FIRE MENAGE IN N. B. LESSENER

The Wind Less Brisk and Direction Changes

Outbreak in Restigouche—Improvement in Madawaska—Losses in Maine, Quebec and Ontario—Official Blames Settlers.

(Canadian Press)

Fredericton, N. B., June 5.—Changes in the direction in which the wind is blowing and a perceptible falling off in its velocity, have materially improved the forest fire situation which during the week end became menacing in New Brunswick. Rain has been reported in the southern section of the province.

There have been no casualties and so far as reported by the department of lands and mines up to noon today indicated there have been no cases in which forest or brush fires have spread to settlements and caused the destruction of homes or other buildings.

One of the latest fires reported is at Mitchell Settlement, near Jacquet River, in Restigouche County. It is one of the few new fires reported since more than a score suddenly sprang up on Saturday afternoon and Sunday when a high wind fanned small blazes to fury and caused many settlers' slash burning fires to get beyond control.

The latest report from Mitchell Settlement is that the large crew of men fighting the flames are still being retained on the scene but that the fire is apparently under control. Conditions at St. Jacques, Madawaska County, where last night it was feared much damage would result, from a menacing fire, are also much improved.

Island Falls, Maine, June 5.—Two extensive forest fires that had been raging for several days about Howe Brook, seven miles from Sylvania Mills, were reported under control yesterday.

Six camps at Howe Brook, owned by Dean and Milliken were destroyed on Saturday.

In Quebec, Quebec, June 5.—That seventy-five per cent of the forest fires which are at present raging in all directions throughout the province, are directly due to the imprudence of the settlers, was affirmed here last night by an official of the Lands and Forests Department.

It had been said that many of the fires were due to sportsmen, but this opinion was ridiculed by officials who pointed out that most of the fires originated near where settlers were burning slash contrary to the regulations and in districts where there is no wishing to attract sportsmen.

There was a heavy downpour of rain here last night for a short while and the storm must have swept through most of the district. Where fires have not gained great headway the rain was sufficient to quell the outbreaks, but where the blaze has assumed considerable proportions a heavy rainfall for a day or two will be required.

Few details reached here yesterday as to the destruction of the village of Whitworth, in Temiscouata. It is said that it is only a small settlement comprising a few families and that the fifteen houses reported destroyed were small sheds and the like.

Ottawa, June 5.—The lush forest north of Maniwaki are reported under control. The timber that has been destroyed is on the Jena De Terre River, a tributary to the Gatineau River, but pumps and dynamite kept the fire from spreading.

No settlements were in danger and the village of Montfort is now reported safe. It is learned that the timber loss will be about \$75,000.

Port Arthur, Ont., June 5.—The belief that rain yesterday in Western Ontario has relieved the district of serious danger from forest fires for the present was expressed here last night.

Montreal, June 5.—Forest fires near Labelle, Que., were still much in evidence last night but were burning with greatly lessened intensity. There are no villages in the danger zone and it is expected the blaze will soon be under control. There was a light rainfall yesterday in the district.

MAN KILLED BY LIGHTNING AS HE DRIVES WITH CHILD

New Haven, Conn., June 5.—One death by lightning, several fires and a large amount of property damage are reported throughout the state as the result of two short but violent thunderstorms late yesterday.

Angelo Mirron, 28, was struck by lightning in Hamden and was instantly killed. He leaves his wife and eight small children. Mirron and a small daughter were riding in a carriage when the bolt struck them. The little girl escaped injury while her father and the horse were killed.

Oshawa, Ont., June 5.—During a severe electric storm yesterday, James Campbell, seven year old son of Mr. and Mrs. James Campbell, Brooklin, was struck by lightning and instantly killed. He was playing with his little brother and sister near the door of a loft, when the bolt struck him and he fell from the loft to the ground, about ten feet.

Three Rivers, Que., June 5.—Joseph Huard, an employee of the Shawinigan Water and Power Company, was struck by lightning last evening during an electric storm. His condition is critical.

The Delorme Case.

Montreal, June 5.—Definite announcement that Rev. Adelaire Delorme will stand trial on a charge of murdering his half brother, Rouch, at the term of the court of King's Bench, now in session, was made today by R. L. Calder, K.C., crown prosecutor.

THE ROBINS TIE WITH PITTSBURG

Brooklyn Team Showing a Swift Pace in National

Third Straight Defeat for Yankees—Young Pitchers Continue to Do Well—Williams Makes Twentieth Homer.

(Canadian Press)

New York, June 5.—The Brooklyn Robins, continuing their marvellous pace, are tied for second place with Pittsburgh as a result of their victory over the Pirates yesterday, 6 to 3. The Brooklyn aggregation drew a half game nearer the league leading Giants as the latter team was idle. The Robins apparently are making their own opportunity, for Pittsburgh now is counted the strongest team in the west. The Athletics, back for a prolonged stay on their own grounds, will hold reception for the western teams they found easy, and by maintaining their present position should accumulate points. The Yankees, too, will be receiving western visitors, but the Yankees are in low spirits for the time being, losing yesterday to Washington 6 to 3, the third straight defeat.

Of the two sensation teams of the majors, Brooklyn is going better. It was the fury of its attack that won over the Pirates yesterday, for the Pirates had won 12 out of 13 games on their home grounds this year and had been fairly successful on the road. The Robins were outbit, but their blows were savage and timely.

Both Manager Connie Mack and Manager Wilbert Robinson are trying to gather strength. Robinson and Elberts are dickering with Boston and Pittsburgh for a trade by which Pitcher Dutch Ruether will be their main stock. Ruether's work has been unsatisfactory to Brooklyn and it is understood he desires a change. Mack has taken on two more college pitchers, Southpaw Beard and Brice, a right-hander. Both Mack and Robinson have had good results from pitching recruits this year, and all in all it has not been a poor year for experienced moundmen.

The latest to come through is Papi Zahner, who handled himself cleverly against Joe Bush yesterday, letting the Yanks hit but not when it was too significant. Up to the eighth he yielded only three hits and no runs. He showed no fear of Babe Ruth, so Babe collected three hits.

Cy Williams, leading home run hitter of the season, gave the fans who stand by the Philadelphia Quakers a thrill by walking his 20th homer of the season, which was instrumental in the Quakers' 9 to 7 victory over Boston. There were three other home runs. Stuffy McInnes, Braves' first sacker, connecting with the bases filed.

The Cincinnati Reds continued to lose opportunities by losing to Chicago 8 to 1 in the ninth inning after they had the game won. Last week the Reds began their comeback but they could not sustain their spurt.

SHOT BY C. N. R. MAN; MAY DIE

Scott Says He was Carrying Bag With 18 Bottles of Whiskey.

Brookville, Ont., June 5.—As a result of having been shot last evening by a C. N. R. police officer, Bernard Scott, 21, of this town, is in the General Hospital with a bullet wound in the back under the second rib on the right side, and George Walton, sergeant of railway police, who fired the shot, is being detained by crown authorities pending the outcome of a statement made to County Crown Attorney M. M. Brown. Scott said that he boarded a freight train at Cobden, Ont., June 2, with a bag containing eighteen bottles of Scotch whiskey, and at Cornwall was chased by a town policeman and a provincial official, but he escaped by reboarding the train when it was in motion. He was accompanied by two tramps whom he did not know. When the train was about one mile east of Brookville, he says he was accosted by Walton and two other railway constables. The train stopped, he jumped off and was crossing a fence when he was shot.

According to the crown authorities, Walton says that the shot was accidentally fired when he tripped.

E. W. Beatty of the C. P. R. In Budapest

Budapest, June 5.—(Canadian Press, via Reuters)—E. W. Beatty, president of the C. P. R., arrived here yesterday on his tour of part of Europe in the interests of the C. P. R. He has interviewed the Premier of Hungary, Count Bethlen, and several ministers of the Government. He also has had an interview with the president of the Hungarian State Railways.

MONTRÉAL'S WARMBEST DAY OF YEAR; 83 ABOVE

Montreal, June 5.—With the thermometer touching 83.5 here yesterday, the hottest day of the year so far has been recorded, the highest previous figure being 76 on June 2. At seven o'clock in the evening the temperature had fallen to 72 and it was getting cooler.

LONE POLICEMAN HOLDS ANGRY NEW YORK CROWD AT BAY

Street Car Had Killed Little Boy and Mob Sought to Get Motorman—Saved By Patrolman.

(Canadian Press)

New York, June 5.—A lone policeman with a drawn pistol held back a mob of several hundred today to enable Wm. Mooney, a surface car motorman, to flee from an upper east side crowd which had attacked him in response to the cries of a mother whose two year old son had been killed by her car.

The mother, Mrs. Solomon Silberberg, with the mangled boy in her arms, shouted that Mooney's carelessness was responsible for the tragedy.

Immediately several hundred attacked the car, crashing stones through the windows and storming the locked doors in an attempt to get to the motorman. Just before the leaders succeeded in getting to the carman, Patrolman Frank Rott fought his way to the doors and with drawn gun held the crowd at bay until Mooney made his escape through one of the broken windows and sought refuge in a car barn two blocks away.

Report Shelby Is Wet and Wide Open

Seattle, June 5.—Alvo Von Alvensleben, a cousin of former Kaiser William, and Russell H. Phinney, a St. Paul banker, arrived here yesterday from St. Paul in an airplane down by Nick Mamer of Spokane.

"At our first stop, Shelby, Montana, ready for the Desnoyes-Gibbons fight July 4. They told us that Shelby would not be a part of the U. S. until after the fight."

The machine was in the air twenty hours and ten minutes on the trip. After leaving Shelby, the airplane was forced down by a storm in Glacier National Park.

SYDNEY MAN IS KILLED IN WEST

Sydney, N. S., June 5.—Allan McNevin who until a short time ago resided in Sydney, has been killed in an automobile accident near Los Angeles, Cal., according to a telegram to relatives. Riding with him in the car were three former Sydney women, Mrs. William McNevin, Mrs. Brown and Mrs. Edward Kehoe, all of whom were injured. McNevin was a returned soldier. His mother and two sisters reside in Boston.

SEAMEN BRING ACTION AGAINST S. S. MASSASOIT

Norfolk, Va., June 5.—Alleging cruel treatment on the high seas, Robert Thayer of Bridgeport, Conn., and Edward Mudge of Brooklyn yesterday filed suit in the U. S. District Court for \$2,000 each against the British steamship Massasoit, on route to Montreal.

Both men are in a Norfolk hospital. Thayer is said to be suffering from severe bruises, which he says were inflicted by officers of the Massasoit, and Mudge is a victim of blood poisoning, resulting from the infection of an injury to his hand.

FORMER OFFICER TO INDIA, CHARGED WITH SWINDLING

New Orleans, June 5.—A Scotland Yard detective arrived here yesterday to take to India Colonel Charles Glenn Collin, a former British army officer charged with swindling a firm in Calcutta. He has been in and out of the jails here for several years while he fought extradition.

CIVIL WAR THREATENS IN HONDURAS; MEN SEND FAMILIES AWAY

New Orleans, June 5.—Reports of an impending civil war in Honduras were given impetus by the arrival here, yesterday, from the Central American republic, of several women and children who had been sent to New Orleans for safety by their husbands and fathers.

TWO NIAGARA VICTIMS.

Niagara Falls, June 5.—The body of a woman about thirty years old was taken from the Niagara River at the Canadian Maid of the Mist landing yesterday. The hands were well cared for and showed evidence of refinement. The body of a man recovered from the Niagara River on Sunday was identified as that of Walter C. Wagner of Buffalo, N. Y., by his father, John Wagner. He was twenty-one years old and was missing for several weeks.

DON'T THINK INDUSTRIES OF EAST NEED PROTECTION

Progressive M. P.'s Have Been Visiting Centres—Hon. J. A. Robb Says Liberals Moving Cautiously to Find What Country Needs.

(Canadian Press)

Montreal, June 5.—Although admitting that the future development of Canada depends upon sympathy and understanding between east and west, yet Progressive M. P.'s who have been visiting industrial centres in the east will carry back home with them their own ideas on political matters, unconvinced that eastern industries require any protection whatever, according to a statement by Alfred Speakman, M. P. for Red Deer, Alta.

He added that he felt that with the great natural water powers, and efficient management, the manufacturers of Canada, with their high mental calibre would be able to hold their own against the world.

Fon. J. A. Robb, Minister of Trade and Commerce, said the Liberals had burned their fingers over reciprocity in 1911 and now wanted to move cautiously and find out just what the country needs.

Sir Chas. Gordon said that the cotton industry was not a highly protected one, quoting figures to prove his assertion. He declared that immigrants did not all want to go on the farms and would go to the U. S. if not provided with industrial work in Canada.

FATHER OF TEN SHOOTS HIMSELF

Lawrence, June 5.—James Kennedy, 40, father of 10 children, with his name on the danger list, as the result of a bullet wound through the left lung. He shot himself in the family home, in Walnut street, the bullet passing through his body and through a door.

According to the police, Mrs. Kennedy said that her husband had been idle for the last two weeks, drinking heavily during that time. He went out and bought a revolver. When he reached home one of his daughters saw the revolver and told her brother, James, about it. He tried to get the weapon away from his father but the latter said he would shoot the boy if he did not desist. James left the room and almost instantly the father shot himself.

SEWER GAS CLAIMS LIVES OF TWO MEN IN SASKATCHEWAN

Melfort, Sask., June 5.—Two men were killed by sewer gas and a third overcome while cleaning out refuse tanks at the sewage disposal works here yesterday. The dead are John Pruner and Ernest Avison. J. Scalf was moved to Lady Minto Hospital. Hope for his recovery is held out.

INCREASE PENALTIES FOR ILLICIT DRUG TRAFFIC

Geneva, June 5.—The opium advisory commission of the League of Nations yesterday adopted the proposal of the French government to increase the penalties against illicit traffic in opium and drugs.

Hitch In Wedding Of Earl of Northesk

New York City Clerk Declines to Accept Divorce Papers of Jessica Brown.

New York, June 5.—A divorce decree halted the wedding of Jessica Brown, former musical comedy dancer, to the Earl of Northesk, yesterday.

The hitch occurred when Miss Brown and the Earl went to the municipal building for a marriage license. Miss Brown produced the decree granted her last October in Chicago from Cyril de Witt Reinhard, a naval engineer.

Michael J. Cruise, city clerk, shook his head when he read that Reinhard had been served by publication and the action was not defended. He refused to accept the divorce as legal in this state.

The young Earl followed Miss Brown to this country from England three weeks ago. Miss Brown said they would try in another state.

Fatal Automobile Crash In Nova Scotia

Digby, N. S., June 5.—A verdict of "accidental death" was given by a coroner's jury at Clementport yesterday in the case of Mrs. Harry Warren of Digby, who was killed near Clementport in an automobile accident.

Mrs. Warren's body was brought to Digby by publication and the action was not defended. He refused to accept the divorce as legal in this state.

The young Earl followed Miss Brown to this country from England three weeks ago. Miss Brown said they would try in another state.

ONLY ENOUGH LIQUOR TO LAST THE VOYAGE

Liverpool, June 5.—While it is still hoped that some satisfactory solution can be found for the U. S. ban on liquor on vessels entering U. S. ports, it is understood that the North Atlantic steamship owners have decided that outgoing liners will carry only sufficient liquor to last on the outward voyage, thus complying with the new laws.

London, June 5.—The Rome correspondent of the Central News says that according to Epoca, Gabriele D'Annunzio is on his way to Turkey to join Mustafa Kemal Pasha.

FRENCH GLIDER'S FEAT.

Garden City, N. Y., June 5.—Georges Barbot, French aviator, successfully completed a round trip gliding flight to West Point yesterday, using but two gallons of gasoline in more than 100 miles. At one time during the flight he reached 3,500 feet. Barbot recently crossed the English Channel twice in one day with the same monoplane at a fuel cost of less than \$2.

STRIKE IF WINE ALLOWANCE IS CUT OFF

Stokers and Firemen on French Steamships Object to U. S. Regulation.

Paris, June 5.—The threat of stokers and firemen on French steamers to strike unless assured they will receive their usual daily allowance of wine when in New York harbor has raised an issue that will probably be made the subject of diplomatic correspondence with Washington.

Meanwhile, straggling officials intimate that the Lafayette, sailing from Havre on Saturday, and other French ships, will be supplied with the usual amount of beverage liquor for the men as provided by law.

The ministries of merchant marine and commerce make the point that French vessels are French territory and are therefore subject to the laws of the republic. The views of the two ministries, however, are incorporated into a note that will be turned over to Premier Poincare for transmission to Washington. It is understood the communication will insist that French seamen retain their title to two litres of wine daily. The French line has not yet made known its policy.

Arbuckle Before The Public Again

Chicago, June 5.—Roscoe C. (Fatty) Arbuckle appeared publicly here last night for the first time since the Virginia Rappe case. He was given an enthusiastic reception by a capacity crowd at a summer garden where he has an indefinite engagement. The foyer of the garden was lined with floral tributes from admirers and a bulletin board covered with telegram was displayed.

Chicago was the birthplace of Miss Rappe, and she formerly lived near the site of the summer garden. Arbuckle's comedy is a seven minute trick comedy with Indian clips in which he is assisted by two acrobats.

Thirty-One Buildings Destroyed at Sussex

Heart of Business District in Thriving King's County Centre Wiped Out—Loss Will Reach Nearly \$200,000—Three Hotels in List.

A devastating fire broke out in Sussex about one o'clock on Sunday afternoon and, gaining headway by leaps and bounds, swept in its calamitous path a total of thirty-one buildings and entailing a loss placed at from \$150,000 to \$200,000. The section destroyed was in the heart of the business district of Sussex and will leave its scars for many years to come. Included among the places destroyed were twenty-five stores and business places, three hotels, half a dozen homes and a dozen barns and outbuildings.

Detailed Loss Estimate.
The buildings, occupants, owners, estimated loss, insurance and other details of the fire with the buildings taken in order from the origin of the fire follow:

North side and rear of north side of Main street:
Barn and tool shed and building occupied by Charles Carr, music store and furniture, owned by Frederick Whalen. Mr. Whalen's loss, \$8,000; insurance, \$2,000. Mr. Carr's loss, \$10,000, partly insured. Mr. Creed, manager J. Clark and Sons, lost stable and barn fittings stored in Whalen barn. Mr. Whalen will probably rebuild. Mr. Carr will try to get temporary quarters.

Two-story building, dwelling and dry goods store, owned by Nelson Leveigh and occupied by Frank Singer. Mr. Leveigh's loss, about \$5,000; insurance, \$3,000. Mr. Singer's loss, \$10,000; insurance, \$4,000. Mr. Singer has not decided on his further plans.

W. S. Fairweather, temporary one-story building in which he conducted a hardware business. Warehouse, car of coal, car of cement, cement warehouse, all destroyed. Insurance, \$1,800 on goods and warehouse valued at \$6,400. Loss and insurance on fully stocked hardware store, not known. Mr. Fairweather will probably seek temporary quarters and rebuild in brick and concrete.

Three-story building, wagon shed and barn owned by Thomas Brown and operated as lodging house, store and restaurant by Milan White, his son-in-law. Mr. Brown's loss, \$9,000; insurance about \$9,000. Mr. White's loss, \$3,500; insurance, about \$2,000. Mr. White may build a temporary place.

Two-story building, owned by C. W. Prescott and occupied by J. E. Howes as tailor shop and residence and by Frank Folkins as blacksmith shop. Mr. Prescott's loss, \$3,000; insurance, \$1,200. Loss of Messrs. Howes and Prescott, not ascertained.

One-story electrical goods store of William Haley. Merchandise loss, about \$1,000; insurance about \$300. Imperial Theatre, owned and operated by C. F. and E. A. Givan. Loss, \$80,000; insurance, \$12,000. The Givans have begun to rebuild in concrete and brick.

One and a half story double tenement owned by Isaac Scott, and occupied by himself and Mark Allen. Loss, about \$4,000; insurance, about \$3,000. Barn and garage, partly covered by insurance.

Barn owned by J. T. Prescott. Loss, about \$500.

Club Garage, owned by W. S. Fairweather, leased by Sussex Automobile Club. Car owned by Mr. Fairweather and one by E. H. Vickers burned.

South side of Main Street:
Building owned by J. J. Mercer and used as automobile showroom and residence. Total loss, about \$11,000; insured.

he suffers not only from tuberculosis, but also from hookworm and malnutrition. He cannot afford to do what his doctors advise, and in consequence he cannot give his employer better labor. This vicious circle can be broken, but it has not yet been.

A comparative check by name of all the reported cases and reported deaths from tuberculosis in Porto Rico during the last two and one-half years showed that sixty per cent of the tuberculosis deaths were never reported as cases. In other words, more than one-half of the death reports supplied the first official intimation that the patient had been ill at all. The illness probably concealed as long as possible, sometimes until death, and in many of the reported cases until the patient was in a moribund state.

Most Porto Rico cities employ physicians who hold clinics for patients at convenient places and who later visit patients who are unable to come in person. Most of these clinics are recommended. Other recommendations are for the establishment of social work, the supplying of free sputum cups, better reporting of cases, increased hospital accommodations, education of children along health lines, and the working out of a wage scale that will give

TUBERCULOSIS IN PORTO RICO
Death Rate Over 200 Per Hundred Thousand—Due to Wretched Living Conditions.

The laboring classes in Porto Rico suffer greatly from tuberculosis, says Dr. J. G. Townsend of the U. S. Public Health Service, who recently returned to the United States after a five months' study of the tuberculosis situation in the island. The tuberculosis death rate is a little more than 200 per thousand. This is greater than that of any States in the union except Colorado, where the tuberculosis death rate is of course enormously increased by the constant immigration of tuberculosis patients, for whom there is no longer any hope. In Porto Rico, moreover, the tuberculosis death rate of the well-to-do classes is very much lower than that of the laboring classes. In the industrial cities on the practically level coast belt it averages about eight per cent of the total death rate; in the mountainous central portion it is less, averaging about four per cent, except in certain industrial towns, especially those dependent on the tobacco industry. The death rate for industrial women is higher than that for men. This condition is the exact opposite of that in the United States, and is supposed to be due to the fact that in Porto Rico industrial women are also wives, mothers, and housekeepers.

These high rates are not due to the climate, but to the conditions under which the poorer classes live. A survey of more than a thousand houses occupied by the laboring classes on the island reveals that practically all of them consist of two rooms, and shelter an average of six persons. Each room has an average floor space of less than a hundred square feet; and the total air space is considerably less than ten thousand cubic feet. As the one window and the door are kept closed all night long to keep out the greatly dreaded "night air," this 10,000 cubic feet has to suffice for three persons for about eight hours. As Rosenau estimates that to keep healthy a man weighing about 160 pounds requires about 2,400 cubic feet of fresh air, renews every hour, the state of air in these rooms after being occupied all night by three persons may be imagined. Such conditions are, of course, ideal for the transmission of tuberculosis.

The usual diet of the people for the most part is also ideal for the propagation of the disease. Black coffee and beans in great quantities and sometimes bananas, oranges, and plantains complete the list.

Both the housing and the diet are due chiefly to the prevailing economic conditions. A wage of thirty cents to one dollar per day (generally fifty cents) make it impossible for the laborer to support his family, to furnish habitable homes, and to purchase adequate food. Employers say that the average laborer does not do enough work to entitle him to higher wages; and this may be admitted. But the laborer cannot do better work, because

If after a hard day's work, your eyes feel ready to close up on you—if on arising they do not feel entirely rested,

—then you are drawing on your nerve force and are, sapping your vitality.

YOUR EYES NEED HELP

A properly fitted pair of glasses will give you the help you are in need of. They remove the excessive strain, soothe the nerves and allow you to forget that you have eyes.

Scientists Combine Yeast With Iron To Make Greatest Tonic and Health Builder.

For the first time you can get the utmost health-building benefit from yeast. Scientists have accomplished this in ironized yeast by combining iron with yeast in a way that revitalizes the blood and increases the number of red corpuscles in the life stream.

Thousands are taking advantage of this new method of building strength. The iron supplies the vital and stay-where power of healthy nerve force to pale, weak, thin blood while the yeast is putting firm, solid flesh on your bones. Ironized Yeast is the scientific way of building up run-down people and brings improvement that you can feel in as short a time as ten days.

Scientists now agree that brewer's yeast is the richest source of vitamins known. So thousands of pale, sick and underweight people are gaining health and strength through Ironized Yeast, which is a combination of iron and other valuable tonic ingredients, with yeast imported from Bass, Ale, Brew, England, and especially concentrated under the process recommended by Dr. A. Seldell of the Hygienic Laboratory of the U. S. Public Health Service.

Get Ironized Yeast from your drug-gist today. It is convenient and pleasant to take, being in handy tablet form. The ten day treatment costs only \$1.00. It is guaranteed to give satisfactory results or your money will be cheerfully refunded.

The funeral of Joseph Peter took place on Sunday at 2.30 p. m. from his parents' residence, 125 Erin street, to the Cathedral. The service was conducted by Rev. R. MacDonald. Interment was made in the new Catholic cemetery.

"SUCH A MAN AS BALDWIN"
(Toronto Globe)

What environment produces such a man as Baldwin? "About such England there is a curious reserve," wrote P. W. Wilson not long ago in the New York Times. "They don't want to be clever. They make no pretence to the brilliant. Often they lack or conceal imagination. But it takes much to get them excited. With an ease that is apparently effortless they preside over some commercial undertaking, nonchalantly accepting their

profits and their losses, neither boasting of the one nor bewailing the other, but diling through it—never dreaming that in their existence there could be such a thing as failure. They do not announce success; why should they? Success is what invariably they assume. One does not announce a normal temperature.

It is the public schools of England that produce this type. Baldwin went to Harrow, answered the roll-call and wore the required straw hat that is held by elastic, not under the chin like a girl's, but at the back of the skull, where nature provides Harrowians with a mental groove not vouchsafed to the rest of us. From Harrow Baldwin passed on to Trinity College, Cambridge, so completing what in England corresponds to the grand tour. Harrow and Cambridge taught him that, while business is business, business is not the whole of life. Outside of business there are the home, the wife, the two sons and the four daughters, and sundry grandchildren. There are books; there are sports; there are public duties. The case of these men in business is due to the fact that they master business instead of business mastering them."

TEN LITTLE MEN; CHARGE FIVE FARES

Midgets Object to New York Taxi Man's Bill—Upheld in Court.

New York, June 5.—Magistrate Lawrence Fish, in the Traffic Court in Brooklyn, held that ten midgets do not equal in displacement more than five normal men, and dismissed a charge made against Julius Daranyi, who refused to pay a taxicab chauffeur more than the one-half man rate for himself and nine companions who were on their way from Manhattan to a Brooklyn theatre.

The refusal of Daranyi, who is thirty-two inches in height, to pay the charge demanded by the chauffeur caused a congestion of traffic at Livingston Street and Flatbush Avenue, one of the busiest spots in Brooklyn. Traffic Policeman Kerrigan served Daranyi with a summons for blocking traffic. With Daranyi in court were his nine companions in his adventure with the chauffeur. The magistrate agreed with Daranyi's contention that the traffic block was caused by the obstinacy of the chauffeur, who tried to enforce an unreasonable charge for ten little men, and dismissed the summons.

MISS CANADA AT GLACE BAY.

Miss Canada was presented a set of diamond ear-rings at Glace Bay last evening after she had officiated at the crowning of Miss Annie McKemie as "Miss Glace Bay." Her mother, Mrs. Fred R. Blair, was presented a check. Each of the seven young ladies who participated in the contest were given a string of pearls and Miss Elizabeth MacDonald, the runner-up, a white gold wrist watch.

A loss of about \$5,000 was occasioned on Sunday by a fire on the property of the Avon Coal Company, a subsidiary of the Nashwaak Pulp and Paper Company at Newcastle Creek, Queens county. The origin of the blaze is not known.

THE HOLIDAY.

The observance of the King's birthday yesterday was carried out with a full list of holiday events. At Grand Bay and Westfield the club houses were lighted for the evening dances with hydro current. The picnic at Loch Lomond organized by Rev. H. L. Coughlan was one of the most successful ever held. Humphrey J. Sheehan, J. Harry Driscoll and William Daley helped with the arrangements. The season was opened at Renfrew with a dance in the evening, at which prizes were won by Mrs. Robert Hunter, Miss Paterson and Bruce Holder. At the Fair Vale club house the first dance of the season was held. Those taking part in the arrangements were J. R. McManus, Mrs. Leonard Wetmore, Mrs. Edwin A. Ellis, Mrs. George Stubbs and Miss Nora Banks.

NEW CHURCH DEDICATED.

The dedication of St. Joseph's church, Loch Lomond Road, took place yesterday at ten o'clock. His Lordship LeBlanc was assisted in the dedication by Rev. W. M. Duke, Rev. R. McDonald, Rev. J. Brown, Rev. Francis Walker, Rev. M. O'Brien, Rev. W. Mallett and Rev. C. P. Carleton. Rev. Father Carleton preached the sermon, and Bishop LeBlanc gave a short address. After the service the visiting priests were entertained at dinner at the presbytery.

Take a Tip From the Suburbanites

Leaving the convenience of the corner grocer they now know what it is to be without the best Bread.

This year again you'll see them, here and there on the early evening trains with a loaf of Butternut tucked under arm. Both or no both, their appetite tells them they are not going to be deprived of the rich strength and satisfaction of a Bread that's better. Cause better things are baked into it in very special way.

It's Always Sweet

SEALED in air-tight tins and sterilized, Carnation Milk comes to you as pure and sweet as if right from the cow. For months it keeps sweet in the can and for several days after opening. Carnation is simply fresh whole milk with about 60% of the water removed by evaporation, sealed in the container and sterilized. Nothing is added. It is always ready, winter or summer, for any milk use.

Keep a supply of Carnation Milk in the pantry. From your grocer order several tall (16 oz.) cans or a case of 48 cans. Cook with Carnation Milk. Write for our new Cook Book containing 100 tested recipes.

CARNATION MILK PUNCH

A delicious and refreshing drink may be made by diluting ice cold Carnation Milk with cold water in equal proportions. Sweeten with sugar, flavor with vanilla, and a dash of nutmeg (lastly, add the beaten white of an egg).

Any sweetened fruit juice may be used in place of the vanilla, according to taste. Mix well before serving.

THE FIRE RECORD.

The town of Sussex has again suffered from a destructive fire. Its enterprising people must reconstruct an important part of the business section of the town. Fortunately they have the summer before them. It is unfortunate that a good deal of the property is not covered by insurance.

A fire which appears to have been the result of carelessness has done great damage in the vicinity of Willow Grove. Much lumber was destroyed, some of the colored residents were burned out, and a large tract of land was swept by the flames.

A FUTILE GESTURE

Governor "Al" Smith of New York, who wants to be President, has thrown in his lot with the "wets." Governor "Al" Smith will not be President.

There was a State prohibition act in New York, but it has been repealed. The repealer got through the Legislature by a narrow majority near the end of the session, and went to the Governor for his signature.

Augustus Thomas, playwright and author, quoted from Thomas Jefferson to prove that the people possessed an inalienable right to alter their form of government or to abolish it.

From the left, where the drays sat, came gasps of astonishment which were quickly drowned by the stormy wave of approval that came from the opposite side of the chamber.

Imagine the State of New York saying to the rest of the country: "We repeal the Volstead Act or we will take up arms."

But the State of New York is far from being a unit, even in regard to the repeal of the State prohibition law. Among those opposing repeal were the four to five thousand churches which the Anti-Saloon League represents.

"I need not point out to you that the Federal amendment and the national and state prohibition acts are the culmination of a century of struggle,

experiment and thought on the liquor question. Before national prohibition thirty-two sovereign states of the Union had gone dry, acting independently. On the submission of the question of the ratification of the Eighteenth Amendment forty-six states ratified. All but one have state enforcement codes to assist the Federal Government.

But the Governor did desert them, and chose the side of those whose chief spokesman talked of armed resistance to the Constitution of the United States by people whose sole grievance was an unsatisfied thirst for unadulterated beer, ale and wine.

UNVEILING MARTIN MEMORIAL

Above, C.P.R. "Empress of Scotland" arriving at Quebec. Below, F. L. Wanklyn of the C.P.R. addresses the gathering prior to the unveiling of the memorial.

Who was Abraham Martin? Had that question been asked one year ago probably not one Canadian in a hundred thousand would have been able to answer it. Today it is different.

In the meantime it is not remarkable how little Canadians know of Canada's history—as rich a bit of nation history as ever was crowded into a space of three hundred odd years.

Abraham Martin was some figure of a man in his day although most of his just claims to fame seem to have been thrust upon him. It was hardly more than a matter of accident that the "Plains of Abraham" should come to be named after him, and yet that was plenty to set all good Canadians wondering who he was and what manner of life he led.

He later had ten children

from whom have come a vast number of descendants among whom are numbered some of Quebec's best families and leading citizens. Bishop Tache of St. Boniface is one of his descendants in direct line.

All this was distinctive enough to justify the memorial which has been raised to Martin in the Harbour Square at Quebec. The handsome shaft of granite, designed by Henri Hébert and T. Roxburg Smith, was unveiled early in May by Hon. Athanas David, Quebec's Provincial Treasurer and the event was marked by a gathering of notables including the Governor of Quebec, Sir Charles Fitzpatrick.

He read the baptismal certificate of Abraham Martin's first child who was also the first white child born in Canada. He also read the baptismal certificate of Martin's third child upon whom was bestowed the name of Samuel de Champlain as godfather. The memorial has been set up by the Canadian Pacific in honor, not only of Abraham Martin but of the stout-hearted three hundred years have done so much to make the St. Lawrence River a safe and speedy route to and from Europe.

When a Filter is Needed. When adding one stage of audio-frequency, it is necessary to use a filter. It will, to a certain extent, filter out some of the noise, but its chief purpose is to prevent the interrupting frequency from paralyzing the amplifying tube.

"Radio Golf" Fans. A new game has been created by amateur receivers called "radio golf." The idea is to receive the greatest number of stations at long distance within a set length of time. A chart is kept for records. When a new station is heard, the call letters are registered, and the location and the distance are ascertained.

The Fading of Signals. Fading is caused by local refraction of radio waves. Where wireless signals sink in volume, it means that somewhere nearby a shower of electrons is falling, and that the waves which normally would have passed through are deflected into the electrified aerial as the shower falls squarely on the aerial, the signals will increase correspondingly, for then the waves from the outside are being bent in.

CANADIAN GIRL IS A FILM STAR

Pauline Garon Makes Hit in "You Can't Fool Your Wife," Now at Imperial.

Slim, blonde, five feet one, and cute, that's Pauline Garon, the latest meteor of the films who has recently sprung into screen fame, and who is one of the cast members in George Melford's Paramount picture production of "You Can't Fool Your Wife," which is now on view at the Imperial Theatre.

Little Miss Garon is a French-Canadian. She didn't learn to talk English until she was ten and still retains a decided accent. Always, however, there was an urge for expression, a desire to pour out the vivacity, the unquenchable enthusiasm, the "pep" to express it in a word, that is so distinctive part and parcel of this new whirlwind of the cinema.

So one bright day she went away on a visit. No reason at all, she just wanted to see a bit of the world and her spirit didn't reek of the difficulties attendant on a young girl traveling alone. Anyhow that has never bothered her, as the diminutive Garon is a raging lion to those who give offence. There's a lot of fighting spirit packed in the little body.

She landed at the Hotel Commodore, New York, took a \$12 a day room, and had \$125 left in her purse. She bithly wired home: "Send me \$50" and the next day she sailed forth to the theatrical producers.

Her beauty won her a quick job in "Lonely Romeo" in the chorus, and for two and a half years gradually she climbed up through "Buddies," and "Lilies of the Field."

Then she went into pictures, starting with Dorothy Gish in "Remodeling a Husband," in rather a minor part. Then she did "The Man from Cheyenne" with a Canadian partner. Attention focused on her when she appeared with Owen Moore in "Reported Missing" and burst into a chorus of "Who is She?"

It was this picture, a bubbling joyous role for her, that caught the attention of Cecil B. DeMille and resulted in her choice for a featured

role in "Adam's Rib" and in which she served so heavily. Her rise has been sure and has taken less than four years. It's a triumph of personality, the appearance of this young Canadian actress.

"You Can't Fool Your Wife" is one of the elaborate pictures of the summer period. Besides its stellar cast it gives a heavy thrill when the domestic relations of the two couples so greatly enmeshed reach a super-climax in the operating room of the surgeon and the unconscious patient being the flirtatious husband, the nurse his wife, who left him, and the vamp wife, dragged into the party by the enraged doctor. In such capable hands these roles were played to the very limit of dramatic tension. The Imperial also has a fine array of topical and comic pictures as well as always interesting merry quips from current press and magazines.

The same grand holiday show for today. Dumbells tomorrow.

At The Unique

Fascinating Film of Life on The Desert.

With beautiful and exotic scenes and settings, "One Stolen Night" brought the romance of the desert to the Unique Theatre yesterday, and no picture that has dealt with this popular locale has presented the inexplicable call of the sand wastes with more intriguing interest. Certainly no Arabian picture has presented the contrast of the East and West with a bolder brush.

Alice Calhoun is prettier in this story than in any that she has played recently. She is seen in a distinctive characterization, that of an Arabian girl in costume, and, for one night, in character. The transition to this girl of the East from the puritanical daughter of straight-laced parents is one of the best things Miss Calhoun has done for some time.

One of the commendable features of this desert story is that it is different. The hero isn't a bold, bad, lustful sheik who rides away with a poor girl who is moon-struck for the moment. On the contrary, Diantha Eberly, the daughter of two of the most prominent social lights of Boston, Mass., wants to have one night of girlish freedom, unshackled by the bonds of civilization before her marriage on the morrow.

There is no passion in her heart; there is simply a girl's wish to see life as it is lived.

DISARM THE SCHOOLS. (Kingston Standard.) The world has not yet learned the true lesson of history, that war is not the final arbitrament, and the means of bringing peace. History books need to be written from that point of view. Begin at the beginning—disarm the schools; or as someone said the other day, take the knives out of the nursery. Let the history books teach the absolute futility of war; how one war has led to another all through the centuries, how the earth is saturated with the blood of countless and strewn with the ruins of men's best work. Let one war be fought, the one against disease, poverty, vice and ignorance; if this were fought, if history books emphasized this as their chief lesson, in years to come men would marvel at the madness of men slaughtering each other to secure peace.

RECENT WEDDINGS

Waycott-Farris.
The marriage of Havelock Gordon Waycott and Miss Gladys May Farris was solemnized at 7 o'clock yesterday morning at 187 Waterloo street, by Rev. A. L. Tedford. Immediately after the ceremony Mr. and Mrs. Waycott left by train to visit the bride's home at Young's Cove, Kings county, after which they plan to return to this city where they will reside. Mr. and Mrs. Waycott's many friends extended hearty congratulations to them.

RECENT DEATHS

Mrs. Thomas Bradley.
The death of Mrs. Josephine Bradley, wife of Thomas Bradley, occurred on Saturday at her home in New York. She was formerly of St. John and is survived by her father, Thomas Ritchie, of St. John, one sister, Miss Nora Ritchie, of St. John, and one brother, Robert Ritchie, of New York.

Mrs. James F. Osborne.

Mrs. James F. Osborne died yesterday at her home, Park Avenue, East St. John. She was a native of Sheffield Eng. but was of Loyalist descent. She leaves to mourn her husband, three sons, Frederick F. A. Lawrie and Kenneth R., of St. John; one daughter, Mrs. W. M. Jenkins, of Gasquetown; two sisters, Mrs. B. G. Carter, of Annapolis N. S., and Mrs. Burton M. Holmes, of Amherst, and four grand-children.

Mrs. George F. Matthew.

The death of Mrs. George F. Matthew occurred on Sunday morning at the home of her son, Dr. W. D. Matthew, Hastings-on-Indians. The remains of her husband, Dr. Matthew, the famous geologist, has just reached the city, having been brought here for interment at Clifton.

The late Mrs. Matthew was a woman of high intellectual attainments and a tower of strength to her husband in his scientific pursuits. Of a gracious and ever kindly disposition she was always thoughtful for others and won the warm regard of all who knew her. She was exceptionally fond of poetry and, being possessed of a remarkably retentive memory, she could at all times delight her friends with her apt quotations. Mrs. Matthew was before her marriage, Miss Katherine Mary Diller, daughter of Dr. William Diller, a prominent Brooklyn pastor. She married Dr. Matthew, then in the employ of the public service in St. John, on April 1, 1868. She was a faithful and devoted member of Trinity church and for many years a teacher in Trinity Sunday school. She was one of the original members of the Ladies' Association of the Natural History Society, of which she was president for a lengthy period. The arrangement of the course of lectures which the Ladies' Association held yearly was a special delight with Mrs. Matthew and her ability in this regard brought great success to the programmes of lectures. When she left St. John to make her home with her son her loss was keenly felt by the association as well as by her very many friends. She had been looking forward to visiting St. John again this summer and her death was very sudden, caused by hemorrhage of the brain.

DAM ACROSS THE BELLE ISLE STRAIT

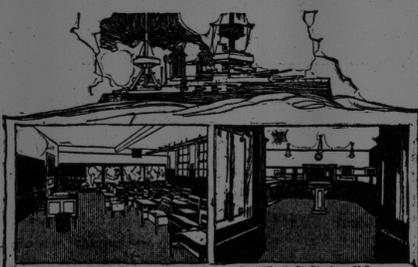

New York Writer's Idea of the Way to Do It and the Benefits That Would Follow.

To the Editor of The Times:

Sir:—This spring fifty ships floated helplessly around in the ice in the vicinity of Cabot Strait for several weeks. What an unprecedented economic loss! If a dam were built across the Strait of Belle Isle, this annual calamity would not happen. The enormous influence of ocean currents on the climate of contiguous territory is an undisputed scientific fact. The Galapagos Islands, for instance, lie directly under the Equator and though they are quite narrow, the temperature of the water on one side is twenty degrees warmer than on the other simply because the Antarctic current is prevented from fully touching both sides.

The Labrador current sweeps down through the Strait of Belle Isle, the Gulf of St. Lawrence and out through Cabot Strait and the Strait of Canso, around Nova Scotia and on past the New England States and pushes the warm Gulf Stream away from Eastern Canada. The stopping of this current would allow the Gulf Stream to strike in towards the Bay of Fundy and, there being no cold water there to meet it and kick up a mist, Fundy's fogs would fade away. The stream would then flow along the southeastern coast of Nova Scotia past Canso and on towards the Gulf of St. Lawrence. An easterly wind, instead of being raw and chilly, would then be mild and balmy as it would be blowing across warm water.

There must be an immense accumulation of cinders, clinkers, slag, etc., every spring, in the cities and towns on the River and Gulf of St. Lawrence that could be used to good advantage for dam construction. The Canadian Government could probably arrange with the owners of many of the steamers that got to Europe via the Strait to have them deposit, in the centre of the narrowest part, 500 to 1,000 tons of this material, while enroute on each trip. On their return trip they would have several more tons of ashes etc. to deposit at the same place. Thus, in the course of time, an island would be formed. This operation could be repeated between this island and the mainland on either hand till a barrier stretched from shore to shore. A lock could be constructed therein for the passage of ships. There might still be

Where Durability Counts and Quiet is Essential

These desirable qualities are always assured with the use of Dominion Battleship Linoleum. Its springy, resilient tread ensures comfort, too, while long wear under severe traffic in Banks, Schools, Offices, Departmental Stores, Hospitals and Public Buildings, is always obtainable. This makes for economy in cost and maintenance.

Then, too, Dominion Battleship Linoleum is highly germicidal and sanitary, most important health considerations.

DOMINION BATTLESHIP LINOLEUM is economical in first cost and entails but little cost for upkeep. The occasional use of a reliable floor wax is all that is required to maintain it in perfect condition.

When properly applied with waterproof cement, this fine product offers a smooth, seamless surface that is easily cleaned and comfortable to walk on and it wears for years and years.

Made in four standard shades—brown, green, terra cotta and grey. Special colors on large contracts.

some drift ice in the spring but it would be only local and the amount would be infinitesimal compared to the present quantity.

If the icy Arctic waters were shut off, Cape Breton would be surrounded by a warm current flowing through the Strait of Canso on the west and around past the Sydney on the east and impinging on the southern coast of Newfoundland. Some of this current would enter the Gulf through Cabot Strait and the rest would sweep eastward towards St. John's.

Thus the waters of the Gulf would be warmed and would no longer become clogged with vast, impassable floes of ice. Northumberland Strait would remain open water and the great expense now incurred for ice-breakers etc., would be practically eliminated. Moreover, fogs would disappear to a great extent and we would not then read of the wreck of such fine ships as the liner Marvale which is but the beginning of a long list. The dangers to navigation would appreciably diminish which would cause a substantial drop in insurance rates. As navigation would be open all the year round, Western Canada would also feel the mighty impulse of expanding commerce, Montreal, Quebec and all cities and towns on the River and Gulf of St. Lawrence would boom to an extraordinary extent and the provinces of Quebec, New Brunswick, Nova Scotia, Prince Edward Island and the western and southern part of Newfoundland would enjoy a prolonged summer season and a much earlier spring and the rise in the value of farm lands and

real estate generally would be incalculable. Crops could be grown which it is now impossible to raise.

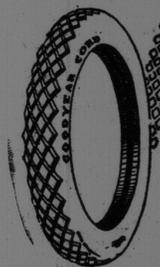

It would seem that if there is any investment that would return huge dividends to Canada, the construction of this dam is it. Compared to the Great Wall of China it need not be a mere bagatelle. The dam would not be finished in concrete. A rough dike would serve the purpose. Of course its construction would make the climate rather hot for us dwellers here in the Atlantic States but we could obviate that by emigrating to Canada.

TWO CHILDREN HURT.

Two accidents, one on Sunday and the other yesterday, occurred over the week-end in the North End. Catherine Husey, three years old, was struck by an automobile in Paradise Row on Sunday afternoon. The driver of the car rushed her to the General Public Hospital. It is thought that she suffered a broken arm. A baby was slightly hurt yesterday afternoon when the carriage in which it was being wheeled on Main street was struck by a motor cycle driven by Joseph Hennessy of Fairville. It was taken to the hospital and found to be only slightly hurt. The motorcycleist said he had been forced in close to the curb by an automobile and that he had been struck by the automobile and driven against the baby carriage.

First Labor College Sends Out First Class

Fifteen Graduates at Brookwood Represent Eight Nationalities and Seven Unions.

Katonah, N. Y., June 5.—The first class of the first labor college in the United States was graduated here last week, after a two-year course at Brookwood, as the college is known, in sociology, psychology, labor, journalism, statistics and labor problems.

The fifteen graduates, six of them young women, will return to the labor unions to which they belong for active work for trade unionism. No diplomas or degrees were given. There was a total lack of formality such as usually marks a commencement.

The students who were graduated not only paid their own way through the college, but were required to do two hours' manual labor each day. Although the college has been approved by many labor unions, no scholarships are now provided. It is the hope of the Faculty that some labor unions will provide scholarships.

The graduates represent eight nationalities and seven labor unions. The unions to which they will return are: International Ladies' Garment Workers' Union, United Mine Workers, Coopers' Union, Association of Machinists, Amalgamated Food Workers, Brotherhood of Railway Clerks and Union of Postal Workers of Great Britain.

The college is controlled by organized labor through a committee. The Faculty includes five men. Thirteen students remain at the college.

100,000 Girls In Turkish Harems

Armenian Population Nearly Wiped Out, Official Says

New York, June 5.—Between 50,000 and 100,000 Armenian girls and women are held prisoners in Turkish harems and 97 per cent of the Armenian population in Turkey has been wiped out, the Rev. Dr. G. B. Young of the Near East Relief declared in an address to the Evangelical Lutheran synod of New York and New England at the close of its annual convention here.

Dr. Young asserted that only 100,000 refugees remained of the former millions of Armenians and that the greater portion of these were children cared for in orphanages maintained by his organization. "The Near East Relief has rescued thousands of these women in Turkish harems," he said, "and are continuing efforts to free all of them. The Armenian race has been virtually wiped out by the Turks in the last seven years."

The following were elected members of the executive committee: The Rev. William Horn, Ithaca; the Rev. Dr. S. A. Kiefer, Buffalo; the Rev. Herbert S. Miller, Buffalo; the Rev. Dr. A. Steine, New York; James Gear, New York; Frederick Heinrich, Buffalo; William H. Hasbanc, Rochester; and Robert S. Howe, New York.

The executive committee will select the city in which the 1924 convention will be held.

Rogers' Crime Career From His Early Youth

(Toronto Globe.) With the shooting of Leo Rogers, one of the most desperate criminals Ontario has produced passed off the scene. Although only a couple of years out of his teens, he had already served several years in Portsmouth Penitentiary for shoplifting at North Bay.

For some reason, he always maintained that he had been wrongfully convicted, and harbored feelings of revenge against police officers who had been responsible for his conviction. His savage attack on Detective Walter Duncan of the Dominion Police in a cell at the Portsmouth Penitentiary was followed by his examination by Dr. C. K. Clarke of this city, the eminent alienist, who said the man was insane. At the request of North Bay people he was paroled.

His sensational hold-up of two Toronto stores to obtain firearms, his escape from the Courthouse at North Bay, the shooting of Constable Lefebvre at North Bay, and the killing of Sgt. Urquhart yesterday are recent events that have kept the province "on edge."

He may have been a madman since his youth. He acted like one. Officialdom may have blundered in his treatment from the beginning. It would seem so.

But Leo Rogers is another warning to those who choose the by-paths, who will do wrong, who set out to defy the laws of God and man.

The brief day of bravado and banditry is soon over. And then—"the end of the road."

Wrong-doing does not pay. It is not worth its price.

BEST HOME TREATMENT FOR ALL HAIRY GROWTHS

(The Modern Beauty) Every woman should have a small package of delatone handy, for its timely use will keep the skin free from beauty-marring hairy growths. To remove hair or fuzz from arms or neck, make a thick paste with some of the powdered delatone and water. Apply to hairy surface and after two or three minutes rub off, wash the skin and it will be free from hair or blemish. To avoid disappointment, be sure you get real delatone and mix fresh.

Advertising a Force For World Understanding

Advertising, the motive power in modern business, is being more and more applied to national and social service and world understanding, declares Herbert S. Houston in Our World for June. Writing in connection with the convention of the Associated Advertising Clubs of the World at Atlantic City in June, Mr. Houston outlines the development of the "Truth-in-Advertising" movement, and says in part:

"Sixteen years before America was discovered, William Caxton, lately returned to London from the Continent displayed the first advertisement in English. It was a modest announcement of his own business as a book seller and printer. From that small beginning has grown a force that finances Governments in wartime and that raises funds for hospitals and churches in times of peace.

"The reason for this growing power of advertising, as a social and religious as well as a business force, has been, in great degree, the remarkable work that has gone forward to establish it on the basis of truth. It is a movement that has had from its beginning, twenty years ago, what Herbert Hoover calls 'the potent force of ideals.' Its annual conventions resemble a good deal the old-fashioned religious revival. Some critical souls have insisted that all these things constituted merely a gesture. But the critics have been wrong; for all the time the movement has been building a broad basis of moral earnestness and determination upon which it has erected a great structure of definite accomplishment. It has been chiefly instrumental in placing honest advertising laws on the statute books of thirty-eight states. But even these measurable results did not satisfy the critics. They often said these laws would become dead letters, as they would not be self-enforcing. But the 'truth-in-advertising' movement went steadily forward to translate its ideals into action. A National Vigilance Committee was formed with volunteer committees in all the advertising clubs, now grown to two hundred and fifty in number. In due course it was found that volunteer committees were a good deal like volunteer fire departments—all right in normal conditions but of little value in case of a big fire. Then Better-Business Bureaus were formed with paid secretaries and investigators, supported by the merchants and bankers in the cities where they were established. There are now forty of these bureaus, working with quiet but ceaseless efficiency in behalf of truth; and over a half-million dollars a year is raised by voluntary subscriptions to maintain them. Their activities are all coordinated under the general direction of the National Vigilance Committee, with headquarters in New York City.

"Great Britain has led the way in demonstrating the value of advertising in building up Commonwealths. Canada, South Africa, New Zealand, Australia have been consistent and continuous users of this force in attracting capital and citizens. Many experiences from these interesting records will be presented in the forthcoming convention at Atlantic City, to the enlightenment of advertising men and women gathered from many nations. And next year in England, the mother of Parliaments, it is confidently expected there will come together an even greater parliament of advertising to consider how this modern force can best be promoted to promote prosperity and understanding in the world."

Summer footwear for kiddies —mother's problem solved

MOTHER knows how shoes of boys and girls are scuffed and worn, soiled and torn—that active, tireless little feet seldom rest from early morn till evening shadows fall. Mother knows how children's shoes wear out.

Mothers who put Fleet Foot shoes on the kiddies in summer time will find them light, durable, economical. Fleet Foot shoes, with their flexible rubber soles and canvas uppers, give comfort and foot freedom, and for the wear they give, they cost very little.

They are not Fleet Foot unless the name Fleet Foot is on the shoe.

Fleet Foot was originated and is made only by the Dominion Rubber System. The name Fleet Foot is on every pair. It is your guarantee of quality and value.

This is FLEET FOOT week. Dealers are making special displays of Fleet Foot shoes.

CITY COUNCIL OPENS TENDERS FOR STREET WORK

Contracts for West Side Water Renewal Work Recommended — Matter of Hydro Meters Referred Back to Commission — Harbor Development.

Tenders for the paving of Brittain street and Market Square were opened at a committee meeting of the Common Council this morning. Contracts for the work and material for the renewal of the old concrete main in the West Side were recommended to the council. There was some discussion on the matter of the proposed closing of the employment bureau, the granting of tenders for the supply of electric meters for the Civic Hydro Commission and the question of harbor development. The Mayor presided and all the commissioners were present.

Water Main Tenders.

On motion of Commissioner Bullock the tender of the Stephens Construction Co. was accepted for trenching and back-fill at the Lancaster and Prince street water main renewal, at 60 cents a lineal foot for earth and \$3 for rock; that of the Phoenix Foundry Co. for castings at 51-2 cents a lb. that of the General Supply Co. for cast iron pipe—52.8 tons of Class B. at \$84.4 a ton and 107.8 tons Class C. at \$63.68 a ton that of T. McAvity & Sons Ltd., for gate valves—three 12 inch at \$65.90; eight 8-inch at \$28.22; two 6-inch at \$17; that of John Farmer, Montreal for four 24-inch gate valves at \$230 and one 30-inch at \$191.

Commissioner Thornton's request for permission to expend \$1,000 on repairs to the Exhibition buildings was held over for a report from the City engineer.

A proposal from Commissioner Bullock to sell half the lot at the corner of Guilford street and City Line to Burpee A. Beyer for \$200 and lease the other half to Braulian McLean for \$4 a year, was accepted subject to the city not being held for the construction of a retaining wall.

Mr. Bullock said the whole lot was now leased to Mr. Lean for \$4 a year.

Paving Tenders.

Tenders for paving of Brittain street and Market square were opened and referred to Commissioner Frink and the road engineer for report as follows:—

John Flood & Sons—Granite blocks, \$5.24 a yard; concrete foundation \$8.85 in track; on roadway, \$2.20; reinforced, \$2.10; curbing, \$1.60; tile drains, 10 cents; curbing, \$2.80; circular \$8, resetting, 80 cents.

Kane and Park—Granite block, \$6; concrete foundation in track, \$8.10; on roadway, \$2.62; reinforced, \$2.26; excavation, \$2; drains, 15 cents; curbstone \$2; circular, \$2.10; resetting, 80 cents.

B. McCoway & Sons—Granite block \$5.08; concrete foundation in track, \$8.81, on roadway, \$1.93; reinforced, \$4 cents extra; excavation, \$1.40; drains, 14 cents; curbing, \$2.65; circular, \$2.91; resetting, 90 cents.

Boone & McDonald—Granite block, \$5.41; concrete foundation in track, \$8.85, on roadway, \$2.27; gravel aggregate, \$1.36; excavation, \$2.25; drains, 15 cents; curbing, \$2.60; circular \$2.75; resetting, \$1.60.

H. O. Clark—Granite blocks, \$4.95; concrete foundation, \$3.19 in track; \$2.90; on roadway, reinforced, 90 cents; excavation, \$1.50; drains, 10 cents; curbing, \$2.30; circular, \$2.60; resetting, 85 cents.

Isaac & Saab Co. Granite blocks \$4.97; concrete foundation in track, \$3.10; on roadway, \$2.25; reinforced, \$1.25; excavation, \$1.50; drains, 8 cents; curbing, \$2.20; circular, \$2.85; resetting, 85 cents.

Market Square.

Frank Wade—Granite block, \$5.31; concrete foundation, \$2.25; reinforced, \$2.37; excavation, \$3.50; drains, 15 cents; curbing, \$2.25; circular, \$2.35; resetting, 88 cents.

John Flood & Sons—Granite blocks, \$5.24; concrete foundation, \$2.23; reinforced, 75 cents extra; excavation, \$1.60; drains, 10 cents; curbing, \$2.80; circular, \$2.90; resetting, \$3.00.

Boone & McDonald—Granite blocks, \$5.48; concrete foundation, \$2.34; reinforced, \$3.71; excavation, \$2.25; drains, 15 cents; no bids on curbing.

H. O. Clark—Granite blocks, \$4.95; concrete foundation, \$2.10; drains, 10 cents; excavation, \$1.50; drains, 10 cents; curbing, \$2.30; circular, \$2.60; resetting, 85 cents.

Isaac & Saab Co. Granite blocks \$4.97; concrete foundation, \$2.10; reinforced, \$1.25; excavation, \$1.50; drains, 8 cents; curbing \$2.35; circular \$2.60; resetting, 90 cents.

Hydro Matters.

Voicing the opinion that the City Council should carry out the recommendations of the Civic Power Commission, unless there was some strong reason why it should not, the Mayor moved that the commission be authorized to expend \$10,836.65 in the purchase of meters from the Canadian General Electric Co., as recommended by the commission.

Commissioner Thornton said that he understood P. B. Yates was not an electrical expert. He said he would like to see his credentials. He thought if Mr. Yates was in charge here the recommendations should be signed by him. He thought the order should be drawn between H. M. Hopper and the General Electric Co.

Commissioner Wigmore thought the matter should be submitted to an independent engineer such as Gordon Krebs, or the contract should be decided.

Commissioner Frink moved in amendment that the recommendation of the Civic Commission be referred back for reconsideration. The amendment carried.

Employment Office.

In the matter of the proposed closing of the local branch of the Employment Service of Canada, the Mayor moved that the Common Council was strongly in favor of having the office continued as in the past.

Commissioner Frink thought the city should be officially notified of the discontinuance of the service.

The Mayor read a copy of a letter from the Minister of Labor to Premier Vanier in which it was intimated that

The funeral of Howard Saunders was held this afternoon from the residence of his daughter, Mrs. H. G. Appleby, 135 Elliot row, to Cedar Hill. Service was conducted by Rev. A. L. Tedford.

SIAGE BATTERY RE-UNION.

The fifth annual banquet of the Sixth Canadian Siege Battery Fraternal Association was held at the Clifton House on Saturday evening. About thirty-five of the old members were present. Telegrams were received from various parts of the U. S. and Canada, also a letter of regret from Lt. Col. Harrison, D. S. O. During the afternoon the out town members were the guests of the Byng Boys Club at Pleasant Point.

If the province entered into an agreement to participate in the service, the offices would be continued. The idea was expressed that the desire of the Provincial Government was to have the appointment of the officials in charge of the offices.

Commissioners Thornton, Wigmore, Bullock and Frink spoke in praise of the work done by the local office, and would refer to it closed.

The motion was carried unanimously. Magistrate's Retirement.

The Mayor said that so far there had been no reply from the Provincial Government regarding the retirement of Magistrate Ritchie, but he understood that to the present the magistrate had not sent in his resignation.

Commissioner Thornton read a letter from a citizen pointing out the propaganda being spread by other Canadian ports to the detriment of St. John. He suggested that the Western members of Parliament be invited to St. John to endeavor to interest them in the port of St. John.

The Mayor said he would take the matter up with the Board of Trade and see if any action had been taken by that body.

Dr. Frink suggested a conference with the local M. P.'s to ascertain why St. John has not been able to get the assistance due it from Ottawa.

Commissioner Bullock, referring to the extension of the Negro Point breakwater, said that Dr. Baxter, M. P., was taking the matter up direct with the Minister of Finance.

"If the Dominion Government is not prepared to carry out this extension," he said, "then it will fall to the duty of the city to carry it out itself."

Commissioner Wigmore expressed the opinion that if St. John had adopted harbor commission, it might have been far better off at present, instancing the results at Montreal and Vancouver.

"If the Government went ahead and carried out its contract of 1911, there would be no need to talk harbor commission," said Commissioner Frink. He deplored the criticism of this port by several of the Montreal newspapers, for

TOURIST HOTEL NEAR YARMOUTH

Will be Conducted by Geo. R. Hoskins of Boston This Summer—Anticipates a Large American Patronage.

The visit of George R. Hoskins (concerning whom The Times published a short story recently in connection with tourist ratters) to these provinces has had an interesting sequel. Mr. Hoskins has taken over the Markland Hotel, on Fourch Point, two and a half miles down the shore from Yarmouth, and will open it on June 23rd. It is a summer hotel which will accommodate a hundred guests, with room for a hundred more in cottages and tents. It is on an elevation 180 feet above the sea level, and there are forty-five acres of land, some of it wooded with spruce and pine. There are about twenty cottages near the hotel. There is a pier from which a launch with room for forty passengers will make hourly trips to Yarmouth. Both launch and motor bus will meet trains and steamers. The guests will have the privileges of the Yarmouth golf links.

Mr. Hoskins expects to crowd the hotel, whose name is changed to Yarmouth Inn, with American visitors. Already he has a number of bookings. On June 22, the day before the formal opening, the Yarmouth Board of Trade will stage a big day with band and speeches, and a supper and dance. The Rotary Club will use the ball-room one night per week, and make the Inn a Rotary rendezvous for the summer. Mr. Hoskins has planned to have a religious service every Sunday, with outstanding ministers from the provinces and New England. It is expected that on the first Sunday, June 24, Canon Armstrong of this city will speak, and will address the Yarmouth Rotary Club on the Monday following. Premier Armstrong of Nova Scotia has been invited to deliver a patriotic address on Dominion Day.

There is a fine bathing beach, and the old homestead on the property is being converted into a bathing house. The steward will be James Smith, a native of Dundee, Scotland, who had large experience in the line of hotels and amusements, in a winter hotel in Florida, and in clubs in New England. Mrs. Smith will have an important part in the culinary department. There will be a ladies' orchestra, and when the guests are not afloat, they may dance and enjoy music in the hotel.

Mr. Hoskins plans to build small bungalows and log cabins for next year, believing he has on Fourch Point just what thousands of Americans will want for four months of the year. He is here now as the guest of the Eastern Steamship Lines and will with the Tourist party to Boston tomorrow, having already arranged to give the Boston papers reports that will have much publicity value for this province.

EIGHT ARRESTS.

As Magistrate Ritchie had not returned from St. Stephen there was no session of the Police Court this morning. Since Saturday there have been eight arrests, seven on drunkenness charges. The eighth arrest was that of Jeremiah McIntyre, who was taken last evening charged with trespassing on the C. P. R. bridge and with using obscene and abusive language to C. P. R. Constable G. C. Curry. The man charged with drunkenness all were arrested on Saturday or early Sunday morning. It is expected that court will be held this afternoon.

MRS. JANE HURST.

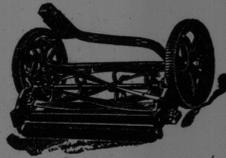

Many in the city will regret to learn of the death of Mrs. Jane Hurst, which occurred this morning at the residence of her son, Samuel Shanks, 480 Douglas avenue, following an illness of about two months. Mrs. Hurst leaves three sons, Samuel Shanks of St. John, Joseph Shanks of New York and David Hurst of San Francisco; one brother, Oliver Shanson, of Lorneville; one sister, Mrs. Alexander McAllister of Lorneville, twenty-one grandchildren and ten great grandchildren. The funeral will be held on Thursday afternoon at one o'clock from the residence of her son.

EVANGELICAL ALLIANCE.

The last monthly meeting of the Evangelical Alliance for the season was held in the Y. M. C. A. this morning with Rev. A. L. Fleming presiding. It was decided to adjourn until October. Others present this morning were Rev. E. E. Styles, secretary; Rev. J. M. Rice, Rev. A. L. Tedford, Rev. George Ormand, Rev. W. A. Robins and Rev. William Lawson. The main item of business was the matter of a resolution submitted by the Methodist Ministers' Association on the matter of oversight of Protestant children in public institutions. It was decided to let the resolution lie on the table until the next regular meeting and in the meantime to take steps to see that the principle of it was carried out.

Large Estate Divided Among His Widow and Ten Children.

Toms River, N. J., June 5.—In the will of George Jay Gould, filed for probate in the Ocean County Court, bequeathing an estate estimated at \$36,000,000 to his widow and ten children, Mr. Gould made public acknowledgment for the first time that he was the father of George Sinclair Gould, Jane Sinclair Gould and Guinevere Gould, born out of wedlock before his marriage to his second wife, Mrs. Guinevere Sinclair Gould.

Mr. Gould married Guinevere Sinclair an English actress, after the death of his first wife, Edith Kingdon Gould, also an actress, by whom he had seven children.

Although the three children of his second wife, whose father Mr. Gould acknowledged himself to be in his will, are excluded from inheriting their father's share in the original Jay Gould trust, they are provided in two trusts set up for their benefit.

By the terms of the will the late Mr. Gould's share in his father's estate is distributed equally among the seven children of his first marriage to Edith Kingdon Gould.

How Father Finn Controls His Singers

Those who have heard Father Finn's Chorists say that a good third of the interest in watching the boys as they sing. They never take their eyes off him. Sometimes they look as though they were hypnotized, and with their little faces all turned the one way they make a very attractive picture.

What really happens is this. From the moment the first number starts Father Finn is listening intently to get an idea of the acoustics of the hall. By what he learns in that few minutes he decides certain numbers must be sung. One great number he varies in four ways, according to the conditions. As nobody but himself knows what way, everybody has to watch for his signals. He really plays on the boys' throats as if they were so many organ pipes, and every one of them knows exactly what he wants. It is a slight worth seeing, and those who see it know the secret of the choir's success.

SIXTEEN BRIDES

Flower-Fairweather. In Victoria street Baptist church at 7.10 on Monday morning, Miss Marguerite Cora, daughter of Hiram Fairweather, and Harold Burton, son of Mr. and Mrs. Chas. Flower were united in marriage by Rev. D. Hutchinson, D. D. The bride wore a traveling suit of navy blue, grey metal cloth hat with plume and carried a bouquet of pink and white carnations. The bridesmaid, Miss Effie Ricker, wore a navy blue suit black picture hat, minkie and carried a bouquet of deep red carnations. Murray Flower, brother of the groom, was best man. The ushers were the Misses Hattie Cook and Grace Daley. Many beautiful gifts were received from a wide circle of friends including checks from the groom's parents and the bride's, a chest of silver from the staff of the S. Hayward Co., a silver scalloped dish from W. H. Thorne and Co., where the bride was employed and a five piece silver service from the staff of W. H. Thorne & Co. The groom's present to the bride was an armine and to the bridesmaid and ushers silver pencils and to the best man cuff links. Mr. and Mrs. Flower left on a trip to P. E. I. and on their return will reside in Millidge avenue.

Devine-Smith. A quiet wedding was solemnized at eight o'clock this morning in Trinity church when the rector, Rev. Canon R. A. Armstrong, united in marriage Miss Edna Smith, daughter of Chief of Police J. J. Smith and Mrs. Smith, 45 Hazen street, and Roy R. Devine of this city. They were unattended. The bride was escorted in a motor car of navy blue with gray hat and squirrel fur and carried a bridal bouquet of roses. Mr. and Mrs. Devine left immediately after the ceremony for a motor trip through the provinces and on their return will reside in Meadow street. The bride was the recipient of many handsome gifts from a large circle of friends, with whom she is a general favorite.

CHARGE AGAINST BARON OVER ROYAL JEWELS

Geneva, June 5.—A charge of fraud prejudicial to the former Austro-Hungarian imperial family, amounting to \$60,000 in connection with the sale of the royal jewels, has been lodged against Baron von Steiner, secretary to the late Emperor Charles, by Archduke Maximilian, brother of the ex-empire, who was appointed guardian of the former royal children by Charles' will.

A warrant has been issued by a Berne judge for Baron von Steiner and also for his wife, accused as an accomplice.

TAKEN ILL IN STREET

There was some excitement in Mill street about noon today when a crowd collected to watch a policeman pick a man up off the street and put him in the ambulance and drive away. It appears that Lee Shaw, proprietor of the Asia Hotel, took a weak spell in the street near his hotel this morning and fell. Policeman McInnis rushed to his assistance and sent in a hurry call for the ambulance. The man was conveyed to the hospital where he was examined. There was found to be nothing wrong with him and he was taken to his home.

Going to Boston

(Special To The Times.) Fredericton, N. B., June 5.—Tenders for the agricultural school building to be erected at the Dominion Experimental Station by the Provincial Department of Agriculture will not be opened until next week. The Minister, Hon. D. W. Messeroux, will go to Boston as a member of the New Brunswick association party and the tenders will not be considered until his return. Quite a number have been received.

Among those from Fredericton going on the Boston trip are Chief Game Warden L. A. Gagnon, representing the U. S. Lands and Mines, J. L. Verille representing the publicity department of the C. P. R. and R. P. Allen, of the Daily Mail. Hon. P. J. Venot, is here today enroute to St. John to accompany the party to Boston. He is devoting attention to departmental duties. Since June 1 hundreds of accounts for work done during may repairing flood damage have been received.

PROROGATION MAY NOT COME TILL MID JUNE

(Special To The Times.) Ottawa, June 5.—Now generally conceded that prorogation will not come before July 1 and there are some who fear it may not come before July 15 having in mind the mass of work still to be done by the committee on banking and commerce on revision of the bank act, of the special committee on agricultural conditions in preparing a report out of the mass of evidence obtained in its many hearings, and of the civil service committee which is preparing a report on possible alterations in the civil service act and its administration.

WILD TIME AT YALE

New Haven, Conn., June 5.—More than fifty policemen were sent to the Yale University section last night to check a near riot, which started when a freshman dropped a paper bag full of water from his dormitory window on another student. In a short time missiles of various kinds were flying, and by midnight about 400 students, many of them clad in pajamas, were taking part in one of the wildest disturbances ever staged at Yale. BOOSTERS AWAY ON THE DINGLEY

Sixty or So in Party Tomorrow for Annual Meeting of Tourist Association.

Arrangements are completed for the annual convention of the New Brunswick Tourist and Resources Association, the business session of which will be held tomorrow on board the steamer Governor Dingley of the Eastern Steamship Lines, Inc. on its trip from here. About sixty members of the association have signified their intention of making the trip and it is expected that it will be one of the most successful annual meetings of the association yet held. The meeting last year was held in Edmundston and this year, by way of innovation, the water trip was planned.

The delegates expect to return to the city on Saturday. Meetings will be held in Boston in conjunction with the Canadian Clubs and, as the press has co-operated, it is believed that with all the influences at work the meetings should make history so far as a forward step in the annals of New Brunswick is concerned. The Governor Dingley will pull away from her pier about nine o'clock tomorrow morning freighted with boosters for New Brunswick and happy excursionists combining business with pleasure.

SIXTEENTH CENTURY CUSTOM REVIVED

A quaint pageant reviving a custom, which was observed from the days of Henry VIII, until a century ago, took place in England in May when the ceremony of "Landing the Pie" was repeated. In Henry's reign a woman of El Pie Island made such delicious eel pies that the fame reached the king's ears. He journeyed to the Thames to sample them and thereafter ordered that the first pie each year should be delivered to him. The successors observed the custom until the reign of George III.

ADVERTISE TO PROMOTE PEACE

Guaranty Trust Co. Official Addresses Convention—The Professional Man and the Newspapers.

Atlantic City, N. J., June 4.—As the issues of the war were brought to stir men's souls through advertising, so might the issue of peace be presented through the same medium to guide the way to a solution, said Francis H. Sisson, vice-president of the Guaranty Trust Company of New York, to the Financial Advertisers' Association at its annual convention today.

"In the broad problems of public relations which arise in a democracy," he said, "advertising can be employed with great power to serve useful needs. Many problems of public regulation and legislation furnish an opportunity for advertising service, as is bound to become increasingly apparent. Advertising is on the threshold of its golden age."

"It will increasingly attract better brains, and it will increasingly offer fuller scope to the creative genius of business, science, art and literature. Its possibilities for service, in fact challenge the boldest and most far-reaching imagination."

Mr. Sisson said there was no code of ethics that prevented professional people from advertising their services as merchants advertise their wares. He pointed to banks and other institutions which formerly thought it unseemly to advertise, but who now have dispelled "that bugbear."

**French to Spend
Many Millions on
Madagascar Plans**

Development of Railways, Sea-ports and Waterways Are Included in General Benefits For the Island.

London, May 31. (By mail).—M. Hubert Garbit, Governor-General of Madagascar and dependencies, recently arrived in Paris to confer with the French Government in regard to several problems intimately connected with the development of the colony, says The London Times Paris correspondent. The administrator has abundant faith in the future of his territory, and claims the credit for considerable progress during his regime. M. Garbit was Governor of Madagascar during the early years of the war and assumed control again in 1920.

The first problem which faced the French administration when they took over Madagascar was the provision of roads and railways and the development of a transport system by means of which the interior might be opened up on economic lines. Madagascar is approximately the size of France, Hol-

land and Belgium and has a native population of 3,000,000 people besides about 11,000 Europeans and a number of Indian and Chinese traders.

On the main roads there has been established a system of motor-vehicles covering nearly 1,000 miles. The main railway line runs from Tamatave, on the coast, up to the capital, Antananarivo, in the highlands.

Since M. Garbit first took charge there have been added two branch railways, one of which is designed to open up the fertile region of Lake Alaotra, while the second feeder runs southward from the highlands capital to Antsirabe, a natural spa possessing at least two valuable springs, one of which is akin to Vichy, while the second has a very high radio activity.

One of the most important tasks which will be undertaken by the Governor-General during his first term will be intimately connected with the raising of a large loan for the development of the island. M. Garbit considers that the cost of the work which is contemplated will in the end be about 300,000,000 francs (normally \$120,000,000). It is proposed to raise this enormous sum by loan, and it is probable that the process of borrowing will be spread over a considerable period.

One hundred and eighty-five million francs (normally \$72,000,000) will be spent in railway construction. The branch line to Antsirabe will be continued in a southerly direction through the centre of the island until it reaches the important town of Planarantsoa, and thereafter will tap the densely populated and fertile native region of Betsileo.

Ten million francs (normally \$4,000,000) will be utilized in the completion of the existing canal system on the East Coast, with an increase in width which will double its utility.

The second important part of the large public works scheme is the improvement of the seaports of Madagascar. It is proposed to construct harbor works at Tamatave which will allow ships to berth and discharge cargoes alongside the quay, instead of conducting operations from the roadstead by lighters. The ports of Diego Suarez and Majunga are also to be improved.

A small proportion of the loan will be utilized in the construction of roads designed to act as feeders to the main and branch railways, a burden which will not handicap other projects because most of the roads of Madagascar are constructed out of general revenue.

FRAME LAWS TO UPLIFT BOYHOOD

Report of Legal Commission to Second World's Conference of Y. M. C. A. Officials.

Portschach, Austria, June 5.—Though the war stopped the progress of the world in many directions, it has nevertheless resulted in an awakened conscience and progressive legislation for the protection of boyhood. Such is the assertion of a legal commission reporting on the protection and reformation of boyhood to the Second World's Conference of Y. M. C. A. Workers with Boys. The report is based on a study of conditions in thirty-five countries.

"The newer countries of the world," said H. Wallace Soutter of South Africa, chairman of the commission, "are legislating in accordance with the new spirit of penology and the conclusions of psychological research, and are striving to prevent the growth in their midst of the horrors of the older countries."

Approximately 70 per cent of the boys in the U. S., according to the commission, live under laws which compel school attendance between the ages of 8 and 16. America's experience is frequently quoted, and the tendency to project free education forward into the college grade is marked as noteworthy. The report sums up the educational obligations upon governments as follows:

"The ideal to be aimed at and steadily worked for is that up to the age of 18 years it shall be made possible for a boy's energies to be absorbed not by work but by education—an education that strengthens the body, develops the mind, equips him not only for earning a livelihood, but also for community service, and thus lays

by skilled men and women. Close observation in school of boys with tendencies to wrongdoing would prevent many of them arriving at the police courts."

Recommendations include establishment by the World's Alliance of Young Men's Christian Associations of "an international boys' committee, whose work shall be to study the problems of boy life in all countries, to collect particulars of all legislation affecting the legal status of boyhood that is passed from time to time, to keep all national councils periodically advised of such legislation and any further reform movements in progress, and to take whatever steps may be expedient to secure to the boys of any nation adequate legal protection."

POPULAR IN TROUBLE

To Be Surcharged for Overpaying Civic Workmen

(By John MacCormac, Special Cable from Montreal Gazette's Resident Staff Correspondent.)
London, May 31.—Poplar, the bad boy among the London boroughs, is nearing the end of its rake's progress. Amazing scenes occurred there today when the district auditor attended to hear from the members of its socially-controlled council reasons why they should not be surcharged \$17,000 for overpaying civic employees. A large crowd assembled outside the chamber before the opening of the inquiry, hooded and sang "The Red Flag," and when the inquiry opened gave way to scenes of disorder inside. The district auditor complained that the Poplar council had paid a minimum wage of 2s a week and wage rates generally greatly exceeding the union scales.

The mayor replied that the action was endorsed by the electors, and the council had always paid a minimum rate, without reference to trade union scales.

The proceedings terminated in Communistic speeches.

BRITISH TRADE UNIONS NOW FACE HARD TIMES
London, May 18.—(A. P. by mail)—Trade unionism in Great Britain is passing through anxious times. The membership during the last two years

has decreased more than 1,500,000 and the accumulated funds, which had reached nearly \$80,000,000 have been exhausted by the heavy drain of unemployed benefits.

The general council of the Trade Union Congress is planning a "Back to the Union" campaign in an endeavor to make up the losses in membership. The statement of the council is that there are 15,500,000 wage earners in Great Britain, of whom only 6,500,000 are members of trade unions.

Detectives Fight Way With Pistols Out of Angry Mob

Harlem Crowd Becomes Ugly When Arrest is Made After Youth is Slashed by One of Two Brothers in Dispute.

New York June 5.—Detectives of the East 126th Street station fought their way with drawn pistols through a mob enraged by the arrest of Anthony Cluff, forty-one years old, who was accused with his brother, Patsy, of slashing Anthony Casselle, seventeen years old, over the head and in the back. Casselle was hurried in a critical condition to Harlem Hospital, where fourteen stitches were taken in his wounds. Patsy Cluff escaped in the crowd and dodged into a cellar.

Detectives McGuire and Keely saw an excited crowd gathered in front of 945 East 119th Street. They found Casselle on the porch, his clothing cut in shreds. After questioning several persons, they seized Anthony Cluff, owner of the house and a boss carpenter by trade. The crowd became ugly and the detectives had to draw their pistols before they were able to make their way clear with their prisoner.

According to the story bystanders told, a group of young men were making loud and abusive remarks from Cluff's porch to passers by. The two brothers came out to remonstrate and, it was said, one or both of the bro-

Casselle is a chauffeur, living at 347 East 119th Street. Anthony Cluff is held on a charge of felonious assault.

The liquor inspectors made a general clean-up on Saturday afternoon and evening and the result was no less than ten successful raids. Most of the raids were on beer shops and strong beer was seized although two of them were on private houses and one on a restaurant. The raids were conducted by Inspectors Crawford, Killen, Journey and Carson.

W. G. Miller, of the office staff of the C. G. M. M., Limited, left yesterday afternoon for Sydney, where he will supervise the loading of the steamer Canadian Pioneer. The steamer is due there this morning with a part general cargo from Montreal. She will complete loading at Sydney with plaster and steel products for Australia and New Zealand. She is the first steamer of the line to leave Montreal for Australia this season.

BUILT FOR SLEEP

Living faster, working harder yet giving no thought to sleep

"The pace that kills," a great physician wrote recently, "is a crawl." Speed is tonic, he declared. Hard work is healthy. But fatigue poisons are almost as deadly as disease. Of all medicines, sleep and rest are the best.

And now Simmons mattresses and springs bring deep, refreshing sleep within the reach and buying power of everyone. For the finest sleep unit built in Canada you need pay only two cents a night for its long years of service.

The Ostermoor Mattress

Set aside enough time today to call on your furniture dealer and examine the Ostermoor Mattress at \$30—for thirty years the greatest mattress value to be had in Canada. Compare its sleep-inviting luxury with the mattress you are now using, and decide for yourself whether health, energy and personal success are not worth the investment in Ostermoor sleep comfort. Study the whole range of Simmons Mattresses, springs and beds, now offered at prices to suit any pocketbook. Simmons Red Label, Green Label, White Label mattresses cost less: each built of sanitary new materials, and is highest possible quality at its price.

THE DERBY RACE ON WEDNESDAY

Four Days of Horse Racing—Expect Million at the Great Contest. London, June 5.—(Canadian Press)—Interest in flat racing this season has been very keen with large crowds attending the principal meetings and it will not be surprising if more people than ever before journey to Epsom Downs next week to celebrate Derby Day, the most popular institution of the British Turf. Better racing may possibly be seen later on at Royal Ascot, Glorious Goodwood or during the autumn meetings at Newmarket, but the traditions, romance and carnival spirit that surround Epsom Downs and the two great classics—the Derby and the Oaks—keep Epsom to the fore in matters pertaining to the turf, so far as the masses are concerned at least.

WEDDING

A wedding in June means a lot more than orange blossoms and confetti. In the first place there is the trousseau to plan and buy. Not to mention equipping and furnishing of the new home over which the bride-to-be will preside. Cellar, kitchen, dining-room, parlour, hall and bed-rooms must bear the stamp of their mistress's taste and approval. This involves scores of shopping problems and decisions. Follow the store news in our advertisements when buying for your home; the world has endless wealth of new, useful and beautiful wares which you can learn about in no other way.

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans' Private Wire)

New York, June 5.—Evans—"The market promises to be rather indifferent without showing any particular trend for some time. The big short interest was largely decreased by the rapid rise which culminated about two weeks ago. Since then, however, it has been slowly but gradually increased and professionals continue to hunt for soft spots. Conditions are not such as to force any extensive liquidation from this level of prices. On the other hand, with the tendency of commodity prices to recede rather than advance, business is cautious and nobody is anxious to enter into large bull commitments. In other words, the market is waiting for a new impulse and for fresh indications as to how the autumn trade is going to develop and what the crop will be." Clark Childs—"The action of the market suggests that most of the market came out because of curb troubles having been liquidated." Block Maloney—"The public does not appear to be selling and on the whole we find a great deal of confidence prevailing regarding the outlook. We favor conservative purchases of best stocks." Bache & Co.—"Operators most bullish during the six days 14 point drop now reason that June and July should bring about reaction upward in trade and industry. Hence they calculate that line of least resistance for security prices is upward for the time being." Homblower and Weeks—"For the present we see nothing more than a traders market ahead, but from the bottom of the next reaction we think a sustained upward move should develop." Houseman and Co.—"We do not anticipate wide fluctuations in the immediate future but feel that the market will be quite sensitive to professional operations."

Hopes to Reduce The Quebec Taxation

Victoriaville, Que., June 5.—That the Government of Quebec is planning to diminish taxation rather than increase it, was intimated here last night by Premier Taschereau at a dinner. He announced that before long the Minister of Fisheries would grant a bonus to the Gaspe fishermen. He said, however, that the Government could not meet all the demands made and requests if they wanted the province to conserve its excellent financial situation.

Irregular as Market Opens — Quiet But Steady in Montreal.

New York, June 5.—Speculative sentiment was still unsettled at the opening of today's stock market, initial transactions being decidedly irregular. Changes as a rule were nominal, although California Petroleum which was heavy yesterday, advanced 1/8 points and Willys Overland preferred fell back one. Rails were firm.

Noon Report.

New York, June 5.—When bullish demonstrations in a few individual stocks failed to lift the rest of the list, bear traders began seeking out weak spots and met with considerable success before noon. American Hide and Leather preferred and Central Leather preferred were each driven down about four points to new low levels for the year. Underwood-Tyler writer dropped three points, Phillips Petroleum 2 1/2, Woolworth two and a number of others 1 to 1 1/2. The whole list turned heavy during the second hour with such early strong spots as California Petroleum, Pan-American, American Can and Studebaker forcing a good deal of their gains. Call money opened at 4 3/4 per cent.

Exchange Today.

New York, June 5.—Sterling exchange firm. Great Britain, 4.62 1/2-16. France, 6.44 1/2. Italy, 4.64 1/2. Germany, 20.15. Canadian dollars, 2 7-32 per cent. discount.

Notable Scene As Shrimers Parade

Washington, June 5.—Pennsylvania avenue probably never presented a more colorful picture than it did today as 20,000 nobles of the Myst Shrimers marched over its two miles of "burning sands" from the Capitol to Washington circle. As the parade proceeded through "the Garden of Allah," reproduced in front of the White House, it was reviewed by the President, Vice President, Chief Justice, and Imperial Potentate James S. McAndie.

MARITIME PROVINCES DEMANDS.

(Frederick Glenzer) The Montreal Gazette of yesterday is not accurate, nor does it reasonably present the situation, when it says: "Press and politicians of the Maritime Provinces are engaged in airing the grievances of that portion of the Union, even to the extent of threatening that if redress is not given secession may rear its ugly head. The weakness of the case is that it is founded upon a demand for special concessions and special privileges." There is no threat as yet from any responsible source that secession may rear its ugly head. If redress is not given, and no sane politician in the Maritimes will intimate that secession up to this time has been seriously thought of. Nor are there Maritimes in their demand for lower freight rates and adequate transportation facilities asking favors or special concessions or special privileges—nothing of the kind. They are asking that the agreement upon which the Maritimes entered Confederation be honorably carried out. That agreement involved the building of the Intercolonial Railway to give the Maritimes easier access to Quebec and the West, and preferential freight and passenger rates. The Intercolonial was built in keeping with this agreement and until recently the Maritimes enjoyed preferential rates in accordance with the understanding. And although the facts were recently stated plainly in the Senate of Canada by an ex-Minister of Railways, to whom The Gazette gave cordial and hearty support in his administration, our contemporary strangely persists in ignoring the agreement and treating the preferential as a political party favor granted at a time when, it seems to hold, the Intercolonial was run as a mere political machine.

What the Maritimes demand today is that the agreement upon which we entered the Confederation be honored, that the preferential rates be restored, not as a favor but as a right which must be respected. Far be it from the Maritimes—which have, through the statesmen which they have given to the public life in other years, largely assisted to make Canada what she is today—to ask favors at the expense of other parts of the Dominion. The agreement was based wholly upon our geographical disadvantages. These disadvantages are quite as serious today as they were then; in fact they are more serious, for since then the development of Quebec and Ontario, as a result of the Confederation, has given these provinces a dominating trade influence; and the concessions afterwards given the Western Provinces through which they entered the Confederation were granted at the expense of the Maritimes more than at the expense of any other section of Canada. The notion that sections of country which have been developed at the expense of other sections should continue to be further developed to the disadvantage of the other sections is wholly selfish. But aside from this the Maritimes will insist that the terms of the Confederation agreement be carried out.

GRENIER GAINS 18 LBS. ON TANLAC

Says Famous Medicine Ended Long-Suffering Dyspepsia and Restored Perfect Health.

"The Tanlac treatment not only ended my stomach trouble, but it built me up in strength, and I never felt better in my life," is the positive statement of Armand Grenier, 250 Marquette Street, Montreal.

"Dyspepsia had me in such awful shape I scarcely dared to eat, knowing the misery I would have to suffer. My nerves were shattered, I would lie awake sometimes all night, and once I woke up from a dose feeling like I was about to smother, and thought my life was near. Then for months I was mighty careful about my eating, but I didn't seem to get any better until I took a friend's advice and started on Tanlac."

"Every day I got better, till now I enjoy tip-top health. I have a ravenous appetite, perfect digestion, and can sleep like a top every night. Tanlac gives my best work every time."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37,000,000 bottles sold.

PRESIDENT OF STANDARD OIL CO. OF CALIFORNIA BEGAN IN OVERALLS

"If I were to try to moralize on success, or to advise the young man, I would say that the most essential things are sticking-to-it, loyalty, and doing to the best of one's ability what there is to be done, even in the face of apparent discouragement. Our company affords many examples of men who have won responsible positions by cheerfully staying with the job."

So says Kenneth R. Kingsbury, president of the Standard Oil Company of California, in an interview with B. C. Forbes, in Forbes Magazine (N. Y.), who, although owning two college degrees, not only didn't shrink from conning overalls and bring boilers at an oil pumping station, but even accepted a cut in his pay from \$78 to \$60 a month and thus saved the company addis a bonus of 80 per cent. This money is invested from time to time in the company's stock. This five-year plan matures in 1926, when the company will be divided among and delivered to the employees. It is astonishing that 86 out of every 100 employees are taking advantage of this extremely attractive system for building up a nice little fortune, or that these savings reached no less than \$3,987,796 in the very first year? This plan originated with Mr. Kingsbury not long after he was advanced to the presidency, and is one of his pet hobbies."

OUR PORTRAIT IS OF MR. MICHAEL T. ROONEY, of St. John's, N. B. "Some years ago whilst touring Ireland with 'Sanger's' Royal Circles, I contracted some kind of a venereal skin complaint, which seemed to have different treatments in the way of ointments and lotions, all of which utterly failed to give me any relief. Recently at Long Eaton, where I am engaged as Advertising Manager, I saw an advertisement which begged me to try 'Sanger's' Blood Mixture, but I refused. However, his knowing and pleasant manner, from experience, made me a present of a bottle, which I began to take. Recognizing a slight improvement in my limbs, I got another bottle, and continued the treatment until I had used four bottles, and now my skin is perfectly healthy and free from all eruptions."

Wants a Drink And Cigarette

Man on 105th Birthday Suspects He May Be Reaching Age of Discretion.

New York, June 5.—Chalm Weiss reached the age of 105 recently and admitted that he was approaching years of discretion. Also he said that he felt better beginning his second century of living than he did beginning his first.

"If you don't take better care of yourself," his admirers warned him as he sat puffing a cigarette, "by the time you're 100 you'll be an old man."

Chalm Weiss will not yield one tittle to the advances of the Man With the Scythe, for the years have not laid a crease upon his shoulders nor given glasses to his eyes nor tremors to his limbs nor garrulity to his tongue.

It is true that he has a flowing white beard and that he wears a black skull cap, but then those are vanities to which all flesh is heir.

Surrounded by his cohorts, youngsters of ninety-odd, he descended upon his record at moderate length. Since the beginning of his memory, he said, he has always had liquor to drink with his food. Essences of the grain and the grape have accompanied him down the years, and even now his friends contrive a regular nip of brandy for him.

Nor can the warning finger of the modern reformer jogged under his nose convince him that cigarettes and brandy will lead him to an early grave.

Twelve years ago he felt a little old and told a friend who came to see him off the power in the mystical Bible number twenty, suggesting that if they would donate that amount to the home it would give him back his strength and he would get well.

Judge Aaron J. Levy, head of the home, presented Chalm as a birthday present a four-gallon high hat of the gleekest beaver and a spring suit of the latest East Side pattern and cut.

When Chalm strides briskly forth to the synagogue no one will suspect he was born in 1818. At 105, he said, he still found life sweet and he was content to live as long as it pleased "the boss."

Blind Woman Kills Herself With String

Autopsy Disappates Murder Theory—Police Find Money Believed to Have Been Stolen.

New York, June 5.—Life in poverty and darkness seemed futile to Mrs. Anna Lee, who gathered an uncertain livelihood by selling newspapers. So she fastened around her throat a stretch of cord used in tying bundles, drew it tight and strangled herself to death.

When her body was found in bed at her home the police suspected that she had been murdered and robbed. But after an autopsy, Dr. Charles E. Norris, Chief Medical Examiner, announced she had killed herself, and the police then discovered the disposition of the money they at first believed had been stolen.

Mrs. Lee was 56 years old and blind. She was a widow, and lived in a two-room flat with her son William 17 year old, a newspaper handler.

When he returned from work at 2 o'clock in the morning he found the door of his mother's dimly lighted room ajar and her form motionless on the bed. She was full dressed, but the clothing was disarranged and the room was in disorder. He blew a police whistle.

Patrolman William J. Steffens of the Clifton Street Station summoned Dr. Braverman from Gouverneur Hospital. The ambulance physician declared the woman had died of natural causes.

It was not until after the doctor had gone that the policeman discovered a cord around Mrs. Lee's throat.

The boy announced that a bunch of keys belonging to his mother were missing. "My God, she has been robbed!" he shouted. The policeman found in the pocket of Mrs. Lee's sweater \$14.75, but the boy insisted that she had had \$50 the day before.

During the excitement following the arrival of detectives a neighbor told of seeing a "mysterious man" in the building on the afternoon preceding Mrs. Lee's death.

For hours detectives were in quest of the "mysterious man," but the robbery theory was eliminated when it was learned that Mrs. Lee had made a bank deposit that accounted for the money believed to have been missing.

British Jane Burrs Discover Knickers Are Jolly Things

Feminine Hikers Sans Skirts Kick Up Dust on Roads All About London and Keep Passerby Amused.

London, May 16.—(By Mail.)—This year women are trying the Jane Burr experiment. Twenty to thirty women, wearing knickerbockers, were seen last Sunday trudging along the road that leads from Leatherhead to Dorking, over Boxhill and through the woods.

One might have imagined at first that they were a ladies' league, organized and drilled to wear knickerbockers as a sign that they supported women's right to easy walking. They came along the road far apart from one another, however, and obviously were not even distant acquaintances.

The first feminine figure in knickerbockers noted had a military bearing, an impression that was perhaps heightened by the fact that she wore a khaki

story of the seal of a lone missionary on one of the uncivilized islands of the Solomon group, who was rescued from the hands of the head-hunters, but refused to be taken away from his chosen station, has just been brought to Sydney by an island schooner. Men aboard the schooner, nearing the island, saw a number of natives in war paint dancing around a blazing fire, according to their story.

The captain, believing that some person might be in danger, armed the crew and sent them ashore. They fired a volley over the heads of the natives, who ran into the bush. The crew investigated a European-built house and found a white man inside praying on his knees. He said that he was a missionary and had been on the island for a year. Sickness had broken out among the natives and he had been blamed for the loss of life. The natives had sent their women folk into the bush and started a war dance. As that was the sign of future trouble he had locked himself in the house.

The missionary was importuned to abandon his idea of staying among the natives and invited to come aboard the vessel for safety. He refused, however, and the ship sailed away, leaving him at his lonely and dangerous post.

No interruptions occurred to the hydro service from Musquash, except at Sussex itself as a result of the disastrous fire that swept a section of the town on Saturday last. The main feeder wire for the town ran directly through the burning area and the hydro officials in charge of the Sussex station were asked to shut off the power for the town. This was done, other places along the line not being in any way affected.

linen shirt and khaki knickers. Her uniform was neatly completed by well-rolled puttees. "Perhaps she's got a motorcycle," said an interested spectator, but no motorcycle was to be seen.

The second girl, slim and dainty, looked like a musical comedy Phyllis. Her knickerbockers were made of a leather mixture with a strong purple line in it; she wore a lilac jumper that was almost a smock. No hat covered her cropped golden hair. "A cow or a milking pail wanted here," murmured the second spectator, but Phyllis had not come from a farm.

They came the Knickerbocker Family. First a woman of thirty holding by each hand a tiny girl in cretonne knickerbockers figured with elephants and Noah's Ark. A third baby, also in knickerbockers, sought the support of its mother's skirts and clung tightly to her knickerbockers instead. Behind marched the father, grizzled and gray, also in knickerbockers. He carried the tea things.

At tea in an inn near Leatherhead a woman discoursed on the joys of knickerbockers to her friends. "I have walked ten miles today instead of the usual four. Knickerbockers are such jolly things. I'm going to wear mine for housework!"

N. Y. "BOOKIES" WELSH ON KENTUCKY DERBY BETS "Take United States Mint to Pay Off," Zoo Backers Are Notified.

Lexington Ky., June 5.—Many Kentuckians who bet on horses in the winter books in New York are reading telegrams and weeping. Lexington alone is estimated to have contributed \$40,000 to New York bookmakers. At least one firm, which signs telegrams "J. R.," has notified customers here it is unable to pay. One wire reads: "It would take the United States mint to pay off. We will return the amount bet and call all bets off."

One Lexington man received a telegram today signed by "J. R.," which reads: "I regret to state that those who were entrusted with the finances have deserted and left on my shoulders the entire burden. Therefore it will take time for me alone to raise the large sum for first refunding of the Zev orders."

Zev, Derby winner, was the chief stumbling block. More money was bet in New York by Kentuckians that Zev would win than there were wagers within the state, it seems.

A leak developed in the water main supplying the city at Little River late Saturday afternoon and it was not until noon on Sunday that final repairs were effected and full pressure turned on. During the period of repairs by a gang from the water and sewerage department, pressure was quite low. The gang worked all Saturday night to complete the repairs.

A meeting of the advisory board of the Waterloo street Baptist church was held on Saturday evening with the pastor, Rev. J. A. Swetnam, presiding. Plans for improvements to the church were discussed and the programme for the fall work was taken up. The following were appointed chairman of committees: George Brown, Deacon Amos Gibbs, Deacon H. F. Hoyt, Deacon J. Williger, William Crabby, H. McAloney and Percy Hoyt were appointed auditors, and Donald Morrison and J. T. Ward additional members of the board.

Mr. and Mrs. Robert Clarke celebrated the fiftieth anniversary of their wedding yesterday. They received congratulations from their relatives, including several in the United States, and from friends. They received fifty roses from Albion Lodge, No. 1, F. & A. M., fifty roses from the office staff of the express department of the customs service and a purse of gold from members of the family. Mr. and Mrs. Clarke expressed appreciation of the attentions shown them.
