

GERMANS DRAW UP PEACE TERMS LIST

Would Absorb Belgium for Future Military and Economic Development.

TO ASSURE SEA CREDIT

Settlement Not Having These Results Would Render New Struggle Inevitable.

PARIS, Aug. 11.—What purports to be the text of a confidential memorandum sent to the imperial German chancellor, Dr. Von Bethmann-Hollweg on May 29, by representatives of German manufacturing and agricultural associations, is published by The Temps. The memorandum, according to the newspaper, covers financial, territorial, industrial and military concessions to be demanded of the entente allies as Germany's terms for peace and to insure the development of a greater Germany. It is signed by the following men who are prominent in the life of the German Empire: Signed By Leading Germans. Dr. Roskoff of the Agrarian League; Vachter Von Wente of the German Peasants' League; Baron Von Twickel of the Association of Westphalian Peasants; Herr Rouger of the Central Germany Manufacturers' League; Herr Friedrichs of the Manufacturers' League and Professor Eberle of the Union of the Middle Classes of the Empire.

The memorandum after calling for terms which would insure the development of greater Germany and guarantee an amelioration of the bases of the German Empire, says: "A peace which has not these results will render new struggles inevitable at an early date and will make the chances much less favorable for Germany."

Referring to Belgium, it says: "Because it is necessary to assure our credit on the sea and the future military and economic situation with respect to England, because Belgian territory, so economically important, is so closely linked with our principal industrial territory, Belgium should be from a monetary, financial and postal viewpoint, subject to the legislation of the empire. Its railroads and waterways should be most closely linked with our communications."

CONTRACTOR HELPED BY CHANGE IN PLANS

Architect Russel Says Alterations Made to Detriment of Manitoba Buildings.

WINNIPEG, Man., Aug. 11.—J. H. G. Russel, the architect, appointed by the present government to report on the parliament buildings, was called today by the commission in reference to his findings made public in part, by Hon. T. H. Johnston last week. Russel declared in his report that the specifications covering the parliament buildings were in many cases not followed by the contractors, that all the changes in the plans were for the benefit of contractors, and in most cases to the detriment of Manitoba buildings.

U.S. SENATOR ATTACKS BLOCKADE OF BRITAIN

Declares It Violates Neutrals' Rights and Rouses Importers to Action.

NEW YORK, Aug. 11.—After listening to a speech by Senator Hoke Smith of Georgia, more than 300 New York importers today adopted a petition to President Wilson urging him to take prompt and strenuous action to relieve American importers of the conditions caused by Great Britain's refusal to allow products of Germany to be shipped from neutral ports to the United States. Senator Smith declared that the blockade, as carried out by Great Britain was one of the most flagrant and inexcusable violations of neutral rights in naval history.

Government Inefficiency Caused Lusitania's Loss

Sir Charles Beresford Makes Startling Accusation in Letter to Meeting on Contraband-ing of Cotton—Declares He Can Prove His Contention.

LONDON, Aug. 11.—In a letter read tonight at a meeting for the purpose of urging the government to put cotton on the contraband list, Lord Charles Beresford claims that if certain advice that he had tendered Premier Asquith in April had been followed, the Lusitania would have been saved. Lord Charles was to attend the meeting, but he sent a letter supporting the movement, wherein he stated: "On April 5 last I wrote to the prime minister on various matters connected with the war, showing how inefficiency, brought about by want of organization and forethought, was causing the loss of invaluable lives. I further stated that the cause of the disasters mentioned were all avoidable and that men's lives were being sacrificed by criminal negligence. If the warning advice tendered had been acted on the Lusitania would not have been lost. I have in my power to prove that this statement is a fact when the proper time comes."

What the Department Could Do for Farmers

(Continued From Page 1.)

In the case of this storm and in the case of any past or climatic attack. And let us take now a still more pressing case. The World is able to publish news this morning about the price of the new wheat, and what the impediments are in the path of a good price for the fall wheat now being threshed. A great deal of it will be damaged by sprouting, by rustiness, by discoloration and the like; and, as a consequence, millers and buyers, as is natural, will take all the advantage they can of the situation and step-down the price to farmers. For instance, the World this morning shows that musty or damp wheat will be graded 15c below the clean wheat, and that may be a fair reduction; but the Hon. James Duff and his deputy minister and the assistants of his department should all be busy correcting these facts and conditions and should be ready tomorrow to advise the farmers what to do about this cutting of the price. These are the things that the Ontario farm bureaus of Europe do, and especially in countries like Denmark and Germany, and what they are doing in many of the states of the Union and what we would like to know about agricultural conditions in Ontario. Are we doing it, and are we utilizing the scientific methods that we have under salary in connection with the department and the schools of agriculture? We are not. The Ontario commission has increased by \$300,000 a year by the expenditure of \$1,000,000 observations, by the appointment of a number of inspectors, and the use of the information thus sent in by trained agriculturists at the centre and by distribution of that knowledge among their generalizations to the farmers. And this applies to seed, to sprouting, to fertilizing, to harvesting, to storing, and also to live stock and diseases of live stock, especially in the immediate epidemic, and to all the other industries of farming. Twenty million dollars is a lot to lose in one week and that much more in one day, and that much more in one year, and that much more in one marketing condition. It is not where, for instance, about the opening of the grain, that the immediate loss happened yesterday as to the wheat in the case of the storm. It is in the case of the grain that without much loss, but the rain has softened the earth that it was impossible to get the grain out of the field. When the sheaves were kicked out at the mill, the grain was shelling out at a great rate, and the result was that a still greater shelling when the grain is put into wagons to be taken to the thrasher or to the mill, and the result was that from a third to half of this grain will be lost. We do not see this but the farmer. We do not see this but the farmer. We do not see this but the farmer. We do not see this but the farmer.

London Docks and Buildings on Humber Points of Attack.

BERLIN, Aug. 11, via Wireless to New York.—The German airships which raided the east coast of England Monday night and early Tuesday morning, "with good results," warships on the Thames, the London docks, torpedo boats near Harwich, and buildings on the Humber, according to an official communication issued by the admiralty. "On the night of Aug. 9-10, German airships attacked fortified places and harbors on the English east coast. In spite of a strong defence, British airships were shot down near the London docks, torpedo boats near Harwich, and important constructions on the Humber, were destroyed. It was observed that the results were good. The airships returned from the successful expedition."

WINNIPEG TEAM HELD LANCA-SHIRE AT VARSITY STADIUM

Second Game Tonight.

Winnipeg Scottish are able opponents. They held the Lancashire to a scoreless draw in the first game for the Connaught Cup at Varsity Stadium last night and will take a lot of beating tonight. It was even in the first half with the Toronto team showing just a steady owing to playing on home grounds and all the little tricks of a known field. The Scottish came strong after half time and were going well at the end.

NEW MARKET GUARDS HELD FINE PARADE

Three Hundred March to Fair Grounds in Splendid New Uniforms.

The finest military parade ever held in Newmarket took place last night, when the Newmarket Home Guard, made up of nearly 300, paraded on the fair grounds, with Col. Wrayling in command. There was a large gathering of townpeople, and the appearance of the men in their new uniforms, evoked much commendation. While the rifles with which the men are armed are provided by the county, a grant having been made for that purpose, the uniforms were contributed by the town and private subscription. The members, aided by the Davis Leather Co. and other local firms, contributed to the parade.

The Future of Alberta

(From The Calgary Western Standard, Aug. 8.) Alberta's wheat yield this year will be 25,000,000 to 30,000,000 bushels, and her oats yield will be from 60,000,000 to 80,000,000 bushels. The prices of oats and wheat will be high, and so will the prices of hay and flax, live stock and horses. Alberta will get in the neighborhood of \$100,000,000 for her farm products this year.

One hundred millions of dollars will place this province on a sound footing, and will ensure prosperity for another two years at least. If half of \$100,000,000 were placed in circulation in Alberta every year, every industry within the confines of the province would redouble its capacity. And a year's yield of \$100,000,000 annual revenue from the land, which does not include coal and our manufactured products, would make this the wealthiest country in the world. The future holds great possibilities for Alberta.

FRED MOYSE DROWNED NEAR ETOBICOKE RIVER

Member of Globe Staff for Some Time and Had Offered Services for War.

Fred Moyses, aged 25, of 182 Grace street, was drowned in the lake waters about 100 yards east of ETOBICOKE Creek yesterday morning, when a rowing boat capsized and his young brother, captured about 20 feet off shore, in ten feet of water. Moyses was a good swimmer, but when the boat was recovered it was found to have a discoloration behind the right ear, which leads the authorities to believe that he struck his head on a log coming out of the skiff. The younger brother attempted to lend assistance to the drowned man but finally had to let go his hold on the boat to save his own life. Dr. Forbes Godfrey used the pulmotor for over an hour without effect. For ten years Moyses had been employed in the business office and latterly as a stenographer in the mechanical department. He is now a member of the staff of The Globe newspaper. Some weeks ago Moyses offered to enlist for active service, but failed to pass medical examination.

HARVEST FIELDS ARE BUSY PLACES

Farmers Taking Full Advantage of Every Moment of Dry Weather.

Work Exchanged and Help Secured in Effort to Save Crops.

Yester day was another glorious day for the Ontario farmer, busily engaged in harvesting his crops, and every moment of it was utilized to advantage. They were not all in the harvest fields, however, for thousands of acres are not yet dry enough for the work, but probably two out of three of them were on the job.

In the Township of Vaughan cutting seems to be a little later than in many other places. There the land is heavy, the crops especially good and hammered into the ground, rendering the work both heavy and slow. A bright feature, however, is that many farmers are cutting around the whole field, shortening up the work very materially.

Will Help Each Other. In scores of cases neighbors will double up, changing works, the fellow man who has no fall wheat helping the man who has.

Want Cluster Lights. It was decided to write the board of the civic survey commission to place on St. Clair avenue, from Lansdowne avenue to Dufferin street, a resolution was adopted endorsing the action of the council.

Officers Elected. The following officers were elected: President, W. W. Ralph; Vice President, J. Wilson; Secretary, executive committee, H. Baker, G. Key and F. Squires.

GOOD PROGRAM READY. A splendid program of games and sports arranged for the Fairbank Presbyterian Church picnic to be held on the church grounds, corner of Dufferin street and Vaughan road on Saturday.

Italians are Invited. The Italians of Toronto are especially invited to attend the grand picnic and dance to be held on Saturday afternoon at 2 p.m. at Lambton street, corner of the Italian Church of St. Clement, Dufferin street.

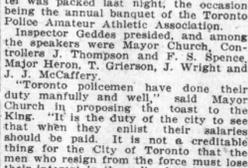

FIRST AID CLASS. A special meeting of the first aid class for examinations will be held at DUNDURR HEIGHTS on Friday afternoon next, when all members are particularly requested to attend.

FAIRBANK ASSOCIATION. The Fairbank District Liberal-Conservative Association will hold their regular monthly meeting in the club house, Harvie avenue, on Friday, at 8.00 p.m.

RESIDENTS SUPPORT LANSDOWNE CAR LINE. Many of the residents who petitioned against the Lansdowne Avenue Civic Car Line, and could not see the wisdom of placing a line on such a short stretch, are now supporting the line. The members, aided by the Davis Leather Co. and other local firms, contributed to the parade.

Notes of Women's World

The National Chapter, I.O.D.E. will have a "cafeteria" at the Exhibition this year, under the direction of Mrs. Edmund Phillips.

On Friday, Aug. 13, the Sewing Circle of the 48th Highlanders' Chapter, I.O.D.E., will meet in St. Andrew's Institute from 11 a.m. A large turnout is requested.

Members of the Canadian Business Women's Club are working on a unique quilt, designed with patriotic sketches and the names of subscribers embroidered in scarlet. Proceeds will go to buy soldiers' comforts.

This evening a patriotic garden party will be given at the home of Mrs. George M. Ritchie, 38 Leuty avenue, under the auspices of the York Chapter, I.O.D.E., the Beauties. There will be an admission of ten cents. There will be an evening concert and other attractions.

An interesting address was given at the regular meeting of the Canadian Business Women's Club by Mrs. Hector Prenter, who urged Toronto business women, numbering about 50,000, to set together and act in unison for some special object that would benefit our soldiers. Women have varied work to do and one pressing duty is to look after the children. Women should remedy child labor conditions, and Mrs. Prenter pointed to Sweden as a country doing things unceasingly in the interests of the young.

The residents of Allan Gardens, 121 Carlton street, are having a novel patriotic entertainment in the shape of a roof garden party and sale, to raise \$1000 for the purchase of a machine gun. The party will take place on the evening of Thursday, the 19th. The sun is to be given to the 74th Battalion, whose commander, Col. Windsor, has promised to be present. Mr. W. E. Dyer, 121 Carlton street, is in charge of arrangements, wants a "Girl Guides" to show visitors thru the building to the roof garden and sales booths. He also wants some salespeople for the booths.

MECKLENBURG HEAD OF TURKISH FORCES

Grand Duke is Said to Have Succeeded Gen. Liman Von Sanders.

LONDON, Aug. 11.—The Grand Duke of Mecklenburg, according to the London Star's Athens correspondent, has been appointed commander-in-chief of the Turkish forces in the Dardanelles, succeeding Field Marshal Liman Von Sanders.

Field Marshal Liman Von Sanders has been one of the leading figures in the organization of the Turkish military system brought about by the late years under German tutelage. With Field Marshal Von Der Goltz also a German officer during the war, and for a time was in charge of the Ottoman forces at the Dardanelles. It had been reported last month that he was seriously wounded in a battle on Gallipoli Peninsula. Enver Pasha, Turkish minister of war, was said to have assumed command of the forces on the peninsula.

DONATE MACHINE GUNS.

BROOKVILLE, Ont., Aug. 11.—From Brookville, 40 points in Leeds County five machine guns for the Canadian forces are in sight. Brookville and the Townships of Front of Leds and Lansdowne will donate two and Westport Village has subscribed enough money to buy one. The council of the foregoing townships will donate the funds for one gun.

The heavy rains have raised the water in the St. Lawrence five inches.

"SOCKS AND SMOKES" CALL OF MEN AT FRONT

Sergt. Leslie Burns is Engaged in Chasing Up German Spies.

"Socks and smokes" form the new motto of the Ikhaki boys from Canada at the front. Sergt. Leslie Burns says so in a letter just received from him by his father, J. W. Burns, of the board of education. Sergt. Leslie Burns is a fine tall young Canadian; also not yet 21 years of age, he was successful railway man when the war broke out. He went with the first contingent and was in the thick of the St. Julien fight, making ammunition forward and sending several days in the trenches. He is now a sergeant in the Canadian mounted military police, which is doing light cavalry duty in the Ypres region. A few weeks ago his kit was destroyed by a shell, and he received a few days in the hospital. In addition to his good luck in not being in the room struck by the shell, he received a few days under a new kit, including plenty of socks and cigars, from his father and mother. The letter says that his work includes "tracing up German spies," and that there is a lot doing all the time.

RUSSIAN JUVENILE BAND AT SCARBORO BEACH. The Russian Juvenile Concert Band of 42 players, the youngest organization of its kind on the American continent, will commence a series of six concerts at Scarborough Beach on Thursday evening, Aug. 12, under the direction of their tutor, the eminent Russian bandmaster, M. Ignace Glass. It will no doubt be a great and pleasant surprise to Torontonians to learn that this musical organization consists of boys born in this city, of parents who hail from Russia. For the last three years Conductor Glass has worked hard instructing this body of boys. His labors were made more difficult, as it was Mr. Glass' endeavor to create in Toronto, not a brass band of the conventional type, but one which would be able to interpret the music of their native land. Some of the best musical critics of the city, who have heard these boys play, were astonished at their music, and they have all agreed that this should be proud of having such a unique musical organization.

The program for the six concerts is of great variety, and consists of several Russian compositions that have never been played in this city before. The new Russian march "Proletariat" was just received by the conductor direct from Russia. The fantasia, "Cossachouk," is a very exciting Russian gallop. From among the boys Mr. Glass has chosen a lad of 11 years of age as his associate conductor, and some of the best musical critics of the city, who have heard these boys play, were astonished at their music, and they have all agreed that this should be proud of having such a unique musical organization.

The Dog and Cat Shows at the Canadian National Exhibition promise to be better than ever, as entries are coming in in large numbers. The Dog Show has also been made, and are as follows:—Steadman, Thomas Hamilton, Mass.—Airedale Terriers, English Bull Terriers, French Bulldogs, Fox Terriers, Bull Terriers, Boston Terriers, Irish West Highland Terriers, Skye Terriers, Black and Tan Terriers and variety terrier class. James Mortimer Hampstead, Long Island, N.Y.—Maestris, St. Bernards, Newfoundland, Bloodhounds, Great Danes, Foxhounds, Irish Greyhounds, Field Spaniels, Clumber Spaniels, Cocker Spaniels, Dalmatians, Whippets, Pugs, Italian Greyhounds, Pomeranians, Toy Poodles, English Toy Spaniels, Japanese Spaniels, Yorkshire Terriers, Toy Black and Tan Terriers, Pekingese, Griffons, Maltese and Miscellaneous class. Variety Non-Sporting class and variety toy class. Dr. Henry Jarrrett, Philadelphia, Pa.—Pointers, Setters, Doberman-Pinschers, Collies, Old English Sheep Dogs, Poodles (other than Toy), Beagles, Dachshunds, Shippers and Variety Sporting class.

Special August Discounts on Fine Furs

To the many prospective fur purchasers who appreciate the guaranteed quality and the advanced styles of "Fairweathers" furs we are pleased to intimate that our show rooms are open and that we are displaying very excellent collections of the new styles for the new season. We are stating an absolute fact in saying that by comparison—price for price—quality for quality—such furs were never offered at so moderate prices as the goods are being marked off at regularly this season. But the extraordinary inducement to make the fur investment this month is that we are offering choice from this brand new stock of the manufactured furs at Special Summer Prices.

This is a good time, too, to just repair or remodel your fur. We are also giving estimates on this work at Special Summer Prices.

SEVENTY-FOUR LOTS ARE UNDER CULTIVATION

Association's Work Promises Good Results in Raising Produce.

Great progress is being made by the Toronto Vacant Lot Association, and a report just issued by Supt. George Baldwin shows that 74 lots have been leased to 74 men, in all about twelve hundred acres of vacant land. This had been accomplished since May 24, when arrangements were completed for the carrying on of the association.

The largest piece of land procurable was in a block of 61 lots in the rear of Queen street and the Kingston rd. lot tenants, but all who hear his address, in the rudimentary processes of horticulture.

COTTON NOT NEEDED BOAST OF GERMANY

Can Turn Out Military Supplies Without It, Says Frankfurter Zeitung.

LONDON, Aug. 11.—Announcement that Germany is now able to dispense with cotton in the manufacture of military supplies is made by the Frankfurter Zeitung, as quoted by Reuters' correspondent at Amsterdam. This newspaper asserts that designation of Queen street and the Kingston rd. lot tenants, but all who hear his address, in the rudimentary processes of horticulture.

FRUIT BULLETIN

The Lawtonville station in the Niagara District is about over. A few excellent Plums—Washington, Naga etc.—can now be had. Some good early Peaches are ready. Housekeepers should watch for coming important Niagara District Fruit Bulletins.

EIGHTY-FOURTH GO TO NIAGARA

Seven Hundred Strong, Detachments Leave to Further Train for War.

BAND LED PROCESSION

Newly Formed Organization Cheered Men Who Bade Farewell at Docks.

Great enthusiasm marked the "send-off" given by Toronto citizens yesterday to the 700 men of the 84th Overseas Battalion who went across the lake to Niagara camp in two detachments—on the Chippewa at 9 a.m. and the Cayuga at 2 p.m. Lieut.-Col. W. T. Stewart was in command of the unit. The arrival of the 84th at Niagara brings the total number of troops in training there up to almost 10,000.

The new battalion band headed the main body of the 84th when it marched away from the Pearl Street Armouries shortly after 8 o'clock. The men of the 84th paraded along King street to Yonge and then down to the wharf. Women and Children. Hundreds of women and children, whose husbands and fathers were in the battalion, followed the troops all the way, and at the wharf gathered in large numbers to give the soldiers a rousing send-off.

Acid Stomachs Are Dangerous

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medical treatments are useless in such cases, as they leave the source of the trouble and act in the stomach, as dangerous as ever. The acid mingles, neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphate of magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acid is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphate of magnesia, which can be obtained from any druggist, and should always be kept handy. GARDEN PRIZES TO BE INCREASED

Recognition for Those Who Have Merited It is Decided.

SPECIAL REWARD OUT

Contest Becomes More Interesting as Everyone is Greatly Encouraged.

In order to give recognition to backyard gardeners who have done excellent work but who would not secure prizes in the ordinary way, it has been decided by the enthusiasts supporting the Toronto home garden contest to increase the prize list to a considerable extent. The Dovercourt Land Company, which early in the year offered \$1000 in prizes, will contribute a half dozen or more, bringing the prize list close to the hundred mark, or a prize for one out of every six contestants. Before the exhibition and distribution of prizes in Massey Hall on Sept. 10 it is likely that several well-known names will be added to the list. The encouragement of home food production will offer additional prizes. The fact that the entry cards of the contest showed that between the ages of the youngest and the oldest gardener there was a breach of close upon a century—the oldest contestant, 18105 years old—led to a decision to give a special prize to the youngest and the oldest gardener who made a good showing. It was found also that some of the contestants, women with heavy household cares and no strong-armed man around to do heavy digging, were showing excellent results, although not probable prize-winners and a prize will as a result go to the woman who overcomes the greatest difficulties. Another added prize will be for the garden showing the greatest improvement.

## Give Your Feet the Same Care That You Give to Your Hands

By LUCREZIA BORI  
Prima Donna of the Metropolitan Opera Company, New York.

Do you know that one of the rarest things in the world is a perfect foot? Most of us are like the peacock, who loses his pride and trills his gorgeous feathers in the dust when he catches sight of his unattractive feet. Nature meant that we should have well-shaped, pliable and smooth feet, but through years of cramping in the uncomfortable shoes which fashion has given us they have become misshapen. Many a beauty bemoans the fact that her feet are a "sight to behold," and spends hours trying to correct the abuse caused by years of neglect and abuse. It is time wasted to try to improve the appearance of one's feet if we continue to wear shoes which force the toes out of their natural position and cause corns and bunions to mar the contour. If you are anxious to improve your feet begin immediately to wear sandals or broad, soft house shoes when indoors. For street wear buy shoes which will allow the toes and muscles of the feet perfect freedom. Before long you will notice that the toes are straightening, the callouses and corns are disappearing, and that the skin is becoming healthy and smooth.

**Wear Sandals Indoors.** To wear shoes which force the toes out of their natural position and cause corns and bunions to mar the contour. If you are anxious to improve your feet begin immediately to wear sandals or broad, soft house shoes when indoors. For street wear buy shoes which will allow the toes and muscles of the feet perfect freedom. Before long you will notice that the toes are straightening, the callouses and corns are disappearing, and that the skin is becoming healthy and smooth.

**Clean Nails with Orange Stick.** It is next to impossible to restore a distorted foot to its normal shape, but you can improve the texture of the skin and manure the nails which will make it appear immaculate and well-cared for. When preparing the feet for the bath, clean the nails carefully to the required length, apply a little cold cream about the edges of the nails, and then soak the feet in hot water until the skin is very soft. Dry them very carefully this time, and cover each nail with nail polish and rub them with a chamois burnisher. Now wash and scrub the nails for the last time and dry them thoroughly. Insert the orange stick into the nail and apply each nail with a little of the burnisher, and the nails will look infinitely better.

**Use Chamois Burnisher.** You will find that it is necessary to polish the nails every day, but once a week is quite enough for the filing and soaking. It is a well known fact that few women will bother about manuring the nails of their feet. They will spend any amount of time upon their hands, but the feet are neglected. If you should be classed among these, resolve here and now to divide your attention between your hands and feet.

## The "Successful" Husband

By WINIFRED BLACK  
Copyright, 1915, by Newspaper Feature Service, Inc.

I MET him the other day, the successful husband. He's big and broad-shouldered and manly and handsome. He's clever at his parterre; he's shrewd in business; he's bold when it comes to affairs; he's as handsome as a Greek god and as modest as a violet. He's as brave as a lion when he's with men and as timid as a fawn with women. Every woman who sees him falls in love with him at first sight. But he never even sees that there is any woman on earth but the one he loved when he was 15 years old and fished her tennis racket out of the trout stream. He's 40, with an intellectual face, deep eyes and just a tinge of silver at his temples. He's fond of children, but he wouldn't have a boy in the family. What he wants is a little "Editha," a second edition of his one and only love—sassy nose, swimming eyes, imperious temper and helpless nonsense—all at once. He was poor when he began life, the successful husband, but now he's rich, and he's built a wonderful palace for his wife—the "dream palace" they call it when they wander through it together in the twilight. Once a year they leave the dream palace, the two lovers—one 40 and the other 38—and she puts on the simple little frock she wore the day he met her. There's a rent in it that she got when she caught it on the rocks trying to fish the racket out of the water, and she's never mended it, much to the scorn of Felice, the French maid. He'll never let her have it mended. **Where He Lives.** And she puts it on and ties the little flat sunshade over her curls, and he fishes out his worn old velvetens, and back they go to the stream where they first met, and oh, it is so lovely and so touching! And when he goes to the directors' meeting afterward at the great bank he wears a faded flower in his coat, and all the directors look at each other and smile, for they know where he has been, and they love and honor him for it. He's never tired, the successful husband, and he's never cross, and he's never unreasonable or never selfish or never worried. He's perfect, absolutely perfect!

## A BRIDE'S OWN STORY of Her Household Adventures

By ISOBEL BRANDS

Planning "Picnic Service" to Make Summer Housework Easier. WHAT'S this, a picnic on the premises? Inquired Bob as he breezed into the house at the end of the sultry day and caught a glimpse of a tray and chairs on our diminutive porch. "Even so," I agreed. "I'm nothing but a picnic on the premises, and I'm getting out of here as quickly as I can. No reason why we can't have our own picnic here, and after on warm days we'll dine outdoors if you like it." Of course Bob enjoyed it, and it served the additional purpose of greatly simplifying the service. I had prepared the same kind of substantial things we should have had if served in the ordinary way, only I prepared them rather in leisure and ever so much better! Instead of serving the cold chicken salad, I chopped the chicken, mixed it with salt, pepper and mayonnaise dressing, and filled sandwiches with it. Instead of creamed or baked potatoes, I had a hot potato and tomato salad with cucumber aspic, chocolate layer cake and cold lemonade. To give our first outdoor the real "picnic" flavor I used the paper dishes with the extra paraffin sheets, so everything was served easily with no bothersome removal and exchange of plates. And after dinner I didn't have to spend any time washing dishes. It took no more than two or three minutes to dispose of the used plates, wash the knives, forks and spoons and put the food away. There are any number of wholesome dishes that can be prepared for easy service outdoors, and that are quite ideal for summer days. The sandwich is particularly a special blessing, and is really an attractive way of serving many foods that we might not have an appetite for if served in the regulation way, like meats and fish, which don't tempt one much when served hot on a warm day. **Creamed Egg Sandwiches.** Chop the whites of hard-boiled eggs and force the yolks through a ricer. Mix yolks, whites, salt, pepper and cream dressing thoroughly, then spread on thin slices of bread and butter. **Cheese and Sardine Sandwiches.** Cream two tablespoonsful of butter, and one-quarter of a cup of American cheese, grated, and an equal quantity of sardines, boned and mashed to a paste. Season with salt, paprika and a few drops of lemon juice, and soften with olive oil or melted butter. Spread on thin slices of white or brown bread. **Lamb Club Sandwiches.** Cut thin slices from a cold leg of lamb and season with salt and pepper. Heat melted butter in frying pan and cook slices of lamb two minutes on each side. Spread mayonnaise over lettuce leaves, then arrange lettuce and lamb slice between bread or toast. If bread is used it may be served cold. The toast should be served heated. **Olive Sandwiches.** These are excellent to serve instead of bread and butter, as an accompaniment to cold sliced meat and salad. Chop one dozen olives, spread bread with mayonnaise or butter, add one or two bits of cream, then the chopped olives, and press slices closely together. Sandwiches, too, make excellent accompaniments to fruit desserts. Thin slices of zwieback spread with marmalade and finely chopped walnut meat are excellent. Then there are other varieties of sweet sandwiches which are ever so good, as: Thin slices of preserved ginger spread on white bread. And now that we have so many summer vegetables it is easy to prepare a most delectable vegetable salad at short notice for either conventional or picnic servings.

## Peter's Adventures in Matrimony

By LEONA DALRYMPLE  
Author of the new novel, "Diane of the Green," awarded a prize of \$10,000 by Ida M. Tarbell and Dr. McQuinn as judge.

**A Fishing Plan.** COULDN'T we take a day off and go fishing suggested my partner, Foote, one day. "Great guns, it's an age since I fished for anything but trade. Like to fish, Peter?" "Keen about it!" I enthused. "Lord, how I used to fish as a kid with a bent pin or anything else you could hang a fish on." "I get nothing at all!" laughed Foote reminiscently. "That's true enough. But a fish them was a fish when you did get him. You didn't bother a lot about size. Two inches or ten was a fish. And your mother simply had to try it. I've had more than one shock when a fried atom appeared upon my plate. Your catch always shrank so after it reached the pan." And Foote and I went on reminiscing until we were in quite a fever of excitement. We talked reels and poles and bait—we found a day when we could both leave—we presently found two days we thought we might take—and by nightfall our plans were perfectly made. **Mary Is Disappointed.** "By the way, Mary," I said to my wife that night, "I wish you'd look over that bunch of stuff mother sent—my old fishing poles and reels and things." "What are you going to do?" inquired Mary with the light of suspicion in her eyes. "Does any woman ever go on her husband's fishing plans with complete respect?" "Going fishing," I said jubilantly. "I've gathered that," said my wife, "from your interest in poles and reels and things. When? Some afternoon?" "I don't know, my dear, it is to be a real trip—Foote and I—a two days' trip to the lake." "Oh!" she said, and there was a world of meaning in the "oh." "What's the trouble?" "I thought you were planning a—a trip for you and me." "I don't remember," said Mary in a colorless voice, and she went off hurriedly to look for my poles and reels. "I wonder what the trouble is," I thought, staring after her. "If she doesn't like to fish, she certainly doesn't want to go. And a woman would complicate things considerably. This is to be a nice, leasy, comfortable sort of fishing party with no ballroom airs about it at all. Foote will likely want to fish without his collar, and if Mary went he couldn't." Mary came back into the room, and I knew by her face that there was something on her mind. "If I wait," I decided, "she'll tell me." There, in the difference between your first love and your second, and all the others. For the first year you always ask when you see the storm brewing, get into your very deep water. After that you wait, and a woman's explanation of her grievance is more or less apologetic when she gives it voluntarily. Mary's search for my fishing things was much too quick to escape my notice. She brought reels, poles and everything in the house that had to do with fishing and put them in a pile beside me. "Of course," she said after a long pause, "I've never been alone in the house before." I knew positively now that we were in for it.

Where Water Is Never Used For the Bath

By TEMPLE MANNING

Of course it's in the Arctic, where the cold is so intense that unconquered territory is difficult to find, that water is never used for the bath. The Eskimos, who spend their lives in the lands of a nearly year-round winter, really know nothing of personal bathing as we know it. They have a method of their own. To the Eskimo, oil—not kerosene, but whale or seal oil—is used for food, for

## Advice to Girls

By ANNIE LAURIE

DEAR ANNIE LAURIE: I am a young man 21, and I am going with a girl of 18. She is very much, but I have not told her so yet. She says she likes me, but has a lot of boy friends. Please, dear Annie Laurie, tell me what to do. I am 21, my dear F. D. G., I would laugh just a little and feel sorry for you for the girl of 19 who said "she liked a fast life." But I don't think that my laughter or my sorrow would make her any the more than I would were she just some poor, foolish, little bit of a girl who was playing around with me. The next time I saw him he would not feel very friendly disposed toward him. I am 18 years old, and I should be very grateful if you would advise me what to do. HELEN H. I was 21, my dear F. D. ## Answers to Health Questions

S. S. Q.—What is the cause of pimples or boils on the gums?  
2—Please tell me the treatment for pyorrhoes?  
A—Internal defects and germs in the mouth cause them.  
2—Pyorrhoes is treated hygienically with one-half grain of emetine, with staphylococcus and streptococcus vaccines, with increasing doses of iodine of potash, beginning with 15 drops and increasing one drop at a time until 50 drops are being taken, with scraping of the teeth by a dentist. All of these must be done.  
G. A. G.—Will you kindly suggest a remedy for a bad digestion?  
A—Eat figs, baked apples, grapes, spinach, stewed pears, prunes, prune juice, cereals, wheaten grits, mush, cornbread, and drink two glasses of distilled water one-half hour before meals. Take seven grains of oxide of magnesia before meals and six charcoal tablets after. Sleep in a well ventilated room, get more sunlight and fresh air.

## VERY LATEST COLONIAL GOWN

Colonial Gown of Blue Pompadour Silk and Biscuit-Colored Chiffon.

## Shorter Skirts and Elbow Sleeves Mark the Mode

By ANNETTE BRADSHAW

THE femininity of the present modes delight the hearts of all who are partial to old-fashioned, picturesque frocks. There is scarcely a woman who, at some time or other, has not donned the elaborate pannered frock of the Louis Quinze period, the dainty, girlish costume of the First Empire, or the dignified, graceful gown of our own Colonial days. Perhaps you were it at a masquerade dance, to take part in amateur theatricals, or to pose in a tableau vivant, but never have you donned it to make an afternoon call or to attend a garden party. This, however, will be your privilege this year, for the modish woman of today appears in the costumes of other days. To be sure there are slight modifications which stamp them as a creation of the present and in most instances they are a great improvement over the past fashions. For instance, the lovely colonial gown pictured, that worn by Lady Washington or Dolly Madison. It has the same general effect, but there are little individual touches which rob it of any stiffness of line. It is a delightful combination of dull blue pompadour silk and biscuit-colored chiffon. The silk has a design in a pale tone of blue and is used to fashion the over-dress. This is draped over so slightly over the hips, to suggest the bouffant paniers, and the corners in front are pointed and extend several inches below the hem of the petticoat. The latter instead of being made of stiff satin or founce of lace, as in the days of yore, is of pleated biscuit-colored chiffon. This falls in wave-like folds when the wearer moves about. Like the Colonial frocks, this modern adaptation is quite short and displays to the best advantage the silk-stockinged ankles and the neatly shod little feet. "Like mice, stole in and out from beneath her silken petticoat." The bodice and the skirt of the over-dress are cut-in-one and the square décolletage is quite low in front but rather high at the back. The elbow-length sleeves are replicas of those worn in Revolutionary days and are trimmed with frills. The small hat designed to wear with this gown is of blue Georgeite crepe and biscuit-colored straw trimmed with pink roses. Rumors are afloat that the modern dancing will lose its popularity season-to-season and that next year's winter returns and that next season-to correspond with the picturesque modes—we will be treading the stately measures of the minuet and the Sir Roger de Coverly.

BIG GOLD SHIPMENT REACHES NEW YORK

Morgan Receives Approximately Twenty Millions in Bullion From England.

ALSO BLOCK OF BONDS

Twenty to Thirty Million Dollars in Securities Arrive on Warship.

NEW YORK, Aug. 11.—J. P. Morgan

and Company announced that the shipment of gold they received today from London via Halifax, amounted to 1,050,000 ounces of United States gold coin. On the basis of \$18.804 an ounce the total value of the gold would be \$19,534,200. It was rumored in Wall Street that the gold and securities totaled between \$20,000,000 and \$30,000,000 and it was generally stated that the securities were chiefly American railroad bonds and preferred shares of American railroads.

Convoyed Thru War Zone.

It was brought over in a British battleship, which was convoyed thru the war zone and across the ocean by a cruiser and a flotilla of torpedo boat destroyers to guard against an attack of German submarines. The cost of transferring it from London to New York was estimated today to have been \$250,000.

It was said that the British battleship

brought over not only the \$22,000,000 in gold and securities for New York, but also a shipment of gold destined for Canada whose treasury recently sent gold amounting to \$133,000,000 to New York.

Secrecy was maintained in sending

this great shipment of gold and precautions were taken to prevent the German secret service from ascertaining the plan or route of forwarding it.

Greatest Risk Yet Taken.

At Halifax it was delivered into the custody of the American Express Company and when the armed train left that city, it was preceded by a pilot cutter for the purpose of testing bridges and to frustrate any attempt to wreck the train by the use of dynamite.

Robert E. M. Cowie, Vice-President

and General Manager of the American Express Company, said that this transfer was the greatest risk ever taken by an express company.

Eight policemen were sent to meet

the train here and guard the gold until it was delivered at the sub-treasury. J. P. Morgan & Co. of this city were the consignees.

The purpose of the transfer of gold

was understood to be to reinforce British credit here and to improve the exchange situation at a point where the pound sterling has depreciated of late. The securities are presumed to be American bonds to be used as a basis for further advances to the British Government.

BARRE WEDDING TINGED

WITH ROMANCE OF WAR

Contracting Parties Were Made Prisoners in Germany When Conflict Started.

Special to The Toronto World.

BARRE, Aug. 11.—At 3:30 p.m. today a wedding tinged with the romance of war took place in the Burdett Avenue Methodist Church. Allan Gale, the contracting party being the bridegroom, and Miss Mary Flint, the bride, were the contracting parties.

Both the bride and groom were students in Germany when the war broke out and both experienced great difficulty in escaping from that country. Mr. Luke was the first Canadian to be imprisoned, being imprisoned there twice before he regained his freedom. Miss Flint, who spent five years at the Leipzig Conservatory, Germany, was on the eve of graduation when expelled.

LAY CHURCH CORNERSTONE

NEW ST. VINCENT DE PAUL

Archbishop Will Preside at Ceremonies Next Sunday Afternoon.

On Sunday afternoon, Aug. 15, at 3 o'clock the cornerstone of the new Church of St. Vincent de Paul, corner of Bloor street and Romanelles avenues, will be laid by His Grace Archbishop McNeil, and the sermon will be preached by Rev. Father Smith, a paragon from New York.

This will be the second church in Toronto to be erected by Rev. L. Minahan, the first being that of St. Peter's, corner of Bloor street and Romanelles avenues, in charge of the Paulist Fathers.

The ceremonies in connection with the laying of the cornerstone will be of an interesting and impressive character and will likely attract a large number of spectators.

GOES TO NIAGARA.

Claude A. McMurtry, R.F.A., while waiting to be called to join his battery in England, has temporarily taken a post at Niagara camp.

A writer in The American Journal of Botany gives the results of a study of the internal temperature of pine leaves in winter, obtained by means of a thermocouple apparatus. He found that these leaves, under winter conditions, maintain temperatures from 2 to 10 degrees (centigrade) higher than the surrounding air, owing to the absorption of radiant energy. The average of the readings taken in February between the hours of 8 a.m. and 6 p.m. was 10 degrees above the temperature of the air. This difference, says the author, is sufficient to be considered an important factor in photosynthesis.

MUSEUM TOWER HAS TO BE TAKEN DOWN

Ottawa Structure Erected in Laurier Regime Considered Unsafe by Expert.

By a Staff Reporter.

OTTAWA, Aug. 11.—The tower of the Victoria Memorial Museum, an immense structure, is to be removed. It is liable to fall at any moment and to avoid such a disaster the government has called for tenders for its removal. It is probable that the whole building may have to be taken down.

This museum, which contains the natural art gallery, was built by the Laurier government at a cost of one million dollars and was completed about six years ago. The foundation is upon sand and no sooner was it finished than cracks began to show in the tower and the walls of the main building. These cracks have been repaired frequently, but the conclusion has been reached after consultation with a prominent New York architect that it is impossible to repair the tower, and it must come down.

The public has been excluded from the building for some weeks and many of the art and other treasures which it contained have been removed.

WORK STARTS AT ONCE ON TORONTO HARBOR

Hon. Robert Rogers Attended Several Conferences and Announces Resumption of Operations.

"Work will be resumed on the harbor this week," said Hon. Robert Rogers yesterday, who was looking into the matter. The minister held several conferences with the Canadian Steamship Company, the Hon. J. G. Stewart, minister of marine, and the Hon. J. G. Stewart, minister of marine, and the Hon. J. G. Stewart, minister of marine.

He said that they had decided to delay the work no longer, but go at it bigger than ever. The piles, which were put down in 1911, are now being replaced by larger ones, and the work will be taken out and larger piles substituted. This is to be rectified by the contractors at their own expense. There is no fault to be found with the materials; the faults lie in the work.

The fact was emphasized that the work will go on just as intended by the department, and carried to a successful conclusion. "That is, I believe," he said, "the only thing going to have one of the finest harbors in America."

ONE HUNDRED CANADIANS

QUALIFY AS AVIATORS

Many Already in England Receiving Special Training for Work at Front.

By a Staff Reporter.

OTTAWA, Aug. 11.—The one hundred aviators whom the imperial authorities asked for from Canada have now all passed the examination of the naval service department, and some are in training at Toronto, while others have already gone to England. Since many of the men showed a marked fitness for the work and a great many more wish to join the service, the militia department has sent an enquiry to England as to whether any more than the 100 are needed. Only the training in aviation is given in Canada. When the men qualify as aviators they receive military training for actual service at the front.

THEATRES

For the coming week at the Alexandra Edward H. Robins and his company will present a play for which he has received hundreds of requests from his patrons. This play is none other than that sweet comedy of domestic incompatibility, "A Woman's War."

Seldom has there been so much keen wit, so many bright lines and terse, telling epigrams crowded into three acts as in this new play. It is a dramatic affair, Thompson Buchanan, has done in this, his first effort. It is a farce that hovers on the brink of serious domestic drama.

LAWN TENNIS

Balmy Beach gave the championship aspirations of Row Beach a terrific job, handing them a lovely lacing to the tune of 6-0. Had Row Beach won this game they would have again been league champions and by now been the first holders of the splendid Kemp Trophy, which the league is competing for. The trophy was donated through the kindness and generosity of the Hon. A. E. Kemp, and the contest for it has aroused great interest throughout the eastern part of the city. Balmy and Row are now tied for first place in the league, and if Riverside succeeds in defeating Concord in the final game postponed from last Saturday there will be a three-cornered tie.

Saturday's Results.—Men's Singles.—St. Clair (Balmy) won from Dr. Jones (Kew), 6-2, 6-4, 6-4. A. McMichael (Balmy) won from Clog (Kew), 3-5, 6-4, 6-4.

Applegate and Edmunds (Balmy) won from H. Howson and Thompson (Kew), 6-4, 6-4.

Mixed Doubles.—Miss R. Brown and Courtney (Balmy) won from Miss O. Gould and Howson (Kew), 6-2, 6-4.

Miss H. Wain and C. McMichael (Balmy) won from Miss Ballie and Overend (Kew), 5-6, 7-5.

Miss Cook (Balmy) won from Miss I. Gould (Kew), 6-2, 6-3.

The results of the ladies' singles in the Broadview "Y" Club tournament are as follows: Mrs. Rife beat Miss O. Madden, 3-6, 6-3.

Miss Davidson beat Miss E. Madden, 6-2, 7-5.

Miss Pollock beat Miss Walker, 10-8, 7-5.

Miss Bailey beat Miss O. Gould, 6-4, 7-5.

Miss Chisholm beat Miss Dixon, 6-1, 6-1.

Miss Davidson beat Mrs. Rife, 6-3, 6-4.

CRICKET CLUBS TO BUY MACHINE GUNS

Will Raise Money to Help Sportsmen's Association—Interesting Meeting.

The largest gathering of cricketers ever held in Toronto was held at St. James' parish house last night to decide what they should do in support of the Sportsmen's Patriotic Association.

V. Paris, captain of Grace Church Club, was voted to the chair, and H. G. Greer, K.C., president of the association, set forth the objects of the organization in a lengthy and interesting address, receiving at its conclusion a most hearty vote of thanks for his attendance.

Then the meeting got down to business and numerous suggestions were made as to the best way in which the cricketers, who have sent 200 men to the front, could help the funds of the association.

It was decided that each club should open a subscription list among its own members, the amount collected to be returned on Sept. 4.

A subscription cricket match, to be played as soon after Labor Day as possible, will be played at Varsity Campus, and the executive committee was instructed to procure the two strongest possible elevens representing the club and C. & M. League, or All-East V. All-West Toronto.

The committee was elected as follows: Chairman, E. S. Jackson; Messrs. W. Foster, T. F. Wood, E. Ward, J. P. Sampson, W. Paris and H. Blackwell.

The proceedings throughout were most enthusiastic and with the exception of Rosedale and Toronto, every club in the city was largely represented.
