## "I Was a Fright!"

"Nothing I Could Take Made Me Any Fatter."

"Up to the time I was seventeen years old, I believe that I was the most miserable and unhappy girl that ever lived. Honestly, I was a sight. I was the most ungainly looking creature you ever saw. I was thin and scrawny—straight up and down. My height was five feet nine inches and I weighed exactly minety one and three quarter pounds. No matter what kind of clothes I put on I looked like a fright. I was clumsy and awkward. I used to stand before the glass and study my features. I found I had a good most, but my cheeks were sunken and my face looked like a good mouth, but my cheeks were sunken and my face looked like a skull with a piece of parchment stretched over it. But nothing I could do or take made me any fatter. Men arely even glanced at me. When they did, they merely gave me a casual, amused or pitying look,—an expression which I am sure meant, why is a being like that allowed at large?' I used to lie awake at night for hours at a time wondering why there were so many beautiful girls in the world and I was so hideous. I

Prime Minister Squires, at the B.I.S. banquet. Wednesday night, referred to the closing down of Bell Island work, and said that the country must see to it that the shut-down shall be only for a short period.

It is said that 300,000 tons will be required in Sydney in the Spring, and that fully that quantity had been mined and placed on the surface

ready for shipment. Whatever may be the cause, the sudden closing down has put hundreds of men out of employment, the result of which will mean hardship to the men, and will entirely change the outlook for the winter and spring for all concerned—the people and the Government.

as they may be, are that the export tax which was relaxed during 1922, up to the Sist of December, and that the Company being in doubt as to its being levied during 1923, has taken the course to close down all the work in the expectation that the Government will be forced to remit the tax for another year. This act would put the onus on the Government as far as the people are con-cerned—just a matter of remit the tax and the work goes on, exact the tax and the work stops. This is a usual policy followed by some big corporations the world over. The workingmen naturally seek for and want employment, and the company with that power behind it, will sit tight and let the people agitate and have the Government fall in line with the Company's wishes. The tax last year, if levied, would have amounted to \$250,000-25 cents on 1,000,000 tons. Though I tried hard to dissuade her It was not a bit of good.

Not a word of mine dismayed her,
Since she said she'd join she would.

So at Maunder's she was measured Now her time's no longer leisured

When not playing games or drilling She is tying useless knots, Or in stupid girls instilling And it's iddy, umpty, iddy, Morning, afternoon and night, Until now I get quite giddy

She can form fours, she can d Turn about, form on the right, Drill for her is not a trouble But a positive delight. And with milit'ry precision can give you a salute And one fears to show derision For she may have learned to shoot

But there is very little yet, Showing for the time she's taking And she eyes it with regret. Every day she's bringing Guides in To learn how to make a bed.

And on mine they've bulged the sides "You don't mind, of course," she said She no longer cares for dances

She no longer goes to plays, Nothing else she countenances Noting else she countenances
