CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. XL

TORONTO, MONTREAL AND WINNIPEG, OCTOBER 19, 1904

No. 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL

376 McNICOLL BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of their products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertaining to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in 10-point type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

To sell a quantity of XX, XXX and XXXX 18 in. Cedar Shingles. Carefully packed and guaranteed to give satisfaction in every respect.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE - ONE CYLINDER STAVE SAW, 24" diameter, will cut slack or tight staves, it is in No. 1 running shape, and a profitable investment for any mill man. Advance satisfactory reasons for selling. Box 4, Bothwell, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

This week finds the lumber trade more active than for a long time, the fine weather being responsible for the increased business. "If this kind of weather continues for a month," remarked a local dealer, "we will have little stock left in our yard." There are practically no complaints of slow trade, while prices are exhibiting considerable strength. Reports from the northern mill districts are universally to the effect that there are no signs of weakness, but on the other hand there is a feeling that there will be no necessity to lower prices in order to market all the lumber that is now in the hands of manufacturers. Compared with a month or six weeks ago, a marked increase of confidence is shown. Some dealers are picking up considerable stock in advance of the Presidential election, as it is thought that prices will stiffen when that event is out of the way. The demand for low grade pine is still a feature, with the upper grades relatively weaker. Of the hardwoods, elm and birch are about the best sellers, but there is a little more inquiry for basswood. Lath prices are stronger and one or two large sales have recently been placed. A manufacturer who has carried his lath, about six million pieces, all season, because he could not obtain a satisfactory price, recently disposed of the entire quantity at the figure which he had been asking, which is evidence of the improved tone of the market.

QUEBEC AND NEW BRUNSWICK.

The Eastern Canada lumber market is showing more activity as the result of an increased domestic demand. The Dominion Government has under way harbor improvements at several points for which considerable lumber will be required, and the many new buildings and other works about to be undertaken by the Intercolonial Railway is expected to influence the lumber market. Shipments to the United States have also increased and a more hopeful feeling is entertained in respect to

British trade. Although considerable lumber will of necessity be carried over the winter, manufacturers show no disposition to reduce prices below their present low basis. Cedar shingles are no more than holding their own and it is still possible to buy good Extras at \$3.15 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Lumber conditions in the West are not improving very rapidly. In Winnipeg there is a good demand for stock and prices are steady at the lower range which has prevailed for some time, but country business is rather disappointing. Many of the retail dealers, anticipating a greater demand than has yet materialized, are now carrying fairly heavy stocks and will need to buy but little during the winter months. Considerable American lumber is still being sold in Winnipeg and Southern Manitoba, although we are informed that the quality of the lumber brought in does not compare with the home product. The final estimate of the North-West wheat crop is 60,000,000 bushels, which is a larger production than last year, and, considering the present market value of wheat, the buying power of the farmer will be considerably above the average, and he should be in a good financial position to undertake needed improvements to buildings.

UNITED STATES.

There has been a marked improvement in the northern pine trade of the United States, and it now appears that the mills will carry a very light stock into the winter. Notwithstanding that the East has bought sparingly, the bulk of this year's production has passed into the hands of dealers and consumers. Prices have stiffened in some districts to the extent of \$1 per thousand, although there is no change at Buffalo, Tonawanda and other Eastern wholesale distributing centres. Buffalo dealers report a shortage of certain sizes of barn boards, and some of the higher grades are moving more actively. Southern pine is also firm and the base price of hemlock at New York has been marked up to \$17. The spruce market is steady, with indications of firmness during the winter months. The demand for hardwoods has been stimulated by the starting up of furniture and implement factories. Basswood is being inquired for more generally and soft elm sells readily. The oak situation is rather peculiar, there being a decided scarcity of plain stock, while quartered oak is very plentiful and in little demand.

Difficulty in obtaining red cedar shingles owing to a car shortage has caused

more liberal buying of the other kinds, which are firm in price. Lath are still strong, with some dealers holding for a further advance.

GREAT BRITAIN.

The British lumber market continues to show improvement of a moderate character and there has been a slight increase in consumption. Consumers are more inclined now to do a little speculative buying than has been the case for some months past. The mahogany market at London has taken a decided turn for the better, and at Liverpool there is an improved demand for all kinds of lumber. Considerable business is being done in pine and spruce, with an upward tendency in prices. Shippers are asking £6 10s per standard for St. John spruce cargoes for delivery on the east coast and are refusing offers five shillings below that figure. A West Bay cargo is reported to have been sold on the Mersey at £6 10s c.i.f. There are some enquiries for square and waney timber, but the consumption is not active and stocks are ample to meet requirements. There is a good demand for rock elm, and as stocks are low prices could be easily advanced.

The feature of the month of September was the small importation of lumber from the wood-producing countries. It is now quite certain that the imports this year will be on a moderate scale compared with last season, and when this is taken into consideration, stocks cannot be considered heavy.

A statement of the London dock stocks on September 30th shows that the supply of pine and spruce is considerably lighter than one year ago. Of pine deals there were 422,488 pieces, as compared with 532,834 pieces one year ago. The stock of red pine deals was 45,832 pieces, as against 81,545 pieces, and the stock of spruce deals 359,260 pieces and 490,029 pieces respectively for the two years. It will be seen that a considerable decrease is shown in each instance.

STOCKS AND PRICES.

The last of the St. John river corporation log drive reached the boom limits at Fredericton, N. B., last week.

The Scott Lumber Company, of Fred-

ericton, N. B., expect to hold over until next season between 8,000,000 and 10,000,000 feet of logs.

Keenan Bros., of Owen Sound, Ont., are offering one and a half million cedar shingles, 10 inch clear butts and better, at \$2.35 per M, also one million second class shingles at \$1.50.

A two mile timber berth, situated at the head of Caran river, was sold at the Crown Land office, Fredericton, N. B., last week to George McSweeney and John Crandall for \$51 per mile. James Gastro was the applicant.

During the past season about 50,000,000 feet of logs came through the south-west branch of the Miramichi river, in New Brunswick, and about 22,000,000 ft. from the north-west branch. Of this amount at least 15,000,000 feet will be wintered, divided as follows: Richards, 4,500,000 feet; Lynch, 3,500,000 feet; Birchall, 2,000,000 feet; Hutchison, 1,500,000 feet; Welch, 2,000,000 feet; Hickson, 1,500,000 feet. Snowball & Company will also winter some logs. Very little preparation has as yet been made for the coming winter's operations, and the cut on the Miramichi is not likely to be much more than half that of last season.

THE GLASGOW MARKET.

Edmiston & Mitchell's Monthly Timber Circular of September 30th, 1904, contains the following particulars concerning Canadian lumber:

WHITE PINE.—The import of the month amounts to 3,000 loads of waney and 150 loads of square pine. Business is quiet, and there have been no transactions of any importance. Stocks are heavy.

OAK.—The import consists of about 350 loads. The stock of both Quebec and Southern States wood is still heavy and enquiries are few.

ELM.—There is a good demand for rock elm, and a fair business is being done at firm prices. The stock is moderate, and while there is still too much soft wood on hand, it is being gradually worked off.

QUEBEC BIRCH.—The import for September has been trifling and was disposed of from the ships' side. There are a few

enquiries in the market from time to time but no special activity in the demand, and moderate though the import has been this year, it has been ample for all requirements. In birch planks, the stock is now considerably less than it has been for some time past, and we shall soon see some improvement in values.

ASH.—Although the stock on hand is small, there is no anxiety on buyers' part to pick it up, and only occasional trifling retail sales are being made at prices which are by no means encouraging, from a shipper's point of view. For American ash logs there is not much demand, and there are several lots in the market unsold.

PINE DEALS.—Business has been rather better during the month, and sales "ex quay" have been more numerous. The import continues light and stocks are moderate. Current values are as under:—Broad First Pine Deals—£32 to £34; 11-inch, £29 to £31; Ends and Non-Dimensions, £22 to £24. Second Pine Deals—11-inch and up, £17 to £19; Ends and Non-Dimensions, £13 to £14 10s. Third Pine Deals—11-inch and up, £11 to £14; Ends and Non-Dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11 inch, £10 to £11; Narrows, £7 to £8 10s. First Pine Sidiings and Strips—9 to 10 inch, £23 to £24; 11 to 12 inch, £25 to £26; 13 to 14 inch, £27 to £28.

SPRUCE DEALS.—9-inch and up, £8 to £8 10s.; 7 and 8 inch, £6 15s. to £7 10s. Lower Port Spruce.—9-inch and up, £7 10s. to £8; 7 and 8 inch, £6 5s to £7.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN) VANCOUVER, B. C., Oct. 10th, 1904.—It looks as if there will be low prices for lumber all this winter. Since the price war they have not regained, and to-day lumber is selling in some instances as much as \$5 lower than the former figure. The result of this is seen in the greater amount of building which is now about to be done. Towards the winter months building generally falls off considerably, as the rainy weather is not favorable. This summer and fall, however, have been unusually fine, and last week the office of the building inspector was besieged with applicants

for permits. Most were for residences, but there is a large number of business blocks being erected in the city.

One of the features at the annual provincial exhibition held at New Westminster last week was the display of three "block down" houses by the B. C. Mills, Timber and Trading Company. They attracted considerable attention, and were the subject of much favorable comment. They can be erected for at least \$200 cheaper than the ordinarily made house, and in appearance and style equal the best. They are made in several styles and sizes, from the two or four roomed house up to eight, and from \$150 to \$600. The prices are delivered at the mills. A comprehensive catalogue is being issued by the company. The houses are the patent of Mr. E. C. Mahoney, manager of the Royal City Mills, Vancouver, a branch of the company. Mr. Mahoney was formerly of Hamilton.

W. W. Wardrop, of Fernie, whose mill was destroyed by fire a short time ago, having been set by a spark from a C. P. R. locomotive, will probably rebuild at Crow's Nest, where the railway has promised him a siding. Winnipeg men will also be interested.

It is reported that Senator McLaren, of

Office and Yard—571 Dorchester Street, MONTREAL, P. Q.

Telephone Main 388.

Correspondence solicited

Perth, Ont., who is stated to have entered suit against the C.P.R. for \$125,000 damages to his limits in the Crow's Nest, caused by fire started by sparks from locomotives, has had an amicable settlement with the C.P.R.

H. J. Haakamp, of St. Cloud, Minn., who has large interests in North Dakota, is president of the Great Northern Lumber Company, which will do business in Canada on a large scale, establishing branch offices throughout the Territories. H. N. Clausene, of Northwood, Manitoba, is secretary.

John Hanbury, of Brandon, purposes erecting at Elko, on the Crow's Nest branch of the C.P.R., a large planing mill and finishing factory, purchasing the rough material from the numerous small mills in the Kootenay.

Mr. H. J. Gilbert, president and manager of the Saginaw Manufacturing Company, of Saginaw, Mich., is on the coast looking for spruce ends, which are generally burned. He says he can use them in the manufacture of woodenware, even after paying the duty. He is greatly surprised at the wastefulness of millmen.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.
