AFFECTING CANADA. London, Aug. 30 .- In the House of Commons yesterday Joseph Chamberlain introduced a bill for the removal of the doubts as to the validity of the act establishing the Dominion of Canada. In regard to the bill, the Deputy Speakel: explained that it was merely a farmal measure, which was introduced at the request of the Dominion Government. The bill passed its first reading.

PECULIAR PROCEEDINGS OF THE PORTE.

London, Aug. 30.-The Daily News prints a dispatch from Constantinople saying that the Porte asked the Armenian patriarch for an explanation in regard to the services held in Armenian churches in that city on Au 25 for the repose of the souls of the Sassoun victims, and that the patriarch replied that it was the practice Armenian Church to pray for the dead.

THE COMING FETES IN ROME. London, Aug. 30.-The Standard publishes a Rome dispatch saying that the Pope, in discussing with members of the College of Cardinals the coming fetes in celebration of the anniversary of the evacuation of Rome by the Papal troops in 1870, said that mature reflection had convinced him that to display resentment or to issue a solemn protest would only give undue import to the celebration, and he had solved, therefore, to recommend a calm prudence, which would serve to show his real power, and prove that his rights cannot be diminished by any forced demonstrations.

PATTERSON IS THE MAN Whom the Conservative Bosses Ottawa Delight to Honor,

Montreal, Que., Aug. 30.—The authentic statement that Hon. J. C. Patterson, minister without portfolio, will be sworn in on Monday as Lieutenant-Governor of Manitoba, is creating great excitement here, especially among the French Canadians.

(Press Dispatch).

The term of office of Dr. Schultz is finish ed, but it was generally supposed that in return for doing the dirty work of the Conservative Government, in turning out the members of the Liberal Local Government, he would get a second term. It now appears that Schultz has refused to do this, and that for this reason Patterson-who will prove a much more plant tool-has been given the appointment, and therefore will be expected to chastise Greenway and his Cabinet if they refuse to come to terms on the school ques-

FARMERS' COMPETITORS.

Russia in Wheat and Argentina in Wheat, Cattle, and Dressed Beef.

Washington, Aug. 30.-The rapid advances made by the agriculturists of other countries, both in the matter of production and the facilities for marketing them, are watched with deep concern by the officials of the Agricultural Department. Secretary

Morton said today:
"It looks as if the farmer of all the big producing countries is trying to shut out his American brother. The agent of the McCormick Harvester Company, now in Russia, a gentleman of intelligence and experience, writes me that he has seen crops of 75 and 100 bushels of wheat to the acre threshed out there. What would we think of such a yield here? And see what Argentina is doing. A report dated July 17 has reached the department from Buenos Ayres, stating that, upon the basis of the figures for the first six months of the year, the Argentine Republic will send this year 260,000 head of beef cattle alone to Europe. Accompanying this was a photograph of a scene 3,000 miles inland of Siberia. The herds increased 300 head and an ocean-going vessel lying alongside an only eleven died,

elevator and being loaded with wheat that grew on the other side of the elevator, stacks of the grain being shown in the pic-ture—absolutely no land carriage at all. When our wheat reaches the sea-board or a point at which it can be loaded on ocean vessels, a pretty penny has been added to the cost of production in the freight paid for its transportation by railroads.

"Only today," continued the secretary, Union Club, Sydney, Australia, was in here and told me he had just completed arrangements for shipping dressed beef from that country to London, with the privilege of 30 days' storage in cold-storage warehouses on arrival, at one and a half cents a pourd for the whole transaction

"We may have to repeat Le Duc's tea farm experiments," said Secretary Morton musingly. "If what McCormick's man says is true, that tea is being successfully grown about Odessa, Russia, I don't see why it can't be made to grown in South Country." can't be made to grow in South Carolina."

THE A. O. F. Important Committee Reports-An Increased Levy.

Guelph, Aug. 30.—The first business taken up at the afternoon meeting of the A. O. F. High Court yesterday was selecting the place of the next biennial High Court meeting in 1897. Owen Sound received a very large majority. It was decided to hold the demonstration next year in Stratford.

The following were elected to the

laws and judiciary committee: W. J. Vale, Toronto; D. F. MacWatt, Barrie: Walter Mills, Ingersoll; W. G. Scott, Mount Forest; L. F. Heyd, To-

The debate on the amendments to the rules was continued. In the revision it was recommended that the High Court medical examiner review all examination papers, which would include those of all applicants to the subordinate courts. The discussion resulted in the acceptance of an amendment made by the Oshawa court, which left the law in its present state, so far as the reviewing powers of the H.C.M.E. are

concerned. The committee on the state of the order presented a supplementary report, recommending the adoption of an aggressive policy of organization, and leaving the arrangements to the executive council. The report was adopt-

The committee on the Knights of Sherwood Forest reported approvingly of the H.C.R.'s recommendation that the knights be officially recognized, and that the executive council prepare all business matters outside drill work. This was also referred to the laws committee.

The finance committee's report dealing with a number of matters was presented. The chief recommendation was a levy of 60 cents per annum, an increase of 10 cents, for management purposes. The report was adopted.

DEADLY RATTLESNAKES

Kill Three Children Who Put Their Hands in a Snake Nest.

Sullivan, Mo., Aug. 30.-Yesterday evening three children of a widow named Jenkins, while at play, went to a place near the barn to gather eggs. The place was rather out of the way and dangerous, owing to snakes, which are numerous in that region. One child thrust its hand into what it supposed was the hen's nest and quickly withdrew it. exclaiming that the hen had picked its hand. The other two children put in their hands with the same result, and then set up a loud cry. The mother was at a well with the baby. and the alarm so excited her that she left the babe and ran to the assistance of the three children, who, it seems, had been bitten by a rattlesnake Dur. ing the excitement the little babe fell into the well and was drowned, the three other children also died.

Indianapolis, Ind., Aug. 30.-Coroner Carter's jury has brought in a verdict that the remnants of the body found in the chimney hole of the house at Irvington are the remains of young Howard Pietzel, and that he came to his death through the instrumentality of cyanide of potassium administered

by H. R. Holmes. Towards the conclusion of the inquest some interesting testimony was given by Druggists Navin and Perry. John Navin said that Holmes had visited his store frequently during the first week of October. Several times he purchased a solution of cocaine, and one time called for for grains of morphine, dissolved in a two drachm vial of water. Dr. Navin readily recognized of which by the photograph. Druggist Perry sold Holmes at one time a pound of chloroform. This was on Oct. 2. Holmes several times lounged about his drug store, accompanied by a little boy, whom he said was his son, and for whom he bought candy. As recognized by the photograph, the boy was little Howard.

Dentists and doctors also contributed

to the evidence that the remains were

those of young Pietzel. During the day Drs. Thompson and Barnhill cleaned up some of the bones found. The lower part of the intestines and stomach, with parts of the liver and spleen were found, also the first vertebrae at the base of the skull. The Adam's apple and the cheek bones. The physicians say there is no doubt that these are the remains of a boy of the age of Howard Pietzel. In the charred mass that was pulled out of the chimney hole fifteen teeth were found. Dr. J. Q. Bryan, a dentist, was called in. He sorted the teeth, and found seven upper and eight lower teeth. He set these in imitation jaws of plaster paris and they were put away in the box that went to the coroner. There was also found a piece of the lower left jaw bone, containing the sockets of a 6year-old molar. The Irvington physicians are of the opinion that Holmes gave the boy cyanide of potassium, and while he was under the influence doubled the body up and put it into the stove, after which he covered it with cobs, pieces of trunks and chunks of Then he saturated the pile with coal oil, and reduced everything, as he supposed, to ashes. After the body was destroyed and the tove cooled down, he shoveled the ashes into the stove hole. The stove was in the kitchen, and Holmes was not aware that there was an opening in the flue in the cellar beneath where the stove stood. It was the failure to find the opening that brought about the discovery of the charred remains. It was suggested that perhaps Holmes might have got away with some other missing persons at the Irvington house, but Detective Geyer thinks not, as all the others had disappeared before he rented this house, and besides no women were seen about this place. The Philadelphia officer is of the opinion

Calverley, the wire walker, fell from a wire at Pleasure Beach this afternoon. He dropped 50 feet, but struck on his right hip in sandy soil, and was not mortally hurt. His hip and shoulders were bruised and his right eye blackened from hitting a hook on his pole. He ascribed his fall to perspiration on his hands. Calverley fell in Trenton two summers ago and nearly lost his life.

BLAZE AT ST. CATHARINES.

St. Catharines, Ont., Aug. 30.-Fire started in W. G. Sutton's shoe store on St. Paul street yesterday and in a few minutes the building and stock were completely destroyed. The adjoining buildings, occupied by D. W. Bixby's stationery store and McClung's drygoods establishment, with the contents, were damaged.

THE DOCTORS' CONGRESS.

Kingston, Ont., Aug. 30.—The Canadian Medical Association at yesterday morning's meeting, elected the following officers: Dr Jas. Thorburn, Toronto, president; Dr. Small, Ottawa, treasurer; Dr. Starr, Toronto, general secretary; vice president for Ontario, Dr. Fife Fowler, Kingston; local secretary for Ontario, Dr. John Matheing Wm. Martin, a bicyce thief, whose case was under consideration, "to the place for the next meeting.

J. R. BOOTH'S FIFTH LARGE FIRE Ottawa, Aug. 29 .- J. R. Booth, who has within the last year been a loser through four large fires, suffers to a considerable extent in the same connection through an other blaze which occurred last night at his log hanling station near Calendar, on the Grand Trunk. Damage to the extent of \$20,000 was done. The property destroyed consisted of large storehouses, sleepinghouse, offices, stable and other buildings. All the firm's cattle and horses escaped.

GRAND TRUNK'S LOW RATE. Chicago, Aug. 29.—The Grand Trunk has nnounced a round trip rate for \$18 from Chicago to Coney Island via New York, excursions to run Sept. 4 and 5, returning good to the 20th. This is the cheapest rate ever made between Chicago and New York, and causes much adverse comment from rival roads. Traffic Manager Rave says this rate simply shows to what extremes the giving of unauthorized excursions may lead

STAGE STRUCK BY A TRAIN. Owen Sound, Ont., Aug. 30.-The steamboat express, running at the rate of 50 miles an hour, today crashed into the Meaford stage at St. Vincent crossing, completely demolishing the vehicle. The three passengers, Mrs. Scarron, Mrs. Berrage and a little girl named Van Wyke, all from the vicinity of Meaford, were badly injured. The little girl had her hip broken and other injuries. The driver and horses were not injured.

CANADIAN VILLAGE ALMOST DE-STROYED.

Ottawa, Aug. 30.-The little village of Mechanicsville, which is a suburb of Ottawa, and consists of small wooden houses, the occupants of which are principally mill men, was visited by fire about midnight last night. Some seventeen shanties were burned, and between 40 and 50 people left homeless. The total loss to property is \$8,000. The city fire brigade rendered what assistance they could, although the fire was beyond the city limits.

Men Will Work Night and Day-Trelleys

Nearly 30 carloads of rails for the city electric line arrived during last night on the Grand Trunk from Montreal, being the first of the consignment ordered from the old country some months ago. And sharp at 7 o'clock this morning teams and men were at work scattering them along Dundas street between Wellington street and the ex-

hibition grounds.

While the rails were being distributed, another force of men were put to work tearing up the block pavement in the street railway portion of the road between Wellington and Waterloo and the blocks adjoining the outside rails from Waterloo street east. Up to the present there has been a doubt in the minds of the company as to whether or not the new tracks would be laid to the grounds before Fair time. It is almost a certainty now that they will. "Tonight," said an official to the "Advertiser," "we are going to start out a night and a day gang of men, so that not an hour will be lost. Everything will be rushed through with all possible speed and the line finished by Fair time."

This afternoon 50 extra men were put on. The old cobblestones have been removed to the car stables. Another

shipment of rails is expected from Montreal in a day or two. The Barber company have begun laying the concrete on Dundas street, and are making good headway. The block pavement on the west side of

Richmond street has been torn up. COULDN'T STAND DISASTER.

A Popular Young Montreal Stock Broker Commits Suicide. Montreal, Que., Aug. 30.-Alton F.

Cleerk, a very popular young stock broker, who was caught in the drop of wheat to the extent of a couple of hundred thousand dollars, and whose seat in the Stock Exchange was to be sold, shot and killed himself this morning in his office.

Before shooting himself he wrote to a friend named Turpin, asking him to see that he was decently and cheaply buried, and to see that his life insurance, if realized upon, was invested to the best advantage. When Turpin received the letter he rushed to Cleerk's office and found him sitting in a chair in his vault dead. He was a captain of the Duke of Connaught's Hussars and had become estranged from his wealthy relatives on account of his marriage, which was considered a mesalliance.

DANGER TO INTERNATIONAL COPYRIGHT Canadian Legislation May Permit of Importation of Reprints. (From Harper's Weekly.)

Considerable interest has been aroused among British authors and publishers by reason of the attempt to obtain proclams tion of the Canadian copyright act of 1888. The particular provision of this watch is most objectional to the British author and publisher is the one which requires, as a condition of obtaining copyright in Canada, that a book, etc., shall be printed and pubished or reproduced in Canada within 30 days after publication elsewhere, in default of which any Canadian printer may lawfully print and publish the same, being obliged, nowever, to give security to pay to the author a royalty of 10 per cent upon the retail

price of such publication. There can be little doubt that if the absolute right of Canada to legislate upon copyright is admitted by the Imperial Government, the United States international copyright law cannot long endure, and British authors will suffer in consequence. The Canadian market, considered as a market for Canadian readers, is of very little importance, but the Canadian market considered as a vantage ground from which to send unauthorized reprints into the United

States is of very serious consequence. This presents practical questions which have already been forced upon our authors by a late ruling of the treasury department

of the United States. Heretofore the proprietors of United States copyrights have had the aid of our treasury department in preventing the importation into the United States of unauhorized reprints of their works coming from abroad, so that careful authors, aided by the customs officers, have succeeded in fairly maintaining their copyright property. Of course, this has not been done absolutely, for the long frontier gives special facilities for the passing into the United States of the | ing in the vicinity until Sept. 9, leaving then garbled and trashy reprints coming from the Canadian presses. But the author has had his market fairly free from them.

By this new ruling, however, the Treasary Department has taken the position, in effect, that authors shall no longer have its aid in cases where not more than two copies of a work are imported, and that in such cases, if the copies imported are unauthorized reprints, the owner of the copyright must resort for relief to the courts, and bring his action for the forfeiture of the copies and for damages. As these reprints are generally of the very poorest quality, ACCEPTED THE CALL. and sell for about 25 cents each, the duty upon them is also remitted, under Article 1,036, Customs Regulation of 1892.

The effect of this ruling, which was promulgated last spring, has already been felt in the market, and the unauthorized reprints can now be readily obtained. Indeed, under the circumstances this could not be otherwise. It is well known that the Tauchnitz reprints find their way through English custom houses in great numbers, notwithstanding the earnest efforts of the customs officers to prevent it, aided by the publishers who honestly desire that the importation into England of such reprints should not take place.

Unless our Treasury Department recedes from its present position and co-operates with the authors as heretofore, the unauthorized Canadian reprints will seriously endanger the market value of all domestic copyrights, and materially reduce the profits of our authors.

This extraordinary ruling of Secretary Carlisle could, we think, be reversed on a proper presentation, and we are surprised at the indifference so far shown by American authors to the injurious significance of his ruling.

It will surprise many people to learn that Rose Harwick Thorpe, author of "Curfew Must Not Ring Tonight," is only 45 years of age. She wrote the poem that made here famous when only 16 years old.

BORN WITH THE CENTURY.

Township Dead.

Mrs. James Blakie, Aged 95-A Sturdy Pioneer

Perhaps the oldest resident of Westminster township died yesterday on lot 19, con. 3, namely, Mrs. James Blakie. Mrs. Blakie was born with the nineteenth century, having first seen the

light of day in March, 1800, in Selkirkshire, Scotland. There she married James Blakie, gamekeeper to Lord Napier. In 1834 Mr. and Mrs. Blakie, with their six children, came to Canada, and settled directly on the sixth line of con. 5, Westminster township, which was then a forest, scarcely broken by the pioneer's axe. The voyage across the Atlantic occupied nine weeks, and the family reached the interior via the lakes, landing at Port Stanley in a

sailboat. Mr. Blakie hewed out a home and gradually cleared a fine farm for him-self and his family. They underwent all the hardships of pioneer life and the worthy couple enjoyed the reward in their later days. Mr. Blakie died about fourteen years ago. Mrs. Blakie enjoyed remarkably good health until last, none of her faculties failing her, though her memory was somewhat impaired of late. She was apparently in her usual condition on the day of her death, but about 6 p.m. was seen to breathe heavily and suddenly ex-She had no ailment, but succumbed to the weakness of old age. POOR BUSINESS MEN-

Severe Criticism of the Dominion Gov ernment. (From the Canadian Grocer.)

This what may be termed lack of business sense is probably met with in its most pronounced type in the House of Commons and in the Dominion Cabinet. The latter body, besides being what is supposed to be the electorate in its essence, is also business infirmity in its essence.

With probably two or three exceptions, the members of the Dominion Cabinet no more realize their duty to the country than does a new-born babe its duty in life. If they do, they act as if they did not, and in any event it is necessary that the business men of the country should, by determined and persistent co-operation, lay the whole Cabinet on the operating table, and sever the offending and useless mem bers. And while the scalpel and saw are handy, they may as well try what

they can do with the House. The Archbishop of York is an acc complished amateur photographer.

MIDDLESEX COURTY.

James B. Donald, of Belmonth is ill with typhoid fever. Mosa township rate is 14 1-2 mills,

which will raise \$8,352 14. Reeve George Scates and wife, of Appin, have gone on a trip to Iowa. Miss Jennie Cobbin, London, is on a visit to her parents in Middlemiss. Newbury Methodists realized \$83 50 from a lawn social the other even-

ing. Deputy Reeve Angus McTaggart, of Appin, has gone with more cattle to Glasgow.

Mosa township will borrow \$1,000 to pay current expenses until the collector starts out.

The North Dorchester Fall Show will be held at Dorchester Station on Wedsesday, Oct. 9. Mrs. A. B. McGregor has returned

to Appin from a visit to friends in London and St. Thomas. Miss Nora Bewman, of Hamilton, is visiting her sister, Miss Bowman, of

the high school, Glencoe. Joseph Tanner, Appin, lost a valuable horse through its having a leg broken by a kick from a stallion. Lightning entered the house of Abraham Logan, Moraviantown, one day last week and killed his only son,

Nellis. Mr. Jonathan Fuller, aged 89, an old citizen of Hastings, Ont., died suddenly on Tuesday night. He was born at Glencoe in 1808.

Three residents of Strathroy, Mrs. John Berdan, Archibald Moore and Neil Smith, have joined the great majority within the past week. The fall wheat around Belmont is

yielding about 20 bushels per acre. The oat crop has been harvested in good condition. Oats average about 50 bushels to the acre. Rev. W. A. Cook, wife and family, Mr. and Mrs. Deo, Mrs. Copeland and Miss Maggie Sutherland, of Dorchester

Station, are having an outing at Port A Wardsville correspondent writes: A sad accident happened in Newbury whereby a young son of Mr. Donelly, of that place was run over by a heavily loaded wagon and killed.

Glencoe had 25 successful candidates at the recent departmental examination. Glencoe stood ahead of three collegiate institutes, one of which is situated in a city, and the other two are in county towns. The membership of the Mosa and Ekfrid Fair this year is already very much above that of any previous year.

This, with the fact that there are \$250 more to be given, in special prizes augurs well for the success of the show on Sept. 26 and 27. The following from Middlemiss have gone on the harvest excursion to Manitoba and the Northwest: John Mc-Nabb, T. Watson, M. Murray,

Campbell, J. McCahum, D. McPhederaw, James McDugal, D. McLean, Geo. Marks, I. Thayer and Jas. Dawson. The Glencoe Public School Board has accepted the resignation of J. M. Corneil, who has removed to Melbourne. A meeting will be held in the school house on Saturday, Sept. 7, for the purpose of nominating candidates to fill the vacancy caused by the

retirement of Mr. Corneil. J. W. Campbell, of Glencoe, has removed with his family to Detroit. On the evening previous his son, John A. was presented with three volumes by the Presbyterian choir, of which he has been a valued member for some time. Mr. Campbell was one of the earliest residents of Glencoe, and was the first reeve, twenty years ago. Prior to that he served in the council of the

township of Ekfrid. Our Newbury correspondent writes: On Wednesday, Herbert, the 9-year-old son of James Connolly, while returning at noan in company with his brothers from the farm, was amusing himself driving the team home, when he lost his footing and fell off the wagon, and was run over by one wheel. Dr. Gordon found serious internal injury, the liver being crushed. The poor little sufferer lingered on till Thursday at midnight, when death came to his relief.

In Lobo the Society of Friends have been having a series of gatherings during the past week, which, coming connection with the regular halfyearly meeting there made the event one of special interest. The former consisted of four executive meetings of several sessions each, belonging to the General Conference, which is to be held at Swarthmore College, Pa., in August, 1896. There was one delegation of 47 members, which arrived by special car, representing the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia, besides numerous others from Ohio, Indiana, Illinois, and our own Province, of which about 25 went from Yarmouth and Malahide. The first meeting was that of philan-thropic work, which includes mission work among women and children, prison reform, peace and arbitration, demoralizing literature, purity, temperance, Indian affairs and other subjects. The second comprised principally district reports from the Sabbath schools throughout the seven different yearly meetings in the States and Canada. Third, educational, and fourth the religious committee. On Saturday the regular session of Pelham half-yearly meeting was held and in the evening, by special request, a very large public meeting was held in the Baptist Church at Poplar Hill, and was addressed by Aaron Powell, Plainfield, N. On Sunday two very large public meetings were held, and in the evening a young people's meeting, all of which made perhaps one of the most impres-

When Gen. Lafayette was on his last visit to the country two young men were introduced. He said to one: "Are you married?" "Yes, sir," was the reply. "Happy man!" remarked the general. He then put the same question to the other when the same question to the other, who replied: "I am a bachelor." "Lucky dog!" remarked the general.

The reopening of the theaters emphasizes the wane of summer as surely as does the rust that is creeping over the foliage of the trees and the passing of the straw hat. The various places of amusement will soon be all "under full headway, and then, Pip, what larks!" The theatrical and musical seasons bid fair to be more than usually interesting, and already we have a star above the horizon, the first bright star of the evening, who will twinkle tonight in the usual place at the Grand. First Citizen-The trolley demon seems insatiable.

Second Citizen-Yes, the new cars have an arrangement on the front to hold a man down until the wheels can get onto him.

Think of a young French woman, 18 years of age, who has just passed an examination for the degree of licentiate in philosophy, and is now a lecturer on the sciences of mind in the College of Rouen. She was a professor of philosophy in a women's college when she was 16 years o- ege. She is familiar with all the sciences, and a prodigy of learning generally, and has amazed the most learned men in France by her erudition. If she should ever marry, her husband will have a hard time of it if he should be imprudent enough to give her any "talk back." Perhaps she may escape matrimony. But will she escape the bicycle? And bloomers? Ah, there's the rub!

If we love much we shall find a way to do much.

In an interesting anticle by Miss Ethel McKenna we are told that the author of "Alice in Wonderland," charming, kindly gentleman that he ig, has a horror of anything approaching to publicity which might almost be called morbid. So much does he dread a chance encounter with the ever-wily interviewer, and even the possibility of a betrayal by an acquaintance, that he avoids making friends. Only a very few of those who surround him are admitted to his intimacy and enjoy the charm of his quick sympathy, bright intelligence and wide learning. To us who live in the world, and who are accustomed to have our thirst for information regarding those whom we admire administered to by enterprising Journalists, it seems difficult to understand how Mr. Dodgson can believe that the individuality of Lewis Cooil is entirely hidden in that of the spare, gray-headed, austere-looking don of Christchurch, but so it is, and he even takes a joy in the thought that his family name is hardly known outside the university, save to ardent

lovers of mathematics. Oxford is full of witty stories gleaned from the sayings of Mr. Dodgson, and any old Oxonian will point out many of the characters who found their way into Lewis Caroll's fascinating stories. "Alice" herself has long ago disappeared from university circles, but the "White Rabbit" still roams about the precincts of New College in the person of a well-known don, and the "Mad Hatter"-of whom Sir John Tenniel's picture was a perfect portrait-has only recently seceded from his business in the "High," where light and air. Each curtain is hung so for many years he was a prominent upholsterer.

Children are, perhaps, his favorite subject, but then he adores children under every condition.

There is something very pathetic in the figure of the old don living in his secluded life in the Oxford College, while his pseudonym rings through the nurseries of the world and is dear to the children, whom, without knowing, he loves. A constant stream of young life is flowing past him, bringing gleams of youth into his life as it does into the building of the old college which is his home. He still retains his overpowering affection for children, though nowadays they come but little into his life, for he has almost ceased to make friends outside his college.

One of the most heroic women of our time was asked by a conservative clergyman who thought she was "stepping out of her sphere." "Were you ordained to preach?" She answered, "No. but I was foreordained to preach the Gospel to the unsaved."

STRUCK THE RAIL.

Wm. Hogan Falls From the Top of a Car at Springbank.

Sustaining Very Severe Injuries—He Was Stringing Wires.

Wm. Hogue, one of three brothers, employed in stringing the troller wires, narrowly escaped fatal injury yesterday afternoon. He was stringing wires from the platform on top of the horse car at the loop new being built at the Springbank terminus. While the car drawn by a horse was in motion, one of the wheels slipped the rail, and the sudden drop and jar sent Hogue headlong to the ground. In falling he turned in the air, and came down a distance of 21 feet, striking on his back, directly on the rall. He was taken by the trolley to the city. Rev. Mr. Cullen, whose kindness is very much appreciated, accompanied him home, and secured a buggy at the end of the trolley line to take the sufferer to his boarding house at 138 Bathurst street. Dr. Ferguson, who is in attendance, found three ribs broken and a severe injury of the elbow and breast bone. There has depend too much en the shirt waist for also been some hemorrhage from the stomach and lungs, which is the most serious feature of the case. The medical attendant, however, hopes that ful sleeves are quite as cool as the shirt there will be no recurrence of the hemorrhage, in which case the patient's case would be one merely requiring a few weeks for recovery.

The Hogue brothers make a specialty of wiring trolleys, having, during the past six years been employed in a number of the large cities of Ohio. They have had a fair share of accidents in connection with the work, One is a cripple for life, while the other two have suffered from broken bones and ribs more than once. William is a powerfully built young man, and how the force of the fall did not fracture his spine is a marvel.

TRADE IN CANADA.

Dun & Co.'s Weekly Review of the Situation.

General Quietude Reported in the Montreal District-Better Cutlock in the Toronto Section.

Toronto, Ont., Aug. 29.-R. G. Dun & Co.'s weekly statement of trade in Canada says:

The retail trade in Montreal has been dull for some time, This complaint is common with both drygoods men and grocers, and the effects have been noticeable in payments, but the return of city folks from country and seaside should soon cause some improvement. With wholesalers, business still rules or the quiet side. The shoe factories grasp of the talents of Aunt Chlos or are pretty busy shipping off fall goods, and expect to be fairly employed up to the end of the season. Manufacturers, however, seem still to have a considersome spectacle for the home laundress; able amount of leather on hand, and if she essays washing it, the chances are if she essays washing it, the chances are dealers in the latter line complain of it is a more awesome spectacle afterward continued dullness. In groceries there to its owner. Nothing is cooler, nothing is nothing specially new, except that more comfortable to wear or more the western canners' combination is broken up and goods are being offered charming to see than a dainty, fresh wash gown; but nothing is less attractive than at figures lower than last year, nota wash gown so elaborate that it cannot withstanding the talk of a short pack, Heavy showers have caused some dambe washed, yet is in crying need of soap age to grain in low-lying sections, but the yield generally is good and the

crop as a whole is well saved. The business outlook at Toronto is considered favorable. An increased imrovement in some lines is noted, and the general tendency of prices is to-ward an increase. Crop returns are satisfactory and the increased circulation of money through the marketing of the crops will have a beneficial effect on trade. A good business is being done with the Northwest, the immense crops being the basis of the confidence placed in the ability of merchants up there to meet their obligations. Prospects are better than for several years, which accounts for the improved feeling in commercial circles. There is a fairly satisfactory business in hardware and iron; with prices firm. Hides and leather hold the advance. Wool is dull, the demand from the mills being limited. Lower prices for wheat are noted, there being sales of new red and white at outside points at 62 cents

to 63 cents. There is a better tone to the cheese markets with sales of July makes at 8 cents, and the prices of butter are firmer. Money continues easy at unchanged rates. A feature of the July bank statement is the large decrease of \$4,800,000 in current discounts for the month.

The failures for the week are 42, as against 40 for same week of last year.

A HIGH-TONED MURDERESS.

Sir Edwin Arnold's niece is now occupying her time picking oakum. This will be her only work throughout the ten years that she is to pass in an Indian prison for the shocking murder of her husband. She has expressed no regret, no penitence, for the deed, and the only thing that seems to occupy her mind is that she should be compelled to wear the loose blue cotton sacque and petticoat to match that constitute the attire of the female conviets in India. She must be a nice kind of woman. For it seems that after creeping up to her husband, who was taking his afternoon nap, she placed the muzzle of a rifle so close to him that his clothes were singed by the powder. And then, having killed him, she coolly went to bed and slept comfortably throughout the night until his body was found the next morning on the return of the servants, who slept, not in the bungalow, but in a building about 200 yards off. Mr. Lester, the victim, was one of the chiefs of the Bombay police and very popular. In spite of all this there is a good deal of sympathy felt for Mrs. Lester. She is a young, pretty and wealthy woman, accustomed to lots of admiration, devoted only to pleasure and frivolity. The idea of ten years' confinement in an Indian convict prison for such a woman as this is terrible.

BOARD OF WORKS.

Only Five Non-Cit zens Employed, and They Are "Sk lled"-A Question of Sewer Traps.

The board of works held a very brief session last night. The members present were: Ald. Wm. Heaman (chairman), John Heaman, John Nutkins, S. O'Meara, A. Callahan, E. Parnell, Mayor Little, and James Bell, secre-

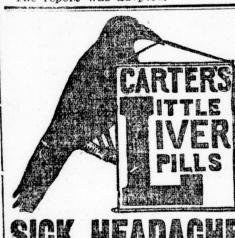

The latter read a communication from Dr. Cl. T. Campbell, chairman of the Board of Health, asking that proper sewer traps be put down in faulty cases. A great deal of discussion ensued as to the best style of trap. Ald. Nutkins and John Heaman objected to the traps at present being used on Dundas street and wanted "North's No. 2" put down instead. The engineer said that it would cost \$400 to change them, and said further that the present style of traps were in use in Buffalo, Toronto, and other large places. He judged them to be perfectly satisfactory and said that all the city had on hand of that kind were down.

Ald. Nutkins then moved that the North No. 2 trap be used in future and the motion carried.

Thos. A. Browne, secretary of the Fair Board asked that the committee replace the railing which had been removed from the Agricultural Hall while it was used for dance and drill purpose

Engineer Graydon made the following report: "I have made inquiry as regards the men employed by the Barber Asphalt Company and the London Street Railway Company, as directed by motion of Ald. Parnell, and I find that with the exception of the foreman and three skilled concrete mixers, the Barber Company have employed all citizens of London, and pay them the best wages. The London Street Railway Company have none but citizens employed, except on the overhead construction, and in that case only the bosses. The wages paid are not the standard in some cases." The report was adopted.

Toronto papers are urging citizens to secorate and illuminate their houses and stores during exhibition week in order to impress strangers. This is necessary in Toronto than in London, for here the natural beauty is in itself striking; but at the same time, Forest City should be seen in the rayest garb during the great Western Get your flags and lanterns

Labor Day comes within two weeks after the civic holiday. For seven weeks-from July 1 to August 19-there is now no public holiday. The London City Council of 1896 must equalize matters. The civic holiday might very fairly be observed on the first Monday in August.

The oyster season will open on Monday next. This year the crop is the largest and best for years. On account of the dullness of trade last year, there was a comparatively small demand made upon the beds. During the past four mouths without the "R" the spawning has multiplied a millionfold, and in consequence the output will be the largest for many seasons.

"If manufacturers of agricultural machinery are permitted to import free of duty iron used in making a reaper intended for export," queries the Toronto News, "why should farmers be taxed on the reapers used in harvesting grain, which is also intended for export?" Why, indeed? Because the high tariff beneficiaries give their money and influence to maintain the inequitable arrangements. The farmers are fools if they continue to stand

WHY PLAYED OUT AT SIXTY? Mark Twain, having gone on a lecturing trip around the world, to raise money to pay off indebtedness incurred in an unprofitable partnership, several contemporaries join in expressing doubts as to the result at his time of Mie. They say he is 60 years old, and therefore ill able to make money. That entirely depends upon whether or not he takes the proper method. Some men are old and played out at 30, because they do not have the knack of adapting themselves to the needs of the day and to their surroundings; others are young at 60, and even at 70, because they possess that spirit of adaptability and energy. Gladstone, the greatest living Englishman, was three times Premier of Britain after he was 60 years of age, and he has done the greatest and best work of his busy life within the quarter of a century embraced in that era. And he s working yet.

It is possible for a primarily healthy man, by worry, by dissipation, or by both combined, to make it next to impossible for him to earn a living after he is 60 years of age, but the correct liver should be able to work along till he is at least three score and ten. If he does not require to work for bread and butter, he need not be idle. He can find opportunity to work for the good of others,

PRICE OF LAND IN ENGLAND. some idea of the value of land in England at the present time is gleaned from a letter to the Bowmanville Statesman, written by Mr. M. A. James, its editor, now on a visit to the old land. Mr. James visited the farm of Mr. Fred W. Brooks, of Wellington, Somersetshire. This typical British farmer is a Canadian, the son of Mr. J. F. Brooks, Courtice, Ont., and by adopting the best methods he makes farming pay him well. Mr. James tells us that "Mr. Brooks has added some fields, without buildings, to Middle Green estate, and one nine-acre field cost £1,700, or \$8,500, and rents for \$300 a year for pasture to a milk dealer; 22 acres more cost £2,900, or \$14,500, and rent for £3, or \$15 an acre. The tenant pays the taxes in each case, which amount to £1, or \$5 an acre, Another 22 acres cost \$500 an acre," How Ontario farmers would rejoice if they could sell their farm dands at such prices as these!

THE IRISH LORD LIEUTENANCY MAY BE ABOLISHED AND A ROYAL RESIDENCE ES-TABLISHED.

There is a prospect that the new Government of Great Britain will abolish the Lord Lieutenancy of Ireland, and reorganize the Castle Government. This plan, which it is hoped by the opponents of home rule will meet with general favor, is being earnestly press ed by the newspaper organs of the new Administration, as well as by Irish Conservatives. Col. Saunderson, who may be regarded as a leader among the Irish Conservative M. P.s. has written to the Times indorsing the scheme. He holds that Ireland should be placed in exactly the same position as is occupied in Scotland: that is to say, there should be no pretense of a national government, but Irish interests should have their special supervisor in the Cabinet, just as Scottish affairs are looked after by a Secretary of State for Scotland. He would substitute a Secretary of State for Ireland for the present Viceroy and the subordinate official who bears the technical title of Chief Secretary to the

To make this change more palatable to the people of Ireland, it is suggested that the island should share in the pomp of royalty. Outside of Dublin Castle, Ireland has never had a royal residence in its midst. Scotland has such a residence at Balmoral, in which the Queen, surrounded by members of the royal family, annually spends sev eral months. It is suggested that a similar royal residence should be set add to the interest of a meet to grant up in Ireland, and that it should be tenanted for a portion of the year, if not by the Queen, then by a prince of the blood royal. The proposal is made that one of the largest of the great Irish country houses should be purchased and fitted up at the public expense as | whether the young man can long cona summer and autumn residence for the Duke and Duchess of York, it being further understood that the place should be kept up by the nation, and that an allowance of \$50,000 should be made to the duke for entertainment. To effect this change it is claimed that no new burdens would be necessary, as the abolition of the Viceroyalty would leave the imperial authorities with \$150,000.

Irish Nationalists, and in their ranks are to be found two-thirds of the people of the island, will not look with favor on this scheme, if we are to judge them by the views they have hitherto expressed with regard to local selfgovernment. They have never taken kindly to the office of Lord Lieutenant. though Viceroys of the stamp of Lord Aberdeen have been personally very popular, and Castle Government has been abhorrent to them. But they have not favored the extinction of the central Irish government. Their view has been to have Irish self-government established on a basis somewhat akin to that on which we in Ontario have selfgovernment. They consider that the extinguishment of the office of Viceroy, in the manner indicated, would be a further step in the annihilation of that nationality which they hold dear. They do not desire to have their local concerns swamped by imperial considerations. They approve of the office of Viceroy, but desire that he shall reign and not govern, being responsible through his Ministers to the local legislature of Ireland. Then the sentiments of the people would be understood and respected as they cannot be under a Castle regime which they have detested. With the majority at its back, however, there are strong reasons for believing that the Conservative Administration now in power will refuse to recognize these aspirations, will abolish the office of Viceroy and will still further centralize the management of the local affairs of Ireland.

Of the manuscripts left unpublished by Robert Louis Stevenson at his death (not many, by the way), the first to reach the public is a collection of very original "Fables" in the September number of McClure's Magazine. This magazine is splendidly illustrated.

The Nickel Magazine is a perfect wonder. It is only 5 cents a monthly number, yet it is well written and illustrated. Among the illustrated ar-"Striking Novelties in the Playhouse," in which a sketch of Miss Julia Arthur, the Hamilton, Ont., supporter of Irving, is given. Published at 51 Summer street, Boston.

The beauty on the front cover of the September Jenness Miller Monthly is sitting a horse "man-fashion," yet looks withal most modest, sweet and woman-ly. This number of the monthly is, as usual, full of entertainment and instruction. It is full of generous up-to-date hints for women, from the most helpful advice on the feeding of school children up to a description of the most advanced educational pro-

The mayor of London and City Council, or the Board of Trade, or both combined, should make suitable arrangements for receiving Sir Rivers-Wilson, president of the Grand Trunk. Vice-President Price, and their fellow directors when they visit London in the next few days. This important investigating body comes to look over the belongings of the company, and to see how it can best promote the interests of the shareholders. But London is a Grand Trunk center, and what will conduce to the welfare of the coinpany is also calculated to bring prosperity to the people of this city. I do not know how the president and his associates feel on the concentration of the railway shops question, but I do not doubt that in some suitable way Mayor Little will see to it that the matter is again brought under the notice of the G. T. R. authorities. In any case the G. T. R. magnates should be suitably entertained while here. observe that Toronto Board of Trade has taken action to duly welcome

them to that city. A prominent citizen has taken the novel expedient of resisting the payment of street watering on the ground that he did not get enough of it. In this respect he is unlike the writer and many others who have been spoken to. The complaint has been general that the water was laid on in far too great quantity. Instead of the block paving of some streets being merely made wet enough to keep down the dust, the water was distributed in big pools, which lay for a long time, making the crossings difficult of passage. What is needed is more sweeping and less water. Indeed, several Queen's avenue residents have told me that so little dust is there on that street that if it were swept frequently it requires no street watering. The sprinkling system should get an overhauling before another summer.

I enjoy sport, and I have attended with pleasure recent bicycle meets in this city. It is an exhilarating spectacle to see a dozen or more men, in the flush of young manhood, dashing down the track in friendly rivalry But I have my doubts about the propriety of awarding all the prizes on the prizes for style in riding, as well as for celerity? I confess I never look upon a "scorching" wheelman, bent double as if in great pain in the region of the stomach, without having the question raised in my mind as to tinue to ride in that cramped position without serious injury to his health. It may be all very well to encourage the professional riders to disport themselves in this position in order to show the limits to which the machine which they are hired to boom may be run, but for the ordinary pleasure seeker, I see nothing in it. For all such, prizes should be given which would permit the taking into account speed, combined with a graceful, easy, upright style of propulsion. The speed, of course, would not be so great, but the aesthetic side of the sport would be cultivated, and the health of wheelmen would certainly be promoted.

What say they? Mr. George Rendell made a good suggestion to me the other day. He finds that we have a variety of city clocks, which make greater or less noise every hour, but whose faces are not visible any distance off. What he moots is that some one should immortalize himself by providing for the city a clock tower, with faces that may be seen a long distance off, and a bell which will strike the hours with some thing like the distinctness of Big Ben in St. Paul's Cathedral, British metropolis The idea is a good one. Who will provide the memorial clock tower?

A TRAGIC REMINISCENCE.

A London correspondent cables: "One of the most interesting and pathetic of English customs-which, so far as my knowledge goes, is entirely unknown in America—is the frequent insertion in the death column of the newspapers of a memorial notice on the anniversary of the loved one's death. I am told that the notice in many cases appears on each anniversary until the mourning father or husband, mother or widow, himself or herself, follows the lost one to the grave. following notice, printed in the Telegraph's death column this week, gives one a shock. It will be remembered that young Hambrough, was found dead with a bullet through his brain, and that his friend and tutor, Alfred Monson (connected by blood with several of the most distinguished families in England) was acquitted of his murder after a sensational trial.

SOLDIERS WIN AGAIN. A game of baseball was played on Thursday afternoon between the V. R. I. Club, of Wolseley Barracks, and the Maple Leafs, which resulted in a win for the soldiers by a score of 21 to 22. The Maple Leafs are composed of players from the City League teams, and O'Brien, the star pitcher of the Pastimes (champions of the City League), who was in the box for them, was hit hard. Heavy batting by the V. R. I. was a specialty, T. Hawthorne making two home runs, and Pinel and Hall one each. The playing of Evans on second was excellent. The score:

ROBERT J. WINS IN 2:04 1-2. New York, Aug. 29.—Twelve thous-and persons saw Robert J regain at Fleetwood Park today the laurels that he lost at Cleveland one month ago, when Joe Patchen caught him out of form and beat him in one of the most sensational harness races on record. The opening heat was a good deal of a fluke. John R. Gentry was laid up from the start, McHenry's evident intention being to let Joe Patchen and Robert J fight it out, while he gave his horse an easy mile. At the half in 1:02 1-2 Robert had a lead of two open lengths and was going at ease. Curry called Joe Patchen in the third quarter, and the stallion commenced to cut down Robert's lead. Just as the spectators had climbed upon their seats in expecta-tion of a rattling finish Joe Patchen made a break, followed instantly by Robert J. Near the three-quarter pole, Mascot, who was third, shot to the front, opening a gap of five lengths before Robert J settled and started off after him. Andrews tried hard to keep Mascot in front to the wire, but Robert came on with that brilliant rush in the home stretch, and nailing the exchampion 50 yards from the wire, beat him easily in 2:06 1-4. Gentry beat

Patchen for third place.
In the second heat Gentry chased the leader, Robert J, down to the half in 1:00 3-4, showing a length in the rear as they passed that point. The terrific pace slackened as they struck the hill in the next quarter, Gentry, not being able to find the limit of Robert's speed and trailing two lengths back. In this order they came into the home stretch, McHenry making a hurricane drive with the North Carolina horse, but to no purpose, as Robert J, going slightly within himself, finished an open length in front of the whipped-out Gentry horse. Mascot was third and Joe Patchen a poor fourth. Cheers greeted the announcement of the time, :04 1-2, which beats the best mile ever before made in harness on the Fleet-

wood course. In the third heat the quartet went away closely bunched. The time to the quarter was :80 1-2, and to the half an even minute. Robert J at the pole was half a length in front, with Gentry lapped and Joe Patchen's white nose at Gentry's flank, Mascot half a length back under a pull. Patchen and Gentry broke in the third quarter, and from there to the finish it was a stern chase after Robert J. Gentry was four lengths behind at the finish in 2:04 3-4, Mascot as far back of him, and Joe Patchen

just inside of the flag. Summary: Free-for-all pacing, purse \$5,000: Robert J, b g...... 1 1 1

THE TRIGGER. SERGT. HARP'S GREAT SCORE. Rifle Ranges, Rideau, Ottawa, Aug. 30.—The weather for shooting on the Rideau rifle ranges yesterday was excellent. The Kirkpatrick match was under progress all forenoon. This is for a challenge cup presented by the Lieutenant-Governor and \$704 added by the D. R. A. Among the best shooting was the score of Sergt. Harp, Forty-eighth Highlanders, Toronto, who made ten consecutive bull's eyes at the 500

yard range. "The Bankers' Prize," grand aggregate, awarded to those competitors who have made the highest scores in the Hamilton Powder Company, MacDoug-all, Dominion Minister of Militia, Kirkpatrick and the Henshaw matches, was shot off today. Following are the leading scores: N. R. medal, badge and \$30, Staff-Sergt. Harp, Forty-eighth High-landers, 397; D. R. A. medal and \$25, Lieut. Ross, Thirteenth, 389; badge and \$20, Capt. AQUATIO. THE DEFENDER WINS. Highlands of Navesink, N. J., Aug. -Thousands yesterday witnessed the trial race between the new American yacht Defender and the cup winner of last year, the Vigilant. Among the yachts present was the English cup racer, Valkyrie III., which was eagerly scanned. In fact, the attention of the accompanying fleets seemed to be divided between the racers and Valkyrie. Defender secured the lead and held it all the way, though closely followed by Vigilant, until the last turn, when Defender left her. Valkyrie re-mained astern to give its crew a view of the contest, and seemed to have no difficulty in keeping a uniform distance behind the racers. Defender finished 18 minutes and 15 seconds ahead of Vigilant.

That the fire in the G. T. R. freight sheds at Aurora, Ont., was kindled by de ign. and that John Glenn was accessory thereto, is the gist of the verdict returned by the jury on the fire inquest, held there on Thursday. It is reported that the Marquis of Salisbury has requested the Porte to modify the proposed committee of control in Armenia by increasing the number of members of the committee to seven, of whom three shall be of delegates from the powers.

SEALS ARE DISAPPEARING.

San Francisco, Aug. 30.-The steamer Bertha, Capt. Hayes, arrived in this port last night from Unalaska and Bering Sea. She brought with her one of the most valuable cargoes that has ever come into this harbor. It is composed of seal skins, furs, whalebone and gold dust, and it is estimated to be worth between \$750,000 and \$1,000,000. Her passengers report the most utter failure of the whaling fleet. Capt. Hayes says that all the sealers who went into Bering Sea fared poorly. The seals in the vicinity of Pribyloff Islands, it was learned, are fast disappearing, and they are even more scarce outside the prohibited

THE CANADIAN TRADE CON-

GRESS. will meet in the City Hall at 9 o'clock on Tuesday morning, at which hour Mayor Little will welcome the delegates, who come from all part of the Dominion. At the close of the afternoon session on that day the delegates will be taken for a trip over the electric railway to Springbank, where refreshments will be served. On Wednesday, at the close of the day's debates, the delegates will be entertained to a carriage drive to the Military School and to the Asylum for the Insane. On Thursday evening a complimentary banquet will be tendered to the visitors at the City Hotel, which will be the

quarters of the executive during the sitting of the congress. The congress will close on Friday. Though no very burning question is likely to occupy the attention of the congress, some lively debates are anticipated. The executive council will propose certain amendments to the constitution, but some local labor leaders do not consider that these amendments go far enough, and will move to change them. There is a strong feeling in organized labor in this city for the formation of a Canadian Labor Federation. Among other ques-tions, that of bonused child and adult

immigration from other countries will be fully discussed. The following are the retiring officers of the congress: President, Patrick J. Jobin, Quebec; vice-president, Alex. R. Macdonald, Ottawa; secretary-treasurer, George W. Dower, Toronto; executive committee, for Ontario-Edward A. Connell, Ottawa; John Armstrong, Toronto; David A. Carey, Toronto; for Quebec, H. La-force Langevin, Quebec; Napoleon Page, Hull; Wm. Darlington, Montreal.

KNIGHTS TEMPLAR RETURNING

The Great Conclave Over-Traiss Taxed to the Utmost.

Boston, Aug. 30.-The great triennial

conclave of the Knights Templar closed today, and early this morning thousands of visitors began to leave the city. Many have departed already, but there are arge numbers who will remain in this vicihity in small parties for a week and longer. Nearly all of the commanderies closed their head-quarters, however, and before night will disband. The trains going out in every direction today are being run in several sections, and it seems as if the roads could hardly provide cars enough to accommodate the crowds. Small mountains of baggage fill the baggagerooms, and the streets near the depots have been crowded all day with knights, accompanied by bands playing "Auld Lang Syne," "The Girl I Left Behind Me," and similar melodies. The Templars who do not leave the city until to-night or later went on excursions in every direction today. The last session of the Grand Encampment opened at Masonic Temple at 10 o'clock this morning. At the conclusion of the business session the new grand officers were installed.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly, and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for

cholera, dysentery, etc., in the market. The present hour is Love's kingdom; gratitude caims the hour that is past, and hope the hour that is to come

Busy as nailers. No waste of time here. The sound of the mallet is to be heard in our basement breaking into the large wooden cases containing merchandise for our various departments. Imported Dress Goods are amongst every shipment in such quantities that would make a faint-hearted buyer tremble. Last season we doubled the size of our dress goods department and this, still more space will be required.

BLACK.

The largest shipments of Black Dress Material ever received by us are on show.

before Judge Woods at Stratford on a charge of perjury Wednesday. It ap-pears that Gibson obtained a marriage license from Thos. Fullarton at Atwood recently to marry Mabel Baker, of Listowel. He made affidavit that he was a resident of the township, and that the girl was 18 years of age, whereas she is not yet 16 and is unwilling to marry. It is also alleged that his anxiety to marry her was because he had transgressed the law which leaves him amenable to the workings of the Charlton Act. The mother was a party to Gibson's scheme to get the marriage consumated, and Rev. Mr. Gunner, of Listowel, was approached to perform the ceremony, but considering the affair suspicious, he declined. Gibson pleaded not guilty and elected to be tried by Judge Woods. The case was remanded until Sept. 9.

OUR NEW FALL

HAVE ARRIVED.

The Most Beautiful Patterns We Have Ever Shown,

agine Themselves to Disease.

It Is a Mistake to Pour Down Medicine for the Simple Ills of Life.

Common complaints are often the most dangerous. This is so because they are generally disregarded and ultimately become chronic, or lead to more serious complications. Take, for example, constipation of the bowels. There is no more general a complaint known to man, and yet it is lightly thought of, and passed over. The fact remains that thousands of our best men and women are slaves to supposed diseases, which baffle all skill, because the seat of the trouble is not reached. Nature needs nature's remedies, which is common sense, as all will recognize. Would our symptoms be out of order most of the time were it not for our stomachs and what we take into them? Ask your physician the most common of all foundation for the ravages of disease and from which grows languor, dizziness, nervousness, headaches, sallow and bad complexion, and in fact almost all the ills that afflict manking, and he will tell you, "CONSTIPATION." To cure it permanently it must be done carefully and without the use of violent drugs, and the only safe and best cure known at the present time is Karl's Clover Root Tea, which is composed entirely of herbs, nature's greatest remedies. As a spring medicine it cannot be equaled, and the words below from a well known Ohio man testify to the facts:

New Vienna, O., May 12, 1894. Messrs. S. C. Wells & Co., Le Roy, N. Y.—Gentlemen; For some years I have been troubled with a skin disease which was very annoying. I tried several so-called blood purifiers, but without avail. At last I was induced to try Karl's Clover Root Tea., and am happy to say it was just the medicine I needed. My doctor was astonished at the cure, and says there must be great merit in such a medicine. Karl's Clover Root Tea is marvelous in its effect, and deserves all the praise given it. I cheerfully recommend it to all sufferers from aggravated or chron-

ic cutaneous affections. Very respect-fully yours, A. H. HUDSON. The American projectors of this boon to mankind have unbounded faith in this great regulator of the bowels, and from the wonderful cures worked by it as attested by hundreds of testimonials unhesitatingly recommend it to all suf-

WHEAT-Sent.... On 'Change

Special to C. E. Turner, broker, Masonic Temple, from Kennett, Hopkins Company. Chicago, Aug. 30.—The crowd started in to sell down the market at opening, but as soon as it was known that outside markets were considerably stronger than yesterday the tide turned and a quick advance followed. Longs seemto hav realized on the bulge and a good many scalping shorts covered. market being thus evened up, sold back below opening prices Primary receipts were the heaviest this season and exports but 47,000 in wheat and flour'

were not altogether satisfactory to Press dispatches failed to confirm yesterday's reports of large engagements for export There are fifteen cargoes off the English coast waiting for buyers Stocks at Minneapolis and Duluth are expected to increase 500,-000 and the visible will probably show a small increase Increased receipts in the Northwest are looked for and lower prices are thought probable.

Cables came in higher at the close, but

Corn and Oats-Firmed slightly, with wheat, but soon turned weak again under free selling by local operators. Demand for cash corn has not been quite so good, but the premium is unchanged. Provisions sluggish, with little business, except changing over into later months.

PECULIAR FIND

Made in a Talbot Street Residence the Other Day.

A Slot Through Which Letters Dropped-Sad Story in Connection With One.

A very peculiar find, which has created more than usual interest in postoffice circles, was made at the residence of Mr. John Green, 672 Talbot

street, about a week ago. Mr. John Wilson, a postman of considerable experience and undoubted honesty, delivers mail in the district in which Mr. Green's house is situated One morning recently he had three let-ters addressed to the house, and after dropping them through the slot in the door, he pulled the bell and mentioned the number to the person who answered the ring.

Only two could be found, however, on the floor.
Wilson, thinking that he might possilly be mistaken, went to the house he had called at previous to Mr.Green's but finding that only the proper mail had been left there, he decided that the letter had been lost. He returned to the office and reported to that effect, but while this was going on an experiment had been made at Mr. Green's house which led to the find. One of the family, while not wishing to lay any blame on the carrier, secured a slip of paper about the size of an envelope and dropped it through the opening in the door. Instead of falling onto the floor the paper was seen to slip through a very narrow opening between the radiator and the woodwork of the floor. The disappearance of the letter was explained. The landlord was called in, and after a little time six letters were drawn from under the floor. Five belonged to the family. One was addressed to a young lady who had been visiting at the house and had just returned to Detroit Another was addressed to Mr. Green's mother-in-law, was dated Detroit, and informed

her of the illness of her son in the border city. The sixth had been under the floor for over two years, and in connection with it there is a very sad story. The former occupant of the house was a cemmercial traveler, and in the summer of 1893 he went on a trip, leaving his wife and a very sick daughter at home. When a centain point was home. When a certain point was reached, he wrote his family, posting them as to where he would be during the next few days. The letter, however, was the one which slipped under the floor, and the traveler, not hearing from his wife, returned home expecting to find the daughter much improved in health. Instead, he found that the child had died and was buried. The find has more firmly than ever impressed the postoffice authorities with the necessity of having a wire cage or tin box fastened to the inside of the door for the reception of letters. It very often saves a postman from being accused of misdeeds when a money letter is mislaid, and often saves an endless amount of trouble.

The Secret Out

The doctor, swaying with the sway-ing of the house, gasped nervously at this. Was it with sympathy with Molesworth, or because of a hope it called into life—a hope to which he dared to give no name.

'Let me go," he cried. "Y am a bigger man than you, and-" But Q would not listen to this either. "No," said he, "I am in the way of my duty and big or little I will not shrink.

And the doctor had to stand still in the horrid darkness of that room, grinding his palms together in his suspense, while Q made his brave attempt to penetrate the mystery of what lay beyond this swaying door. His first steps were taken with great caution, for though he speedily found there was a firm support for his feet, the gusts that blew by him were so powerful he was afraid of being swept off by them into the roaring waves be heard plunging below. But he soon found that even this danger was wholly an imaginary one, as the platform to which he was vaguely chinging was wholly surrounded by a railing fence, save at the sides, where a high boarding supported some sort of a roof. But this discovery, while adding to his sense of security, deepened the perplexity of a situation which had now come almost inexplicable to him. For the place he was on had resolved itself into a simple balcony overhanging a turbid and dangerous stream, and on this balcony, there was no shadow or sign of any human being but himself. This was so apparent that he did not linger long upon it, but came back and told the doctor how little he had discovered.

Greatly satisfied, the latter at once rushed out on the balcony. But as soon as he found himself in the swirl of the tempest he experienced such a feeling of revulsion at the thoughts to which Its fury gave rise, that he turned back, and would have retreated in horror but that a power above himself seemed to hold him in check and bid him to take one look into the darkness beneath. He did so and heard, or thought he heard a sound that was not like the other sounds which had hitherto come to his ears. Yet he could not tell in what the difference lay, nor determine whence they proceeded. Perplexed, he drew back, with a feeling of insecurity which he stood seem heaving under his feet. As he did so, he noticed how free the balcony was from snow, owing probably to its exposed position and the fact that it faced in such a direction that the wind continually swept it from end to end. His overcoat was white, however, and he came in as cold as if he had stood there an hour

instead of a minute. But he soon found he was capable of a greater chill yet. For just as he crossed the threshold he heard his name spoken in such suppressed tones, and from a quarter so mysterious, that whatever warmth was left in his veins

At the same instant Q's hearty voice spoke up from the dim interior, say-

"I am going to take a hurried look down-stairs. Though it will be a new thing in my experience, he may have stolen by me and got down that ladder without my hearing him. At all events I may as well make sure." And without waiting for reply he put his own foot on the ladder, and with the stealthiness of a cat began his de-

The doctor thus unexpectedly left alone, with a mystery he was as far from understanding as Q himself, hesitated for a moment, then stepped again to the balcony. "Molesworth!" he called, "are you

He had not expected any reply, much less the appearance of the man thus He was therefore greatly shocked and in a measure stunned, when almost at the utterance of this name, a figure evolved itself out of the night and swirling snow, and coming forward, a shadow amid shadows, earnestly exclaimed:

'Don't speak; I am here, but I must soon be gone. Get me my coat, Cam-eron, and bid me God speed, for we shall probably never meet again." But where have you come from? Where have you been hiding? Did you hang from the balcony by your

"No, there is a trap in it and a boat underneath; I have been lying coiled up in that. Though I know nothing of the owner, I must borrow that boat. It will at least land me on the other side of ithe river; and if is destroyed you will see that he paid. It has oars, and being suspended here by block and fail, I shall have no difficulty in lowering It into the water. I should have atmpted it at once, but I need light. s soon as the first glimmer comes shall be gone. Only bring me my coat and be careful that you keep detective away from this side of

the house till I am out of sight." Dr. Cameron wrung the hand which was proffered him and dashed through hall towards the room where he had eft the coat. Dragging it from the sittle, he had regained the door was just reaching it across the hall to Molesworth when a light figure sprang between them and peering into either startled face, laughed:

"So; so our friend has made his appearance, has he? Well, that's good! we will have all the merrier breakfast."

shivered in an instant, showed that instantaneous command over himself which is born of an extreme situation. "Yes," he remarked in a dry tone,

"Dr. Molesworth's appearance here in his own proper character is a surprise. But he doubtless knows the welcome he would receive and could stay away no longer, especially as he was cold without the coat which I have for so long a time selfishly appropriated. Cannot you find him a corner by your fire? Hanging from a balcony in a raging storm is calculated to chill a man even when he is made of such stuff as

our good friend here." "I should say so," burst from the astonished detective. "Has that been the form which your nightmare has taken this morning?" he inquired, with the utmost politeness, of the stern and silent physician.

The answer he received was a quick, almost horrified look, which had no sooner shown itself than it disappeared. "I do not know you," returned Dr. Molesworth, coldly, "and do not even know your name. You will therefore not expect me to answer your impertinent questions."

At which Q shrugged his shoulders with the utmost good-nature and launched out into some merry story that if not entirely appropriate to the occasion, at least had the effect of bridging over a moment of embarrassment, which was even greater and more full of intolerable emotions than his facile but far from deeply observant mind could suppose.

It was followed by a series of jests and good-humored banter, as the merry detective, ushering them into seats by the are, passed around them and before them in his self-imposed task of getting up a comfortable breakfast. Nor did he stop with these. As the increasing daylight gave him the op-portunity of catching Dr. Cameron's eye, he allowed himself the pleasure of indulging in numerous allusions highly amusing to himself, and as he supposed exceedingly gratifying to his companion. Dr. Molesworth must make himself at home. It was another man's house and another man's fuel they were enjoying; but that made no difference. It was as free to him as to them, and he must not think of going back into solitude again. Dr. Molesworth was on his way back to New York, Very good; so was he; they would go together. Indeed, he meant to make it so cosy here there would be no temptation for any one to leave a spot where comfort was plenty and the society good. And so on and on, jest following jest, and laughter following laughter, till the noise brought up the three strangers from below, and any oportunity which the two doctors may have anticipated for momentary speech together, was lost.

Meanwhile, the morning had ad-

vanced, revealing such a scene of stormy desolation as none of them had ever beheld in this part of the country. On all sides there was noth-ing to be seen but enormous drifts, save where the stream cut through. No house, no road, no token of human life anywhere, nothing but snow, snow, snow, on the earth and in the sky, and though the wind was perhaps less furious than in the night, it still swept the country, with sufficient fierceness to make any thought of leaving their temporary refuge impossible. Indeed, they were by this time so completely hemmed in by drifts that simple egress would be difficult, and after one of the party had made the experiment of treading the snow that lay piled about the door, and found that it was of hat light, powdery nature, which allows you to sink to your knees at every step, they all settled down to the fact that they were in reality showbound and must reconcile themselves to the situation with as much grace as a very meagre larder and a rapidly decreasing store of wood would allow. Dr. Molesworth and Dr. Cameron alone knew of a means of escape, and while they scrupulously avoided all communication with each other, they were both vividly conscious that each was thinking of the boat swinging under the balcony, waiting for the first adventurous hand that would find an opportunity of lowering it. But that moment seemed to have retreated in-definitely. For without being in any special way obtrusive, Q managed to be always on the scene. And thus the

morning passed. (To be continued.)

-The concert by the Seventh Band in Victoria Park last night was attended by the usual thousands.

-Mr. Fred Spittal, of Milne, Spittal & Co., has returned from a purchasing trip to New York and other eastern cities.

-The tax collectors were kept very busy vesterday. Over \$26,000 was paid in, making about \$125,000 received on this year's taxes. -In the shooting for the bankers'

prize an Thursday, at Ottawa, Pte. Robson, of the Seventh. scored 367 points, winning \$4. -Among the winners in the Kirk-patrick rifle match at Ottawa was

Pte. Robson, of the Seventh, who won \$12 with a score of 93. -In writing recently on the subject of advertising, John Wanamaker said: One big dinner won't keep up the reputation of a house, but steady good cooking does it.

-Mr. A. C. Chapman, Grand Trunk Station, is the proud possessor of a handsome silver-mounted walking in-law, Mr. T. G. Davey.

-Peaches were rather plentiful on the market yesterday and sold at \$2 75 per bushel basket. Smaller baskets ranged from 65 cents to 90 cents, according to the quality. The crop is fairly heavy and shipments are arriving almost daily.

-There is an art in advertising, and it takes a man of ideas to successfully present the claims of a business house for patronage. A New York laundry recently made a hit by the couplet: "Sunstruck collars brought to in short order—2 cents per collar." -The boat by which Mr. and Mrs. T. G. Davey returned from England also brought back Mr. Atwell Fleming, of Toronto, formerly of this city, and whose mother died in his absence with

the delegates to the Independent Order of Foresters' annual meeting in London, England, -Work has been commenced on the new railway bridges at St. Thomas. The contract does not call for the completion of the work until Dec. 31. Mr. Wm. Beddie, of Hamilton, who was appointed inspector of the stone work of the bridges has refused to act, and the board will now ask Mr. James Chalmers, of Simcoe street, to perform the

ANOTHER DRIVER FINED.

At the Police Court this morning Sylvanus Ensign, a driver on the Pall Mall line of the street railway, was charged with cruelty to animals. Mr. De Harte, the superintendent, admitted that the horse complained of had a very small sore on its shoulder and had been sent out of the stable against instructions. The policeman who laid the complaint, however, said the sore was about an inch and a half long and over an inch wide and evidently very painful, being of a running nature. "Charge admitted; \$5 or three days"

was entered on the blotter. A leading member of the London Bicycle Club was assessed \$1 for riding on the sidewalk. So was another youthful rider, Wm. Marshall, who resides at the corner of Chester and Ridout streets, South London, was charged with allowing his cow to run at large. He was dismissed with a warning. RECEPTION TO MR. JEFFERY.

Mr. A. O. Jeffery having been elected high chief ranger of the A. O. F. for the Dominion of Canada, it has been deemed proper to give him a public reception in the City Hall this Moore, William McCue, James Gleeson, evening, at 9:30 o'clock, on the arrival Valter Forrestal, Anthony Paris, John of the train from Guelph. A procession of Foresters, headed by the Musical Society Band, will escout Mr. Jeffery, H. C. R., from the G. T. R. station to the City Hall. The Robin Hood and Knights of Sherwood Forest drill corps will act as body guards for Mr. Jeffery. A good programme has been arranged by the committee, including addesses by Mayor J. W. SURE DEATH TO GRASSHOPPERS. A correspondent signing himself "Z" writes: "For the benefit of those who had their flowers destroyed, and even the plants eaten up last year by grasshoppers, I will send a sure cure for them: Those who know this recipe when the pests first make their appearance need not have any trouble with them. It is in general use on the Pacific coast, where they ate up the grape vines so fast that a remedy had to be obtained at once or all the vineyards would have been de-

Cure.

The Aylmer Express reports: "Mr. and Mrs. Chute, of Aylmer, desire that we should publish their testimonial and let other sufferers know what WILLIAMS' RGYAL CROWN REMEDY (Nature's Liquid) had done for Mr. Chute. He writes: 'For ten years or more I have been a sufferer with dyspepsia, and doctored with six of the most skilled doctors in this part of the country, but with little relief and no benefit in return for the very large doctors' bills that I paid. I tried almost every conceivable remedy, but all to no purpose, until April, 1893, I took to myself a wife, and it so happened that three years previous to our marriage she had been in poor health and used part of a bottle of Royal Crown Remedy, and knowing of its excellent qualities she prevailed upon me to give it a trial. I purchased one bottle of the Remedy and Pills, and by the time I had taken three bottles I was restored to good health, and my neighbors say that I am looking healthier than I have done for years. I believe Royal Crown Remedy to be the best value for the money on earth, and am, thankfully yours, WILLIAM CHUTE."
