Please find attached the ninth edition of a mini database covering selected economic, trade and social statistics. The tables include the statistics most frequently used within the Department when preparing background briefs, ministerial briefings and speeches. The data focus on the G-7 (with special emphasis on Canada and the U.S.). The data are organized in time series on an annual-basis covering at least the last ten years. EET updates the database twice a year - in April and October - as the originating statistical agencies issue more recent and revised information.

2. Divisions should note that each table identifies its sources in a footnote and that the sources are available at the DFAIT library. Divisions requiring answers to day-to-day research questions similar to the information provided in the attached database should consult the library's research staff who are available to provide advice and direction on data sources for statistical projects. It would not be efficient for EET to duplicate basic statistical work for which each Division is responsible. In addition to assisting you in this work through the creation of the attached database, however, EET can and will provide methodological advice to officers from other Divisions if sufficient lead time is given. We would appreciate that you circulate this information to all members of your division. Your cooperation in this regard is appreciated.

3. Extra copies of this document are available through the library and the InfoCentre (SXCI). The mini database is also available in electronic form upon request to J. Berger (EET).

Vous trouverez ci-jointe, la neuvième édition d'une mini-base de données contenant des statistiques économiques, commerciales et sociales. Les tableaux font état des statistiques les plus souvent utilisées au Ministère pour la préparation des documents d'information, des briefings ministériels et des discours. Les données portent sur le G-7, en particulier sur le Canada et les États-Unis. Elles apparaissent par ordre chronologique sur une base annuelle, couvrant au moins les derniers dix ans. EET procède à une mise à jour des données deux fois par an, en avril et en octobre, périodes où les organismes statistiques consultés publient les dernières informations disponibles.

2. Il convient de noter que les sources utilisées pour chaque tableau figurent en bas de page et qu'elles peuvent être consultées à la bibliothèque du MAECI. Les directions qui se posent des questions sur la recherche au jour le jour de même teneur que l'information fournie dans la base de données ci-jointe doivent consulter le personnel de la bibliothèque préposé à la recherche, qui est à leur disposition pour les conseiller et les orienter quant aux sources des données concernant des projets statistiques. La responsabilité des travaux statistiques de base incombant à chaque direction, ce n'est pas le rôle de EET de les reproduire. Toutefois, en plus de vous aider dans votre travail grâce à la création de cette mini-base de données, EET peut donner des conseils quant à la méthode à suivre aux agents d'autres directions, à condition de disposer de délais suffisants. Nous vous saurions gré de faire circuler ces renseignements parmi tous les membres de votre direction. Nous vous remercions de votre collaboration.

3. Vous pouvez obtenir d'autres exemplaires de ce document à la bibliothèque et à InfoCentre (SXCI). Ces données sont également disponibles en format électronique: veuillez adresser votre demande à J. Berger (EET).
