REFUGEES FROM KAVALA REACH ATHENS IN A VERY BAD PLIGHT

Boat Was Shelled by Hun Aeroplane When Leaving City—City Given Over to Bandits

By Courier Leased Wire. Athens, Sep. 13, via London, Sep. 15 (delayed).—The Margarete, the boat in which Baron Von Schenk, head of the German propaganda in Greece, was sent to Kavala to be turned over to the Bulgarians, arrived this afternoon with 1000 refugees who were in the most pitiable condition. They had been without food since Sunday, and were packed in the ship like sardines. The refugees said that a German aeroplane had dropped three bombs as the boat was leaving Kavala, which caused within inches of striking the ship. An eye-witness who described the entry of the Bulgarians into Kavala on Monday, said that three Greek regiments which had remained in the town were given until ten o'clock Tuesday morning to surrender as prisoners of war. At the expiration of this ultimatum they gave up their arms after a slight resistance and were taken up country. The same man said that 3,000 Greek troops had been camped on Thasos Island in two camps. One camp offered to join the allies and the men were shipped to Saloniki. The second contingent refused to desert the Greek army, and the refugees said the French proposed to return to Kavala. Terrible conditions were described on the island of Thasos, where 7,000 refugees had fled from the invaders in rowboats and sailboats. They lacked every necessity of life, and great numbers of women and children were camped out in the open without food. The refugees said that indescribable disorder reigned in Kavala, where bandits were looting the houses, and all the Greeks who could, were taking refuge in flight. They said only three or four Americans remained in town, the remainder of the colony having gone to Thasos.

AT SEVEN O'CLOCK SATURDAY NIGHT ALL BARS AND CLUB LICENSES CEASE

License Inspector Reports That Matters Still Remain Normal—What Places May Sell Under the New Law—Very Heavy Fines in Future For Those Found Under the Influence

To-morrow (Saturday) night at 7 p.m. the bar and club licenses of the Province of Ontario will expire under the Temperance Act passed by the Government for the period of the war.

All But One in Brantford. This morning "Standard Licenses" were received for all the hotels in Brantford, save one, the Imperial, whose proprietor is selling out. The others are: Kerby House, Belmont, Prince Edward, Grand Valley, New American, Strand, Bodega, and Benwell House. The new fee, which they pay per annum, will be \$1, as against the \$500 as at present. It is believed that for the most part the hostelries in question will charge higher for rooms, and, perhaps, also, for meals, but restaurant competition may hold the latter down. There is no time set either for the opening or the closing of bars, and temperance beer (ale and porter 2 1/2 per cent) and soft drinks can be sold therein. They also can dispose of cigars, cigarettes, ice cream and so on.

For the Village of Scotland, Dunn has been granted a license, and in Paris J. D. Milton, Ellen Lavoie, J. J. Flahiff, and W. B. Robb.

Quite Normal. Notwithstanding the fact that only a few hours now elapse before it will be possible to buy liquor in any shop or bar, License Inspector Eacrett reports that matters have proved quite normal. It should be remembered that after 7 o'clock to-morrow night anyone found under the influence of liquor will have their case come under the provisions of the new act, which provides for a fine of from \$10 to \$100.

Big Business. The holders of Brantford shop licenses report a record business, especially during the last two weeks, as many evidently wish to have a stock of stuff in the house before the new law prevails. After Saturday intoxicants cannot be purchased in this Province, but they may be brought in for home consumption from outside, and Montreal, Quebec, looks like headquarters for this trade.

Reports from all over show that some bar-tenders have enlisted for overseas service. However, one Brantford hotel, at any rate (Milton's) announces that the bar-tenders will not be reduced.

The general attitude of hotel proprietors may be said to be that of giving the new order of things a good trial anyway.

GERMANS LOST 120 PLANES IN MONTH

Against only Half that Number by French—England's Wonderful Army.

By Courier Leased Wire. New York, Sept. 15.—Paul D. Cravath, attorney, who returned on the Kronland from a six weeks' visit to France and England, said last night that during August official figures showed that the Germans lost 120 aeroplanes as against 60 lost by the French. "I return home with all doubt removed as to the ultimate victory of the allies," he said. "I nowhere heard the slightest uncertainty in this regard—and am told that the same opinion has become general in neutral countries in Europe, even in those having pro-German sympathies. In referring to the achievements of England in the war, Mr. Cravath believes Americans have heard so much of England's mistakes and shortcomings that they have lost sight of her great achievements. "By common consent among the allies," he added, "the creation of England's volunteer army, with the mobilization of the industries of the nation is regarded as the greatest achievement—always excepting the victory of the allies on the Marne, which still remains the miracle of the war. England has done in two years by the voluntary action of her people what it has taken Germany France two generations to accomplish with the most drastic measures of conscription."

These Greeks Forming the Fourth Army Corps. Are to Fight on the German Side. Berlin, Sept. 15.—The 4th Greek army corps, with headquarters at the port of Kavala, has been placed under the hands of the German commander and the troops will be transported to Germany, it was officially announced here. The Greek troops will be permitted to retain their arms and equipment, and will retain their standing as neutrals. They will enjoy German hospitality until Greek troops are sent to the front. The Greeks, it is said, first surrendered to the Bulgarians. The official statement dealing with the action of the Greek troops said that the 4th Greek army corps was left behind the left Bulgarian wing in the Bulgarians' advance into Macedonia. "The allies planned to force these troops to fight on their side or to suffer the same fate as the part of the 11th Greek division at Saloniki," said the official statement. "Free communication from Athens was checked by arbitrary action of the allies' commander-in-chief of the army corps at Kavala, faithful to the will of his Commander-in-chief (King Constantine) and the legal government. The desire to maintain neutrality, was forced by famine and disease to ask the German Commander-in-chief on September 12 to protect his brave troops and to provide them lodging and food."

ADVANCE ON FRONT OF 1000 YARDS

British take Strongly Fortified Position of "Wunder Werk" on Somme.

By Courier Leased Wire. London, Sept. 15.—"Last night enemy trenches southeast of Tielport on a front of about 1,000 yards, including the strongly defended locality known as the "Wunder Werk" were captured by our troops. "This morning we attacked from the north, extending from the Al-Bouzeaux road, a distance of about six miles. Considerable successes already have been obtained. Our troops have advanced some 3,000 to 3,500 yards at various places and the attack is progressing satisfactorily. "A large number of prisoners have been taken."

BULGARIA AND TURKEY BADLY NEED HELP FROM TEUTONS

Reason For Conference of Enver Pasha and Ferdinand With Kaiser and Hindenburg

By Courier Leased Wire. New York, Sept. 15.—A London News Agency despatch to the New York Sun says: Bulgaria and Turkey are badly in need of help from Germany and Austria, because of the entry of Roumania into the war. That is why Enver Pasha, the Turkish minister of war, and King Ferdinand of Bulgaria are conferring with the Kaiser and Von Hindenburg at headquarters on the eastern front, according to a despatch from the correspondent of the Daily Express upon Budapest despatches. These despatches say that Enver and King Ferdinand pointed out to the German and Austrian leaders that if Bulgaria were attacked on the north by a large Russo-Roumanian army she would be forced to evacuate Greek Macedonia and the whole Saloniki front before General Sarrail's allied army. Enver intimated to the Kaiser that Turkish forces sent recently to the Russian front should return to aid the Bulgarians, for if the Bulgars were defeated, Turkey would be isolated and surrounded. This correspondent says Austria has promised guns but no men to aid her southern allies, but the answer of Germany is unknown. A wireless press despatch from Rome says, however, that the general council mapped out an offensive campaign in the Balkans, to which Germany is to contribute 200,000 and Austria 100,000 men.

A BIG FIRE Rages in Sarnia with a Loss of \$500,000.

Sarnia, Sept. 15.—Fire which started late last night in the boiler-rooms of the huge plant in the southern Cannery's Association in the southern section of the city, rapidly consumed the whole plant, swept through a fire wall to the premises of the Laidlaw Lumber Company, spread to the neighboring docks and caused damage estimated at \$500,000. The Ontario Cannery plant, which was razed to the ground, suffered the greatest proportion of the loss, the fire being stopped before it reached the main plant of the Laidlaw Company or the lumber piles. The boiler shop and engine-room of the Laidlaw Company were burned.

FRENCH PREMIER Predicts Complete Victory for the Allies.

Paris, Sept. 15.—Complete victory of the allies and a subsequent lasting peace was predicted, amidst tumultuous cheers, by Premier Briand in his anxious-awaited speech before parliament yesterday, reviewing the recent developments in the great war. The premier hailed the intervention of Italy and Roumania as "contributing no little to hastening victory." While admitting that the Bulgarian invasion of Roumania "increases the difficulties" of that country, he expressed the certainty that these will be overcome. M. Briand's speech dealt at length with the allies' occupation of Greek territory. The action of the Entente, he said, was justified and necessary not only to safeguard the allied troops, but also "to preserve Greece's independence, menaced by the greed of our enemies."

ALLIES WIN SERIES OF SUCCESSSES ALL ALONG MACEDONIAN FRONT

Bulgarian Defenses Broken Through and Several Positions Taken—Serbs Capture Many Prisoners

By Courier Leased Wire. Paris, Sept. 15.—The Entente allies have won a series of successes on the Macedonian front, the war office announced to-day. French, British and Serbian forces, operating at different points, have broken through the Bulgarian defences. The French have captured positions half a mile deep over a front of a mile. A brilliant victory for the Serbs a battle lasting several days west of Lake Ostrovo, near the western end of the fighting front. The British success was effected west of the Vardar, near the centre of the entente front, where they captured important positions. The lines forced by them were to the east of the Vardar. The Serbians captured twenty-five cannon and a large number of prisoners as yet uncounted. The Bulgarians, after their defeat, says the statement, retired for a distance of 12 miles.

THE LEVANT IS TRULY STARVING

Says American Woman After Two Years There—Locusts Destroyed Food.

By Courier Leased Wire. London, Sept. 15.—(New York World)—An American woman, who recently returned from Beirut, Syria, by way of Turkey, Bulgaria, Austria-Hungary and Germany, contributes to The Times an account of her two years' experience there. She says: "The Levant is starving. This is no figure of speech, but the literal truth. Our party crossed the whole of Europe at war, visited the four countries of the Central powers and saw a lot we had rather forget than remember, but nothing existing in Europe can even be compared with the present conditions in Asiatic Turkey."

She then describes the plague of locusts in 1915, which, she says, began the calamity. After the initial swarms had passed over and settled in the plains, where they laid their eggs, the Red Cross and other institutions sent out men and boys to dig up the eggs. Thousands of bags full were gathered, but all in vain. Presently the larvae appeared. "Like armies of black ants they marched across the plain. Every growing plant was stripped, herbs, bushes and trees were left naked, robbed even of their bark. At the end of July the whole olive and grape crop had gone. Cannibalism? "Toward spring, cases of starvation began to be known. People were found in the streets unconscious by the roadside with closed eyes and ghastly pale faces. It was a common thing to find people searching the garbage heaps for orange peel, old bones or other refuse and eating them greedily. We even heard that in a barren district of the Lebanon range cases had been found of persons eating human flesh."

MAUDE ALLAN WAS IN ZEPPELIN RAID Was Under Fire in London on Sept. 3, When 13 Dirigibles Bombed City.

By Courier Leased Wire. New York, Sept. 15.—Miss Maude Allan, the celebrated dancer, who will tour the United States and Canada, and who arrived yesterday on the Lapland, told of a narrow escape she had in the last Zeppelin raid on London, September 3, when thirteen Zeppelins bombarded the east coast of England and three succeeded in dropping bombs on London itself.

Miss Allan said she was awakened at 2.30 in the morning by the heavy firing of the anti-aircraft artillery in a nearby arsenal. "Shrapnel began falling all around and Londoners had a taste of real warfare," she said. "We watched the tiny cigar-shaped object, which was occasionally illuminated by one of the high power searchlights. Suddenly a spark glowed at one end of the airship and soon little tongues of flame could be seen spurting from various parts of the envelope, and the Zeppelin burst into a mass of flames. The air remained stationary a moment they swayed and dropped with amazing rapidity. The following morning I found many pieces of shrapnel and burst shells in my garden, which showed what a narrow escape we all had."

VERDUN VETERANS Sent to Help in Somme Fighting.

Paris States Their Attacks Were Fruitless.

London, Sept. 15.—Twenty thousand Verdun veterans, a full division hurriedly despatched from the German Crown Prince's army to that of their debut on the Somme battlefield and since their arrival have launched a series of violent counter blows Franco-British centre between Peronne and Comblès. Berlin announced officially that "ground was gained at places," and that prisoners and booty were taken. The Paris war office on the other hand, in announcing the participation of the Verdun troops in the fighting northwest of the hard-pressed German fortress base, Peronne, asserts that their attacks were utterly fruitless. The Franco-British nose around Comblès was further contracted in the course of yesterday's fighting. The French, closing in on the town from the southeast, captured the strategically important Priez Farm. The British pushing ahead in the northwest, made further progress north of Ginchey. The German war office disputes this official British headquarters claim, asserting that attacks between Ginchey and the Somme were repulsed. The French stoutly counter-attacks between Peronne and Comblès, particularly around the villages of Bouchaines, taken yesterday. The Paris night communique says: "We maintained our gains in their entirety."

Pte. Sidney Curt was killed in action; Pte. Victor Waring and Pte. J. S. Gilbert wounded seriously. Pte. Sidney Curt was prominent in athletics of war in baseball and football circles. He is a son of Mr. and Mrs. Thomas Curt of Paris, enlisted in the 84th Battalion, and upon the arrival of that unit in England was transferred to the 72nd Regiment, the celebrated Highlanders' Black Watch. Yesterday word was received that he had been killed in action. Pte. Victor Waring, a nephew of Mrs. Bernard Brown, resided for several years in Paris, and went overseas also with the 84th Battalion. On September 11th last he was severely wounded by shrapnel shell in the arm and both shoulders. He was employed previous to enlistment at Penman's mill, No. 1, Pte. J. S. Gilbert left Paris about a year ago, and enlisted in the Fort Garry Horse. He is also seriously wounded.

BRITISH RESUME SOMME ATTACK

Advance 3,000 Yards and Continue Still to Progress.

By Courier Leased Wire.

London, Sept. 15.—The British returned to the attack on the Somme front last night charging over a sector about six miles long. The war office announced to-day that they had advanced from 2,000 to 3,000 yards and were continuing to progress. The attack was made along the whole British front over which the heaviest fighting has been in progress recently. The British advanced on the line from Bouleaux wood, between Combles and Ginchy to a point north of the Albert-Bapaume highway.

BEGIN CAMPAIGN FOR RECRUITS

Renewed Efforts to Be Made During Autumn by 215th Battalion.

A big recruiting campaign is to be inaugurated by the 215th battalion in the near future. Men will be brought up from Niagara Camp to assist in the quest for eligibles. Since the departure of the soldiers for camp, some time ago, recruits have been coming in very slowly and practically at a standstill. However, with the return of the battalion shortly, better prospects are in sight. The arrangements for the big campaign have not as yet been completed but it is expected to take place in about ten or twelve days.

Evening Classes Re-Open in B. C. I.

INDUSTRIAL AND COMMERCIAL EVENING CLASSES

Brantford Collegiate Institute
At a recent meeting of the Advisory Industrial Committee, it was decided to re-open the evening classes at the Collegiate Institute on October 16th, the registration and enrollment to take place on the 12th and 13th, when the principal and teachers will be present to advise students.

The attention of every resident is directed to these classes which are free and require no entrance examination, anyone not attending a day school are eligible for admission.

Now that mechanics are so much sought after the chance to attend one or more classes should not be neglected, for at the cost of a little leisure time lasting benefit can be obtained.

The course in mechanical drawing covers the ground sufficiently to enable a pupil to prepare intelligently a working drawing, to understand a working drawing and to read a blue print. This is of the utmost value to every mechanic.

A class in practical mathematics, specially intended for the factory worker, is often at a loss to make the simple calculations which occur in his daily work, is equally valuable.

The woodworking class can accommodate only a limited number of students; this class is always popular, for every householder desires to know how to handle wood working tools so as to perform small jobs in a workmanlike manner. Early application for this class is required.

The class in forging is not of value to the blacksmith alone, but to every metal worker, some machine shop processes and the study and use of the engine lathe will also be taken up.

A class for carpenters for training in house framing, the setting out and the building of staircases and other necessary processes is also available.

It is also proposed to include a class for the study of the modern automobile engine; this should be exceedingly valuable to car owners, chauffeurs and salesmen.

The usual women's classes will be continued in Household Science, Dressmaking and Millinery. These classes are sure of a large attendance, so early application for enrollment is necessary.

Classes in English and Arithmetic, open to male and female students, and in Art and Design are also to be held.

A complete list of classes and the syllabus for each class will be ready in a day or two, but those who intend to become students are advised to let their names enrolled at once so to avoid possible disappointment.

Marshfield, Ore., Sept. 15.—(Continued)—The Pacific Coast Steamship Company's liner Congress swung on her anchor chain at the entrance to Coos Bay to-day a black and burned out hulk as the result of the fire which caused her to race for this port last night. Everyone of the 263

passengers on board and the crew of 175 were landed safely last night by the dredge Colonel P. S. Michie.

Several members of the crew who were overcome by smoke were reported early to-day to be recovering.

None of the passengers appeared to have suffered any ill effects whatsoever.

CREW LANDED.

Leafs are Still on Down Grade

Rochester, N.Y., Sept. 15.—The Hustlers made a clean sweep of the series with the Toronto Leafs, winning 3 to 2 and 3 to 1 this afternoon. The final local games of the schedule were played before the smallest crowd of the season. The second game was called after

innings owing to darkness. The storm which broke between Manager Blackburne and Ump Chestnut yesterday was continuing to-day, the Toronto manager paying a fine of twenty dollars before Ump Chestnut would allow the Leafs to take the field for the first inning. Blackburne declined to hand money to the umpire, but laid it in the home base. There were two one-dollar bills.

Hill, who pitched against Thompson in the first game, produced home runs with one out in the tenth to decide the honors. The Leafs won the game 2 to 0 until the eighth when Doolin, Hill and Milan produced triples before a man was out. This merger of hits resulted in four runs. Hill's homer of the tenth broke up the game.

The Leafs got their first run in the fourth. With one out Smith Kriebell singled, the latter's sending Smith to third. He scored on Thompson's sacrifice fly to center.

In the seventh the other was scored on Murray's single, Graham's sacrifice, Vico's infield hit and Blackburne's infield out.

Milan's Triple Wins Second Game. Herche for Rochester and Blackburne for Toronto were the pitchers in the second game, which was interrupted in the fifth by a shower. Hustlers scored in the fourth. Jacobson's single, his steal and single by Siglin. In the fifth, one down, Doolin and Herche single and Milan tripled to give the Hustlers two runs.

The Leafs got their lone run in the sixth. With one out Trout led, advanced on a wild pitch and scored on a single by Murray.

Getaway day's double attracted well advertised, failed to attract. Even yesterday's double victory, beautiful weather had no enticing effect on the indifferent fans. Fewer than 300 spectators were out, say farewell and be there at death of the season.

Leafs are Still on Down Grade

Rochester, N.Y., Sept. 15.—The Hustlers made a clean sweep of the series with the Toronto Leafs by winning 3 to 2 and 3 to 1 this afternoon. The final local games of the schedule were played before the smallest crowd of the season. The second game was called after six innings owing to darkness.

The storm which broke between Manager Blackburne and Umpire Chestnut yesterday was continued today, the Toronto manager paying a fine of twenty dollars before Umpire Chestnut would allow the Leafs to take the field for the first inning. Blackburne declined to hand the money to the umpire, but laid it on the home base. There were twenty one-dollar bills.

Hill, who pitched against Thompson in the first game, produced a home run with one out in the tenth to decide the honors. The Leafs had the game 2 to 0 until the eighth, when Dooan, Hill and Milan produced triples before a man was out. This merger of hits resulted in two runs. Hill's homer of the tenth broke up the game.

The Leafs got their first run in the fourth. With one out Smith and Krichell singled, the latter's hit sending Smith to third. He scored on Thompson's sacrifice fly to centre.

In the seventh the other was scored on Murray's single, Graham's sacrifice. Viox's infield hit and Blackburne's infield out.

Milan's Triple Wins Second Game. Herche for Rochester and Brady for Toronto were the pitchers in the second game, which was interrupted in the fifth by a shower. The Hustlers scored in the fourth on Jacobson's single, his steal and a single by Siglin. In the fifth, with one down, Dooan and Herche singled and Milan tripled to give the Hustlers two runs.

The Leafs got their lone run in the sixth. With one out Trout singled, advanced on a wild pitch and scored on a single by Murray.

Getaway day's double attraction, well advertised, failed to attract. Even yesterday's double victory and beautiful weather had no enticement on the indifferent fans. Fewer than 300 spectators were out to say farewell and be there at the death of the season.

A TURNOVER Takes Place in British Columbia.

Vancouver, Sept. 15.—The Bower Government has gone down to defeat. So far the returns are not full enough to determine definitely, but it looks as if about 10 Conservatives would survive the election. Premier Bower himself is defeated. Prohibition has carried, although the vote is closer than expected. The woman suffrage bill is also carried.

At 10 p.m. the estimated standing is 37 Liberals and others and 10 Conservatives.

Four Liberals and two Conservatives were elected in Vancouver and four Liberals were elected in Victoria.

The voting to-day marked the end of the hottest political campaign in the history of the province. The Conservative Government was opposed by Sir Hibbert Tupper, one of the leading Conservatives of the province, who took the stump against the ministry.

Some of the returns follow:
Nanaimo—Sloan (Lib.), 1,012; Plantu (Con.), 500; Skinner (Soc.), 222.
New Westminster—Whiteside (Lib.), 555; Gifford (Con.), 383; Six polls to hear from.
Richmond—Baird (Con), 266; McGeer (Lib.), 234. Incomplete.
Vancouver incomplete; MacDonald (L) 782; McIntosh (L) 710; Farris (L) 693; Smith (L) 684; Cowper (L) 641; Donnelly (L) 622; Bower (C) 594; Lee (C) 546; Duke (C) 532; Tisdall (C) 514; McGuire (C) 507; Trotter (Lab.) 486; MacGowan (C) 479; Cassidy (C) 476; Gowan (C) 474; Harrington (Soc) 172; Appleby (Ind.) 78; Fawcett (Ind.) 53.
New Westminster (incomplete) Whiteside (L) 1,132; Gifford (C) 814; prohibition, yes, 1,082; no, 845.
Victoria, complete; Bell, 932; Brewster, 1,260; Dilworthy, 633; E. A. Hall, 361; H. C. Hall, 870; Hart, 934; Hayward, 710; Morley, 329;

Prohibition and Women's Suffrage Are Both Carried.

Vancouver, B.C., Sept. 15.—The final count on prohibition in Vancouver was:
For, 8894; against 5396; majority for prohibition 3,498.
The final count on woman suffrage in Vancouver is: For, 8923; against, 5198; majority for, 3725.
Woman suffrage apparently carried in every constituency.
The Liberal leader, H. C. Brewster, issued a statement expressing doubt as to the vindication of policies advocated by ourselves. He felt satisfied that the soldiers' vote would rather increase than decrease the Liberal lead.

"It is too early," said Mr. Brewster, "to state what line of action will be taken by the Liberal government."

He asked for the support and assistance of all persons of every shade of political opinion in our efforts to bring about healthier financial conditions in this province.

Vancouver, B. C., Sept. 15.—The Vancouver Sun (Liberal) claims that 43 Liberals and four Conservatives have been elected.

Conservative Claim
Winnipeg, Sept. 15.—The Telegram (Conservative) has a despatch from Vancouver saying that four Conservatives are elected, that two more are leading in constituencies where the returns are still indefinite, and that in Sloan the result is a tie with six polls to hear from. In the balance of the seats the Liberal candidates are either elected or leading.

THE SITUATION

It is said that the Teutons have decided to risk all in an effort to save the Balkan situation, and with this end in view will at once send three hundred thousand troops there. The main object they have in view is to crush Roumania and to expel the Allies from Macedonia, so as to safeguard their connections. It is a large order and one with regard to which there is every reason to doubt successful fulfillment.

In addition to the above the Huns have despatched twenty thousand Verdun veterans to the Somme front in order to help check the advance of the French troops there, but the Paris War Office reports that even with this accession Joffre's men are withstanding all counter-attacks.

The Bulgarian attack, along the Danube, seems now to be well in hand.

The announcement that the Fourth Greek Army Corps will fight with Germany constitutes one more act of ardent treachery on the part of King Constantine. These men with headquarters at Kavala, were ordered to surrender and are now enrolled with the foe. There cannot be much doubt that the surrender of Macedonian forts to the Bulgarians was part of the same plan. With men and munitions thus handed over the remainder of the Greek army is in little position for fighting. Without any doubt Constantine will receive the drastic treatment from the Allies which he has so richly earned.

THE BRITISH COLUMBIA RESULT

Incomplete returns, at time of writing, from British Columbia, show that the Bowser Government has met with defeat and that the Conservatives will probably have only from ten to thirteen seats out of a total of forty seven. There is still a large soldier vote to be received from men on overseas service—that is those in camp, on hospital service or leave, for the Imperial Government refused to allow trench votes to be taken—but their receipt will not probably affect the outcome to any extent. On the occasion of the last contest the Conservatives swept the Province and there was not a Liberal member left while that side now has a substantial majority.

It is not charged that Mr. Bower, the Premier for the last year or so, had failed to give progressive legislation, for he had introduced important measures such as a working men's compensation act, prohibition and woman suffrage, if both or either should be ratified at the polls, money loans to farmers, a shipbuilding scheme and so on.

The main cause for the reverse must be attributed to the slump times in the Province. From a period of inflation in Vancouver and throughout the Province matters have sagged very largely into the cellar, and it is not on the records that Governments usually survive such periods of distress.

THE NEW WAR LOAN.

The Monetary Times has issued a special edition with regard to the new war loan and some very instructive facts are given.

From April 1st, 1916 to March 31st, 1917, the Dominion government will raise by way of loans, from \$200,000,000 to \$225,000,000. The loan negotiated in New York in March accounted for \$75,000,000. Taking the maximum possible requirements of \$225,000,000, there is still to be raised during the present fiscal year \$150,000,000. Assurances were given by the federal government in connection with the \$75,000,000 New York loan that no further offering would be made in the United States during the current calendar year.

While Sir Thomas White has made an arrangement by which he can draw upon an authorized credit of \$150,000,000 established by the Imperial government, the Dominion government will endeavor to utilize this credit as little as possible, if at all. As we have voluntarily closed the United States money markets against our federal loans for the remainder of the year 1916, and as we are unlikely to draw upon the

credit which the Imperial authorities have provided, there will be left to be raised by way of loans, in Canada during 1916, and in the United States during the first quarter of 1917, the sum of \$150,000,000.

As the present loan is for \$100,000,000 this leaves a sum of \$50,000,000 still to be raised in order to make up the total loan requirements for the current fiscal year. This loan will probably be raised in New York about March next.

The bonds are available to the man with only \$100 for investment and to the big corporation with its million. The purchaser does not pay a commission to the bank or the bond house through which he purchases. The government is selling its bonds through these channels and direct to applicants for the loan.

There is peculiar gratification in holding Canadian war bonds. We are lending money to our own government to help finance Canada's share of the Great War. At the same time, we relieve to that extent the tremendous financial burden placed upon the Imperial government in financing its own war operations, those of some of the Allies, and of the business of certain neutrals. The first impulse to purchase is naturally a patriotic one. Money has been donated in millions of dollars for purposes connected with the conduct of this war. Now the Dominion government is asking for the loan, not the gift, of money for the continued prosecution of its share of the struggle. For that loan it is paying an attractive rate of interest.

The Dominion war bonds, as Mr. R. D. Bell, Montreal, has written, have behind them the entire wealth of this great Dominion, and nothing conceivable can happen to this country that could impair the government's ability to pay interest and principal. Do not make the mistake of the man who asked: "What if the war should go against the allies? I would lose my money. Ten wars could go against the allies without loss to Dominion government bondholders. Austria, for instance, has been well-nigh crushed several times over this, yet even Austria still pays bond interest. In the first three-quarters of the last century France went through revolution and crushing defeat, and yet another revolution, and still French Rentes continued to buy interest through it all, and at the end of the little war returned than this loan offers the Canadian investor to-day. It is not possible that this war is going against the allies, but for those who prefer to look at the worst it may be said that history teaches that this does not matter.

NOTES AND COMMENTS

Wrangel is the name of the Swedish minister who has lived up to his cognomen by getting into a row with Great Britain over the stoppage of mails.

B. C., as far as the late Provincial ministry is concerned, stands for Bowser Crushed.

It is said that Dimitrakopoulos only kept the Greek premiership for one day. A man able to hang onto a name like that for so many years, might have been expected to show bigger staying powers than this.

As for Constantine, he will go in to the dump with the Hohenzollerns, the Hapsburgs and the rest of the junk, at the end of the war.

A man in the States, just before he died, made his son promise to marry his step-mother. Evidently wanted to keep her in the family.

PLOT TO SWINDLE MANY U.S. BANKS

Is Discovered in Chicago—Swede Passed as French Count.

By Courier Leased Wire.

Chicago, Sept. 15.—Details of what is said to have been an elaborate plot to swindle seventeen banks in the United States out of an amount estimated at between \$300,000 and \$500,000, were made public here to-day. At the same time it was announced that a detective would leave Chicago for Gottenburg, Sweden, armed with extradition papers for

Karl Von Bardi, wanted in connection with the alleged plot.

Von Bardi, according to the Swedish consul here, has been in a Gottenburg jail since last March, when he was captured through a wireless message on a charge of having forged checks for \$3,000 in the name of a local varnish manufacturing company. Although the Swedish authorities have refused to extradite him, they have also refused to release him from jail.

According to the police, Von Bardi assumed in Chicago the name of a French count. Here and in other American cities he worked for five years in one bank after another, familiarizing himself, it is said, with the bank officials' signatures and gathering a supply of stationery and blank forms.

Instead of increasing the price of bread, the Chicago bakers have decided to decrease the size of the loaf one-third, according to a statement issued by city officials.

NO WORD YET.
Alr. J. S. Dowling, of the Soldiers' Aid Commission, has not yet received word as to when Lieut. Harris Walsh and Pte. David Lyle will arrive in the city. As soldiers on furlough meet with some necessary delay at Quebec, it is not expected that they will arrive in the city for a few days.

NEW SCHOOL.
The permit for the new two storey brick school was granted to-day of the separate school board. The building is being erected at the corner of Colborne and Brock streets, adjacent to the old St. Mary's school. The contract is let to John McGraw and son, and the structure is to cost \$20,000.

LOCAL COMPANY.
Special mention is made in the London morning papers to-day of the exhibit of the Brantford Roofing Company at the Western Fair, which has opened in London.

FOR ENGLAND.
Mrs. Jordan, wife of Capt. Jordan, has received a cablegram asking her to join him in England. She will leave at once. The message would seem to indicate that the 125th expect to shortly go to the front, as Mrs. Jordan was not expecting to leave until later.

HURT IN LONDON.
Waggon Totts, of Waterford, an employe of the G. T. R. was injured this week in London, when he sustained a compound fracture of the right leg through a heavy timber which fell upon him when he was unloading it from a flat car. He is improving steadily in the London hospital.

SOCIAL EVENING.
The congregation of St. Jude's Church are holding a social this evening in the Sunday school to welcome home their former pastor, Rev. Captain C. E. Jenkins.

HOLIDAYS FOR FIREMEN.
Fireman J. T. Townsend of the East End department will leave on his vacation to-morrow. The staff will soon be up to its regular strength again as all but four of the men have received their holidays.

OPEN TO PUBLIC.
A dance has been arranged by the ladies' committee to complete the festivities of the Gala Day at the golf links, Saturday next. The links are open to the public on that day, when champion Mr. Geo. S. Lyon and the three popular Toronto professionals, Cummings, Barrett and Freeman, will play their great exhibition match, for the benefit of the Brantford Red Cross.

FEW VACANT HOUSES.
The city assessors stated this morning that a great scarcity of houses prevails in the city at the present time. They have covered three wards and have come across very few, the greatest need apparently existing in the Holmedale. The lack of houses is due, no doubt, to the absence of labour and builders supplies. The war loans and kindred calls necessitated by the war may also influence persons with capital at their disposal to invest in other directions.

WAR SOUVENIRS.
Mr. Frank McDowell, the well-known local druggist, has an interesting display of war relics in his Colborne street window. The assortment consists of a German gas helmet, a pair of wooden shoes similar to those worn by Belgian women, and a brass candlestick that was actually used in the trenches. There are also numerous other articles on view.

ACCOUNTS.
The Schultz Bros. Company have notified city clerk H. F. Leonard that they would appreciate the balance on their account for the erection of the public convenience on the market square. The total cost of the building was \$5,468, the balance amounting to \$2,768. The account of W. Wilson, electrician, for fixtures in the same building, amounting to \$31, has also been received.

THE POPULATION

Of Brantford is Making Satisfactory Showing This Year.

Indications That There Will Be An Increase When Report Is Ready.

Most Ontario centres are reporting a decrease in population this year owing to the number of men who have left for the front. The indications, however, are that Brantford will not manifest any falling off, despite the fact that this city, in proportion to size, has done better in recruiting than any other Ontario municipality.

The assessors, in their rounds, report very few vacant houses, less by far than last year, and also that it is noticeable that many families have come into the city recently from Hamilton and other points. This is especially true with regard to the Ambitious City, for the purchase of the carriage factory there by the Brantford Carriage Company, has led to the transference of a number of hands to this place, as all the machinery has been moved here.

The large new plant of the Dominion Steel Products Company is also being rushed to completion, and in a short time now a large number of men will also be employed there on the million dollar war contract which has already been secured. Taking one thing with another, Brantford population this year is not only likely to hold its own, but also to record quite a substantial increase.

With the City Police

Wm. Kelly, A. McAllister and Eph. McCoy, out for a final "time", drank too much to "der tag" (Sept. 16) and as a result paid \$3 each this morning for their jubilation. A case of neglect of children was turned over to the juvenile court. The charge against Mrs. Emelia Rising of keeping a disorderly house was again laid over until Monday. Three frequenters of the same were assessed \$2.85 each.

RUN IN.
About six or seven Indians were taken in charge at a Brantford hotel this afternoon, at about two o'clock. They will likely appear at the police court in the morning, charged with deserting from their battalion.

COMING HOME.
Word was received in the city to-day that C.M.S. Wm. Blay of this city, had landed at Halifax on his way home, after recovering from a severe illness in Scotland. He was for many years a member of the Dufferin Rifles, and in the early stages of the war left for England, where he rejoined his old regiment. After a long illness he was discharged, and is now on his way home.

THE BRANT.
To the large and brilliant galaxy of moving picture stars who have won favor and popularity in Brantford was added one more last evening, when Myrtle Stedman appeared at the Brant Theatre in one of the most artistic and interesting productions shown there in some time. Miss Stedman has been seen before here, but in "The American Beauty" she made her first appearance as a star, an appearance which cannot but be crowned everywhere with great success. The eighth episode of the wonderful serial "The Iron Claw" proves even more thrilling and enthralling than its predecessors, and the interest of all is aroused still higher in vain efforts to ascertain the identity of "The Laughing Mask."

A vaudeville number of unusually big quality is that presented by the Stodas trio under the fitting caption, "A little bit of everything," for their act is one of the most novel and pleasing seen in this city for a very long time. Singing and dancing, acrobatic performances and trick bicycle riding are combined, and immense applause was won last evening by the performance. Presenting an act of a novel nature, which is also of first class order.

MEETING OF GIRLS ATHLETIC ASSOCIATION

Officers Elected for Association and Arrangements made for Coming Season.

Team to be Entered in Inter-Collegiate Basketball League.

A most successful and enthusiastic meeting of the Girls' Athletic Association of the Collegiate Institute was held there yesterday afternoon, when the election of officers for the ensuing season took place, as well as the making of arrangements for the work of the association during the fall and winter. Miss Clare Reddick was re-elected president of the association, with Miss Helen Fuller as vice-president, Miss Minnie Martin secretary, and Miss Dixon treasurer, the treasurer and president being teachers.

The association will enter a basketball team in the Inter-Collegiate Girls' Basketball League now being organized from the high schools of Brantford, Paris, Galt and either Hamilton or Stratford. Great enthusiasm in the season's accomplishments was evinced at the meeting, and the future of the association is at present of the brightest.

THE ROAD TO HEALTH

Lies Through Rich Blood and Strong Nerves.

Debility is a word that fairly expresses many ailments under one name. Poor blood, weak nerves, impaired digestion, loss of flesh, no energy, no ambition, listless and indifferent. This condition is perhaps the penalty of overwork or the result of neglected health. You must regain your health or succumb entirely. There is just one absolutely sure way to new health—take Dr. Williams' Pink Pills. These pills will bring strength through every vein with new, rich blood, restore elasticity to your step, the glow of health to your cheeks. They will supply you with new energy and supply the vital forces of mind and body.

There is not a corner in Canada where Dr. Williams' Pink Pills have not brought health and hope and happiness to some weak debilitated person. If you have not used this medicine yourself ask your neighbors and they will tell you of some sufferer who has been relieved of his or her weakness through using Dr. Williams' Pink Pills. One who has always a good word to say for Dr. Williams' Pink Pills is Mrs. Luther Smith, of West Hill, Ont., who writes: "I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. I had an operation for tumors. The operation in itself was quite successful, but I was so badly run down and anemic that I did not gain strength, and the incision did not heal, and kept discharging for nearly a year, until I weighed only eighty-six pounds and could scarcely walk across the floor. I had got so sick of doctors' medicine that I would vomit when I tried to take it. A good friend urged me to try Dr. Williams' Pink Pills, so I bought a box. Before they were gone I thought I could feel a difference, and I got a further supply. By the time I had taken five boxes the wound ceased discharging and commenced to heal. I took in all thirteen boxes and am to-day enjoying the best health of my life and weigh 140 pounds. My sin-life and weigh anyone suffering as I did will give Dr. Williams' Pink Pills a fair trial, and I feel sure they will not be disappointed.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

BULGARIAN RETREAT

By Courier Leased Wire.
London, Sep. 15.—An Exchange Telegraph despatch from Saloniki says the victory won by the Serbians has compelled the Bulgarians to retreat. The Serbians are reported to have captured more than 20 field guns. They took the Bulgarian positions at Balkandize, northwest of Lake Ostrovo, the despatch says, whereupon the Bulgarians retired in the direction of Florina. The Bulgarians also are said to be retreating from positions further south.

ST. WILLIAMS DR. AGAINST WHISKY

Does Not Use It In Medicines of Any Sort He Says.

OTHER NEWS FROM SIMCOE.

(From Our Own Correspondent.)
Simcoe, Sep. 15.—Do not use whiskey because I am afraid of it. I never had a case and never knew of a case of a patient being benefited by liquor. I have often brought down my patients through typhoid fever and never used whiskey. It would only have been putting the spur to the tired horse. I never knew where a glass of whiskey did any good in any profession. I always found that a glass of hot water was much better. These were the words of Dr. McInnis of St. Williams, and he had no objection to the publication of his statement. The aged physician was in town last night, and expressed himself as thoroughly convinced that the present move was a great step forward.

The Simcoe Women's Institute held the September meeting at the home of Mrs. George Potts yesterday afternoon. As the place of meeting was a mile out of town, there were only seventy members out. The question of having cooking classes this year was left open. Mrs. Levis Sharp discussed ably the advance of womanhood and her advanced responsibilities, and thought that while it is not advisable to appear poor, there is need at present for economy in dress, diet and social life, in order to be prepared for the period of "readjustment" after the war.

Mrs. Rupert Simpson gave an eloquent address on New Ontario. Having lived there during the pioneer days of the north land, and having just returned from a holiday at Hallebury, where she was while the fire visited there, Mrs. Simpson's address was heard with rapt attention, as the story of the north land, its wonderful development, its hardships, its brighter aspects, and the character building influences were discussed. Taken altogether, the meeting was interesting, even to a mere man.

Pte. H. A. Alger, of the 133rd, was placed in the cells here yesterday evening, and will appear in court to-day charged with being absent from camp without leave.

The theft case referred to a few days ago, will begin at 2.30 to-day before his Honor Judge Boles. The "Vigilant" is evidently in port at Dover this evening, for on the arrival of the nine o'clock trolley, a rollicking song from the school-boy sailors announced the arrival in town for an hour's call of some of them. Paster Lindbury, Peasey, Furney and Graham were responsible for the music.

Miss Muriel Blayney of Renton leaves for McDonald College, Guelph, to-day.

Simcoe, Aug. 14.—(From our own correspondent.—Robert Rawling, and Mrs. Thos. Payne lost a brother in England, killed in France on July 22nd, and they received news through their mother in England. Robt. Rawling did his bit at the front and came back last spring hors-de-combat. Payne is in the 133rd and is expected home this evening. He was one of the first three reservists to leave Simcoe in 1914. He was turned down at Valcartier on that occasion.

The 133rd roll showed 58 deserters a few days ago. On the way back to Camp Borden on Tuesday, H. A. Alger, who had previously some marks against him, jumped from the train, north of Brantford. Two of his mates followed, and arrested him. The Bell Telephone underground

WORLD SERIES BEGINS OCT. 17

Says Garry Herrman, at Opening of National Commission To-day.

By Courier Leased Wire.
Cincinnati, O., Sep. 15.—Baseball men from all parts of the country were present when the meeting of the National Baseball Commission, held for the purpose of opening the major league drafts, began here to-day.

The old drafting system of openly picking the names of clubs and places from a hat was again resorted to. Owing to the war with the Federal League this system has been discarded during the last two years, and the drafting has been made secretly. It was expected that the National Commission also would discuss informally plans for the world's series. It was announced, however, that no definite plans can be arranged for the series at this time, because of the close races in the National and American Leagues.

August Herrmann, chairman of the body, said, however, that he expected to see the first game of the world's series played not later than Saturday, October 7.

Obituary

Miss Mary Johnson
The death occurred yesterday afternoon at the home of Alymer Johnston, 37 Cayuga Street, of his mother, Mrs. Mary Ann Johnson, of Tillsonburg, who had been for the past few weeks a visitor in the city. She leaves to mourn her loss, four daughters, Mrs. N. Yarrington, of St. Catharines; Mrs. F. Elder, of Hamilton; Mrs. M. Grandy, of Hamilton, and Miss Clara, at home, in Tillsonburg; also two sons, Alymer, of this city, and W. B. Johnson, of Detroit. The funeral will take place to-morrow afternoon, from 37 Cayuga St., to Hamilton, via T. H. and B., interment taking place in that city.

NOTES OF THE FAMOUS

Many Canadians Are Taking Part in Historical Events at This Time—A Budget of Much Interest.

Col. H. R. Labatt, who is a member of the Pensions Board, is from London, Ontario. He went overseas with a battalion but was invalided home on his recovery he again went to the front and at the battle of Festubert suffered from shell shock and was again sent home. He is a brother-in-law of the Hon. J. D. Reid, Minister of Customs.

At a time when an effort is being made to recruit a Jewish company in Montreal, and another in Toronto, it is interesting to note that there is a Jewish general in connection with the British army. Brigadier-General John Monash is the only Jewish General in the British army, and the first man of his faith to receive the Order of the Bath. Monash has given an excellent account of himself in the present war.

Another newspaper man trained to warfare through daily battles with the printer's devil, office-boy, and balliff has shown that the struggle with the pen is a good preparation for one with the sword. Walter H. Gordon, formerly city editor of the Montreal Gazette and later news edi-

tor of the Journal of Commerce, enlisted over a year ago as a gunner in a Montreal battery. He soon became a corporal, then a sergeant, and now has been promoted a lieutenant for gallantry on the field. Gordon was one of the most popular newspaper men in the Canadian metropolis. He is a graduate of McGill, the son of the Rev. A. R. Gordon, now a professor at the Baptist College at Brantford.

Captain Jack Astor—People in Canada will be interested in the announcement that Lady Nairne, daughter of the late Lord Minto, a former Governor-General of Canada, has just been married to Captain Jack Astor, son of Baron Astor. Capt. Astor is in the First Life Guards and has been with his regiment at the front. His father is better known as William Waldorf Astor, formerly of New York, but now of England. The young man's bride was formerly the wife of Lord Nairne, who was killed early in the war.

Lieutenant Charles Greenshields has just left for the front, this being his third time in which he has been killed. When the war broke out Greenshields was in Paris and immediately enlisted in the Foreign Legion as a private. He saw a good deal of service at the front and was commissioned in the 24th Battalion and went overseas. He was twice wounded, but has recovered and now goes back. Lieut. Greenshields is a son of Mr. J. N. Greenshields of Montreal, whose son Melville was killed at the front a few weeks ago.

Judge Garrow.—The late Judge in Muskoka, was a Judge of the Supreme Court of Ontario, to which he was appointed in 1902. The late Judge was born in Chippewa in 1843 and practised law for many years at

known head of the T. Eaton Company of Toronto and Winnipeg. Sir John was born in Toronto in 1875 and was trained in business by his father, the late Timothy Eaton. Sir John is not only head of the T. Eaton Company, but a director of the Dominion Bank and a number of other corporations, a Regent of Victoria College and a Governor of Toronto General Hospital, to which he gave a quarter of a million dollars in memory of his father. He is an enthusiastic motorist and yachtsman. Sir John was knighted about a year ago.

Ad With the Famous General Von Falkenhayn, who has lost his post as chief of staff of the German army, was generally credited with being the real brains of the German military system. He was the chess player who moved the pawns at will. In this task he was aided by the splendid strategic railway system which the Germans had built in anticipation of having to fight Russia and France at the same time. As Germany was prepared, Van Falkenhayn was able to move troops from east to west and west to east with surprising rapidity. Now that the German man power has been reduced and Germany is on the defensive, his tactics do not show up so brilliantly. Perhaps the real reason for the degrading of Von Falkenhayn was his determination to side with the Crown Prince and attack Yerdun. Royalty, of course, could not be criticized, so Von Falkenhayn has been made the scapegoat for the Crown Prince's failure.

PLAN DISCUSSED FOR BIG STRIKE

80,000 Workers May Join Street ar Strikers in New York.

By Courier Leased Wire.
New York, Sep. 15.—Plans were discussed to-day by the leaders of the street railway strike for a sympathetic walkout of 80,000 workers here in trades allied with the operation of the street car system. James P. Holland, president of the State Federation of Labor, has threatened to call out the workers in these trades if the present deadlock is not broken before to-morrow night.

The Central Labor Union of Brooklyn has endorsed the principle of a sympathetic strike. This union controls ninety-five local organizations. The New York Central Feder-

The determination of the strike leaders to call a sympathetic strike was interpreted to mean that they have abandoned hope of reaching a favorable settlement through the efforts of the mayor and the public service commission.

IN THE BREAKERS.

By Courier Leased Wire.
San Francisco, Sept. 15.—The Alaska Packers' bark, Star of Chile, en route from Bristol Bay, Alaska, with the season's catch of salmon for San Francisco, was reported last night to be in the breakers off point Pedro, 25 miles south of the Golden Gate.

On board the vessel over 200 cannery hands are thought to be returning to this port.

News of the bark's danger was brought here by fishermen who said that the vessel appeared to be in great danger of being swept on the rocks, but that a dense fog closed in and hid her from view.

Deep sea-going tugs were sent from San Francisco to the vessel's assistance. When last seen the Star of Chile was three quarters of a mile off shore and her crew was signalling for help.

Michael Dran, of Hazleton Heights, Pa., fatally cut his throat while brooding over inability to complete a double block of houses.

Philadelphia is to have a general clean-up of streets and alleys as part of infantile paralysis fight.

Henry Richards, formerly of Hazleton, Pa., plumber, has been killed in France, fighting with the British.

Pat Dillon, 200-pounder of Wilmington, Del., wants his 100-pound daughter punished for beating him.

Washington Has Yet to Win Flag

If Clark Griffith and his Senators had coped the bunting this year, Washington fans would have had their first opportunity to feast their eyes on a major league gonfalon. The republic's capital city has been among those present in all the big leagues ever organized, but never yet has a champion flag flown from its ramparts. In the early days of baseball Washington had one of the crack amateur clubs of the country in the Nationals, a team composed largely of Government clerks. It was this organization which made the first extensive tour in baseball history. It was 49 years ago, July 11, 1867, that the Nationals set out on the trip which covered 3,000 miles and cost about \$6,000. The tour of the Nationals started something in Cincinnati. The fans of that city were out for revenge and the famous Red Stockings were organized, and in 1869 and the following season made a tour which extended as far west as San Francisco and south to New Orleans, winning fifty-five games before meeting defeat. When the National Association of Professional Leagues was organized in 1871, the Washington Olympics were admitted. The following year the Nationals also entered the professional fold, and the capital had two big league clubs.

CHENEY WON HIS OWN GAME

Doubled in 9th Inning, and Robins Won—National Results. Brooklyn, Sept. 15.—Cheney won his own game yesterday when he doubled in the ninth with two out, scoring Olson with the run that beat the Pirates 3 to 2. The Pirates tied the score in the seventh. R. Foster Threw Way the Game

Chicago, Sep. 15.—Chicago gained a game on the American League yesterday by defeating Washington 7 to 5, while Detroit and Boston lost. Jackson's timely single in the sixth inning, which scored two men, coupled with Foster's wild throw of Weaver's single when the bases were filled, gave the White Sox the game. Score: R. H. E. Washington ... 000000311—5 10 1 Chicago ... 000205000—7 13 1 Gallia, Ayres, Thomas and Henry; Faber and Lapp.

Royals Took 2 From Champions

Montreal, Sept. 15.—The Royals yesterday administered a double defeat to the Bisons by scores of 4 to 3 and 6 to 5. Both games were closely contested and always in doubt. Score: R. H. E. Montreal ... 200000100—2 9 1 Buffalo ... 200020000—4 9 2 Batteries—Gaw and Onslow; Cadore and Howley. Second game—R. H. E. Many of War's Bravest Deeds Never Rewarded

These which Come to Light Are the Exception and Not the General Rule. "You must never suppose that the only deeds of heroism are those that get into the despatches and win decorations," said a wounded senior officer landed at Southampton, England, "scores of thousands of V.C.'s have been earned by our fellows since July 1. "Take this last 'do,' now, from Pozieres, the one I was knocked out in. I was knocked over a bit of a hollow. I was rather dazed at first. Then I heard the order given several times for our chaps to get back to the trench. I saw a big, burly, dark chap, with a queerly bent nose, making back for our trench. It was queer to see him striding back, in that jerky, hesitating sort of way, as though a string were pulling him after the Boches, but not strong enough to overcome the pressure the other way of discipline. "Cowardly Boches. "He was just on the edge of my hole when he swung right round facing the Boches, and I saw what he saw, twenty or thirty paces off. Two of our men were down, wounded, and three Boches were prodding at them with their bayonets, meaning to take them along back, you see, as prisoners. The poor devils struggled up to their feet and fell again. They'd nothing in their hands. The Boches were yelling at them to get on, and as one fell again a Boche kicked him on the side of the head. "At that, my big chap with the twisted nose let out a roar like an angry bull. 'You dirty German swine!' he yelled, and he made one bolt of it for those Boches. Mind there were plenty of bullets flying, and there wasn't a sign of another man of ours about then on his feet. Run! That fellow fairly bounded over the broken ground. The Boches ran too, and they yelled and screamed like frightened women. One of them got clear away; but my dark chap struck one through the back, brought him down, and smashed him. "Crawled Out With Wounded. "The fire got a bit hoer, and I saw no more of the dark chap. Must have been bowled over, I thought. And I was sorry for that. But five minutes later the fire slackened again, and next thing I saw was my dark chap crawling past the side of my hole with one of those wounded men of ours on his back. I thought that was pretty good for him. But ten minutes later I heard if he didn't come striding past me again; no crawling this time; walking at his full height, and with a regular swing as if he'd been crossing a parade ground, instead of a ploughed-up No-Man's Land, with a dropping fire falling all about it. "Rescues Second Man. "I plainly saw him get hold of that other wounded man of ours and fix him across his back; but then he went down on hands and knees and started crawling back to the trench. You see, he'd go upright himself, but preferred to give the other fellow a better chance by crawling, though, mind you, it's not easy over ground like that. I lay very low, partly to escape fire, and partly because I didn't want to attract that dark chap's attention, or I felt he'd come out again for me; and it was hardly to be expected he'd get through three times alive. LINERS. With the bases full and two out in the fifth Becher put the ball over the right field fence for a home run at Philadelphia, winning the game for St. Louis, 5 to 3. That hit settled Mayer and Bender finished the game for the Phillies. Watson of the Browns was strong in pinches. There may be a close race in the National League, but take a squint at the American League record this morning. The Detroiters appear to have the best of the schedule, but they will have to step lively to keep from being run over by the Red Sox from Boston and the white-stockinged Chicago team. The Leafs will meet the Buffalo champions to-day and to-morrow, in Toronto. The Islanders will have to hurry to take third place from their old rivals, the Montreal Royals. The Lichtenhain bunch have the advantage of leading the Leafs this morning, and they are scheduled to play three games, closing the season at Montreal on Sunday with Rochester as their opponents. Toronto were scheduled to meet Buffalo twice on Saturday, but one of the games was moved up by mutual consent and was played during the last visit of the Bisons to the Island Stadium.

TURKS NOW MAKE GREAT CLAIMS

Official Statement Says Russian Attacks in Armenia Were Repulsed.

Constantinople, Sep. 14, via London.—Turkish forces have checked the Russian offensive in the Ognott sector of Turkish Armenia, according to a war office statement dated Sep. 12. The Russians have suffered heavy losses in fruitless attacks, declares the report, which says: "On the right wing we repulsed an enemy-attack in the Ognott sector. Two enemy attacks on September 10 prepared for by artillery fire, were repulsed by our counter attacks. Enemy troops endeavoring to approach our positions in various groups were scattered by gunfire and suffered extraordinary losses. The number of officers and men captured on September 9th in the right sector is still increasing. "On the left wing, during skirmishes which resulted in our favor, we captured prisoners, arms and equipment."

Constantinople, Sep. 14, via London.—The Turkish war office in its statement of September 12, reports briefly on the operations of Turkish troops in Galicia, recording an engagement in which more than 400 Russians were taken prisoner. The statement says: "In close quarters encounters on September 7, we captured three officers and more than 400 Russian soldiers."

WHITE SOX ARE NOW IN RUNNING

Four Clubs Are in the Race for Each League Pennant.

By Courier Leased Wire. Chicago, Sept. 15.—Chicago's White Sox were in the lists to-day as real contenders for the American League pennant with Brooklyn in the lead. The Chicago Americans moved up to within a half game behind Boston and Detroit, the leaders, with Washington, near the tail end of the percentage column, as their opponents to-day. Boston on the percentage

leads the league, but it has won two less games than has Detroit, and one less than the Sox. It has, however, lost two games less either and this makes the percentage column read: Boston .574; Detroit .571 and Chicago .568.

In the National League flag race, the four clubs which Brooklyn found itself up against at the beginning of to-day's game with Pittsburgh, were Philadelphia, Boston, New York and Pittsburgh. Brooklyn was one and one half games ahead of the Phillies, and Boston two and one half games behind, while the Giants just managed to keep up the pace of the Dodgers. A table showing all the games yet to be played by the three leading teams in the American League gave the following: Boston 18, Detroit 14, Chicago 13. In the National League, Brooklyn had 21 games, Philadelphia 21 and Boston 22.

THE COLONIAL

The bill presented last night at the Colonial theatre was as varied as it was interesting. The chief feature of the evening was the entertainment provided by Dr. Zell Hunt, a revelation to many, and he succeeded in convincing the sciences that he had complete control of his subjects and had to resort to no quackery. The young lady who had been placed to sleep and was on exhibition in Long's store window, was brought to her full senses again. Dr. Hunt will remain at the Colonial for the balance of the week, presenting his hospital scene to-night.

A Metro six-reel film, "Her Great Price" was shown, starring the famous Mabel Telford. The plot is rather gloomy throughout, but concluded satisfactorily. Francis Ford and Edna Mason in a short film, "The Dumb Bandit" concluded a bill pronounced by those present as an unusual success.

The Toledo Terminal Building is being remodelled so that Toledo will have a convention hall with a seating capacity for 5,000 people, where big theatrical and operatic works will be given.

PERSIA HOME OF PERFUMERS

From There Spread Rapidly to All Portions of the World.

Persia saw the earliest development of the perfume industry. The priests of Egypt, who were the sole depositaries of science, knew the secret of aromatic substances and prepared them. Egyptian perfumes, acquired great celebrity, especially those made in Alexandria. The Israelites, during their sojourn in Egypt, adopted the use of aromatic substances. The Jews were fond of cosmetics, and even used them to paint the face. All these perfumes were extracted from essences of trees and various plants. The Greeks, who had elegance, were especially addicted to the use of perfumes, and they taught their secrets and usage to the Romans. The latter in the days of their decadence, went so far as to scent the coats of their dogs.

In the Middle Ages the Arabs, Venetians, Genoese and Morentines became famous for the preparation of sweet-smelling essences. France did not become acquainted with perfumes until after the Crusades, and it was Mari de Medici who especially brought them into favor. Makers of perfumes quickly recognized their good or bad medicinal influences. It was remarked both in Paris and London, during the cholera epidemic of the nineteenth century, that no one engaged in making perfumes was ever attacked.

TWO MORE TO BORDER

By Courier Leased Wire. San Antonio, Tex., Sep. 14.—Gen. Funston was advised by the war department today that two regiments of Tennessee Infantry have been ordered to the border for duty. He intends placing them at Fort Clark, north of Eagle Pass, and 40 miles back from the border.

Washington, Sep. 14.—The Tennessee National Guard, encamped at Nashville, was ordered to the Mexican border to-day by the war department.

DUKE AS INDIAN CHIEF

(1) At the investiture. (2) The Duke in Full Indian Regalia. (3) The Duke Speaking to Princess Patricia.

DURING the five years of his Governor-Generalship, nothing has given His Royal Highness the Duke of Connaught, more pleasure than the ceremony which made him Chief of the Stony Indians. This ceremony took place at Banff, where the Duke and Duchess, together with Princess Patricia, spent a delightful holiday this Summer. The Stony Indians, who were once a distinctly warlike tribe, and some of whose exploits, form the background to Ralph Connor's "Sun Dance Patrol," are now good citizens and hold an Annual Sports Day at Banff, the great tourist resort, in July. The picturesque garb of a Stony Indian Chief admirably suits the fine figure and strong profile of the Duke. Princess Patricia found particular pleasure this Summer in riding her Mounted Police pony "Dandy" along the mountain trails which radiate from Banff through the passes and over the precipitous sides of the surrounding mountains. The Duke himself spent much of his time in fishing for mountain cut-throat and devil trout, but the largest fish of the season was caught by Miss York, lady in waiting to the Duchess of Connaught, who landed a monster of no less than nine pounds. The publication, and being taken back to England. The many visits of the Connaughts to Banff have resulted in this becoming the chief social centre of the West during the summer months. The Americans who have the money to travel have deserted their own National Parks so that they could be nearer to a real Duke.

At Hun Resorts, Food is the Chief of all Attractions

In Some Regions Visitors Are Warned Away Because of Food Scarcity There—Others Lay in Special Stock.

By Rene Arcos, in the Chicago News Lausanne, Switzerland, (by mail)—Numerous German papers have recently made violent attacks on the Central Purchasing Union created through capital furnished by various of the confederated States. The papers demand the removal of certain men at the head of the organization. The German press is almost unanimous in requesting that "incompetent bureaucrats" employed therein be replaced with men better qualified to perform their duties. In support of their grievances the press publishes incidents that have occurred in the southern towns of Germany, showing grave abuses committed under the protection of this organization.

Recently an article appeared in the Gazette de Voss encouraging German tourists to pass their summer vacations in Bavaria, where, the paper asserted, they would find food in abundance. The Hoffmann Correspondence, an official organ of the Bavarian government, has just published a long note from the minister of the interior, intended to refute that which appeared in the Gazette de Voss.

Cannot Supply Weekly Ration This note denies that the Bavarian meat card entitles its holder to a ra-

tion higher than that of any region of the north of Germany. As a matter of fact, various communal organizations in Bavaria, in particular those of Munich and Nuremberg, are far from being able to deliver to the bearer of cards a quantity even approaching the weekly ration of 700 grams (about one and one-half pounds) stipulated.

"It must not be forgotten," the note adds, "that in Bavaria all delicatessen supplies, smoked meat, venison, fowl, preserved meats, bacon, and fats are included in the ration of the meat card, while the inhabitants of Berlin can procure in a restaurant venison and poultry and can purchase at the butchers tongue, brain, and delicatessen foods without losing a single gram of their meat cards."

Long Lines to Get Butter

This difference of treatment will soon be more marked, for there is a movement in Bavaria to reduce the weekly meat ration of 700 grams to 600 grams and even to 500 grams. Regarding butter, the situation is not much better. At the special market in Munich each day long lines of buyers wait for hours to obtain the 100 grams (a little more than a fifth

of a pound) of butter to which they are entitled every week. And the scarcity of eggs is beginning to be felt. Egg cards, strictly measured, may soon be expected. It is much more difficult in Bavaria to replace meat with fish than in Northern Germany. And the note adds: "Nor has Bavaria sufficient stocks of sugar or dried vegetables, so that those intending to pass their vacations in Bavaria would do well to bring these commodities with them to arrange to receive them from outside."

CLAIMS THAT HE KILLED VILLA

Japanese Physician Declares He Poisoned Mexican Rebel Leader.

A Japanese physician named Nodko claims to have brought about the death of Villa by slow poison given under the guise of medicinal treatment, according to the Chihuahua, Mexico, local papers. After Villa's death, Dr. Nodko is quoted as saying the remaining Villa leaders gambled with dice to decide who should impersonate the dead chief, and the lot fell to Col. Baca, who bears a strong personal resemblance to Villa. To prevent the deception from being disclosed, Col. Baca is said to be surrounded by his personal body guard, who keep the common soldiers and ranchers from coming too near. Dr. Nodko, according to the papers, had been administering poison for three months with the result that Villa died shortly after his defeat at Parral.

Two persons were killed and fourteen injured in a head-on collision between two traction cars on the Michigan Union Railway Company's line at Rives Junction.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter,

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning. We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; this cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach. The action of lime stone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the four fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, is so sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

SISTERS THREE

(Continued from Thursday)
Chapter V.
It was as Allardye had said. As
the old-fashioned carriage which had
met them at the station five miles
away now labored slowly upwards
from the village of Rockhaven, they
saw before them on the right the
silver and blue of the bay. A great
black horn of towering rock thrust
itself out on the western boundary
of the bay, and the sombreness of
the dark mass seemed intensified by
the light of the dying day.
But upon their own cropper-clad
house on the opposite side, which the
sisters were now approaching, the
sunset lights shone radiant. Scarcely
had the carriage stopped before a
gate which opened into a shrubby
and then to a circular sweep before
the north porch of the house, elus-
ered over with clematis, before all
three were out and dispersed hither
and thither, only to meet again an
hour later at the homely well-spread

supper table to relate each to the
other her individual experiences.
Behind the big teapot sat the old
nurse. Whatever arrangements might
subsequently be made, to-night she
was to share with them their first
meal. Her beaming face made a
home-like and familiar picture for
them; and it was she, who at Aud-
rey's word started first with her bud-
get of news.
"Well, dearies, it all seems very
comfortable-like. There is Penny-
quick, who was your uncle's butler,
and his wife, who was cook. And
they would both like to stop on, being
pensioned and fond of the place,
they won't ask much of a wage.
He will look after glass and silver
and answer the door. Just lately his
brother died, and the master let
them take in the two orphan girls
to train; and very decent girls they
seem, and eager to stop on. Mrs.
Pennyquick and I can teach them
their duties; and the whole wages

for the family will be cut forty
pound, and Mrs. Pennyquick will see
that the girls have what is right. So
for the present I thought we could-
n't do better than go on, as they
said."

"Capital!" cried Audrey. "I had
been wondering what we should do
about servants. That will be excel-
lent. As for the rooms, they are
charming. It is just as Cissy said.
There is the south-west drawing-
room, which when it has our things
put into it will be charming, and the
sun will shine there all the day. Then
there's this nice dining-room and the
two little ones with the same aspect.
One has been a library, and I'm go-
ing to take that for my snuggeries;
and Gipsy, there's uncle's study with
all his farm-books and rods and guns
and whips for you. Cissy, you have
the biggest bedroom—over the draw-
ing-room, and it has a quaint little
dressing-room, out on the east side;
so I thought you would not want
any other place for your own."

"Ah, indeed I shall want nothing
more! It is a sweet room. I ran up
to see. Oh, that big, big window to
the south—you feel as though there
was nothing but the sea and sky and
glory all round you—and the other
to the west giving a splendid view
of the sunset! Are you sure that it
is fair for me to have it for my very
own?"

"Of course it is fair!" cried Gipsy.
"You creature of dreams, you
ought to be housed in a place like
that! Audrey and I will love to be
in those other rooms close by the
other. But I didn't stop in the
house. I've been to the stables.
There's the old man there who drove
up. He must have come out of the
ark, but he's a darling old fellow,
and he knows the points of a horse.
There's such a colt in the paddock!
It was the mother that was in the
luggage-cart, I saw directly that she
had blood in her and pace. But the
colt has not been broken in yet ex-
cept to the halter. That will be my
work. Oh, what a time we shall
have!"
"The old man is a Pennyquick
too, uncle to our man, and there's a
lad works under him in stable and
garden and farm. The lad is brother
to the girls indoors, but a good
bit older."
"Dear me, quite a clan of them!"
cried Audrey, with a gleam in her
eyes. "I feel like the head of a feud-
al community!"
"There is the path down to the
shore that mother told me of," said
Allardye, as she moved from the
window at last towards her place at
the table. It was hard to leave the
open casement which looked west-
ward toward the pure topaz of that
liquid sky, in which the evening star
hung like a point of white fire. "And
down in our own little inlet there is
a boat with a sail—a little boat
which I could manage and go sailing
away out into the west."
"You must have a care, my
dearie," said the old nurse, "for

these rocky coasts are treacherous
and cruel. We must ask what it is
safe to do, and you must be careful."
"Oh, yes, I will be careful, but I
love the sea, and I think it loves
me."
"I'll see all about the boat and
what we can and cannot do," said
Audrey. "After all, we were reared
more or less in boats, and Cissy
might have been born with sheet and
rudder in her hand. But this is a
coast that wants knowing. There is
something rather menacing about
that great black promontory that
guards the bay on the other side."
Audrey rose as she spoke and ap-
proached the window. The huge bulk
of rock, grim and mysterious, oppo-
site seemed to shoot out a threaten-
ing arm from the mainland into the
sea. It was wide where it joined the
land, but tapered rapidly away to
the south, terminating in a sharp,
scimitar-like horn, which looked as
though it would rip up the side of
a ship as a knife cuts through pa-
per.
Between the wider plateau and
the sharp horn lay a region of piled-
up rock, wild and strange and threat-
ening of aspect. It looked like a bat-
tlemented castle, yet no distinct out-
line could be distinguished—only a
shadowy bulk that might be of Na-
ture's fashioning or might owe some-
thing to the handiwork of man.
As the old man-servant entered at
that moment with a fresh supply of
hot cakes Audrey put the question to

him, and with a shake of the head
the butler answered—
"Yes, there is a house there, but
mostly it is rocks you see. Some folk
call it Kildare Castle, but the old
name is Sunrise Reef, for it's when
the sun is low in the east that you
see the place best. Indeed you seldom
see it any other way."
"And who lives there?" asked
Gipsy, peeping over her sister's
shoulder. "It looks more like the
castle of an ogre than the abode of
mortal men."
Pennyquick was slowly shaking
his head.
"General Kildare lives there, but
he's seldom seen now. He's never
held up his face since—" the sen-
tence was not finished. The man
picked up an empty dish and moved
away. It was evident he did not par-
ticularly wish to speak on the sub-
ject, and the girls let him go un-
questioned.
"We won't be in a hurry," said
Audrey, as she came back to the
table. "We have all our lives be-
fore us, my dears. We have come
into a most delightful heritage, and
we'll not be in haste to run
through our experiences. We will
try to restrain our curiosity within
decent limits. We have come to a
place which may, for all we know,
abound with legend and mystery;
but, if so, we will pluck out the heart
of our mysteries one by one and deli-
berately and gently with mean while
and enjoy them. Was that the sound of
a bell I heard?"
"Yes," answered Gipsy, "and I
believe that it's Doctor Kingscote
come to give us a welcome. If he is
half as delightfully old-world as his
letters I shall lose my heart to him
on the spot. I'm afraid he's got a
wife, but what of that? In a place
like this superfluous could so easily
be got rid of!"—and the girl threw
a laughing look at the old nurse,
who was smilingly shaking her
head at the most reckless of her
charges.
Doctor Kingscote it was, and in
the big, rather empty-looking draw-
ing-room, which she had never used
since Mary Rickard ran away from
Sunset Crags with handsome Aubrey
Vere, her three daughters received
the cordial welcome and fatherly
benediction of one who had known
and loved their mother in the past.
The shaded lamps revealed to
them a white-headed old man in cler-
ical dress, with a benignant face
and shrewd far-seeing blue eyes, set
under broad, overhanging brows. Ir-
regular features and a wide mouth

with flexible lips, lending them-
selves to much facial expression,
combined to form a countenance
that commanded liking and confi-
dence from the outset and made each
girl in turn feel that in the Rector
of Rockhaven they would find a wise
and true friend.
He on his side saw three fresh
young girlish faces, each with its
own dower of beauty and individual-
ity. As he looked from one to the
other with kindly, smiling eyes he
said to Audrey—
"You have your father's eyes and
smile"; and to Gipsy, "But you have
his coloring and the daring of his
expression"; and then turning upon
Allardye, he once more put forth his
hand and said: "But here is one
who is all her mother's child. My
dear, I think that you must feel that
you have come home."
"I do," said Allardye, her face
