The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

P R E F A C E.

IN consequence of the recent changes in the Customs Tariff, the mercantile community have been frequently at a loss to ascertain the exact rate of duties chargeable on the different kinds of goods imported into the Province.

The only correct copy of the Tariff available—with the exception of the one in pamphlet form, published under the authority of the Commissioner of Customs, for the use of the Department—was that published in the Newspapers, at the time the changes were ratified by the Legislature; and those business men who had not taken the precaution to cut the details from the Newspapers of the day, and preserve them for future reference, have been considerably at a loss in regard to the rate of duties. Having for some years witnessed this difficulty,—a difficulty very much increased since the passing of the Reciprocity Treaty with the United States, and seeing no way by which it could be remedied efficiently, unless by the voluntary effort of some one conversant with the details of THE CUSTOM HOUSE, I determined, although at great inconvenience to myself, to supply the deficiency.

In order that the work might be as complete as possible, I have arranged it on the same principle as that on which the American Tariff has been arranged by Mr. OGDEN of New York, to whose admirable work I am deeply indebted in this compilation. The labor has been considerable, but the work is one which will be of the utmost service to the Commercial Community, and will save the time of the Officers of the Customs by obviating the necessity of their replying to numerous enquiries as to rates of duty. Since the passing of the Reciprocity Treaty, several who have not taken the trouble to ascertain its extent, have expressed astonishment and indignation on being charged duty on importations from the United States, they being under the impression that "Reciprocity" meant "free trade in every thing" between the United States and Canada. To obviate any further difficulty of this nature, I have given *in extenso*, under a separate head, all the articles affected by the Treaty, and have also marked in the American Tariff, the changes made by said Treaty.

Happily for the material welfare, as well as the social and domestic comfort of both Countries, the bonds of commercial intercourse are now so closely united, that it seemed

to me of peculiar importance that one page should exhibit their respective Tariffs. I have therefore collocated the American Tariff in parallel columns with the Canadian, and in the race for commercial supremacy, I think we have nothing to fear in the comparison, on the score of liberality.

The table showing the value of foreign money; the tables of foreign weights and measures, and the list of tares allowed by Law and Custom in the United States, will be found serviceable, while the list of Canadian Custom Houses, with the name of the Collector at each Port—kindly furnished by the Commissioner of Customs—will frequently be found useful. Various extracts and items of information condensed from Acts of Parliament, relating to the Customs have also been given, as reference to these documents requires occasionally to be made.
