Eighteen Fuses Found on Steamer Carrying Italian Reservists From New York to Azores.

WASHINGTON, Sept. 17 .- In announcing to the state department today the arrival at the Azores of the Fabre liner Sant Anna, from New York for Italy, American Consul Schultz stated that 18 fuses had been found on the ship, and that many explosions had occurred before she reached the Azores. The steamer carried many Italian reservists. The substance of the despatch as given out by the department follows: "Sant Anna, Fabre Line, arrived Thursday morning. About midnight Sept. 12, fire was discovered in the twelfth hold, filled with general merchandise and baggage. Eighteen fuses were found. There were many explosions. Six hundred and five passengers, including women, children and aged, were transferred to the Ancona on Sept. 18. The ship is expected to proceed with 119 passengers on Friday or Saturday. All passengers safe."

Mr. Churchill added that during the past four or five months the allies had done as well as they might have hoped. There had been events which, while not disastrous, were disappointments. In France and Flanders a series of resolute and costly attacks was made on the German lines and altho ground was gained, the lines of the Germans were not pierced. In the Dardanelles, he said, the allies had gained invaluable ground which led them towards a decisive conclusion, but they had not gained the advantage at the points at which they aimed. Then there had come the retreat of the Russians, and while the Russians were recovering and re-arming their strength a new and un-misakable burden had fallen upon Great Britain. The situation was a serious one, but the allies had it in their power to carry the war to a successful conclusion, and they could do it, the chancellor said, if they utilized

Chief of Police Grasett in closing down that organization. This action was taken by the head of the police department because he thought the men behind the movement were not respon-sible to undertake a work of such magnitude.

The promoters of the scheme were requested to get a sponsor to stand behind the venture to insure its suc-cess, and when the men who were managing the affairs of the Field Com-forts League were unable to do this, he action of the police followed as a ecautionary act to protect the inrests of the public who might feel helined to help to provide for the christmas needs of the soldiers.

Chief Grasett stated yesterday to The World that there are a great many so-called patriotic societies which are soliciting funds for the soldiers and which do not give a proper accounting of their collections. There are so many of them, ranging from the small church affair to the more pretentious entertainment, all with the one object in view, that of providing for the soldier, that it would be a tremendous proposition to supervise them all. "The larger ones of course," said Col. Grasett, "we pay more attention to and as long as they have a responsible citizen at their head who will stand sponsor for the enterprise, that is all that is necessary as far as this department is concerned."

Pursuing a Policy. It was in pursuance of this policy that Chief Grasett closed the Field Comforts League. Motion to Influence

portation Difficulty is Discussed.

It was a big meeting of the Centra itizens' Association, composed of the 'tracks," which last night strongly af firmed its approval of the decision of the mayor and board of control to appeal mayor and board of control to appeal the recent award of the Ontario Railway Board in the Farnham avenue deal. Prac-tically every member of the city council from wards two and three, together with others from different parts of the city,

oppose the award of the railway board, formed the basis of argument thruout the evening.

Commenting on the resolution, T. R. Haig declared that the existing conditions at the C. P. R. since the Metropolitan tracks had been removed were unbearable, and that a careful census made on Thursday disclosed the fact that 13,000 people passed over the intervening space between Price street and Farnham avenue on that date.

Jerry Nelson of Moore Park urged some concerted action on the part of the city and company, and stated that Moore Park had been promised railway service, a promise which had never been kept.

Aid. Risk refused to subscribe to the resolution asking the city council to withdraw the appeal, as did Ald. Morley Wicket and Ald. Ramsden.

"I am firmly of the opinion that if R. J. Fleming were approached by the city council an agreement mutually satisfactory could be found for the troubles."

Ald. Cameron, together with a number of private citizens, spoke briefly, and later the resolution submitted earlier was voted on, but the meeting refused to support the motion calling a halt in the

"I am firmly of the opinion that if R. J. Fleming were approached by the city council an agreement mutually satisfactory could be found for the troubles on upper Yonge street," declared Ald. Ramsden.

"I would concede the Toronto Street Railway nothing, but I would agree to put down the tracks between the present northern terminus and Farnham avenue, giving immediate relief, and leave the question of legal rights for the supreme court or privy council to decide," said Ald. Maguire.

Ald. Ball strongly favored the action of the mayor and board of control in entering an appeal, but declared that they were deserving of censure in withholding from the members of council information vital to the whole question. The whole matter, in the mind of Ald. Ball. was fraught with great importance to the city in view of the persistent efforts of the Matropolitan Railway Co. in seeking to effect connection with the Canadian Northern over the diversion on Farnham ave. While regretting the present condition at the "crossing," Ald. Ball pleaded for time on the part of the people of the north end of the city.

GENERAL SYNOD SESSION

Bishops to See Lenten Letters Before They Are Published in Future.

That those who are in captivity, in peril in the air or under the water should be remembered in the prayers of intercession used thruout the Anglican churches was the decision reached at yesterday's sessions of the genera

There were two resolutions, each of which was passed unanimously, which affected the services of prayer. The first was that at the noonday season special intercession with Almighty God should be offered every day in behalf of the empire and the succe of the allied armies in the battle for right and truth. It was moved by Archdeacon Armitage and seconded by Chancellor Davidson

The second, moved by Archdeacon Mackay, read: "Whereas the present form of intercession for the war now used in our churches is not sufficiently comprehensive, the house of bishops be respectfully requested to issue a reversal form of intercession with petitions for those in captivity, those in peril in the air and under water and for the final victory of our

cause.' At the opening of the board of missions of the Anglican Church, the general secretary read a cablegram which conveyed the news of the death of Mrs. Archer, wife of Rev. Dr. G. B. Archer, missionary at Kangra, India Dr. Gould commented on the fact that the late Mrs. Archer had left Canada but a year ago as a happy oride. Bishop Richardson moved that the board send a cablegram of condolence. Rev. R. B. McElheran, B.A., seconded the motion as rector of the

parish supporting Dr. Archer.
Dr. Archer was a resident of Toronto before taking up his duties in the far east. The board endorsed the appointment of Rev. T. B. R. Westgate, D.D., as field secretary west of the great lakes. Dr. Westgate is a prisoner of war in German East Africa. He was

taken a prisoner shortly after the war broke out. His position will be held open for him until his return. The board of missions held a spirited discussion over Lenten letters to children as many of the speakers held they were too awe-inspiring for chilwas opposed to the using of the bishops' names to these letters.

The question was settled by the primate's suggestion that the letters should go thru the local diocese so them before publication. The report of the committee on primate's charge recommended that it should be printed and distributed to every church in Canada. The com-

Revelations of a Wife By ADELE GARRISON

What Madge Feared.

CANNOT do this for Dicky. I cannot meet these people and pretend cordiality for them, when all the time I disaprove of them so strongly. I

time I disaprove of them so strongly. I cannot. I cannot!"

Face downward upon the bed in my room, where I had thrown myself when I fied from Dicky's revelation of Elizabeth Marsden's domestic problem. I repeated these words ever and over to myself like the patter of a prayer.

Theoretically I have always believed in larger freedom, greater opportunities for women. My mother was a suffragist in the days when the fight for suffrage meant something. But of the suffrage meant something. But of the other issues which women have been facing in these strange latter days I

had no conception.

When I was four years old, however, another woman, my mother's most intimate friend, had run away with my father. I have never seen my father since. I do not know, nor de I care, whether he be living or dead. But to me the yery name of a woman who could claim as her lover the father of another woman's child has always been

Yet here one of my husband's friends who was to be my own guest, was such a woman. I thought of Lillian Gale. with her sensational divorce record, and her constant assumption of being Dicky's best friend. And these two women Dicky evidently meant to be my associates in my new life! It was unbearable! I told myself as I lay fighting out my battle.

A Generous Offer.

But, unbearable or not, I did not see any way out. They were to be my guests in a few hours. The laws of hospitality forbade my being anything but cordial to them in my own home.

I made a sudden, swift compromise with my own soul, and hurried out-before my courage should leave me to lay

it before Dicky.

I found him still assiduously shelling the almonds, but his face looked troubled. I laid my hand on his shoutder, and at the touch he drew me down to the arm of his chair.

"Dicky." I suppose my voice trembled, for the grasp of his arm tightened around me as if to give me courage. "I am going to be very frank with you. I tannot pretend to you that I am pleased with the thought of having Mrs. Underwood and Miss Marsden, especially Miss Marsden, as guests. But I can provide Marsden, as guests. But I can provide Marsden, as guests. But I can provide and Miss Marsden, especially Miss. Marsden, as guests. But I can promise you that when I am with you, either at our home or wherever your crowd meets, I will treat them with all courtesy. They shall never know my feeling. On the other hand, please do not ask me to make intimates of them to ask me to make intimates of them, to have them meet my friends or do the thousand and one little, clubby things I'm going to crawl out some way and that women friends usually do."

THOU SHALT NOT ENVY

By Will Nies

OESN'T the young mother, though she be crowned by the glory that outshines all other glory, sometimes look enviously at the girl who is "free"? Of course she does. It is a foolish envy; but she DOES yield to it sometimes. But doesn't the girl who is "free" look enviously at the married one with her happy baby? Surely she does. That spectacle makes her THINK. All the furbelows must seem

silly enough SOMETIMES as compared with the endowment of motherhood. So, you see, they both can be foolish. Each has a right to be happy, and each CAN be happy if she follows her own path contentedly, accepting the blessings that come WHEN they come. WISHING can be made a very sad business, if we forget what we HAVE

on the Yonge Street Subway

There are evidences of a new and more agreeable relation between the C.P.R. and the city in the work going on at the Yonge street subway. where the new Union Station is being built. The co-operation of the two parties to the construction has brought the work within measurable distance

The C.P.R. is anxious to have the work hurried on as the present street twelve, or even fifteen per cent. The sidewalks are move or store, or the planter with cotpractically complete and it will not be ton, can get all the money he wants long before the whole subway is ready at five or six per cent. from the gov-

The only possible chance of delay is over the laying of the street railway tracks, and it is hoped this question will be settled before the concrete foundations are finished. The tracks must be laid whether the car service wards the city should be in any way jeopardized by a matter so foreign to

the C.P.R. interests. An Old Friend With a New Name

Never without appreciation and seldom without amusement has The World followed the life and public services of Mr. J. B. Forgan of Nova Scotia and Chicago. Mr. Forgan, it will be remembered, was the great financial expert who testified before A Modified License for the Humthe house committee on banking and commerce when that body was considering the revision of the Bank Act.

There is little humor in Canadian politics, but we have one good hearty laugh every ten years when parliament goes thru the form of "revising" the Bank Act. In the nature of things the Bank Act could not be really revised without reconstructing our curwas announced that something was going to be done, and a great banker once been a banker in Nova Scotia, to expound the principles of sound fin-

But Mr. Forgan was thought to be at his best when he parried the crossexamination to which he was subjected by Mr. W. F. Maclean, M.P. for South York, and a member of the committee. Mr. Maclean upon the second reading of the bill to revise the Bank Act had urged the government to establish a national bank of issue and rediscount, and to use the credit of the nation to relieve and stimulate business thru an issue of national currency. He desired Mr. Forgan's views upon the proposed system, but that gentleman of a-sudden become dense. He could not comprehend how the credit of the nation weld be efficiently used to strengthen the fabric of commercial credits, nor oculd he see any reason why the currency of a nation should be a national

cue. He hurried to Washington and testified before the senate finance committee. But he had a far different crowd to deal with than he had at Ottawa because in the United States, the currency question has been studied and discussed by the politicians and the people for half a century. Mr. Forgan found that only his venerable rears saved him from public humiliation. As it was, progressive bankers of the Hepburn and Vanderlip type hastened to disavow his reactionary views and the newspaper correspondents nicknamed him the Rip Van

Winkle of American bankers. But Mr. Forgan was shrewd enough to see which way the procession was moving and he was quick enough to climb on the band wagon. Within 24 hours he proclaimed himself a convert and so zealously did he support the federal reserve scheme that he became one of the directors of the Chicago Federal Reserve Bank. Now he is in er could hit up the farmer for ten, ernment in national currency thru the Federal Reserve Bank.

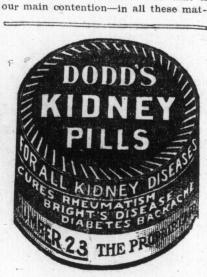

Because he advocated for Canada the policy which has brought to the United States financial freedom and prosperity the South York member was is to be given by the city or the street patronisingly called a John the Baprailway company, so that there is no tist. exempt from attack—women, children, small shopkeepers, workingmen—the sacrifice of whose lives serves no military purpose either morally or mate-"The folly and futility of the raids

last week may well be imagined when it is remembered that the London dis-trict taken for convenience as the area administered by the metropolitan po-lice, is just short of 700 square miles in area. It was by hastily dropping at random in the dark explosive and incendiary materials somewhere on this enormous surface that the enemy professed to have accomplished an important military purpose.

No Damage to War Industries.
"The fact is that no public institutions of any kind were hit, nor was any power station or arsenal. No damage was done affecting the use of any building connected directly or in-directly with the conduct of the war. It is true that two hospitals narrowly escaped damage, but it is only fair to say in behalf of the of-cers of an army which has done its best to destroy the cathedrals of present they have succeeded in hitting

only one church.

Moral Effect Failures. "So far as the moral effect of the raids is concerned, it is feared that from the standpoint of Berlin it was a complete failure. If Count Zeppelin himself accompanied the raiding aircraft as has been reported from Holland, he will be disappointed to learn that only a minority of the vast population of London was aware of the presence of his airships; that am those who heard the gunfire and saw the Zeppelins the feelings everywhere aroused were interest and curiosity

"Here are a few pictures of the ef-fects accomplished by the officers and crew of the last airship which visited the London district. Somewhere in don there is a little street with a public house at the corner. Outside it Wednesday evening after the place was closed, a man and woman stood talking. While the woman

went away to buy supper the man waited for her, and there fell at his feet the first explosive bombs. They killed the man outright and blew pieces of the paving stone on to surrounding roofs. They blew in the front of the public house, reducing the stock to a mass of broken glass, over which still floats the indefinable odor of assorted forms of alcohol. They took off the top of a grand plane on the floor above, twisted an iron bedstead, injuring a woman who was sleeping there, and reduced what had been the carefully kept living rooms of a small family to a mass of soot. dust, plaster and broken glass. BEAT PROVIDENCE OUT OF PENNANT

Leafs Took Two Games and Handed the Rag to Buffalo Club.

They all look alike. Playing sparkling ball the Leafs downed the champion Grays twice yesterday and just about killed any chance the Providence outfit had for the pennant.

The Grays were completely baffled by McTigue's grand twirling in the first game, and the Leafs scored a shutout, 6 to 0. McTigue sent in three runs himself with a homer. Backed up by snappy fielding Herbert won the second fixture,

Neal Ball was the sensation of both fixtures with several pieces of snappy fielding and quick throws. The Leafs look good to take at least one game today, and hand the pennant to Buffalo. Providence's only chance is to win two, while Buffalo must drop a like number,

an outside chance.

McTigue started out like a winner in the first game by striking out the side and he never let the visitors score. To-

and he never let the visitors score. Toronto scored six.

The Leafs waited until the third before breaking in. Ball fanned, but McTigue walked. Williams raised a foul,
but Rath poked a hit into centre. Gilbert supplied the bingle to score McTigue. McTigue pitched himself out of
holes in the second and fourth. He
put the game away in the bat bag in
the 8th. Gilbert beat one to deep shore.
Daley bunted and was safe on Cooper's
boot. McNally threw Graham's bunt high,
and, the bases were full. Kocher's pop
was let fall at the plate as an infield fly,
but it blew foul. Kocher put up a fly to
second. Wares' effort went about ten
feet toward third, Gilbert scoring and
leaving the bases still filled. Ball filled
to left, scoring Daley. McTigue plastered
it into deep right field bleachers for a
home run, with two ahead of him. Williams fouled to catcher. The Leafs fielded sharply at all times.

The second contest was harder to win, but again sparkling fielding saved the day. The Leafs won, 3 to 1.

Schultz got away luckly in the second, but the Leafs counted in the third on Williams' usual home run into the right field bleachers.

We got a run in the fourth as a gift. Daley walked and was sent to third on two sacrifices. Schultz dropped Ball's pop fly to let the run score. SPLENDID PROGRAM AT WOODBINE PARK

C. R. A.'s Last Meeting of Year Opens Today at O. J. C. Track.

The Ontario Jockey Club offers a splendid program of seven races for the opening day of the last meeting of the year under the auspices of the Canadian Racing Associations. The fields are well balanced, tho possibly with a little less of the class than heretofore. However good sport is arranged this afternoon at Woodbine Park. There are two races of six furlongs, two of 1½ miles, one at a mile one at a mile and a sixteenth, with a well balanced steeplechase at two miles. The sum of \$39,000 will be distributed in added money this week. The outstanding features the next seven days are long distance racing and steeplechasing. The Woodbine never looked better, The first race is at 2.15 p.m. today.

A members' car will leave the Queen's at one o'clock. The band of the 48th Highlanders will furnish the music.

RACES CLOSE TODAY.

The following races close this morning at the secretary's office at Wood bine Park at 11 o'clock:

Parkdale Rugby and Athletic Club held

Parkdale Rugby and Athletic Club held a very successful meeting in their club rooms, 1458 Queen street west. Tho the club has been considerably weakened by the loss of a large number of last year's players, thru enlistments, there were so many prospective players at the meeting that it was decided to form two teams, entering one in the Intermediate O.R.F. U. and one in the Senior City League. The first practice will be held on Monday evening at 5.30 on the grounds of the Parkdale Collegiate. The club secretary for the ensuing year will be F. P. Gingras, phone Parkdale 3432.

The Aura Lee juniors at the Main Club have not been far behind the juniors of the Country Club in getting organized for the season in rugby football. They have elected Edwin Heaton secretary-treasurer, and the following committee of management: Harry Mackay, William A. Rushworth and Wilfrid Burch. They hold their first practice Saturday morning. The membership of the junior section of the club is limited, but owing to several of the juniors having graduated into the senior club, there is a vacancy of ten members, which will doubtless be filled within the next few days when the list will be closed again for a year.

YORKSHIRE PLAYS OLD COUNTRY C. C.

League and Friendly Cricket Games Today.

Yorkshire C.C. and the Old Country C.C. meet in a C. & M. League game to decide the winner of the western division of the league. champions of the N.L.U., in the first game of a series of home and home games, goals to count, first game tomorrow (Sunday) afternoon, playing back here on Saturday, 25th.

Rosedales are in the best of shape and will have their full team out. Warwick, who has been on the sick list for three weeks, will be back on the home, while Fitzgerald and Kalls will come over from St. Catharines for both games. The reports from Montreal state that the game on Sunday will attract the largest St. Barnabas will be away to Island Aquatic at Centre Island. Will the following members of St. Barnabas be on hand to commence the game at 2.30: Sampson, Murray, Greenwood, Reid, Foley, Schroder, Ruthven, Burns, Jamieson, Grant, Baker; reserves, Childs and Wilson?

St. Maithias' C.C. play their last game

reports from Montreal state that the game on Sunday will attract the largest crowd that ever attended a game of lacrosse in Canada. President Caron expects 15,000 spectators to witness the match. Following is a list of the Rose-dale players who will make the trip: Holmes, Harshaw, Yeaman, B. Green, Braden, Denneny, Barnett, Harrison, Longfellow, Warwick, Fitzgerald, Kalls, Barber, Tweedle.

The Norwood juvenile lacrosse team have forwarded to Secretary Smith of the lacrosse branch of the Sportsmen's Patriotic Fund, a cheque for \$15. Hats off to these lads who have personally subscribed for the boys in the trenches, gate receipts in the juvenile ranks being an unknown quantity. The clubs through the province have been advised as to what the local teams are doing and will likely put their shoulder to the wheel and help along the good work.

The Maitlands and Riverdales, who are billed for the lacrosse demonstration at Rosedale field on Oct. 2, are already talking "victory." The east end chaps have mustered another player and claim that with ten men aside they will come off on top of the pile. This game is the general topic both north and east.

Judging from the advance sale of tickets, one of the biggest crowds in years to see an amateur game in Toronto will be at Scarboro Beach today when Maitlands and Beaches meet in the final game for the Junior championship of the O.A.L.A.

Both teams finished up their practical last night with a good stiff workout. Manager Cody of Maitlands had his boys out at Varsity field, so as to get used to the larger grounds at the Beach, while Manager Johnston of Beaches had his boys all out at Scarboro Beach.

Littlefair and Allaster, two of the Beaches home players, were given a pretty rough passage by the Maitland defence in the first game, which was played last Saturday at Cottingham square. Both have rounded to form again tho, and will be in the game today.

'The game will be called at 3 o'clock sharp, and will be played rain or shine. ST. MARYS BEAT OWEN SOUND. LISTOWEL, Sept. 17,-St. Marys beat

SICKNESS AT DARDANELLES.

COBOURG, Sept. 17.—That the men fighting on the Gillipoli peninsula have the hardest end of the war is the statement made by a nursing sister who is with Queen's Stationary Hospital, now stationed about five miles out in the desert from Cairo. She says: "Conditions here are awful, and so many of the boys are sent down with bad dysentery and enteric fever; they are tanned black as Indians."

his hardy companions set their faces to the north, but after continuing their journey ninety days they decided to return to land. They turned back and landed on the mainland at a point near which the power boat Mary Gerba of the Stafanson expedition. Sachs, of the Stefansson expedition, was wintering. Here the three men outfitted for another three months' trip. They again went upon the ice, g north and west and discovering the continental shelf.

Forced to Return.

NOME. Alaska, Sept. 17.—Vilhjal- compelled to set out on the return journey to land. The men had been on the ice for nearly seven months. Capt. Louis Lane, cruising on his power schooner, Polar Bear, found Stefansson and his companions maknorth and accomplished practically ing their way along the southwestern coast of Baillie Island. They were in excellent health and spirits, and eager to reach the southern wing of the expedition, that they might obtain sup-plies and continue their explorations. Made Fresh Attempt.

Stefansson had expected to fall 1914 over the frozen Polar Ocean to search for supposed new lands in the further discoveries while the sea was open and free of ice. The season was too far advanced, however, and the explorers reluctantly steered for Herschel Island. The Polar Bear was at st. Patrick's Island Stellanson of the conti-covered a continuance of the conti-nental shelf several degrees west of

Stefansson told Capt. Cottle that after leaving the supporting party on the ice north of Martin Point he and the ice north of Martin Font he and Blue was one of the original members of the expedition.

Before departing from Herschel Island for Banks Land with the Polar Bear and Gladiator, Stefansson estab-iished communication with the southern party and also sent a man east with the power boat Mary Sachs to Stefansson spent some time explorations to the enstward and establish bases for further operations to scarcity of provisions, was

One encouraging feature of the wholesale trade is the fact that retailers have been securing lines for their shelves that threaten to run out. Business in many lines is opening out. A canvass of some of the larger manufacturing establishments in Toronto and neighborhood indicates an awakened activity in selling departments. The western farmers' buying power will presently be enhanced. Representatives are already going west with samples of jeweiry, clothing, footwear, textiles and other commodities. A great deal of restocking has to be done in the west and new retail stores are opening here and there.

Rumors of Gigantic Combination Under Way Assisted Speculation.

NEW YORK, Sept. 17 .- Enormous dealings in war shares and other stocks related thereto, mostly at substantial gains, featured today's operations. Advances in this group ran from three to six points, with more noteworthy gains in a fey isolated instances. Railroads were even more quiet than usual, but were relatively steady, despite the acute weakness of these stocks abroad. Great Northern Ore certificates, Colorado Fuel, U. S. Steel, Republic Steel, Crucible Steel, Westinghouse and Studebaker, more or less in the order given, comprised the active features. Many rumors were circulated tures. Many rumors were circulated in connection with the heavy trading in these stocks, none of which were confirmable, and some of which taxed speculative credulity to the utmost. The most persistent type was that a gigantic deal or combination was under way, involving Great Northern Ore, Colorado Fuel and Republic Steel. So far as they related to the two firstnamed these rumors were authoritatively denied.

Strong From Outset.

The market was strong from the outset, the General Motor stocks being outset, the General Motor stocks being the outstanding feature by reason of its 50 per cent. cash dividend distributions. That stock opened at 280. a gain of 17. heating its previous record by 8, rose further to 291, but closed at 280. Colorado Fuel hung back at first, but soon started on another upward course, which carried it to 58 3-8, a maximum gain of 5 3-4, closing at 56 12. Great Northern Oro made a maximum gain of 4 3-4 at 46 1-4. maximum gain of 4 3-4 at 46 1-4. Studebaker also made a new record, rising 3 3-8 to 120 ½, Willys-Overland. PROGRESS BEING MADE BY WEST DOME AND McINTYRE

Two stocks, Nova Scotia Steel and Steel Corporation, showed well defined strength towards the close of the Toronto Stock Exchange market yesterday. Nova Scotia Steel was picked some weeks ago for an important rise because of earnings being made by the company incidental to the war.

R. E. Kemerer in his weekly letter says: There is practically nothing to report on West Dome. The officials are proceeding with the necessary details relative to the issuing of the new charter is issued announcement will be made as to the action which will be taken on the offers which have been made for the treasury stock. WHEAT DOWN AGAIN

Circulation of Baseless Rumors re Anglo-French Loan Sent Down Prices.

STRENGTH AT FIRST

Selling Pressure Then Greatly Enlarged by Release of Storage Grain.

CHICAGO, Sept. 17 .- Reports of increased offerings from producers in the northwest had a good deal to do today with causing wheat to decline after an early advance. The bears made much also of apparently baseless rumors that regotiators of the pro 200 posed Anglo-French loan had met with 1,300 a serious rebuff. Wheat closed weak 1,000 at 1 1-8c to 1 1-4c decline to 1c ad-100 vance, with December 95 3-8c to 1 shed 1-4c to 1-2c down, outs 1-4c off to 1-8c up, and provisions at a set
2,300 to 1-8c up, and provisions at a set
2,300 to 15c.

Wheat at first showed 95 1-2c and May 98 1-8c. Corn fin-ished 1-4c to 1-2c down, oats 1-4c off

ished 1-4c to 1-2c down, outs 1-4c of to 1-5c up, and provisions at a set-cack of 5c to 15c.

Wheat at first showed considerable strength, the result apparently of bullish cables and the smallness of conish cables and the smallness of contract stocks here and at other winter ish cables and the smaliness of con-tract stocks here and at other winter ermnent figure's minimizing supposed losses during the threshing season in the chief winter wheat states had a 100 afterward selling pressure was greatly enlarged by news that stored wheat in the hands of farmers northwest was being disposed of freely and that Winnipeg quotations were at an un-usually wide discount as compared

with Chicago. Liberal export clearances helped to rally the wheat market for a time late in the day, but the selling due to northwestern advices became again

of large proportion.

Corn weakened with wheat. Favorable weather resulted in an increase of country offerings.
Oats keut within a narrow range. The volume of trade was small. Provisions gave way as a result of breaks in the hog market, on account of British confiscation of provision cargoes. Dealings in the provision pit today were unusually light.

Porcupine Gold Stock

During the development period 100,000 shares of "Hollinger" were privately distributed at \$3.50 per share. The annual dividend on these shares is now \$2.60 per share and this dividend will probably be maintained for 50 years and even increased.

We are now able to offer a limited number of treasury shares in one of the leading Porcupine Companies at a figure which makes them even more attractive than the Hollinger "melon."

This Company has the gold, the real yellow stuff, and so far as development has gone there is nothing better in Porcupine. We make this statement after many careful examinations of this and other properties of the camp, and in corroboration of our own opinions we have the report of a leading expert made after an exhaustive examination and study of the property extending over a period of six weeks.

Its great, sheer zones and large and numerous are bodies of fair grade, sive

of six weeks.

Its great, sheer zones and large and numerous ore bodies of fair grade, give pre-eminence to Porcupine.

Send for report with map, plans and all information in our possession. This will convince you that here is an exceptional opportunity for a safe and very profitched investment. profitable investment.
