Suburban Road Commission Plan To Spend \$24,500 on Three Roads Running to the City This Year

These Will Be Martindale, Niagara Street and the Pelham Road, and it is Proposed to Issue Debentures of \$30,000 For the Merrittville Road Improvements

The Suburban Road Commissioners of St. Catharines, W. B. Burgoyne, Chairman, H. Moyer and A. H. Trapnell, met upon Lincoln County Council yesterday afternoon and laid before the councillors plans of what work they intend to do this present year. A mill on the city's assessment of fifteen million dollars is at the disposal of the Suburban Commission to spend on roads in the county leading into the city.

Last year the Commission built a concrete road from St. Catharines city line on Ontario street, to Port Colborne.

W. B. Burgoyne, the chairman, who made the report, stated that this year he proposed to spend \$24,500 on three roads, the Pelham road, three miles to the county line, for \$11,250; Niagara street, from the city to the shore two and a half miles \$4,750; and Martindale Road from the city to Lake shore \$4,500, with \$2,000 contingencies.

The plan is to build macadam roads which can afterwards form the foundation for some other material as these roads now have a stone foundation.

It is proposed, Mr. Burgoyne stated, to spend \$30,000 on the Merrittville road to the south of the city. This would be outside the Commission's spending allowance, and if such work is undertaken debentures will have to be issued.

Reve Revett of Niagara Township inquired why the road leading into the city from Niagara on the Lake was not included in the suburban road system and was told that it had not as yet been considered.

Commissioner Moyer pointed out that the present conference included St. Catharines City Council and he asked Aldermen E. C. Graves, A. J. Veale and H. E. Rose who were present, to state their views.

Ald. Graves said the \$24,500 expenditure was unavoidable but he did not see how in view of the tight money situation it would be possible to issue debentures for the proposed Merrittville road improvement. He said every city in Canada is in a similar position. He feared that outside the half mill the city was obligated to pay on suburban roads St. Catharines could do nothing this year.

Ald. Rose seconded this sentiment very strongly, and the county council after accepting the \$24,500 part of the report named a committee composed of Warden Garlett and Reeve Kemp, Westland and Lane to confer with the City Council finance committee on the Merrittville road proposition.

A deputation headed by J. D. Chaplin, M.P., asked the County Council to finish up the Lake Shore road commenced last year.

Warden Garlett explained that this road had not been included in last year's program for permanent road system work and had been started by mistake. It would however be completed as soon as possible, Westland Woodruff, A. C. Gregory and A. Craise also spoke on the question being part of the delegation.

60 NEW CASES OF FLU REPORTED YESTERDAY

Apparently the peak of the Spanish flu epidemic has not yet been reached in St. Catharines. Already several hundred cases have been reported and today the reports of new cases were coming in thick and fast.

Yesterday sixty cases were reported, which is the highest number so far this year, and

Health Inspector Bonham told The Journal that he feared today's record would beat that of yesterday easily.

When it is considered that a good many people are suffering from the flu and are not being attended by a doctor, it gives some idea of how many cases of the disease there are in the city.

First Link in Highway System Of Province

Includes Hamilton - Guelph Owen Sound Road—This is Assurance of Hon. F. C. Biggs.

TORONTO, Feb. 26.—The Hamilton-Guelph-Owen Sound road will be one of the first highways taken over by the province as part of the provincial highways system, according to an assurance given by Hon. F. C. Biggs, to a large deputation of representatives of the municipalities interested. The road in question is roughly 110 miles in length and is now classed as a provincial county road, to which the municipalities contribute 40 per cent, and the province 60. If it is taken over under the new scheme made possible by the federal grant, the municipalities along the line will pay only 20 per cent of the cost.

Government's Policy. Despite statements made with more or less authority that the Ontario government will embark upon an ambitious program of good roads construction, there is reason to believe that Hon. Dr. Drury and his ministers are beginning to question the advisability of such a plan. Today the premier, addressing a big good roads deputation from Perry Sound, flatly declared that the government was putting into effect a policy of avoiding capital expenditure wherever possible and therefore could promise nothing for a few years.

"The policy of the government which will be followed in all departments will be to build up a surplus so that in the time to come, when prices come down, when it will be necessary to provide labor, we will be in a position to go ahead and get full value for our money. A dollar spent today gives us but 40 cents of value compared with what it will give us in three or four years. We must conserve our resources until then."

Ed. Stephenson Issues Challenge To Prest. Flynn

Ed. Stephenson, independent soldier candidate in the Halton by-election, has issued a challenge to President Flynn of the U. V. L. to debate the ethics of the latter's attitude in the by-election. He suggests that the debate take place in Massey Hall on Saturday night, and stipulates that the audience be restricted to returned soldiers, irrespective of their organization connections, that, in view of his physical state he be assured "a patient hearing," and that the verdict be left to the audience.

Virgin Islands Affairs Pitiful

Senator Says Bolshevism, Poverty, Immortality and Disease Reign in Colony Recently Bought by U.S.

WASHINGTON, Feb. 25.—The United States has a man's sized mandate to carry out in its own recently acquired Virgin Islands in the West Indies, before it undertakes the tutelage of the inhabitants of Constantinople, or Timbucto, according to Senator Kenyon, Iowa.

Senator Kenyon was the head of a joint congressional committee which has just returned from a visit to the Virgin Islands, where they found disease, poverty, immortality and Bolshevism rampant among the islanders, ninety-seven per cent of whom are negroes, he said.

Economically, the United States bought a "sucking orange" for \$25,000,000 when it purchased the Virgin Islands from Denmark, but they have an incalculable strategic value in commanding sea routes and the east approach to the Panama canal, according to Senator Kenyon. It is costing the United States about two hundred thousand dollars a year to give them a government.

A large part of the population gained its livelihood through the coaling of vessels at St. Thomas. Recently, however, the shipping board has been having its ships coal at Barbados, because it was cheaper. Senator Kenyon said unless coaling at St. Thomas was restored at once a considerable number of the inhabitants would be destitute and it would be necessary to send a ship load of rations to relieve them.

The joint committee will urge Congress to enact a new code of laws to displace the old Danish laws now in force in the islands. Senator Kenyon did not believe that the islanders are ready for civil government and warmly praised the administration of the American naval officers now in charge of the islands.

TO THE GRAVE.

A large number of sympathizing friends attended the funeral of Dorothy Elizabeth, wife of Lieut. H. G. Fairfield, who passed away at Winnipeg on Feb. 20th last, which took place from the residence of G. H. Fairfield, 110 Church street on Wednesday afternoon. Rev. A. W. Howitt, rector of St. Thomas' Church, conducted the service and was assisted by Rev. Dr. Martin, pastor of St. Paul Street Methodist Church, the former clergyman speaking from St. Paul's words: "I beseech you that you sorrow not as men without hope." Those who acted as bearers and conveyed the remains amid many and beautiful flowers to the plot in Victoria Lawn cemetery, were: Ingram Price, Donald Adie, Roland Madill, Milton Mills, Leighton Erskin and Heber Mulock.

Some Interesting Facts Gathered By the C. of C.

The survey taken of the Colleague has revealed some interesting and worth while facts. The whole shows constructive community thinking and there are some things suggested that might well have a place on the program of work of the new body.

Engineering as a profession seems to largely attract the boys and doubtless this accounts for the demand in some quarters for a Technical School where preparation for this life work might be made.

Teaching and stenography are prime favorites with the girls and nursing follows as a choice. The present situation in this respect may have some thing to do with this desire to be of service.

Regarding the question of whether or not the pupils will leave the city or stay on in after years the verdict seems to be in favor of staying. The spirit of a city largely determines this and it is highly creditable to St. Catharines that only a small percentage should express themselves as likely to leave.

In some cities in Ontario the percentage of pupils openly meaning to leave the town at the earliest opportunity was as high as 65 per cent, and their reasons bluntly stated "No opportunities—dead town," and it is noteworthy that in these cities inside one year the Chamber of Commerce has been able to develop a new spirit that has found its best expression in recreational facilities and educational expansion.

The attached chart will show in figures the results obtained from the questionnaires by the specialist and are of great interest to parents generally.

Theft of Three Cases of Booze At Grimsby Results in the Arrest of a Grimsby Man

"Dug" Brown of Grimsby and a man by the name of Daniels, were taken into custody in connection with the robbery two weeks ago of three cases of whiskey from the Canadian Express office. Brown was arrested at his home on Robinson street north shortly after twelve o'clock by Chief of Police Konkle and Detective Smith of Toronto, while Daniels was apprehended at the farm of Walter Grant in South Grimsby late in the evening.

Brown is charged with burglary, or shop-breaking and Daniels is charged with receiving stolen property.

About four o'clock the officers left for South Grimsby and visited the farm of Walter Grant. What they found there when they searched, or if they found anything is not known. Daniels, who is Grant's hired man, was taken into custody for receiving stolen property and taken to Grimsby and locked up.

Rumors and unfounded stories of all kinds were running rampant on Tuesday, but no confirmation of any of them could be obtained. At one time the number of people implicated in the affair, according to the stories, would have totalled up into the hundreds.

LANTERN ADDRESS.

A successful gathering of the Engineers of the Niagara Peninsula is assured for the dinner and lecture at the Welland House on Friday evening at 7.30 o'clock. About one hundred of the Engineers and others interested in the lantern address of Mr. John Murphy on "A Trip to Panama Canal During Construction and San Francisco's Celebration of the Opening of the Panama," will attend. The lantern views are hand-colored works of art showing illuminations and other features that are well worth seeing. Members of the Canadian Club and other citizens are cordially invited to be present at the dinner. Tickets for the dinner may be procured at the Welland House.

DEATH OF MRS. SERVOS.

There passed away in the Township of Grantham on Wednesday morning, February 25th, Euphemia Magdeline, beloved wife of Peter Servos, in the 72nd year of her age. Deceased was taken ill about two weeks ago with pneumonia, and when she was considered out of danger, heart trouble developed and she passed peacefully away. The late Mrs. Servos, who was a daughter of the late Mr. and Mrs. Whitmore, the former an enthusiastic member of the United Empire Loyalists, was born in the vicinity where she passed away. She was for many years a member of Christ Church at McNab, and for many years previous to her marriage she filled the position as organist. Beside her sorrowing husband, she is survived by two sisters, Mrs. (Rev.) Alexander Dawson, Toronto, and Mrs. Samuel James, of Grantham township. The funeral will be held on Saturday afternoon at Christ Church, McNab, where the service will be conducted, after which the remains will be placed in the church cemetery.

THE WEATHER.

TORONTO, Feb. 26.—The important disturbance which was south of the Bay of Fundy yesterday morning has now reached New Foundland. It has caused another very heavy gale in the Maritime Provinces attended by snow and rain. Elsewhere in Canada except in Eastern Quebec where snow has fallen, the weather has been fair and for the most part quite cold.

FORECASTS—Fresh north westerly winds, fair and continued cold today and on Friday.

GERMAN EXCHANGE BODY SAYS COUNTRY CANNOT MEET ITS OBLIGATIONS

LONDON, Feb. 25.—The German exchange commission, in its report on economic conditions, says that "Germany no longer possesses the means to pay other countries" according to an Exchange Telegraph despatch from Berlin.

The commission advocates an appeal to the Allied reparations committee. Berlin newspapers put the headline "on the verge of precipice" upon their editorial comment, the despatch says.

Measures to Be Introduced at Queen's Park

TORONTO, Feb. 26.—Among the Government measures to be put forward by the Drury government this session will be the Superannuation act, classification of the civil service, amendments to the Workmen's Compensation act, mothers' pension amendments to the Succession Duties act, and legislation for a provincial income tax. There will be amendments to the Ontario Temperance Act.

A number of old civil servants, will be superannuated. It is reported that the succession duties on estates from one hundred thousand dollars on will be doubled, and these smaller estates increased. Under the income tax the government hopes to secure for the province a share in the big incomes.

Hair Flies As Women Have Row!

CHICAGO, Feb. 26.—"You vamp! I'll teach you to walk out with my husband!"

In another minute ringside seats were at a premium as the noon-day loop crowds gathered to watch Mrs. Leo Lefly "teach" Mrs. Eleanor Sharpe, a dressmaker, the reasons for not going to lunch with other people's husbands. Lefly, a department store shoe buyer, stood meekly by, abashed.

The words, fists and fingernails flew fast and furious. Both ladies lost their hats and then hair began to fly. Anglo-Saxon methods of combat were forgotten and the methods of the old Latin school came into play. Between blows, jabs and scratches a verbal battle something like this was indulged in: "You did!" "I didn't!" "You're a..." "You're another."

A mounted policeman galloped up and forced his way to the ring. "Ladies," he pleaded, "remember there are gentlemen present." Force followed pleading, and the trio was carted to a dock-up in a taxicab, where they were all booked and in a few days will finish the battle before a judge.

THE IN-RUSH OF NEWCOMERS
 (Toronto, Star.)

Two experienced Western farmers have been sent to England to act as a Board of Selection in the case of Imperial ex-soldiers who desire to come to Canada to farm. They will select those who seem likely to succeed as farmers in this country. One would say that not only experience in farming but prophetic insight would be required for this job. One result of this arrangement is that it shifts the initiative and the heft of the responsibility from the emigrant to the country that invites and advises him.

That there will be a very large movement of population from Great Britain to Canada is already certain, and in another month the movement will have set in. It is said that there is a constant stream of applicants at the Ontario Government offices in London, and that the agencies of all the other Provinces are equally busy. The Dominion agencies and the offices of the C. P. R. are dealing with large numbers of enquirers every day. The man who advertises a Canadian farm for sale in the London papers gets a sheaf of replies.

Last year Canada had 114,000 immigrants, 54,000 of whom came from Great Britain and 52,000 from the United States—the two best sources from which this country can draw population. But a movement from the British Isles to this country, larger than any heretofore known, is about to set in, and among the newcomers will be many with sufficient capital to purchase the best of farms in the old established districts.

So large may be the influx of newcomers that extraordinary preparations for handling their interests are called for on the part of both the Federal and Provincial authorities. The new comer without capital requires advice and direction quite as much, if not more, but is less grateful for it.

INCREASE IN NUMBER OF MURDERERS MAKES NEW DEATH HOUSE NECESSARY
 OSSINING, Feb. 25.—Sing Sing will have a new death house. Prisoners awaiting execution for murder will aid in the building of their own hospital, kitchen and dental parlors. The increased number of murderers at the prison recently is responsible for the decision to erect a new death house, it is said.

SIX MILLION JEWS NEAR STARVATION

Cold and Disease Add to Sufferings of Destitute Peasants of Poland.

Eastern Europe is the only part of the world to-day that really understands the meaning of conservation. In the grimness of the world, according to reports brought back to the American Jewish Relief Committee by relief workers recently returned from these stricken lands.

Not a particle is wasted of any of the relief supplies sent from America by the Joint Distribution Committee of American Funds for Jewish War Sufferers or by other organizations. Garbage cans and dump heaps are naturally unknown quantities in a region where 6,000,000 Jews—men, women, and children—are at the point of starvation. Typical of the extreme thoroughness with which these people utilize everything to-day was the use recently made of a shipment of flour, sent to eastern Europe by American Jewish relief agencies. The flour itself was used to feed destitute Jews at the soup kitchens. White bread is a luxury in these lands to-day, the taste of it forgotten by the poor, and none of the flour sent from America is made into bread as yet. It goes farther stirred into the soup issued at the Jewish relief stations.

In order to make sure that not one atom of the flour was being wasted, the seams were ripped from the sacks, which were then shaken over the soup receptacles. The next thing put to use was the cloth of the sacks themselves. There is practically no cotton or linen in eastern Europe to-day, and every scrap of cloth is put to use.

In this particular case, the sacks were needed both as shrouds for the dead, and as cloths in the operating rooms of the hospital. A part of them was devoted to each purpose. Both shrouds and bandages in eastern Europe to-day have to be made by sewing hundreds of tiny bits of used cloth together, so these flour sacks proved a godsend.

MOTHERS WATCH CHILDREN STARVE

Lack of Clothing Adds to Suffering Among Jewish Residents of Poland.

The patient resignation with which a mother in Poland accepts what the fates have in store for her children who frequently die of starvation before her eyes, is one of the things that leaves a lasting impression on relief workers there.

Jacob Sabin, who has just returned from abroad, where he had charge of a relief unit for the Joint Distribution Committee, which distributes funds raised by the American Jewish Relief Committee and other bodies, said that food is distributed to the children in Lodz on a ration basis, and that where the small folks were unable to appear in person because of lack of clothing or illness from the "starvation sickness," the allotment was given to the mother. On one occasion a little woman with great hunger-appealing eyes, asked for four rations. The following day she appeared again and asked for only two.

JEWS STARVING IN JERUSALEM

Terrible Destitution Caused by Lack of Employment and Shortage of Food.

The street cleaners of Jerusalem form a picturesque but pathetic testimony to the terrible destitution of the Jews of that ancient city, according to the latest reports received by the Canadian Jewish War Relief Committee from relief workers abroad.

The problem of employment is so great in Jerusalem that it is almost impossible to find work in the natural way. For this reason, the Joint Distribution Committee of Funds for Jewish Sufferers from the War hired fifty of the most poverty-stricken Jews who applied to them for aid, to clean the streets in the Jewish quarter. The youngest of these street cleaners is fourteen years old. Seven of the street cleaners are between seventy and eighty years old, and eighteen more are between sixty and seventy years old. None of them have adequate clothing or food.

Leave Turks Alone Or Strip Up All India, Is Montagu's Plea
 Says if Taking of Constantinople from Turkey is Result of War, Then Britain Should Not Have Asked Indians to Fight Turks.

LONDON, Feb. 25.—The Right Hon. E. S. Montagu, Secretary for India in a statement to The Evening Standard on the question of turning the Ottoman Government out of Constantinople, said that if the taking of Constantinople from the Turk was to be a necessary result of the war, "I respectfully suggest that you ought not to have asked the Indians to take part in the war against Turkey."

The Secretary considers that India's wishes should be consulted in the matter, particularly as Indian soldiers and material played a prominent part in the response to the Empire's needs.

Essential to Peace
 "From one end of India to another," he declared, "all those who have expressed an opinion on this subject, of whatever race or creed believe that non interference with the seat of the Caliphate is indispensable to the internal and external peace of India."

Mr. Montagu is of the opinion that the rumor, which has spread rapidly that Turkey was to be destroyed and deprived of its Capital has been one of the prime causes of the recent Armenian massacres.

Relief In India.
 "The authoritative pronouncement of the war aims made when Turkey was really being beaten," continued the Secretary, "was construed as a modification of the threats following the failure of the Gallipoli campaign and was hailed with high relief from one end of India to another."

A NEW VERSION
 From Glasgow comes a story about some American sailors who were trying to make Scotland dry by consuming, in company with some British Jackies, all the available liquor. One of the Americans wore a small edition of the Stars and Stripes.

"What's that?" inquired one of the British contingent, pointing to the flag.

"The prettiest banner in the world."

"What are all those stars for?"

"Each of them stands for a State in the Union."

The British studied the flag for a minute, and finally announced: "There's something wrong with that flag. There's one star missing."

"What star is that?" asked the American.

"The Mons Star," was the reply.

The conversation turned to the wonders of nature, and one Scotsman began to boast about the remarkable echoes to be found in the Scottish mountains.

"They're not much," said one of the Americans. "In our Western States we have mountains so high that when a horn is blown the bugler can come back four days afterwards and find the sound still knocking back and forth between them."

"That's nothing," replied the Scotsman. "There was a bugle blown over here in 1914 and you didn't hear the echo over there till three years later."

The Manitoba Trustees' Association will ask the Dominion Government to set aside November 11 of each year as a National Thanksgiving Day.

Not a Bite of Breakfast Until You Drink Water
 Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. The period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

A Forceful Man.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth.

In all the various departments the same rate of growth has been recorded. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the

CIVIC DINNER

Thursday, 26th February

Im "The Welland" at 7.30 O'clock

What Dr. Garland Says

"There is a new spirit in our city. The spirit of helpfulness. The Department of Public Welfare is a community expression of this spirit. We feel that a city has a heart as well as a body; that it is a spiritual entity as well as a physical organism. We have a long way to go to reach the ideal city. It lies far ahead, but it is a goal worth striving for; a city of throbbing life, of light and joy, of health and happiness where human justice and common good are ever the highest objects of of human aspiration and hope."

SMOKE SIGNALS TO MARS

BRYN MAWR, Pa., Feb. 25.—Use of the United States Government's surplus of smoke making material left over from the war in signalling Mars was suggested today by James J. Greshaw, associate professor of chemistry at Bryn Mawr College, who served in the chemical warfare section of the American Expeditionary Forces.

Smoke screens hundreds of miles in width, he believes, would be more likely to be discerned by possible Martians than the geometrical designs which Sir Oliver Lodge suggested be laid out on the Sahara desert. Professor Greshaw advocated covering an area as big as the state of Pennsylvania with either black or white smoke, and believes it would be possible to make the

spot appear and disappear by regulating the flow of smoke. This could be repeated as often as the smoke could be cleared by the wind.

Announcing Red Rose Orange Pekoe Tea

During our twenty-five years in business, Canada has made wonderful progress in education, refinement and wealth.

The scale of living and the tastes of the people are more luxurious than a quarter of a century ago.

Realizing this we have decided that—in addition to our well-known standard brands, of Red Rose Tea, the sales of which are increasing faster than ever before—the time is opportune to introduce a tea of extra quality. It is an Orange Pekoe Tea of very fine quality under the popular Red Rose brand, and called Red Rose Orange Pekoe Tea—a special tea of extra quality for people who are willing to pay a little extra price.

To ensure the quality and success of this new tea we have concentrated on it all the resources, the experience and the advantages possessed by our big organization.

The Orange Pekoe Teas we use are selected with a knowledge born of long experience in buying teas abroad.

Red Rose Orange Pekoes are grown on the best plantations;—from tested seed;—on carefully cultivated soil;—at a high elevation (mountain

grown teas are very superior to low-land teas.)

They are gathered at the time of the year when the flavor is most fully developed in the leaves.

The manufacture and final preparation are carefully and skilfully done.

When brewed, Red Rose Orange Pekoe Tea has all the characteristics of fine quality tea.

It has a bright, sparkling amber color in the cup.

The aroma is delicate and delightful.

After the liquid is poured off, the leaves in the pot are a greenish copper color.

The flavor is of rare charm and distinction. The more cultivated your taste the more you will appreciate it.

The strength is rich, satisfying and invigorating.

Red Rose Orange Pekoe Tea is sold only in our sealed waxed board cartons which fully protect its fine quality.

Ask for it by the full name: Red Rose Orange Pekoe Tea. The words "Orange Pekoe" are in orange on our new waxed board cartons.

Our well-known Red Rose package, the sale of which is increasing faster than before. Red Rose consists chiefly of A. 1. teas, the richest and strongest in the world and therefore very economical.

(The Red Rose Orange Pekoe package is a little different in design.)

Mountain grown Orange Pekoes from the best plantations. A tea of extra quality at a little extra price.

PRETTY! TURN GRAY HAIR DARK

Try GrandMother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is a messy and troublesome, nowadays, by asking any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.

WOULD RETIRE THEM AT FIFTY OR SIXTY YEARS

OTTAWA, Feb. 25.—For the past few days a rumor has been travelling through the civic service that the Civil Service Commission is working on a plan, which, when completed will provide that all women over the age of sixty in the service shall automatically be retired.

Moreover, it is stated that the plan proposes that for the future all civil servants shall automatically be retired when they reach this age.

SIX MILLION JEWS ARE FACING DEATH

Starvation and Disease Cause Indescribable Suffering in Eastern Europe.

The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes, according to Lieutenant Shelton Wright of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.

He painted a vivid picture of this half-starved people, clad in rags, who are now creeping back toward their devastated homes after months of refugee wandering, and dying of starvation and typhus along the roads, as they go.

"Outside starvation, numerous diseases, attributed to malnutrition and typhus have killed men and women and children like flies," he said. "I remember a family trying to live under an over-turned wagon by the roadside. The mother was dead under a tree a few yards away—she had been dead for days. The father was stretched upon the ground dying of typhus. He died that day. Under the wagon were two little children, both under five, sick with typhus. An older child sat stupidly beside them—a girl driven out of her mind."

Many of the people are driven to making "bread" out of leaves and bark, and "soup" out of grass and water, Lieutenant Wright reported. There was unspeakable joy among them when the American ships, loaded with relief supplies purchased with the funds raised by the American Jewish Relief Committee and other American Jewish agencies, and American and Canadian Red Cross supplies were unloaded at Danzig and other ports. In spite of the fact that the American Jewish Relief agencies are spending almost \$2,000,000 a month now on their relief work in Poland, and that the Red Cross is doing its work on so vast a scale, hundreds of thousands of Jews and Poles will die during the winter unless more aid comes.

"Every box-car full of refugees returning to their homes has in it those who die along the way, and those who have contracted typhus," Lieutenant Wright said. "The people try to avoid disease by keeping clean, but it is impossible to do so, under existing conditions. Even our nurses and doctors fall ill of typhus, a disease caused by filth and lice."

The Red Cross and the American Jewish Relief agencies are doing their utmost to keep both the Jews and the Gentiles in these stricken lands alive. Six million Jews in eastern Europe face death unless immediate shipments of food, clothing, and bedding from Canada and the United States reach them before the cold weather sets in.

An appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.

MOBS OF CHILDREN CRAWLING FOR BREAD

Gaze Into Bakeshop Windows for Hours at a Time, Hoping for Something to Eat.

"The saddest thing in all Eastern Europe at the present moment—worse than all the other instances of starvation and even of death and disease on every hand—are the mobs of children who are outside of the few bakeries that are able to keep going in Warsaw," Shalom Asch, the famous Yiddish playwright and poet reported to the American Jewish Relief Committee upon his return from Eastern Europe, where he went as a commissioner of the Joint Distribution Committee of American funds for Jewish sufferers from the war.

"In the bakery windows are a few loaves of bread, and sometimes cakes, that are sold at a simply prohibitive price," he explained, "and even if these were as cheap as in Canada and the United States, their taste would still be unknown to the hungry Jewish children, who live on the cup of soup a day they get from American Jewish relief agencies. But the youngsters, tantalized themselves with the sight of food, when they cannot get the taste of it.

"They press up to the window, and at first merely stare respectfully at the bread, an uneasy little crew of gaunt small folks with old faces and suffering unchildish eyes. Perhaps it is raining, or the wind is blowing coldly through the lattices that they wear that little barefoot army, but they huddle together for warmth, and do not stir. The sight of the bread has fascinated them, it is so rarely seen.

"A customer comes out, leaving the door ajar for a moment, and the warm fragrance of the bake-shop drifts out to the little ragamuffins, maddening them. They press closer to the window, their thin little faces against the glass. Those in front put out their tongues and lick the glass, and by so doing they cool it to the bread behind it. No poet could ever write into words the wistfulness of their faces as they do it.

"One of the men from the bakery comes out and drives them away every few minutes, else they would break the glass. They are afraid of him, and for a few minutes they stand at a distance, their eyes still upon the bread. Then hunger overcomes their fear, and they press up to the bakery window again. Soon they are eagerly licking the glass once more. And this goes on all day every day in front of the bakery window."

More money is needed to help feed these children, and an appeal soon is to be made in Canada for that purpose.

DESTITUION IN EUROPE TERRIBLE

Long Processions of Starving, Ill-Clad Children Seen Daily on the Streets.

Long processions of little Jewish children in Eastern Europe, bearing their tin cups in their hands, daily walk from their villages to the nearest town in which there is a Jewish relief station, according to relief workers in these stricken lands, sometimes journeying five or six miles in order to get the cup of soup with a piece of hardiack, or the mug of milk which is often their sole food of the day.

These tin-cup processions emphasize, as nothing else could do, the relief workers say, the terrible destitution of the Jews in Eastern Europe at present. The children in them are barefoot, almost without exception.

Reports received by the Canadian Jewish War Relief Committee say that both boys and girls are wrapped in burlap, or dressed in clothing made from the sacks in which the relief supplies have come, or in the rags which they have worn during the five years of the war, their gaunt little bodies showing through the tatters. They do not walk as children usually do, without effort, but drag themselves along wearily, and hopelessly, like tired little ghosts condemned to move in hungry processions throughout eternity.

At the relief station, the children are so tired and so weak that they sit down upon the pavements to await their turn in line. Upon the faces of every one of them there is an expression of unchildlike anxiety. It has to do with the only really vital question in the world to them—whether or not the soup or milk will hold out until their turn comes. Every day some of them have to be turned away without food, since their numbers are so great that the funds at present on hand are not always sufficient to care for them all.

MILLION CHILDREN ARE CLAD IN RAGS

Their Wasted Bodies Show Thru Tatters, Result of Starvation and Misery.

The art of making two dowers bloom where only one bloomed before isn't half so hard as that of making two garments exist where only one existed before; yet even this can be accomplished, according to reports recently received by the Canadian Jewish War Relief Committee from relief workers abroad.

Cloth of any kind, either cotton or wool, is particularly impossible to obtain in Eastern Europe, except at prohibitive prices. A round million little Jewish children in these unhappy lands are clad in the rags that they have worn all through the war, their wasted little bodies showing through great tatters. Some of these children are still sleeping on the streets, since there are at present neither orphanages nor funds for all.

Miss Harriet B. Lowenstein, of New York, sent to Europe as a commissioner of the Joint Distribution Committee of American funds for Jewish War sufferers, has reported to purchase more than a cartload of pajamas from the salvage department of the American army in France. These were sent to Eastern Europe, and in the workrooms opened there were made over into clothing for children.

Each pair of pajamas made at least two Russian blouse suits for little boys it was reported. The larger pieces left over in the cutting were used for the cloths that the children of Eastern Europe bind around their feet in lieu of shoes.

MILLION PAIRS OF SHOES ARE NEEDED

Destitute Jewish Children of Eastern Europe Use Rags to Protect Feet From the Cold.

A million pairs of shoes are needed by the destitute Jewish children of Eastern Europe to-day, according to reports received by the Canadian Jewish War Relief Committee from relief workers abroad.

At least that many of the helpless and hungry Jewish youngsters of Eastern Europe are absolutely without footwear of any kind, their relief agents say. Thousands of others have rags sewn around their feet in lieu of shoes.

Several cartloads of shoes that formerly belonged to Allied soldiers in France were purchased there by the Joint Distribution Committee of Funds for Jewish Sufferers from the War for the Jewish women of Eastern Europe. But it was impossible to buy the shoes in sizes that could be worn by the children, and all others sold in Europe are at a prohibitive price. So a million youngsters are barefoot during the hard winter of Eastern Europe.

SAYS HE BROKE WITH BOLO

Former Premier of France Says He Thought Bolo Innocent.

PARIS, Feb. 25.—The examination of former Premier Joseph Caillaux, on trial before the Senate, sitting as a high court, on the charge of having had treasonable dealings with the Germans, and conspiring to bring about a dishonorable peace was resumed today. The questions dealt with the relations of H. Caillaux with Bolo Pasha, executed at Vincennes in April, 1918, after being convicted of treason, and Pierre Lenoir, executed in October, 1919, on being found guilty of having held intelligence with the enemy.

M. Caillaux explained that he thought Bolo Pasha innocent until certain telegrams from the U.S. were published. Then, he testified, he broke off all relations with Bolo.

PILFERING ON RAILWAYS

In view of the considerable losses incurred through pilfering and careless handling of goods in transit, losses which amount in a year to close on three million dollars, the Canadian Railways have recently been conducting an active campaign against such robberies, not only in their own interests but also to protect the merchants and shippers who naturally suffer great inconvenience even though the losses may be made good. The loss of portions of a shipment frequently renders the balance of a shipment useless or depreciates its value, and affects the business of the merchant. As a result of this campaign, the C.P.R. for instance, have recently brought into court and secured convictions against several offenders. Thus at Ottawa, Ambrose Milks, a teamster of a transport Co. was sentenced to twelve months' imprisonment for breaking into a freight car and stealing a case of gin, while at McAdam Junction three men were condemned to five years penitentiary, two years penitentiary and four years reformatory, respectively, for a series of thefts from freight cars involving many consignments of considerable value.

The subject of pilfering on railways has been taken up in England by the National Union of Railwaymen, which has recently circulated its branches, pointing out the moral obligation that devolves upon them to check the practice and help to remove the stigma which threatens their prestige. The branches have responded very favourably to this appeal, with beneficial results.

EVENS IS FOUND GUILTY

WINNIPEG, Feb. 25.—William Evens, one of the seven accused strike leaders, was found guilty by the full court of King's Bench on a charge of contempt of court and was bound over to keep the peace for three months on \$2,000 security yesterday. Chief Justice Mathers in handing down the decision said that the accused had been bound over to keep the peace so as not to hamper the defence in the trial of the strike leaders on charges of seditious conspiracy.

Farm and Country Life in Canada

FARMING is a basic industry in Canada. From the first days of its publication, The Globe has always strongly advocated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, The Globe, by example and precept, showed what could be done.

The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place pure-bred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of The Globe.

The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

The Globe believes that one of the best ways of teaching a man is to show him what his neighbor is doing. This is the policy The Globe adopts in its Farm Department. Two members of The Globe staff devote their whole time to the collection of material for this Department and in so doing spend several days each week in the country. They visit good farms all over Ontario and attend Fairs and Conventions. They report all developments in rural life as reflected in these gatherings as well as in the personal experience of successful farmers. Through its "Farm and Country Life" Section, The Globe has identified itself with every movement calculated to improve.

This is why The Globe should have a place in every Farm Home in Ontario.

Children in War - Scared Europe Never Even Hear the Birds Sing.

When you grinned at the six-year-
old son of the house romping in the
yard with his dog, or watched his
small sister carefully dividing her at-
tention between ribbon bows for the
house "abby" and the robin on the
lawn, did it ever occur to you that
somewhere in the world there are lit-
tle folks of the same age who have
never seen a dog nor a cat nor heard
a bird sing. Yet, there are some
hundreds of thousands of youngsters
in war-stricken Europe today who
are ignorant of the existence of the
furled and feathered creatures which
help to make a Canadian kiddie's day
white.

Jewish relief workers who have re-
turned from the Eastern and Central
European countries cite the absence
of domestic animals and birds to il-
lustrate the desolate barrenness of
the countries swept again
and again by the warring armies for
nearly five years. Jacob Bashein, who
had charge of a unit for the Joint
Distribution Committee, the sole
agency disbursing relief funds raised
by the Canadian Jewish Relief Com-
mittee, the Central Committee for Relief
of the Jewish People's Relief Com-
mittee, has described the conditions
there.

"In that bare stretch of country
where there are scarcely any trees,
habitations other than the miser-
able dug-outs in which returned refu-
gees exist—the 'no man's land' of
Poland—we did not see a single cat
or dog, and in all the time we were
there, not a single bird was seen.
Animals, even domestic animals, were left
there. So there are children to-day
of five or six years of age who have
never seen a dog nor a cat and have
never heard the singing of a bird!"

DESTITUTE JEWS HAVE NO HOUSES

Six Million Unfortunates
Compelled to Use Packing
Cases, Cans and Sacks.

Patterning on the block houses
that children build, the destitute
Jewish refugees of Eastern Europe,
who have been displaced and driven
during the war, are trying to solve
their housing problem with the pack-
ing boxes in which relief supplies
have been sent to them, according to
reports received by the Canadian Jew-
ish War Relief Committee from relief
workers abroad.

Not only is every particle of food
and clothing used to the utmost ad-
vantage in these stricken lands where
6,000,000 Jews are at the point of
starvation, but the cans and sacks
and wrapping cases in which the food
and clothing come are made to do
duty as well. There is neither lumber
or nails in most of the countries
of eastern Europe at present, and
the packing boxes are handled as if
they were the most precious things
transported by the convoys. The
shippers arrive. Not a nail is
allowed to go to waste, when the
boxes are taken carefully apart.

All over eastern Europe at present
men, women, and children, many
of them sick with typhus, are living
in cellars, in derelict houses, in
old freight cars, on roofless plat-
forms, open to the wind, or in fields,
unprotected by the elements. The
clothing of these destitute Jews, con-
sisting for the most part of the rags
that they have worn for the five
years of the war, afford them little
warmth.

For this reason, the packing boxes,
which might not be considered par-
ticularly luxurious homes at another
time, are reckoned as life-savers just
now. Boards from them are used to
re-build broken houses, and even to
make lean-to shelters where no
building stood before. Some of the
smaller boxes are piled one above the
other, like children's blocks, and
nailed together, to serve as temporary
houses.

MOTHERS PRAY THAT BABIES MIGHT DIE

**Suffering Among Jews is So
Bad That Death Alone
Gives Relief.**

Mothers begging for death to re-
lieve their children's suffering, was
the most tragic thing seen by Leo
Wolfson, New York attorney and
journalist, in seven weeks spent in
Roumania, Galicia, Bessarabia and
Bukovina. Mr. Wolfson, who has
just returned to New York, made the
trip in order to study political con-
ditions in these countries.

"There are one and one-half mil-
lions Jews in this section of Eastern
Europe who are in immediate want,"
declared Mr. Wolfson. "In every
town I visited, I saw starving, naked
Jews stretching out their hands to
passers-by for a piece of bread."
"They hardly look like human be-
ings. All one sees are living skele-
tons, covered with yellow skin. The
children are small, worn-out, fright-
ened, little creatures, who just drag
themselves aimlessly around."
"How they will live through the
winter, no one knows. No one can
begin to describe this picture of
misery and want. But one can get
an idea of it, knowing that the mothers
are actually praying that death take
their children, to relieve their ter-
rible suffering."

menced before Provincial Commis-
sioner Estlin at Sarnia.

Two-Party Line Telephone Service

NECESSARY curtailment of new construction during the war, followed by the unprecedented development since the armistice, have resulted in a universal shortage of telephone material.

In order to utilize our supply of equipment to the best advantage, to reduce delay in installations to a minimum and to avoid refusing service to anyone, we ask those intending to order telephones to consider the advantages of Two-Party Line Service

With the central energy system in use here the operator can ring either of the telephones on a two-party line without disturbing the other. The cost to the user is substantially lower than for individual line service.

The rate for two-party line service is, for Business telephones \$30.80 and for Residence \$22.00 per annum.

We will be glad to furnish full information to anyone interested.

Good Music and a Good Piano

Some one has said: "Don't be afraid of good music." Good Counsel. It will come back to you in a pleasantly compelling, insistent way, and you will come back to it—can't help it.

But this only happens when associated with the good music there is a good piano. Make no mistake here. Let it be a

Members of the board of control of Hamilton are confronted with the "most disappointing lot" of tenders on works department supplies that they have ever been called upon to consider. Prices, on an average, were 2 per cent. higher than those of 1919 but the majority of manufacturers who submitted bids a year ago simply declined this year to invite contracts.

A GREAT STOMACH BRACER

Makes You Feel Lively and Young—Removes That Tired Feeling.

At some period in our lives there is sure to come a time when the stomach is "off"—not working well—failing to enjoy and digest its food. Main thing then is to get the right remedy. You really want a soothing medicine, one quick to act sure on results, combining the virtues of a gentle laxative with a tonic effect upon the stomach, liver and kidneys.

Certainly the world affords no better medicine for the stomach than Dr. Hamilton's Pills of Mandrake and Butternut. Their laxative effect is ideal, can't be beaten! But in addition to their helpful action upon the bowels, these pills contain certain ingredients that strengthen and invigorate the muscles of the stomach, thereby relieving all sorts of stomach misery, indigestion, sourness, rising gas, headache and biliousness.

Just try Dr. Hamilton's Pills—they'll make you full of energy—brimming over with snap; they bring and maintain robust, sound, vigorous health, and isn't that just what you're looked for these many months? REFUSE A SUBSTITUTE FOR DR. HAMILTON'S PILLS. 25c per box, all dealers.

Ladies! Why Keep Corns?

Lift a corn or callus right off without one bit of pain.

Yes! You truly can lift off every hard corn, soft corn or corn between the toes, as well as hardened calluses on bottom of feet, without one bit of pain.

A gentian in Cincinnati discovered freezone. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this freezone upon a tender, aching corn or a callus. Instantly all soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with the fingers. You feel no pain while applying freezone or afterwards.

Just think! No more corns or calluses to torture you and they go without causing one twinge of pain or soreness. Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

There were no fires during the night.

"REDS" NOT ALL REDS

Observer Says Ninety Per Cent. of Armies Are Neutral

AMSTERDAM, Feb. 25.—About 80 per cent. of the Red army in Russia is not "Red" at all, but is neutral according to the staff correspondent of the Handelsblad, G. Nypels, who has just returned from an extended tour through Soviet Russia. He

says about 60 per cent. of the officers, who are largely drawn from the trained military men of the old upper class, are "Czarist" in inclination. This leaves only about 20 per cent. of the officers, thoroughly attached to the Soviet regime, the rest being neutral or Czarist.
