

Telegraphic News.

London, April 12. The officers and members of the Royal Geographical Society and other distinguished persons have come to Southampton to receive the remains of Dr. Livingstone. The steamer bearing them is expected early to-morrow morning. Great preparations are being made for the funeral here. It is reported that the body is in a good state of preservation.

London, April 13. The "Times" Calcutta correspondent telegraphs that distress from famine is increasing in Turbhat and other districts of India, and it is officially estimated that 4,575,000 persons are still suffering from starvation.

New York, April 13. Fire at Williamsport, Penna., Sunday, destroyed twenty million feet of lumber; loss half a million dollars. The recognition of the Cuban Republic, which has sustained existence nearly six years is advocated in a long editorial in the Washington Republican, which intimates that Congress will authorize the negotiation of a commercial treaty with the Republic. The President will lose no time in giving effect to such a resolve. Gold 115 3/4.

The Enfranchisement of the Continental Nations.

Italy, France, Switzerland and Prussia have refused to be fettered in the administration of civil affairs, by the mandates of Pius IX. Since the Pope had his infallibility decreed, these powers have been more than ever averse to be controlled by orders, resting on absolute authority, and in regard to which it would be useless to reason. The matters in dispute were and are chiefly education, of which the Pope claims the control, marriage, which he holds as exclusively a sacrament and has no civil aspect, freedom of worship and conscience which the syllabus denies to unbelievers, the proper education of the clergy, the publication of Pagan bulletins, etc. Recently Austria, which has assumed an enervating Conservatism, showed a disposition to pass laws similar to those adopted in Germany and elsewhere. The Pope, thereupon, promptly issued an encyclical letter dated March 7, censuring, in strong terms, the proposed legislation and hinting that it would be null and void. He counseled the bishops to meet and take issue with the State. This letter, as we have stated, was dated on the 7th of March, and on the 9th, the Reichsrath, or House of Commons of Austria, against which the Jesuits have been fulminating for the last twelve months, passed the first of the ecclesiastical bills by a vote of 224 to 71. The legislators are predominantly Catholics, and love and revere their church, but they are patriots, prize self-government and love freedom. Some of the clergy are in accord with the measure.

The New York Tribune believes that the Catholic Apostolic Austro-Hungarian Monarchy will adopt a similar course. The New York Times in directing attention to this remarkable movement of the Catholic peoples of the continent says:

A singular feature of this victory was that the chief of the enemies of the Popedom was the Hapsburg Emperor; or more strictly, the Cabinet finding that any other course would destroy the popularity of the Emperor, led the opposition, hoping, perhaps, to make the schism with the Pope cost less entire, and had with them members of the Right and Left, and even the extreme Radicals. A few even of the clergy joined the Liberal movement. This partial destruction of the Concordat is only the beginning of a more thorough overthrow. The whole system of ecclesiastical domination will be rooted up, and Austria join all constitutional countries in regularizing education, marriage and the priestly caste. One of the strong points made by the Liberal orators in the debates was that so far from this process of secularization being a blow against religion, it was a stroke in its favor. "Where," said they "are infidelity and atheism found, have been combined, and the priests have controlled education?" They pointed to the increasing indifference of France and Catholic Germany, and the Albigens, and compared them with the religious fervor and earnestness of England and the United States, to prove how fatally priestly government, and the union of State and Church, act on the religious sentiment. These arguments had much weight. The result shows that Austria has now joined the great march of all modern constitutional states, and is breaking from the connection with the spirit of the middle ages. The priest henceforth must stand alone on his spiritual worth. The teacher has his own profession, which is purely secular. Every day and family life is freed from all shackles of priestcraft. Religion is left to its own power, unsupported by force or law.

THE COST OF THE ASIATIC EXPEDITION.—A parliamentary paper has been issued giving the particulars of the vote of credit which will be asked for to defray the expedition.—The total amount is £300,000. Of this £257,000 is for the expenses of the army, £361,000 for the navy, £162,000 for Capt. Glover's expedition, and £162,000 for contingencies. The largest items, under the head of "Army," are £100,000 for provisions and forage, £40,000 for carriers and laborers, \$39,000 for clothing, £31,000 for extra pay and allowances, and £310,000 for warlike stores. Under the head of "Navy," £31,000 is required for transportation of troops, and £48,000 for naval stores—coal. This statement, it is explained in a note, is only approximate, and subject to modification in detail.

THE VISIT OF THE EMPEROR OF RUSSIA TO THE QUEEN.—In expectation of the promised visit of his Imperial Majesty the Czar of Russia to England in May, extensive preparations will shortly be made at Windsor Castle for the reception of the Emperor. The state apartments on the north side of the Castle will partly be used upon the occasion of the Imperial visit to Her Majesty the Queen. During the Emperor's stay the festivities will be upon a grand scale. A review in Windsor Great Park is also anticipated.

AN AUSTRALIAN MILLIONAIRE.—Mr. William John Turner Clarke, whose name has been almost a household word with the Victorian colonists for many years past as the richest man in Australia, died at his residence, Roseneath, Essendon, on January 13, in the 73rd year of his age. Mr. Clarke was born at Bridgewater in Somersetshire, England, and at the age of 29 emigrated to Tasmania, where he arrived about the year 1830. His property, land and personal, was estimated at his death to be worth from £2,000,000 to £3,000,000. Mr. Clarke was for a number of years a member of the Victorian Legislature.

The Standard.

SAINT ANDREWS, APRIL 13, 1874.

HOUSE OF COMMONS.—We notice in the proceedings of Parliament, that the Premier, has appointed Mr. GILMORE on the following Standing Select Committees—Miscellaneous Bills, Public Accounts, and others. A notice of motion to establish a Military College, at one of the Garrison Towns of Canada, was entered by Hon. Mr. Ross. By Mr. Schullis—Address to His Excellency the Governor-General praying for a Royal Commission to enquire into the causes of the Red River disturbances of 1869 and 1870, and into the alleged danger of similar disturbances occurring in the valley of the Saskatchewan.

This looks like an attempt to stir over the "Red" difficulty, and delay proceedings, which it is not probable will carry under existing circumstances. Such a motion would have been in place three years ago, but can answer no legitimate purpose at this late date. As it does not appear any Annuity was promised, by the late Government, or authorized by it, the facts are established, and the duty of the present Parliament is plain. The matter will come up to day, if no further postponements are moved.

The Elections.

It is generally credited that the Local Elections will be held in June next; this being admitted, there is but a limited time to prepare for the contest. It is high time for this constituency to make a selection of the men whom they intend to vest with the power of legislation, staunch free school advocates,—men who can be trusted to carry out the wishes of their constituents, and who will give no uncertain sound in the House of Assembly, when an attempt is made to REPEAL the school act. There should be no temporizing, no half-way measures; let it be the law, the whole law and nothing but the law, which secures to all sects and creeds alike the advantages of a non-sectarian education. Honest independent action and speech, will meet and overcome secret opposition emanating from whatever source it may. The Province will not readily yield.

ERIE SCHOOLS, and therefore the propriety of this County, without delay, sending delegates from each Parish to meet at St. Andrews, and as we suggested, select four men, and give them a support which will return them.

THE NATION.—With this title has been issued at Toronto, a new candidate for public favor, and from a study of its contents, we believe it will succeed. The high tone of its editorials, the candid and honest manner it discusses the most important measures, its fearless demonstrations of truckling to party, and thorough independence, render it a most desirable journal, and worthy of a large circulation in the Maritime Provinces, as well as in Ontario and Quebec. We endeavor, as much as in us lies, to direct ourselves of impartiality in noticing a contemporary, or in treating of any subject; and it may be, that we do not always succeed—but we do say, that the spirit, tone, and writing of the "Nation" comes up to our ideal of a highly respectable and ably conducted journal. We have seen nothing in the Dominion, to approach the leading British journals, equal to the "Nation," and that is sufficient commendation. The paper is published from clear type, neatly printed, at \$200 per annum. J. M. Trout, Business Manager, Toronto.

Another attack on the School Act.

On Wednesday last, in Parliament, Mr. Coogan gave notice of motion for Friday, that he would move an

"Address to Her Majesty representing that it is essential to the peace and prosperity of the Dominion of Canada that the several Religions therein prevailing should be followed in perfect harmony by those professing them in accord with each other, and that every Law passed either by this Parliament or by the Local Legislatures regarding the rights and usages tolerated by one of such Religions is of a nature to destroy that harmony; that the Local Legislature of New Brunswick in 1871 adopted a Law respecting Common Schools forbidding the imparting of any Religious education to pupils, and that prohibition is opposed to the sentiments of the entire population of the Dominion in general and to the Religious convictions of the Roman Catholic population in particular; that the Roman Catholics of New

Brunswick cannot conscientiously send their children to schools established under such Law and are nevertheless compelled like the remainder of the population to pay Taxes to be devoted to the maintenance of those schools; that the said Law is unjust and contrary to the spirit of the Constitution and causes much uneasiness among the Roman Catholic population disseminated throughout the whole Dominion of Canada, and that such a state of affairs if continued is likely to prove the cause of disastrous results to all the confederated Provinces; and praying that Her Majesty will be pleased to cause an Act to be passed amending the "British North America Act of 1867" in the sense which His House believes to have been intended at the time of the passage of such Act, by providing that every religious denomination in the Province of New Brunswick shall continue to possess and enjoy all such rights, advantages and privileges with regard to their schools as such denomination possessed and enjoyed in that Province at the time of the passage of the said last mentioned Act; to the same extent as if such rights, advantages and privileges had been then duly established by Law."

There are many mistakes in this resolution, a few of which we have only time to-day to notice. It is not true that the School forbids the imparting of "religious" instruction, it is "sectarian" it forbids. Many Catholic parents do send their children to the common schools, although they prefer separate schools. The Act is not contrary to the spirit of the Constitution, but clearly just to all. Mr. Coogan may rely upon it, that the Imperial Government will never alter the constitution of this Province against the wishes of a large majority of its people.

Death of Hon. J. J. Robinson-Owen.

We regret to announce the death of Hon. Captain Robinson Owen, at the residence of Hon. D. Street, Esq., on Tuesday, 14th inst., after a few days illness, aged 65 years, leaving a bereaved wife and family to mourn the loss of an affectionate husband, parent, and brother. Capt. Robinson-Owen was for some years on this station in command of H. M. Gunboat "SEIJIACK" and having married a daughter of the late Admiral Owen, soon after retired from the Navy, and has since resided on the Island of Campbell. He at one time represented this County in the House of Assembly, and was afterwards elevated to the Legislative Council, of which he was a member at the time of his death, and has always been distinguished for his straightforwardness and independence. He was for many years a Director of the St. Andrews & Quebec Railroad Company, and an active promoter of that undertaking here and in England. He will be missed by his many tenants on Campbell, by whom he was esteemed as a kind hearted and generous landlord, and the poor have lost in him a benefactor.

His remains will be taken to Campbell for interment, by Steamer on Thursday morning, and the funeral will take place on Friday morning at ten o'clock.

There appears to be what is vulgarly termed "a hitch" in the Red case. The French conservative Senators, have threatened to withdraw their support from Sir John A. Macdonald, unless he will exercise his influence in Red's behalf. Sir John will preserve a "masterly inactivity" in the matter, and the English and French entertain opposite views with reference to Red's conduct—the former look upon him as a rebel and murderer—the latter, believe him to be a protector of his countrymen. But all this time poor loyal Red's body lies in the cold grave—and cries for vengeance.

The examination and cross examination of Attorney General Clarke, on the 9th inst., as published in the parliamentary proceedings, will militate against Red, and the vote on his expulsion to be moved by Mr. Bowell, will give a correct idea of the position of parties in Parliament.

THE FORTSTANT.—The third number of this ably conducted monthly has been received, and is worthy of extensive patronage. Will the publisher please send us the second number which did not reach us. Specimen copy may be seen at this office. Price \$1.50 a year in advance. Published by F. E. Grafton, Montreal.

In last week's STANDARD we alluded to Mr. Wedderburn's resolutions on the School question, and mentioned that Mr. Nowlan had introduced an amendment to repeal the present School Act. We also stated that the question of Education enters largely into elections in most countries, and mentioned the fact (without naming the committees of School Boards in New York, Massachusetts, and other states, Nova Scotia, and in some parts of our own Province) had complained of a "foreign priestly influence being exerted to destroy free non-sectarian schools, and substitute denominational schools." This was the language of the reports, we gave it as published, without note or comment. But we feel it our duty to state that any such interference will be resisted by "free school men" in this Province, at the polls, who do not fear such "influence." Such arrogance and assumption, will not be tolerated by any free people, who will have all enjoy like privileges.

BALLOU'S MONTHLY MAGAZINE FOR MAY.—We do not wonder that all classes are eager to welcome a monthly issue of this popular magazine, for it contains just such stories as suit every one. The variety is so great that every taste is suited. Such stories can't be found elsewhere—the tales of domestic life are not equalled in any other publication in this country, while the illustrated articles and poetry are always seasonable and good, so good in fact, that some of the best people in the country are regular subscribers to the Magazine. Remember a pretty little Chromo goes to each subscriber. Published by Thomas & Talbot, 35 Broadfield Street, Boston.

The Surveyor General and Robt. Robinson, Esq., were in town during the week. They look well after their winter's legislation and will no doubt, in June next, be triumphantly returned by Charlotte and York, members for their respective Counties, as they deserve. We are safe, we believe, in anticipating their election.

The Rev. Mr. Halley, from Fredericton will preach in the Scotch Church here, on Sabbath next, 19th inst.

A native of St. Andrews who for some years has been a resident of San Diego, California, sends us the local paper "The World" in its issue of the 28th March, it gives a view of the Town and environs. The harbor is the best and most capacious on the Pacific coast. The market prices are as low as in the Dominion; and there appears to be an abundance of fresh vegetables, with strawberries, gooseberries and other fruits. San Diego County has also valuable and rich gold mines. The Messrs Young, sons of the late John Young, reside in that locality, and like other natives of Charlotte County, have prospered in their adopted home.

THE SESSIONS were opened yesterday, Tuesday, in the County Court House. Whittlock, Esq. was elected Chairman. There was a goodly number of Justices present. The apportionment of County Taxes, granting of Liquor Licences, and the passing of the County and Parish Accounts, after being examined by the Grand Jury; other County matters, will also engage the attention of their Worship.

IF YOU "GO WEST," YOUNG MAN.—To both single and married men in the East who have decided to go West, we would whisper in their ears one thing which, if heeded, will be of value to them. It is this: Avoid a too common error, that of puffing yourselves up with the notion that you are going West to show the natives how to work; that out there you will be looked up to as somebody unusually smart in your line. The Western people estimate a man by what he really is as a mechanic, and do not give him credit for what he is not. True, if you are heralded as a workman of superior skill, they await your coming anxiously, and will lay nothing in the way when you have stripped off your coat and are among them. But the moment it is discovered that you have been overestimated, all your pleading about "how they do it East" will avail nothing. Hundreds of instances have come under our observation wherein workmen from the East have gone West inflated with conceit, and when they were put to the test were found almost worthless.—[Carriage Monthly]

PRINCE BISMARCK'S ILLNESS.—The nervous affection from which Prince Bismarck suffers acutely at intervals, and which at present afflicts him, is an evil of long standing. Naturally robust, he enjoyed perfect health during youth and early manhood; but about fifteen years ago he became liable to neuralgic and rheumatic attacks, which are a severe trial of his strength. At a hunt in Sweden he was severely wounded in the shin bone, and the wound was long neglected, and when at last he placed himself in the hands of the doctors the blunder of one of his medical advisers in the selection of a blister increased the evil. A severe illness was the result in 1853, and never since that time has the Chancellor enjoyed perfect health.

SALE OF JOHN OF GAUNT'S BED.—A great sale of furniture, bronzes, books, paintings, old china, and other articles of vertu, interesting to antiquaries, lately took place at Dorchester, near Tunbridge Wells, late the property of Mr. John Field the estate having been sold to the Marquis of Lorne. Among the articles disposed of was a finely carved antique oak four post bedstead, with richly embroidered and arras hangings. This very curious and antique piece of furniture was brought some time ago to Dorchester from Raby Castle, near Darlington, the seat of the Duke of Cleveland, where it was purchased. It is traditionally said to have belonged originally to John of Gaunt, and possesses, therefore, remarkable historical interest. The hangings, together with a coverlet worked in amber silk flowers, are stated to be of the time of Queen Elizabeth.

DIED.

On the 8th inst., in the 82d year of his age, Mr. Thomas Quinn, a native of Limerick, Ireland, and for nearly a half century, a resident of Saint Andrews. Mr. Quinn, for many years was of the principal blacksmith in this place; he was a man of reading and observation. He leaves a family and large circle of friends to lament his removal. On the 12th inst., after a few days illness, Jane, beloved wife of Mr. David Keezer, aged 43 years, leaving a sorrowing husband and young family to lament their loss. Suddenly on the 14th inst., Hon. J. J. Robinson-Owen, aged 65, deservedly regretted by a large circle of relatives and friends.

Prospectus for 1874—Seventh Year.

The Aldine,

AN ILLUSTRATED MONTHLY JOURNAL, UNIVERSALLY ADMITTED TO BE THE MOST INTERESTING PERIODICAL IN THE WORLD, A REPRESENTATIVE AND CHAMPION OF AMERICAN TASTE.

Not for Sale in Book or News Stores.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos besides!

ART DEPARTMENT, 1874:

The illustrations of THE ALDINE have won a world-wide reputation, and in the art circles of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discerning taste which recognizes the advantages of superior artistic quality with greater facility of production. The wood-cuts of THE ALDINE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALDINE will reproduce examples of the best foreign masters, selected with a view of the highest artistic success and greatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly United plates for 1874 will be by T. W. Moran and J. D. Woodward. The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attractions any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountains, New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12x16) and appear as exact facsimiles of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 29, 1873.
Gentlemen,—I am delighted with the proofs in color you have sent me. They are wonderful. I should never have believed that such a beautiful and interesting representation of my work could be made. Very respectfully,
THOS. MORAN.

TERMS.

\$5 per annum in advance, with 50 Chromos free. For 50 CENTS EXTRA, the chromos will be cost mounted, varnished and prepaid by mail.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscription must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in case where the certificate is given, bearing the authentic signature of JAMES SUTTON & Co.

VINEGAR BITTERS

VEGETABLE FREE FROM
PURELY GENUINE
CALIFORNIA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters is a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the roots of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Disorders.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

W. H. McDONALD & Co.,
Druggists and General Agents, San Francisco, California, and cor. Washington and Chatham Sts., New York.
Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Redoubt, James, and other rivers, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangement of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary.

There is no medicine for this purpose equal to Dr. J. Walker's VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distress, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Serofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Serofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c., &c. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative power in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Bowel and Intestinal Fevers, Pleurisy, Dropsy of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Chimneys, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetters, Salt Rheum, Itchiness, Spots, Pimples, Freckles, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scabies, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no cathartics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Justice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
