The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LABORATORY
OF THE
INLAND REVENUE DEPARTMENT
BULLETIN No. 88
PARIS GREEN, 1902-3.

W. J. GERALD, Esq.,

OTTAWA, July 31, 1903.

Deputy Minister of Inland Revenue.

SIR,—I have to submit herewith a tabulated statement descriptive of the samples of Paris Green which were collected in accordance with your instructions of March 27 last, and also of a smaller collection of the same article made previously, the particulars of which were reported to you on October 27, 1902, but have not yet been published. Taking both collections, the number of samples submitted to examination was as follows:—

In Prince Edward Island.....	8
Nova Scotia.....	18
New Brunawick.....	18
St. Hyacinthe District.....	18
Montreal.....	18
Kingston.....	18
Toronto.....	16
London.....	17
Manitoba and N. W. Territories..	20
British Columbia.....	18
Total.....	169

Of this total the number of samples pronounced to be adulterated, or challenged for other defects, was as follows:—

	Adulterated.	Challenged.
From Prince Edward Island.....	2	0
St. Hyacinthe District.....	1	1
Montreal District.....	1	0
Toronto.....	0	2
	4	3

Discarding all the samples to which objection has been taken (7 out of 169) the percentage of genuine is 95·8. From this result it seems that an improvement has been taking place during the last ten years in the quality of Paris green sold in the Dominion. The averages of pure samples in the various collections made are given in the following memorandum:—

1894.....	72·2 p.c. genuine
1895.....	89·1 p.c. "
1902-3.....	95·8 p.c. "

I have the honour to be, sir,

Your obedient servant,

THOMAS MACFARLANE,

Chief Analyst.
