costs less to buy, less to install, less for fuel. Burns hard or soft coal, coke or wood. Pipe-less or pipe style. Easy monthly payments if desired.

TO THE ELECTORS OF DIGBY-CLARE-ANNAPOLIS

LADIES AND GENTLEMEN:

I come to you again as the Candidate of the Liberal Party in the approaching Federal Election, soliciting your support and votes, and hereby renew my pledge of unremitting devotion and effort in the interest of this Constituency and Province. Never has any administration in Canada accomplished so much against such tremendous odds as has the King Government during the past four years.

Without a working majority in Parliament, with a legacy of debt, and consequent annual sinking fund and interest charges, greater than the National debt before the war, with the Whole Civil Service and administration permeated with the idea of extravagance and loose business methods, caution and economy unknown, we found progress and efficiency blocked by a so-called Civil Service Act, or THE TORIES. BY THE TORIES, and FOR THE TORIES.

In SPITE of the foregoing we have reduced:

- The operating expenses of Government.
- Reduced the Public Debt.
- Reduced Taxes.
- Increased Immigration.
- Increased Prosperity and business.
- Reduced and reversed McPherson's deficits.
- Changed Canadian National Railway from a political football to a soundly administered Railway.
- Changed operating deficits to surpluses.
- Turned the balance of Trade in Canada's favor.
- Reduced interest rates on Public Debt.

MADE CANADA'S DOLLAR THE BIGGEST IN THE WORLD.

I stand for the original Laurier Liberal Principles, the backbone and basis of Canada's greatest era of prosperity. CANADA FOR THE CANADIAN PEOPLE—NOT for the Canadian Corporations, or any of the big interests.

I stand for the right of the people to live, not to be protection taxed for the benefit of Montreal and Toronto, but, to eat food, wear clothes, and have life's necessities, on a fair basis.

We cannot have free trade under our present National conditions and obligations. I stand for a Revenue Tariff, not high protection, which favors special interests.

As a Liberal I stand and work for Maritime Rights. The Tories should be for Maritime Rights, also, for they gave us all our Maritime wrongs. Who gave us the Raw Deal we got in the Confederation Pact? THE TORIES.

Who killed Reciprocity in 1911? THE TORIES.

Who killed the I. C. Railway for us and gave us our Railway problems? THE TORIES.

Having regard to the conditions of the Country and its treasury, I have done more for this Constituency than any previous Member.

You sent me to Ottawa four years ago with the largest majority ever given a Member from this Constituency. Do it again on October 29th, vote for the welfare of this Constituency, for NOVA SCOTIA AND OUR COUNTRY.

I am,
Yours faithfully,
L. J. LOVETT

UNITED CHURCH NOTES

Twenty bright, lively, boys make
 up the Trail Rangers Group of Gor-
 don-Providence United Church, this
 fall so far. The mentor, Mr. Archi-
 bald, is justly proud of his boys, and
 right well are the boys proud of their
 mentor. Mr. Archibald's career in
 boys work, has been a particular
 brilliant one. The boys who have
 come under his touch in school and
 church work are, in large numbers,
 a credit to the town of Bridgetown.
 On Friday evening last, the "Truth
 Seekers" as the Rangers call them-
 selves, held a most successful ban-
 quet in the Sunday School Hall. With
 the exception of one or two, the boys
 were all present, and report "a great
 time." The table was richly supplied
 and beautifully arranged by Mrs.
 Bath, Mrs. Archibald and assisted by
 the C. G. I. T. girls. After supper,
 several of the boys entertained the
 audience with recitations and music
 in excellent fashion. "A sing song,"
 led by Mr. Maurice Armstrong, a
 Tuxis boy of recent years, was in
 every sense of the word "up lifter".
 Mrs. F. E. Bath, the ever faithful,
 and one who but recently cared for
 these boys, made a very effective
 speech. A very telling address was
 given by Mr. Maurice Armstrong, who
 seemed in his very element among
 the boys. This is one of the town
 boys before whom is opening up a
 most brilliant career. Prepossessing
 in appearance, clear as a thinker,
 easy and direct in speech, most
 sociable in approach. His sermon on
 Sunday morning in Gordon-Providence
 United Church, and his ad-
 dresses elsewhere, have made a deep
 impression upon all.

OBITUARY

Mrs. DeForest Milbury

It is our sad duty to record the
 death of Mrs. DeForest Milbury, nee
 Alvena Wilson, who passed away at
 the Memorial Hospital, Middleton, N.
 S. at 10.30 Saturday morning, after
 a very brief illness of a few weeks.
 She had not been feeling well for
 some time, but on Friday of last
 week, was removed to the Memorial
 Hospital, Middleton, N. S., where all
 that medical aid could do was done,
 but she succumbed on Saturday.
 Mrs. Milbury was a daughter of the
 late Hiram and Mrs. Mary Wilson, of
 this town. Her remains were brought
 home on Sunday, by her sorrowing
 husband. Mrs. Milbury was well
 liked by all who had the pleasure of
 her acquaintance. She leaves to
 mourn, a husband and two sons,
 Burton, in the West, Percy, at home,
 and one daughter, Mrs. John Mc-
 Laughlin, in the United States, an
 aged mother, of Bridgetown, two sis-
 ters, Mrs. Holmes Lee and Mrs. Her-
 man Vidto, of this town, four bro-
 thers, George, in the States, Fred-
 erick, of Clarence, Joseph, of Spring-
 hill, and Rupert, of Berwick, for
 whom much sympathy is felt in their
 sad and very sudden bereavement.

OBITUARY
 Mrs. DeForest Milbury

It is our sad duty to record the
 death of Mrs. DeForest Milbury, nee
 Alvena Wilson, who passed away at
 the Memorial Hospital, Middleton, N.
 S. at 10.30 Saturday morning, after
 a very brief illness of a few weeks.
 She had not been feeling well for
 some time, but on Friday of last
 week, was removed to the Memorial
 Hospital, Middleton, N. S., where all
 that medical aid could do was done,
 but she succumbed on Saturday.
 Mrs. Milbury was a daughter of the
 late Hiram and Mrs. Mary Wilson, of
 this town. Her remains were brought
 home on Sunday, by her sorrowing
 husband. Mrs. Milbury was well
 liked by all who had the pleasure of
 her acquaintance. She leaves to
 mourn, a husband and two sons,
 Burton, in the West, Percy, at home,
 and one daughter, Mrs. John Mc-
 Laughlin, in the United States, an
 aged mother, of Bridgetown, two sis-
 ters, Mrs. Holmes Lee and Mrs. Her-
 man Vidto, of this town, four bro-
 thers, George, in the States, Fred-
 erick, of Clarence, Joseph, of Spring-
 hill, and Rupert, of Berwick, for
 whom much sympathy is felt in their
 sad and very sudden bereavement.

FRANK OUELLET

LAWRENCETOWN, N. S.

Nova Scotia First TO THE ELECTORS OF DIGBY-CLARE-ANNAPOLIS

LADIES AND GENTLEMEN--

I come to you again as the Candidate of the Liberal Party in the approaching Federal Election, soliciting your support and votes, and hereby renew my pledge of unremitting devotion and effort in the interest of this Constituency and Province. Never has any administration in Canada accomplished so much against such tremendous odds as has the King Government during the past four years.

Without a working majority in Parliament, with a legacy of debt, and consequent annual sinking fund and interest charges, greater than the National debt before the war, with the Whole Civil Service and administration permeated with the idea of extravagance and loose business methods, caution and economy unknown, we found progress and efficiency blocked by a so-called Civil Service Act, of THE TORIES, BY THE TORIES, and FOR THE TORIES.

In SPITE of the foregoing we have reduced--

The operating expenses of Government.

Reduced the Public Debt.

Reduced Taxes.

Increased Immigration.

Decreased Emigration.

Increased Prosperity and business.

Reduced and reversed Meighen's deficits.

Changed Canadian National Railway from a political football to a soundly administered Railway.

Changed operating deficits to surpluses.

Turned the balance of Trade in Canada's favor.

Reduced interest rates on Public Debt.

and

MADE CANADA'S DOLLAR THE BIGGEST IN THE WORLD.

I stand for the original Laurier Liberal Principles, the backbone and basis of Canada's greatest era of prosperity. CANADA FOR THE CANADIAN PEOPLE--NOT for the Canadian Corporation, or any of the big interests.

I stand for the right of the people to live, not to be protection taxed for the benefit of Montreal and Toronto, but, to eat food, wear clothes, and have life's necessities on a fair basis.

We cannot have free trade under our present National conditions and obligations. I stand for a Revenue Tariff, not high protection, which favors special interests.

As a Liberal I stand and work for Maritime Rights. The Tories should be for Maritime Rights also, for they gave us all our Maritime wrongs.

Who gave us the Raw Deal we got in the Confederation Pact? THE TORIES.

Who killed Reciprocity in 1911? THE TORIES.

Who killed the I. C. Railway for us and gave us our Railway problems? THE TORIES.

Having regard to the conditions of the Country and its treasury, I have done more for this Constituency than any previous Member.

You sent me to Ottawa four years ago with the largest majority ever given a Member from this Constituency. Do it again on October 29th, vote for the welfare of this Constituency, for NOVA-SCOTIA AND OUR COUNTRY.

I am,
Years faithfully,
L. J. LOVETT

UNITED CHURCH NOTES

Twenty bright, lively, boys make
up the Trail Rangers Group of Gor-
don-Providence United Church, this
fall so far. The mentor, Mr. Arch-
bald, is justly proud of his boys, and
right well are the boys proud of their
mentor. Mr. Archbald's career in
boys' work, has been a particular
brilliant one. The boys who have
come under his touch in school and
church work are, in large numbers,
a credit to the town of Bridgetown.
On Friday evening last, the "Truth
Seekers" as the Rangers call them-
selves, held a most successful ban-
quet in the Sunday School Hall. With
the exception of one or two, the boys
were all present, and report "a great
time." The table was richly supplied
and beautifully arranged by Mrs.
Bath. Mrs. Archbald and assisted by
the C. G. I. T. girls. After supper,
several of the boys entertained the
audience with recitations and music
in excellent fashion. "A sing song,"
led by Mr. Maurice Armstrong, a
Taxis boy of recent years, was in
every sense of the word "up lifters."
Mrs. F. E. Bath, the ever faithful,
and one who but recently cared for
these boys, made a very effective
speech. A very telling address was
given by Mr. Maurice Armstrong, who
seemed in his very element among
the boys. This is one of the town
boys before whom is opening up a
most brilliant career. Prepossessing
in appearance, clear as a thinker,
easy and direct in speech, most
sociable in approach. His sermon on
Sunday morning in Gordon-Provi-
dence United Church, and his ad-
dresses elsewhere, have made a deep
impression upon all.
Mr. and Mrs. MacKinnon were pre-
sent at the Friday evening banquet,
and made a few helpful remarks.
Games were then played which were
greatly enjoyed, after which the
bright function closed with singing
the National Anthem.

UNITED CHURCH NOTES

Twenty bright, lively, boys make
up the Trail Rangers Group of Gor-
don-Providence United Church, this
fall so far. The mentor, Mr. Arch-
bald, is justly proud of his boys, and
right well are the boys proud of their
mentor. Mr. Archbald's career in
boys' work, has been a particular
brilliant one. The boys who have
come under his touch in school and
church work are, in large numbers,
a credit to the town of Bridgetown.
On Friday evening last, the "Truth
Seekers" as the Rangers call them-
selves, held a most successful ban-
quet in the Sunday School Hall. With
the exception of one or two, the boys
were all present, and report "a great
time." The table was richly supplied
and beautifully arranged by Mrs.
Bath. Mrs. Archbald and assisted by
the C. G. I. T. girls. After supper,
several of the boys entertained the
audience with recitations and music
in excellent fashion. "A sing song,"
led by Mr. Maurice Armstrong, a
Taxis boy of recent years, was in
every sense of the word "up lifters."
Mrs. F. E. Bath, the ever faithful,
and one who but recently cared for
these boys, made a very effective
speech. A very telling address was
given by Mr. Maurice Armstrong, who
seemed in his very element among
the boys. This is one of the town
boys before whom is opening up a
most brilliant career. Prepossessing
in appearance, clear as a thinker,
easy and direct in speech, most
sociable in approach. His sermon on
Sunday morning in Gordon-Provi-
dence United Church, and his ad-
dresses elsewhere, have made a deep
impression upon all.
Mr. and Mrs. MacKinnon were pre-
sent at the Friday evening banquet,
and made a few helpful remarks.
Games were then played which were
greatly enjoyed, after which the
bright function closed with singing
the National Anthem.

OBITARY

Mrs. DeForest Milbury

It is our sad duty to record the
death of Mrs. DeForest Milbury, nee
Alvonia Wilson, who passed away at
the Memorial Hospital, Middleton, N. S.,
at 10.30 Saturday morning, after a
very brief illness of a few weeks.
She had not been feeling well for
some time, but on Friday of last
week, was removed to the Memorial
Hospital, Middleton, N. S., where all
that medical aid could do was done,
but she succumbed on Saturday.

Mrs. Milbury was a daughter of the
late Hiram and Mrs. Mary Wilson, of
this town. Her remains were brought
home on Sunday, by her sorrowing
husband. Mrs. Milbury was well
liked by all who had the pleasure of
her acquaintance. She leaves to
mourn, a husband and two sons,
Barton, in the West, Percy, at home,
and one daughter, Mrs. John Mc-
Laughlin, in the United States, an
aged mother, of Bridgetown, two sis-
ters, Mrs. Holmes Lee and Mrs. Her-
man Vidito, of this town, four bro-
thers, George, in the States, Fred-
erick, of Clarence, Joseph, of Spring-
hill, and Rupert, of Berwick, for
whom much sympathy is felt in their
sad and very sudden bereavement.

\$5000 WORTH OF SCALLOPS SHIPPED

Digby.—During the month of September, over \$5,000 worth of scallops was shipped out of the port of Digby to the Upper Canadian Market, according to reports issued by the fishery officer. The price is very low at present, but if fine weather pre-

valds the men engaged in the industry will have a successful month. The demand for scallops this summer has been very good.

PROBLEMS OF THE DAY

There seems to be two big problems before the people today—where to park and where to jump.

TO THE ELECTORS OF ANnapolis-Digby-Clare

Having been Nominated at the largest and most enthusiastic Convention ever held in this Constituency to be a Candidate of the Liberal-Conservative Party to represent them in the forthcoming Election. You are aware that this is one of the largest Constituencies in area of any in the Province and it is therefore impossible for me to make a personal canvass of each section, and it is only by this means that I can present to you what policy I stand for if elected to be your representative in the next Parliament. There is one issue more important to Nova Scotia than all others and that is Maritime Rights and a revival of our industries. That is the issue that I stand for and shall work for and will use my best endeavours to secure for Nova Scotia a square deal. I will put Province before Party every time.

The Conservative Candidates throughout Nova Scotia have all declared themselves to support Maritime Rights and with a united stand on their part there is not the least doubt but what the interests of the Province will be thoroughly looked after, and if the Melgish Government is returned to power on October 29th, there will be a body of men pledged to see that we get our Rights.

Soliciting your support and if elected as your representative it will be my aim to bring about better conditions in this Province.

BERLIN WOMEN MOB A MOVIE MAN

1,000 Assail Proprietor Over Advertisement For Jobs.

Berlin.—The intervention of a police riot squad was necessary today to keep the proprietor of a moving picture theatre from being mobbed by a thousand irate women.

To provide attractive shows for his theatre during a "movie fair" which is to open here soon, the manager advertised in the Sunday papers that he desired "sixty presentable ladies." Early this morning there was a long queue of beauties outside the manager's office. Dismayed by such an unexpected response, he tried to reduce the number by announcing that only bob-haired girls between the ages of 16 and 20 were willing to dress as pages need apply.

This brought the disorder, the women declaring that these specifications were not mentioned in the advertisement, and that therefore they were entitled to be paid their carriage and for their time.

NERVOUS DEPRESSION

Why People are Low Spirited and Depressed.

Nearly all women and most men suffer at times from fits of depression and low spirits. Everything seems a burden; then come periods of nervous irritability, headaches and weariness. People who suffer this way lack vitality because their blood is poor and nerves are starved in consequence.

The only way the nerves can be reached is through the blood. By enriching the blood with Dr. Williams' Pink Pills the starved nerves are supplied with just the elements they need. This is proved by the experience of Mrs. J. E. Daddon, 12th Ave. east Vancouver, B. C., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back, and also suffered from frequent pains in the back of my head and neck. I was hardly able to do anything about the house. I would wake with a start in the night and my heart would flutter so that it almost choked me. I tried much doctor's medicine but it did me no permanent good. One day I read about Dr. Williams' Pink Pills and decided to give them a trial. These pills produced such a beneficial change in a short time that I kept taking them until I had used a dozen boxes. By this time there was such an improvement in my condition that friends would ask me what I was taking, and of course I was only too pleased to tell them it was Dr. Williams' Pink Pills. I am now feeling like a new person and am doing my own housework. We would not now be without Dr. Williams' Pink Pills in the house."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Newburgh, N. Y.

FIGHT SHY OF THIS MARRIAGE CERTIFICATE

Edmonton, Alta.—There is a marriage certificate in the office of the registrar of vital statistics which has three times been offered to prospective brides and three times refused. It bears the legend "Cancelled, no one will accept." And this because it is No. 12, in a new issue of certificates. One bride refused on the ground that she had had back luck enough already in her choice and anyway she was 13 years older than her husband, and one 13 in the deal was enough. The next couple said that usually they were not superstitious, "but in a thing like marriage you can't afford to take a chance." The third couple were from the country—two young things just starting life together. The tender-hearted registrar took a look at the blushing pair—started to ask the old question, and then stopped. He hadn't the heart to try to get rid of the unlucky thirteenth certificate to so young a couple. Besides, they wouldn't take it anyway.

CONTRACT GIVEN FOR NEW B. & V. LINER.

The Eastern Steamship Incorporated, of which the Boston & Yarmouth Steamship Co., Ltd., is a subsidiary, which has for several months been considering the building of one or two new ships for the Boston-Yarmouth service, has awarded to the Cramps Shipyard, Philadelphia, the contract for the first ship. The new liner, in every particular, will be the last word in marine architecture and will measure 375 feet long, 55 wide and 28 deep. The steamer will be twin screw, driven by geared turbines of sufficient power to give the ship a regular running speed of eighteen knots per hour. The new liner will also have large cargo capacity, including goodly refrigerator space for the carrying of perishable cargo and also room between decks for at least fifty large touring cars. The accommodations for the 900 passengers, which the ship will be certified to carry, will be superlative in every particular. There will be 248 rooms in all and among that number the plans call for eight with baths, twenty with toilets, while the balance will be fitted with running water. The saloon, which will be one of the beauty spots of the ship, will be on the main deck and is to be furnished to readily accommodate 200 persons at one sitting. The new steamer, in every respect, will, as stated, be, when completed, classed among the most modern ships on the coastwise trade. It is being built expressly for the tourist and freight business between Yarmouth and Boston during the summer season, and should make this old established and popular route between the United States and Nova Scotia a most attractive one to the traveller, whether tourist or otherwise.—Yarmouth Herald.

CARDINALS BAN ON TOUGH DANCES STILL HOLDS GOOD

Quebec.—The decree that the late Cardinal Beign established, putting a ban upon lascivious dances, still exists, declared Monsignor Lagueux, parish priest of St. Roch's, Sunday, in delivering a sermon upon dancing.

Monsignor Lagueux said that a belief existed that since the death of His Eminence Cardinal Beign, the ban was no longer effective. But such is not the case for the decree was still in force throughout the whole of Canada.

The dances that came under the ban included: The Camel Trot, the Bunny Hug, the Check to Check and the Shimmy.

SEA SERPENT JUST EELS

B. C. Indians Explain Reports of Marine Monsters.

Victoria, B. C.—Indians of the Queen Charlotte Islands off the coast of northern British Columbia, where "sea serpents" have been reported seen several times this year, have classified the monsters "as gigantic eels, according to a report received here by John P. Babcock, Deputy Commissioner of Fisheries.

The eels, according to the Indians, inhabit a slimy submarine cave at a point on one of the most northerly of the group of islands.

The aborigines say that several years ago they killed one of the fish which was more than 40 feet long.

THE NOVA SCOTIA BLUEBERRY:
IMPORTANT ARTICLE OF
EXPORT

Shipments From Province of Wild
Blueberries Have Reached Total of
Approximately \$200,000—Depart-
ment of Agriculture's Experi-
ments in Cultivation Promise
Successful New Industry.

By Clifford L. Baker
Recent sharp frosts and heavy
rains have brought to a linger-
ing end the 1925 Blueberry season.
For well-defined reasons, the crop
has been considerably smaller than
in 1924, and export shipments have
accordingly fallen off; nevertheless,
the blueberry holds its place (and
this may be a surprise to many)
as an important factor in the agri-
cultural and commercial life, particu-
larly in the western counties of the
Province.

Most of us have had more than a
passing acquaintance with the blue-
berry for many years, extending,
in fact, as far back as one can re-
member. Earliest recollections are
mingled with those of certain
"blueberry plenties," when it was
the custom for all the young people
of the family, including parents and
sometimes grand-parents, to join
in a happy, noisy harvesting expedi-
tion. These were great days!
With school-bags well-filled with
lunches, and milk pails for the
berries, off would go the whole crew
at sunrise for a long day on the
blue barrens. Other unforgettable
recollections have to do with certain
pies and "grants" and "frazz," that
resulted in very black mouths for
everyone, and, be it said, very broad,
contented grins. O yes! The blue-
berry holds a firm and honorable
place in the social life of Nova Sco-
tia. But as an article of export and
an important source of wealth—
well, some of us hadn't thought of
the matter in that light.

The common Blueberry, known
in England as the Whortleberry or
Bilberry; in Scotland, as the Lla-
berry; and in United States, as the
Huckleberry when given the dig-
nity of its botanical name is none
other than *Vaccinium Myrtillus*; but
for present purposes we shall try
to get along with the "nickname" of
"Blueberry" that we used at school.
The Blueberry, therefore, is indi-
genous in all parts of Nova Scotia,
especially in Halifax County, parts
of Cape Breton Island and in the
western counties, where the large
tracts of high barren land offer
ideal conditions for its growth and
propagation. It is chiefly in these
western counties where, due to fa-
vorable shipping facilities, the ex-
porting of this commodity has
grown to very considerable dimen-
sions. The districts which make a
"business" of shipping blueberries
may be roughly defined as the dis-
trict from Chester to Yarmouth on
the South Shore, and from Yarmouth
as far up as Aylesford along the
Dominion Atlantic route. Yarmouth
County is the largest pro-
ducer and shipper and, until re-
cently, Shelburne was a close
second. But Shelburne shipments
have fallen off during the present
year to a great extent.

In 1924, the total shipments of
blueberries, through the port of
Yarmouth, reached an aggregate of
17,442 crates of thirty-two boxes to
the crate. Shipments were also
made from other sections of the
Province, and it is legitimate to
assume that the grand total of ex-
ports in that year were well over
20,000 crates. These were practi-
cally all sold in the New England
market, and would have an esti-
mated value of around \$200,000.00.

During the past season (1925)
weather conditions have been un-
favorable in most of the districts,
and this, coupled with what appears
to be a temporary exhaustion of the
barrens, has resulted in a
greatly reduced harvest. Shipments
through Yarmouth, this year, total-
led approximately 11,000 crates, and
reports indicate heavy shipments
by rail from Amherst and other
points in Cumberland as well as
elsewhere; so that in the absence
of definite figures it may be said
that the exports for the current
year have been in the neighborhood
of 14,000 crates. Prices have varied
from \$7.00 per crate to \$11.00 per
crate, the higher prices being ob-
tained at the latter part of the sea-
son, when the somewhat earlier
New England crop season had run
out.

Yarmouth County as already
stated, produced the bulk of the
berries shipped, the harvest ship-
ments coming from the Argyle and
Quinan districts of the county. In
Shelburne, the crop was almost a
failure. Two years ago, over ten
thousand crates were shipped
from Shelburne points, while dur-
ing the present year less than 2,000
crates were forwarded. A happy
feature of the industry is the in-
creased interest being taken in it
by other and yet other sections of
the province. During the past year
or two, a considerable quantity of
berries has been coming from An-
napolis and Kings Counties, Ayles-
ford being the point furthest east
from which consignments were made
via Yarmouth.

Another cause for satisfaction is
the wide distribution of the income
from this source. Generally speak-
ing, it may be said that the pickers
share about half the proceeds of sale.
Of course, the actual price paid for
picking varies. The scale seldom
runs below eight cents per box, and
has run as high as twelve cents
on a really good "barren," a good
day's pay can be earned at these
rates. There are well-authenticated
stories of individual pickers hav-
ing picked (cleaned for packing
too) three crates in one day. Nine-
ty six boxes, think of it! This of
course is unusual, but one would
hesitate to say "impossible" on
those wonderful barrens, far back in
the country, where the berries hang
in great "ropes." To pick a crate
of 32 boxes in a day is by no means
a remarkable feat. It picking is at
all good.

The manufacture of from 10,000 to
20,000 crates and filters is a consid-
erable item of business for box and
sheet mills.
It is curious to drive through large
tracts of wild, and one would think
practically uninhabited country, and
see the frequent signs on fences and
trees, "Keep Out." These, of course,
mark the pastures and barrens
where many of the country folk reap
a rich harvest in the berry season;
and they are as jealously guarded as
even anyone guarded a patch of
choice strawberries. Here, during
the latter days of July, and during
the entire month of August and early
September, you may see entire fam-
ilies busy from sun to sun, gathering
the blue harvest.
From distant points shipments are
made to Yarmouth by express, usu-
ally through some local dealer. In
the less distant districts, shipments
are usually made through local
dealers who haul the berries to Yar-
mouth in motor trucks, but large
numbers prefer to drive in them-
selves and deliver their berries to
the buyers in Yarmouth town. So
it is that on a fine August day you
may see a picturesque procession on
the highway from Pubnico to Yar-
mouth. From early morning till
three o'clock p.m., a steady stream
of vehicles go by, motor trucks, big
and small, horse-drawn trucks, ex-
press wagons, Ford cars and rid-
ing wagons and ex-carts, each with
their load of from two to fifty crates
of the precious fruit.
The blueberry costs nothing to
produce. It is a free gift of Providence,
and as with the Mayflower, at-
tempts at cultivation result mere-
ly in stunted growth and premature
death. The failure of barrens is not
so serious, because it can be remedied
in a season simply by burning over
the ground. This is done systemat-
ically by many owners of "barrens,"
the ideal method being to have two
areas, burning them in alternate
years. This one area is always in
crop while the other is always in
new lot of plants. Burning must, of
course, be carried out under careful
supervision and under government
license. Then, too, a large part of
the blueberry crop is picked on crown
land. It should be possible for the
Crown Lands Department to co-op-
erate with the Fire Marshall and the
local folks in such a way that burn-
ing would be done as necessary.
Otherwise, these entire areas are
entirely barren and non-productive.

So important has this blueberry
industry become that the Dominion

Government Department of Agriculture
are has, during the past few years,
taken steps to foster and to aid its
development. Perhaps the most sig-
nificant and important development
has been the extensive cultivation
through the personal interest and ef-
fort of Paul L. Hattfield, ex-M. P.
for Yarmouth.

As already explained, the common
blueberry (*Vaccinium Myrtillus*)
grows on high dry land and requires
a "sour" soil. It will stand no cul-
tivation, whatever. There is, how-
ever, a rare variety of the shrub,
known sometimes colloquially as the
"peat soil," and which will thrive un-
der a limited amount of cultivation.
The Department of Agriculture ex-
perimented for some years, crossing
varieties, in an endeavor to produce
a new variety which would be suit-
able for commercial growth in Nova
Scotia. Mr. Paul Hattfield, who had
made a close study of the blueberry
culture, suggested that a quantity of
"Whitesbog" Blueberry shrubs should
be purchased, and planted in local
experimental plots. This has been
done, and everyone is awaiting
eagerly the result of the experi-
ment.

The Whitesbog blueberry is a
product of some ten or twelve years
horticultural experiment in New
Hampshire. This variety reaches a
mature height of from five to six
feet and the berry itself is described
as "big as your thumb," but more
accurately as being about 3/4 inch
in diameter. The experimental gar-
dens are at the fine farms of Cain
Brothers, at Cheogoggin, and Carl
Hilton, of Carleton. The plants were
set out this spring, and should bear
fruit next season. Should these
trials prove successful, it will mean
to a large extent the revolutionizing
of the blueberry industry in these
counties. It is said that the Whites-
bog berry is exceedingly well flav-
ored and delicious, and brings as
high as ninety cents per box in the
New York market.

Nova Scotia has some three mil-
lion acres of barren and entirely
unproductive land. It is a profitable
subject for speculation and research,
as to how far these lands can be re-
claimed through the propagation of
the common blueberry in the hilly
districts, and the cultivation of the
Whitesbog variety in the boggy sec-
tions.—Chronicle.

Discover Three Bears up a Tree

Fine Moose

New Glasgow—Lorne G. Ferguson,
of Westville, well known business
man and Johnnie MacLean of West-
ville, had an unusual experience hunt-
ing in the Caledonia woods this week.
While traversing the well known
stretch of hunting territory between
Archie Lake and Caribou Lake in the
Caledonia territory of Guysboro coun-
ty, they followed a moose trail. Hear-
ing a noise they went to investigate
and found three black bears up one
of the big hard wood trees. There
was an old black bear weighing
about 250 lbs. and two cubs. The
old bear started to come down the
tree but was shot, and one of the
cubs was later trailed and shot, the
other escaping. The next morning
the two men made a trip into the
same section, and while following a
trail landed a big four year old buck
moose, a beautiful specimen. Moose
seem to be very plentiful in Pictou
and Guysboro counties this year.

Will Try to Make Print Paper of
Straw

Edmonton.—As the result of suc-
cessful experiments in the making of
paper and paper products from waste
straw, which have been conducted
under the direction of the Alberta
government, efforts are now being
made to interest capital in the pro-
posal to establish manufacturing
plants in the province.
Government officials express con-
fidence in the success of such an
enterprise, and state that the result
of the experiments made to date have
been of the greatest importance, not
only to the farmer but to the general
industrial development of Alberta.
A special report on the experiments
has been made by Trade Commissioner
Stutbury to Premier Greenfield,
covering the following points:
1. Availability of straw within an
economic radius. 2. Availability
and cost of coal. 3. Availability
and cost of salt and sodium sulphate.
4. Railway facilities and freight rates
5. Labor conditions. 6. Water and
sewage facilities.
This report, together with all tech-
nical data, is being placed at the dis-
posal of capitalists who are interest-
ed in the development of the new in-
dustry.

FIGHTING FOR

The young mother has a constant
care in looking after the welfare of

Such a remedy is found in Baby's

Completing all but the last lay of their trip from Los Angeles to
New York—across the whole continent—in an eighteen foot long motor
boat, two Americans, John Edwin Hoag and Frank S. Wilton, not to
mention Spy-Wapato, their dog, arrived recently in Montreal and stayed
for a day or two before proceeding to New York.
The entire distance was covered by water with the exception of one
portage of 400 miles from Cello Falls, Washington to Fort Benton,
Montana. Their boat the "Transcontinental" is an 18-foot craft, 5 feet
aboard, and powered with two four horse power Evinrude outboard
motors. They left Astoria, Oregon, May 20, after having their boat
shipped up the coast from Los Angeles. The route was via the Columbia
River from its mouth to Cello Falls where the boat was loaded into a
box car and sent on 400 miles to Fort Benton where the journey was
resumed down the Missouri River for 2,250 miles into the Mississippi
to St. Louis, then up the Mississippi to the Illinois River as far as Ot-
tawa, Illinois; through the Illinois and Michigan Canal to Joliet, Illinois,
and through the Chicago Drainage Canal into Lake Michigan. From
here the voyage was plain sailing to Montreal, where they landed at
the Canadian Pacific Pier No. 8, having covered their boat alongside the
"Montreal".
Messrs. Hoag and Wilton followed in reverse direction the course
of the early explorers, Columbus, Hendryk Hudson, Champlain, Cartier
and La Salle. Their mishaps commenced early when, in the Columbia
River they ran aground of a sunken log which tore the stern out of their
boat. After this misadventure, which they finally weathered safely,
they had comparatively no bad luck, except for the tornadoes, heavy
storms and risky runs down little-known rapids, which might naturally
be expected.
Their adventure is unique, the only attempt previously made being
about 18 years ago when a similar expedition ended at Bismarck, North
Dakota, after traversing the same route. Then, however, the adven-
turers were so held up by adverse conditions that they were overtaken
by water and their boat was crushed in the ice.

INDUCTION OF REV. E. A. KIRKER

William F. Ketchum weds Miss Florence May Ritchie.—Miss Charlotte Perkins, Prize Winner in Literary Contest.—Social and Personal Items.

Annapolis Royal.—A pretty wedding took place at the home of Mr. and Mrs. Harry Ritchie on Thursday evening, October 22nd, when their oldest daughter, Florence May, became the wife of William F. Ketchum of Medford, Mass. The ceremony was performed by Rev. A. Gibson, in the presence of a few invited guests, and the members of the family. The house was tastefully decorated for the occasion—the bridal couple standing beneath an arch with floral bell. Prof. J. H. Morse of Lequille presided at the organ and played the wedding marches.

The bride who was given away by her father, was gowned in a brown ensemble suit with hat to match and carried a bouquet of chrysanthemums and carnations. Following the ceremony, a wedding supper was served, and later Mr. and Mrs. Ketchum motored to Digby, en route to their home in Medford. The bride was a well known school teacher, having taught at Lequille for several terms, and various other schools in the province. A large number of valuable gifts were received.

Rev. and Mrs. E. A. Kirker, with their two daughters, arrived on Tuesday, by motor, and were warmly welcomed at the manse, by the ladies of the congregation.
