These will undoubtedly increase Mr. Smith's majority. The town is celebrating the Liberal victory tonight. The Liberals are rejoicing, as this is the first Liberal victory in the town since its incorporation in 1887. Smith's election is conceded. The most remarkable change is recorded in Sault Ste. Marie itself, where Miscampbell's majority of 196 has been turned into a minority of 116. This is attributed to many causes-the Government's wise policy in coming to the relief of the unpaid employes of the Soo industries. and thus, indirectly, to the aid of the town and its citizens; the good work done by the Liberal candidate in securing Government assistance; his growing popularity; the fact that the Opposition candidate has not been a

An indication of the exodus following the embarrassment of the Clergue industries is shown by the decrease in the total vote polled today in the town — 936, against a total of 1,840 in

Bandmaster Rogan and His Canadian Trip-A Princess Gives Memorial to Colonial Soldiers.

London, Oct. 27 .- The St. James' Gazette says that this country and the United States can well afford to pass over some expressions by Sir Wilfrid Laurier in his criticism of the Alaska award. Canada is annoyed just now, as any private individual is annoved at losing a lawsuit. Sir Wilfrid Laurier, so to speak, has tied the horse's tail with red to give warning that it is safer to keep away from his heels. The true lesson of the award is the need of closer union and better organization. There should never again be both British and Canadian commissioners on such a tribunal. It should be composed of two parties only-the British and the foreign representa-

The Manchester Guardian says: "Sin Wilfrid Laurier's demand for control over foreign affairs as far as they affect Canada, strikes at the very root of the imperial position, and if pressed it must lead to complete overhauling of the ordinary conceptions of

imperial colonial relations." At a meeting of the Cheshire Chamber of Agriculture called to discuss preferential tariffs, H. J. Tollemache, M. P., referring to the suggested tax of five per cent on cheese, said he failed to see how such a duty would benefit English dairymen when colon-

Bandmaster Rogan, of the Coldstream Guards, expresses himself as delighted with his visit to Canada. He says that everywhere hospitality was extended to the band with a free hand. The trip was a grand success financially. The band played before half a million people. They never played the National Anthem so many times per day before as on the trip through Canada, Bandmaster Rogan was surprised to find that in the most out of country in this respect.

# ICHAMBERLAIN'S MONSTER MEETING

To Be Learned From Bound- He Addresses Workingmen's Conservative Association.

If His Policy Is Followed - The Gathering Passes Resolutions Indorsing His Scheme.

Liverpool, Oct. 27.-Joseph Chamberlain addressed another monster meeting in the Hippodrome here tonight under the auspices of the Workingmen's Conservative Association. Mr Chamberlain was given a tremendous reception. The meeting was organized as an offset to the recent action of representatives of labor unions in denouncing Mr. Chamberlain's posals.

Mr. Chamberlain devoted the first portion of his speech to the "dumping" of the manufactures of the United States and Germany in this country, which, he said, must result in depression.

With regard to the cry of dearer food, he pledged himself that his proposals would not add anything to the cost of living, on the contrary they would decrease the cost of living to the poorest families in the country. The speaker devoted the greater part of his speech, which lasted an hour and a half, to a powerful argument addressed to the working classes of the United Kingdom. He pointed out that when the movement for free trade was carried the working classes were neither represented nor consulted, but it was a movement of the manufacturers and the middle class. Now that the working classes were represented in Parliament their support was absolutely essential to the carrying out of his proposals which, he said, meant more employment. Emphasing the statement that it was impossible to reconcile free trade with trade unionism, Mr. Chamberlain pointed out the inconsistency of supporting a policy which admitted the product of the cheapest kind of labor without taxation. He said he believed the working classes of the United Kingdom were more advanced than many of their leaders, and said if this were true, he was confident his proposals would win. Mr. Chamberlain dwelt especially upon the shipping industry. He pointed out the greater growt shipbuilding as compared to that of Great Britain. He referred pointedly o Great Britain's loss of trade with Cuba where he said British conditions of trade had not been respected. "All our representations have been fruitless and America proposes preferential arrangement treating Cuba exactly as I want you to treat Canada." He said the adopting of his policy would encourage and stimulate the colonial shipping trade, and would not prevent the development of foreign trade. He articles imported, but more raw materials brought here in return for British finished goods.

In conclusion Mr. Chamberlain declared that Holland had tried and failed to keep command of the sea, and her position as carrier and merchant of the world without a productive capacity, and that Great Britain would be no more successful than Holland if she neglected to bind her colonies to her.

The meeting adopted a resolution eulogizing Mr. Chamberlain's services, indorsing Government's policy and declaring the advisability of binding the empire more closely to-

# SALE OF IRISH PILLOW SHAMS THURSDAY MORNING AT 9 O'CLOCK.

ADIES will thank us for putting on this sale. Trouble is the quantity will be too small for the number who will come for them. That's why we have named Thursday morning at 9 o'clock as the sale hour. The lot includes several dozen Irish Hand-Embroidered Pure Linen Pillow Shams, spokestitched with a wreath of shamrocks embroidered in each corner, guaranteed pure linen and hand work. This is part of a large order we placed some time ago, and we have very grave doubts that any more of them will reach us this year. They're the same make of Shams we offered some months ago, of which we didn't have nearly enough to supply the demand. As some may want these singly, to use as small teacloths or carving cloths we will meet your wishes, though it is unusual to break the sets.

# Thursday Morning at 9 O'Clock \$1.00 Each or \$1.95 Per Pair

At the same hour we will offer a limited quantity of Scarfs to match for dresser covers, stand covers and sideboard scarfs, same design and quality as Shams. These prices are exceptionally low for such fine qualities.

In the riding of Sault Ste. Marie the result was determined by the vote in the town of Sault Ste. Marie where a majority of 196 for Miscampbell was converted into a majority of 116 for Smith. Mr. Miscampbell's victory last year was accounted for by his connection with the Clergue interests, but it was surprising the "Soo" should have rejected the candidate of a Government which gave growth and prosperity to the town by its liberal policy toward the Clergue enterprises. The payment of the wages of those who were temporarily thrown out of employment by the financial troubles of the Lake Superior Company, was a corollary of the Government's general policy toward New Ontario and naturally created a sentiment in favor of the Liberal candidate on the present

### Street Railways and Municipalities.

"I say," said a man riding on the platform of a South London belt line car last night, "how old is Ann?" Nobody answered for a moment. Then an individual's curiosity got the better of him and he inquired:

"Anybody," suggested a wag. "No," said the first speaker. "It's on the level. I mean the puzzle that was in The Advertiser the other night." "See here," said another man, "you cut it out. I've worried about that blamed puzzle in The Advertiser, until I'm gray-headed. Give us a little peace,

HOGS AND A WOODPECKER

Manner. Harrisburg, Ill., Oct. 28. - Wm. Mc-Farland, a wealthy and prominent Wa-bash county farmer, a few days ago of 50 fine-blooded hogs. The story is

vouched for by any number of neighbors. Some time ago Mr. McFarland lost his voice, and he was unable to call his wife in the shadow of death, secreting drove of hogs, in which he took great pride, but he bridged over the difficulty hy training them to respond at feeding lime to the sound of his pounding on a board. In time they became thoroughly accustomed to this call, and whenever they heard the sound they would race toward it as if their life depended upon getting there first. Running short of corn a few days ago Mr. McFarlard thought to economize by putting the hogs in a woods pasture, where could shift for themselves. Unfortunately the pasture was full of dead

leaves, and in consequence wordpeckers were correspondingly thick. He had scarcely turned his back on the hogs, after turning them into the pasture till an old redhead on the far side of the wods began drumming on a tree. Being hungry for corn and recognizing in it the old familiar coal, the hogs, with one accord, raced for that locality. They had no more than ar-

This is an uncommon price, but then we do things that way here. A qualt like this (size 60 x 82), would sell anywhere at 85c-we could sell it at 85c if we wanted to-but we'd rather set you talking about this store and our low prices than stick out for what a thing is worth. If we sell a hundred of these great value quilts at 65c we'll be more in pocket than if we sold a dozen or so at 85c each. Then we have the advertising, you're greatly pleased; and we turn our stock over quickly. That's what we want—the volume of business—though we don't get as much for our goods as other people. STOCK MARKETS.

NEW YORK. H. C. Becher, broker, Bank of Com-merce building, received the following by ivate wire from Bartlett, Frazier & arrington today: New York, Oct. 281-Noon.-There is no articularly noticeable feature to the hading in the stock market today, and an aggressive tone on either side of the een a good undertone to the market, ut there is a slight feeling of nervous ess apparent throughout. The situation and St. Louis has been used as a bear argument, but without specific effect.

The stuaton argument, but without specific effect.

The stuaton argument are used as a bear argument, but without specific effect. Trading in the Gould stocks oday has been of a nature to attract ttention, and it is common gossip that a accumulation of these various issues, neluding Wabash, Missouri Pacific and Jexas Pacific, is going on steadily. Union Pacific was well bought and the railroad tocks generally are being well held. The fluctuations are not large, but the tone of the trading is such as to warrant hopes for the future of the railroad list. A weak feature today is American Car Dela and Foundry. All sorts of rumors concerning the dividend outlook have been Eric. heard, and they have been seized upon by a bear clique operating against the stock. Amalgamated Copper, preferred, has been relatively steady, although there are no bright hopes of a compromise in Montana. The industrial list has been N

fairly steady, but it is not so strong as the railroad stocks. Any decided move-ment in the market during the last session is likely to be upward rather than otherwise. Sales to noon, 25,700 shares. AMBRICAN MARKETS.

CHICAGO. By special wire to H. C. Becher, stock broker, Bank of Commerce building, from Bartlett, Frazier & Carrington: Chicago, Oct. 27.-Wheat-The market was lower today and at times weak. The news was not particularly bearish and there were a number of very encouraging features for the bulls. The domestic demand is remarkably well maintained and sales today to western millers were on a liberal scale. At the same time the export demand, which has been the weak point in the situation, has become much stronger this week. Duluth come much stronger this week. Duluth some scattered buying of lard for a while but later there was some sell-

resian shipments, while large are very unsatisfactory, giving the buyers endless trouble. It looks very much as though Europe would in a short time causing a weak close. Estimated receipts for tomorrow. 24,000 hogs.

NEW YORK. ecome a free buyer here of the better qualities of wheat. The condition of the new crop in the United Kingdom is critical owing to the unprecendented wet spell, which has impeded plowing and seeding. Conditions good for movement. The situation certainly warrants better values. We believe in

buying wheat everytime it turns weak. Estimated cars for tomorrow, 90. Corn was depressed by the weakness in wheat, the throwing over of long corn and the attitude of the bearish ment. The country offerings are still cron, 21c to 28c.

As usual, it is hard for the Telegram man to see the difference between hold-ups and requests for justice. The O, H. A. needs a western team and Peel's chances for reinstatement aren't being injured much by the St. John's attitude.

INGERSOLL MAY ENTER. Ingersoll, Oct. 27.-With the winter not far distant considerable interest is now being manifested in the organization of a hockey team eligible for the O. H. A. series. There is not a plethora of material in town, but it is believed there is sufficient from which to pick a fairly strong aggregation, and in certain quarters the matter is being enthusiastically discussed. There are many promising young players who could be recruited for a junior team.

STRATFORD DEFAULTED. St. Marys, Oct. 27. - Stratford has defaulted in the junior O. R. U. match, which was scheduled to be played here today between the Stratford and Parkhill teams, leaving Parkhill the victors of the district without a struggle. WAS A VERY CLOSE GAME.

The regular scheduled game between the Medical College and the Military College teams took place last night on the St. John's A. C. grounds. There has been a remarkable improvement in the barrack's team since it met the Meds first, and the result was a hard battle, which the Meds won by a score of 2 goals to 1. Wallace, for the soldiers, did splendid work, and his long drives of the ball were heartily cheered by the spectators. The Warswick prothers are also first-class defense forward being absent. The game lasted for fifty minutes and ended amidst darkness. Today's game is between the Y. M. C. A. and Collegiate Institute.

The sons are Hugh, John, Robert, Dorastus and Ernest, and the daughters Adeline and Alexis. The funeral will be held

on Thursday. A RUNAWAY. Last night about 9 o'clock, a young man named Arthur Wheatcroft, with two companions, was driving on Maitland street, when the horse became unmanageable and dashed into a telephone pole at the corner of Simcoe street. The occupants of the buggy were thrown out in a heap, but not seriously injured. The buggy, however, came to grief, the shafts being broken and the rig otherwise damaged.

The horse galloped away, but was caught a few minutes later. The outfit belonged to Wheatcroft. A PASTOR APPRECIATED. Rev. John A. Clark, of Cowan Ave

# PEOPLE ARE APATHETIC

Canada's Chief Trouble, Says a New Zealander.

Give Money to Churches-Not Ready to Do Work Themselves.

Rev. T. W. Glover, of New Zeaand, who commenced a series of lectures on Monday evening, addressed a small audience at Somerset Hall last night. He referred to various forms of vice he had met with since coming to America, condemning the liquor traffic in the severest terms and pointing out the success with which prohibition had been carried on in several parts of New Zealand.

The speaker, in opening, seconded the emarks of Rev. C. T. Scott, who occupied the chair, that the franchise should be put in the hands of women and that liquor selling should be put in the category of crimes. Mr. Glover said the worst thing the people of Canada were suffering from was apathy. They were unemotional and were seeing men and women dragged down and down, without stretching out a hand to save them. They would give money to the churches, but were not ready to do any real work them-

One thing that had struck him forcibly in this city was its extreme quietness and peacefulness on Sunday. There were no street cars running, and no stores or saloons were open. It was a great change after being in Chicago. The people were greatly different to those in the American cities, their only fault being that they were
