The above is all situated in the village of Chatsworth, and 75 acres hardwood bush a few miles out. Good bargain for right party. Place must be sold, as owner is giving up business. For further particulars apply to

J. TAYLOR, Chatsworth.

CURRENT TRADE CONDITIONS.

ONTARIO.

"The lumber market is steady, and, if anything, inclined to be a little stronger. There is not the slightest indication of weakness, and I look for higher prices this winter." This was the opinion given by a large manufacturer of white pine, and seems to be an expression of the prevailing sentiment in the trade. Considering the quantity of lumber manufactured this season, the stock yet unsold represents but a small percentage, as most of the water mills have made large shipments by vessel to the United States. The opinion of manufacturers on the Georgian Bay regarding the future of the market is very hopeful, particularly in view of the proposed limited operations in the woods during the coming winter. The manufacturers who have most faith in the market are asking from \$14 to \$16 for box and common, \$12 for 1x10 and 12 mill culls, and corresponding prices for other grades. The higher qualities of pine are held very firm. Owing to a large production of red pine during the past two years, that lumber has declined slightly in price, but it is almost certain that during the coming winter the cut of red pine logs will be small, and in our opinion holders of such stock should make no sacrifice, as all the lumber will find a market at reasonable prices. For No. 1 lath \$2.50 is being asked at Georgian Bay mills, and for No. 2 \$2, while in the Ottawa valley \$2.25 to \$2.50 and \$1.75 to \$2 are the prevailing prices. The scarcity of shingles continues. As much as \$2.40 is being asked by some manufacturers for the best grade

of pine. The hardwood market is quite featureless, the only noticeable change being some increased buying by the implement and furniture factories. At the mills \$13 is asked for inch mill run soft elm, \$15 for birch, \$13 for maple, and \$20 for oak.

QUEBEC AND NEW BRUNSWICK.

The shipments of lumber from the St. Lawrence during the past week have been light. It is hoped that this will continue until the close of navigation, as great precaution on the part of shippers is necessary in order that the British market may not be further depressed. The low freight rates are an inducement to send lumber forward. Quebec spruce deals are quite firm, and shippers on this side are not willing to offer any concessions to buyers. Manufacturers in New Brunswick and Nova Scotia are also showing more confidence, partly owing to the heavy demand from South America and some demand from Australia, France and other countries to which shipments have not usually been large. Clapboards are in better demand for shipment to the United States. Extra cedar shingles are firmly held at \$3, but clears are a little easier at \$2.65. It is probable that some of the St. John saw mills will be compelled to close down on account of a scarcity of logs, some of the drives not having arrived.

UNITED STATES.

The past week has been comparatively quiet in lumber circles throughout the United States, shipments showing a falling off on account of a shortage of cars to move the stock. The shipments of white pine so far this season have been very heavy. Up to September 1 there was shipped from Minneapolis 46,000,000 feet more than during the corresponding period of last year. It is reported that fewer buyers are now visiting the Lake Superior district, although several million feet of lumber were sold last week to Chicago and eastern points. At Marinette, Wis., there is practically no pine for sale, but there is considerable hardwoods on the docks unsold. The receipts of lumber at Buffalo and Tonawanda were heavy during August, the former receiving by vessel 63,000,000 feet and the latter 81,000,000 feet. A considerable quantity has yet to come forward from the Upper Lakes. There is a good movement of the higher grades of pine and an improved demand for box lumber, which during the summer months showed

perhaps more weakness than any other grade. It is believed that a strengthening of prices will take place in the immediate future. A ten per cent. advance in the price of sash and doors took place on the 5th instant, this being necessitated by the higher price of factory lumber. Reports from Boston tell of a strong spruce market, an advance of one dollar a thousand above the old price list being the general rule. The larger dimensions of spruce are quite scarce. Hardwoods are still less active than pine. There is a good trade in birch, basswood and oak, but elm in particular lacks activity.

GREAT BRITAIN.

The reports this week from the British timber market are of a more hopeful character. Imports have decreased, while the consumption is quite brisk, and on the whole there is hardening tendency. Of course, the market is still unsettled and the future uncertain, but if the receipts during the fall are not too heavy a recovery in prices seems probable. While recent auction sales have shown no general improvement, the prices realized for Canadian deals showed exceptional strength for this particular class of timber. The spruce market is more active than it has been for many weeks, and it is probable that a shortage of 3x9 second and third quality deals will develop during the winter. For this reason importers have of late shown a disposition to contract for these sizes. The Timber News, referring to the spruce market, says: "Were it not for the low prices of Russian and Scandinavian white, there would be a much more active rise, because the quantity available for shipment is much less than usual, particularly in 3x9 inches. Offers of £6 10s c.i.f. for Lower Port cargoes are being refused by the shippers." For unsorted and lower quality deals the market is still rather weak, as the stock is large. Canadian pine deals are exhibiting strength, and first quality 3x11 brings £28 per standard. There is also a good inquiry for 3x11 fourth quality pine. Plasterers' laths are selling low, 1/4x1 at 8d, and 3/16x1 at 7 1/2d. per bundle. In square timber oak leads in point of demand. Waney

pine is in heavy stock at West Hartlepool, and seems to be a drug upon the market. Other classes of timber are firm.

STOCKS AND PRICES.

The steamer Pinemore is loading lumber at the Louise Basin, Quebec, for the United Kingdom.

In the Saginaw valley No. 1 pine lath is quoted at \$3.50 and No. 2 at \$3.00. Hemlock lath brings \$3.00.

The Saginaw Lumber & Salt Company received their first consignment of logs at Sandwich, Ont., last week. There were two rafts, containing 3,500,000 feet.

There is a somewhat firmer feeling in the cooperage trade. At Buffalo elm flour barrel staves are quoted at \$7.50 to \$7.75 and first-class basswood heading at 5 1/2 and 5 3/4 cents.

James Oaks, of Presque Isle, Me., will cut 3,000,000 feet of spruce logs the coming winter on Three Brooks stream, in New Brunswick, to be rafted to St. John.

A representative of the Rat Portage Lumber Company states that 76,000,000 feet of logs will have arrived at the mills of the Rat Portage Lumber Company at the close of the season.

At the Crown Lands office, Fredericton, N. B., last week 2 1/4 square miles of timber lands on the Lower Trout Brook, Magaguadavic river, were sold to F. H. Todd & Sons, at \$300 per square mile.

J. A. Gregory, manager for Dunn Bros. at St. John, N.B., has purchased the right to cut logs on the property at Point Le-Preaux, a few miles down the shore from St. John, on which Alexander Gibson began his lumber career. It is said that Mr. Gregory will erect a mill.

An important transaction in timber lands has lately taken place, by which Messrs. William Power, of Quebec, and Hiram Calvin, of Kingston, became the owners of 500 miles of virgin forest lands on the Metabetchoua river, in the province of Quebec. The consideration is not given.

During the month of August the price of red cedar shingles in Washington steadily declined, the drop being about 40 cents per thousand. The cause in part is said to be an overproduction; consequently a meeting of the shingle manufacturers was called to consider the situation. At this meeting it was decided to close down the mills until prices could be maintained on the basis of \$1.80 for clears.

Messrs. Clairmonte, Mann & Co. review the Barbadoes lumber market as follows: There is still a good enquiry for white pine lumber, but the demand for spruce is not so good, our crop season being over. There have been no arrivals with lumber during the fortnight. Latest sales for local use are:—White pine, \$24 for mer-

chantable and \$17.50 for second quality; spruce, last sales \$17.26 for merchantable and \$13.26 for second quality, and \$13 for scantling. Gaspé long cedar shingles are enquired for; last sales at \$3.40 to \$3.70 per M, now worth more. Cedar laying, in over supply, last sale \$1.75. Spruce laying, last sale \$1.55.

FIRES.

The stove and hoop mill of Steinhoff & Gordon at Wallaceburg, Ont., was almost totally destroyed by fire last week, at a loss of \$8,000.

Fire on September 3rd completely destroyed the saw mill of the Armstrong Thilman Company at Hancock, Mich. The loss is placed at \$100,000.

The sash and door factory of J. H. Giguere in Quebec, Que., was partially destroyed by fire recently.

TIMBER LIMIT PURCHASE.

The M. Brennan & Sons Mfg. Company, of Hamilton, are reported to have purchased from the Victoria Harbor Lumber Company, three timber berths in the townships of McCraney and Finlayson, districts of Muskoka and Nipissing. They are virgin berths and the timber will be manufactured at the Huntsville mill of Brennan & Sons. The purchase price, it is said, was in excess of \$200,000. The purchasers will take out during the coming winter a large quantity of saw logs and waney timber.

PULP WOOD WANTED.

The Department of Trade and Commerce, Ottawa, is in receipt of an enquiry from an American firm who desire to purchase 500,000 cords of Canadian spruce pulpwood, to be delivered 25,000 cords per year for a period of twenty years. The pulp is to be shipped to Erie, Penn. The price offered is \$3.00 per cord free of duty at a lake port.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to Sept. 3rd, as reported by the Supervisor of Cullers:

	Cu. ft. 1899	Cu. ft. 1900	Cu. ft. 1901
W'ny w'te pine	1,747,098	1,366,183	324,723

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Co., in their last monthly timber market report, say: There has been little improvement in business during the past month. Imports have been heavy, and in some items have been much overdone. Good pine, however, is scarce and should sell well, but the standard of quality generally is not improving, and consequently prices are very unsettled. Shipbuilding continues brisk, but other industries are not too well employed.

YELLOW PINE—Waney—The import has been light and mostly on contract. Prices rule firm. 19 to 20 inch average is quoted at 3s to 3s 4d per cubic ft. Inferior wood is scarce and good prices are obtained. Square.—There has been a fair demand and prices are good. 1st class, 3s to 40 feet, is quoted at 2s 7d to 2s 9d, G. F. A. wood, 20d to 22d per cu. ft.

RED PINE—The stock is ample and little business has been done.

ELM—Business has been brisk and prices keep firm. Quotations—2s 10d to 3s 1d for 45 to 50 feet average. Inferior wood is quoted at 2s to 2s 4d per cu. ft.

OAK—Stocks are small and there has been a good demand. Prices are very firm.

BIRCH—Imports during the month have been light but stocks are heavy and there is little demand. Quotations.—17d to 18d wood.

ASH—Of good size is in fair demand, but small wood is difficult to dispose of except at low figures.

PINE—Imports have been heavy, and the bulk of goods landed has had to be stored. The general quality has been very poor. **FIRSTS**.—Broad are quoted at £24 15s. to £28 17s. 6d. Undersized, £19 18s. 9d. to £21 6s. 9d. Sidings, £17 17s. 6s. to £19 18s. 9d. Boards and strips, £12 7s. 6d. to £16 10s. per St. Pet. Std. **SECONDS**.—Are in little request and stocks are increasing. **QUOTATIONS**.—Regulars and Broad, £16 10s. to £18 11s. 3d. Undersized, £13 1s. 3d. to £15 2s. 6d. **THIRDS**.—Are in moderate demand. Regulars are quoted at £11 13s. 9d. to £13 1s. 3d. **FOURTHS**.—Stocks are small, but sales are limited. Regulars are quoted at £9 12s. 6d. to £10 6s. 3d. Undersized, £8 5s. per St. Pet. Std.

RED PINE—The market is glutted and prices are exceedingly low. **QUOTATIONS**.—£7 4s. 4d. to £10 6s. 3d., according to specification.

SPRUCE—Is in fair request at £6 10s. 7d. to £8 5s. per St. Pet. Std.

N. B. BIRCH.—Stocks are heavy, and ample for present requirements. Prices are little altered from last quotations.

N. B. SPRUCE. Stocks are heavy in many sizes, but a large amount of business is being done and prices are considered to be about the bottom. Quotations.—£6 3s.
