STRATHCONA HOME AGAIN CONFIDENT OF "ALL-RED"

Canada's High Commissioner Says
That Supreme Importance of the
Project is a Cause of Necessary
Delay.

MONTREAL, Aug. 2.—(Special.)—
"Naturally I have to keep in daily touch
with the Dominion, and I cannot
but be enjoying all over the coun-
try will continue for several years to
come. This is, in fact, but a repetition
of what took place in the United States
after they had recovered from the ef-
fects of their civil war," said Lord
Strathcona and King yesterday when
reached the city this morning, accom-
panied by his daughter, the Hon. Mrs.
Howard.

Lord Strathcona compared the position
of the Liberal party of England under
William Ewart Gladstone, with
that of the Dominion under Sir
Henry Campbell-Bannerman, and stated
that, although they had not advanced so
far as to adopt the "all-red" policy,
they were distinctly friendly to the
colonies, and especially to the Dominion
of Canada.

This, he thought, was clearly mani-
fest, when they readily adhered to the
idea of meeting the representative men
of the colonies every year, and the
purpose of discussing questions of
importance to both the motherland and
the colonies, and also when they con-
sented to the principle of what has been
named the "all-red line."

Speaking at length on this matter,
Lord Strathcona declared that there
was nothing to indicate any change of
attitude on the part of the British min-
istry since the day that he gave his
assent to this great project at the re-
cent conference. The British govern-
ment, through the colonies, was the
other ministers accepted this project,
which they do not doubt realized would
be of the greatest possible benefit to
the empire as a whole, and that his
adhesion would be carried into
practical effect in due season.

He said, however, that the project
was a very serious one, and one of
supreme importance, consequently no-
thing could be done in haste and with-
out a mature consideration of every
phase of the question. While it was
quite true that in the past it was a
mistake to say that he had ever pro-
nounced himself in favor of any particular
policy, he, however, had always
favored Halifax as the Canadian termi-
nal port, and when his lordship was
asked if this was the case, he replied
that he was not sure, but that he
calculated the time to make the run
from Halifax to Montreal, and arrived
at the conclusion that when the track
was in a first-class condition, as they
of course, must be, to admit of such
a trip would be easily made in
from 15 to 16 hours.

"Yes," he added, "the trip across
the Atlantic will be made in less than
from Halifax to the commercial capital
of the Dominion in two-thirds of an-
other day, making the route per-
haps the fastest from the coast to the
new world."

The Money Market.
—peaking of money going through a par-
ticularly stringent period, yet he
thought that Britain easily maintained
its financial supremacy over the
whole world.

"Yes," Lord Strathcona repeated,
"the United States, however, is a
rapid and generally successful develop-
ment," but he felt proud in the belief
that we are going to have a similar
development in Canada, and the
high commissioner asked the Dom-
inion well-wishers if they thought the
Dominion would well up to the
standard of the United States.

"What news do you have from South
Africa?"
"South Africa is rapidly recovering
from the effects of the late war and
Gen. Botha assures us that the Boers
will soon be amongst the King's
subjects of our Empire. I also look for
the early realization of that great
scheme of confederation of the whole
of British Africa. There is, in fact,
a gentleman now in London from
Cape Colony who is, at the instance
of Premier Chamberlain, endeavoring
into the matter of union and particu-
larly making enquiries as to the suc-
cess of our own Canadian confeder-
ation. I expect he will be over here
soon, where he will see the wonderful
success that has attended the confeder-
ation of the British North American
colonies."

Canada's Prosperity.
Referring to the prosperity now
prevailing in the Dominion, Lord
Strathcona said the expenditure now
taking place along the several trans-
continental railways would do a great
deal for the people both east and west,
but these railways were only instru-
ments to an end, for the future pros-
perity of the Dominion is rather in
the thousands and hundreds of thou-
sands of sturdy, industrious settlers
who are making their homes in our
great west and who are making that
rich soil of the west produce the bread-
stuffs of the empire. This, he said,
was the great paramount factor to the
country's greatness.

"Will they become good Britishers?"
was the next question put to the dis-
tinguished member of the British
house of lords.
"I have little doubt on that ques-
tion," was Lord Strathcona's prompt
reply. "They have found good homes
on this side of the line and it will
be their interest to be good loyal Can-
adians. Yes, I believe the men who
are now coming into the Dominion
from Great Britain and the United
States will turn out to be enthusiastic
admirers of our constitution and nat-
urally loyal defenders of our laws."

The Coal-Steel Trouble.
When asking about some old friends
of the high commissioner, referred to
the law suit now going on at Sydney,
"Yes," he added, "I am interested in
both the companies, although I have not
been informed as to the questions in
dispute. But how unfortunate it is
that this litigation allowed to pro-
ceed, and I am sure it will not be
much further. It seems to me that
business men should find a way to set-
tle the difficulty, for it is always im-
possible to force an agreement upon
one party that will not be mutually
beneficial to both."

ALTERATIONS ARE THE CAUSE OF WRECK

Verdict of Coroner's
Jury Enquiring Into
Fatal Building
Collapse at
London.

LONDON, Ont., Aug. 2.—(Special.)—
That the safe Wm. Thomas Tambling
came to his death in the City of Lon-
don in Brewer's store on the 16th
day of July, 1907, by the east wall of
what was known as the Crystal Hall
building falling eastward on the said
Brewer's store, and destroying it, thus
causing the death of said Wm. T.
Tambling.

"And we further find from the evi-
dence that the collapse of the said
Crystal Hall building was caused by
a portion of the middle wall of the
ground floor of the said building giv-
ing way as a result of certain altera-
tions that had recently been made in
the said wall on the floor above."

Several workmen who had been em-
ployed about the building told stories
of the accident without throwing much
further light on its cause.
Wm. Murray, the architect who had
charge of the changes, was recalled and
gave evidence as to the strength
and carrying power of the pillars
which were placed in the building.
Mr. Murray stated that it would have
taken a weight of 300 tons to break
down the columns. They were ten feet
four inches long, five inches in diam-
eter and of three quarter inch cast iron
metal. They supported the double
girders and were tied where they
crossed.

WEST TO FREEZE COMING WINTER

Shortage in Supply of
Perhaps 5,000,000
Tons of Coal is
Prophesied.

CLEVELAND, Aug. 2.—The north-
west will suffer a more severe coal
famine during the coming winter than
the record-breaking one last year,
which cost so many lives, according
to local coal shippers.

It is declared that the inability of
the railroads to supply the boats with
enough coal and the great demand
for coal during the closing of the
strike of ore handlers, will bring
about a far-reaching shortage of fuel
at the upper lakes. The coal supply
region out beyond the upper lakes
will have from 3,000,000 to 5,000,000 tons
of coal less than it will require, ac-
cording to estimates.

Ohio shippers are rushing fuel to
the upper lakes ports in every vessel
they can charter. Since the opening
of navigation shipments to the head
of the lakes are considerably greater
at this time than five years ago. A prom-
inent mine owner said to-day:
"There are now 100 big ore carriers
up the lakes awaiting cargoes. They
cannot get away till the ore reaches
the docks, which means a delay of per-
haps 10 days. Those huge vessels
when they reach Ohio ports with ore
are not going to take back coal."

"No vessel owner who is not under
contract to carry coal will wait for
a coal load, so the northwest probably
even with 12,000,000 tons of coal on the
docks by Dec. 1, will experience an-
other fuel famine before next spring."

DIVER SUFFOCATED.
Air Knew Parted and His Plight Was
Not Hoped by Party Above Water.
WINDSOR, Aug. 2.—(Special.)—Mar-
shall Townsend, a diver, was suffo-
cated by the parting of his air hose
while in twenty feet of water near
Algonac to-day.

There was no warning of the acci-
dent, which was only discovered after
Townsend had failed to respond to
signals and had been hauled to the
surface.

His features were horribly distort-
ed, and showed that he must have
suffered agonies before losing con-
sciousness.

DIES AT 104.
DETROIT, Aug. 2.—At Alpena,
Mich., to-day, Mrs. Mary Kruggilla,
the oldest woman in that
section, died. She was born in Ger-
many. Two daughters and 25 great-
grandchildren survive.
Her father lived to be 125.

WAY TO BREAK LOCAL OPTION

Hotelman Gets 249 Out-
side Stockholders
Who May Rule
Town.

NEEPAWA, Man., Aug. 2.—(Special.)—
The little local option town of Nee-
pawa is seething with excitement over
an attempt at the revision of the vot-
ers' list to add 249 names to the
list.

D. Hamilton, who has been pro-
prietor of the hotel, presented the
names stating that the hotel had been
sold to a stock company of 249 per-
sons resident in Winnipeg, who, he
claimed, had purchased his hotel and
block of land adjoining in shares of
\$100 each and were entitled to vote
upon it. The names were entered, but
the matter will be keenly contested
before Judge Ryan on Monday.

As there are only 500 voters in Nee-
pawa, the additional names could
carry everything.
The temperance people claim that
the names consist principally of hot-
elkeepers and bartenders of Winnipeg.
Citizens claim that the temperance
question is but a small matter in the
issue, and that if these outsiders can
vote they can rule the town from
Winnipeg, defeat any bylaw, incur
any expense, or elect any council or
school board they desire.

TWO SQUADRONS ORDERED TO MOROCCO

France and Spain Will
Act Together in Seri-
ous Attempt to
Discipline the
Sultan.

PARIS, Aug. 2.—An extraordinary
meeting of the cabinet to discuss the
Moroccan situation was held this after-
noon.

Foreign Minister Pichon expressed
himself in favor of immediate ener-
getic action by France to secure re-
paration for the murders of Europeans
at Casablanca and to insure the safety
of the Europeans still there. In so
much as France and Spain are charg-
ed, by the Algeiras agreement, to act
together in the matter of policing Cas-
ablanca, M. Pichon advocated, as a
first step, proposing to Spain the im-
mediate landing of French and Spanish
troops at the scene of the massacre.

At the conclusion of the meeting it
was announced that France and Spain
had reached an agreement to concen-
trate the squadrons on the coast of
Morocco.

The French newspapers, excepting
the socialist journals, are unanimous
in demanding that the government
take decisive steps to enforce respect
for France in Morocco.

Some newspapers express the opin-
ion that Germany will not now stand
in the way and think the time is ripe
to abandon M. Delcasse's policy of
"specific penetration," which they con-
sider has served only to arouse the
hatred of the Moors for the French,
and march straight to Fez.

La Republique Francaise says that
unless the head of Maclain Pagan,
the Governor of Casablanca, is obtain-
ed, a genuine holy war is likely to be
precipitated, and that this would en-
danger Algeiras.

French Policy.
VIENNA, Aug. 2.—M. Clemenceau,
the French Premier, who is taking the
cure at Carlsbad, has given out an in-
terview on the Moroccan situation, in
which he says that France will be
guided by two main considerations in
dealing with the situation arising from
the Casablanca murders. First, she
will, if possible, find a peaceable so-
lution of the difficulty and, secondly,
she will only take action in agreement
with the powers who took part in the
Algeiras conference.

Situation Grave.
TANGIER, Aug. 2.—Upon the request
of the governing board, the State Bank
has advanced 10,000 francs (about
\$100,000) to War Minister Cabbas to per-
mit him to send troops to Casablanca.
Almost all the French residents of Cas-
ablanca have arrived here on board
an English ship. They report the city
is surrounded by Arab horsemen and
the situation grave.

The government commanders, having
received no orders to suspend opera-
tions against the bandit Raisuli, who
is holding the bandit Raisuli, who is
prisoner, continue to burn native vil-
lages. They have sent the heads of
several insurgents into Tetuan.

Spanish Precipitation.
MADRID, Aug. 2.—The government
announces that in addition to the cru-
iser Infanta Isabel, which already has
arrived at Tangier, the cruiser Con-
silviana has been ordered to Casablanca,
has been ordered to the Moroccan coast.
Furthermore, orders have been given
to the cruiser Don Marie de Molina
to be held in readiness to sail at a mo-
ment's notice.

Rushing French Troops.
TOULON, Aug. 2.—The French cru-
isers Conde and Du Chayla left here
to-day for Tangier. The transports
Nive, Mythe and Shamrock have been
given rush orders to prepare to receive
2500 soldiers and 300 horses. The Nive
sails to-morrow.

Italy There, Too.
ROME, Aug. 2.—The government
has decided that the cruiser Etna, which is
at present on its way to Tangier with
the Italian minister to Morocco on
board, is to remain in Moroccan waters
at the disposition of the minister.

A GENEROUS PROPOSAL.

evening at Dineen's should attract a
large patronage, for broken lines of
fashionable hats will be sold at prices
round about the dollar mark. All day
there will be a half-price sale of straw
hats of remarkable value for the money,
Panamas at a reduction of 33 per cent.

store, corner Yonge and Temperance
streets.

Michigan gives its railways a stone and gets bread in return. On-
tario gives the railways bread and gets her reward in the form
of service as poor and rates as high as the public will stand.

The Telegram might have added that the Canadian railways are so
deferential to Michigan (which taxes both our big lines), that they carry
all the passenger traffic that originates in Michigan thru Canada at two
cents a mile in the same seats and cars with Canadians who are taxed three
cents a mile!

If the Ontario legislature took it into its head to put a special tax
on those railways that defy the law, where would Mr. Hays land!

Our advice to him is to do now what his counsel said they would do.
If the appeal went against them—carry out the law and when they do it,
do it as they do it in England, put the penny-a-mile service on every train,
not on one train each way a day.

Mr. Hays could pay dividends on his common stock if he adopted a
flat two-cent-a-mile rate over his whole system and could make his road
the most popular one in Canada.

THE FRONTIER COUNTIES, THEIR MEMBERS AND PENNY-A-MILE FARES.

The men who represent at Ottawa and Toronto the people of the
frontier counties of Ontario (where the Grand Trunk is bound to give
a penny-a-mile passenger service) are as follows:

Counties—	Parliament—	Legislature
Toronto	Foster Kemp Osler Bristol Macdonell	McNaught Foy Crawford Pyne
York	Campbell Maclean Christie Ward	McCowan Godfrey Calder Devitt Preston Willoughby Clark
Ontario	McCall (Vacant)	Pearce Rathburn Morrison Currie Carscallen Pense Gallagher Dargavel Graham Ferguson Whitney Kerr McMillan
Durham	Porter Northrup	
Northumberland		
Hastings	Alcorn Wilson Harty Avery Taylor Derbyshire Reid Broder Pringle Schell	
Prince Edward		
Lennox		
Kingston		
Frontenac		
Leeds		
Brockville		
Greenville		
Dundas		
Stormont		
Glenagarry		

It will be seen that two quite notable gentlemen are in this list of
local members, the premier of Ontario, Hon. James P. Whitney, K.C.,
and George P. Graham, Esq., leader of the opposition. The premier's
home is Morrisburg and his antagonist hails from Brockville, two towns
on the Grand Trunk that have for over fifty years been denied the right
of a penny-a-mile passenger service on that railway.

Two-cent-a-mile passenger travel would be a boon to people who
have to pay three and who until lately had to pay three and one-third
cents a mile, notwithstanding what Schell and Derbyshire said in parlia-
ment about "cattle cars" and the like. It is not only a boon in itself to
the people along the Grand Trunk, but it is the certain forerunner of two-
cents-a-mile for first-class travel for all Canada.

Therefore there is good reason for the question that many people are
asking: "What are these members of parliament, all these members
of the legislature, who represent these Grand Trunk counties, and espe-
cially the premier minister of Ontario and the leader of the opposition, doing
to secure the rights of their constituents to the two-cent rate?" But instead
of turning handspindles to serve them they nearly all seem to be quite dead
or ham-strung.

The members at Ottawa all acted as if they were chloroformed and
under agreement one side with the other not to say a word against the
railways and to join forces in cursing Billy Maclean at every opportunity.
Not one of them outside of Peter Christie (a farmer) and Uriah Wilson
(a shoe merchant) moved a hand to get the rate between Toronto and
Montreal of three and one-third cents cut down to three cents. And most
of them swore when The World published their names in black letters.

Andrew Broder, who has the reputation of parliamentary wit, went
a long way out of his road to try and ridicule the member for South York,
George Taylor of Gananogue, Conservative whip, grows especially sore
when any effort is made in parliament to make members "sit up" on these
railway questions. He is always ready to join with the Grit whip "to
soak" Maclean, "to snout him under." And yet single-handed the mem-
ber for South York got the maximum rate down to three cents as a result
of one of his moves. And he may yet get a universal two-cent rate.

We certainly expect something different from the Ontario legislature
men, and especially from Premier Whitney after Sir Wilfrid Laurier's
"Go to Mr. Foy" taunt. We can imagine hearing Mr. Whitney giving
forth one of those stirring sorts of his when his honor or dignity is invaded
by political enemies. Mr. Whitney has, as premier, made more than
good as the friend of the people, and he will make good again. As for
Mr. Graham, he, too, seems to be most anxious to keep Mr. Whitney up
to the bit, and if he is he will also begin to snort at the arrogance of the
Grand Trunk in defying the law of the land. Sir Wilfrid Laurier's taunt
is aimed at Mr. Graham as well as Mr. Whitney.

It is, therefore, very much in order for every voter in these counties
who is a friend of cheaper railway travel to ask his member in both houses
what he proposes to do toward compelling the Grand Trunk to obey the
law, whether that member be a Liberal or a Conservative. And next year
will see the elections on both houses.

If the Grand Trunk can defy the law in this one matter it can defy
it all along the line, and defy both parliament and the legislature. Any
parliament or legislature with the powers that ours possess (and especially
the power of direct taxation possessed by the Ontario house) could not
only make Mr. Hays obey the law and apologize for his malignancy, but
keep him turning handspindles from sunrise to sunset, and longer.

This question is no bigger than two-cents-a-mile; the question now
is how long is a railway, no matter how powerful, to be allowed to defy
the law of the land, and how long the men who sit in parliament and the
men who make the governments, and the law officers paid for by the people
are to sit dumb and spineless!

P.S.—While the above was being put into type the glad news came
into The World office that Acting Premier Foy—the "Mr. Foy" design-
ated by Sir Wilfrid Laurier—has decided to appoint counsel to take the
side of the people should the Grand Trunk carry the appeal to the supreme
court.

When The World wrote the article in yesterday's paper on this some
question, and telling Mr. Foy that he ought to get busy, it had an idea that
the seed would not fall on barren ground. The World congratulates the
acting premier and will put in a good word for him for an increase in pay
when "the boss" gets back.

Mr. Foy has another card in his hand that could be made more than
effective in bringing Mr. Hays to time. We have already mentioned it
in this article, and it was very well put in last night's Telegram, as follows:

Ontario either exempts her railways from taxation altogether,
or subjects them to taxation so light that it is not a burden at all.
Ontario has no power to exact a rate of two cents per mile from
the railways of this province.

Michigan taxes her railways heavily and requires its roads to
carry passengers for two cents a mile.
Gratitude for Ontario's forbearance should induce the rail-
ways of this province to treat their indulgent constituents better
than the railways of Michigan treat their hard taskmasters—the
people of that state.

Where are the signs of such gratitude?
Michigan gets more money than Ontario in taxes from the
railways. Michigan pays less money in fares to the railways.

Increased Activity in Real Estate Trading

August Will Be One of the Best in Years, is the Optimistic Opinion Expressed—Many Small Properties Changing Hands.

The predominant feature of the real estate market during the past week has been the continued demand for small sized lots within easy distance of the centre of the city, quite a number having been sold in the northern and northwestern districts.

The easy terms upon which these can be obtained appear strongly to be the primary working factor, especially in the case of the small lots.

This is supposed to be the dull season in real estate circles, but the past week has proved such an exception to the rule that most realtors are taking an optimistic view of things and say that the present month will be one of the best for many years.

There are numerous enquiries for stores, warehouses and industrial sites, and negotiations are in progress with several American and British firms who contemplate starting branches here if suitable sites can be secured.

Phenomenal Growth Toronto's phenomenal growth is made clear by the half-yearly report issued by City Architect McCallum yesterday. There has been an increase of nearly one thousand new buildings erected, as compared with the corresponding period of last year.

Architect McCallum has designed a morgue of pleasing elevation and fine proportions, that will be erected forthwith on Lombard-street, near Jarvis. It has been planned and arranged to

Toronto Wins Pitchers' Battle Royals Poor Base Runners

Kelley Scores Winning Run in Ninth—Jersey Makes a Homer

It was like pulling teeth yesterday for the Pats to down the Royals and maintain their position at the top in the Eastern League race. However, thanks to Kelley's hot throw in the third to Brown on Schafly's bunt, the locals tallied two, tying the score. The score board read Toronto 4, Montreal 3.

Bobbie Keefer, to whom the Kellyites handed out such a wellocking on his previous visit, was on the rubber for the Royals, and no less than eight of the locals struck at the atmosphere. His good work was marred by issuing half a dozen free transports. In pinches, however, he was steady, as 11 Toronto base-warriors will indicate.

Rudolph, the boy artist, twirled steady throughout, and even if only three Royals were fanned, not a single charity was issued. However, like Cheever, who once won the world's championship for New York, Rudolph allowed the visitors to tie the score in the ninth by using his splitter. Early it was a pitcher's battle, with honors even.

The visitors were the first to tally, noting two in the second on bunched hits. Neebham singled, was sacrificed, and by Morgan, scoring on Shean's fly to right, after Corcoran had tied to Kelley. Shean was advanced to right last noon on McManus' single to right, scoring on Keefer's infield hit to Phyle. McManus was caught stealing.

The Pats evened the score in the third. Rudolph was safe on his infield hit, while Thoney was advanced to right by bunted, and Keefer threw wild to first. Rudolph and Thoney crossing the pan, while Schafly journeyed to third, Phyle's light was extinguished at the initial corner. Kelley was issued a free pass and pilfered the middle sack. Flynn fanned and Erick fouled out.

Thoney, who was the first man-up in the ninth, was advancing to right, left for a complete circuit, putting the Leafs one to the good. They were still one to the good when the visitors went in to bat in the ninth, but Brockett hit the first ball pitched for three sacks. Brown fell by the sword, Hurley followed one of Rudolph's splitters to right, and McManus raised a kick and even went so far as to spit on the pitcher to do it. Now, Kelley's a gentleman, which is more than can be said of some people. Phyle was passed up on a double steal was pulled off. Then Joe Kelley raised a single, bringing in Schafly with the winning run.

ROCHESTER, Aug. 1.—The Rochester team, which has been playing poorly because of a crippled condition, was crippled no longer today. For Clancy was not in the game. His return was noticeable, but not enough to affect the general inferiority of the club. Buffalo won, 12 to 5, mostly because of errors. Score: Rochester, 12; Toronto, 5.

To-Day's Program. AMERICAN GOLF TEAM WIN INTERNATIONAL MATCH GOES TO VISITORS BY ONE POINT—LAMBTON TOURNEY STARTS TO-DAY.

Match Goes to Visitors by One Point—Lambton Tourney Starts To-Day.

COAL NOT AS SPECIFIED BY U.S. STEEL COMPANY

General Manager Jones Produces Evidence to Bear Out This Contention.

SYDNEY, N.S., Aug. 2.—(Special.)—General Manager Jones of the Dominion Steel Company was under cross-examination by J. J. Ritchie this morning. Mr. Jones produced telegrams and correspondence regarding the contention that No. 6 coal was not of the Phalen seam. These letters from the Steel Company to the Coal Company, and vice versa, were written during a temporary arrangement. The Phalen seam was designated in the letter of Oct. 18 because the Steel Company wanted coal from Nos. 1, 2, 3, 4 and 5, and wanted coal of one kind for steel-making purposes. The understanding all around was that the Steel Company was to get Phalen seam coal because it was most suitable for steel-making purposes. It was always his opinion that the Phalen seam, as he understood it, was not likely to meet his requirements for the purpose of steel-making. Under the contract he thought he had the right to change the designation of the seam, irrespective of whether it meant a greater burden on the Coal Company or not.

HAIL LARGE AS EGGS

QUEBEC, Aug. 2.—Quebec this afternoon was visited by probably the worst electrical storm in its history. Halitons, or rather chunks of ice, which fell were of peculiar formation, the core apparently consisting of the ordinary sized hailstone, surrounded by clear ice. Many were picked up two inches in diameter and the size of a hen's egg.

TROUBLES AT BELFAST LIKELY TO BE SETTLED

Parade of the Disaffected Police Called Off—Trades Disrupts Ending.

BELFAST, Ireland, Aug. 2.—The parade of the disaffected members of the local police force, which was scheduled to take place to-day, has been postponed, if not apparently abandoned, apparently to enable the government to be in a position to dismiss the entire police force of the city should drastic action become necessary.

At the sound of the first volleys, the police placed under arrest on suspicion of being members of the local police force. The shooting occurred in Oxford street in the centre of Chinatown where about fifty Chinamen were smoking in the open air.

At Harrison the Browns won another victory last night against the fast Wingo baseball team. The score, being 5 to 1 Batteries were: Harrison, Fisher and McQuibban; Wingo, Dwyer and Britton.

BRITISH NEWSPAPERMEN TOUR THRU ONTARIO WEST

Royally Received Everywhere—Party Leaves for Muskoka and Pacific Coast.

The touring British journalists returned to Toronto last night after a trip thru Western Ontario. They visited Niagara Falls, Hamilton, Brantford, London, Windsor, Walkerville, Detroit, St. Mary's, Stratford, Berlin and Guelph.

One of the party told The World last night that if they had been princes of the royal house they would not have had a better reception. "The contented happy faces we saw everywhere revealed a state of prosperity that fairly astonished us," he said. The Agricultural College at Guelph they considered a magnificent institution and wished a similar one could be started in the old land.

The Toronto World CHILDREN'S HUMANE LEAGUE

For the competition closing Saturday, August 10th, the subject is, "In the Garden." An idealistic sketch can be given if no real garden is available to describe, but we would, most of all, like to hear about the doings of birds and insects during the long summer days. Letters must not be more than 200 words, written on one side of the paper, and signed plainly with the name and address of the writer. Only members of the League can compete. If you are not a member, fill out the blank beneath and send with your letter. The prize is an enamel pin, with a wreath, and the letters, "T. W. H. L."

I wish to become a member of The Toronto World Humane League. Name: Address:

For August Wear.

Now that August weather is more and more settled, and with the prospect of one of our recent warm autumns before us, the thoughtful woman is planning her wardrobe to avoid that almost inevitable feature of the September shabbiness when one doesn't like to invest in this season's garments before the new styles come in. The best way out of it seems to be to get one soft muslin or linen frock, if needed preferably the latter, and make other things of a more durable material. Some of the things that are being worn at the moment are a soft muslin or linen frock, if needed preferably the latter, and make other things of a more durable material. MORE SMALLPOX CASES FARLEY-AVE. IS VISITED

Source of Contagion is a Fresh One—Patients Now Number Twenty-Seven.

The discovery of two more smallpox sufferers, a man and wife, living on Farley-avenue, reveals a source of infection separate and apart from those of the one-armed pedlar and the wife of the one-armed barber. In this case the disease was contracted from a young lady from Berlin, who had been removed to the Swiss Cottage yesterday. Dr. Sheard is hopeful that there will be no spread of smallpox in the neighborhood, altho the woman was ill five days before the nature of her sickness was known. The husband has just begun to show symptoms. There are no other inmates in the house. The number of smallpox sufferers now under treatment at the Swiss Cottage is 27.

WARY OF GASOLINE.

Application For Permission to Install Tanks Gets Rebuff

With a vivid recollection of recent happenings emphasizing the dangers of gasoline, the civic fire and light committee yesterday decided against allowing W. Fountain, 30 West Adelaide-street, to install two gasoline tanks beneath the surface of a public lane in the rear of his premises. The assurance was given that the tanks, each of which was to contain five barrels of liquid, would be buried two feet below the surface, and the gasoline exhausted by a pump, but both the city architect and Fire Chief Thompson were opposed in the event of a fire in the locality.

GUN BREACH BLEW OFF.

Three Men Killed and Seven Injured on French Warship.

TOULON, Aug. 2.—Three men were killed and seven others wounded by the explosion of a gun during target practice to-day on board the French training ship Contre-torpilleur. The breach of a 100 millimetre gun was blown off. The recoiling mechanism of the gun failed to work, and the breach was shattered into a thousand pieces.

DOLLAR A MONTH PHONES FOR FARMERS OF OHIO

Independent Company Gives Splendid Service With Long Distance Connection.

A telephone system for \$12 a year including long distance connection with the Bell is what the farmers of several sections of the State of Ohio are enjoying, according to the testimony of Dr. Blue of Germantown, O., who is visiting at the residence of Mrs. Lee of 73 Rose-avenue.

Two-thirds of the farmers of the district are enjoying a splendid service given by the Independent Telephone Co. of Germantown. The company was started in the town and at the time the Bell Company had sole possession, but owing to the monopolistic rates there were only about 30 subscribers. In two years the Independent Company had made such headway that the Bell left the field for a time. The big company, however, had its long distance subscribers to take care of and it came to the local concern for an interchange arrangement. The terms proposed were decidedly favorable to the Bell and were turned down, but finally it came back and got an arrangement whereby the Bell agreed to handle the business of the Independent Company where the latter could not go. By this agreement the Bell got into the independent exchange.

There are now over 400 services in Germantown and vicinity, extending out five miles, nearly all the farm houses being on the line. The house rate for townpeople and farmers alike is \$12 a year for residences and \$15 for business houses. Party lines cost \$10 a year.

In Farmersville, Ohio, 4 1/2 miles away, there is another independent line with 200 services. The rates are the same as in Germantown and the subscribers have free interchange with the latter place. Gratis, 9 miles distant, has another company serving 250 subscribers; West Alexander, 12 miles, with between 200 and 300 subscribers and Miamiburg has just organized a company. All the places pay the same money and get a free interchange with the other lines. The Germantown company is paying eight per cent. dividends to its shareholders and creating a fund to retire the debentures and make extensions.

In no case is there a charge for installation.

Cigarettes Displacing the Cigar. Slowly but surely the cigarette and the pipe are ousting the cigar in England from its position of honor in the estimation of smokers. The report presented at the annual meeting of one of the great English firms of cigar makers shows that the consumption of cigars has steadily decreased since 1888, and this year it is likely to fall lower than for twenty years past.

Many and various reasons are put forward, but the majority of firms agreed that the cigarette was responsible for the change.

"The cigarette and the pipe are becoming increasingly popular," said the director of a large company.

"The board of trade returns for cigars sold during the past five months show a decrease of twenty-five per cent. as compared with the previous five months."

"We secure a large number of contracts for supplying cigars and cigarettes at public dinners," he said. "A short time back the demand for cigars at public dinners was very small; but now we very often have to send along two cigarettes to every cigar. The fact of the matter is that the cigarette has been brought to such a pitch of perfection that it possesses all the good qualities of a cigar—both as to flavor and aroma—with none of its drawbacks."

NOT DISCRIMINATION ACCORDING TO ROUTE

Pacific Coast Boards of Trade Lose Their Case Against the C. P. R.

OTTAWA, Aug. 2.—The board of railway commissioners has given judgment sustaining part of the complaint and dismissing another part of the complaint of the boards of trade of British Columbia and Pacific coast cities, that the railway rates levied on all classes of goods from Vancouver eastward were discriminatory as compared with the rates on westbound traffic from Winnipeg. The rates attacked were those of the C.P.R.

The judgment is signed by Commissioner Killam and Bernier, and a dissenting judgment is given by Commissioner Mills. The judgment of the majority of the commissioners is to the effect that the complaints should be dismissed, except in so far as relates to the classes of traffic for which reduced rates are given under the act relating to the Crow's Nest line.

"It appears to me," said Chairman Killam, "that no inference can be drawn from a mere comparison of distance from different portions of railways, and that it does not constitute discrimination, much less unjust discrimination, for a railway company to charge higher rates for shorter distances over a line having small business or expensive construction, maintenance, or operation, than over a line having large business or comparatively inexpensive construction, maintenance and operation."

Computations showed the rates from Vancouver to Calgary were really lower as compared with those from Winnipeg to Calgary than if they were based upon the proportionate expense.

Commissioner Mills, dissenting, says that under the Crow's Nest Pass Act reductions were made on rates on the prairie section, while not given in British Columbia. He recommended that rates between Vancouver and Calgary should be reduced to the same relative proportions between these and those between Winnipeg and Calgary, thus equalizing Vancouver eastbound and Winnipeg westbound rates at a point sixty-seven miles west of Calgary.

GRIMSBY PARKER ACCUSED. Grimsby Parkers are said to be all agog over an accusation made against C. M. Gorton, president of the Restaurant Association, who has been asked to appear on Monday before a justice of the peace on a charge of misconduct on one of the piers of the park.

The charge is said to be the outcome of a feud among the residents.

WERE NOT CONSERVATIVES WHO CRIED FOR SCALP

Dismissal of Magistrate Woodvatt Decided Entirely on Merits of Case.

Hon. J. J. Foy, acting premier, handed out yesterday the following statement with regard to the dismissal of Police Magistrate Woodvatt of Brantford:

As some of the newspapers are still under misapprehension in connection with the removal of Police Magistrate Woodvatt of Brantford, it is only fair to the Conservatives of that city to state again that the dismissal did not arise out of any demand by persons who sought office for themselves or their friends.

SAVING MONEY

The wisdom of saving money must be apparent to any person who gives the subject any thought.

A little money saved enables you to take advantage of opportunities for making more money; to buy a lot, to make the first payment on a home, to start in business for yourself. The opportunities come to the man with Capital. Saving the small sums is the creation of Capital.

There is but one certain, safe way to accumulate money, and that is to save it. Thus, and thus alone, can the foundation of wealth be firmly laid. Those who earn and spend are many. Those who earn and save are the select few who gain a competence and place themselves in a position to grasp life's opportunities, by spending less than they earn and saving the surplus.

Economy is the road to wealth. Deposit your savings with the

World Office

Friday Evening, Aug. 2.

The Toronto stock market is in the hands of insiders. Where it is desired to force prices down, as in the case of Toronto Railway, for the purpose of accumulation, the desired effect is produced by the sale of a few odd lots. In other cases where the outsider is compelled to sell, or has become too nervous to hold, as in Rios or General Electric, his stock is taken at a moderate concession. The market to-day heard of nothing but tight money. The strain on holders was quite tense, and it was with difficulty that holders, whose securities were paid for, were kept from liquidating before the market went to pieces, and there was no demand even for gilt-edged securities. Pessimism of the most virulent type ruled brokers' offices to-day, the air of all being too oppressive for an individual who was not entirely anemic. Trading on the Toronto market to-day was as dull as it has been; the reductions in prices were not large, principally because the liquidation was again kept within bounds. General Electric and Rios were about the weakest features. The London cable to-day quoted General Electric at 114.15, but the lowest sale here was at 115 for a five-share lot. The market on the whole was very dull and heavy, and a holiday will be taken until Tuesday.

The Reading's anthracite tonnage for July will approximate 1,200,000 tons, as compared with 977,000 tons in July, 1906.

There was a severe decline in copper metal in London, followed by some rally on the covering of speculative shorts.

Wire trade authorities say the cut in prices has brought in no new business of importance.

On the present state of earnings, United States Steel will show equal to 151-2 per cent. on the common at the end of the year.

For the six months from January 1 last the gross earnings were \$168,119.75, being an increase of \$23,804.94, or 16.45 per cent. over the same period of last year. Net earnings were \$68,718.23, being an increase of \$21,634.57, or 45 per cent.

On Wall Street.

Chas. Head & Co. to R. R. Bon-sara.

The market to-day has been remarkable for its general firmness and small range of fluctuations. Opening steady, but somewhat irregular, prices improved on short coverings for the first hour, and then receded about half the advance. There has been an absence of pressure to sell, and an acute scarcity of buying orders. The short interest is sufficiently large to restrict severe rallies, the situation, however, promising enough to withhold covering. The forthcoming bank statement estimate is for a loss of \$4,000,000 in cash. Money throughout the week has been distinctly firmer and promises to be in good demand at high rates in the near future. The announcement that the State of Alabama had cancelled the privilege of the Southern Railway doing business in that state was taken with surprise of consequence on the stock, and simply goes to show the extent and quality of the feelings against the railroad in some of the southern states, which would lead to such foolish and radical action. The closing was firm at near the figures of the day of little interest and less activity.

Some moderate change in monetary conditions abroad for the better, the overall condition of our security list, brought about a steadier tone to-day with some decrease in activity and without evidence of speculative support other than moderate covering of short interest.

There is no routine money movement reported, showing a loss by the banks of about \$4,000,000, and the government cotton crop report, which was unfavorable, there were few new items of importance of marked effect.

The Alabama secretary of state has revoked the license of the Southern Railway in that state, and this would appear to promise a further entanglement near the supreme court to pass upon finally.

We cannot at present forecast a sustained advance in the market, based on possible developments in the near future. The absence of special causes for depression may permit a strong market for a few days.

Ennis & Stoppani wired to J. L. Mitchell:

The market was somewhat better to-day, but not at the expense of activity which is apparent after each rally. A careful study of conditions fails to show any reason for pessimism. Every indication is for good average crops with perhaps the exception of winter wheat. Among the strongest banking interests the opinion is expressed that prices are cheap, altho any sustained upward movement should not be looked for until the time money market eases up.

A. O. Brown & Co. to J. Lorne Campbell:

The market has been somewhat irregular and on the whole rather dull. Sales were only about two-thirds those of yesterday and one-half the volume on Wednesday. There was a rather good demand for stocks in the first hour, a good portion of which represented short covering. Short lists were put out again later, chiefly on the expectation that very heavy fines

DR. SHEARD FOR BRIDGES.

M.H.O. Agrees With Mr. Rust's Report in Problem of Esplanade.

Dr. Sheard and City Engineer Rust whose ideas on civic works have not always run in like grooves, are in agreement touching the mode of solution of the Esplanade problem. Dr. Sheard coincides with Mr. Rust in the advocacy of bridges as against the popular viaduct movement, and is out with the assertion that some of the petitions for elevated tracks are not being legitimately engineered, people living outside the city being encouraged to append their names.

Despite this support of civic officials the bridge idea appears to gain ground very slowly if at all among members of the city council.
