ANSWERING YOUR

What's New for this Spring

The secret is out! You've the key to the whole spring Fashion situation, if you amble around through Farrah Fashion Sections in all their spring readiness!

And you won't need a guide to tell you how new and up-to-the-minute such things as these are, which are among the spring arrivals at Farrah's store.

The Fashionable Wraps and Coats

The very swagger spring wrap styles place one in a quandary, but they need not, because fashion has favored mannish Coats, Capes and partially, leaving the pleasant choice to you.

\$15.00 to \$75.00

The Suit of Tweed

There is a great preference for Tweeds and novelty effects in suits. Tweeds are so informal, so youthful, so durable that it is small wonder they have become so popular.

\$16.50 to \$35.50

"Anna Ascends"

A PARAMOUNT PICTURE

Would You Risk
Everything For Happiness?

A brilliant screen production of the play in which Alice Brady scores her greatest stage triumph. The stirring story of a pretty Syrian girl's rise through exciting adventures and temptations to happiness and love. With New York's picturesque underworld and gilded society cabarets as the setting. In every way Miss Brady's most brilliant performance. The supporting cast includes Nita Naldi, David Powell and Robt. Ellis.

From the Broadway success by Harry Chapman Ford.

Directed by Victor Fleming—Scenario by Margaret Turnbull

FRIDAY & SATURDAY

Dustin Farnum in "The Yosemite Trail"

Miss Newcastle To Be Chosen

Miss Newcastle is to be chosen at the Carnival next Tuesday evening to be held under the auspices of the Newcastle Curling Association. It is hoped the beautiful athletic young Miss Newcastle will be on hand to take part in the proceedings. Competent outside judges will be secured to make the selection, thus eliminating the possibility of favoritism.

"A PAIR OF SIXES" TO BE PRESENTED

St. Mary's Dramatic Club are busy rehearsing for that delightful Comedy, "A Pair of Sixes" by Ed. Reilly.

"A Pair of Sixes" ran for a year at the Fongore Theatre, New York, and excited such furores of fun and glee as have never been exceeded in the history of Metropolitan Theatricals.

The story deals with the fortunes of two partners in the pill manufacturing business. Each claims to be the head and brains of the enterprise. After much squabbling they agree to disagree and through the services of their attorney decide to settle the dispute as to who shall be the head of the firm by playing a show-down hand of poker. A pair of sixes wins. By the terms of the contract, the losing partner becomes the other man's servant for a period of one year. The latter is installed as butler in the winning partner's household, where his position is made more embarrassing by the efforts of a funny cockney servant, who makes violent love to him, and is determined to capture him as a husband. To add to the complications of his position, his sweetheart arrives as a guest in the household. He is unable to explain to her his presence as a menial for fear of sacrificing his share in the business by divulging the secret agreement which he has made with the other. The entangling situation creates no end of fun and the comedy moves along with the speediest action until his clever little fiancée works out the means of his escape.

WASHINGTON'S BIRTHDAY

Last Thursday, 22nd inst. was George Washington's birthday.

Important Meeting Board of Trade

A meeting of the Boards of Trade throughout the Maritime Provinces will be held at Amherst, N. S., on Friday, March 2nd, at 2.30 p.m., for the purpose of considering concerted action regarding the proposed reorganization of the Canadian National Railways in so far as it affects the Maritime Provinces.

The Newcastle Board of Trade is to hold a meeting in the Town Office on Wednesday evening at 7.30 o'clock to consider the matter and if thought advisable to name at least three delegates to attend the conference.

Secretary H. H. Ritchie received a telegram yesterday morning from W. H. Price, Secretary of the Moncton Board of Trade, asking the local Board to take action and as a consequence a meeting for Wednesday evening has been called and it is hoped that a full attendance of members will be present to consider this most important question.

C.N.R. Audit Office Goes To Montreal

The following notice was posted in the Office of the C. N. R. Auditor of Traffic, about 5 o'clock Thursday afternoon:

Moncton, N. B., Feb. 22nd, 1923.

To the Audit Office Staff: I have been instructed to notify you that the Revenue Accounts for the entire Canadian National Railway System are to be transferred to Montreal, commencing May 1st.

It is intended that the Auditing of the Canadian Government Railways Revenue Accounts for April will be completed at Moncton and that as soon as practicable after May 1st our staff will be moved to Montreal.

Any clerk who does not desire to go to Montreal, but prefers to sever his or her connection with the Railways will please advise the Chief Clerk accordingly.

(Signed) W. H. ESTANO,
Auditor of Traffic

This intimation was received by the employees with the greatest astonishment and it was the general topic of conversation among all citizens generally last evening, all of whom were equally astonished at the news.

Although persistent rumors have been current for several days that a reduction or transfer of many of the staff would ensue following the fixing of the western limit of the so-called Atlantic region at Riviere du Loup and Monk, it was never anticipated that a complete transfer of the whole staff of one department would take place, especially in the face of the announcement made from headquarters that each unit would control all operating and traffic matters in their respective territories.

The result of the notice to the Audit Staff is a serious thing for Moncton, as it entails the removal of some 180 employees from the city. Of this number it is understood nearly 110 are married men, the large majority of whom have families, and at least 75 of them own their homes, most of which have been built within the past three years, which represents a very large investment in the city.

Besides the complete removal of the Audit Office Staff further announcements are feared within the next few days respecting the changes in the staffs of the Comptroller's, Treasurer's, Staff Records, and Auditor of Disbursements departments, as well as those of the Freight Claims, Car Service, Stores and Mechanical Departments, all of which now have jurisdiction over the entire Canadian Government Railways including the Transcontinental Railway as far as Cochrane and in some cases as far as Winnipeg.

Although no complete transfer of the entire staffs of these departments is expected, it is, however, a foregone conclusion that a transfer of a portion of each of them will no doubt take place as a consequence of the jurisdiction of the Eastern Division or unit being cut off at Riviere du Loup and Monk, Que.

A MONTH OF SUNSHINE

February, which passes out of existence tomorrow has been a glorious month of sunshine. Not a snowstorm, rainstorm or hardly a cloudy day has been seen since the month came in. A few small downfalls of snow at night, none more than half an inch at any one time has kept the snow clean and bright. The thermometer has been bright, still it has been exceptionally cold, the thermometer reaching zero and below every day.

LOCAL TALENT SCORES AGAIN

The Grand Concert, which was staged by local talent in St. James' Hall on Thursday evening for the benefit of the Miramichi Hospital Aid Society, was a notable success. The program was a delightful one and the generous supply of quality was characterized by good judgment and good taste throughout. The Hall was filled to capacity and the audience's unalloyed pleasure was abundantly evidenced by repeated rounds of applause. Every number enjoyed a hearty encore. The receipts were most satisfactory and will materially assist the Hospital Aid in their great philanthropic work. During intermission candy was sold by a number of young girls.

The Orchestra numbers were beautifully rendered and much appreciated by the audience. The Scottish selections by Mr. Elder were heartily received and brought forth prolonged applause. Piano Duets by Misses Alice McEvoy and K. Richard and Misses Ethelwynne and Marjorie Ferguson were beautifully rendered and received much merited applause. Miss Frances Astles delighted the audience with a piano solo which she played with evident skill and delicacy. Solos by Miss Stymiest, Miss Price, Miss Jackson, D. J. Gulliver, B. A. McCurdy and Chas. Dickson Jr., were features of the program, the rendition of each number being most pleasing to the audience and received prolonged applause.

Miss Nicholson and Mrs. E. W. Crocker gave delightful readings, which were listened to attentively and much appreciated.

The Highland Dance by Miss Isabel Ferguson was one of the most pleasing numbers of the program as was also the Buttery Dance by Misses G. Champion, H. and E. Bell, the youthful dancers delighting the audience with their pleasing performances.

A Trio "The Mariners" by Miss Price and Messrs. Liscombe and Gulliver, accompanied by Mrs. David Ritchie, demonstrated the distinctive quality of this number and was beautifully rendered.

Miss Williamson, Miss Crocker and Professor Liscombe accompanied the different numbers, all three discharging their responsibilities in a most satisfactory manner.

NEWCASTLE BATTERY TO FIRE SALUTE

District orders for the military portion of the ceremonial at the opening of the Legislature on Thursday, March 8th, have been received by Major J. S. Scott of Fredericton who is to be officer commanding the guard of honor. The distinction of supplying the firing-party for the ceremonial has gone to the 90th Field Battery of Newcastle. Major J. L. Lawlor will command the party which will consist of one sergeant, one corporal and four gunners in addition to the officer commanding. North Shore artillery unit has not furnished a firing-party for some time. The guns which will be used for the thirteen gun salute to which a Lieut. Governor is entitled are kept in store at Fredericton.

Compensation Board Succeeds In Supreme Court

Seven judgments were handed down by the Appeal Division, Supreme Court Friday morning, Chief Justice Sir J. D. Hazen and Mr. Justice Grimmer sitting.

The important case was that of Workmen's Compensation Board vs Bathurst Company Limited in which the company appealed from an order of Mr. Justice Barry of the King's Bench Division, for the payment of \$37,000. The court dismissed the appeal with costs.

SUNNY CORNER

Sunny Corner, Feb. 22—Mr. Allan Nolan who left for Minto on Thursday with Messrs Wm. Stewart, S. McDonald and W. Porter, was taken ill with appendicitis in Fredericton and had to be brought home on Saturday and he is now a patient in the Miramichi Hospital. His many friends wish him a speedy recovery.

Misses Janie and Hazel Tozer were visitors at Mrs. Jas McDonald's one evening last week.

Mrs. Sofia Nolan was in Sevgie the former part of last week attending the funeral of her Uncle Mr. Fitzgerald.

Miss Hannah Hogan is suffering from a broken arm, caused by a fall on the ice while coming from Mass one morning during the week.

Quite a number of young people gathered at the home of Mr. and Mrs. Perley Tozer on Pan Cake night and had a merry time, enjoying games and music.

Mr. M. Rae of Strathadam was a visitor at the Corner the former part of the week.

Miss Martha Hill is visiting her sister at the Corner.

Mrs. James Power was the guest of Mrs. Mike Hogan on the evening of the 21st.

Miss Lottie Stewart who has been in Toronto, Ont., for the past six months has arrived home for a vacation.

Mr. and Mrs. Walter O'Neil have moved to Red Bank and are now occupying their house which Mr. O'Neil has recently purchased from Mr. Bryenton.

Miss B. Johnston has gone to Blackville to teach the remainder of the term.

Miss Margaret McDonald was hostess at a Birthday Party on Monday evening. Seventeen little girls and as many little boys had a wonderful time and everyone hopes that Margaret will live to have many more Birthday Parties.

Mrs. Charles Mullin was in Boom Road on Wednesday, the guest of Mrs. Thos. Allison.

A TWENTY PAY POLICY?

A Few Simple Explanations Of Policies Commonly Sold and Frequently Confused

An endowment policy in life insurance is a policy that guarantees you the return to the face value of the policy at the end of ten, fifteen, twenty years, or for whatever term the policy runs. If it is a participating policy, or as the insurance men call it, an endowment, par, it will return to you the amount you are insured for along with the profits. If it is a non participating or "non par" as termed in insurance circles, it will return you at the end of the premium paying period, the full amount that you have been protected for. It not infrequently happens that a person who is insured thinks that he had a twenty year endowment when in reality he has a twenty pay life policy. He is not conversant enough with insurance to know what he really has.

A twenty pay life, which is very largely sold, is a policy which protects the individual insured for a thousand dollars but does not guarantee the return of a thousand dollars in twenty years. It is called "twenty pay" because at the end of the premium paying period—twenty years—the insured has, among other things, the privilege of taking a paid-up policy for a thousand dollars without any further premiums being required. If it is a policy that participates in profits, these can be drawn at the end of the twenty years and at the same time a paid up policy for the original amount insured received.

There are times when this form of

MAGIC BAKING POWDER

Magic Baking Powder has been known and used all over Canada for more than 25 years. It has set and maintained the standard for goods of its class. Its use is increasing daily because of its strength, purity and universal satisfaction.

Pure food insures good health. Magic Baking Powder insures pure food.

CANADIAN MADE
S.W. GILLET COMPANY LIMITED
TORONTO, CANADA

insurance is confused with an ordinary life twenty year settlement policy.

An ordinary life twenty year settlement policy can be purchased at a much lower price than a twenty pay life. It protects the insured for one thousand dollars but does not guarantee a paid up policy for the face value at the end of the premium paying period. It is an ordinary life form of policy. But, contrary to the opinion held by many, the insured does not have to pay during his lifetime. He can get a settlement at the end of twenty years. The ordinary life form of insurance affords protection at the lowest possible cost with a cash return. It affords protection at a much lower cost than either of the above mentioned forms and consequently does not give as good a return per dollar expended as the other forms. It carries with it the prime idea of protection with a fair return on the money outlay. This plan of insurance is much in demand by business men.

CANADA'S FISH EXPORTS TO STATES

Fish exported to the United States from Canada during the month of January reached a value of \$818,575 as compared with \$1,157,650 in Jan. of last year.

Fish exports to the United Kingdom during January were valued at \$184,089, as compared with \$325,132 for the same month last year.

Canada's total fish exports for the month were \$1,712,044, as compared with \$2,556,672 for January 1922.

MAY HAVE AN AMBASSADOR IN U.S. CAPITAL

Montreal, Feb. 21—There is only one obstacle to Canada's being invited to membership in the Pan-American Union, according to John Barrett, general counsel and adviser of this organization today. And the obstacle is that Canada has no minister plenipotentiary at Washington. The constitution of the Union requires that its governing board shall consist of ministers of each member nation now functioning at the American capital. When he pointed this out to the Prime Minister, Mr. Barrett said in an interview today, Mr. Mackenzie King "indicated that this obstacle would be wiped out in future" forshadowing, according to Mr. Barrett, the establishment of a Canadian ambassador at Washington.

Lumber Prices Advance And Stocks Being Held

A well-known business man of St. John, who has been travelling over every part of the province since the first of the year in connection with his affairs says: that the prices of lumber in the American market had advanced very considerably. Material which was bringing about \$31.00 last year is now selling for \$45.00 per thousand, and the supply is very meagre indeed. Mr. Blanchard of the Blanchard Lumber Co., of Boston, which buys very extensively in this section, stated that it was almost impossible to get the quantities or the dimensions demanded by the trade. He spoke of the increased price as not being, in his opinion, a mere flurry, but that while it might not keep up at the present high figure, the prices for the cut of 1923 would be very much greater than those of 1922.

The lumbermen, however, are not anxious apparently to sell the new cut in advance. It would almost seem as if such favorable contracting terms would invite them to close for the sale of whatever quantities they expected to have, but this is not so. Instead, they name prices as ranging from \$34. to \$45. for different sizes, lengths and qualities of lumber, but even then, they do not care to sell at the present time. Taken as a whole, it is thought by those who have observed the situation closely, that lumbermen are inclined to gamble with the situation and hold out for prices which may be unrealized.

HARRY K. THAW HEARD FROM

His Health Requires Change of Air

Pittsburg, Feb. 22—Harry K. Thaw has arrived here for a stay of ten days at the home of his mother. He was brought from the Pennsylvania Hospital for mental and nervous diseases, near Philadelphia, where he had been for several years.

A court order issued yesterday permitted him to leave the institution. Doctors had advised that a change of air and scenery were essential to his health.

Replaces Gargles For Sore Throat

So Declares Mrs. Melbourne of Ottawa Concerning Vicks

Mrs. Melbourne of 84 Fulton Ave., Ottawa, Ont., writes: "I had a very bad cold on my chest, when I received the sample of your Vicks Vapo-Rub and after two or three applications, I found great relief and before the jar was finished I was completely cured. I also used it on my little boy for a sore throat and found it very satisfactory where gargles had failed to give relief."

Treat one cold with Vicks Vapo-Rub and you will adopt this external treatment for all the cold troubles of the family. Vicks is a salve that acts like a plaster and a vapor lamp at the same time. It is absorbed and inhaled.

When the children come in wet and sniffling, apply Vicks liberally over throat and chest and cover with a flannel cloth.

Treated at bedtime, the child is usually better next morning, and all the bad after-effects of internal dosing are avoided. Croup attacks are kept away, too.

At all drug stores 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

The Vicks is now in Canada, it enjoys a remarkable sale. Over 27 million jars used yearly.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

MARKETING OF CANADIAN CATTLE

LONDON, Feb. 24.—The question of providing for the landing and marketing of Canadian cattle when the new importation of animals' bill, which supercedes the long standing embargo on importations of cattle from Canada, comes into operation, arose in the House of Commons yesterday, when Minister of Agriculture, Sir Robert Sanders was asked if arrangements had been made in connection therewith.

The minister said the landing of Canadian cattle probably become possible a few weeks hence when the act was brought into operation. It was expected that Dundee and Glasgow would be ready to receive Canadian cattle when the act came into force, he said, but he was prepared to consider the matter of approving other ports for the purpose upon receipt of proposals from port authorities. The ministry of agriculture, he added, was not aware that any markets had yet been authorized by local authorities.

Dairying A World Industry

The international character of the dairy industry is responsible for the organization of the World's Dairy Congress Association. Under the auspices of this body and of the government of the United States a World's Dairy Congress has been arranged to be held in Washington from October 2 to 5 this year. The vast extent of the dairy industry and its international status are recognized by those responsible for the congress. Scientists, health officials, government officials, social welfare workers, and producers, manufacturers, and distributors of milk and milk products will contribute to the discussions. These will relate to improving the quality and reducing the production and handling costs of dairy products and improving national health through their more general use. The international aspect of the commercial side of dairying has not been overlooked. It is recognized that the movement of surplus dairy products from Australia, New Zealand, the Argentine Republic and South Africa northward profoundly affects prices in Canada the United States and Western Europe. The Congress is called together by President Harding, who has been authorized by Act of Congress to invite foreign representatives to attend.

ATMOSPHERE HUMBLES THEM

Have you ever noticed how grown ups behave in savings banks? Exactly as though they were children in the presence of

YOUNG DAUGHTER MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B.C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDONALD, 2947 26th Ave. East, Vancouver, B. C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time. If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her. Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

strict teachers. They stand in line patiently without daring to push ahead. They are ready to apologize if one of the bank's attendants comes forth to question them. Instinctively they feel they are not following the bank rules somehow, just as children feel they have done something wrong if they are stopped in corridors and questioned by the teacher.

When their books are being balanced they are told to sit down and wait. They rather dislike to do that. They want to hang around so as to be ready. But they are told once more to "take a seat, please," and a seat they take obediently.

When their names are called they answer in rather nervous, childlike fashion:

"Right here, sir!" Banks are mysterious headquarters of power which are firmly "for our good," and so grown-ups find themselves being humble and ready to accept orders as children.

Lost Both Arms In Use Of X-Rays

Honor Unique in History Conferred on Dr. Vaillant

PARIS, Feb. 24.—Charles Vaillant, celebrated doctor of La Ribouisiere Hospital, with both sleeves hanging empty but standing erect and undaunted by misfortune, received yesterday at the Hotel De Ville an honor unique in history.

For the loss of both arms in the use of X-rays during the last twenty years, he was awarded the Cravate of the Legion of Honor, a rare honor for a civilian, other than the head of the State or a diplomat; the Carnegie hero medal, and the gold medal of the city of Paris.

ROMAN CATHOLIC CHURCH DESTROYED

Pontiac, Sask., Feb. 23.—Fire last night completely destroyed the Roman Catholic Church and all its contents save a statue, caused a total loss of \$40,000, practically covered by insurance.

The fire is believed to have originated from a defective flue in the furnace.

A statue of the Blessed Virgin said to be about 500 years old, was saved. This was the only ornament saved from the building which contained several valuable paintings, sacred vessels and priests' vestments.

CHEMISTRY DIVISION WORK

The extent, value, and importance of the work in which the Dominion Chemist, Dr. F. T. Shutt, is engaged, are well exemplified in the interim report of the Division for the year ending March 31, 1922. From this we learn that a total of 4,122 samples were received from all parts of the country, during the year at the Dominion laboratories for free examination, including 2,160 samples from the Meat and Canned Foods division of the Health of Animals branch of the Ottawa Department of Agriculture. The results of all these examinations are given in the report, which can be obtained free of charge from the Publications branch, Ottawa. Agriculturally they include investigational work with soils, fertilizers, feeding stuffs, sugar tests field roots, silage and forage crops waters, etc; but, as Dr. Shutt says in a very real sense the division acts as a bureau of chemistry for the entire Government service analytical work and research having been undertaken not only for all the branches of the Agricultural Department but also for the Post Office Department and for the Departments of the Interior, Customs and Excise, Marine and Fisheries, Naval and Military, and for the several commissions and boards in connection with the soldiers' re-establishments and settlement. A specially important line of work comprises the chemical and microscopical examination of samples from the packing houses and canneries throughout the Dominion, thus ensuring as far as possible that the food products of these industries conform to the Government standards of purity.

Getting Too Old For Major League

TRAPPE, Md, Feb. 24.—Frank "Home Run" Baker, member of the New York Yankees, feels he is getting too old for Major League competition and announced to-day he would like to play with the Eastern Shore League, a class D, Minor League organization. Baker stated he would not like to quit baseball entirely as he still is fascinated with the game.

Children who have once had Zam-Buk applied never forget how it soothes and heals their hurts. A touch of herbal Zam-Buk—a balmage made of almost any clean rag—no more tears or worry. Zam-Buk is so pure and so refined that it provides the ideal healer for every sort of wound, abrasion or soreness.

Ask For

Mrs. J. E. Bierwirth, of Carnduff, Sask., writes:—"My little boy cut off the end of his finger and it seemed a case for a doctor. However, I applied Zam-Buk to stop the pain and bleeding and it gave the child such relief that I continued the treatment. Using nothing but Zam-Buk, I dressed the finger each day, and the wound healed perfectly."

MONCTON AND THE RAILWAY

Moncton is up in arms over the action of the C. N. Railway Board in making River du Loup and Monk the western terminal of the Atlantic division of the Canadian National Railway. As a consequence Moncton is losing a number of its citizens, and will no doubt lose many more in the near future. It is without doubt, most discouraging for the railway town and means a great loss to this enterprising city. Other towns and cities in the Maritime Provinces are also considerably peeved over the situation, and good reasons they have for being so. Whatever hits one of our Maritime towns hits every town more or less in the provinces by the sea. We in the Maritime Provinces have never been fairly treated by the federal governments, but never have we been hit so hard as at the present moment. Some concerted action on the part of our citizens must be taken immediately and if the present Thornton orders can be rescinded, no stone should be left unturned in doing so.

It is hoped that something definite in the way of action will be arrived at by the joint meeting of the Maritime Province Boards of Trade to be held in Amherst on Friday.

It would seem that one of the best methods to pursue would be to ascertain where each and every Maritime Province member stood in the matter, and there should be only one attitude for them all, namely, shoulder to shoulder to a man, to safe guard the Maritime Provinces. If they would do this, we have but little fear of the result. But the question naturally arises will they do it?

Hon. A. B. Copp, Secretary of State and Minister for New Brunswick in the King Government is apparently doing or saying nothing. Why such silence? In the last federal election Moncton and Westmoreland County gave Mr. Copp more than 7000 of a majority, and he received this because of the promises held out by Hon. Mackenzie King. By his present attitude, is he not giving Moncton and the Maritime Provinces pretty mean treatment? Nova Scotia's Minister the Hon. Mr. Fleming is also inactive in the matter. The sooner the Maritime Provinces become one province, the sooner will we receive the treatment which we deserve.

It is a well-known fact that the railway vote, in a large measure, was responsible for the downfall of the Meighen administration, especially was this so in Westmoreland Co.

PILES
Do not let the itching, burning, and smarting of piles drive you to despair. No matter how long they have been present, they can be cured. The only reliable treatment is the one that has been used for centuries. It is simple, and it is sure. Write for a free pamphlet and a list of names of druggists who sell it. It is the only cure for piles that is guaranteed to give relief. Write to the author, Dr. J. C. Smith, 100 King Street West, Toronto, Ont.

Mrs. A. Daniels
WEDNESDAY
Was Prostrated

Bed Ridden From Neuritis,
Toronto Woman Takes Tanlac
and Now Restored—
Gains 16 Lbs

Mrs. Ada Daniels, 29 First Ave., Toronto, Ont., reports a gain of sixteen pounds in weight and relates an experience with Tanlac that will be of interest throughout Canada.
"Before I got Tanlac," says her statement, "I had lost fifteen pounds and was down in bed suffering unmercifully. Neuritis had affected my whole system so awfully that I could scarcely move a muscle in my body. I had no appetite, and suffered such agony from heart palpitation and gas on the stomach that I had to prop myself up in bed at times in order to get my breath. I was just racked with pain and misery, and my nerves were so shattered that many nights I couldn't sleep a wink."
"Tanlac has rid me of rheumatism two years previous, so I took the treatment again, and have gained sixteen pounds and feel as fine as I ever did in my life. Tanlac has done me so much good I can't resist telling everyone I can about it."
Tanlac is for sale by all good druggists. Over 35 million bottles sold.

Hockey Executive
To Try To Adjust
Northern Trouble

Shediac and Bathurst Contend
Referee of Chatham-Shediac
Game Was Ineligible—May
Mean Change in Play-off
Date

Fredericton, Feb. 25—The executive of the New Brunswick and P. E. Island hockey league have been called to meet at Moncton tomorrow to settle a squabble in the northern section of the league. The trouble is over the recent game played by Chatham at Shediac and won by the former by a score of 10-3, therefore clinching the title of the northern section for the Miramichi team.

The protest is based upon the claim of Shediac, backed by the Bathurst club, contenders for the sectional title, that Anthony Veno, a playing member of the Chatham Hockey Club, was ineligible to act as referee under the league constitution. It is contended that he was appointed by G. T. O'Brien, of Chatham, vice-president of the northern section, when Weatherbee, the referee agreed upon, failed to appear from Springhill.

The winners of the northern section are due to play in Charlottetown on February 28. If the game should be ordered re-played, a revision of the schedule for the play-off for the championship will be necessary.

where the axe is now beginning to be felt. If Mr. Copp came back today to the people, instead of receiving a majority of 7000 he would be defeated by 7000, and we are rather inclined to think that the same thing would apply to every Maritime Province member, because of their inaction in the present crisis.

Promises are easily made, when looking for votes but once elected they are as easily forgotten. However, the electors in these provinces and especially those, who are employees of the railway have learned their lesson, and will not easily forget the way they are being treated by those whom they elected as their representatives.

But for the present at least all thoughts of party should be thrown into discard and one and all should insist that every Maritime Province member should get in line and safe guard our and their rights. If they fail to do this, then there will be only one thing left for us to do, and when that time comes, which it surely will, we ought to be ready and at hand. We will be called on to do our share of every man's work, and we think of every man's share of work.

PICTURE IS UNIQUE
Syrian Quarter of New York
Finely Shown in "Anna
Ascends"

Every day in New York City thousands of persons pay a dollar each to be shown how "the other half" lives. They climb into hard-riding "rubber-neck" busses and listen to stereotyped speeches from sophisticated guides to satisfy their curiosity about the lower east side, Chinatown and the Bowery. For those who cannot go to New York Alice Brady's latest Paramount picture, "Anna Ascends," which will be shown at the Empress theatre next Wednesday and Thursday, gives an accurate picture of the Syrian quarter in New York. The photoplay, which deals with the rise of a Syrian immigrant girl, depicts the lives of these people. Sjad Coury's coffee house, shown on the screen, is an exact reproduction of one of Washington street's most interesting coffee houses. And the strange thing about it is that there is a coffee house keeper in New York who goes by the name of Sjad Coury. No fiction here. It is actual stuff.

Both Miss Brady, who plays the leading role of Anna, and Edward Durand, who is Sjad, spent many hours in the Syrian district studying the types which they depict on the screen. Director Victor Fleming has given the picture such a realistic background that it is bound to be of great interest to those who like to know how foreigners live in New York, the center of the American melting pot.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels, and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

FLU CENSUS

The Department of Health of New Brunswick is to circularize the medical profession of the province at once with reference to reports of epidemic influenza. Physicians are to have their attention directed to the fact that reports are being received from adjoining states and provinces of the occurrences of cases of la grippe. The doctors are to be asked to be careful to report to the department any cases of genuine epidemic influenza.

MONCTON MAY GET
THREE NEW INDUSTRIES

It is learned on good authority that three new important industries are seriously considering locating at Moncton, but plans as yet are so immature that nothing definite can be given out concerning them. An option on a site has been secured by one of the firms which is planning to establish a plant there.

Sheriff's Sale

There will be sold at Public Auction in front of the Court House at Newcastle, at three o'clock in the afternoon on Friday, March 9th, 1923, ONE AUTOMOBILE, Baby-Grand, Chevrolet, the same having been seized by me under Writ of Fieri Facias issued out of the Saint John County Court, against McKay Dickson.

W. F. CASSIDY,
Dated at Chatham, N. B., Sheriff,
Feb. 26th, 1923.

A BOYS' PILGRIMAGE TO ALASKA

George E. Buchanan and the fifty boys he will take to Alaska.

S.S. "Princess Louise"

Between Vancouver and Skagway the Canadian Pacific steamer "Princess Louise" passes through hundreds of miles of such beautiful sheltered waterways as this.

The wonderful totem poles of an Alaskan Indian village.

GEORGE E. BUCHANAN, a Chatham, Ont., boy who is now a prosperous coal dealer in Detroit, attributes his success largely to an offer made him when he was a boy that he would have a trip to Europe if he saved up a third of the cost. The offer was made by a friend who promised to lend a third provided George's father lent the other third, the loans to be repaid when George could afford to do so. Here was a real incentive for saving, and when the trip was made it proved of an educational value that has stood him in good stead all his life. Last year Mr. Buchanan made a trip to Alaska, and the idea occurred to him of making the same kind of offer to other boys that he had himself enjoyed in his own youth. But the trip should be to Alaska and not to Europe. As soon as he made the announcement, he was inundated with applications, and a large party of Detroit boys has already been booked to sail from Vancouver on the Canadian Pacific steamer "Princess Louise" on July 14th. Mr. Buchanan will personally conduct the tour which he is thus offering to other boys. He has seen a trip would have been worth \$2000 to him if he had taken it himself in his own boyhood because of its educational and broadening influences.

The Rev. Lynn Harold Hough, pastor of the Central Methodist Church, William Livingstone, president of the Dime Savings Bank, and Circuit Judge Joseph A. Mayhew have endorsed Buchanan's scheme as an unusual opportunity for boys to learn the value of thrift and industry. But the trip will have still other benefits, as Mr. Buchanan has said. These boys cannot travel for months and take that wonderful trip up the island-sheltered waters of the Pacific Coast without its having a tremendously stimulating effect upon their imagination, and upon their future modes of thought and life. From Vancouver up to Skagway and back is a nine-day trip that can never be forgotten. The yacht-like "Princess Louise" glides over a still sea among countless islands that rise for miles or mountains on either side against a snow line of snow-capped mountains peaking the Indian villages of Alaska with their totem poles are unique, and they too will have a special charm for these fifty Chatham boys.

SPECIAL MEETING TOWN COUNCIL

A special meeting of the Town Council was held in the Town Office on Monday, Feb. 19th at eight o'clock p. m. Present, Mayor Fish, Ald. Atkinson, Dalton, Doyle, Locke, MacKay, McGrath, Ritchie and Sargeant. Minutes of meeting of Jan. 18th were read and confirmed.

Communications: A letter from the Municipal Review, soliciting subscriptions was read and on motion of Ald. Locke seconded by Ald. Atkinson, it was decided that the Town subscribe for one copy of the paper.

Letters from the Boards of Trade of Grand Falls and Edmundston were read protesting against an extension of charter for Grand Falls and it was moved by Ald. Sargeant, seconded by Ald. Dalton that Ald. Ritchie and McGrath be a committee to draw up a resolution in answer to these communications.

A request from Mrs. O. McGowan for a rebate of taxes was read and on motion of Ald. MacKay seconded by Ald. Doyle was referred to the Petition Committee.

School Estimates for the ensuing school year amounting to \$23,000.00 were presented and on motion of Ald. Ritchie seconded by Ald. Doyle the same were received and referred to the Finance Committee for inclusion in the year's assessment.

County Warrants totalling \$9708.00 were presented and on motion of Ald. Doyle seconded by Ald. Ritchie the same were received and referred to the Assessors to be included in the 1923 assessment.

Reports of Committees:

The Finance Committee recommended payment of the bills of Barnes & Co., Ltd., \$8.12, Newsoms & Gilbert Ltd., \$3.58 and Mr. Publishing Co., Ltd., \$12.75, and on motion of Ald. Locke, seconded by Ald. Doyle, the same were passed and ordered paid.

The chairman of the Finance Committee recommended the acceptance of the Mr. Publishing Co., Ltd., tender for printing the Town Report.

The following bills from the Light & Water Committee were passed and ordered paid on motion of Ald.

MacKay seconded by Ald. Dalton; P. Hennessy, Metrs. Geo. Burchill & Sons, \$54.95, We... \$80.00, Can. Gen. Electric Co. Ltd., \$728.08, Can. Allis-Chalmers Ltd., \$342.28.

The bill of F. Uncles, \$1.73, from the Police Committee was passed and ordered paid on motion of Ald. Ritchie seconded by Ald. Atkinson.

The Police Committee recommended the reappointment of the present Board of Assessors, viz. H. R. Moody, A. L. Barry, and J. H. Sargeant, and on motion of Ald. Ritchie, seconded by Ald. Doyle, the same were declared duly appointed assessors for 1923.

It was moved by Ald. Ritchie, seconded by Ald. Locke and carried that C. M. Dickson be appointed as Town member of the District Board of Health.

Annual Reports were submitted by the Finance Committee, the Public Works Committee, Light & Water Committee, Police Committee and Park & Fire Committee and on motion these were received and ordered printed in the Town Report.

The annual report of the Fire Company was presented and on motion was received and ordered placed on file.

The Treasurer's annual statement with the Auditor's report were submitted and on motion of Ald. Doyle seconded by Ald. Dalton were received and ordered printed in the Town Report.

On motion the Council resolved itself into a Committee of the Whole to consider the year's estimates and Ald. Locke was appointed Chairman.

On the Council re-assembling the following report was presented.

The Committee of the Whole would recommend the adoption of the following assessments for 1923.

Town Schools	\$ 23,000.00
Park & Fire	4000.00
Police & Street Lighting	4500.00
Public Works	5000.00
Permanent Work	2000.00
Contingencies	4000.00
Sinking Fund	4700.00
Interest	6000.00
W. & S. Extension	2000.00
	\$52200.00
County Assessment	9708.00
	\$64908.00

The \$2000 for Permanent Work to be administered by Public Works Committee under supervision of the Whole Council.

The \$9708.00 for County Assessment comprises:

County Schools	\$ 2992.00
Alms House	1000.00
Pauper Lunatics	520.00
Board of Health	816.00
Contingencies	4380.00

On motion of Ald. Locke seconded by Ald. Ritchie this recommendation was received and adopted.

The Mayor's Annual Report was read and on motion of Ald. Doyle seconded by Ald. Sargeant the same was received and ordered printed in the Town Report.

The following resolution was moved by Ald. Doyle, seconded by Ald. Sargeant and carried.

Whereas the Public Highway passing through Newcastle between Sinclair's Bridge (so called) and the French Port Cove Bridge a distance of about five miles, is in such a condition that makes it imperative that this highway be practically rebuilt during the coming summer, and

Whereas this highway is part of the main trunk road between Fredericton and Bathurst and its present condition has been largely brought about by cars from all parts of the province passing through Newcastle to these points, and

Whereas the building of this road by the Municipality of Newcastle would impose such an excessive tax on the citizens of this Town, that this Council cannot see its way clear to undertake this necessary work: Be it therefore,

Resolved that this Council urge upon the Minister of Public Works the need of putting this highway into proper shape for the coming summer and request the Local Government to grant such financial assistance as will enable this municipality to undertake the necessary repairs, or the taking over of this section of the Main Trunk Highway as a Government Road and further,

Resolved that a copy of this resolution be forwarded to our Local Members with a request that they urge a favorable consideration to this request as a benefit to the province at large.

It was moved by Ald. Ritchie seconded by Ald. Locke and carried that the salaries of the police officers for the ensuing year be as follows:

J. H. Ashford, \$60 per month, Edward Walsh, \$80.

The question of reduction of salaries in the Light & Water Department was left with the Light & Water Committee for report at next meeting.

On motion the Council adjourned.

WEDDINGS

DeVINNIE-LINDON

A wedding of much interest took place in St. Mary's Church, Chatham, Mass., on February 18th when Mrs. Ruby Lindon, daughter of Mrs. Annie Wright of Newcastle, N. B., became the bride of Mr. Walter DeVinnie, son of Mrs. Alex. DeVinnie of St. John, N. B., Rev. Fr. Phalen officiating.

The bride who was beautifully dressed in a cocoa canton crepe dress and large picture hat to match was attended by her sister, Miss Pearl Wright, who was becomingly dressed in gray canton crepe, while the groom was supported by Mr. J. Leonard Wright.

After the ceremony the happy couple motored to the home of the bride's sister where a sumptuous dinner was served to immediate relatives of the contracting parties. The groom's gift to the bride was a necklace of pearls, to the bridesmaid a rosary, and to the groomsmen gold cuff links.

Mr. J. D. Palmer Resigns as Provincial Opposition Leader

St. John, Feb 20. At the convention of the provincial Conservative Opposition held here this afternoon, J. D. Palmer, of Fredericton, resigned the office of leader of the party. C. D. Richards, M.L.A., who was chosen as house leader last year will continue in that office. It was decided that no other action relating to the leadership would be taken until the approach of a provincial general election.

MISS CANADA TO MAKE A TOUR

Miss Canada is preparing to leave for Sydney, N. S., where she will attend a big Rotary ice event on the evening of March 1st. Miss Canada will then proceed to Halifax, arriving on March 2nd, and will be the guest of honor at the winter fete, opening on Friday evening. On Saturday Miss Canada will attend several social functions, and will leave for St. John on Monday. On her arrival Monday evening she will be joined by her mother, who will relieve Mrs. W. H. Golding, chaperon. They will attend the ice sports at St. Stephen on March 6th and the opening of the legislature in Fredericton on March 8th. A telegram from the Montreal Winter Sports Committee requesting that Miss Canada attend the closing event of the Montreal Carnival on March 2, had to be declined. Miss Canada has received an invitation to attend the ice meet at Sussex on March 12.

Col. Mersereau Will Retire

Fredericton, Feb. 21—Intimation

IN FRONT RANK

Cod-liver oil is different from other fats because of its great richness of vitamins and is so readily absorbed by the weakened system.

Scott's Emulsion

is an effective agent in improving nutrition and building up the resistive-powers of the body. Scott's Emulsion is Norwegian cod-liver oil at its best.

ONE 50c BOX BROUGHT HEALTH

Years of Constipation Ended By "Fruit-a-fives"

The Wonderful Fruit Medicine
Anyone who suffers with miserable health; who is tortured with Headaches; and who is unable to get any real pleasure out of life; will be interested in this letter of Mrs. Martha de Wolfe of East Ship Harbor, N.S.
Mrs. de Wolfe says, "For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicine seemed to help me. Then I tried 'Fruit-a-fives' and the effect was splendid; and after taking only one box, I was completely relieved and now feel like a new person."
50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-fives Limited, Ottawa, Ont.

that Lieutenant Col. John Mersereau D.S.O. will soon retire as officer commanding the Seventh Canadians Machine Gun Brigade has been made here.

Lieut. Col. Mersereau was born at Bathurst, on July 13th, 1880, the son of the late George W. Mersereau. He was educated at Acadia University taking his B. A. degree in 1900 and his M.A. in 1903 and an M. A. degree from Harvard in 1908. He then entered upon a career as an educationist.

Proceeding overseas with the First Division in 1914 he was Brigadier-Major with the 4th Canadian Infantry Brigade, and was wounded severely at Ypres.

Subsequent appointments held by him were those of General Staff Officer, Grade 2, Valcartier Camp, 1916 General Staff Officer at Aldershot Camp 1916-17, attached headquarters of the Canadian Infantry Brigade 1917; Commanding Officer 25th Canadian Infantry Battalion, 1918-19. He was awarded the D.S.O. for gallantry and was mentioned in despatches

BIG INCREASE OF INSURANCE RATES

Montreal, Feb. 21—By circular issued to all agents in this territory, the Canadian Fire Underwriters' Association have given instructions that all existing policy rates on churches, schools, religious institutions, colleges in this city and district shall be cancelled and that new policies may be taken out immediately at rates increased from 32 to 50 per cent. The step is presumably taken in consequence of the numerous fires that have swept religious institutions and churches in this district of late months.

Here and There

QUEBEC, Que.—The request made by Mayor Curley of Boston for the return of the small gun said to have been captured by the British on June 17, 1775, at the battle of Bunker Hill, and which now stands on the square of the Quebec Citadel, has been referred to the Minister of Militia at Ottawa.

PORT ARTHUR.—An official announcement by the C. P. R. at Winnipeg says: "At Port Arthur additional truckage will be provided to accommodate grain consigned to the terminal elevators at 'Current River'."

ROBE.—Sixty tons of Canadian commodities of various kinds have arrived at Shanghai to be placed in the newly-established Canadian sample salesrooms originated by Dr. J. W. Ross, Canadian Government trade commissioner at Shanghai. The show rooms will be in charge of D. B. Sparks, who has spent several years in China as a representative of Canadian manufacturers. Dr. Ross states that Canada is more interested than ever in the upbuilding of trade with the Orient, and the opening of the sales rooms at Shanghai is a tangible indication of the efforts being made to accomplish that purpose.

ST. JOHN, N.B.—At the present rate of shipment of grain, the 20,000,000 mark may be attained this season. For the present season to the end of January, the total export of cereal through the C. P. R. elevators was officially given at 8,904,335 bushels, compared with 4,576,233 bushels for the previous winter season. The increase for this winter to the end of January is 4,328,102. Grain shipments on February 1st of this year had equalled the total to March 10th last year.

LETHBRIDGE.—C. C. Stubbard, D.S.O., for some time C. P. R. trainmaster here, has been transferred to Pentecost, B.C., where he will occupy the same position on the Kettle Valley Railway, a branch of the Canadian Pacific. Mr. Stubbard is succeeded here by C. E. Legg, of Pentecost. Mr. Legg will assume his new duties at once. Coming to Lethbridge from overseas August 1, 1920, Mr. Stubbard has been a resident of the city continuously since that time.

KINGSTON.—Prominent officials of the Canadian Pacific Railway were in the city in connection with local matters connected with the railway service. F. J. Main, superintendent of the Trenton division, and Col. Ripley, district engineer, inspected the new overhead bridge on the new line entering the city and which is now about completed. The rails are being laid and soon the trains of the Canadian National line, as well as those of the C. P. R., will be running over them and a great source of danger will be removed in the diamond switch that has been in operation for so many years at heavy expense.

CALGARY.—Those who knew Grim Hall, Vice-President Canadian Pacific Railway, in the olden days in the West, recall his remarkable prowess with a gun. Although he now has little time for hunting expeditions he has by no means lost his well-known aim. While his train was proceeding at a rapid speed between Weyburn and Lethbridge, his party noticed a coyote some fifty yards away. "Oo-oo you couldn't hit it," remarked one of the guests. "Taken" said the Vice-President. Bang went his gun and the coyote rolled over. "The Call of the West," remarked the Vice-President with a smile.

MEDICINE HAT.—Within the past year, three locomotive engineers of the Medicine Hat division, James Fisher, Tom Penhale and Henry Hardy, have been retired from active service of the Canadian Pacific Railway on pensions. All three are veterans in service, have fired and driven construction trains in the pioneer days of road building, and for many years of late have been promoted to passenger runs. Tom Penhale is the oldest in service with the company, having enlisted in 1881. He has taken an active civic part in the community, and was an alderman of the city for several years. "Jim" Fisher has spent fifty-one years of his life railroading, covering during the entire period over two million miles in the cab of a locomotive. He started as fireman on the Intercolonial, and joined the Canadian Pacific in 1881—having piloted a passenger train for the past thirty-six years. Henry Hardy joined with the company in 1887 at Broadview, and later worked on a construction engine on the Prince Albert branch in 1890.

The APPLE DUMPLING Tree

Children, in FIVE ROSES Land, Harry, come and see Apple Dumplings growing thick On an apple tree! Shake 'em down and eat 'em up! Fluffy, light and fruity. Made of good FIVE ROSES flour. Each a perfect beauty!

YOU who have so successfully used FIVE ROSES flour for breads and rolls, cakes and puddings—try it now for dumplings, tarts, patties or 1 dainty pastries. The so-called difficult things become child's play to the FIVE ROSES enthusiast!

Every new venture into the Land of FIVE ROSES proves the unusual qualities of this famous flour. Is it any wonder that over 650,000 Canadian homes will use none other—for all their baking?

Turn to any one of over 1,000 tested recipes in your FIVE ROSES Cook Book. Experience the joy of a perfect product every time!

A Mother's Health Needs Great Care

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, back aches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. Mrs. W. T. Riley, R. R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers and tells her story as follows:—"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my household work. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes, but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results."

If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

PEOPLE WHO NEVER MAKE ANY MISTAKES

(Truro News)

The editor does not want anyone to send him any more copies of the paper in which they find mistakes. If, however, they find a perfect copy he will pay a big price for it. If the fool critic who hunts for mistakes in the newspapers would find them all, he would be kept busy. We will be pleased to buy copies of any paper which can be proven entirely free from errors, either typographical or in statements of fact. We will be pleased to find a merchant who has never made a mistake in putting up an order; a lawyer who never lost a case through his own errors; a doctor who never wrongly diagnosed a case; a druggist who never made a mistake; a post office official who never put mail in the wrong box; a woman who never forgot to put in the salt while cooking or to put tea in the teapot before putting in the water.

Bring in some of your mistakes, less paragons who find it so easy

Absorbent in The Stable

Approximately one-third of the excrement voided by animals is liquid. The liquid voidings of cows according to analysis contain in one ton 20 pounds of nitrogen and 27 pounds of potash. The solids voided contain in one ton 8 pounds of nitrogen, 2 pounds potash and 4 pounds of phosphoric acid. Taking the price of commercial fertilizers as a basis for computation, approximately \$66.00 for nitrate of soda (15 per cent), \$24.00 for acid phosphate (16 per cent), and \$50.00 for muriate of potash (50 per cent), per ton; the value of these elements would be 22 cents per pound for nitrogen, 7½ cents for phosphoric acid and 5 cents per pound for potash. From the above calculation it will be seen the liquid manure is worth \$4.40 for the nitrogen it contains and \$1.35 for the potash, a total value of \$5.75 per ton, while the solids are worth \$1.76 for the nitrogen, -10 cents for the potash and 30 cents for the phosphorus, a total value of \$2.16 per ton. It is obvious that it is very important to conserve all liquids voided by animals. This can be done in practice by using absorbents of some kind which permit the return to the land of this valuable fertilizer with as little loss as possible.

One pound each of well dried peat, thoroughly dried sawdust, and dried leaves will absorb, respectively, 5, 4, and 1½ pounds of liquid. It is difficult to dry peat thoroughly under our climatic conditions and to get good dry sawdust is equally difficult. Fortunately good dry straw, the absorbent most generally available is also one of the best absorbents.

Tests show that one pound of straw will absorb in twenty-four hrs. from 2¼ to 2½ pounds of liquid. Oat straw is found to be a slightly better absorbent than wheat straw. Our straw according to analysis, contains 12 pounds of nitrogen, 4 pounds of phosphorus and 24 pounds of potash per ton. If we attribute to the plant food constituents in oat straw the same value as that given to them in commercial fertilizers, we find that a ton of oat straw is worth \$2.45 for the nitrogen it contains, 30 cents for the phosphorus and \$1.20 for the potash, a total of \$4.14. Assuming that two tons of liquid manure (urine) can be conserved by using a ton of straw, the three tons so produced would have a fertilizing value of \$15.64, or \$5.21 per ton.

Our tests have shown that 1000 steers kept in box stalls average 7½ pounds of manure per day, including the bedding used, which was ten pounds per steer per day. That is, the voidings amounted to 68 pounds each per day. One-third of this amount, twenty-three pounds, being liquid, provision was made for its absorption. This ten pounds of straw did satisfactorily. This amount of straw may at first thought seem to be excessive, as ten pounds of straw has a considerable bulk, but it is no more than is necessary to take up all the liquid thoroughly. It is not wise to be stingy with bedding materials and it is doubtful if straw can be used in any other way to as good advantage. If we desire that gains be made, the comfort of the animals should be considered, though, judging by the bedding used in many stables, their feature is not given great consideration.

Everything favors a more generous use of absorbents, and fortunately with a good straw crop this year, this requirement can be much better met than during the past few years. It is also wise to keep in mind that straw has a considerable value above the fertilizing elements contained in that it eventually furnishes humus to criticize the newspaper, and we will give them the chance of their lives to find out whether they are really human.

to the soil, thus greatly aiding in keeping it in good tilth, making it more resistant to drought, and much more suitable for the development of soil bacteria.

60 BELOW ZERO IN YUKON TERRITORY

Yukon's coldest spell this winter has just broken. Several points report 60 degrees below zero for several days. Between Dawson and White Horse, 50 below zero was the minimum.

The temperature here has ranged about 45 for two days, with an extremely high barometer. A remarkable heavy snowfall preceded the cold snap. The total fall this winter here exceeds 28 inches.

The mail stages between White Horse and Dawson drawn by four horses to the sleigh, had to break trail all the way down last trip. The heavy fall of snow assures the miners and hydraulic operators a plentiful supply of water for next season's operations and the Spring clean-up.

Essential—if the best results are to be obtained from your bakings—

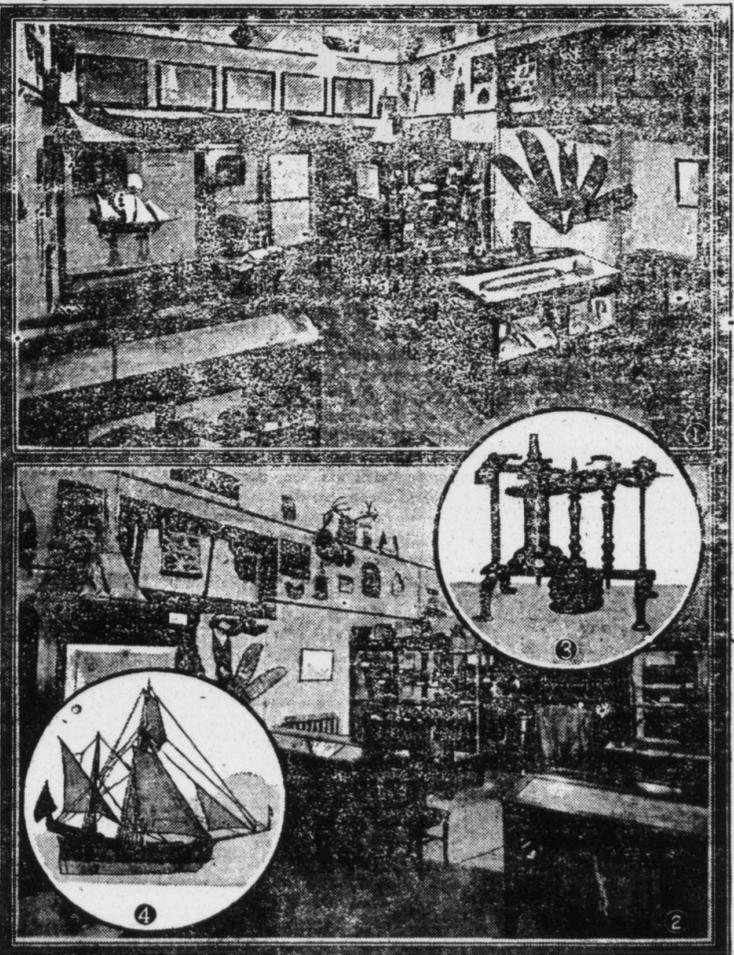

BEAVER FLOUR

Beaver Flour gives to bread a distinctive, delicious, nutlike flavor; and makes pies, cakes and pastry of light, even texture. The only reason why every Canadian housewife is not using Beaver Flour is—all have not yet tried it. Use Beaver Flour and note the difference in your bakings. Sold by your grocer.

WINNIPEG'S HISTORICAL MUSEUM

1 and 2—Corners in the Hudson's Bay Company's historical museum at Winnipeg. 3—An old-fashioned turn-spit, on which for many years the roasts were cooked at the H.B.C. port at York Factory. 4—A model of the "Nonsuch," the ship that brought the first H.B.C. adventurers to Canada.

FOR a comparatively young city, Winnipeg has many points of interest. None is more worthy of a visit than the historical museum that has there been established by the Hudson's Bay Company. The great company's history is the history of Canada's West, and no institution is better equipped to present the earliest history of that land in the manner that the Hudson's Bay Company has chosen. The value of museums as an educational agency is now only beginning to be more generally realized. What book or series of books could give so comprehensive, so vivid or so unforgettably correct a view of the world's past ages as a few days spent among the treasures of the British Museum. The idea grows in Canada as educational facilities grow. McGill University has its fine museum and the Royal Ontario Museum at Toronto, it will surprise many to know, is one of the world's finest. Its already splendid buildings, soon to be enlarged, is overcrowded with a wonderful store of historic treasures which visiting scholars from abroad never fail to visit. The object of the Winnipeg exhibit is to depict by means of relics, pictures, documents, models, etc., the history of the Hudson's Bay Company, the life of the fur trade, the story of the pioneer settlers and the customs, dress and industries of the

aboriginal tribe. The exhibit is at present set up at the company's store at Winnipeg, and while not nearly as large as it may be expected to become, already occupies a series of rooms in that establishment. The following principal divisions of the exhibit have been made for convenience: Early History, Furs, Indians, Life in the Service, Fights, Posts, and Stores, Fights and Wars, Land and Settlement. From the time the natives of Hudson Bay welcomed the first H. B. C. ship in 1688 the Company has been on intimate and friendly terms with the Indians, and the exhibit of Indian relics will thus be of unique interest. This will be of all the greater value since Indian skill in handicraft is even now almost only a memory of past days. The other sections of the museum will tell the tale of the entry of the white man into the West, and the up-building of isolated trading posts that have become important and fast growing cities. The photographs reproduced herewith give an excellent idea of the splendid beginning this exhibit has made. One item of particular interest is the splendidly built model of the "Nonsuch Ketch," the first Hudson's Bay Company ship to arrive in Canadian waters. Prince Rupert and associated outfitting two ships, the "Eagle" and the "Nonsuch." These ships sailed from Gravesend, on the

Thames, near London, in June, 1668. The "Eagle" turned back from a point near Hudson Strait, but the "Nonsuch" proceeded and on September 29th, 1668, anchored in the South of James Bay. Then there a fort was built and named Fort Charles, and the river flowing into the Bay was named Rupert's River. Owing to the cargo of furs brought back by the "Nonsuch" in the summer of 1669, a charter for trading rights was applied for and resulted in the charter granted by King Charles the Second, on May 2nd, 1670, to Prince Rupert and his associates forming the "Governor and Company of Adventurers of England Trading into Hudson's Bay." And thus began the great Company. The exhibit includes a large number of important and exceedingly interesting documents and maps, as well as a large collection of tools, household utensils, and weapons of by-gone days. The later history of Western Canada is the history of the Canadian Pacific Railway, the building of which resulted in the creation of a nation west of the Great Lakes, and these two great institutions are still at work at their task of nation building, and preserving the history of Canada's past. The Canadian Pacific has also established an historic museum at Lake Windermere, B.C., in memory of David Thompson, the explorer of the Rockies.
