9,178 ENGLISH SETTLERS BRING \$12,000 HERE TO BUY LAND IN WEST.
 Despite the strengthening of restrictions against fresh immigration into this country, and the continuation of the culling that all new settlers must have in cash and their railway fare to their destination before being admitted into the Dominion, these new settlers continue to arrive in large and increasing numbers.

During the months of January, February and March no less than 9,187 new colonists entered St. John via the Canadian Pacific vessels alone, being 1,400 in January, 2,015 in February, and 5,982 in March. These numbers would have been considerably larger, so the shipping men aver if the \$250 requirement had been dropped to the former \$50 rate, as it was recently thought would be done. In fact, steamship officials state that many hundred intending immigrants cancelled their bookings upon learning that the high rate was to be maintained.

Possible Coal Shortage.
 Youngstown, Ohio, May 3.—(By Canadian Press).—Possibility of a coal shortage at the head of the lakes during the coming winter because of the unusual condition in lake shipping, is receiving the attention of commercial bodies. On account of the scarcity of lake vessels engaged in the carrying trade, it is feared that not enough coal will be taken from the lower lake harbors to the Superior ports to meet next winter's requirements. Very little ore is moving. Vessels loading north with coal face the prospect of returning empty. It is estimated that less than half the usual volume of ore will come down the lake during the present season, unless there is a decided upturn in consumption at the furnaces.

TIME CHANGES ON CANADIAN NATIONAL LINES

Effective May 1 New Time Table Will Be Issued—Sunday Train to Moncton—Double Service to Prince Edward Island.

Changes of time schedules effective May 1 on the Canadian National lines affect only a few of the trains in and out of St. John station.

The double daily service to Prince Edward Island will start on Monday, May 3, and connections for the first trip of the steamer will be by No. 18 train leaving at 7:10 a. m. and connecting at Sackville with train for Fortenette leaving at 1:15 p. m. No. 14 train, which will leave at 1:20 p. m. instead of 1:40 p. m. will connect at Moncton with No. 2 Ocean Limited, and connection is made at Sackville with train for Fortenette leaving at 6:25 p. m.

No. 18 train from Halifax and Moncton will arrive at 8:30 p. m. instead of 8:35 p. m. No. 19 train, the Maritime express, connection from Moncton, will arrive at 1:45 p. m. instead of at 12:15 noon.

The Sunday trains between St. John and Moncton will be restored. No. 50 will leave St. John (Sunday) only at 9:30 a. m., arriving at Moncton at 1 p. m., making all local at No. 49 will leave Moncton at 4:45 p. m. and arrive in St. John at 8 p. m. These trains of-foord connection at Moncton on Sundays with the Ocean Limited both for Montreal and for Halifax.

Other trains are unchanged. The suburban trains will run one hour earlier on and after May 21 on account of the 'aylight saving time.

EDUCATION TO COST MORE IN NEW ZEALAND

Auckland, New Zealand, May 3.—(By Canadian Press).—The minister of education has reported that the cost of public education in New Zealand for the year 1921 would be \$15,767,460, which is a very great increase over 1914, when the expenditure for education amounted to \$6,878,600. Over fifty per cent. of the children in New Zealand go through the primary school course from standard one to standard six and then to the proficiency certificate grade. At present one pound sterling out of ten of the general taxation is taken for educational purposes and expended for the benefit of not fewer than 200,000 children. During the year about \$2,500,000 is to be spent on the construction of new buildings.

TWO-TON FISH IS CAUGHT IN A NET

Atlantic City, May 3.—Old sea dogs whose chief pastime is to spin yarns of gigantic fish they have landed, took two looks and then threw up their hands when Captain Clarence Starn's craft docked at this port with a black sea monster weighing more than two tons that was caught in a mackerel net sixty miles off the coast. The fish, which is only twenty feet long was hauled aboard with a tackle after putting up a stiff fight in which the sea was whipped into foam. None of the sea veterans could name its species.

DECLINE IN MEAT PRICES.

Auckland, New Zealand, May 3.—(Canadian Press).—There was a gradual decline in meat prices during the last months of 1920 and the first months of this year, with a very general slump during the last few weeks that has very greatly disturbed stock raisers, slaughter house people, and meat exporters in this Dominion. The meat congestion in Europe is blamed for much of this marked decline, and to this is added the increased freight charges for cold storage space, which brings the actual shipping costs, including insurance, commission, etc., to more than eight cents a pound.

WOULD RESTORE LASH.

New York, May 3.—(Canadian Press).—The Canadian subsidiary of the Otis Elevator Company is in flourishing condition, W. D. Baldwin, chairman of the board of directors, reported at the recent annual meeting of the shareholders. Reports showed that the U. S. company has strengthened its cash position and now has in excess of \$800,000 cash against \$1,800,000 at the end of 1920. The carry over of orders from last year is between \$25,000,000 and \$80,000,000, sufficient to keep the plants busy for six months.

BRITISH CAPITAL CONTROLS SWEDISH SOAP INDUSTRY.

London, May 3.—(Canadian Press).—The absorption of numerous Swedish soap manufacturing companies by a British corporation is reported from Göteborg, Sweden. British capital, it is said, now completely controls the Swedish soap manufacturing industry.

LOST SENSE OF TASTE.

Boston, May 3.—Because chicken tastes like oatmeal to him, Edward H. Elliot of Rumney, N. H., is seeking the sum of \$20,000 by way of compensation. An enemy whined over which he was working burnt, one of the flying pieces, striking him in the mouth, and he is suing the company that manufactured the wheel. He told the court that the accident destroyed his sense of taste, and he "cannot distinguish between chicken and oatmeal."

\$100,000,000 Business.

Wheeling, W. Va., May 3.—(By Canadian Press).—The annual report of the Wheeling Steel Corporation, which has just been issued, shows that the company's business ran close to the hundred million mark, the total being \$99,822,000 while the net earnings for the year were \$18,425,199.88. The mills are now operating less than forty per cent, so the report said.

GERMANY MUST PAY.

The United States has not failed her Allies. The terse and emphatic reply to Germany leaves that country no choice but to deal with the Allies in the matter of reparations in a way that will be satisfactory to all of them. The text of the American reply to Germany's appeal says that the government "finds itself unable to reach the conclusion that the proposals afford a basis of discussion acceptable to the Allied governments, and that these proposals cannot be entertained." Germany is further advised "to make directly to the Allied governments clear, definite and adequate proposals which would in all respects meet its obligations." There is here no loophole of escape for Germany. She must make reparations or accept the consequences, and these will be severe. The Allies are in no temper for further argument. The German government has tried by every means to evade its obligations. These must now be met. France stands ready to enforce the demands of the Allies, and Great Britain will approve of the necessary steps to make the enforcement prompt and adequate. The Supreme Council has decided upon its course. It will give Germany sufficient days of grace to make up her mind. And if then a movement of troops is necessary they will be ready. There may also be a naval demonstration in the form of a blockade. It has taken a long time to convince the late enemy that having plunged the world into a war she must pay the price, but the last loophole of evasion has been closed. Now comes the reckoning.

THE LEAGUE OF NATIONS.

The case for the League of Nations was put in one statement and one question by Hon. N. W. Rowell in his address before the two Canadian Clubs in St. John last evening. The statement was that delegates from forty-six states representing every race and every great religion, met as strangers and parted as friends, after transacting more important business in five weeks than the parliament of any country could do in the same time. The question was: "If forty-six states can thus meet and agree, why cannot all the states of the world do the same?" Hon. Mr. Rowell gave a very clear explanation of the Council and Assembly of the League, the constitution and functions of each, and the chief business transacted at the last meeting of the Assembly in Geneva. It was a most illuminating address. The speaker did not minimize the difficulties, but found in the manner in which they were overcome the assurance that the League meets a world-wide demand for the new international policy based on friendship and co-operation in place of the old balance-of-power policy, based on mutual suspicion and depending on might instead of right as the arbiter of national destiny. In this League of Nations each state has one vote. When the international court of justice has been established another great agency to promote peace will have been provided. Mr. Rowell found that the Latin-American representatives held views that were generally in common with those of the Canadians, and before the conference closed the former entertained the latter in order to give expression to their good feeling. With Canada on the north and the Latin-American countries on the south in the League, it is impossible to believe that the United States will not ultimately join, for that country really stands for the very principles that lie at the base of the League. Canada and her great neighbor, having settled their disputes for a hundred years without resort to force, are in a better position than others to promote the cause of mutual understanding and good-will throughout the world. Mr. Rowell said the representatives of other states could not at first understand how representatives of Canada and other portions of the British Empire could stand up and speak without awaiting a nod from the British government leaders. They had not grasped the significance of the British policy which gives freedom of opinion and expression to every commonwealth within the Empire. The knowledge thus gained will increase their regard for the Empire and its people, and tend to make still wider the bounds of that freedom which is the strongest guarantee of a healthy understanding and mutual good-will. The citizens of St. John are indebted to Mr. Rowell for arousing a new and keener interest in the League of Nations. The two Canadian Clubs gave him the tribute of a crowded house, and the frequent expressions of appreciation showed how strongly the audience was in sympathy with the gifted speaker. Future developments in relation to the League and its work will be watched with keener interest and a more intelligent understanding of what it means for the world. Canada is a member of the League. As Mr. Rowell pointed out, she can never go back to the status of pre-war days. Her people must enlarge their outlook and realize that they are not merely citizens of Canada, or of the Empire, but of the world.

THE NEW RAILROAD BRIDGE.

The C. P. R. appears to have won at Ottawa in the matter of the height of the new railroad bridge. The contentions of the St. John representatives at the conference in Ottawa were admitted by correct, but the public works department will not order the bridge to be raised. And yet the re-survey by the department shows that the centre of the new bridge is 70 feet to the east (or nearer the city) than the centre of the highway bridge. In an article in the Engineering Magazine, after the construction of the new highway bridge, and which was read before the Institute of Engineers in England, Mr. Duggan said: "The clearance of the old railway bridge was about elevation 82 feet. To retain equal elevation and sufficient fairway for navigation it was necessary to raise the grade of the new highway bridge so that the elevation of the crown of the roadway at the centre of the span comes to 108.7. This arrangement provides 260 feet fairway, that is, 120 feet on each side of the centre line of the bridge with an elevation of 82 feet." "Eighty-two feet is the clearance afforded by the existing cuttler's all the way across the river, yet in spite of this eminent authority as to necessary clearance and fairway at the time of building the highway bridge, and who was quoted by Mr. Fairbairn, the chief engineer of the C. P. R., the chief engineer of the public works department admits that there will not be a 75 foot fairway and elevation on the western side or Fairville shore equal to that of the existing cuttler's bridge, while the engineer of the shipping men declares there will not be a fairway of 85 feet with an elevation equal to that of the cuttler's bridge." There is one chance that something may be done to protect the navigation of the river at this point. The provincial government might have more influence than those who have thus far appealed to Ottawa.

THE DEATH ROLL.

Whoever became personally acquainted with the late Hon. Frank J. Sweeney entertained for him thereafter the kindest feelings. He was a jovial companion, a man of generous instincts, a good citizen and one well-versed in public affairs. Universal regret was expressed when ill-health compelled his retirement from active life, and it was hoped change and rest would restore his former vigor. Mr. Sweeney was for many years a member of the legislature and for some years a member of the government. He was an able campaign speaker, a good administrator and very popular in his native county of Westmorland. His ready wit enticed many a debate in the legislature. Old friends remember when he lived for a time in St. John, and join with others throughout the province in sympathy with the mourning relatives. Mr. John W. Vanderbeck, M. P. F., whose death occurred in a fatal attack of very brief illness, was best known to the people of Northumberland county, and they returned him at the head of the poll in the last provincial elections. He had no had time to demonstrate his quality as a legislator, but his popularity along the Miramichi, where he had long been identified with the lumbering industry, was universal. His death, at the early age of forty-seven years, terminates a career that seemed full of promise.

May-day brought labor troubles in some cities in Canada and the United States. This is not a very favorable time to cease production and the longer period of unemployment the more serious the conditions will be.

On the bill providing for a partial return to the patronage system the government at Ottawa had a majority of only fifteen. Its path is by no means one of roses.

Premier Meighen announces that the budget will be brought down this week or next. It will be awaited with unusual interest.

MEXICAN RIDERS AND U. S. OFFICIALS IN GUN FIGHT.

Naco, Ariz., May 3.—Pedro Lopez, a Mexican immigration officer was probably fatally injured in a fatal gun fight between Mexican and U. S. immigration service line riders near here. According to reports two Americans were killed on by two Mexican line riders who had ridden their horses across the border. One returned the fire fatally wounding one of the Mexicans. Neither of the U. S. riders were wounded. Both are bowing to reports that the Mexicans had apparently been drinking and opened fire without provocation.

BIG LIQUOR SEIZURE.

George M. Rideout of Moncton, Inspector under the temperance act, seized a box car containing liquor, estimated value \$15,000, in Sydney, yesterday. The shipment contained 117 barrels camouflaged as a temperance beverage. The seizure was the first under the Doherty act, and as a result, it is understood, action will be brought against the National Breweries of Montreal; the consignee, the Petrie Manufacturing Company of Sydney; Michael Nolan of Glace Bay, and the Canadian National Railways, for accepting the shipment.

FULFILLMENT.

There is a sea—a quiet sea, Beyond the farthest line, Where my ship went astray, And all the things that were to be—Are mine!

There is a land—a quiet land, Beyond the setting sun, Where every task which I qualified And all wherein my courage failed, Where all the good my spirit planned, Is done!

There is a hope—a quiet hope, Which my heart instilled, That if, undaunted, on I sail, This guiding star shall never pale, But shine within my labor's scope, Fulfilled.

And there's a tide—a quiet tide, Flowing toward a goal— That sweeps by every humble shore, And at its crest has no more; And on that final swell shall ride— My soul— Anon.

IN LIGHTER VEIN.

Plenty in Prospect. "I shall love to share your trials and troubles, dear darling." "But, Daphne, dear, I have none." "No not now, darling. I mean when we're married."

Mrs. Johnson had gone away from home, leaving Mr. Johnson lamenting. On arriving at her destination she missed her trunk and sent a postcard to her servant asking the girl to let her know if she found anything on the dining room floor when sweeping next morning. The servant duly replied: "Dear Madam, I don't ask me to let you know if I found anything when sweeping the dining room floor this morning. I beg to report that I found 20 matches, corks, and a pack of cards."

Five Dollars, Please. "Doctor, I wish you would prescribe for my complexion." "Certainly, madam. Let it alone."

"I'm glad I broke my engagement with Tom," Mabel observed indignantly. "He's no gentleman." "Why, I have always thought him very good." "I was committed in surprise." "What has he done?" "Well, I sent him back his presents—that is, all except the diamond ring and a few other things that I thought I was really entitled to, considering how many times he had broken it. He sent me a ring and a pack of cards."

Magistrate (severely)—Horsewhipping is the only suitable punishment for you and your kind. The idea of a man of your size beating a poor, weak woman like that!

Prisoner—But, your honor, she keeps irritating and irritating me at the dinner table. How does she irritate and irritate you?

Prisoner—Why, she keeps on saying, "Hi! Beat me! Just hit me once and I'll have you hauled up before that magistrate!"

Magistrate (choking)—Discharged.

The host was showing his author friend the room in which the latter was to sleep at the hotel. "I'm afraid you'll find them a pretty depressing collection," he said. "It always dampens my rubbish here."

The author ran his eye over the room, and then he turned to his host and said, "It took me two years to write that one," he said.

MORE STRIKES.

There is an epidemic of strikes in Moncton at the present time. Journey-men painters and decorators quit work yesterday, refusing to accept a maximum of sixty cents. The plumbers and steam-fitters have refused to work under the new schedule of fifty cents. A group of sheet metal workers and plasterers have also refused to accept the new schedule calling for a reduction in wages. Between 25,000 and 30,000 men employed in Cleveland, Ohio, in work allied with the building trades have quit work, refusing to accept a reduction of twenty per cent. in wages.

CENTENARY Y. P. S. ELECTS OFFICERS.

At the annual meeting of Centenary Young People's Society last night, the following officers were elected:—Mrs. B. Maloney—President; Robert Leskey—1st Vice-president; M. W. Marsh—2nd Vice-president; Miss Doris Harbours—3rd Vice-president; J. Wilfred Teit—4th Vice-president; Miss Stella McAlpine—Secretary; Harry Boyer—Treasurer; J. Lawrence Henegar—Corresponding secretary.

The following members of committees were appointed:—Mrs. Grant Smith—Social; W. Grant Smith—Debates; Miss Pauline Jenkins—Entertainment; Miss Annie Tait—Election.

An educational contest was held in which two groups took part. In the intermediate group, the contestants were Miss Alicia MacAvour, Miss Charlotte Calkin, Miss Katharine Shepherd, Miss Shepherd was awarded the prize. In the senior group, Miss Stella McAlpine and Miss Annie Tait took part, Miss McAlpine being the prize winner.

In the musical programme a vocal solo was given by Mr. Irving and a piano duet by Mrs. H. C. Rayworth and Mrs. A. Robertson.

CENTENARY W. M. S.

The annual meeting of the women's Missionary Society of Centenary Church was held last evening when Mrs. C. F. Sanford was re-elected president. Reports of the various officers were heard and all testified that the year had been a successful one.

The election of officers resulted as follows:—President, Mrs. C. F. Sanford; 1st vice president, Mrs. R. A. Sinclair; 2nd vice president, Mrs. W. B. Traxler; 3rd vice president, Miss Edna Austen; recording secretary, Mrs. L. A. Long-streth; corresponding secretary, Mrs. B. A. MacLaughlin; treasurer, Mrs. W. G. Smith; strangers secretary, Mrs. H. A. Goodwin; superintendent of Christian stewardship, Miss Annie Hea; mite box superintendent, Mrs. C. H. Leonard.

QUARRELLING MEN DUMPED TO DEATH.

Both Climbed Over Harlem River Bridge During Heated Argument.

New York, May 3.—The bodies of the two men who leaped from the bridge spanning the Harlem river at 142d street were recovered by Patrolmen Chick-chester and Ludwig of the Marine division who were dragging the river under the bridge with grappling hooks. James J. Ryan of 184 Broadway avenue, identified the bodies as that of his brother, John. The other body, which was found earlier, was identified by Ryan as the Jack Langton, 24 years old, of 306 St. Nicholas avenue.

According to the coroner's report, 15 years old, of 207 West 141st street, who was an eye-witness, two well dressed men came out of a pool room near 147th street and Lenox avenue engaged in a heated argument. They seemed to have been drinking. Isidore told the police, and expecting to see a good fight, he followed the pair to the 142d street bridge, with a number of other men.

The two men still arguing, strolled to the centre of the bridge, with the boys behind two loud plashes after forty foot plunges. Isidore and his pals began to yell and attracted the attention of Harry Purcell, engineer of the drawbridge. Purcell threw his searchlight on the river and saw that the strong current had separated the two men.

One was clinging to the bridge pier in mid-air while the other was trying to follow the current and swim to the Bronx shore a hundred feet away. Purcell heard the man clinging to the pier shout: "Come over here, Jack."

"I can't," the other replied, as he fought his current. Several boys went in search of a policeman, while Purcell followed the men struggling in the water. He shouted to the man clinging to the pier to hold on. The man about twenty feet behind them, Y. M. C. A. was struggling to reach the Bronx shore. Purcell saw him throw up his arms and sink.

LOCAL NEWS.

Hon. N. W. Rowell, who while in the city was the guest of Mr. and Mrs. I. P. Maguire, will entertain a three other dinner, next evening when a number of guests were invited to meet the guest of honor.

John McKinnon, formerly associated with the John G. McLaughlin, C. A., has been appointed chief of the industrial department in Y. M. C. A. work at Montreal.

The Brunswick Chapter, I. O. D. E. met yesterday afternoon at the home of Mrs. N. P. McLeod, with the regular meeting. Mrs. W. I. Panton, presiding. The chapter's part in the Empire Day pageant was arranged.

Mrs. G. A. Kubring left today for the North Shore on an organization trip in connection with the Red Cross Society membership campaign. In St. John, Mrs. Frank White, president of the local Red Cross Society, will be in charge of the organization work.

The pilot boat David Lynch, purchasing for the Government, was yesterday in and fisheries from the St. John pilots, has been sold to Michael McGrath of Shelburne. It is understood that the vessel will be employed in coastal trade.

The Loyalist Chapter of the I. O. D. met at the residence of Mrs. High Mackay, Robesay, yesterday afternoon with the second vice-regent, Mrs. Royden Struggling in the chair. Various reports and communications were read and preliminary plans were made for the annual sale.

Nine automobiles, charged with speeding, were fined \$5 each by Magistrate Adams last evening at Brookville. A truck owner was fined \$5 for operating a motor vehicle without a license. Three other drivers were reported by Constable Robert Crivford on Sunday and five more were reported by his brother, Fred. They will appear before Magistrate Allingham on Friday.

The Local Council of Women at a meeting held yesterday afternoon decided to engage the services of H. A. Powell, K. C., as counsel for the defence in the case of Margaret Long, charged with infanticide. Many members of the council spoke strongly, advocating support for the girl. The case was commenced at Fredericton this morning. C. J. McElroy is appearing for the defence and J. P. Ryan, K. C., attorney general, for the prosecution.

The B. Y. P. U. of the Waterloo Street Baptist church held a devotional evening last night in the vestry of their church. Miss Agnes Pooley, in charge of the programme committee, occupied the chair. A synopsis of the old and new testament was given by James Ellwilling, to whom a vote of thanks was tendered. A roll call was answered by each member present responding with a Scripture quotation.

Owing to the slim attendance caused by other attractions it was decided at the general meeting of the G. W. V. A. held last evening in its building, that the business be limited to the reading of the minutes of the previous general meeting and of the subsequent executive meetings. After being read the minutes were briefly discussed and confirmed. Advertisements until next Monday when the full business of last evening's meeting will be completed.

The case in which William Donaldson, Louise Jackson, Lottie Koblach and Mary White are charged with breaking and entering and stealing from summer cottages at Millidville and also with receiving stolen property, knowing it to be stolen, was resumed yesterday afternoon in the police court. W. H. Turner and Mrs. J. Fraser Gregory testified that their houses had been entered and articles taken. Mrs. A. M. Rowan, Mrs.

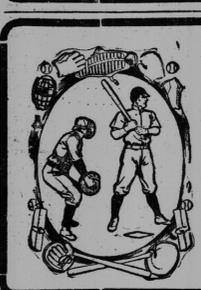

The Barnet Refrigerator

The outstanding feature of this splendid refrigerator is that it is ALWAYS CLEAN and SWEET. No foul odors; no heavy gases; no stagnant air. The Barnet preserves foods in all their freshness for astonishingly long periods. Furthermore, one food will not taint another. The Barnet's improved Syphon System of air circulation and ventilation is the reason.

DEATH CLAIMS HON. F. J. SWEENEY

Former Member of N. B. Government—In Earlier Days a School Teacher in St. John.

Death yesterday removed another well-known figure in the life of the province, when Hon. Francis J. Sweeney, K. C., of Moncton died in the Royal Victoria hospital in Montreal. Mr. Sweeney went to

HON. F. J. SWEENEY.

Montreal a week ago to undergo an operation for cancer of the liver. The diagnosis brought the information that he was sinking, and Rev. Edward Savage left for Montreal yesterday morning to be with him when he died, but did not reach him before he had passed away. Only a short time ago Mr. Sweeney returned after a health trip to the West Indies.

Mr. Sweeney was born at Melrose, Westmorland county, on April 21, 1862. He was a graduate of St. Joseph's University. For many years he was a member of the local legislature, and in 1904 was appointed surveyor-general of the province. He was a Catholic in religion and a life-long Liberal in politics. Some thirty-five years ago Mr. Sweeney was a teacher in St. Malachi's

KING STREET GERMAIN STREET MARKET SQUARE

PICTORIAL REVIEW

The Fashion Authority in Over 2,000,000 Homes

Offers to men and women, boys and girls of St. John, opportunity to earn very generous salaries in a most agreeable occupation. This is no spectacular prize proposition, but straight employment in which, in addition to the wages earned, those who display any enterprise worthy of the name are rewarded by valuable bonuses.

PICTORIAL REVIEW is introducing in this territory the Home Delivery plan whereby the magazine is delivered each month to subscribers and by which this magazine may be paid for either in advance for six months, a year or longer, or paid monthly on delivery, as suits the convenience of the subscriber.

To Carry On This Work Active Canvassers Are Needed

They will be paid on the following basis:

Each canvasser will be provided with a sufficient number of copies of the current issue of Pictorial Review to fill all orders which he or she may receive, together with the necessary order blanks and other material. A house to house canvass will be conducted, these sample magazines sold at the regular price of twenty-five cents, and orders taken for future delivery of the magazine for the period of a year. In addition to this such canvassers as are able to turn in fifty orders in a week will receive an extra bonus of two dollars and fifty cents; those forwarding seventy-five orders in a week will receive an extra bonus of \$5.00, and those producing one hundred orders in a week will get a bonus of \$10.00. Under this plan it is possible, and indeed it will be easy for any live wire canvasser to earn \$50.00 or more per week.

But This Is Not All

Not content with offering the very generous remuneration already outlined, Pictorial Review will give to the person in St. John securing the largest amount of business a free trip to the Toronto Exposition, Canada's National Fair, to be held during the last week of August and the first week of September. This trip will include return railway fare, sleeper, meals and ample cash allowance for a five days' stay in Toronto, and will represent an outlay on the part of Pictorial Review amounting to \$150.00. While in Toronto, the winner of this trip will, if he or she so desires, be privileged to enjoy an air flight conducted by Captain P. F. Tpwneley, formerly of the Royal Flying Corps.

The winner will be the one obtaining the greatest number of points under the following classification:

- Yearly orders—10 points.
- With additional payment of 25c. for one month—12 points.
- With additional payment of 50c. for two months—14 points.
- With additional payment of 75c. for three months—17 points.
- With additional payment of \$1.25 for five months—20 points.
- With additional payment of \$2.75 for eleven months—50 points.
- With additional payment of \$5.75 for twenty-three months—100 points.

All who desire to participate in this are requested to send their names at once to Pictorial Review, Box 1109, City, on receipt of which a representative will call and fully explain the proposal here outlined.

school in St. John. He gained great popularity in this city, for he was bright and genial, of keen wit, one who readily made friends and retained them. In made friends and retained them. In made friends and retained them. In made friends and retained them.

He started the practice of his profession in partnership with the late Arthur Robinson, brother of the Hon. C. W. Robinson, minister of lands and mines. On the removal of his partner to Calloway, Mr. Sweeney formed a partnership with David Grant, now Judge Grant of Vancouver (B. C.) under the firm name of Grant & Sweeney. Since Mr. Grant's removal from Moncton, Mr. Sweeney has practiced his profession in partnership with three brothers, John of Dorchester, Dennis A. of Melrose and Michael, residing in St. John. The late Mrs. P. G. Mahoney, of Melrose, was a sister. His parents died several years ago. Hon. Mr. Sweeney was a prominent Moncton barrister and as one of New Brunswick's public men.

Mr. Sweeney was prominent in the Knights of Columbus, was the first knight of Moncton council, later became state deputy, and at the time of his death held the rank of past state deputy. He is held in kindly memory in this city, where he leaves relatives as well as friends, and through the sympathy of many will deeply sympathize with those bereaved.

HON. MR. ROWELL SPEAKS ON THE NATIONS LEAGUE

"Because the League of Nations had been born of the heart cry of humanity for the peaceful settlement of international disputes and because the common people everywhere would in future demand that dispute between nations would be settled without resort to war, Hon. N. W. Rowell, K. C., M. P., one of Canada's delegates to the first meeting of the assembly of the League of Nations, declared that the league would attain the ideal for which it was set up in an address delivered before a joint meeting of the Canadian Club and the Women's Canadian Club in the Iythan Castle last night.

So long as great nations outside the league were under no obligation to reduce armaments, Mr. Rowell said, little advance could be made in the process of disarmament. The United States, he said, was a determining factor in the disarmament situation and he professed to see hope in the recent addresses of President Harding in which sympathy was expressed with the policy of a limitation of armaments.

Mr. Rowell told of the aims and objects of the league its organization and the work accomplished by the recent assembly. The fact that the assembly had met was in itself a great achievement. The greatest concrete piece of work it had accomplished was to provide for the organization of an international court of justice. The public opinion of the world would compel nations to bring their disputes before this court for settlement, he said. He expected that the court would be created in September of this year.

Horace A. Porter, president of the Canadian Club, was chairman of the meeting at which about 800 were present. Mrs. Leonard Tilley, president of the Women's Canadian Club, moved a vote of thanks to Mr. Rowell at the conclusion of his address.

After referring to his previous address

in St. John during the period of the war, Mr. Rowell said that he had come this time to speak on what he ventured to suggest was the most hopeful feature that had emerged from the late great war, namely, the League of Nations. The league, Mr. Rowell said, offered the best prospect of conserving that for which the soldiers had fought, namely, the overthrow of militarism and the preservation of peace.

Mr. Rowell said that the presence of such a large audience to hear the League of Nations discussed was evidence of the widening horizon of Canadian citizenship. Before Confederation, Mr. Rowell said, provincial boundaries limited the conception of citizenship. With the advent of Confederation the conception of citizenship was widened to include a citizenship of the whole of the Dominion.

Boils So Bad HAD TO GIVE UP WORK

From the days of Job, up to the present time boils have been one of the afflictions of the human race. All the poulticing and lancing you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish and you should never be troubled again.

Mr. James Fahy, Newport Island, Que., writes:—"I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally, I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

B.B.B. is put up only by The T. M. Bunn Co. Limited, Toronto, Ont.

The "Business Girls" Tweed Suits

Well Tailored and at Remarkable Prices. A regular hiking suit of decidedly sport lines, comfortable, easy and good looking—just the most useful and economical suit for the business girl. Three shades of pretty Mixed Tweeds, well finished.

Price, \$29.75 Each.

London House Head of King St.

REORGANIZATION OF ST. MONICA'S

St. Monica's Society held its last meeting yesterday afternoon in the Knights of Columbus hall and planned for a final entertainment, a "dinner" at St. Monica's to close its work as a separate society and to become a branch of the Catholic Women's League. The meeting appointed as a board to organize the branch of the league: Mrs. D. P. Chisholm, Mrs. R. O'Brien, Mrs. J. H. Doody, Mrs. M. Bohan, Miss A. F. O'Neill, Mrs. D. C. Dearden, Mrs. W. E. Scully, Mrs. L. Comeau, Miss Amelia Haley and Miss Josephine Lynch. At yesterday's meeting the president, Mrs. D. P. Chisholm, was in the chair and encouraging reports of past work were given. Miss Hogan, as treasurer, submitted the financial statement and Mrs. R. O'Brien gave an account of a rummage sale which had realized \$228. A vote of sympathy was extended to Mrs. James McCarthy, Mrs. Richard O'Brien moved a vote of thanks and appreciation which was presented to the president, Mrs. D. P. Chisholm. A vote of appreciation was also tendered the Knights of Columbus for the use of their hall.

DEEP INTEREST IN POWER QUESTION; KENSIT REPORT

What Expert Has to Say in Statement Prepared For the City Council

SOME OF HIS RECOMMENDATIONS

Exhaustive Analysis of the Plant and Finances of the New Brunswick Power Company — Sees Greatest Benefit to the City From Low Power Rates Rather Than From Low Lighting Rates.

Conferences on the power question will be resumed at city hall this week. The city has an opportunity to buy from the Hydro-Electric Commission some 10,000 horse-power developed by the province at Musquash, and the current will be ready for delivery this fall or early next year.

The question arises as to how the city can best distribute to light and power users the current which it can buy at the city line at a price much lower than

the cost of developing power by the use of coal. Will the city create its own distribution system? Or will the city employ the New Brunswick Power Company as a distributing agent under an agreement binding the power company to pass on to the consumer any saving which the company will make by having Musquash power turned over to it at a price much lower than its present cost of producing current?

The question is one of very great importance, and a decision to be reached by the mayor and commissioners in the near future will be one likely to affect very materially in one way or another the future prosperity and expansion of the city of St. John.

The chief document bearing upon the issue at present is the report of Engineer H. E. M. Kensit, who was employed by the city to ascertain "the cost of steam electric power as developed by the New Brunswick Power Company in the city of St. John."

The city of course is in no way bound by the Kensit report, but will use it merely as throwing much light on the situation. The city has not only to consider the cost of distributing the new power, but has to look ahead to future power needs and ask itself whether it will be better to keep completely within city control all the current it requires, or will require for existing needs and future expansion, or turn that current over to the New Brunswick Power Company and so make the price to the consumer dependent now and hereafter upon the private company's requirements. Citizens who read the Kensit report will agree that the mayor and commissioners have a very difficult and complicated task on their hands.

What Mr. Kensit Says. In submitting his report to Mayor Schofield Mr. Kensit, in the course of a letter to his worship, says in part: "As agreed with you personally I have added sections with which portions of this cost could be reduced in the event of a hydro-electric supply, with a saving that might be anticipated to consumers by means of a supply, and with the possible increase of power demand in the future."

This report is intended to form a connected statement, one point leading on to the next, and while a condensed summary of the principal points is given at the end, it is necessary to read the report straight through to obtain a clear view of the situation.

MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

Mr. Kensit in the first portion of his report enters into an exhaustive analysis of the plant and finances of the New Brunswick Power Company, the condition of its property and services, the cost of operation and the like. He finds that the actual total cost to the power company of producing electric power by steam at the switchboard is 2.8 cents per k.w.h. or \$89 per horse-power per year. He adds: "It must be, however, clearly understood that this (this cost) does not represent:

(1) The lowest price that may be legitimately and economically charged for power; (2) a figure below which it would pay the company to purchase a supply in bulk."

"The following facts are well understood by those conversant with power production: The electric lighting load is the most expensive to supply due to the shortness of the hours of demand and the expense of distribution in very small amounts. The electric power load is cheaper to supply due to the longer hours of demand and the larger size of the individual customers."

"The addition of a single large power user with a demand spread over a large part of the twenty-four hours will so improve the conditions of operation that it will reduce the cost of every k.w.h. produced by the plant. It does in practice pay a power company to take on such a consumer at considerably less than its then existing average cost of production."

"These points are stated because it might be assumed from the above conclusions that the Street Railway is supplied at less than the cost of producing the power."

Mr. Kensit says that if the Street Railway was not a consumer there cost to produce steam power would be much higher than it is now, a point vital in the present inquiry.

Mr. Kensit finds that the average cost of power sold by the New Brunswick Power Company is 5.8 cents per k.w.h., and that the average price received from the sale of light and power (excluding all other receipts) is 6.1 cents per k.w.h., this figure including the power sold to the street railway. Excluding the street railway the average price paid by consumers is 5.5 cents, some lighting consumers paying less.

Mr. Kensit says that all electric power sold through the New Brunswick Power Company so far as the average selling price to the consumer is concerned would unavoidably under present conditions have to be loaded up with the capital, administration and operation expenses of both the company and the hydro-electric commission, the losses on the street railway and gas undertakings and the stand-by charges due to a somewhat antiquated and expensive steam plant. That is, assuming that for a year or two it would be necessary to retain the present power plant to prevent lack of power through lack of water or other causes at Musquash.

Ontario's Experience. Experience in Ontario has shown, so engineers say, that the entire interruption of hydro-electric power has not exceeded nine minutes a year, which would indicate that after a year or two of operation the steam stand-by might safely be done away with. The Telegraph in this matter is not quoting the Kensit report.

Continuing with the report Mr. Kensit says: "On the other hand, if the supply is given through the company there is the large saving due to non-duplication of the distribution system, both in capital and operating expense."

The greatest benefit to the city as a whole, in growth of industries, population and general prosperity, would accrue from low rates for power rather than for light. Light, even when high

there will not be sufficient margin of steam power to act as a stand-by to it, and if there is no stand-by for motor load the cost of the steam power should not have that added to it, nor the proportion of capital, administration and general charges due to that stand-by.

"It appears quite possible that some satisfactory arrangement might be made maintaining the steam stand-by for the lighting only and charging it to lighting only, and supplying power to all motor users at the cost price of the hydro-electric supply plus a fixed and agreed percentage for use of its circuits and the maintenance thereof and for administration and general expense."

"All these points are vital in the cost of power in the future and should be fully investigated, weighed and discussed when the price of the hydro-electric supply is known and before any binding action is taken."

Quickest for Healing
A cut sustained in the workshop, a sore which is unattended, results say in inflammation or blood-poisoning. You have to lay off for days or two and it costs when pay-day comes round. Zam-Buk insures you against such loss. A little antiseptic Zam-Buk promptly applied to any flesh wound or injury prevents disease infection and risk of festering and ulceration, and takes away smarting pain and promotes quick healing.

At home a box of Zam-Buk is even more useful. The baby's nasty rashes, the older children's cuts and bruises, the inevitable burn or scald—for all these, as well as for more serious skin troubles, such as scabies, alopecia, ringworm, etc., Zam-Buk is the unrivalled remedy.

Mr. J. W. Besnard, 539, Craig St. E., Montreal, writes: "I am of my fingers were so severely crushed that the doctor said they would have to be amputated. I decided to try Zam-Buk first, and applied the balm daily. Within a few weeks the injury was completely healed. My fingers were saved and I am at my desk."

In price, is usually a small proportion of total expenses, but the cost of power is an important factor in most industries and a controlling factor in many important industries.

"First: A supply to the company for distal power to its system to lighting and small power users, thus taking full advantage of the existing distribution system and giving the security of the steam stand-by for the lighting system."

"Second: A supply direct by the company to the city for the larger power users. This would involve only simple lines, the cost of power could be a minimum instead of its having to carry the heavy charges detailed above. In the case of large isolated plants power could be delivered at transmission voltage and be transformed to the consumer's pressure. Power could then be available at rock bottom prices to the present large users and also be available in the neighborhood of industrial sites. The maximum advantage in this prospect could be made available to the city by the existing industries and the initiation of new industries.

"If power at a sufficient low price is made available a large addition to the power load might be looked for and this would probably include consumers using hundreds and possibly thousands of horse-power each. The company's existing mains would not be able to carry such loads without extensive alterations and increases in the size of mains, involving large expenditure. Furthermore, considering a single large consumer to transform down from transmission to power station voltage and then again from the letter to working voltage, instead of doing this in one step, involves additional expenditure on transformers and apparatus and double loss in the energy."

"This situation might be improved by a division of the company's distribution system into separate lighting and power circuits, only quite small motors, if any, being left on the lighting circuits."

"It is clear that the use of the company's distribution system and organization would be a substantial advantage and that duplication should be avoided if possible."

"It is also clear that if any appreciable advantage is to be gained from the new source of power, in particular for use for power as distinct from light, it must not be loaded up with any other tangible charges due to an old undertaking."

"The peak-load on the steam plant is not practically equal to the capacity of the plant. If the existing motor load were separated out on two distinct circuits as suggested above, the steam plant when acting as a stand-by could be relieved of this load and could then act as a full stand-by for lighting only for some time."

"It is, however, clear that if there is any considerable increase in motor load

which the details are given. In his summary he notes that: "The common stock of the power company has not been taken into account in his calculations or conclusions."

The company gave every possible assistance to facilitate the investigation. In 1920 it cost the New Brunswick Power Company 2.8 cents per k.w.h. to generate its power, or \$89 per horse-power per year.

No Corns Today
unless folks let them stay
Millions of people nowadays keep completely free from corns. At the first sign of a corn they use Blue-jay—the liquid or the plaster. The pain then stops. In a little while the whole corn loosens and comes out. People who pare corns keep them. People who use old treatments—harsh, unscientific—do themselves injustice.

There is now a scientific corn tender. A famous chemist perfected it. This world-famed laboratory supplies it through druggists everywhere. It is at your call. A touch will apply it. Its use seals the fate of a corn. At least 20 million corns yearly are now ended in this easy, gentle way. Apply it to one corn tonight. Watch what it does.

Plaster or Liquid **Blue-jay**
The Scientific Corn Tender
BAUER & BLACK Limited TORONTO CANADA
Makers of B & B Sterile Surgical Dressings and Allied Products

On page forty-five of his report, Mr. Kensit says: "It is also clear that if any appreciable advantage is to be gained from the new source of power, in particular for use as power as distinct from light, it must not be loaded up with any other available charges due to an old undertaking."

Continuing the summary, Mr. Kensit says that the greatest benefit to the city as a whole will come from low power rates rather than from low lighting rates. He dwells again upon the necessity for dividing the company's lighting and power circuits if the maximum advantage is to be gained from the new power development.

Mr. Kensit was not asked to report on the cost of a civic distribution system. His report really deals with the cost of steam-electric power as developed by the New Brunswick Power Company, the saving that company would effect if the city turned over the Musquash power to it, and the probable effect upon power and light rates if that course be adopted, and he also discusses as alternatives the possibility of power being supplied partly through the company and partly by the city or the Hydro-Electric Commission.

At a recent meeting of the Ladies' Aid of the Postland Methodist church, one of the circles of St. John reported. This circle, of which Mrs. Herbert Ring was the captain, gave its report at a meeting held last evening when it was announced that this circle had raised the sum of \$819 during the winter months.

Tiny Dose and Baby is Happy
The medicine a mother takes for her own constipation is seldom the right medicine for her baby. Thousands of mothers for thirty years past have been giving babies Dr. Caldwell's Laxative Syrup Pepsin, which is a combination of simple herbs with pepsin. The full formula is on the package. This remedy will relieve constipation, biliousness, feverishness, colds and many other symptoms that indicate baby's inactive bowels. Mother, a sixty-cent bottle will last you months, and if it doesn't do as claimed your money will be refunded.

This Offer
means prettier teeth—accept it
This is an offer which millions have accepted. And glistening teeth seen everywhere show the good effects. Make this free test. Then judge the benefits by what you see and feel.

Pepsodent
The New-Day Dentifrice
The scientific film combant, approved by modern authorities and now advised by leading dentists everywhere—to bring five desired effects. All druggists supply the large tubes.

FREE
This Ten-Day test costs you nothing. It will bring you results that will please. Send the coupon for it.

Combats acid
Pepsodent also multiplies the salivary flow. It multiplies the starch digestant in the saliva, to digest starch deposits that cling. It multiplies the alkalinity of the saliva, to neutralize the acids which cause decay.

How film ruins
Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary dentifrice does not effectively combat it. So, despite the tooth brush, it has caused tremendous damage.

Watch it act
Send for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

A book we send tells the reason for each good effect. Judge what those results will mean to you and yours. Cut out the coupon now.

10-Day Tube Free

Mail 10-Day Tube of Pepsodent to

aches and pains
Pain is Nature's signal that something is wrong, and unless it is quickly righted, it may easily become serious. If the aches are in the joints and muscles Absorbine J will take the pain quickly and restore the tissue to its former healthy condition. Drawings which so commonly accompany pain are quickly reduced by a trial Absorbine J. rub. 61.25 a bottle at most druggists. W. F. YOUNG, Inc., 344 St. Paul St., Montreal.

Cuticura Soap
The Healthy Shaving Soap
Cuticura Soap cleanses, soothes, and restores the skin to its natural healthy condition.

Take It In Time!
Do you know that by far the larger number of the common ailments of women are not surgical ones; that they are not caused by any serious displacement, tumor, growth, or other marked change? Do you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions? Do you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

30,000 STEEL WORKERS WILL BE AFFECTED

Schedule Before Iron, Steel and Tin Workers' Convention—International President Speaks on the Matter.

Montreal, Ont., May 3.—(By Associated Press)—A new wage scale and agreement for the independent mills of the United States will be most important matter before the 14th convention of the Amalgamated Iron, Steel and Tin Workers which opened here today with representatives of 25,000 steel workers.

Science Proves the Danger of Bleeding Gums

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhoea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhoea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhoea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhoea germs.

Guard your health and your teeth. Keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhoea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

35c. and 60c. tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

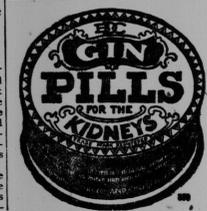

al president, pointed out that it would also "eventually affect 150,000 steel workers in the plants of the United States Steel Corporation, whose wages are generally based on the standard set by our organization."

Mr. Tighe declined to indicate the probable action of the convention.

"We cannot tell until our wage committee reports what the men want," he explained. "Some lodges may recommend increases or continuance of the old scale. Our committee has been sifting out the various resolutions and will present a concrete proposal."

"It is Amalgamated during the time of the present agreement has maintained most cordial relations with the steel companies," Mr. Tighe said. "We have an

exceptionally smooth-working contract, providing for wage reductions or increases according to business conditions as shown by the companies' books.

"The employers have adhered to our agreement and we have had little trouble in making adjustments."

"While our men have taken reductions in many cases their wage is still considerably above the prevailing level."

Because of depressed industrial conditions, Mr. Tighe said that the attendance at the convention was not expected to be as large as in past years.

"Thousands of our men are out of work," he said, "and many of the independent companies have closed down or are working at greatly reduced capacity."

"Conditions are the worst we have experienced in years. Not only independent but the plants of the United States Steel Corporation have been working at about 80 per cent, or less, of their capacity."

The convention, which will probably continue for nearly three weeks, will be executive sessions, unless a new rule is adopted, opening the meetings to the public. Mr. Tighe said that he favors "open sessions" and such action may be taken.

Important amendments to the by-laws and constitution of the Amalgamated are also to be considered during the sessions as well as other resolutions affecting the welfare of the organization.

Resolutions tending to support the campaign of the Executive Council of National and International organizations in the steel industry to unionize the plants of the United States Steel Corporation are also to be considered. This committee, headed by Mr. Tighe, will launch its active campaign on June 19.

PIMPLES ON FACE CUTICURA HEALS

Caused Disfigurement, Itchy and Burning, Had Restless Nights.

"My face came out in little pimples that were sore, and I scratched them constantly, and then they turned into scales, causing much disfigurement. The skin was so itchy that I irritated it by scratching. The burning was fierce, and I had many restless nights."

"This trouble lasted about a year before I used Cuticura Soap and Ointment, and after using three cakes of Soap and two boxes of Ointment I was healed." (Signed) W. Byrnes, St. Basile, Que., Nov. 23, 1918.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations.

Soap 25c. Ointment 25c. and 50c. Sold throughout the Dominion. Canadian Depot: Limited, St. Paul St., Montreal. Cuticura Soap shows without seal.

COW HAS FOUR CALVES, BUT THEY HAVE ALL DIED.

Milton, May 3.—Samuel Crozier, a farmer living on the 1st Line of Trappier township, near Milton, is the proud owner of a Durham cow which gave birth to four calves.

Cattle breeders state that this cow holds the record, as they have not known hitherto of any cow giving birth to more than three calves at once. Many people visit the farm today to see the calves, but the were dead, two having died when born, and the other two a short while after, a fact which was much regretted by the visitors and especially by Mr. Crozier, who will not take a good bit for his world beater.

Had the little family lived, it is believed Mr. Crozier could have made a large sum of money exhibiting them as special attractions at Toronto and other fairs this fall.

MANY THOUSANDS OF U. S. MARINE WORKERS STRIKE

(Canadian Press Despatch) Washington, May 2.—Announcing a policy of no compromise on the question of a fifteen per cent wage reduction in the settlement of the controversy between the United States Shipping Board, ship owners and Marine workers, Chairman Bellon tonight called upon "all loyal citizens to rally to the support of their flag."

"Full protection," he said, "both now and after the controversy is settled, will be given by the shipping board to all those who come to its assistance in keeping the ships in operation."

Economic conditions fully justify, he said, readjustment in wage scales.

General Walk-Out Begins.

New York, May 2.—The suggestion of Secretary Hoover that the controversy over a wage contract between steamship owners and the unions of engineers, firemen and seamen be submitted to arbitration by a committee of three men, not government officers, was rejected here tonight by the American Steamship Owners' Association.

The action of the steamship owners closed what was intended to be an opening for an adjustment of a country-wide strike, involving thousands of employees on a majority of United States ships on the Atlantic, Pacific and Gulf coasts.

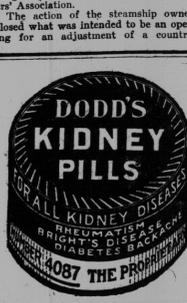

Walk-outs in response to the calls of the union leaders began in all ports today. In New York more than 100 ships were directly affected, on all of which at least some of the men walked out.

Reports to the Steamship Owners' Association were that many of the engineers were remaining loyal to the companies and refusing to leave. Of these ships more than a dozen are passenger liners, one of which in the Transatlantic trade is scheduled to sail tomorrow for London. The Mallory, Southern Pacific and other coastwise lines received notice from other of their men that they would respond to the call of their unions.

Winthrop L. Marvin, general manager of the Steamship Owners' Association, estimates that 65,000 men would be concerned in the strike. The estimate of the union leaders places the number at over 125,000.

CHARTLOTTE Y. P. A. ELECTS.

The Young People's Society of the Charlotte street Baptist church held their annual meeting last evening, with the retiring president of the society, Miss Jessie Hart, occupying the chair. A presentation was made by the society last evening to Mr. and Mrs. Milton Perry in appreciation of their work in the church. Mr. Perry, who has been superintendent of the Sunday school during the last few months, and is leaving the city, received a pair of gold cuff links. The church received a beautiful gold bar pin. The presentation was made by Rev. J. H. Jenner, pastor of the church. Following the presentation the election of officers for the ensuing year took place. The officers elected were: president, Miss Laura Gausman; vice-president, Verner Warnock; secretary, Miss Jessie Hart; missionary treasurer, Miss Carol Seckler; assistant, Miss Miriam Pearce; convener of the social committee, Miss Nellie Rogers; in charge of the church out committee, Miss Hazel Maxwell; in charge of the sick and visiting committee, Miss Elizabeth Cowan.

RHEUMATISM FOR OVER 16 YEARS

No Return of The Trouble Since Taking "Fruit-a-Tives"

103 Church St., Montreal.
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good."

"Then I began to use 'Fruit-a-Tives', and in 15 days the pain was easier and the Rheumatism much better. Gradually, 'Fruit-a-Tives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

P. H. McHUGH,
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-Tives Limited, Ottawa.

VILLA'S LATEST WHIM

Seeks Governorship and Has Fun With Officials

Mexico City, May 3.—Francisco Villa, former rebel chieftain, now holds absolute title to his ranch in the state of Durango. Final payment of \$50,000 pesos to the former owners of the ranch was ordered by President Obregon last week.

Villa's activities have figured conspicuously in newspapers here recently, it being declared that he seeks the governorship of the state of Durango. His crops are all planted and the harvest is several weeks away, and it is said the former bandit leader seeks diversion and will wage an active campaign for political honors. Newspapers here also assert he was recently approached by agents of men planning revolutionary activities who sought his aid. Villa is reported, however, to have sent the agents away with a curt answer, and to have resumed the dispatching of humorous postcards to Government officials here, which appears to be his latest whim.

A Sale of Clothes Of No Slight Significance To Men Alert To Unusual Bargains

OUR Sale of Uncalled-for Suits and Spring Overcoats has progressed far enough to show us that men are glad to save when a genuine offer is made. You will find wonderful values in the lot, suits in single and double breasted styles, the color combinations are widely assorted and the fabrics are the kind that will give long satisfactory wear.

And we say in all frankness that in this Sale we are offering to men an opportunity to obtain clothes of genuine worth at a price that is actually less than the cost of the material alone.

HARDWARE MARKET

(Hardware and Metal)—April 30, Reductions are noted this week in wrought pipe, wood handles, carpenters' and farmers' tools of various types, some makes of night latches, door bolts, plated bolts, carriage hardware, mirrors, enameled cloth and Canada plate. There is an indication that price declines are slowing up on some lines and a somewhat firmer tone is visible on low priced products, rope and glass. Lined oil has stiffened and turpentine has advanced again this week. Basic lines such as iron and steel, sheets and plates are held at recent declines. A better tone is felt in ingot metals, and tin and lead have advanced in price. While there has not been much increase of business as a result of the change in prices of the steel corporation, the situation appears somewhat steadier since prices are considered to be stabilized. Some reductions have been made in prices of rolled steel products by U. S. mills and railroad and

DR. MACLAREN RETIRES FROM THE HOSPITAL BOARD

The resignation of Dr. Murray MacLaren from the staff of surgeons of the General Public Hospital was accepted with regret at the meeting of the board of commissioners held last night, and Dr. MacLaren was appointed to the consulting staff of the hospital in recognition of his valued services to the hospital and to his country.

M. E. Agar was in the chair and the other commissioners present were Mrs. J. V. McLellan, Dr. G. R. J. Crawford, J. King Kelley, Frank Flewelling, William E. Emerson, Alexander McMillan, J. L. O'Brien, Hon. Dr. W. F. Roberts and Dr. H. Hedden, superintendent.

The report of a leak in a lead pipe having caused much inconvenience one night, Mr. Emerson was asked to take the matter up as commissioner of the month.

The rear fire escapes were said to be rusty and unsafe and their wooden floors rotten. Mr. Kelley's motion that the commissioner of the month report on the condition of the fire escapes and the cost of putting them in proper repair was adopted.

The report of the superintendent told of 179 patients admitted, 118 remaining, twenty-two deaths, sixty-seven operations in the large operating room and forty-three operations in the out-patient department.

On Mr. Flewelling's motion the commissioner of the month and the superintendent were given power to have the approaches to the nurses' home put in order.

Dr. Hedden's report said \$621 had been received for the care of sepsis, \$122.50 for the X-ray; \$10,187.08 from the city chamberlain and total receipts were \$10,291. The overhead was \$25,082. Expenditures were \$9,456.84.

The board went into committee to discuss finances. It was recommended that the board appear before the finance committee of the municipality at its next meeting.

The superintendent was asked to notify the chairman of the staff that no report was submitted by the physicians and surgeons.

Bills to the amount of \$9,456.84 were authorized to be paid.

The dietician's report showed total cost of provisions \$8,267 and cost per person, per meal fifteen cents.

The superintendent of linen, Miss Sandall, reported on the condition of linen saying forty-seven articles, mostly wash-cloths, were missing.

The report of the superintendent of nurses, Miss Scott, said the basement required thorough cleaning and the nuisance was a menace.

The election of the staff resulted in the appointment as senior physicians of Drs. Skinner, Rowley, Barry and Kenney, all re-elected.

Dr. Murray MacLaren submitted his resignation from the staff of surgeons. It was said by Mr. Kelley that Dr. MacLaren had done so much for the hospital and his country that he deserved to have the highest honor and every facility that the hospital could give him.

High individual scores: George Turner, St. David's, 455 points; Gray Bell, Ludlow Street, 428 points; Dave Scholfield, Robbsey, 427 points; Jack Starr, Robbsey, 426 points.

FOOTBALL.
 Carleton Club Organized.
 A meeting of the Carleton Soccer Club was held last evening in the Carleton Curling Rink when organization was completed and the following officers elected: Captain, Thomas Keeley; vice-captain, Harry Langworthy; secretary, Percy Barnes; chairman, R. A. Ross.

THE RING.
 Philadelphia, May 3.—Fred. Fulton of Minneapolis made short work of Jack Ball of Houston, Tex., here last night. The bout was stopped after two minutes and fifty seconds of fighting, to save Ball from further punishment.

CRICKET.
 Australians Win.
 (Canadian Press Despatch.)
 London, May 2.—The Australians won the first match of their tour against Leicestershire by an innings and 152 runs; the Australians declared at 480 for seven wickets. Leicestershire made 186 and 142.

BASEBALL POOLS.
 To the Editor of the Times—
 Sir—A few days ago I read a news item in one of the local papers regarding a very serious matter. It dealt with baseball lotteries which are being carried on in this city at the present time.

BRITISH FOOTBALL.
 (Canadian Press Despatch.)
 London, May 2.—Association football games played today in the three divisions of the league resulted as follows: First Division—Bradford City 0; Preston 2; Manchester City 3; Newcastle 4; Derby 1; Manchester United 1; Arsenal 0; Liverpool 0; Huddersfield 8; Oldham 1; Sunderland 1; Burnley 0; Bradford 0.

BASEBALL POOLS.
 The promoter of each pool has fleeced a public of \$4,000, and mind you, there are several of these pools in operation. St. John is not the only place infested with this menace, for it has become a national-wide nuisance in the United States. Frank C. Richter writes an article in this year's Reach Baseball Guide under the heading "The Swindling Baseball Pools." In his article, Mr. Richter quotes the Chicago grand jury as follows:—

BASEBALL POOLS.
 Thousands of persons are fleeced every season of hundreds of thousands of dollars each week and the pools are almost without exception, conducted by irresponsible persons who operate without definite system and without any regularity of practice. There are 12,472 chances in a season's three-league pool selling at \$1 a chance. Out of the \$124,720 collected, the pool pays to the buyers only \$28,000 in prizes. Even at this enormous profit it appears from the evidence that pool owners refuse even to pay all the prizes won by individuals.

BASEBALL POOLS.
 In the big leagues today, men of high character, great legal training, unusual ability and courage, are ferreling out every means that might be used to mar the game, and no stone is being left unturned in their effort to bring the offenders to justice. We cannot employ such men in this community, nor would we think of such a thing as we are only interested in amateur sport, but we can handle the situation if we choose to. St. John is fast regaining its old place in the sporting world, and we must not allow these gamblers to offset our efforts. Our first step is to do away with the baseball pools—we don't want them.

BASEBALL POOLS.
 I wonder if those who make a practice of buying these misleading slips realize that there are 512 combinations in each and every set; in other words each purchaser has one chance in 512 of winning a prize; yet five hundred fools scramble for them each day as if they were nuggets. The slips sell at 50c each, thus bringing in \$250 a week. The total weekly prizes amount to \$60, leaving \$190 as clear profit. During the twenty-five weeks which the season cov-

LOCAL NEWS

HORSE DROPS DEAD.
A horse drawing a sloven dropped dead in Charlotte street yesterday afternoon about 4.30. It was later carted away.

BEER LICENSES.
Up to this morning forty-two beer licenses had been issued at the office of the chief inspector. The total number issued in 1920 was eighty-seven.

DEATH OF CHILD.
Mr. and Mrs. H. A. Fleet have the sympathy of friends in the death of their infant son, Allen Wilson, which occurred yesterday.

ENGAGEMENT.
Mrs. F. M. L. Calkin announces the engagement of her eldest daughter, Marjorie Oulton, to Clifford Magnus Straus of Los Angeles, California, N. B., and a sister, Mrs. Whitney Lamb of Reeds Point, Kings county.

JEREMIAH DRAKE MABIE.
At Perry's Point, Kings county, Jeremiah Drake Mabie passed away on April 29, 1921, aged sixty years. He is survived by his wife and daughter, Mrs. William H. Daniels of Kingston, N. B., and a sister, Mrs. Whitney Lamb of Reeds Point, Kings county.

GEORGE WALLACE LYON.
Many friends of Mr. and Mrs. James Lyon of 194 Millidge avenue, will extend to them deep sympathy in the loss of their little son, George Wallace Lyon, aged five weeks, who died yesterday morning. Rev. F. S. Dowling conducted funeral services at the parents' residence last evening, aged twenty-eight, was taken by train to Armstrong's Corner, Welsford, for burial.

TO DORCHESTER.
James McDonald, who was found guilty of theft and sentenced by Judge Barry in Welsford on Saturday to seven years in Dorchester penitentiary, and Rev. Charles Steves, a Pentecostal minister, sentenced at the same time to fourteen years, were brought to the city last night and taken to Dorchester on the late train.

TO LIVE IN BOSTON.
Miss Mary E. and Miss Kate E. McGaffigan, daughters of the late Dennis McGaffigan, who have resided in the city for the last seven years, left yesterday for Boston, where they will reside in future. Miss Kate E. McGaffigan intends to continue her classes in voice culture and elocution. Their many friends in the city will regret their departure.

ON THE RIVER.
The steamer Majestic left this morning for Fredericton in place of the steamer D. J. Purdy, which is not yet ready for service. The latter has been undergoing extensive repairs and is expected to be in readiness to start on the main river route by Friday morning. The steamer Dream is replacing the steamer Ocean on the Indianwells-Wickham route until the latter had some necessary repairs made to her engine.

NEW METERS.
Two new Venturi meters and two recording devices for the city water department were brought to the city today. The meters will be used on the new Spruce Lake Line, and the recording instruments on the Loch Lomond mains, replacing two now in use there. The meters will measure the rate of water passing through the mains while the recording device, by means of an ink pencil, will make a continuous automatic record of the flow of water in gallons at all times.

TO ATTEND BROTHER'S WEDDING.
Miss Lillian Garnett of Silver Falls will leave tomorrow evening for Winnipeg where she will attend the wedding of her brother, Fred Garnett, which will take place in that city on May 11. On Saturday an account was published of a farewell presentation to Miss Garnett by the firm and staff of F. A. Dykeman & Co., and a farewell party at the home of Mrs. J. Needham on Friday night. A misconception of the idea of the gathering caused it to be published that Miss Garnett's mission to the west was to be married herself, but it is to her brother's wedding that she is going.

BURIED TODAY.
The funeral of Sister Mary Clothilde was held this morning from St. Vincent's chapel, Cliff street, where high mass of requiem was celebrated by Rev. Raymond McCarthy, Rev. W. Duke, Very Rev. J. J. Walsh, V. G. D. P., Rev. A. W. Meahan, D. O., Rev. James Woods, C. S. R., were the officiating. His Lordship Rt. Rev. E. A. LeBlanc gave the final absolution. Rev. W. M. Duke said the prayers at the grave. Interment was in the new Catholic cemetery.

TO PRACTICE LAW.
Captain Hermann S. Murray who has been in the city for the last five years, employed on the staff of the local military headquarters and later attending Kings College Law School, is leaving today for Chatham where he will practice law in the office of Hon. Robert Murray. Captain Murray went overseas with the 86th Battalion and served in France with the Fighting 26th. He was invalided home after being severely wounded at Vimy Ridge. During his stay in the city he made a host of friends who, while regretting his departure from St. John, will wish him all success in his new field.

"Tens" Hear Reports And Choose Officers
The Douglas Avenue Christian church "Tens" met last evening at the home of Mrs. James Gorham, 185 Douglas avenue. Reports of the officers showed that the "Tens" had raised \$207.30 during the winter months. The election of officers resulted as follows: Honorary president, Rev. J. C. B. Appel; president, Miss Edna Logan; vice-president, John McEachern; secretary, A. K. Treacartin; treasurer, Miss Hilka Williams; executive committee, Miss Gladys Coleman, Mrs. C. McEachern, Miss M. Treacartin and James McEachern and H. McEachern and executive officers.
The following programme was carried out: Piano solo, Miss Augusta Treacartin; solo, William McEachern; selection, the McEachern male quartette; vocal solo, Miss Margaret Treacartin.
During the evening a "water" shower was tendered to Mr. and Mrs. Henry McEachern. Dainty refreshments were served and a vote of thanks was tendered on behalf of the society by Rev. J. C. B. Appel to Mrs. James Gorham for the kind hospitality extended. The pleasant evening was brought to a close by the singing of the National Anthem.

NO NEED TO LOSE TIME IN CHASING AFTER FASHIONS

There is a young lady stenographer in one of the down-town law offices who took a sudden dash into the morning to keep pace with the fashions, with the result that, when she left for lunch today at noon, she was carrying her hair in the approved "bobbed" style. The operation took place at one of the windows of the office and it was not until the deed was done that she realized that the execution had been witnessed by a fair gallery of spectators across the street.
Seated with her back to the street, a towel was placed across her shoulders and with the aid of the office scissors, two of her female associates snipped the raven locks which were once twisted in a neat "pig" at the nape of her neck. She was a willing victim, however, and the job accomplished, she resumed her stenographical duties.

OUT LATE AND SCANTILY CLAD

Case of Wiley Brewster in the Police Court This Morning.
Wiley Brewster, aged twenty-one years, was charged in the police court this morning with wandering about and not being able to give a satisfactory account of himself. Policeman Quinlan said that he had found the accused wandering about in Brussels street at 120 o'clock this morning and that he was scantily attired. He said he was not wearing any garment above the waist and that his shoes were unlaced. The defendant, when questioned by the policeman, said that he had just left his home at 88 Brussels street, and that he was merely going out to get some cigarettes. The witness said the accused's father told him that he had not seen his son since seven o'clock on Monday night. On searching the accused, the witness said he found on him a tin of tobacco and a package of cigarettes. The case was postponed until tomorrow. Two men charged with drunkenness pleaded guilty and were remanded.

WANTED DADDY BUT AT WRONG DOOR

In the confusion attending the moving day proceedings yesterday, four little tots, ranging from four to six years, wandering away from their new homes last evening and were eventually rounded up at the police station, where their anxious parents found them. The adult men charged with drunkenness were evidently so busily engaged in getting their belongings transferred and were unable to watch their children, who apparently did not like the strange surroundings and sought the haunts they knew. One little fellow, only three years of age, rang the door-bell of a strange house and asked for his daddy. The residents could not get any information out of the little lad so the police station was informed and he was taken there in the patrol wagon. Later his anxious mother, after a fruitless search, got in touch with the desk clerk at the station and the 3-year-old was transferred to his home, evidently delighted with his first adventure "on his own."

GOVERNMENT TO MEET TONIGHT

Members of the provincial government will meet in Fredericton this evening. Amongst the matters to be taken up is the awarding of the contract for the construction of the power house at the hydro-electric development site at Musquash. C. O. F. Ross, chief engineer of the commission, will be in Fredericton in this connection this evening. Another matter which will be dealt with is an application from the town of Edmundston for an additional loan of \$75,000 under the housing act. E. S. Carter, secretary to Premier Foster, and Dr. W. S. Carter, chief superintendent of education, will leave for Fredericton this afternoon.

AWAY ON VALLEY ROAD BUSINESS

Hon. W. P. Jones, K. C., president of the St. John and Quebec Railway Co., Ltd., has gone to Toronto in connection with the running rights of the Valley railway over the G. F. R. Lines between St. John and Westfield. On his way home he expects to argue the appeal before the Supreme Court of Canada in the case of the railway against the Bank of British North America. Dr. F. R. Taylor, K. C., of this city, will represent the bank.
On his return from Ottawa, Mr. Jones will take up with the Provincial Trust Co. the matter of closing out the trust fund account in that company's hands and transfer it to a trustee in the province of New-Brunswick.

SOME WANT OLD TIME IN CAPITAL

Fredericton, N. B., May 3.—A petition, signed by 1,122 citizens will be presented at a meeting of the city council tonight against the action of the council in making daylight saving effective in Fredericton.
What action will be taken should the city council decline to rescind the daylight saving time order will be decided at a future meeting. There was some reference to an injunction and it was suggested that some of the people would refuse to conform to the change in time and be ordered to do so by the city council.

MAYFLOWER AT SHELBURNE

Shelburne, N. S., May 3.—The schooner Mayflower, possible American contender for the championship of the North Atlantic Biting Fleet in the schooner races off Halifax next fall, arrived here yesterday, enroute to the Magdalen Islands. The Mayflower set sail from Essex, Mass., on Friday with the new schooner La Duntun also a possible contender for international honors. The Mayflower beat La Duntun into Shelburne by about six hours.

A WIDE DIFFERENCE.
Warsaw, May 3.—The Jewish newspapers estimate that there were 500 casualties among Jewish socialists on Sunday resulting from clashes with the police. The Polish newspapers estimate that about twenty persons were hurt during the day. The police contend that the Jewish estimates are exaggerated.

Floor Covering For the New Home

You'll Find Us Well Prepared

Now that you are in the new home, there are no doubt rooms that require absolutely new floor coverings. The old from the former home is too small or of the wrong shape. This of course means a trip to Everett's—if you are particular as to quality and reasonableness in price.

Matters not whether the demand is for some piece of linoleum, small rug of the most pretentious square, this store is more than equal to the demand.

Will you let us show you the line? No obligation entailed in a call naturally.

A. Ernest Everett THE HOUSE FURNISHER
 91 Charlotte Street
