HUNDREDS GO BACK TO WORK IN MANITOBA

Gradual Settlement of Tie-Up

ARBITRATION CONFERENCES ON

A Demonstration Yesterday But Disorder - The Situation in Toronto, Edmonton and in British Columbia

Winnipeg, May 31—With arbitration conferences actually under way on the basic industrial dispute of the general strike—the walkout of the metal trades—and hundreds of employes returning to work, gradual settlement of the civic and industrial tie-up, which has been almost complete since May 18, was beginning today, according to government officials.

Edmonton dispatches indicated resumption of public service functions is now complete there, although strike headquarters asserted workers in thirty-two trades were still out.

Votes on a general strike now being taken at Vancouver and Victoria, British Columbia, will be completed and announced within a few days.

Though the first outward demonstration of disaffection occurred in Winnipeg yesterday in a parade of veterans and strikers to the parliament buildings, no disorders occurred. The veterans promised to return again today to insist on speedy action to legalize collective bargaining, one of the chief points sought by the metal trades in their walk-out, which precipitated the general strike.

When members of the railway brotherhood succeeded in beginning the first arbitration conference to replace striking workers generally slackened, except in the police, fire and postal services. Officials of the dominion government warned maintenance of way employes in Winnipeg and the west not to consider sympathetic strike votes or attempt to walk out in violation of their contracts.

Ottawa, May 31—Sir Robert Borden has replied to a telegram in which the Toronto central strike committee drew attention to the declaration of principles relating to labor embodied in the peace terms and asked: "Why is common labor forced to strike to obtain what we understand was internationally recognized?" The premier's message reads as follows:

"The position of the government was fully explained to the delegation from Toronto, as well as in my observations in the House of Commons on Tuesday last, copy of which is being forwarded by today's mail. I made it clear that the federal government favors a full recognition of labor as well as the fullest discussion of all differences between employers and employes. The hours of employment and the conditions of labor have been the subject of provincial legislation in every province in Canada, with the possible exception of Prince Edward Island. The dominion government recognizes the principles embodied in the peace terms insofar as they come within the jurisdiction of the federal parliament, and is prepared to submit measures for the purpose of carrying them out."

In Toronto, May 31—Scarcely a ripple of excitement marked the first day of sympathetic strikes in this city. Except for more knots of idle men at certain points than usual, especially in the vicinity of the labor temple, the fact that several unions were on strike might have been noticeable at a distance.

It is said that the men on strike yesterday numbered between 7,000 and 8,000, that 233 factories were closed and fifty garment workers' shops idle, besides about forty building operations being seriously hampered through the strike of the carpenters.

A convention of organized labor has been called for Saturday night, when the question of calling out more unions will be decided. It is proposed to add to the strength of the sympathy strike day by day until the full force of dissatisfied labor may be felt by the employers. Just how long this will take cannot be ascertained at present.

Out in Montreal, Montreal, May 31—About 1,000 boiler-makers and iron ship builders employed by the Canadian Vickers Company, Limited, walked out of their shops yesterday. This is said to be in protest against alleged delay in negotiations between the workers and the company. The men involved in this action, which they do not wish to be regarded in the light of a strike, are not affiliated with the Marine Trades Federation, which, early this week, agreed to defer any action until they learned the result of negotiations to which the company had agreed.

The barbers have decided to go on strike on Monday morning. A committee of five employers offered the men \$17 a week and fifty per cent of receipts over \$25 weekly; this contract is held good for two years. The employers also asked that the men sign an agreement for a like period to the effect that they would not ask for an early closing clause. The barbers, believing that early closing is to become law at an early date, refused. The proposals of the masters were agreeable to the men but they say that many of their employers had not dealt with them in good faith, and that those of the master barbers who are acting in good faith will come to the Labor Temple on Monday morning to sign the union's contract and take their union shop cards.

In Vancouver, Vancouver, B. C., May 30—If Vancouver is to suffer a general strike it will take effect at 11 o'clock on Tuesday

RIBOT FAINTS IN FRENCH HOUSE

Aged Former Premier Overcome While Making Speech in Chamber of Deputies

Paris, May 31—(By the Associated Press)—Alexandre Ribot, former premier and foreign minister and long identified with the political affairs of France suffered a fainting spell during the discussion of financial matters in the chamber of deputies yesterday but later recovered sufficiently to continue his address.

He had been speaking but a short time when he was compelled to stop for rest. On resuming, he fainted and was unconscious for several minutes. In spite of his seventy-seven years and the oppressive heat of the chamber, he pluckily took up his address when he recovered, but was compelled to stop speaking.

M. Ribot said that the country wanted to know what Germany was going to pay, and that the peace terms would be realized by the Allies of France the principle of financial solidarity accepted by them in 1914 and 1915. He said that the federal government would favor the reparations Germany owed France.

The line has bought the steamship Lady Gwendolen from the British and Irish Steam Packet Company and she will be put into service as soon as she arrives from England. A fortnightly service will be maintained with the Lady Gwendolen until a new steamship can be built, when weekly sailings will be resumed.

morning, June 3. This is the decision of a strike committee appointed by the Trades and Labor Council. But the decision of organized labor in Vancouver as to advisability of calling a sympathetic strike cannot be known until Friday evening at 9 o'clock, the hour set for the return of the strike vote.

Winnipeg, May 31—At a general conference of officials representing all the railways having headquarters in Winnipeg yesterday it was decided to issue a notice to all employes on strike that unless they report for duty not later than ten o'clock Monday June 2, they will be considered as having left the service and their places will be filled.

Toronto, May 31—The following statement was given out at the head office of the Canadian National Railways today:

"Officers of the Canadian National Railway explained at noon that the Toronto general strike order had not interfered with the operations of the company up to that time and expressed confidence that all the men would remain loyal in the interests of public service. The men of the C. N. R. express service at Toronto voted at a meeting this morning to stay by their jobs in the public interests, so that company services are being carried on as usual."

"The sleeping and dining car services out of Toronto on the Canadian National Railway have not been affected by the Toronto strike order and the situation as brought out by the Winnipeg strike order which affects the services between Toronto and Winnipeg is being rapidly restored to normal."

Acute in Mines

Cobalt, Ont., May 30—The labor situation in the mining camps is acute, according to reports here today. At Kirkland Lake, the miners' union has presented demands for a forty-four week recognition of the union and a minimum wage of \$4.50 per day. Ten days have been given the operators in which to consider the demands. A meeting arranged for last evening has been postponed until Tuesday next. Nothing official has been done yet in the Cobalt, Porcupine or Gowganda camps, but a meeting of the local union has been called for Sunday evening and similar action to that at Kirkland Lake will be taken in the other camps immediately.

Victoria, B. C., May 30—E. S. Woodward, president of the Victoria Trades and Labor Council, which has called for a vote on a general strike, declared today that he thought all the well-organized labor unions here would vote to strike.

Mr. Woodward telegraphed Premier Borden stating the government's mishandling of the Winnipeg strike alone is responsible for the spread of the general strike to the coast cities. The situation here is most critical. Urgent immediate steps to avert the ruin of Canadian industry life."

Urges Try-Out Before Tying Over Others

Quebec Board of Trade Resolution on Government Operation of Railroads

Quebec, May 31—Urging that the federal government give a thorough trial to the railways nationalized up to the present before taking over any others, the Quebec board of trade yesterday afternoon passed the following resolution:

"That the president be requested to write to the Right Hon. Sir Robert Borden, prime minister, stating that whilst quite understanding that urgent reasons compelled the government to take over and operate the National Transcontinental Railway and the Canadian Northern Railway, the Quebec board of trade would respectfully suggest that it would not be wise for the government to take over and assume the indebtedness of any other railway at least until two or three years' trial of the numerous losses sustained by the government of the United States in operating the railways of that country, even with increased rates, and in view of our own experience with the Intercolonial."

An opportunity to ascertain, by a little delay, would seem prudent in view of the enormous losses sustained by the government of the United States in operating the railways of that country, even with increased rates, and in view of our own experience with the Intercolonial."

SWISS ARE OBJECTING

Berne, May 31—The Swiss federal council today gave out a statement in which complaints made that Switzerland has been unable to obtain from the Allies modifications of the blockade of Germany, the maintenance of which, it said, is causing the death of a million "more untenable position."

The statement gives the text of a note which has been formally demanding that the blockade be raised insofar as it concerns Switzerland, and saying, in case the request is not granted, Switzerland "will find it necessary to recover her liberty of action."

MEET WITH NEW FACES ON THE ARAGUAYA

Hundred and Fifty-Four Who Were Under Wonderful Operations

CHAPLAIN FROM ETAPLES

Was Through Bombing There When 400 Were Killed by Germans on One Night—Some St. John Men on Ship

Portland, Me., May 31—One hundred and fifty-four of 770 wounded Canadian officers and men who arrived here late yesterday from Liverpool on the hospital ship Araguaya are the residue of the face and jaw cases of Canadians in England. Faces generally all are in process of transformation by the grafting of flesh from their heads or bodies. They are being transferred to St. Anne de Bellevue Hospital, near Montreal, where special arrangements have been made for their care.

A large holiday crowd greeted and cheered the returning Canadians at the docks. A band was there as usual, playing on the pier until the ship docked, then on board; also many Red Cross, Salvation Army and other workers, as well as representatives of the Canadian Red Cross.

Among the sixty-three officers was a chaplain who served four years abroad and was decorated at the Etaples, France, hospital while it was repeatedly bombed by German airplanes in May, 1917. Four hundred were killed on the first night, Whit-Sunday.

"In spite of the horrors of this experience, there was a bright spot, the wonderful behavior and spirit of the men," said the chaplain, who requests that his identity be not made known. "We come back optimistic men," he said.

Among those on the Araguaya were Pte. E. J. Nicholl of 61 St. Patrick street, Pte. W. G. Kelly, 278 Westworth street, Pte. R. D. Lynch, 117 King street, east, Pte. L. C. Ingraham, Haymarket square, and Pte. F. W. Hunter, 207 Newman street, St. John. They were expected in the city today.

Speaking to a Times reporter this morning the board of trade, who are of the opinion that the C. P. The matter has been taken up with the government, but they, too, were unable to do anything to help the situation. It is expected that the service will be resumed by the Empress within a week or two.

The matter has also been receiving the attention of the board of trade, who have suggested several boats, but so far none of the vessels suggested has been secured.

SETTLEMENT OF HALIFAX STRIKE NOT IN SIGHT

Halifax Chronicle: There was absolutely no change in the strike situation yesterday. The building contractors met at the board of trade in the afternoon, but held on communication with the strikers yesterday. Some work is being done by non-union men throughout the city.

The workers have now been "out" for over four weeks, and a settlement is apparently as far away as ever. In the meantime the building operations in Halifax are practically at a standstill, and the housing situation grows worse.

ORDERS RELATIVE TO SARDINES AND CANNED SALMON

Ottawa, May 31—Firm measures to ensure the consumption of first class Canadian food in Canada, which was in danger of being left out of the market, has been taken by making it imperative that individual licenses must now be obtained from the Canadian Trade Commission, Ottawa, to import either sardines or canned salmon into the dominion. There are about 300,000 cases of forty-eight pound cases of salmon being imported into Vancouver. These are in excellent food as high in nutritive value as salmon from any part of the globe but owing to light color and importation of pink fleshed varieties of lower nutritive value had commenced to be made, simply to satisfy the taste of the public for pink rather than white fish which has been stimulated in the last few years.

There is a glut of Canadian sardines and 40,000 cases of twenty-five pound cases, beyond immediate demand, await a market and the canneries of the Atlantic coast will probably remain closed until July 1, throwing 3,000 people out of employment for two months over normal times. The Canadian Trade Commission will endeavor to find a Canadian market for these Canadian fish.

The Right Way To Cook Macaroni FIRST - Be sure you get Catelli's. There can be no mistake then. It is the best Macaroni made. Contains nothing but milk and the finest Semolina Wheat Flour, richest in the body-building gluten. Made in a factory which is the very embodiment of cleanliness. Always sold in sealed packages. You cannot buy better food. CATELLI'S MILK MACARONI NEXT - To a saucepan, on the fire, two-thirds full of water, add a level tablespoonful of salt for each quart of water. A half-tablespoonful of butter may be added. This improves the flavour. When boiling fast, throw in the macaroni. Boil until it yields easily to pressure between the fingers. Drain in a colander. Rinse thoroughly in cold water in which it should remain until you are ready to finish it according to any given recipe. This recipe applies to Catelli's Spaghetti and Ready-Cuts, also. Our new Cook-Book, with 115 splendid recipes, free on request. Try this recipe from it - MACARONI OR NOODLES WITH MOLDED HAM 1/2 package Catelli's Noodles, 1 cup dried cooked ham, 1 teaspoonful poultry seasoning, salt and pepper to taste, 2 cups unflavored gelatine, 1 tablespoonful ground cheese, parsley. Mix the ham with the seasonings, then turn it into a wet mold; strain the gelatine and let stand to become firm. Press out noodles by boiling and let cool. Turn ham on to a dish, surround with noodles, sprinkle over with the ground cheese, and garnish with parsley. The C.H. Catelli Co. Limited MONTREAL You can plan a lot of good things to eat with Catelli's Macaroni.

The Evening Times and Star

ST. JOHN, N. B., MAY 31, 1919

UNREST AND PROGRESS.

Social unrest is not an unhealthy sign. Because man has never been content with his lot the race has progressed from one stage of civilization to another.

There is to be a special committee of the house of commons to study the high cost of living in Canada. There has never been a dearth of commissions on this subject, but when is the cost of living to be reduced?

AND NOW TORONTO.

Discussing the situation in Winnipeg the Toronto Globe indulges in sharp criticism of the extremists on both sides. We quote: "In Winnipeg the obstinacy of three iron masters, heads of establishments employing men in the metal trades, in refusing to recognize the right of the men to collective bargaining, blocks a settlement of the labor troubles, and has been used as a strong argument by those who approve sympathetic strikes."

These comments of the Globe and Star were made some days ago. Now Toronto itself has a strike on its hands and the situation grows more interesting.

Toronto Globe: One of the greatest of the "inequalities and injustices" Sir Robert Borden speaks of as existing in Canada is that which enables profiteers to shelter behind a forty-two and a half per cent tariff on not a few of the necessities of life.

The season thus far has been fairly favorable for the farmers, and seeding is well advanced. The outlook for fruit is said to be unusually bright.

If not at Versailles, then at Berlin, says Mr. Lloyd George, referring to the signing of the treaty by Germany. That is plain talk, and it has behind it the iron hand of Marshal Foch.

The strike situation in Winnipeg has improved. If the sympathetic strike there is called off the conditions in other cities will soon get back to normal.

FINE ENTERTAINMENT IN TRINITY SUNDAY SCHOOL.

The annual entertainment of the Wilmsted school was held last evening in the upper hall of Trinity church Sunday school and was an elaborate and ambitious one carried through with perfect success.

Salmon Angling.
Campbellton Graphic: The salmon angling season opened with a rush when four salmon were caught on the lower Restigouche Salmon Club waters by John Bain and Jas. McLeod on Tuesday. These weighed twenty-one, two, twenty-eight and another twenty-nine pounds. On Wednesday these fishermen caught three weighing twenty-three, twenty-eight and thirty pounds. Mr. Beaman caught a thirty-one pounder at his pool yesterday. This is considerably earlier than usual.

Maritime Labor Bureau.
Moncton Transcript:—The Maritime Labor Bureau is to be established in the city of Moncton. General Superintendent Hereford was in the city today completing arrangements. It is understood that the office will be on Main street, near the post office. This will be entirely separate from the Dominion provincial Bureau on St. George street.

Godkin-Smith.
At the Brunswick Street Baptist parsonage, Fredericton, on Wednesday, Rev. G. C. Warren united in marriage Roy W. Godkin of that city and Miss Babel E. Smith of Harvey Station.

The Lumber Mills.
Both mills of the Pelepscot Paper Company at Big Salmon River and at Martin Head are cutting. At Salmon River both rotary and pulp saws are cutting and at Martin Head pulp saw only.

Do you shave with a saw?

FOOLISH question No. 1199! Well, maybe it sounds like that. But compare for a moment the illustrations above. They show pretty well what we're driving at; that is, unless a blade is stropped regularly it develops an edge very like a saw and causes that "pulling" and after-smarting of which you complain.

Not so with the Auto-Stop Razor. For the self-stropping feature, you see, reforms the saw-like edge that results from shaving; it keeps the blade free from rust, and it provides you with a sharp blade free for every shave. The beauty of it is you don't have to remove the blade from the razor to sharpen it, nor do you have to take the Auto-Stop Razor apart to clean it. From first to last—stropping, shaving and cleaning—the blade remains in the razor.

Consider then the greater comfort, convenience, economy of the Auto-Stop Razor. How small the price of \$3.00 for razor, strop and 12 blades, looks in comparison!

A SLUGGISH LIVER CAUSED SEVERE HEADACHES

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleaning it of all impurities and poisons.

Healthy bile in sufficient quantity in Nature's provision to secure regular action of the bowels, and when the liver is sluggish it is not working properly, and does not manufacture enough bile to thoroughly act on the bowels and carry off the waste products from the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in, followed by sick and bilious headaches, coated tongue, bad breath, heartburn, water brash, bad taste in the mouth in the morning, jaundice, floating specks before the eyes, etc.

Milburn's Lax-Liver Pills gently un-lock the secretion, clear away all waste and effete matter by acting directly on the liver, and make the bile pass through the bowels instead of allowing it to get into the blood.

Milburn's Lax-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THRILLS IN ACT AT OPERA HOUSE

Marvelous Work of Knife-Thrower -Miss Arline Lloyd a Feature of New Programme

Did you ever go to a real old-fashioned country fair, wander down on the Midway, and try the knife board-one of those boards with rings and numbers painted on it? You have three chances of throwing a knife and if you happen to stick the knife into the lucky ring or number you get a prize. What would you think if you were handed a dozen or so big knives, sharp as razors, and asked to throw them at a human target? There is a chap at the Opera House who does this-he throws them at his wife, although he has nothing against her and they never quarrel. Still he places her up against a big board, stands off about a dozen feet, and just whangs those big meat cutters into the board all around her-even pins her there so she cannot stir, and everybody holds their breath until she shouts to show she is safe. He even covers her over with a large sheet of paper, blindfolds himself and with unerring aim outlines her right against the board.

A short explanation just before the exhibition tells us that he is a genuine Aztec, one of the old original races in Mexico, and although he does not look like it is said to be more than sixty-five years old. The fact that he acknowledges playing in St. John more than thirty years ago with the Pawnee Bill Wild West speaks for itself. If you want a real thrill he will furnish it.

Local interest last night centred on the appearance of Miss Arline Lloyd and her partner, Voltaire, in a musical comedy which was classy, refined and scored a real big hit on its merits, aside from the fact that Miss Lloyd is so well known in St. John musical circles. If you like real good things in the musical line, this offering will furnish a delightful treat.

Seymour's Happy Family, eighteen cute and clever little doggies, romped and played, did a number of amazing stunts. The clown dogs put everybody in a good humor; some of the dogs play on musical instruments and others sang in dog language of course, and altogether the Family spoke for wonderful patience on the part of the trainers in bringing them to such a high degree of excellence.

Harry Leyden, in Scotch songs, stories and a good dance caught the fancy of the audience in good shape and got away with a good sized hit.

Fritcher and Wood, two jolly sailor chaps, danced, sang and joked away and had the audience in roars of laughter from the start.

The opening chapter of the new serial, "The Tiger's Trail," gave promise of an absorbing story of romance and adventure and leads up to a startling suspense situation at the finish that makes one really want to see the next chapter, for Ruth Roland, the heroine, is left in a very tight fix and it is going to take some ingenuity on the part of the director to extricate her.

NEW TAXES WILL ADD TO COST OF LIVING Paris, May 30-(Havas)-The new taxes proposed by the government will greatly increase the cost of living, according to a statement by Raoul Peret, president of the budget committee of the chambers of deputy to the excelsior. The proposed fiscal duties, he said, will aggravate the problems brought forth by demobilization and cessation of the mo-

torium. The Journal in discussing the budget proposals, makes a comparison between the French and German budgets, which shows that each German will pay 245 francs, while each Frenchman will pay 220 francs. Sir Barton Is Gaining In Favor

Canadian-Owned Horse Compared With The Great Colin and Sycoby

New York, May 29—Sport writers of the Metropolis are awakening to the great possibilities of Sir Barton, J. K. L. Ross's sterling three-year-old performer. His steady capture of feature races is being commented on widely in New York sporting pages. James P. Sinnott, in the Evening Mail, today says: "J. K. L. Ross' Sir Barton is the new idol of the turf. It would not be surprising if he soon attained a place in the affections of the racing public such as Sycoby and the mighty Colin held in the olden golden days."

Local turf enthusiasts, of course, had read of Sir Barton's great victories in the Kentucky Derby, and the Preakness. But they had not seen him on a local track since he ran second to Dunboyne, in the Futurity of 1918, until he went to the post in the Withers on Saturday, at Belmont Park.

There were many who were skeptical of the greatness of Sir Barton, despite his two victories in the biggest three-year-old races of the spring. There

was a hot tip around Belmont Park on Saturday that Eternal would come through and take the Ross star's measure in the Withers.

The general public, however, had faith in Sir Barton and even greater faith in Johnny Loftus, who was to ride him. Sir Barton closed at 7 to 20, while Eternal was 8 to 1.

As the race was run, it is hard to say whether Sir Barton or his great jockey deserved the public's confidence the most. Sir Barton ran a wonderful race. But he was superbly handled all the way by Loftus.

Loftus was certainly a much better rider than Schuttlinger, who rode Eternal in the Withers, than Sir Barton was a better horse than the McClellan star. In the first place, despite the fact that the field was small and that he had the good fortune to draw the rail position, Schuttlinger was asleep on Eternal when the barrier went up. He, therefore, had to rush Eternal along at the start in order to avoid losing the rail and getting shut off on the turn.

Loftus, on the other hand, broke Sir Barton in front of the field. Then, when Eternal came sprinting along he ratted the Ross colt in second place until the head of the stretch. As soon as Johnny called on Sir Barton he went to the front. He was fresh and full of running, as the fact that he finished the mile in 1:38-4/5 over a slow and sloppy track will attest.

One of the most interesting features in the May 31st issue of The Literary Digest is a full-page colored Map showing the new Germany as it will be after the Peace Treaty is signed, and the old Germany as it was before the war. The Map clearly indicates the areas lost by the treaty, those to be awarded by plebiscite, and those to be made international territory. This map will prove invaluable as a present and future source of information and can be cut out and inserted in your encyclopedia, atlas, history, or other reference volume, where it will always be handy as a means of settling doubtful points.

A Word About the Editors of "The Digest"

The editors of most publications come into personal touch with the reading public through special articles, editorials, and so forth, in which they voice their individual views. Not so with THE LITERARY DIGEST, whose editorial policy is strictly impersonal, not a hint of the opinions of its staff on any question appearing in its columns. Nevertheless the editors of THE DIGEST are a very real and powerful influence in the community, because they determine the subject matter of the magazine from week to week and its mode of presentation. Always their study is to be impartial and self-effacing, yet they leave their expert mark on everything that they handle, for they are all proved experts, each in his particular field, whether it be politics, art, science, religion, letters, or what not. They give you of their best, seeking for no acclaim, but constantly striving to present for your consideration all the news in all its bearings. Their quiet work gives THE DIGEST its acknowledged unique distinction.

WHAT THIS OLD ENGLAND WAS

Of our forefathers, nine out of ten lived in the rural parts; and the remainder, the busiest and the best of English humanity, in towns whose darkest lane was never a mile from the orchards round the town, so that the recreation of the city dweller was by the hedgerows and river banks. . . . The spring and the winter came unsought into every man's life, not as they come today, wayfarers bewildered among the housetops, feebly wh spring of unknown things in far salubrious lands, but fresh with bursting bough or strong in glowing frost. The thoughts of the "Allegro" and "Il Penseroso" are indeed the thoughts of a rare mind, but the most vulgar slave of custom enjoyed in the days of King Charles the conditions of daily life which Milton there described; the sweet influences of the seasons had their effect. . . . Whether they knew it or not, the Cavaliers drew their charm from the fields, and the Puritans their strength from the earth. . . . What this old England was can still be seen and felt in the combs and on the round hills of Somerset and Devon, in the wooded lands over which Malvern looks to the west, and in the broken valleys that lead the lake mountains down into the sea.—G. M. Trevelyan.

"Jack, dear, before our wedding I wish you would see a doctor?"

"Why should I I am well except for a touch of dyspepsia."

"That's just it. I'd like you to get a certificate from him which would show that your dyspepsia antedated our marriage."

NATIONAL MOTOR TRUCKS

You Find Them Everywhere

In every part of the Dominion you find manufacturers, merchants and farmers increasing their haulage and delivery efficiency with motorized equipment, and "always" you will find that the "National" is in favor.

National owners appreciate the importance of having a truck that does not call for constant mechanical attention—a truck that will meet every stress and strain put upon it, in all kinds of weather, on all conditions of roads. They recognize that there are dominant advantages of the National.

The outstanding difference in the National is not only a matter of structural detail, but one of fundamental principle, backed by an organization that is competent, trustworthy and inspired by a willingness to serve.

Compare National construction with trucks of similar capacity, and you will find built into this truck the strongest line-up of standardized units that the best engineering talent of the world has produced.

The National is built in six sizes—1 ton, 1 1/2 ton, 2 ton, 3 1/2 ton, 5 ton trucks and 6 ton tractor. Write for illustrated catalogue.

Farmers To Canada; Farmers from Canada

U. S. Dept. of Agriculture Thinks as Many Farmers go in From Dominion as Cross From U. S.

(Bangor Commercial) The old saw that the cheap lands of Canada are draining the United States of its farm population has been revived recently, particularly since the signing of the armistice. The statement gets printed, at one place or another now and then, that at least a million of America's best farmers have left the United States for Canada during the past ten years and a group of alarmists raise the cry that something be done to stop it. The United States Department of Agriculture finds nothing alarming in the situation. It does not give credence to the statement that the United States has lost a million farmers, or anything like it to Canada in ten years or at all. On the other hand it believes that at least

as many farmers have come from Canada to the United States as have gone from the United States to Canada. It looks for the cross movement between the two countries to continue, just as a very marked movement among the states themselves is always to be noticed. Comparable figures as to the number of United States farmers who have gone to Canada and of Canadian farmers who have come to the United States are hard to obtain, but such figures as are available seem to show a fairly even movement back and forth. The statistics of the Bureau of Immigration show the number of people who have gone from the United States to Canada from 1908 to 1918, but do not show what proportion of them were farmers. They do show, however, the number of farmers who went from the United States to all the rest of the world. That includes, of course, the United States, owned or worked on farms for a time and returned to their native countries. The figures seem to show that, while

There are five simple ways to tell good tea.

- First, by the bright copper color of the tea when steeped.
Second, by the exquisite aroma.
Third, by the delightful, refreshing flavor.
Fourth, by the satisfying richness.
Fifth, by the economical strength.
Make a brewing and you will find all these qualities combined in Red Rose.

Red Rose Coffee is as generally good as Red Rose Tea

General E. W. B. Morrison, C. M. G. D. S. O., who returns to Canada as one of the citizen soldiers who have risen to the highest rank by hard and successful work. Going over the top with the First Division in command of the First Artillery Brigade, he has seen the development of this arm of the C. E. F. in many striking phases, and so efficient has it become that during the past year or so reports which were furnished to the Imperial staff on request have been used as text books and standard works. Never during that period has the G. O. C. of Canadian Artillery been home, but he has stayed in France and has passed through every important action that the Canadians have fought. The Canadian Artillery had the task of advancing their big guns to the Rhine bridgeheads at Cologne and Bonn just after the armistice, and it was these heavy pieces of artillery which sobered the inhabitants of these cities as the ammunition was all ready to deal with any trouble. General Morrison was emphatic in his statement that the Germans had bluffed us as to food and finances, and declared that they would be able to stand the financial burden and that they are not going hungry at present. He held that any sign of relenting on the part of the Allies would be a fatal blunder.

Among interesting souvenirs with his kit was a Uhlan lance of such length it stretched across the stateroom. Commenting upon the work of the artillery corps, General Morrison said the best testimony to the efficiency of his officers and men had been in the fact that many references were made to Canadian operations in official reports of the War Office.

Barn and Silo Roofed with Brantford Asphalt Roofing. Resists Fire, Sheds Water, Wears Long

Flying sparks and embers from a burning building often cause roofs near by to catch fire, especially in a dry, hot season. Under like conditions, roofs covered with

Brantford Asphalt Roofing

are in no danger from flying embers, because any that fall on Brantford Asphalt Roofing die out harmlessly. Build a bonfire on a roof of Brantford Asphalt Roofing and the fire will not spread and the boards underneath the roofing will be protected in a surprising manner. If a fire starts in the interior of a building Brantford Asphalt Roofing acts as a retardant and keeps the fire from spreading. Fire chiefs and insurance companies endorse its use in the most congested cities. Brantford Asphalt Roofing does not absorb water, but sheds the heaviest rain with ease. Acid proof and alkali proof. Reliable, durable, economical. Three weights—60 lb., 70 lb., 80 lb. per square. Brantford Rubber Roofing is the same quality as Brantford Asphalt, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandah decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square. Leatheroid Roofing Slightly lower quality than Brantford Rubber Roofing. Good for same purposes. Has a leathery surface. Exceptionally used roofing at a low price. 35 lb., 45 lb., and 55 lb. weights. Standard Mohawk Roofing is made of the same materials as Brantford Asphalt Roofing, but is lighter in weight. A thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction. Sanded on one side. One weight—40 lbs. per square. Climax Sheathing Paper A tough kraft paper coated with high-grade asphalt. For making buildings damp-proof and wind-proof. Also for roofing temporary bunk houses, lumber camps, etc. Samples of any of these roofings and prices will be furnished on request.

considerable numbers of people have gone to Canada, the bulk of them have not been farmers. The largest exodus from the United States to Canada took place in 1911. The number of persons who left the United States for Canada that year was 49,873. The assumption doubtless has been that practically all these were farmers seeking cheap lands. But the number of farmers who left the United States that year for all places in the world was only 11,860, considerably less than one-fourth the number of people who went from the United States to Canada that year. Nothing like all of that 11,860 went to Canada. There is always a considerable back tide of farmers from the United States to Sweden, Italy, and numerous other countries, and many of these were included in the 1911 figures, similar figures for the past ten years follow:

Table showing immigration statistics from 1908 to 1918. Columns: Year, To Canada (All persons), To Canada (Farmers only).

According to these figures, then, less than 60,000 farmers left the United States for all countries of the globe during the decade when the alarmists claim 1,000,000 farmers left the United States for Canada alone. Of these farmers, a majority doubtless did go to Canada and it appears equally certain that a considerable number of men who had never been farmers in the United States acquired land in Canada. Canadian figures show that 64,124 Americans took up homesteads in Canada between 1906 and 1914. These figures, even if they were uncompensated by any movement from Canada to the United States, fail to justify the belief that the rural districts of the United States are being depopulated by removals to Canada. But there has been compensation. The United States commissioner general of immi-

gration has published the following figures on the number of immigrants leaving Canada for the United States: 1914-15 82,215; 1915-16 101,561; 1916-17 105,899; 1917-18 82,462; 1918 to Dec 31, 1918 82,446. Again, the figures do not show what proportion were farmers, but the Canadian superintendent of immigration made the statement in 1908, that 'about 10,000 farmers per year for the last five years have proceeded from Canada to the United States.' That is above the average yearly number of farmers leaving the United States for all countries.

FREDERICTON IN DANGER FROM FIRE

Gale Swept Sparks Far and Wide, Causing Many Blazes, But Actual Damage Was Comparatively Small.

Fredericton, May 30.—A large area of Fredericton was threatened by fire this afternoon, when a three-story double dwelling in Court House square was destroyed, together with neighboring structures. A northwesterly gale, with a velocity of some thirty miles an hour, was blowing and numerous houses in the path of the sparks and embers were set on fire. The most serious blaze set in this manner was the residence of Hon. O. S. Crockett, judge of the king's bench, George street, where the shingled roof caught, although half a mile from the principal fire. The fire at Judge Crockett's was extinguished with the damage confined to the roof. The dwelling in Court House square which was destroyed was owned by Fred B. Edgcombe and was occupied by Joseph Murdoch, a city employe, and Corporal A. Laviole, formerly of Woodstock, a returned soldier, with their families. Neither of the tenants had any insurance on household effects only a portion of which were saved. Mr. Edgcombe carried insurance on the building. A barn owned by J. H. McMurray, immediately adjoining the Edgcombe property and formerly owned by Dr. W. J. Weaver, was totally destroyed with its contents, which included two pianos and other furniture stored there. The building was insured. The damaged dwelling in Court House square, owned by Miss

LONDON DISCREDITS REPORTS OF MUTINY

Rome, Thursday, May 29.—(By the Associated Press.)—The Canopic, the best of the White Star Line steamers plying between Italy and America, is reported here to have been requisitioned by Great Britain for the embarkation of Indian troops in Southern Italy. Reports are that a mutiny has occurred among these troops.

The steamer Canopic, which sailed from New York on April 22, for Naples and Genoa, arrived at Genoa on May 10. There has been no subsequent news from her.

No News of Mutiny. London, May 30.—No news has been received in London regarding any mutiny among Indian troops in Southern Italy, as reported in a Rome despatch, and in view of other rumors which have come from Italy recently, which were found to have no basis in fact, this report is received here with some reserve.

New Brunswick troops they should be preserved as such, and not be treated as the colors of a battalion which never saw the front. This may be so in one sense, but scores of the 104th Battalion gave their lives for their country, as did the members of every other battalion which left this province. Therefore it matters little whether the 104th was a unit or not. In any case, if it be desired that these colors be taken as provincial emblems, it would seem that the legislative building in Fredericton might be a more desirable repository for them, and not the city of St. John. Moreover, the donors of the colors should have something to say as to this.

Sidelights On Sport

Yesterday was Memorial Day in the States and all of the clubs played double headers.

Chicago increased their lead in the American league by defeating Cleveland twice. This gives them a comfortable lead. Detroit gained considerably by winning a double-header from St. Louis.

In the National League New York kept up their string of victories by defeating Brooklyn.

In the International League the leaders remained in much the same position, as Toronto and Baltimore lost and won.

Now that Hank Gowdy is catching, Adolph is pitching good ball again. He hit out the Phillies and held them to five hits.

Alexander lost another start yesterday. He is working hard, but does not seem to be able to put much stuff on the ball. He will in all probability be strong in a few weeks.

Fairville came across with a surprise last evening by defeating the Y. M. C. I. team in the St. John league fixture.

The outlook is bright for all varieties of good sport for the holiday, June 3. Baseball games are being arranged, fishing excursions planned, arrangements made for a trap-shoot meets the golfers are getting ready for a few games over their course, track meets will be on the card and horse racing will in all probability be a feature.

The proposed athletic meet among the members of the various play grounds is a good one and should be carried out. It will increase interest for sport among the younger element and will be beneficial from many stand-points.

The local High School track team will await with interest the result of the meet at Rothesay next week, when a team from Hampton Consolidated School will meet the track team of Rothesay Collegiate School.

DENTAL TREATMENT FOR DISCHARGED MEN

WOLVES LED THE LAMBS TO SLAUGHTER

Leaders of North End League Defeat Makes Aggregation—A Good Game and Lots of Fun

The fans who assembled on Elm street diamond last evening to witness a game of ball between the Wolves, leaders of the North End league, and the Lambs, an aggregation of "kind of stars, saw an exhibition which will linger long in their memory.

The Wolves—Moher, Thompson, Latham, Rooney, McVally, Harris, Brasham, Burks and Clark. The Lambs—Doherty, Ramsey, Beattay, Hansen, Cooper, E. Cooper, N. Cooper, Veniot, O'Connor.

Moher and Thompson formed the battery for the winners and O'Connor and Doherty for the losers. John Armour officiated as umpire.

Notes After the Game

It was in truth a case of the Lambs being led to the slaughter. Lured on by the wily pleading of the management of the Wolves, Manager Beattay accepted a challenge and then went forth to select his team. He secured a bunch of "has-beens," "never were" and "never will be players and invaded the territory of the North End leaguers.

O'Connor showed good form, his style was perfect, his arm never better, but he lacked one thing that makes or breaks a pitcher—support.

The balls were driven to all corners of the lot with the besting lambs in pursuit. Veniot and Hansen gave a wonderful demonstration of their racing ability as they scampered over the field after the flying horse hide.

Callaghan, who had been in the game a couple of times for daring to dictate to the umpire. He said he was not struck out a couple of times and made dire threats against poor John Armour, but the latter posed like Napoleon, one foot forward, the head thrown back and his right hand—palm foremost—demanding a cessation of such language.

Beattay, evidently realizing his terrible mistake in lacking such a formidable aggregation, tried hard to make up for it by driving out three hits. As he

had done little or no sprinting for some years, he usually found Hansen and Veniot closing in on him as he neared home plate. A person not versed in baseball would have considered it a pretty good foot race.

The Cooper brothers, who only recently returned from overseas, are still looking for their manager to have a talk with him. They contend that hun shells never flew more directly at them, nor came with greater velocity than some of the pills driven at them by the Wolves. They were ducking, jumping, stabbing and running and had to be assisted home.

Doherty was a jewel behind the bat. He had to stop some of Oakey's fast breaking benders, direct the play of his select team-mates and incidentally assist in driving in some of the runs.

The Wolves' battery played an important part in the victory, and the hitting of their star sluggers completed the programme of revenge.

John Armour was a factor in the slaughter. The Lambs assembled after the game to pass judgment on him, but when they went looking for him he was reported last seen heading for the woods in the rear of Portland Place.

Frederick, N. B., May 30—The residence and barns of Stanley Clowes, at Oromoco, were destroyed by fire this afternoon.

CONSUMERS' COAL COMPANY SERVICE Goes Far Back of the Mere Delivery of the Coal by Team

It starts with the selection of Coal at the mine. The quality from all mines varies, some being good, others indifferent or very poor. At a cost of thousands of dollars and careful investigation, we have learned the best and most reliable sources of supply; and with this knowledge our Service begins. Coal cannot be selected with too much care.

Again, we place at your command, a large stock, comprising all sizes of Coal, at all seasons of the year. True, we can serve you more cheaply in summer than in winter, but, think of the convenience of our all-the-year-round Service.

Our facilities for taking the "raw" Coal, as it comes from vessels or cars, and screening out the slack and dust, so detrimental to a good fire, and giving it to you in absolutely the best condition, is another part of our Service.

Our Delivery Service—The above illustration represents the Consumers Coal Company delivery equipment in August, 1917, which has since been enlarged by three new horses and three new motor trucks, bringing up our delivery capacity to the householder to 125 tons per day.

MEETINGS OF I. O. D. E. LIVELY TO THE LAST
Spirited Time Over Re-drafting of Constitution—Next Year in Calgary

Montreal, May 31—Except for unfinished business, the convention of the I. O. D. E. came to a close here last night with the election of Mrs. John Bruce of Toronto to the presidency.

The closing day was marked by a spirited discussion on the re-drafting of the constitution when the legality of the procedure proposed was questioned. Opinions from Montreal lawyers were read and papers were prepared by one faction for service to restrain the I. O. D. E. from acting under the new constitution should it be adopted. It was finally decided to refer the whole question to the next annual meeting, which will be held in the meanwhile to be distributed to each of the chapters for study. The next annual meeting will be held in Calgary.

FINE SCHOONER BUILT AT CANNING; HITCH IN LAUNCHING

The Bigelow shipyard at Canning, N. S., the birthplace of so many fine ships, was the scene of an attempt to launch the Cape Blomidon, a beautiful tern schooner of 408 tons net register, built by Bigelow Brothers, whose work in this line is the successful continuation of three generations of builders. The Cape Blomidon is classed for twelve years, is iron keel throughout, and has hoisting engines. She will be commanded by Capt. Frank Barkhouse, and is owned by H. MacAloney and parties in Parrsboro. She will probably load deals in Parrsboro for England. The vessel started before the tide was at its highest, and lacking the necessary lifting power of the water, the weight of the ship crushed the piling and stopped the completion of a very pretty launch, to the disappointment of an immense crowd of spectators.

NOW A CASE IN QUEENS COUNTY

Recently the Times directed attention to the deplorable condition of a family of small children in Kings county. It is understood that the overseers of the poor are looking into the matter with the likelihood that the little ones will be eventually cared for in the Municipal Home.

Now comes word of a similar case from Queens county. There are three children whose mother is dead and whose father, for some reason or another, fails to support them properly. The little ones, it is said, are living in a lonely house at Capaan Forks, without care most of the time, and absolutely without education. It would seem as if the Queens county authorities ought to get busy in this matter if for no other reason than self defence.
