VOLUME 1, No. 124.

ST. JOHN'S, NEWFOUNDLAND, SATURDAY, JUNE 13, 1914.

PRICE:—1 CENT.

BOB BARTLETT IS PRAISED BY H. L. BRIDGMAN

The Noted American Promoter, Who Has Had a Long Experience In Arctic Exploration

SAYS BARTLETT SHOWED COURAGE AND RESOURCE

Karluk Was Not Fit For Such Strenuous Service Amongst The Ice Floes

New York, June 10.—Herbert L. Bridgman of Brooklyn, an active promoter of Arctic expeditions, speaks in the highest terms of the courage and resource shown by Capt. Bartlett when the Karluk was crushed by the Arctic floes.

"Bartlett is a most resourceful and energetic Arctic man," Mr. Bridgman said. "He set out over the ice to find rescuers as soon as he had provided for the immediate relief of the crew. Probably he took chiefly natives with him on his sledges, and perhaps only two or three white men, and he made his way to Siberia.

"Stefansson is in the Mackenzie River district, perhaps from 500 to 750 miles from the scene of the disaster to the Karluk, but much further away than we are in point of facility of communication. He probably knows nothing of the loss of the ship.

"It was his opinion and that of Capt. Bartlett that the Karluk was not good enough for Arctic work. Bartlett spoke from his experience with the Roosevelt, which had been specially constructed to withstand ice pressure. The result seems to have justified his forebodings. The ship cost \$25,000. It is an unfortunate loss, but the work Stefansson undertook to do last year will not be interrupted. It will go on as planned and will be continued to success."

Wants Prohibition In British Navy

Admiral King-Hall Suggests Cutting Out the Grog and Giving Increase in Pay Instead

London, June 10.—While it has not been suggested that the British Admiralty follow the example of Secretary Daniels and prohibit the use of wines and liquors in the navy, a movement is afoot to induce the men to give up drink.

Speaking of this movement, Admiral Sir G. King-Hall said that temperance in the navy is making progress all along the line, but there is still room for much improvement. He condemns the practice of giving out grog and said 50 per cent. of the men would give it up if some small addition to their pay were substituted. He hopes some first Lord of the future will take up the matter with wisdom and boldness. It would mean adding only another \$300,000 to the pay of the men to bring about the reform, which would lead to an increase in efficiency all around.

In the Indian army the progress of temperance is remarkable. According to officers back from India, about 50 per cent. of the British soldiers there are total abstainers.

Convicts Revolt And Kill Wardens

Corbere, France, June 13.—The Jail Governor was assassinated and a large number of convicts killed or wounded, as a result of a revolt in the Spanish prison of Fugulres, just over the frontier line in Catalonia.

Repeal Of Tolls, Exemption Effectuated

And Measure Now Only Needs The President's Signature To Become Law

Washington, June 13.—Only the President's signature is necessary to repeal the clause of the Panama Canal Act, exempting the American coastwise shipping from tolls.

The long fight in Congress came to an end when the House accepted by a vote of 216 to 71, the Senate amendment specially reserving all rights the States may have under the Hay-Pauncefote Treaty or otherwise.

Newfoundlander Lost A Registered Letter In a Peculiar Manner

Money Was Sent To Him From This City And Was Taken From The Post By a Man Who "Forgot" To Deliver It.

North Sydney, C.B.—June 11.—A mysterious disappearance of a registered letter containing ninety-nine dollars and eighty-eight cents is troubling one James Fudge, a young Newfoundland who came here some time ago from Herring Cove, Nfld., and who is now working with Contractor F. C. Redding. Before coming here Fudge worked with a concern, who paid him the sum above mentioned with a Bank of Montreal cheque.

About the latter part of May, a month after he came here, Fudge wanted to cash the paper, but was obliged to send it to the head office at St. John's. On the first day of June the Bank at St. John's mailed the money to Fudge in a registered letter.

Where He Lodged

At that time the young Newfoundland boarded at the establishment known as the Columbia house, which is conducted by the colored individual named, Castelle. It seems Castelle carried mail matter for his "guests." At least Fudge's mail came in care of the colored individual. And the letter containing the \$99.88 was

among the letters received in the post office here about the first week in June, or, to be exact, on last Saturday. There was another letter, also, addressed to Fudge. It contained \$20. According to Fudge, Castelle admits to having received two letters on Saturday. But Castelle seems to be a careless individual with letters, for when he reached the place known as the Columbia house, he only had the letter containing the \$20. The other one with nearly one hundred dollars in it had mysteriously disappeared.

Was a Hard Blow

This was a pretty hard blow to Fudge, and represented a lot of labor. At first it was doubtful if the letter Castelle said he took from the post office was the one containing the money; but two or three dollars spent in telegrams by Fudge, assured him that it must have been the letter.

He consulted a lawyer, and the result is that the colored gentleman yesterday paid Fudge \$35, promising to make good the balance of the \$99.88 within a month. Rather a peculiar case and the end is not yet.

In the meantime Fudge will collect his own mail hereafter.

LUCKY MAN FINDS GOLD THRU' DREAM

Revelation of the Hiding Place of Treasure Came to Him in the Watches of the Night

SAW THE HIDING PLACE IN SOME VIVID DREAMS

Finally Visited the Place, Dug Down and Found Gold Bars Worth Forty-Two Thousand

Santa Rosa, June 10.—Hidden treasure amounting to \$42,500, won from the mines in the early days of the gold excitement and cached in a Dutch oven, has been found near here by A. W. Lehrke. The discovery, Lehrke explained, was the result of a dream in which he saw the rich cache.

At first he attached no importance to the dream, but it kept him wakeful and restless, and finally he went to his cellar and dug down where the strange vision had showed him the hidden gold.

The dream persisted for several nights. At length, restless and excited, he arose and went to the cellar, where he attacked the cement floor with a pick. In a short time he broke through a shell into an open space, which proved to be a Dutch oven, in which the gold in bar form was found. For years it has been reported that the treasure was buried on the Lehrke place.

Rev. Fr. O'Rourke of Bay of Islands in the city en route to Chatham, N.B., to be present at the ordination of the new bishop of the diocese of Chatham, N.B.—Sydney Record.

Wild Women Try Burn Old Church

Set Fire to St. Margaret's, Near London.—Attempt Was Frustrated

London, June 12.—A determined attempt was made by the wild women to burn the Church of St. Margaret's, at Chipstead, 14 miles S. E. of London. Three distinct fires were set by them.

The rector and villagers were soon on the scene, and were able to extinguish the flames before much damage was done to the church, which dates from the twelfth century.

Expressions of anger at the vandalism of the suffragettes were vehement to-day among the general public.

WAR IS LIKELY BETWEEN GREECE AND THE TURKS

Statement Made by Greek Premier in the House of Deputies Almost Declaration of Hostilities

GREECE MAKES OBJECTION TO CONDUCT OF TURKEY

Toward Greek Subjects.—Thousands of the Later Have Been Forced To Flee For Their Lives

Athens, June 12.—A warning to Turkey, which fell little short of a formal declaration of hostilities, was uttered to-day by Premier Venizelos, of Greece, in the Chamber of Deputies, during the presentation of reports on the treatment of Greek subjects in Turkey.

The Premier's attitude showed that the tension between Greece and Turkey was near the breaking point, and that the danger of war was imminent.

Cheers, throughout the Chamber, greeted the statements of the Premier, who added that thousands of Greek refugees had reached the home land, already, from Turkey, while thousands more were awaiting transportation facilities, in order to escape from their persecutors. Such a situation, he concluded, could not be borne much longer.

Where They Stand On The High Seas

Comparison of the Naval Strength of Turkey and Greece, Prospective Combatants

London, June 13.—Turkey has a 23,000-ton battleship ordered from Vickers & Sons at Barrow-in-Furness England, and two 5,000 ton ships which she bought from Brazil, which are being constructed in an English yard, and which will be ready for commission by the end of the summer.

Greece has a battleship building in Germany, but will take two years to complete it. Should she obtain the two old American battleships, Idaho and Mississippi, they would be no match, it is believed, for Turkey's new dreadnought.

S.U.F. EXCURSION.

The S.U.F. excursion by Rob Roberts by rail takes place July 6th.

A large number of citizens have already signified their intention of going with the party.

He said they would get at the truth regarding the Empress of Ireland disaster before very long. He thought the proceedings would likely be extended to include investigation into the navigation of the St. Lawrence River.

Lord Mersey is accompanied by two assessors, or marine experts, Commander Eborn and Prof. J. Welch.

Heartbroken Son of Michael Brown, Who Was Drowned In Sydney Harbor, Cries For His 'Dada' To Come Home

Pathetic Scene When The Boat Of The Unfortunate Newfoundlander Is Brought Into Harbor.

North Sydney, C.B., June 11.—The first tragedy in the local fishing fleet occurred some time Wednesday last, resulting in the drowning of Michael Brown, who until a short time ago was employed around the collieries of the Scotia Company. The deceased left home early Wednesday morning, and the last seen of him was when he was beating in the harbor with reefed mainsail.

Some time later, lighthouse keeper McNeil, of South Bar light, reported having seen the top of a boat's spar above the water in the cove on the eastern side of the light. The tug Hilford and Zedie with a searching party on board, went to the rescue, but although they towed the boat to the Dominion wharf, they could find no trace of the missing man.

At the time Brown was seen coming up the harbor, a heavy breeze prevailed, and the general belief is that he stood in for the cove, and in coming about the craft capized.

A regrettable feature of the accident is the fact that the deceased leaves a widow and four helpless children, the eldest of which is only about eight years of age. Brown who was a native of Burin, Newfoundland, was a hard-working and industrious man, and only a short time ago, was among the number laid off work at Sydney Mines. The case is indeed one deserving the assistance of the public.

Pathetic Incident.

After the boat was pulled upon the wharf near the Dominion warehouse, and the crowd of curious persons had left the scene, the little son of the drowned man walked down the wharf, and going towards the boat got into it and began to cry. A passerby, touched with deep emotion of the child so suddenly bereft of his parent, walk ed further down the wharf, where he

Shackleton Performs Important Experiments With Polar Equipments

Discovers That It Is Quite Practicable To Take Along Small Tents On Journeys Across The Ice—New Ship For Antarctic Exploration Work.

London, June 10.—Sir Ernest Shackleton and the members of the Imperial Transantarctic Expedition who went to Norway to conduct experiments with equipment and rations for the journey across the South Polar continent, returned from the snowfields of Finea and the Hardanger Glacier recently. Extensive tests have been of tents, motor-sledges, men-hauling sledges, and good and valuable results have been obtained.

Tent a Success.

The new tent, designed by Sir Ernest Shackleton and Mr. Marston (in charge of the clothing), proved a complete success, especially as regards pitching it in a high wind. It may seem a small matter, but with the circulation rendered sluggish by the intense cold of the Antarctic the mere raising of the arms above the head to pitch any ordinary tent can only be done at imminent risk of frost-bite.

The new tent can be likened to a couple of motor-car hoods joined together and folded flat in the shape of a large "D." One man places it flat on the ground, another throws

snow on the snow-cloth, and a third pulls on a guy and raises the structure in a few seconds in an emergency. In fair weather it can be raised by one man. Except for minor troubles, mostly due to vibration, a motor sledge ran consistently, at times carrying heavy loads and as many as six men, and simultaneously towing another sledge, also carrying a load and two passengers. The engines used were of the 30 h. p. Anzani aeroplane type, and these were geared up to a large propeller working in the air.

Results Obtained.

The conclusions arrived at may be summed up as follows:

- 1. The suitability of the new type of tent, weighing only 55 lb. and accommodating six men.
2. The nature and the packing of the provisions, the only change in the ration shown to be desirable being the substitution of an animal for a vegetable protein.
3. The establishing of the practicability of the principle of a motor-sledge, driven by an aerial propeller being capable of carrying heavy

(See next column.)

DEFAULTING BANK CASHIER SURRENDERS

Absconded Seven Years Ago With Seventy-Five Thousand Dollars

HIS SURRENDER WAS MADE VOLUNTARILY

He Pleaded Guilty Before the Courts To Fifteen Indictments Against Him

Garner, Ia., June 10.—After seven years of hiding in Texas, John H. Standing, defaulting cashier of the First State Bank at Corwith, Ia., walked into the District Courtroom here and pleaded guilty to fifteen indictments charging forgery, which the Hancock County Grand Jury returned against him in the Fall of 1907.

He threw himself upon the mercy of the court and to-night will start for the penitentiary at Fort Madison to begin serving a fifteen-year term.

Business men living at Corwith and other depositors of the bank lost approximately \$75,000 when Standing disappeared. He refused to make any explanation of his absence.

SUFFRAGETTES CREATED RIOT IN A CHURCH

Great Confusion When Militants Invaded a Catholic Church for the First Time

MOUNTED INTO THE PULPIT AT WESTMINSTER CATHEDRAL

Scene of Great Disorder at Brompton Oratory When Wild Women Commenced Chanting

When the suffragettes invaded Catholic churches for the first time a few days ago they created wild scenes by attempting to harangue the congregations. Worshippers were disturbed in both Westminster cathedral and the Church of the Oratory, Brompton. Father Bernard Vaughan had just taken his place in the pulpit in Westminster Cathedral during the evening services when a woman rushed up the steps in another pulpit, and, waving her arms toward the altar, shrieked: "In the presence of the Blessed Sacrament I protest against the forcible feeding of women." She was well dressed and apparently a woman of refinement.

Congregation Outraged.

The congregation, which was shocked by the woman's action, rose from their seats. Murmurs of protest at the sacrilege ran through the edifice. One of the women worshippers tried to persuade the suffragette to descend from the pulpit, but she remained there waving her arms and yelling incoherently until the vergers forcibly pulled her down the steps and led her to the doors of the cathedral. There she was turned over to the police. She declined to give her name.

A band of militant suffragettes interrupted the mid-day mass in the Church of the Oratory by chanting "God save Emmeline Pankhurst and all our noble prisoners; open the eyes of this church and all priests to put an end to the torture in the name of the blessed Joan of Arc, hear them in their hour of need."

Shrieking Like Lunatics.

A scene of great disorder ensued. A suffragette rose and started a prayer, but she had scarcely uttered a word when a woman worshipper clapped her hands over the mouth of the suffragette. Struggling fiercely and shouting loudly the suffragettes were forced by the ushers and male parishioners down the aisle to the doors and then into the street.

Many of the members of the congregation followed the evicted suffragettes to the sidewalk, where a well dressed woman hit a militant sister in the face, causing it to bleed profusely. The crowd cheered the wo-

VOLUNTEERS HAVE REBUFFED JOHN REDMOND

And the Nationalist Leader Declares That They Are Not the Friends of Ireland

QUARREL WAS CAUSED BY VOLUNTEER COMMITTEE

Who Refused to Accede to Redmond's Request For Nationalist Representation Thereon

London, June 13.—Redmond has declared war on the provisional committee of the Nationalist Volunteers, the majority of whom, he asserts, are not supporters of the Irish party, although the provisional committee at a meeting, held in Dublin on June 10th, verbally welcomed Redmond's co-operation in the Irish Volunteer movement.

It followed this up with a call to volunteers in each county to elect a representative to serve on the committee. This action the Irish leader interprets as a refusal of the committee to accept his proposal made on June 9th, that twenty-five representatives of the Irish party should be added.

A meeting of the Irish Nationalists discussed the matter yesterday and subsequently, Redmond issued a letter, declaring that the action of the committee amounts to a refusal to accept his offer of co-operation, pointing out that the committee originally was a self-constituted body.

Redmond proceeds, "I am informed on good authority that the majority of them are not supporters of the Irish party. This is a condition of things which cannot continue."

He concludes, "I must appeal to all supporters of the Irish party in the Volunteers to at once organize county committees, quite independent of the Dublin Provisional committee and to maintain an independent county government of the Volunteer Movement, until it is possible to elect a governing body which shall have the full confidence of the country."

SHACKLETON PERFORMS IMPORTANT EXPERIMENT

(Continued from 6th column.) loads at an average speed of fifteen miles an hour over a fair snow surface.

It is understood that Sir Ernest Shackleton is going to Paris to examine various aeroplane engines with a view to incorporating these to the construction of the motor sledges to be taken to the Antarctic.

His New Ship

Shackleton's new ship, the Endurance, has been almost completely fitted in Norway and will arrive at the London docks this month. She is eighteen feet longer than his last ship, Nimrod. She is a beautiful specimen of wooden ship-building, and probably the last of her class that will be constructed. Her keel is made of solid oak five and a half feet thick, and her sides are two feet thick.

She belongs to the barquentine class, has the latest triple expansion engines, and will steam ten knots an hour. She is fitted to consume both oil and coal. When in the ice oil will be substituted for coal, which will mean economy if she is delayed in the pack, as the boilers can be kept warm and full heat generated quickly. When the oil has been used the tanks will be filled with water ballast.

Use Coal Briquettes

The Endurance will take on 100 tons of coal briquettes at the South Shetland Islands, so she will enter the Weddell sea wit full bunkers. The second ship, Aurora, intended for the Ross Sea side of the expedition, has been purchased and will be delivered at Hobart, Tasmania, at the end of August.

The Endurance, which is to operate on the opposite side of the Antarctic, will leave England early in August for Buenos Aires, whence she will finally start for the Antarctic base in October. Most of the members of the expedition will leave England in the Endurance, but Sir Ernest Shackleton will travel later by mail steamer, and join his ship at Buenos Aires.

man who struck the blow. Only two of the suffragettes who caused the disorder were arrested. They also refused to give their names.

Portia left Placentia at 12.15 a.m.

WEATHER REPORT.

Toronto (noon)—Moderate winds, mostly fair and continued cool to-day, and on Sunday a few local showers.

EXPRESS AT 5.

The express is due at 5 p.m.

### NOTICE

I, George F. Grimes, of St. John's, Acting General Manager of the Fishermen's Union Trading Company, Ltd., hereby give notice that in consequence of change of ownership, I have applied to the Board of Trade, under section 47 of the Merchant Shipping Act, 1894, in respect of the ship, S.S. Kintail, of St. John's, official number 121264, of the gross ton-

nage 426.00 tons, register tonnage 163.02 tons, heretofore owned by The Fishermen's Union Trading Company, Ltd., for permission to change her name to "Can't Lose", and to have her registered in the new name at the Port of St. John's, as owned by The Fishermen's Union Trading Co., Ltd.

Any objections to the proposed change of name must be sent to the Registrar of Shipping at St. John's, Newfoundland, within seven days

from the appearance of this advertisement.

Dated at St. John's, Newfoundland, this 11th day of June, 1914.

June 11, 1914. —GEO. F. GRIMES

### LOOK OUT NOW!

Everybody's doing it now? Doing what? Why, reading The Mail and Advocate of course. It's surely the house paper now! Without doubt the most widely circulated in the country.

Issued every day from the office of publication, 167 Water Street, St. John's, Newfoundland, Union Publishing Co. Ltd., Proprietors.

### Subscription Rates.

By mail The Daily to any part of Newfoundland and Canada, \$2.00 per year.

To the United States of America, \$3.50 per year.

The Weekly issue to any part of Newfoundland and Canada, 60c. per year  
To the United States of America, \$1.10 per year.

All correspondence for publication should be addressed to the Editor of The Mail and Advocate.

Letters for publication should be written on one side of the paper only and the real name of the author should be attached. This will not be used unless consent be given in the communication.

The publication of any letter does not signify that the Editor thereby shows his agreement with the opinions there in expressed.

All business communications should be addressed to the Union Publishing Co. Ltd.

ST. JOHN'S, N.F.L.D., JUNE 13, 1914

### OUR POINT OF VIEW.

#### A MINERAL DISCOVERY

WE have to-day been shown a fine sample of silver-galine which is claimed to have been lately discovered in the vicinity of St. John's.

The sample is a good one, but as samples are of little commercial value, it is too soon to go into any speculation as to the real value of the discovery.

We hope, however, that the discoverer may have something worth while.

#### TIME TO TAKE ACTION.

THE facts in connection with the beating and robbery of an outport man yesterday by a gang of crook boys will be read with great regret by every lover of Terra Nova. Every respectable man in Newfoundland wants to see all such rowdyism and rascality put down with an iron hand. There is no doubt of the growing depravity of the youths of this city and at no matter what cost it must be stamped out.

Indifference in the past is partly responsible. The growing rage for pleasure and sport by the upper and middle classes has fostered the same appetites into the laboring classes, and the whole mass is now racing straight towards Hell.

The police are to be congratulated upon the manner in which this gang of desperadoes was rounded up. What is to be done with them? Corporal punishment will achieve no good results. Imprisonment in the penitentiary will not reform those boys.

A problem consequently confronts the citizens and authorities of this town. Week after week young boys are sent to jail and they come out worse morally than they went in. There is but one cure, and that is to place them on board of a training ship, not as prisoners, but as apprentices with a certain amount of liberty curtailed.

There they may be trained as seamen, drilled and educated to some extent. At a certain age they could be passed over to the navy or the mercantile marine. A small ship could be

secured from the Admiralty and placed in command of a suitable officer and all youthful offenders of our laws should be placed on board of this ship and the parents of those boys deprived of further control of them.

Jailing is a failure and will not reform any youth who offends against the laws of his country. Don't send those boys to jail unless you want to manufacture criminals.

No matter what the cost the country cannot longer permit a certain element of the population from 12 to 20 to degenerate into criminals and worse than worthless inhabitants of our towns.

Some time ago a number of boys were fined or imprisoned because they stowed away on a Red Cross ship and got away to Halifax. They deserved some punishment. They got what injured instead of what reformed.

Some parents would gladly hand some boys over to a training ship. Others may kick a little; but the fact that their boys are repeatedly offenders against the laws is sufficient proof of their unfitness for the duty of looking after their children properly.

It is a crime to allow those boys to sink deeper into crime and allow them to convert themselves into life charges upon the Colony's Treasury. Seventy-five per cent of them can be trained to be useful and respectable citizens, but jailing them will never accomplish it.

This is a matter of pressing public importance and we hope representation will at once be made concerning this matter by a deputation of clergymen or other citizens of St. John's and action be taken by the Government without loss of time.

The F.P.U. members will support any such movement.

#### FARM TOPICS—MANURES

(By Arthur English)

WE have spoken in broad terms of the necessity of beginning the encouragement of agriculture by educating the farmer into the science of his calling. We have also referred to the absolute folly of the Morris method.

The Morris method consists in giving out live stock and costly imported seeds. A better, safer method would be to teach the farmer the value of what he already possesses and was simply throwing away, or rendering next to worthless, by careless methods.

Nitrogen is the most valuable element that the farmer can put into his land, it is also the most costly when he buys it in a fertilizer. It costs him roughly about thirty cents a pound in sodium nitrate. It is an active element and of vital necessity to growing crops. Stable manure contains a lot of the valuable plant food, but the farmer not knowing anything about so volatile a substance permits it to escape into the air. He does not realize that by permitting his stable manure to heat and burn or be beaten by storm and rain and sunshine, that he is throwing away money and robbing his farm.

We have seen many farms in this country, but do not remember one single instance of where the farmer took any care of his manure heap. There may be some farmers who take pains to conserve the food values that come from the stables, but we have not seen them.

The usual method is to pitch the manure out into a loose heap by the side of the barn. It is trampled and scattered by cattle and farmer. It is drenched with rain and sleet and snow, till almost nothing of any value is left in it. It burns and moulders away to a white, dry rot. The farmer puts the leached out stuff on his fields and then wonders why his crops don't grow. He permits the nitrogen to float away on the winds of heaven, and then turns to commercial fertilizer. He must buy nitrogen after having allowed it to go to waste in his manure heap.

There would be no need for the farmer to have recourse to buying commercial fertilizer. If you find a farmer buying nitrogen you ascribe it to either one of two reasons or more likely to both. He has wasted the plant food of his stable manure, if it ever contained it, or else the ration he gives his cattle is poor in nitrogen. Cattle fed on roughage as most of the cattle in this country are fed, cannot produce valuable fertilizer, the same as those feed more generously on clovers or other legumes, grain, meal, etc.

Generally cattle must get along on timothy hay. Often they are fed on hay that is not fit for any animal to eat. The farmer who does not feed his cattle properly does not realize that he is robbing himself with both hands. He gets less milk and fewer pounds of beef or mutton, and is also starving his land. And like cattle, starved land cannot produce valuable crops.

In our next we will continue this review of the agricultural situation. We intend to prove, even to the most hide-bound Morris follower, that the policy of the present Government is a folly and a fraud.

## AT THE NICKEL TO-DAY. 6 EXTRA FINE PICTURES--6.

The Selig Company present Miss Kathryn Williams in  
**A CHILD OF THE SEA.**

Produced in two reels—a thrilling story—strong acting—beautiful scenery.

**GREAT ARABIAN PRAYER**—interesting travelogue.

**PATHE WEEKLY**—The popular film.

**JOHN BURNS OF GETTYSBURG**—An exciting war drama adapted from the famous poem.

**A JOCKEY FOR LOVE**—The well-known French comedian, Max Linder, in a great comedy.

**THE CITY OF ROUEN**—A pretty coloured travelogue showing one of the oldest cities of France.

**MUSICAL**—MISS ETTA GARDNER, P. J. MCCARTHY, JOSEPH F. ROSS, WALTER MCCARTHY.

**MONDAY**—The All-Star Vitagraph Cast-In:—HIS LIFE FOR HIS EMPEROR.

#### TO THE EDITOR.

**TO CORRESPONDENTS**—We are always glad to receive letters on matters of local and general public interest. Correspondents, however, should make their letters as brief as they possibly can, as we are receiving scores of communications daily and have only a very limited space in which to publish them.

We use practically every letter received, at some time or other, but there must, in view of our large correspondence, necessarily be some delay before some of these letters appear in *The Mail and Advocate*.

We are particularly anxious to receive notes of news from all round the Island. Let our young people particularly get busy and help us make our paper the newest in the country.—Editor.

#### FROM FLOWER'S COVE

(Editor Mail and Advocate)

Dear Sir,—At the regular meeting of Flower's Cove Council held on May 20th, the following resolutions were adopted:

WHEREAS our Colony has been called upon to mourn the loss of 250 of her noble sons in the terrible sealing disaster;

BE IT RESOLVED that the sincerest sympathy of the officers and members of this Council be tendered the bereaved ones;

AND BE IT FURTHER RESOLVED that this Council, donate the sum of Ten Dollars towards the F.P.U. Disaster Fund.

—KENNETH SPENCE,  
Chairman Flower's Cove Council.

#### A COMPLAINT

(Editor Mail and Advocate)

Dear Sir,—I would like to make enquiries through your paper as to whether the coastal boat Prospero is supposed to call at Baie Verte, and if she is, why she has not done so.

On the last trip north, Dr. Little was on board and there were two sick women here expecting to see him, also a man with a crushed hand, but they all waited in vain for Capt. Kean lay in Coachman's Cove all day and night waiting to get around Partridge's Point.

On his return south he did the same thing although there were twenty passengers their household goods and two important packages of mail waiting for the steamer to call. A large number of these letters were orders for goods and supplies needed immediately.

We are looking to Mr. Clapp to guard our interests in this matter.

—ONE OF THE SUFFERERS  
Baie Verte, May 28, 1914.

#### DIDN'T CALL

(Editor Mail and Advocate)

Dear Sir,—I wish to ask, through the columns of your paper, why the Prospero did not call at Harbor Deep

on her way down, on either the first or second trip.

There may have been some excuse for Capt. Kean's not calling on the first trip, but here was no excuse for him not calling the second time.

There were thirteen sick men waiting to go by that first trip to St. Anthony. The second trip, they waited in readiness for five days and nights but, to their utter disappointment, the steamer passed on without calling.

Surely, there is no need, through neglect, to add to the number of orphans in Newfoundland.

—BAXTER CASSELS.  
Big Hr. Deep, June 4, 1914.

#### POEMS OLD AND NEW.

**TO CORRESPONDENTS**—Owing to the big number of original poems sent in to this office we have decided to throw open a column for Local Poets and to use as much of the poetry received as possible.

It must be remembered, however, that we cannot use in their entirety poems that run to twenty, thirty or more verses. Keep down to about half a dozen verses and your poem stands a better chance of making an early appearance in this paper. Lengthy poems have to be cut down before they can be used.

Readers desiring to see old favorites or new and striking poems appear in *The Mail and Advocate* are hereby invited to send along copies or clippings thereof to this office.—Editor.

#### FRIENDSHIP

Give freely to the friend thou hast:  
Unto thyself thou givest:  
On barren soil thou canst not cast,  
For by his life thou livest.

Nay, this alone doth trouble me—  
That I should still be giving  
Through him unto myself, when he  
Is love within me living.

I fain would give to him alone,  
Nor let him guess the giver;  
Like doves that drop on hills unknown,  
To feed a lordly river.  
—John Addington Symonds.

#### PREPARE FOR THE WORST.

Are you prepared for a fire? Most folk are not! One of my liberal policies will make the calamity easier to bear. It will cost you nothing to ask for a low rate and very little to be perfectly secure with Percle Johnson's insurance agency.

#### TALK IS CHEAP.

Advertising is also very cheap, if carried in the right medium. *The Mail and Advocate* is the Can't Lose paper now. Must be true. Everybody's talking. It's not the price you pay but the returns you get.

## THE DEBATE ON THE BILL TO IMPROVE CONDITIONS AT THE LOGGING CAMPS

Monday, March 2, 1914.  
Mr. Coaker.—Mr. Chairman, since this matter came up at its second reading I have had several interviews with men concerned in the employment of men working in the logging woods, and as there has been quite a difference of opinion in connection with Sections 1 and 2 of this Act I have decided to withdraw them from the Bill at the present time, and in all probability at next session of the Legislature will bring them forward as amendments to this Bill.

Many propositions have been made, but we have not been able to see our way clear to accept them up to the present time, and the best way for all concerned, I think, is to withdraw the two sections and leave the matter of the minimum wage over for consideration.

amount of work should be given in return.

### Definite Amount of Work.

I understand that in other countries where this minimum wage is in force the men must do a certain definite amount of work. It is an important matter so far as the loggers are concerned, and also it is a serious departure from the old policy in this country, and I think that when we are introducing legislation providing for this minimum wage there should be a provision setting down the amount of work a man should do in return for a certain sum of money per day.

This minimum wage is bound to come. The men are wanting it. The electorate are realizing that they have great powers, and it is our duty

### Some Alterations.

The remaining sections of the Bill will have some alterations also. Section 12 will read as follows:—

12. Logging camps shall be covered with board, sheathed with felt or other wise made water-tight. The sides of the sleeping compartments shall be lined with sheathing paper, or board or other satisfactory material: Provided that in any section this board cannot be conveyed, covering shall be that approved by the Government Inspector.

Now the employers state that in many cases in their limits it would be impossible to convey lumber for these camps, and wherever it is possible board will be used, but at some places this would only be possible at tremendous cost, and I am satisfied to amend this section and have the covering approved of by the Government Inspector. I think that this will meet with the wishes of the men and will satisfy the employers.

### Regarding Hospitals.

Section 13 has also been amended. Now I think that one or two of the larger companies maintain hospitals, and they claim that they do not get one-half their cost from the fees paid by the men. Now I think thirty cents is a very fair fee to be paid by a man who is in the employ of a company maintaining a hospital. When no hospital is maintained, no fees shall be paid.

Now this section enacts that the physician shall make his visit once a month. In the original bill it was once a week. It has been pointed out to us that in the larger areas it would be impossible for the doctor to make a weekly visit, but as the camps are connected by telephone, the doctor can always be procured in an emergency. That is satisfactory to us.

We are also satisfied with the fee charged in connection with the hospital, as the men do not expect to get to the hospital without charge.

Employers shall cause a physician to visit each logging camp at least once in each month when loggers are occupying the same and respond promptly to any emergency, except when prevented by any unavoidable circumstance.

### No Charge For Medicine.

No charge shall be made to loggers for medicine, but a charge of thirty cents a month shall be made by any employers operating a hospital at head quarters, and in consideration of the monthly fee of thirty cents by the loggers while logging with the owner of such hospital, the loggers shall be entitled to medical treatment including nursing and proper food at such hospitals. By paying this fee, if a man is ill for three or four weeks he will be provided with free hospital and proper food and nourishment.

The Bill with these amendments meets the wishes of most of the employers of labor, except the Bishop's Falls Company. From the conversations I had with these people it would be impossible to have a bill at all if we had to meet with their wishes. The other men representing the other companies have gone into the matter very fully and are quite satisfied.

### Minimum Wage.

Now a suggestion has been made by some of the employers, that a minimum wage could be fixed, even at the rate of \$1.10 a day, instead of \$1.00, but that each man receiving that wage should cut a cord and a half a day, and that seventy cents a cord would be paid for any more cut.

I am not in a position to state if the men would accept that, but I do believe if a minimum wage is fixed there ought to be a provision that the men should do a certain amount of work. I have no sympathy for the man who will not work. If he goes to work for a certain wage he should give a certain return.

I will bring this matter before our Councils before the House meets again, and find out if the men are satisfied with the minimum wage is adopted, that a certain definite

TO GUARD AGAINST ALUM IN BAKING POWDER SEE THAT ALL INGREDIENTS ARE PLAINLY PRINTED ON THE LABEL, AND THAT ALUM OR SULPHATE OF ALUMINA OR SODIC ALUMINIC SULPHATE IS NOT ONE OF THEM. THE WORDS "NO ALUM" WITHOUT THE INGREDIENTS IS NOT SUFFICIENT. MAGIC BAKING POWDER COSTS NO MORE THAN THE ORDINARY KINDS. FOR ECONOMY, BUY THE ONE POUND TINS.

E. W. GILLETT COMPANY LIMITED  
WINNIPEG TORONTO, ONT. MONTREAL

to see that they use these powers reasonably.

### Good Prospects.

It is our belief that we can return thirty members to this House out of the membership of thirty-six, but this is no reason why we should be unreasonable in our demands, and

when we fix a minimum wage we are willing to provide that certain amount of work should be given in return.

At present I am withdrawing the whole clause dealing with this matter in order that we may be better able to deal with it at the next session.

Mr. Grimes.—Mr. Chairman, I rise to support the principle embodied in this Bill, because I think the time has arrived in this country when every effort should be put forth by the Legislature to assure the best working conditions in all industries where our men are employed.

### Principle Involved.

We all should recognize the principle that the best possible condition should be provided for our men in the various industries in which they are engaged. Of course some employers do not recognize this principle and they are content as long as they can get men to work for them for small wages. All they think about is the dividends they receive.

I am sorry that I cannot agree with the Leader of the Government as to the inadvisability of fixing a minimum wage. I think the time has arrived in the country when this principle of minimum wage should be adopted in our industries.

### Recognized Elsewhere.

This principle has been recognized in other countries and a Wage Board established, which is composed of representatives of the Employers and Employees, and when a

dispute arises as to wages paid in any industry the matter is submitted to this Board, and when their finding is handed down as to what rate of wages should be paid, that is enforced by the Government. I think that is a principle that should be recognized in this country.

No matter what his occupation is, a man is entitled to a certain amount of reasonable comforts and to be provided with the necessaries of life, and I think no man should be compelled to work for a wage insufficient to provide him with these comforts.

### Treatment For the Lazy.

If a man is lazy he should be compelled to work, and if he is unable to work the State should provide for him. There are many men employed in the various industries of this country to-day who are unable to get enough remuneration for their work to provide them with the comforts of life. There are thousands of men in this country—men with families—who are unable to obtain these comforts owing to the small wages they receive.

Some may object to this principle, because they think it will make it hard for the employer to conduct his

business and face competition; but in countries where these wage boards are established they are welcomed by the employers as well as by the men.

There are two classes of employers in every country. One considers the comfort and well-being of his men, because he knows if he pleases his men they will do better work. The other does not consider the men at all as long as he can get big returns and big dividends from their work.

I am glad that the introducer of this Bill has recognized the principle of a minimum wage, and I trust that he will be able to introduce a Bill at the next session of the House embodying this principle.

### Approved His Action.

Mr. Kent.—Mr. Chairman, with re- (Continued on page 6)

**DEBATE ON THE BILL  
TO IMPROVE CONDITIONS  
AT THE LOGGING CAMPS**

(Continued from page 5)  
ference to the Bill before the Committee, I am glad that the hon. member for Bonavista has seen well not to press the first two sections at the present time.

As I said on the second reading, from my information or want of information on the matter, I am not prepared to accept the portion of the Bill in relation to an industry that I am not satisfied can bear it. From the information that I can gather concerning logging or paper or pulp industries, which are principally concerned in this measure, we should make some further investigation before we make up our minds as to the effect it will have as to the wages to be paid by the companies doing that business.

I believe that the conditions of labor in this country to-day are such that men who are able to work can command a living wage.

**New Industries.**

These industries are new and their owners have invested a very large amount of capital in them. There are two very large companies, and I

understand that one as not yet paid any dividend while the other has been working at a loss.

Under these conditions I think it would be a mistake if we were to make any conditions as to the wages to be paid until we are better informed in the matter.

The hon. member has done a good act in bringing the matter before us. He has put us on the search, so to speak, and we can make further inquiries into the matter and later on be able to deal with it more intelligently. As I have said, I think he is acting wisely in not pressing these sections at the present time.

As to the other conditions and changes which my hon. friend has just stated that he intends to make I think they are improvements in the Bill.

**Matters For Information.**

As to the sections concerning the conditions of the camps, the providing of provisions and food, the cleanliness of the camp and other conditions, these are matters upon which hon. gentlemen who are familiar with the industry can enlighten the Committee as we go along.

As far as I can see, the object of all these sections is to enable the men to work under better conditions than they have worked heretofore. I take it that some of the conditions that prevail in some of the camps require to be altered. No doubt in some of

the camps conditions are satisfactory and the Bill will not affect them materially.

There can be no possible objection to the making of the camps as healthy and as clean as possible under the circumstances, and to the taking of steps necessary to protect the workmen from sickness. These are objects which all will agree in trying to attain.

As to the question of payment, my hon. friend, need not abandon his first two sections but merely postpone them for a year. In the meantime inquiries can be made and we shall be in a position then to deal more fully with that matter.

**He Who Knows!**

MORTON SCOTT—H. & S.

**A SUCCESSFUL  
BUSINESS MAN**

Every successful business man can give reasons for his prosperity. Most essential to any success is a careful and ceaseless attention to details. Every well conducted office or store in the world finds that simple and effectual filing systems are an absolute necessity. No employer will waste his own time or allow waste with his staff by using old fashioned methods. The benefits derived from the time and money-saving system which "Globe-Wernicke" devices encourage are self-evident. Not a paper can go astray when the "Safeguard" method of this Company is used. And no matter how complicated your filing problem, no matter how peculiar, no matter how small or how large, the "Globe-Wernicke" can provide you with the equipment that will place every record at your finger tips. Why not investigate? Mr. Percie Johnson represents the "Globe" in Newfoundland.

### French Woman's Heroic Action

Stood in Signal Box and Worked Levers While Her Husband Lay Dying At Her Feet

Paris, June 9.—Another story of splendid heroism has been added to the annals of railway history—this time by a woman who did the work of her husband, a signalman, as he lay dying at her side in his box.

While on duty in his signal-box M. Lyse Poulain, a signalman on the Northern Railway at St. Denis, was shot. He died an hour later.

Acted Like Heroine

His cries brought his wife to his side, and she acted like a heroine. In the intervals of attending to her dying husband she worked the levers in the cabin and insured the passage of the numerous trains on the main line between Paris and Creil.

When her husband was removed to Paris she replaced him at his post and worked the signals for another two hours until relieved. Then she collapsed.

The attack on her husband is a mystery. It is remembered that nearly two years ago he discovered some members of the notorious band of motor-car bandits cutting the telegraph wires.

### BOWINGS.

Hawk sailed for Bell Island to-day. Prospero sails at 2 p.m.

Schr. Carl arrived from Harbor Grace last evening, where she discharged coal. She leaves for the West Coast on Tuesday and will load fish at Burgeo and Ramea for Europe.

Fogata and Sazona come off dock Monday. Fogata sails north at 10 a.m. Wednesday.

### WELSH SINGERS GET HIGH PRAISE

Halifax Thoroughly Appreciated the Wonderful Artistry of the Visiting Choir.—Performance of the Singers As Near Perfection as Possible.—Lavishly Praised.

Halifax, June 9.—There are times when even superlatives seem inadequate. What can be said in words that could convey any adequate idea of the wonderful singing of the Welsh Male Choir? The second night's concert but made their first triumph more marked. The perfection of tone, liquid or resonant as interpretation demanded, the wonderful harmony of all the voices resembling a perfectly balanced orchestra. Each performance simply accentuates the fact that Halifax has never heard anything like this music before. There was a large attendance last night, and from orchestra chairs to the last row of the gallery there arose spontaneous expressions of approval that meant much for the usually self-contained Halifax audience.

Wonderful Performance

The programme opened with "Comrades in Arms" given with wonderful precision and balance. All the choruses were marked in this way, the Welsh airs attracting special attention. Among the encores given by the whole choir was that stirring "Invocation to Thor" which electrified the audience the first night, while "The March of the Men of Harlech" unfailingly arouses a response wherever a thrill of patriotism has been felt.

By special request the "Hallelujah Chorus" formed the closing number again, its grand chords echoing and re-echoing not only within the walls of the Academy but in the emotions of the hearers.

Excellent Solo

"A May Morning" gave Mr. J. P. Smith a chance to be heard as a soloist, and he too won a place in the remembrance of music-lovers. One of the marvellous things about this choir is that in spite of the perfect harmony—perhaps because of that perfection—each voice in the aggregation is recognized and is never confounded with any other. Mr. Smith had made his place even before his

appearance as soloist and he well sustained it.

J.L. Bebb and I Jones were again heard in an inimitable duett. Mr. Jones' personality puts one in a pleasant humor at once and his truly wonderful voice is always a delight. Mr. Bebb charmed everybody with the quality of tone as well as perfection of technique. Basses come and basses go, but the voice of George B. Lane will roll on in the memory and to its last faint echo will furnish the same pleasure he provided.

Superlative

What would the quartettes and trios do without the assistance of Messrs. Price and Michael? It is just such a voice as that of Mr. W. Gwyn Jones that suffers in the spring climate here. There is a satisfying, delicate quality to it, which seems especially susceptible to our late springs. His solos were heartily enjoyed. But again Mr. Astle scored the hit of the evening, the ease and naturalness, the perfection of tone, the sympathetic interpretation—in short the artistry leaves nothing to be desired. One has never really heard "Absent" until Mr. Astle sings it.

There was no change in the conducting. Mr. Davies has certainly mastered his work, while the accompanist, Mr. Arthur A. Smith, is so completely a part of the singing that he is apt to be included in the magnificent effect and overlooked as an important cause.

A matinee to-day and another concert this evening will complete the course of the Royal Gwent Welsh Male Singers. Bumper houses are assured. This time both Mr. Hesser and Mr. O'Connell have made Halifax their debtors.

ANXIOUS TO WED.

The chairman of the Eastbourne Board of Guardians announced that in response to a letter published in the press from a Canadian chicken rancher with an income of \$2,500 a year, who wanted a wife, no fewer than 244 replies had been received from girls willing to go to the Dominion. These replies would be forwarded to the rancher for his consideration.

Some of the letters, added the chairman, contained charming photographs, while one girl enclosed some verses of poetry. It was suggested that the rancher should make his selection and hand over the remaining letters to lonely Canadian comrades.

## CANNED MEATS!

are at present being quoted at a considerable advance over last years prices.

We offer at a reasonable figure:

You will save money by stocking from this shipment which was

Secured Before the Advance.

### HEARN & COMPANY

### HIGHWAY ROBBERY.

John Garland of Island reported to Consts. Nugent and O'Neil at 6 o'clock last evening that he had been relieved of his watch and \$48 in cash by six boys.

Garland was under the influence of liquor at the time, so the officers took him to the police station.

He told the police that he had been drinking the afternoon and having a bottle of liquor he offered some to some young men whom he met.

They took him to Shaw's Lane, they had a drink, and then assaulted him, took his money and silver watch which he valued at \$40.

He gave a description to the police and the officers mentioned above and Sgt. Byrne set out to locate them.

They found two at Duff's bowling alley and arrested one after much trouble, while the other escaped.

During the night the five were arrested. At 11.30 they arrested Frank Skeans, an 18 year old laborer, of George St. Then James Kent, 15, laborer, was captured.

At 1.40 a.m. they landed J. Connors, 17, laborer, Water St.

At 3 a.m. Patrick Hayse, 17, laborer, Lime St., was found.

At 5 this morning Harrison Moore and Arthur Downs, aged 17 and 19, respectively, were brought to the station.

Skeans is also charged with assaulting a citizen.

They will go before Judge Knight this afternoon at 3 for trial.

S.S. Ness will finish discharging on Wednesday next.

### DEATHS

VOISEY.—On Thursday, June 11, after a short illness, Mary Ann Feehan, widow of the late William Voisey, wheelwright, aged 61 years, leaving three daughters and one son to mourn the loss of a kind, loving and affectionate mother. Funeral on Sunday at 2.30 p.m., from her late residence, 109 Hamilton Street. Friends and acquaintances please attend without further notice.—R.I.P.

### A GREAT ARTIST AND LONG DISTANCE SWIMMER.

Capt. Walker, R.N., who arrived by the Digby yesterday will spend two months fishing in the Colony.

His daughter, Miss Walker, who accompanies him, is an accomplished artist and has won several prizes for her work.

Miss Walker is also a swimmer of repute, having won considerable distinction in that branch of athletics. She can swim long distances, three or four miles, without the least exhaustion.

### DR. MOTT'S VISIT

A preliminary meeting of the Laymen's Committee was held yesterday afternoon to make arrangements for the visit of the celebrated missionary speaker, Dr. Mott, who will visit St. John's on July 3rd, 4th and 5th.

Mr. H. W. LeMessurier is Chairman of the Laymen's Committee and Dr. Macpherson Secretary.

The Committee meets again next week when arrangements will be finalized.

### TROUBLE OVER SWEEPSTAKES.

A prominent member of one of our city societies is in trouble over the proceeds of a sweepstake held by him in trust. Although it might seem strange that the defalcation was discovered, still up to last night's meeting of the club interested the custodian of the funds had not returned the proceeds.

The amount due we learn is in the neighborhood of \$40.00. It is very likely the matter will be brought to court.

### NEW BASEBALL OUTFIT.

The Rovers Investment Club, established about a year ago, has just imported a complete and up to date outfit of base ball requirements and last evening the club made use of same at their practice grounds.

The club are composed of young and active men and judging from their practice last evening prove that they have the game well in hand and eventually will be heard from in this new and now popular game of base ball.

S.S. Gay Gordon, Capt. Fair, sails this afternoon for Sydney to load for Quebec.

### SPENCER CLUB.

Spencer Club's annual meeting took place in the Synod Hall, yesterday afternoon. The following officers were re-elected:—

Miss Stirling—President. Mrs. J. S. Munn—Vice-President. Mrs. W. H. Taylor—Sec.-Treas. The meeting was an enthusiastic one, and the members are now working for their autumn sale.

### A NEW RECREATION GROUND

The field known as the "Bishop's" adjoining the Government Lodge, King's Bridge, has been placed at the disposal of the C. of E. orphans. This is certainly a move in the right direction.

Last afternoon the little girls of the institution could be seen enjoying themselves to their hearts content on and around these beautiful grounds of "verdure green."

### ALLAN.

Carthaginian leaves at 4 p.m., taking a small cargo and the following passengers:—Mr. and Mrs. Bellamy, J. Grievie, H. J. Hancocomb, Miss Frew, R. B. and Mrs. Job, G. A. Humphries, R. C. Poyser, E. V. Wylie, Mrs. Jorgensen and child, W. Lindsay, wife and infant, G. H. Ridge, Mrs. M. E. Davidson and 3 steerage.

### RED CROSS

S.S. Stephano leaves at 3, taking in saloon—Mrs. Capt. Olsen, Miss M. Madigan, Miss Mary Doyle, P. H. Cowan, Mr. Barraclough, Mrs. K. R. ## City Fathers Hold Conclave

Had Busy and Rather Lively Time At Weekly Meeting Yesterday

Mayor Ellis presided at yesterday's meeting, the other members of the board attending.

The report of the solicitor re the arbitration as to damages done property on Flavin Street, owned by the Trustees of Cochrane Street Church was discussed and adopted. The Government, however, will be written that they are primarily responsible for the amount of the ward, \$2700, as the land was originally acquired by the Government in 1892 and passed over to the Council later.

### Company Agrees.

The Reid Nhd. Co. agreed to continue watering the streets until July 10th for the sum of \$300, but informed the Council that it would be imprudent for any future board to base their calculation on this amount as to the cost of a continuation of the service after that date.

Waterman Flynn applied for an increase of salary, which was recommended by Councillor Ryan, who claimed the applicant was deserving of recognition. After considerable discussion the application was filed.

### Payment For Collectors.

Coun. Mullaly, for the Office Committee who last week moved the payment of \$70 to clerks Mahoney and Larkin for extra services in connection with furnishing information to the Citizens' Committee reported that the committee had since considered the claims of collectors Hynes and Grace put forward by Coun. Ryan, and recommended that the latter be paid \$11 each, which had been deducted from the amounts originally recommended for Mahoney and Larkin.

### Increases Voted.

The Committee asked that the Council vote \$60 each to clerks Mahoney and Larkin; \$10 each to collectors Hynes and Grace, and \$5 to the typist which was agreed to.

Plans of three buildings for D. J. Barron, Patrick Street; plans of a Pelly, MacIn Place; and plans of P. Malone, Kenne's Place, were approved. Mrs. Goodland, Merrymeeting Road will be given street line, as asked for. The street of Leslie, running west and parallel with Water Street, will be named MacIn Place, and sewerage will be placed in the street.

Sewerage will be given the residents of Allandale Road, as applied for. With passing of pay rolls, etc., the meeting adjourned at 5.30 p.m.

### THAT TRESPASS CASE

The case of Dryer vs. the Newfoundland Clothing Factory in which trespass on the part of the defendants was claimed together with certain property damages, was decided this morning against the plaintiff, Mr. W. G. Dryer.

### MET BISHOP MARCH.

To receive His Lordship Bishop March and Mgr. McCarthy of Harbor Grace diocese, who arrived after their visit to the Eternal City, by S. S. Digby yesterday, His Lordship Bishop Power, of St. George's, accompanied by Mgr. Roche and Dr. Greene, was at the pier with His Grace the Archbishop's horses and brougham.

Schr. Freedom left Maccie yesterday for Barbados to load molasses.

### AT THE NICKEL.

The week end programme at the Nickel Theatre last evening drew large audiences.

There were six different pictures, each being of a high class, and were watched with the greatest interest. The two reel feature story, "A Child of the Sea," proved a charming subject.

The programme will be repeated this evening.

## Fell Into Hold; Injured Knee

J. Quinlan Sustains Painful Injuries While Working On The Nascopic

J. Quinlan, a workman employed discharging the Nascopic at Franklyn's, sustained painful injuries last evening by falling in the hold of the steamer. He fell about fifteen feet and broke his knee cap.

Dr. Pritchard who was summoned dressed the wound, and ordered the sufferer to the hospital, where he was taken in the ambulance.

## "Kingdom of God" Subject of Lecture

To Be Delivered at British Hall Sunday Evening by Pastor Barker of Brooklyn, N.Y.

Pastor T. E. Barker, of the International Bible Students' Association, is to lecture in the British Hall tomorrow (Sunday) afternoon and night.

At 8 p.m. the subject discussed will be "The Kingdom of God," and will be dealt with somewhat along the following lines:

### Future Consummation

When the parables of our Lord are carefully examined it will be found that they clearly teach that the coming or setting up of the Kingdom of God in power is future; and, as a matter of course, not until the King comes. Thus the parable of the young nobleman going into a far country to receive a Kingdom and to return, etc. (Luke 19:11-15), clearly locates the establishment of the Kingdom at the return of Christ. And the message sent by the Lord to the Church long years afterward was, "Be thou faithful unto death, and I will give thee a crown of life." (Rev. 2:10.) From this it is evident that the Kings who will reign with Him, will not be crowned nor reign as kings in this life.

### Only Beginning

The Church at present, therefore, is not the Kingdom of God set up in power and glory, but in its incipient, embryonic condition. And so, indeed, all the expressions of the New Testament with reference to its teach. The Kingdom of Heaven now suffers violence at the hands of the world; the King was maltreated and crucified; and whose ever will follow in His footsteps shall suffer persecution and violence in some form. This, it will be observed, is true only of the real Church, and not of the nominal one. But the promise is held out that if now we (the Church, the embryo Kingdom) suffer with Christ, we also, in due time, when He takes to Himself His great power and reigns, shall be glorified and shall reign with Him.

### Two Phases

While it is true, as stated by our Lord, that the Kingdom of God cometh not—does not make its first appearance—with outward show, in due time it is to be made manifest to all by outward, visible and unmistakable signs. When fully set up, the Kingdom of God will be of two parts, a spiritual or heavenly phase and an earthly or human phase. The spirit phase will always be invisible to men, as those composing it will be of the divine, spirit nature, which no man hath seen nor can see (1 Tim. 6:16; John 1:18); yet its presence and power will be mightily manifested, chiefly through its human representatives who will constitute the earthly phase of the Kingdom of God.

The Cathedral Mission Auxiliary concert in the Presbyterian Hall on TUESDAY EVENING, June 16th. Admission 20 cents. Candy, Ice Cream and Plain Work for sale.—June 13, 14

## Pt. Morien Church After Mr. Lockyer

Effort Being Made to Induce Him to Again Take Up This Rectorship

Rev. E. Watering Florence of St. George's who at the request of the Bishop is interesting himself in the vacant rectorship of the Anglican Church, at Port Morien, reports that Rev. Frank Walker of Egan Secum has declined the election to that parish. It is now a year since Rev. Mr. Miller left Port Morien and the parish has been without service ever since.

There are some splendid monuments of the work of Rev. J. W. Lockyer at Morien. South Head and Glace Bay and it is feared that these handsome little churches will fall into decay if the vacancy is not soon filled. It is understood that Rev. Mr. Lockyer, who is now in Newfoundland, will return to this province shortly but it is not known whether he will be available for his old parish.—Sydney Record.

## "Kyle" Reaches Venison Island

Wireless From Capt. Parsons Says That Weather Has Been Very Stormy

The R. N. Co. had the following from Capt. Parsons of the S.S. Kyle, Venison Island, last night:—"Arrived at Venison Island at 4 p.m.; wind N.N.E.; strong gales S.W. midnight, thick weather. Some strings of ice along the coast, about half mile from shore, but nothing to hinder progress. Think ice is on land north of Domino since the gale."

### PARTY FROM BOSTON COMING IN JULY

A gentleman who has just arrived from Boston, informs us that Mr. Somerville informed him that 123 Newfoundlanders had subscribed to the club to visit St. John's this summer. They will leave Boston on July 28 by the Plant steamer for Halifax, and will then join the Red Cross boat.

## Beautiful Tribute To Sealing Victims

Handsome Monument Now Displayed At a Local Marble Works

There is now on exhibition at McIntyre's marble works, Duckworth Street, a beautifully polished monument of blue marble, bearing the following inscription:

"Erected by Mr. and Mrs. Thos. J. Carroll, in memory of the men who lost their lives on S. S. Southern Cross and S. S. Newfoundland, on March 31st, 1914."

It is a work of art and reflects credit on the sculptor, McIntyre.

## C. E. I. SCORE OFF ST. BONS

In Football Match on St. George's Field.—Exhibition Rather a Poor One.—Teams Evidently Require More Practice.—Very Little Combination Play in Evidence.

Line-Up  
St. Bon's—J. S. John, goal; Power, Higgins, backs; J. Ryan, A. Cleary, E. Crawford, halves; W. Callahan, Jackman, R. Callahan, J. Gear, E. Jackman, forwards.  
C. E. I.—Marshall, goal; Hussey, Barnes, backs; L. Stick, Drover, Jupp, halves; Bartlett, N. Hunt, Auchincloss, M. Churchill, R. Stick, forwards.  
Referee—W. J. Higgins.  
Linesmen—Fox, C. E. I.; R. Hickey, St. Bon's.  
Score—C. E. I. 3; St. Bon's, 2.  
Many Spectators.

The third football match was played last night and a large number of spectators assembled to witness the game. It was an ideal evening as the wind had dropped considerably and made the play more enjoyable.

The C. E. I. won the toss and defended the western goal, and at 7.03 the ball was set rolling at the sound of the referee's whistle.

The game opened briskly and spectators thought that a good exhibition was in store for them, but they were disappointed as the men fell to pieces after a while, which showed that practice is badly needed.

### First Goal Scored.

St. John, the St. Bon's goal keeper, was kept busy for a while and had his hands full trying to keep the ball from entering until Nix Hunt tried his luck and sent a 'hot one' and succeeded in beating him, scoring the first goal in 8 minutes.

The ball being recentered the C. E. I. still increased their pace and kept the St. Bon's backs busy in playing a defence game.

### Second Goal.

A corner was given to the C. E. I. and Churchill landed the ball in the mouth of the St. Bon's goal. Bob Stick was waiting for it and with his head he landed No. 2 for the Institute.

The St. Bon's lads did not seem to work well together, the C. E. I. forwards playing around them, and Bartlett taking the ball down field sent a beauty to St. John, and notched up the third for his team.

The remainder of the first half was slow. The St. Bon's tried hard to score, but their shooting was wild and the ball failed to find the net. Endeavoring leaving the C. E. I. with 3 goals to their credit.

### Second Half

The second half opened up more lively, the St. Bon's boys working hard to score.

Jack Higgins took control of the ball, dashed along the field and sent the ball to Marshall, which was too much for him, the ball finding its way safely between the posts.

The leather was no sooner centered when Callahan tried his luck this time and was successful in notching up No. 2.

### Little Liveller.

The play now was opened up a little and became fast for a while; it looked as if the St. Bon's would be the winners, their forward line improving all the time. The C. E. I. backs put up a good defence, however.

Play now was interrupted for a while, Crawford, St. Bon's, receiving a kick in the face from Churchill's boot. Play now was pretty even, both teams making a hard attempt to score. Jupp, the C. E. I. half, gave his right leg a slight wrench and play was again stopped.

Full time was now drawing nigh, the St. Bon's worked hard to equalize and Marshall was called on several times to save which he did well. Full time sounded leaving the C. E. I. one goal to the good.

### Notes on the Game

Practice is badly needed by both teams.  
Drover and Hussey for the winners played a splendid game.  
Jack Higgins, for St. Bon's, was seen in good style.

The small boy should keep well outside the fence, as in last night's match one of the players fell over the 'touch' line and gave an onlooker a severe blow, his head coming in contact with the railing.

Regular meeting of Atlantic Lodge, No. 1, L.O.O.F., will be held on Monday, the 15th at 8 p.m. SPECIAL BUSINESS: Visit of Grand Master J. E. Cruickshanks. All members are requested to be present, and a cordial invitation is extended to any visiting brethren. J. W. BARTLETT, Secretary.—June 13, 21

Schr. Jean with fish from Baird's, sailed for Brazil yesterday.

# We Cater to Boys Too!

In our BOYS' DEPARTMENT we are showing an exceptionally fine line of

## Wash Suits!

made from the best TUB FABRICS, such as— GALATEAS, DRILLS, LINEN and OXFORDS, in all the smartest styles. Prices from

### \$1.60 to \$2.60

## Tweed and Serge Suits!

A full range of all sizes in the popular "CONWAY" and "RUSSIAN" styles.

## PERSONAL.

Mrs. James Grieve leaves for Scotland by the Carthaginian to-day.  
Mr. and Mrs. R. B. Job leave for England by the Carthaginian.  
Mrs. (Rev.) E. L. Birchby and son, arrived by the Carthaginian.  
Mr. E. V. Wylie, of Ayre & Sons, leaves by the Carthaginian en route to England and will be absent five weeks. Mr. Wylie and son, who have been visiting friends near Liverpool since June last, return with him.  
A GRENFELL NURSE.  
Miss Clara Dooe, a St. John girl, has volunteered and been accepted as a nurse at one of the Dr. Grenfell missions in Labrador, and expects to leave in about two weeks for the far north. Miss Dooe has spent five years in the Cambridge Hospital.  
INVALID SENT HOME.  
Miss Effie Kelly of Ireland's Eye, who was undergoing treatment at the General Hospital for hip disease, was taken to Baine Johnston's wharf in the ambulance, yesterday, to be taken home.  
It is feared that the girl is incurable.  
LAD INJURES ARM  
While enjoying the football match last night a young lad named Moore, of Stephen's Street, fell off the fence and gave his right arm a bad sprain. Mr. W. Reeves was quickly summoned and rendered first aid. After the injured limb was put in splints the boy was driven to his home accompanied by an officer.  
TWO LADS DROWNED WHILE SALMON FISHING.  
A message was received from Gumbo last evening that two lads—G. Crowell and W. Math—were drowned by the upsetting of a canoe.  
Five were in the boat fishing when it upset.  
Three succeeded in reaching the shore but the others were drowned, and their bodies were not recovered.

## MARKET HOUSE AT BELL ISLD.

Bell Island Co-operative Co. Establish Market for Fresh Meat, Vegetables, Provisions and Groceries of all Descriptions.

The Bell Island Co-operative Co., which is a concern capitalized amongst the residents of the Iron Isle opened their premises there last week. This Company has established a fresh fish market as well as a meat market, both of which have been sadly wanting in that progressive little town. They have also established a provision and grocery store which is largely stocked, and are already assured of a large share of the patronage of the Island.  
Their premises are situated at East Wabana. The Mines, near the plant of the Dominion Iron & Steel Co., and their store is up to date in every respect.  
The services of Mr. S. Lodge, formerly of Catalina and latterly of the D. I. & S. Co. Stores Dept., have been secured as manager, while Mr. Michael Sweeney, formerly of Connolly's meat market, has been engaged as meat-cutter.  
BICYCLES—English and American Bicycles, new and second hand. Parts in stock from tires to handle bars. No break too hard for us to repair. Also, Guns, Electric Bells, Baby Carriages and Locks repaired. Keys fitted. Orders carefully and promptly attended to. RENDELL & CO., 16 & 18 King's Road, P.O. Box 462.—June 10, 21, t.h.s.t.f

## SHIPPING

CLEMENTINE WAS AT HORTA FOR REPAIRS  
Goodridge's Clementine, Capt. Parsons, is now due from Horta (Azores) where she put in for repairs. She was leaking slightly near the hawse pipes. Repairs only occupied one day when she left again.  
BLACK DIAMOND.  
Morwenna left Montreal last night; she leaves there again on the 26th.  
Cacouna is lying up at Montreal, and will not leave until the 16th for this port.  
"CAPE BRETON" REPAIRED  
The S.S. Cape Breton, which was damaged by ice on the way to Botwood, has been repaired by the R. N. Co., and sails to-day for Botwood, where she will discharge her coal and load for England.  
ICE IN GREEN BAY.  
The S.S. Home wired last evening that she was unable to make Exploits owing to the ice and had to run to Shoe Cove direct.  
There is loose ice in the Bay and it is drifting on the land.  
CARTHAGINIAN ARRIVES  
S.S. Carthaginian, Capt. Ogilvie, 5 days from Philadelphia, arrived this morning.  
She brought a small cargo and the following passengers: Miss D. Puttriki, D. Puttriki, John Diamond, Mrs. E. L. Birchby, Master Birchby, 8 intermediate and 3 steerage.  
BELLAVENTURE RETURNS  
The S.S. Bellaventure, Capt. Randell, returned from the Labrador at 6 last evening.  
She left Brigus on the 2nd with crews and proceeded as far as Smokey very heavy ice was met at several points and it looked as if the steamer would become jammed. Capt. Randell succeeded in getting through however, without long delays.  
The return run was made in 48 hours.  
Earl of Deyon left Musgrave at 9 a.m.  
S.S. Digby leaves at 3 p.m. taking one passenger, Mr. DeFallot.
