

He was the second son of Mr. and Mrs. Lewis Lunn, a bright light 5 years of age. The funeral was at the Methodist church on Thursday the service being conducted by D. R. Chabon of Florenceville. A little casket was a mass of flowers and the church was crowded, peacefully, thus expressing the sympathy of the community to the bereaved ones. Those attending the funeral from a distance were Mrs. Philbrook of Port Townsend, Barry Wakem of Perth, Heald to mourn, besides his parents, little brother, Stephen, Kendall Marshall, also his grand parents Stephen Gee and Mr. and Mrs. Lunn.

SPEECH OF S. J. BURLOCK, M.L.A.  
(Continued from page 1)

situation for various reasons. I am not of the opinion that it is the way the Government takes to shift a responsibility which rightly belongs to themselves off the Municipalities with the pious hope that the Government would never be asked for the money. In the first place it is optional with the Municipalities as to whether they will adopt the plan or not unless the Government binds them to do so by the same method that they use in raising the appropriation for the Health Act. Already, Sir, the Municipalities are complaining of being imposed upon by having to legislate in matters that belong to the local Government. In the second place it would defer the action so far in the future it would be to late to relieve the condition for which it was intended.

As the Municipalities have already held their annual meetings and no other meetings will be held till July next and even then if they did propose to adopt the plan by the time they issued the lands and money was realized many of our best farmers would be homeless and turned out on the road.

The emergency is now and the crisis is at hand and I contend that it is the duty of this Government to meet its emergency with constructive measures that will relieve the situation at once.

The Government claims that because of it being what it terms a local character that it should be handled by the Municipality. But we notice, Sir, that the Honourable Members for Kings, the mover of the address spoke of the agricultural depression that prevailed in the Province and also the Honourable Member from Madawaska referred to it so it would seem that this condition of affairs is quite general throughout the Province.

We know, Sir, of some large expenditures that have been made by the Government that might be justly termed of a local character, but Sir, for which to finance the credit of the whole province was pledged. Take for instance when the people of the lower part of the Province asked to have the Musquash power developed the Government did not say Yes Sir we will help you we will authorize your Municipality to borrow the money and you can go and develop your power. That was not the course they adopted on that occasion. They simply said we will go and furnish every thing and give you people cheap light and power which they immediately did. As far as the need of assistance is concerned.

I think, Sir, that the members of this House are all aware that probably never in the history of this province has there been such a widespread financial depression as in the past year and still maintains at the present time.

I believe that for various reasons that the farming industry is suffering to a far greater extent on account of this condition than any other industry in the province. I do not believe that the seriousness of the situation is realized by the Government, nor do I believe that the government has made any serious attempt to make any investigation. For several years in the past the government has through its department of agriculture been encouraging the growing of potatoes consequently the development of that branch of agriculture has been taken up to such an extent that practically all the land that was adapted to the growing of that product. The result is as no doubt you are aware, that for the past three years we have had an over production, which has caused the price to drop to a point which covers less than half the cost of production.

Another reason for the present financial crisis among the farmers is the fact that there was almost a total failure in the crop in the past season in this province. Most of the farmers only realized about 40 or 50 barrels per acre. Also for the reasons of having no home market for our potatoes we were forced to sell them on the open market of the world in competition with the other potato growing countries where labor and other things that entered into the production are cheaper. The consequence is that today the farmers are being persecuted and prosecuted by fertilizer companies forcing them to pay for a fertilizer, which in many cases, was worse than useless, as has been proved in the courts in more than one instance. The condition of things prevails to such an extent that many of our best farmers have been forced off their land, their property is sold, sold under an execution, the proceeds of sale in many cases do not pay half the cost of litigation. We are aware of the fact that when times were more prosperous their were cases of this kind; their were men who could not pay their bills and were always in financial difficulties, but as a rule they belonged to a class who made no great effort to meet their obligations. But the men who are now hit the hardest are the men who were the most industrious. The lazy man and the man who did nothing got by with very little loss. If the government had no knowledge of these conditions

there might be some excuse for their indifference, but such is not the case. The conditions of affairs which I have just outlined were presented to the government in the early part of the winter by a delegation of whom your humble servant had the honor of being a member. The only promise they received was a promise of consideration, and I really don't know whether they are still considering, or most likely they have considered it out of existence. In replying to the delegates the Honourable Premier said that he did not think that the financial condition of the Province would warrant borrowing a sum sufficient to finance the venture. Now, Mr. Speaker, if that is the case, if when the basic industry of the province was in a condition where it needed assistance and that assistance could not be given on account of the financial condition, I think, Sir, that the sooner the people of this province become aware of the fact the better. But Mr. Speaker, the inconsistency of that excuse is so obvious that we do not consider it a reason at all. We find Sir, that when the people of St. John said, "Monty wanted hydro the government found buyers for the bonds of the province which they issued and are issuing yearly for the same purpose. Yet this same government was not willing to advance money to aid the farmers and take a first mortgage of the first six inches of soil, but out of which Sir Thomas White, Ex-Finance Minister, said our national debt was to be paid from. The Hon. Premier also said that if the farmers were assisted in this way it threw the door open to other industries of the province to ask for aid. I take the ground that most of the other industries of the province have already had government assistance in one way or the other. Flour mills, and starch factories have been bonused, railways and steamship lines have been subsidized, which in most cases have piled up deficits and have added to the debt of the province. I have heard it repeatedly stated on the floors of this House by members of this legislature and of this government that there was no need of a farmers' party in the house, that the present government was willing and anxious to assist the farmers. But we find that when a real opportunity presents itself they fail to fill their promise.

This is not an untried venture, as the provinces of Ontario and Manitoba have a long term farmers' loan act, which is working out satisfactorily to the farmer and to the government as well. It gives the farmer cheaper money than he can obtain elsewhere and made a profit for the government of Manitoba over \$100,000 in four years.

The United States also has a federal loan act, and in the past year increased the appropriation for that department \$60,000,000.

Now, Mr. Speaker, according to statements made on the floors of this House by some of the Honourable gentlemen opposite, this government is trying to emulate other governments on the matter of provincial debts, hydro and health acts, why not go a little farther, if only imitation sake, and emulate Ontario and Manitoba in the farm loan act.

I would like to think that the government of this province is less efficient in handling matters of this kind than the other countries I mentioned. The legislature of this province has for years past been voting sums of money to assist in bringing in immigrants and no doubt will continue to do so in the future. Why not take this money and some more with it, and spend it in improving the rural conditions, that would tend to keep our own people in our own country.

The government who has 'red' the problem of how to hold its people have solved the immigration problem. I also noticed, Mr. Speaker, that on the same day that the delegation asking for aid for the farmers met the government another delegation asking the government to give assistance to the fishermen was also present. I am not aware of the amount of success which they had, but it came out in the paper the next day that the government promises to send a man down to investigate and to give them aid if it was needed. Their success might have been due to the fact that a gentleman who is sitting on the opposite side of the House was on that delegation. I am not finding fault with the fishermen asking for aid and I wish to congratulate them if they were fortunate to get it. The fishing industry is an important one. All our industries are necessary for the development of a country, but the farming industry is the essential one. I ask you, Sir, what will be the mainstay of this country when our lumbering resources have become exhausted? It is well known fact that since the size of the saw log has been reduced to a minimum and the cutting of lath and pulpwood has reached enormous proportions as of the past few years. Also when you consider the ravages of the "bud worm" I think, Sir, that you will readily agree with me that the end of our lumbering operations as a provincial industry are in sight. When this condition exists when our forest areas are nothing but a fire scar and our limited mineral deposits have become depleted. I ask you what will be the mainstay of this Province? I reply, Sir, the farming industry. The one industry that has made way for all other industries. I ask what would this Province have been like if it had not been for the early pioneers who came up the noble St. John river and endured all kinds of hardships and privations and hewed homes out of the wilderness and made those valleys and uplands productive.

With the exception of a few fishing hamlets along our coast and a fort and blockhouse at St. John it would be nothing more or less than a home for bears and wolves. We would have no lumbering operations because they would be no farmers to cut the lumber. We would have no saw mills because there would be no need for them. There would be no railroads because there would be nothing for the railroads to haul. Can you blame the farmers of this Province for asking for aid when they need it so badly? I entreat this Government in the name and for the sake of those early pioneers, for the sake of the men who

are being forced to leave their homes and their families being turned out on the road. For the sake of the farming industry in general. I urge upon you, Sir, to pass legislation in this session that will alleviate this condition of affairs.

I think that the decision arrived at regarding the University of New Brunswick was a wise one, and I join in the plea of the Honourable leader of the Opposition for an increased grant to that institution.

Any reduction in railway rates that the government is able to bring about will, I am sure, be welcome by the public and I am sure that they cannot be too zealous in their efforts in this respect. Until a reduction is effected the cost of living cannot be very materially reduced and the profits that rightly belong to the farmer will still continue to go into the pockets of the Railway Company. We find that it costs three times as much to ship a barrel of potatoes from Florenceville to St. John today as it did before the war.

Referring to matters pertaining to the Department of Health I notice the statement to the effect that through conditions brought about by that Department the infant death rate has been considerably reduced. According to Ottawa statistics the infant death is higher in N. B. than in any other Province in the Dominion with the exception of Quebec. Dr. J. A. Anyot, Deputy Minister of Health at Ottawa, gives a comparative statement of the standing of the death which is quite interesting and which is as follows:

Dominion of Canada	102.0 per 1000
Quebec	128.0 per 1000
New Brunswick	113.3 per 1000
Nova Scotia	100.7 per 1000
Ontario	91.2 per 1000
P. E. I.	82.5 per 1000
Manitoba	83.0 per 1000
Saskatchewan	80.6 per 1000
British Columbia	56.5 per 1000

So you see, in spite of the fact that we have a Health Department which is operating at a considerable expense in this Province, we find the infant mortality in this province is more than double what it is in British Columbia where I have been told that they have no Provincial Department of that nature. Those figures are very significant and support the contention that has been made on the floors of this House on previous occasions, that the Department of Health is costing this province too much in proportion for what they are getting from it. The support that has been given Vocational education by this government has been money that

has been wisely spent and for which the Government should receive congratulations. And I hope, Sir, that it will be able to increase the appropriation for future work along this line.

Before closing I would like to support the appeal made by the Honourable Member from Kings in moving the address for better educational facilities especially in rural districts. The Honourable Member spoke of the inequalities that exist regarding taxation and valuations. I took the trouble, Sir, to look into those matters carefully and would like to give the House some figures regarding it.

I submit, Sir, that the glaring inequalities that those figures express justifies one in pressing the government to take steps to remedy this condition by creating a school board of a county or provincial jurisdiction. In closing, Sir, let me appeal to this government to get down to matters of real legislation let us not spend a whole session in arguing across the floors of the House as to whether this or some past administration with a different name had added to the most of the provincial debt. But let us deal with present day problems such as a revision of our educational (Continued on page 7)

HARTLAND, N. B., MARCH 22, 1927

#### THE TOWN COUNCIL

"Uneasy lies the head that wears the crown." The town fathers have carried an air of injured innocence since the mild and kindly criticism submitted editorially by The Observer last week. Any public office is a thankless job, and any public servant, who makes even a poor, but honest attempt at carrying out his duty, earns a salary even if he does no more than bear the brunt of the criticism that is levelled at him.

Today the editor reread carefully his editorial of a week ago and failed to find anything that could be sincerely retracted.

Hartland Town Council is comprised of seven as good and true men as could be chosen among 70 or more other men of the town. The editor would have felt it an honor to have nominated Mayor McFarland in the course of an ordinary town election. The Observer would gladly have supported his candidacy. His Council is comprised of men worthy and earnest. While they all must expect criticism from time to time, they should in spite of that, act for the town in the manner in which they as a Board of Councilors, deem most wise. They will be given a great deal of advice, but by far the best thing for them to do is to follow their own advice and not be guided to too great extent by any critic. It is well to listen to advice and criticism, but someone has said that "a fool's advice is the only advice there is—that it is a fool who gives, and a fool who takes it."

The Observer does not believe that any form of disaster will fall upon the town through the present council, and to offer its modicum of fool's advice it would suggest to the council to remember that "it takes all kinds of people to make a world." It takes all kinds of people to make a town, and the different classes, creeds, industries, all varying interests of the people of Hartland, should be treated in a manner unbiased and unprejudiced.

#### HOME AFTER 24 YEARS

Frank S. Stevens of Providence, R. I., was a recent visitor at the homes of the Hartland Stevenses. He is a son of the late J. W. Stevens, who moved away from Somerville to Fairville in 1889, and Frank, who was 16 years old at the time, has now seen the place of his nativity in all of the 24 years until the present visit. He, of course, could note that the town had made a considerable growth since that time, but when he left Hartland in his mind was quite a metropolis, but having lived so many years in the large American cities the town even after its growth does not appear to him so large as when he was a boy. He expressed great surprise that workmen coming into the town were taxed, when just the reverse was a chief factor in the up-building of the American towns. They based their growth upon the number of people they could induce to come and go to work.

For twenty years Mr. Stevens has been employed with Grinnell Co. of Providence, a very large concern that manufactures automatic fire extinguishing systems for the large buildings in the great cities. He went to work first as a mechanic's helper and he is now the company's consulting engineer. It has been a long time since he has held a pipe-wrench in his own hands but he directs a tremendous force of men who do that kind of work. He came to Houlton

last week to make an estimate on the equipment for two of that town's largest business blocks and left on Monday for Bangor to secure data on a big piece of work in that city. The Fraser Companies' great mills are equipped with the fire extinguisher apparatus produced by the Grinnell Co., Toronto plant. While here Mr. Stevens visited the Somerville school house wherein he received the whole of his "book-learnin'." He was in a class with Donald McCormack, Oliver VanDine and Guy Sipperelle, and the four boys have all reached high positions although Mr. Stevens leads the others by going a few better than \$5000 a year.

#### PRIMITIVE BAPTIST QUARTERLY MEETING

The Primitive Baptist Quarterly meeting convened with the church at Temple, York county, on March 17, Saturday, 10.30 a. m., the first meeting of the session led by J. M. Mallory. On account of recent storms there was a small representation, but the few that gathered had a good reason of prayer for the uplift of the cause of the Master. 2.30 p. m. met in Quarterly conference with a better attendance. This service was led by Rev. P. J. Quigg, and was of the usual spiritual interest so much enjoyed by God's people. At 7.30 met again for worship. Preaching by Bro. Thos. Stairs, who delivered a strong and interesting sermon on the "The City Which Hath Foundation," much enjoyed by the audience.

Sunday, 9 a. m., met for prayer and social service, led by Bro. Clifford Gray, continuing until 11 o'clock when the order of the meeting was changed to a preaching service led by Bro. P. J. Quigg with an interesting sermon on the "Mansions prepared for believers in Christ," pressing home the necessity of preparing for that prepared place. At 2.30 preaching service led by J. M. Mallory on the "God provided sacrifice." At the close of this service the Lord's Supper was observed in which an unusually small number participated. At 7.30 preaching by Licentiate W. Petchey on the "Lost and found condition of Man," with a strong appeal to the unsaved to get into the found condition; very much appreciated and listened to with wrapt attention. All the Sunday meetings were well attended.

Monday, 9.30, met for business; the chairman being absent on account of sickness, by vote Bro. Quigg acted. After the regular routine of business was disposed of a resolution of adjournment was passed to meet in yearly conference with the P. B. church, Hartland, first Saturday in July. The last meeting of the session being 7.30 p. m., several of the ministers remaining, this ending a profitable session.

J. M. MALLORY, Clerk

#### Card of Thanks

We wish to thank the many friends who so kindly assisted during the sickness and death of our beloved wife and mother, also those who helped in the singing.

LAMBERT WIGGINS and Family

At the Baptist Church

Record congregations were attendant upon all the services of the Hartland Baptist church on Sunday last. If the present response is any indication of what the future has in store for this church, larger accommodations shall have to be provided. Next Sunday at 11 o'clock the pastor, Rev. G. F. Boister, will preach, and will take for his subject, "The Realization of a Glorious Dream." Again at 7.30 o'clock the pastor will preach and will take for his subject, "Why The Guests Did Not Attend the Banquet." Good singing. A cordial welcome and warm hearted preaching make these services worth attending.

#### WAPSKÉ BREEZES

## To Victory Bond Holders

Victory Bonds have never sold so high as at the present time. Many who hold Victory Bonds would improve their investment position by taking advantage of these high prices and reinvesting in non-taxable Provincial Government and Municipal Bonds. Victory Bonds are subject to local taxation.

These bonds are quoted:

1923.....5½.....100.60	1924.....5½.....100.90
1927.....5½.....102.70	1933.....5½.....106.30
1934.....5½.....103.00	1937.....5½.....108.30

Enquiries will receive prompt attention. Better write at once as these prices are very high and may go off any day.

## WHEELSMAN SAYS—TROUBLE IS OVER

Toronto Citizen Suffered So From Stomach He Feared the Worst Tanlac Brings Complete Relief

"Tanlac put me on my feet three years ago and I have been in the pink of condition ever since," states John J. Mathews, 13 Ashby Place, Toronto, Ont., well-known wheelsman on the steamer "Toronto."

"I had stomach trouble so bad that at times I simply had to use hot appliances in an effort to subdue the pain. Gas almost choked me after eating, and I dreaded this so. I frequently made a complete trip on the steamer, two days, without food. I could never rest, and felt so near 'all in' I thought I was going to have to give up completely."

"It was a great day for me when I went to the drug store and got Tanlac for the medicine proved a god-send to me. I haven't had a sick day since I finished the treatment, but have been feeling as fine as I ever did in my life."

Tanlac is for sale by all druggists. Over 55-million bottles sold.

A few weeks ago Basil Seely while employed with F. E. Bayre's crew at Indian Brook, was kicked in the abdomen by a horse. Herula ensued and Mr. Seely was taken to Fisher Memorial Hospital for operation. His condition has been rather serious and he is still a patient at the hospital. Encouraging reports are received however, and his friends hope to soon see him home again as well as ever.

Lift Off with Fingers

Your druggist sells a tiny bottle of "Frezore" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Doesn't hurt a bit! Drop a little "Frezore" on an aching corn, instantly you lift it right off with fingers.

## MOTHER!

Move Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "CALIFORNIA" or you may get an imitation fig syrup.

## DYE FADÉD WRAP SKIRT, DRESS IN DIAMOND DYES

Each package of "Diamond Dyes" contains directions so simple any woman can dye off that her old worn, faded things new. Even if she has never dyed before, she can put a rich fadeless color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Diamond Dyes never streak, spot, fade or run.

## IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diaphepsin"

As soon as you eat a tablet or two of "Pape's Diaphepsin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package is guaranteed by druggist.

## "CASCARETS" 10c BEST LAXATIVE FOR BOWELS

To clean out your bowels without cramping or overacting, take Cascarets. Sick headache, biliousness, gases, indigestion, sour, upset stomach and all such distress gone by morning. Nicest physic on earth for grown-ups and children. 10c a box. Taste like candy.

New York's Miles of Sewers

If the sewers of greater New York were placed end to end it would mean a tunnel just about long enough to reach San Francisco. If it did not quite reach that city it would be close enough to alarm the good people of the Golden Gate. Manhattan alone has 536 miles of sewers.

Before My Baby Came

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to keep my health good now. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLER, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

Mrs. Perley-Fields and family, also Miss Harvey of Andover spent the week-end with Mrs. Stephen Scott.

Mr. and Mrs. Nesbitt, Forest and daughter, Helen, of Boston, spent Sunday with Mr. and Mrs. Rayburn Porter.

Charles Baird and daughter, Mildred, spent Sunday afternoon at Wilby Grant's at Kilburn.

Cleveland Hisecock has accepted a position with C. L. Oimstead of Perth. Roy Baird spent Sunday in Kilburn, the guest of J. W. Grant.

Mr. and Mrs. Clarence Brown spent Sunday with relatives in Knoxport.

## WATERVILLE NEWS

Miss Florence Kimball spent the week-end with her friend, Miss Beattie Culbertson.

The U. B. W. M. U. met at the home of Mrs. Fred Culbertson on Friday afternoon. A very pleasant afternoon and evening was spent and over 40 enjoyed the delicious supper.

On Sunday Rev. C. N. Barton spoke at 11 o'clock on the Western Missions in the U. B. church. His address was both interesting and instructive.

In the evening the entertainment given by the U. B. W. M. U. was listened to by a large crowd, who came in spite of the bad roads and disagreeable weather, and who expressed themselves as being delighted with the excellent program. One of the features we considered worthy of special mention was the music by the young people. Great credit is due Miss Lillian Harper, who gave so unobtrusively of her time and talents in training the children. A silver collection was taken, amounting to \$16 and we trust much good has been done by instilling into the minds of the young a fuller, deeper understanding of missionary work.

The friends of Mrs. Elsie Palmer are sorry to hear of her serious illness at her home in Rosedale.

Joseph Laskey, one of our oldest residents, has been confined to his bed all winter.

Casey Shew, who is teaching school at Rockland, spent Saturday and Sunday at his home here.

Mrs. Albina Brooks is teaching the school at Middle Simonds.

Upper Waterville school is under the skillful management of Miss Lillian Harper of Jacksonville. Miss Welch of Glassville has charge of the lower school.

## Fertilizer Analysis :

The analysis of fertilizer means its contents of Ammonia, Phosphoric Acid and Potash. Fertilizer was probably the very first material sold with a chemical analysis of its contents printed on the packages.

There is no trick in buying fertilizer, you get what you pay for and pay for what you get. The analysis is plainly printed on the bag and especially with the "simplified analysis" a provision of the fertilizer law suggested by the fertilizer manufacturers, everyone knows how much of each of the three important elements of plant food is in the fertilizer he buys.

While the plain statement of the analysis itself is important, just as important are the materials which supply the different elements of the guaranteed analysis. A fertilizer may contain in the three elements of plant food, show a fair analysis and still be unsatisfactory. Experiments covering many years and at many different places point that a fertilizer made entirely from minerals, Nitrate of Soda, Acid Phosphate and Muriate of Potash shows a little over half the profit of a fertilizer made from more varied materials, adding Tankage, Bone, Dried Blood and Sulphate of Ammonia.

This is shown by experiments at Fredericton, N. B., in Ohio and in the notable experiments at Rothamsted. The director of the Maine experiment station advises Ammonia from three sources not over one-third from Nitrate of Soda. The New Jersey experiment station makes the same recommendation.

IN EVERY "MADE AT WINDSOR, N. S." BRAND OF FERTILIZER WE USE AT LEAST TWO SOURCES OF AMMONIA AND PHOSPHORIC ACID, AND IN THE HIGHER GRADES THREE AND FOUR. THIS IS THE REASON FOR THE SUCCESS OF A COMPLETE FERTILIZER OVER UNMIXED FERTILIZER CHEMICALS.

WE ADVISE A HIGH GRADE, COMPLETE, MIXED FERTILIZER. HIGH GRADE TO FURNISH ENOUGH PLANT FOOD AT THE LOWEST COST. COMPLETE BECAUSE EVERY PLANT NEEDS AMMONIA, PHOSPHORIC ACID AND POTASH. MIXED BECAUSE THEY ARE ACTUALLY MIXED, NOT MERELY SHOVELLED ABOUT ON THE FLOOR. AND THE PLANT FOOD IS FROM THE BEST SOURCES AND NOT FROM THE CHEAPEST. WITH RIGHT MIXING EVERY PLANT GETS ITS SHARE OF THE ENTIRE MIXTURE, PREVENTING MISSES AND SKIPS, RESULTING FROM HALF MIXED FERTILIZERS.

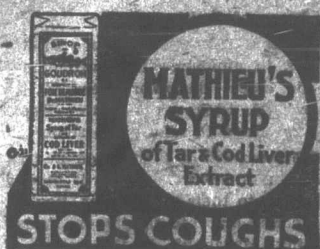

We offer particularly low prices on carload shipments, draft with bill of lading. We suggest you write to us before buying this year's fertilizer.

# Sore Faces AND Rough Hands

THESE biting boisterous

March winds mean discomfort for sensitive skins. Faces and lips soon get chafed and sore, hands and arms become red, rough and unsightly unless your skin has the aid of Zam-Buk to keep it healthy, smooth and flexible.

Zam-Buk bears no resemblance to the old fatty salves and beauty creams. These lie uselessly on the surface of the skin, but Zam-Buk consists of rich refined herbal extracts, that are quickly absorbed by the pores. Thus Zam-Buk exerts a soothing, purifying power on all the tissue. Soreness, irritation and inflammation fly before Zam-Buk. It quickly removes the poisonous germs and pore-clogging impurities, and is a soothing, powerful remedy for eczema, tetter, salt rheum, pimples, blotches, rash and other similar skin trouble.

Miss Rosa Wallace, Menie, Ont., writes: "When my hands were made rough and sore by the Spring winds, I just applied Zam-Buk every night and my skin was soon all healed, fine and smooth. Zam-Buk is by far the best balm I have used. It is equally good for pimples and for healing cold sores."

## SPEECH OF S. J. BURLOCK, M.L.A.

(Continued from page 2)

system. Also to amend the Workmen's Compensation Act to make it less expensive to the provinces. Some adequate provision for the paying of our provincial debt, also a better system of road and telephone service for people in back districts. I believe, Sir, that if we work more along those lines we will have solved the problem of how to keep our own people in our own country at least, and I am doing so will attract other people to come and live with us.

I would like, Sir, right here at this time to make some brief reference to the speech made by the Honourable Premier in the session of yesterday. I cannot remember all the things that he said as he soared to such dizzy heights of eloquence, and there are some things he said that I would like to forget. I think, Sir, that he said some things that if better had been to have left unsaid. The whole tenor of his speech, his method of arguing and his whole attitude would seem to me to be intended to intimidate and terrify all those who did not see things just as he did, especially the leader of the progressive party and his followers.

But those of us who have had the pleasure of sitting in the House, with the honourable gentleman in past sessions know that his bark is far worse than his bite and also know that he can resort to cover when necessary as quickly as any member of the House.

The Hon. Premier takes the leader of the Progressives and also the Hon. leader of the Opposition to task for destructive criticism and for offering nothing of a constructive character.

The system of party government is of such a nature that it is impossible for any party not allied with the government to have anything to say in the matter. For instance, when this government was making up its program of legislation to be presented to the House in this session, he did not come to either the leader of the Progressive party nor to the leader of the Opposition and say "Here, Sirs, we are making up our program of legislation to be brought down at this session and we ask for your co-operation in the matter." If that was the case, Sir, if the cooperation of those parties was asked I am wholly unaware of it. As to whether we have a Grit or a Tory Government, I am not personally concerned nor do I believe Sir does it make any great difference to the country records go to show that in the administration of the affairs of the Province there is practically no difference.

The Hon. Premier in his speech of yesterday went to the lengths to show that this government had been more economical in the administration of affairs than other fellows. But, Sir, he could not explain away the fact that the bonded debt of this Province is being increased at the rate of over a million each year.

The Hon. Premier in his presentation of the budget last session produced figures to show this Government had increased the bonded debt over one million yearly, but he consoled himself with the fact that his predecessor increased it one million and a half yearly. I am willing, Sir, to accept the Hon. gentleman's figures. But I am of the opinion that a change of government is a good thing for the country occasionally. Our Hon. friends opposite argue that the change in 1917 saved the country from financial ruin, and who knows but that another change might serve the same purpose?

The Hon. Premier in his references to the bye-elections in the county of Kings took the leader of the Opposition to task for what he considered was a slur on the intelligence of the people of that county for being influenced by the methods that were used in that campaign. The Hon. Premier admits that he took part in that campaign and he was not there to influence the electors of that county, what was he there for? The Hon. gentleman, it seems to me, wanted to leave the impression that it was because of the part that he took in that campaign that the candidates supporting the Government were returned. And I have no doubt, Sir, that such was the case, but let me tell the Hon. Gentleman that it might not always work out that way.

Think, Sir, that the Hon. Gentleman tried that idea in Carleton County in the election of 1920 he would have had some job on his hands to elect the Government candidates. I take this opportunity to say to the Hon. Gentleman that if he ever comes to Carleton County to take part in a campaign I only hope that he will give the same speech on every public platform in the County that he gave the House yesterday. I have no fear as to the results.

I wish to refer, Sir, to a reference made by the Hon. Leader of the Progressive in his speech of yesterday regarding the press of this country. I think that the House will agree with me when I state that the public press is the greatest factor that we have in moulding the political life of the country. I think also that you will agree with me that it is the power that has made and unmade Governments in the past and that it is still controlled largely by the two old political parties and of late his hate in this country, that there has been working overtime to kill the farmer movement ever since that movement started. And I think that the suggestion of our leader that it would devote its energies and influences in promoting agriculture, social and religious life, transportation facilities and other matters of public interest, it might have been able to accomplish things that would have better justified its existence.

## ROYALTON RIPPLES

The pupils of the Upper Royalton school and the members of the Bifby Bees of Junior Red Cross gave a very enjoyable concert on Thursday evening, March 15, under the direction of their teacher, Miss Agnes Belyea, and their president, Miss Faye Buchanan. ## SEVEN YEARS OF TORTURE

Headaches and Indigestion Ended By "Fruit-a-lives"

The Marvellous Fruit Medicine

Like thousands and thousands of other sufferers, Mr. Albert Varner of Buckingham, P.Q., tried many remedies and went to doctors and specialists; but nothing did him any good.

Finally a friend advised him to try "Fruit-a-lives" - now he is well. As he says in a letter:

"For seven years, I suffered terribly from Headaches and Indigestion. I had belching gas, bitter stuff would come up in my mouth, often vomiting, and was terribly constipated. I took Fruit-a-lives and this grand fruit medicine made me well."

50c. a box, 6 for \$2.50, trial size 25c.

At dealers or sent by Fruit-a-lives Limited, Ottawa, Ont.

## LOCAL AND PERSONAL ITEMS

On Tuesday night "Broadway Pea-  
cock," starring Pearl White, proved  
to be a show within a show, for the  
whole film was replete with specta-  
tors which gave the star a good op-  
portunity to show off both her good  
looks and her good clothes. "Bride  
13" had more than the usual number  
of thrills. On Saturday evening "The  
Green Temptation," a Paramount pro-  
duction, was substituted for the pic-  
ture advertised, but was no disap-  
pointment for it proved much above  
the average for class. The plot  
hinged around a beautiful emerald, a  
most alluring prize for the eye of a  
crook, and the play ran from a cafe  
frequented by the apaches of Paris  
to the homes of the rich, with all the  
intervening strata. Betty Compson  
was the leading lady and was excel-  
lent in the several roles of a harle-  
quin's assistant, a professional dancer,  
a Red Cross nurse, and a pet of so-  
ciety. She got excellent support  
from Theodore Kosloff, Neddy Bro-  
wards, Mahlon Hamilton, Betty Bruce  
and others composing an all star cast.  
Much stage property was utilized in  
the production and some wonderful  
stage settings were called into being.  
A Paramount magazine film completed  
the bill.

Tuesday evening gives us "Strange  
Idle" with Dustin Farnum, which  
will be full of strong arm stuff. On  
Saturday evening next the manage-  
ment will show "The Crimson Chal-  
lenge" with Dorothy Dalton, whom you  
will remember in the Queen of Sheba.  
Tuesday evening, 27th inst., we will  
be treated to "Men of Zanzibar," star-  
ring William Russell. Don't forget  
to save all your coupons for the door  
prize drawing on the 31. You may be  
the lucky one this month.

Miss I. Long, our local candidate  
for "Miss Centreville," put in a very  
busy week, calling on friends and  
acquaintances for subscriptions and  
renewals to The Observer. This is  
to be no piker's game and the girl  
who keeps everlastingly at it will ac-  
cording to all laws of average, bring  
home the bacon. The editor if one  
will take the trouble to scan the col-  
umns devoted to this, has made the  
reward, aside from any prestige ac-  
cruing from the title of "Miss Centre-  
ville" or "Miss Victoria," one of a  
most liberal character and well worth  
a fight to the finish. When you dress  
a couple of girls up, like them around  
the country in a pullman car, and  
feed them the best bits that a chef  
at a \$15,000.00 hotel can stir togeth-  
er, I guess you've done a pretty en-  
ough. It is almost to make a man  
wish he wore a skirt. Go to it girls!  
The plum is sure to go to the smart

appointments in spite of the bad con-  
dition of the roads.  
The saw mill is kept running most  
of the time, also the grist mill has had  
a good run all winter. Mr. Ames is  
giving good satisfaction.

The doctor has braved the elements  
night and day to minister to the sick.  
Business seems to be brightening  
up a little. Potatoes are bringing \$1  
per barrel again, whilst oats, butter  
and eggs are a good price.

Henry Wilson celebrated his 21st  
birthday on the 21st. All of the young  
people gathered at his home and en-  
joyed a very pleasant evening with a sumptu-  
ous lunch at the close.

Mrs. J. Y. Williams is visiting her  
daughter in Houlton.  
George Sewell is laid up with la-  
grippe.

Mrs. Robert Carvell is not gaining  
as rapidly as her many friends would  
wish.

W. Y. Anderson was storm-staged  
in Woodstock a few days last week.

Dr. and Mrs. Wright entertained his  
Sunday School class at their home on  
Saturday evening. A right good time  
was enjoyed and all voted them the  
best of entertainers. The Doctor  
plans to entertain his class once a  
month during the spring and summer.

The C. G. J. Y. meets each week  
with their leader, Mrs. Wright, who  
gives a lot of time to this worthy  
cause. What work is greater than to  
teach to train the coming women to be  
useful, educated, Christian citizens  
for which the world has need. We  
wish the girls every success and hope  
no one will throw any cold water on  
a canker because they don't just un-  
derstand it, as some might be tempted  
to do.

Miss Kathryn Wilson is home after  
an absence of one year and a half.  
Miss Wilson is teaching in Western Alberta. Miss  
Wilson speaks very highly of the  
school system in the west and thinks  
there are many things that N. B.  
might profit by copying.

Mr. and Mrs. William Wilson spent  
a few days in Fort Fairfield recently.  
On Thursday an old-fashioned mat-  
hooking was enjoyed at the home of  
Mrs. William Wilson.

Mrs. Fannie Fowler has recovered  
enough to return to her home. Mrs.  
Charlotte is staying with her.

Mrs. Charles Tracey, who has been  
receiving treatment at Portland, Me.,  
is expected home the last of the  
month.

Mrs. Marshall Tracey is recovering  
from an attack of shingles.

The members of the Orange Lodge  
are planning on finishing the inside  
of the Hall. They have ordered the  
metal finish for the walls and ceiling.  
John Gills is catering, like Job,  
from bolts.

Ross Campbell spent Sunday at his  
home here.

Hilda Wilson, who has a singing  
class at Bloomfield, was prevented  
from getting there on Friday evening  
owing to the storm.

The Lakeville amateurs are talking  
up another play.
