## BORDEN MAKES OFFER TO ALLOW LAURIER TO ATTEND CONFERENCE

Willing to Grant Interim Supply on Condition That House Adjourn Till After Conference and Coronation—Uncompromising Opposition to Reciprocity.

### LAURIER SAYS HE MAY HAVE TO ABANDON TRIP

OTTAWA, April 28.—R. L. Borden, the Conservative leader in the commons, today volunteered to offer no hindrance to Sir Wilfrid Laurier's attendance at the imperial conference. He did so in the following terms:

"There are three courses which would permit the prime minister to attend the imperial conference in the present session of parliament should not have come to a conclusion at the time when it will be necessary for him to leave. He could proceed to the conference, leaving his colleagues in charge of the business of the house, which is one alternative as to the expediency of which I am not as good a judge as the prime minister himself. I can frankly say that that is a matter about which it is only right and about which it is his duty to exercise his own judgment.

"In the second place he can bring the session to an end, leaving some of these very important matters unfinished and letting them stand over to another session. It has already been intimated to us that the Bank Act will not be pressed at the present session. If that is to stand over to another session there must be no particular reason why the proposals for closer trade relations with the U. S. should not also stand over until another session. I do not want to enter into any controversial observations with regard to that. I only mention this as another alternative which is open to the prime minister in this regard.

"Then in the third place he can adjourn this session of parliament for two or three months, or whatever length of time may be necessary to enable him to attend the imperial conference and the coronation. After the coronation has taken place after the conference the session can be resumed.

"I would cede interim supply. I desire to say now that the purpose of facilitating public business would be prepared to give an interim supply to such an extent as the public interest would demand. It is the duty of the prime minister to see that it follows that course.

"So far as reciprocity is concerned, I have always said that we do not see eye to eye across the floor of this house. Our own attitude in regard to that is one of uncompromising opposition for the reasons which I do not doubt that the result of these proposals, if they should be carried into effect, would be disastrous, not only to Canada, but to the world.

Mr. Borden asked the prime minister what his intentions were.

"I may say," replied the premier, "that I desire to attend the imperial conference, not only because I have been invited, but because in the last conference in 1907 the permanency of imperial conferees was determined. It was decided that it should meet every four years, and be attended by the prime minister of Great Britain, the colonial secretary of Great Britain, the prime minister of the self-governing Dominions, and such members of the cabinets that should be selected.

The request will be continued Monday evening with a long list of witnesses to be examined, and the prospect of the re-examination of several of those already heard.

**Passers Heard Row.**  
THOMAS CONWAY, 55 FRIZELL-STREET, a clerk, was on Amnes-street about 10 o'clock, riding west with a friend. They heard a row and stopped in front of 40 Amnes-street. The row was both in the house and in the lane. Two women closed the front door and came out. Then Cecil, the dead man, came out of the front door, sixty seconds after they did so. A moment later Pazanne came out the front door and seemed to conceal something under his coat. He thought it was a knife. He went up the archway and a moment later a great noise was heard. Cecil and Pazanne were the only Italians he saw. There was no blood on Pazanne when he saw him come out of the house. But he had a cut at the back of his head when he was arrested and brought out of the house a few moments later.

Louis Weinacht, 507 Givens-street, a clerk, who was with Conway, corroborated his companion in every detail.

**AVERTED A STRIKE.**  
OTTAWA, April 28.—Hon. Mackenzie King, minister of labor, received word today of the conclusion of an agreement between the Canadian Northern and its maintenance-of-way men, involving some 1200 employees. Correspondence had shown that falling in conclusion of an agreement by four o'clock today, an order calling a strike along the western lines of the Canadian Northern would have been issued this afternoon by the president of the International Order of Maintenance-of-Way Men.

## LAURIER REFUSED TO DOBB HIS COLLEAGUE

Drew Attention of Commons to Story Accusing Minister of Grafting, But Omitted the Names—Confirmed Statement That Charges Were Made as Alleged.

OTTAWA, April 28.—(Special.)—Sir Wilfrid Laurier drew the attention of the commons to-day to an article in The Toronto Telegram of yesterday, in which direct reference was made to himself and one of his ministers, who is understood to be Hon. Frank Oliver.

The premier read a letter addressed to himself, which the article contained. He did not say who the writer of it was, but it is believed to be Daniel McGillicuddy, formerly editor of The Calgary News. The letter is as follows:

"I see that you are having troubles of your own by the defection of the 'Young Napoleon' on the trade question and in other ways. The other ways are the more serious. Only in one instance in the history of Canada has the trade question played a part in making or unmaking a government and that was in 1878. Even then, as you well know, there was contributory negligence on the part of the government.

"Clifford Sifton's defection on the present occasion will not count against your government. He is a successful lemon-politically and without patronage, controls no following.

"Neither your government nor any other government will fail except from weakness on the inside. That was what happened to the Tories in 1896. Members of the cabinet had become corrupt and the McGreevey-Langevin scandal, aided by the Manitoba school bill and cabinet crookedness, did the rest. Recently evidence had come to me that one of your colleagues is a grafter and a boodler. I shall be in Ottawa for a few days, and am willing to submit strict evidence, if you are willing to submit his evidence.

"I arranged a meeting. Accordingly the premier arranged a meeting with Mr. McGillicuddy, a gentleman waited on me several times," said Sir Wilfrid. "Without committing my memory as to the number of times, I do not know the name of one, but the tenor of each conversation between us on those occasions was of the same nature. The gentleman in question, with whom I had in former years friendly relations, but with whom I have not been in communication for many years, called on me and gave me the name of one of my colleagues and said that he had lost the confidence of the party, particularly in his own province, and that he was a boodler and grafter, and for these reasons should go out of the government. I said I had no reason to doubt the truth of his statements, but that I would not accept the alternative he mentioned, namely, 'Should you see fit to take immediate action it would go no further, but the alternative would be to place the documents, letters and photographs of cheques in the hands of the opposition.'

"I stated to my informant that I would not take any such action as he suggested under such terms, and that I had the fullest confidence in my colleague, that I believed in his honesty, and that if it were shown that my confidence were misplaced he would have to take the consequences. My informant was free to take such steps as he pleased to place papers and documents in the hands of the opposition, but he was not to take any such steps as to take the consequences, but if not, it was my duty to stand loyally by him. This is the gist of any conversation I had with the gentleman. This is the position I take and I leave that position in the hands of parliament and the country."

**REACHES TO EDMONTON.**  
EDMONTON, April 28.—(Special.)—The Toronto Telegram's sensational story, emanating, it is believed here, from Dan McGillicuddy and aiming at the Hon. Frank Oliver, as it is supposed, is the outcome of the family quarrel in this province last year over the waterways deal.

The prominent Liberal most affected by the mix-up was the Hon. Charlie Cross, the attorney-general of this province, and it is said that he was the one who suggested the story.

**TO AID THE WEAVERS.**  
A successful concert and dance in aid of the striking carpet weavers was held in the Labor Temple last night.

**HORSE SHOW PATRONS.**  
This should be a big day for the sale of men's hats. If you require something very new in style and of absolute quality we would suggest that you visit the Dineen Company, 100 Yonge and Temperance-streets. Dineen is sole Canadian agent for Henry Heat's of London, England, and for Dunlop of New York. The store will remain open until ten o'clock Saturday night. Visitors to the horse show should call.

## A POLITICAL "SIMPLE SIMON"

He would kill the goose that lays the golden eggs.

## IMPERIAL OR CONTINENTAL

President Taft in his address at the banquet of the Associated Press and the American Newspaper Publishers' Association, took occasion to ridicule the notion that the United States desire to annex Canada. His disclaimer can be accepted in the sense that the republic has no present intention of compelling annexation by force against the will of the people of the Dominion. But there is not the slightest shadow of doubt that the responsible statesmen of the United States and the citizens generally desire to have the provinces of Canada incorporated into the union. From their point of view this is natural and many deem it inevitable notwithstanding the national aspirations of Canadians. In the meantime the president is ready to humor Canadian sentiment and to accept the presence on this continent of two English-speaking peoples, with independent types of national life.

But unfortunately for President Taft's disclaimer he proceeded to disclose that one of the main reasons for his advocacy of reciprocity is his recognition of the movement making for closer imperial union. He sees in this an attempt to separate Canada from the United States, and to make her part of an imperial commercial band reaching round the world from England to England again. The president thus confesses that he hopes through reciprocity to withdraw Canada from the chain of British states and to bring her within the sphere of influence of the republic. This is not annexation, but it means an attempt to change the course of Canadian evolution within the empire towards continentalism. If and when that is accomplished and the barriers that preserve Canada's fiscal independence are removed, annexation will not be the goal but political incorporation. President Taft has spread the net in sight of the Canadian people. Let it be in vain.

**\$200,000 FOR FARM LAND**  
Big Purchase in Neighborhood of Mimico Now Completed.  
Acting for the most part on behalf of English capital, Sydney Small, broker, has completed the purchase of practically all the strip of land from the Lake Shore Road at Mimico, northward along the C.P.R. Islington line, to the junction of that line and the C.P.R. Lambton line. This takes in a stretch of about two miles by about half a mile, altogether about 400 acres. The prices paid averaged approximately \$50 per acre.

**DRIVER HELD BLAMELESS**  
Street Railway Contributor to Accident Which Cost Lady's Life.  
"We find that Mrs. Rebecca Taylor came to her death by being run over by a delivery wagon of the T. Eaton Co., while trying to board a car. We find the driver blameless, and further find that the Toronto Railway Co. was contributory to the accident in not stopping the car at the regular stopping place." This was the verdict of Coroner Clendenning's jury at the inquest last night.

The woman was struck by the wagon while stepping back to the curb at Bathurst and Arthur-sts., April 18. She had attempted to board a Bathurst car, which was shown not to have stopped for her. She was removed to the Western Hospital, where she died two days later. She lived at 55 Bellevue-ave.

**Accosted in Gas Well.**  
ODESSA, Sask., April 27.—A young man named John Frankish of Sinta-lutta, Sask., was suffocated by gas in a well in which he was boring on Geo. Frank's farm. He was down 50 feet when something broke in the boring outfit.

## DEMOCRATS' AIM IS ANNEXATION SAYS PRINCE

Republican Member of House of Representatives Warns Canada—Reciprocity and Free Trade Only First Step—"When We Get Control of a Country, We Take It."

WASHINGTON, April 28.—Another declaration that annexation is the desired end of the Democrats in pushing reciprocity; an attack on the post office department as the "greatest political organization of their kind in the land"; and a speech by a new member of the house revealing rumors of a tariff fight in congress, featured today's debate on the free list bill now pending before the house. Other subjects under the latitude of debate.

Mr. Prince, of Illinois, republican, attacking the Canadian reciprocity bill, sounded the annexation note. President Taft's speech in New York Tuesday furnished his text. He said that the pouring of Americans into the Canadian northwest and the attitude of the controlling forces of the Democratic party, could mean nothing else than annexation, reciprocity and partial free trade with Canada being the first step towards that end. "I SAY TO OUR NEIGHBORS ON THE NORTH, BE NOT DECEIVED," SAID MR. PRINCE. "WHEN WE GO INTO A COUNTRY AND GET CONTROL OF IT, WE TAKE IT. WE TAKE HIS OUR HISTORY, AND IT IS RIGHT THAT WE SHOULD TAKE IT IF WE WANT IT. AND YOU MIGHT AS WELL UNDERSTAND IT. THE SPEAKER HAS SAID; THE PARTY BACK OF HIM HAS SAID, AND IT DOES NOT DENY THAT IT IS ITS DESIRE."

Mr. Prince declared that the reciprocity bill was the worst bargain ever driven by one nation with another and that the Democratic farming free list bill ought to be labeled the "farmers' take bill."

The real climax of the session came when Rep. Kent of California, new republican member, who succeeded Duncan McKinley in the house, delivered a semi-humorous speech on the general subject of reciprocity, warning of "revenue tariff upon necessities."

"I am a republican, or what used to be a republican," Mr. Kent observed, "but I believe in the protection of infant industries that stand some eventual chance of becoming self-supporting. But many industries, having been established by the tariff, are required to hustle for their livelihood, but have been carried bodily to a ward in the hospital where our stand-paist advocates keep them there until all remedy to be doctored, nursed and nourished at the public expense."

Mr. Kent said that a protective tariff was the inspired word of God, and that "half of my goods" set the right example.

When they got to heaven the mite box people and the tithing givers if given five-cent pieces to count continuously would be happy. That would be heaven to them.

Mr. Blake reminded the graduates that as Wycliffe men it was their duty to maintain that "the whole Bible was the inspired word of God," and that "the salt of the Church of England is its Protestantism," and that "our church has no right to exist except as a Protestant one."

Wycliffe now had graduated 199 men for the ministry, and in its own halls and under former Wycliffe graduates at Vancouver and Saskatoon had now 200 more preparing for the ministry.

Hon. J. M. Gibson was present for a short time, and extended congratulations.

Rev. Dr. Tucker spoke of the gospel needs in Canada and the foreign fields.

**J. V. MURDOCK CHEERFUL ON WAY TO KINGSTON**  
His Case Misrepresented, He Says—Means to Make What Reparation He Can.

J. V. Murdock, the Jarvis barrister, who was sentenced by Judge Douglas last Tuesday to six years in Kingston Penitentiary, passed thru the Union Station last night on his way to Kingston, arriving from Capua in company with Sheriff A. McConnell and County Constable Walker, both of Capua.

In an interview with The World Murdock said his case had been grossly misrepresented thru the channels of the press, which, he considered, had given undue publicity to the whole affair.

"It is up to me," he said, "to make up for what I have done as well as I can, and I mean to do so, and anyone who has acted half decently will never lose a dollar."

Asked as to whether he considered his sentence severe, he replied: "I tremendously so." "I was charged with five indictments," continued Mr. Murdock, "and I gave five to the crown of my own free will, and yet I received as heavy a sentence as Travers, who was charged with a graver offence."

Murdock instanced the case of A. Kindy, who forged a check of property worth \$10,000 and got off with suspended sentence. "I hope you will let the public know," said Mr. Murdock, "how much I appreciate the kindness and consideration of all the officials, who have treated me most satisfactorily all thru, and I wish to mention the name of the sheriff, Sheriff McConnell. The jailer at Capua said I was a model prisoner. Asked as to what he expected to do after his liberation, Mr. Murdock said he had made no plans for the future as yet.

He was in the best of spirits, and laughed and chatted with the writer who has made everything as pleasant for the prisoner as circumstances will allow.

"I know I have made a mistake," said Murdock to The World man who bidding him good-bye, "and I mean to go thru with it as best I can."

### HAMILTON HAPPENINGS

#### NO CHANGE IN PERSONNEL OF DEPARTMENT MADE

#### Action of Board of Enquiry Into Sewer Bungle Will Be Drastic, However.

HAMILTON, April 28.—The civic committee which opened the investigation in the city engineer's department this morning concluded its inquiry at six o'clock this evening. No action will be taken by the board of control in the matter, however, until its next meeting, which will probably be held next Tuesday, also a special meeting may be called by the Mayor on Monday. No member of the board of control would intimate the night what the board's probable action will be.

While no definite information is obtainable it is believed that no change in the personnel of the engineer's department will be made. There is no doubt, however, that the board will easily be able to fix the responsibility for the blunders made on the Hilliard-street sewer, and that the board's action will be drastic enough to assure the absence of similar bungles on any future public works of which the engineer's department may have charge.

The investigation committee spent two mornings in delving into the Hilliard-street sewer matter. The evidence showed clearly enough that inexcusable blunders had been made, but the city engineer, his assistant, the inspector and the contractor were all convinced of their blamelessness in the matter.

In the afternoon the committee took up the base line sewer and the water works system. No startling information was disclosed in connection with these matters, also evidences of carelessness in several instances were noted.

**A Co-operative Society.**  
At a meeting called to-night to consider the formation of a co-operative society in Hamilton, a working committee was appointed to get things under way. It will be the duty of this committee to fully canvass the situation here and find out just what can be done. Mr. Keene of Brantford explained the workings of the co-operative union.

Alan Studholme, M.L.A., who is deeply interested in the movement, stated after the meeting that there is no doubt that a society founded on genuine co-operative principles will be formed here.

At a meeting of the Anglican laymen of the city this afternoon arrangements were completed for the entertainment of the lay delegates who will take part in the election of the new Bishop of Niagara here next Tuesday. A letter which has been circulated in favor of Rev. Canon Tucker of London received some criticism, but did not create the furor that was expected. As the election draws near the chances of Canon Abbott being elevated to the vacant bishopric seem to grow brighter. His following among the local laity is very strong.

**Looks Like Labor War.**  
Saturday promises to be the last day of peace for some time between the carpenters of the city and their employers. The former are firm in their demands for an increase in wages, while the bosses are apparently determined not to give in, and it is almost certain that May day work that is beginning of a bitter war in this branch of the building trades.

The property committee to-night considered the application of the City of Hamilton, for the use of a strip of ground on the market at the rear of the company's store, but took no action in the matter.

The secretary of the committee was instructed to notify the owners of the smoke consumer now in the city hall.

### EVERY GENERAL STORE-KEEPER NEEDS "FRUIT-A-TIVES"

Inkerman, Ont., Sept. 23, 1910.

"I am in the General Store business and have been a resident of Inkerman for thirty-seven years. Since I started this store four years ago, I have found your remedy 'Fruit-a-tives' the most satisfactory one I have sold. Many of my customers have used 'Fruit-a-tives' with the most beneficial results and I know of two cases that have been completely cured of Dyspepsia. I recommend 'Fruit-a-tives' on every possible occasion and would say that if every general store keeper who stocks medicine would keep 'Fruit-a-tives' prominently displayed, he would increase his business many fold."

ALEX LARUE.

"Fruit-a-tives" is the only remedy in the world made of fruit and the only remedy that will positively cure Constipation, Indigestion, Pain in the Back, Headaches, Rheumatism and all Kidney and Bladder Troubles.

to remove the apparatus, as it has not proved satisfactory.

The new grandstand in course of erection at Britannia Park collapsed this afternoon, and injured four carpenters who were at work on it. The name of one of the injured could not be learned. The others were Ezra Brown, 69 Catherine North; Robert Donkin, 646 East Bartonstreet, and Chas. Callum. None are fatally injured.

One week's option on the Stuart property at the beach at \$600 per acre was secured by the bank at its meeting to-night. The property consists of 60 acres.

A fire in the cupola of the burrow, Stewart & Minc, Co.'s plant, caused the fire department a run at 8.30 to-night. The damage was small.

Kitty Mack and three inmates of her resort on West Catherine street, were gathered in by Deputy Chief Whately and a squad of officers to-night. All were released on bail.

### BORDEN MAKES OFFER

Continued From Page 1.

**Can Block Reciprocity.**  
"By the rules which prevail in this house it is in the power of the opposition to block legislation almost indefinitely."

After noting that Mr. Northrup had stated in New York that the opposition would not allow the agreement to go thru, the premier concluded:

"If such be the temper of the opposition, I think it will probably make it necessary for me to revise my determination to go to England and to remain in Canada."

Mr. Borden in reply said:

"The prime minister has alluded to the fact that he took his passage some weeks ago and he intimated that the conditions to-day are not what he expected they would be. At least that was the impression I got from his remarks, and I do not desire to mislead him. If, in making that statement, he alludes to the debate which has been held in the house on the proposed trade agreement with the U.S., then I would like to inform him that some members on the other side of the house have been taking their turn on the debate, and have had their fair share in it. I venture the statement, that as much time has been taken by government supporters as by gentlemen on this side."

"I do not need to go that far. I say that up to the present time the debate has gone on both sides of the house, and there was no occasion for the prime minister to make what regarded as an insinuation in expressing surprise that the debate had been so long protracted. I would like to say to him further that he did not meet in a very gracious spirit what I regarded as a pretty fair and even generous offer on my part. I said to him that we would consent to the adjournment of this house for two, three or four months, in order that he might have the opportunity to attend that conference and the convention. But I said something more: I said that we would consent to settle such interim supply as would provide for the purchase of the railway in the meantime and until we could resume. And the only answer that I received to that offer, which, as I say, I regarded as very fair, one, an insinuation from the prime minister and a quotation from some newspaper containing an alleged report of remarks by the hon. member for East Hastings. It does not strike me that that is exactly the spirit in which an offer of that kind should be received."

**Duties to the Empire.**  
"I would like to quote to the prime minister from the observations from his own renunciation minister in 1907, when this same question was to the fore. The finance minister said: 'There are duties to Canada which can best be performed in other parts of the world, and notably in the capital of the empire.' I think this is an occasion when the prime minister might have regarded, not only trade relations with the U. S., but to trade relations with this great empire to which we belong."

What are the subjects which are to be debated at that conference? They are some eighteen, in number: Merchant shipping and navigation laws; ocean cable rates; all red routes; imperial court of appeal; state owned Atlantic cable and telegraph lines across Canada; imperial representation; commercial co-operation for the encouragement of British manufactures and shipping; immigration and the position of labor; exchanges; co-operation between the naval and military forces of the empire and the status of Dominion navies. And, as the subject of naturalization, also it is suggested that the question of uniformity of laws is essentially a technical one and as such more properly be committed to a committee of the full conference sitting as a subsidiary conference. Nevertheless, that all important subject of naturalization is one which would command the attendance of the prime minister of Canada, in order that anomalies which now exist and which exercise a disintegrating influence upon this empire may be removed at the earliest possible moment.

**Imperial or Continental Obligations?**  
"The prime minister has expressed the importance of this trade agreement with the United States. I am willing to concede that from his point of view. We on this side are pledged to maintain a precisely contrary view, and, under the privileges of this country we are entitled to do so. We are entitled to our view and we propose to exercise that right. We have been told by ministers of the crown that the honor of this country is pledged to the President and government of the United States in connection with that agreement. Well, I do not propose to deal with the controversial aspect of that question, except to say that I do not know when the people of Canada gave any mandate to the prime minister or the government of this country to pledge the honor of Canada to these proposals. But I would like to say to the right honorable gentleman that if the honor of this country is pledged to the United States in respect to this matter, it is also pledged to the empire in respect to all the matters which I have just enumerated."

"It would seem to me that the question which must present itself to the prime minister is whether or not our trade and other relations with the United States are more important in his mind than our trade and other relations with this empire of which we form a part. I have made an offer to him which is as reasonable an offer, I think, as could be made by any man standing in my place under the circumstances as they exist today, and I have made to him a proposal under which he can attend the imperial conference and go on with the determination, if he persists in it, to force these reciprocity proposals thru this house."

"I have made that proposal to him for two reasons, because I know at his trade proposals appeal to him, but on the other hand our relations to the empire and the importance of his attendance at the conference appeal to us on this side just as strongly and more strongly than his trade agreement appeals to him. Therefore, conceding to him as much as he desires, I appeal to us on this side just as strongly and more strongly than his trade agreement appeals to him. Therefore, conceding to him as much as he desires, I appeal to us on this side just as strongly and more strongly than his trade agreement appeals to him. Therefore, conceding to him as much as he desires, I appeal to us on this side just as strongly and more strongly than his trade agreement appeals to him."

"I also ask that, without interference with that right, if he assumes it a right, he should also be invited to attend the imperial conference and discharge, as prime minister of Canada, the duty which he owes, not only to this country, but to the empire as well, so long as he continues to act in that capacity. Under these circumstances, Mr. Speaker, I trust the prime minister will reconsider the intimation which he gave in the concluding portion of his remarks, and that Canada, at the approaching imperial conference and the coronation as well, will be represented as it should, by the prime minister."

**REV. W. E. ANDERSON GOES TO BOSTON.**

At a meeting yesterday of the general supervising committee in charge of the laymen's missionary movement in the Presbyterian church, reports were of a satisfactory character, giving encouragement for an even more aggressive campaign.

Secretary Rev. F. W. Anderson was delegated to attend the next federal council of the movement at Boston next week.

Hon. W. A. Charlton was chairman and others present: Thos. Finlay, Thos. W. Gibson, Matthew Parkinson, John Lowden, Thos. Kinnear and C. W. Graham, Hamilton.

attributed the sea of trouble he got into to the influence of the Hon. Frank Oliver. Politically, it is said, that he has sworn to get even with the federal minister.

It may be that Dan McGillicuddy is one of the warriors in the army that Charlie Cross can muster at a moment's notice in Alberta to help him in his fight and his ambitions. There seems little doubt that the ferment now precipitated by The Toronto Telegram reaches back to this city and to the constituency at the next federal election.

Mr. Cross, to his friends, makes no secret of the fact that he will oppose the Hon. Frank Oliver in his own constituency at the next federal election. Mr. Cross believes his political career was interfered with by the Hon. Frank Oliver's holding up of the waterways proposal. Simmered down, the whole situation seems to be at least a fight between Cross and Oliver.

What is attracting most interest here is the question how the ledger of the Hon. Frank Oliver will be balanced.

## The EATON Piano---a Wonderful Value

As an instrument possessing the most beautiful tone and perfect action, and of a design that makes an attraction in any home, the EATON Piano has already established a reputation. With a guarantee as liberal as ours, those who've purchased the EATON have had every opportunity of testing it under every condition, and the all-round satisfaction the EATON has given is its greatest recommendation. Ask to see letters from satisfied customers.

In buying a piano price is bound to be a most important consideration and the fact that we sell a piano at such a remarkably low price is because we put a fair profit on actual cost of manufacture.

The artistic designing and beautiful finish of any piano case may be readily appreciated by most buyers, but the action and tone-producing parts are more or less a mystery, and herein lies the real value of any piano, and only time will show their real worth. Our unequalled and most liberal guarantee gives you every opportunity to discover the real and lasting

### G.N.W. IS CONTROLLED BY WESTERN UNION

United States Company Tried to Eliminate Competition by Having Ally in Canada.

On the resumption of the general enquiry into telegraph tolls by the railway commission yesterday morning, Fred Koper, secretary-treasurer of the Dominion Telegraph Co., told the story of the absorption of the Vanderbit telegraph system by the Western Union in 1878, and the subsequent alliance with the U. S. W. to control Canadian business. He told how the G.N.W. had leased the Dominion Telegraph Company's lines for 99 years, on which the late Jay Gould owned \$200,000 stock in the Dominion Telegraph Co., on which he received a dividend of \$78,000. The Dominion Co. was liquidated at \$1,000,000, on which \$253,300 was paid up. Mr. Koper had no doubt that the Western Union had a controlling interest in the G.N.W.

At this point Mr. Perry stated to the commission that he did not propose to go into the case further at the present time. He asked the C. P. R. to prepare statements, and the chief commissioner advised: "Don't give us too many figures. We have more figures here now than we will be able to understand."

To the C. P. R. lawyers Judge Mabey stated that the statements should go back to the time when the company started business.

Isaac Pitblado asked General Manager Perry why a cable message from Ontario or Montreal to Great Britain cost 25 cents in a word, while one from Winnipeg cost only 34 cents a word, of a 10-word cable message from Winnipeg to Montreal costs 90 cents, while a 10-word telegram for the same distance was only 75 cents. "Difference in the class of business," was the only explanation Mr. Perry could offer.

Commissioner Scott here asked if Mr. Pitblado was not unduly enlarging the scope of the enquiry, and that it was to be confined to the rates of the west. "My instructions from the government were that it was to constitute a general enquiry," said the western commissioner.

"Yes, and thru all this nonsense about general enquiries, I get flummoxed into the things," said the chairman amidst laughter.

### HYDRO POWER IN TORONTO.

On Tuesday night the hydro-electric power in Toronto will be formally turned on. The Sunday World this week carries on its front page a number of views of Toronto's business streets taken after nightfall. These streets, which have the hydro clusters, are fairly ablaze with light, and only a few minutes' exposure was required to make the pictures. One can get a pretty accurate idea of the splendid lighting system of Toronto.

The illustrated section also has pictures of prominent candidates for the vacant Anglican bishopric of Niagara at the convention of the Young People's Baptist Association, Hamilton; the new bride over the Don; a group of the Hearts of Oak Society; the Boy Scouts' manoeuvres; sailing on the Lambton Links; and many other interesting groups and individual pictures.

### CANON DOUGLAS WANTS COMMANDMENTS REVISED

Would Restore "What Scholars Are Agreed Was the Original and Shorter Form."

WASHINGTON, D.C., April 28.—"Revise the Ten Commandments," urged Rev. Dr. Geo. A. Douglas, canon of the Cathedral of St. John the Divine, New York, in speaking at the 25th congress of the Protestant Episcopal Church on "the need for prayer book revision to meet present day conditions."

"Let us have the courage," he said, "to restore our prayer book version of the Ten Commandments to what scholars are pretty generally agreed was the original and shorter form."

He said that with prayer book revision in line with the movement for church unity, the Roman, Greek and

### WOMAN MURDERED

Found in Woods With Face Beaten In With a Club.

LAKEWOOD, N.J., April 28.—Mrs. Charles Turner, a pretty brunette of middle age, was found murdered in the woods behind a building on Fulton-street this afternoon. The woman's face had been beaten in by a big club, which had nearly stained with blood.

The body was found by Arnold Turner, her nephew, who was ranging about the country on horseback today in search of a suit. She had been missing since Wednesday, when she left her home on Spruce-street to deliver some dresses which she had made for women inmates of a local sanatorium. She was seen taking a short cut path thru the woods to the sanatorium that afternoon, but she never reached the place.

A negro was arrested at Farmingdale late this afternoon on suspicion that he knew something of the murder, but he repudiated an alibi, which satisfied the coroner and prosecutor, and he was allowed to go.

### Diseases in Schools.

In the "after-the-holidays" inspection, the medical inspectors discovered about a score of pupils suffering from contagious diseases attending school as usual.

One had diphtheria. Some had mumps, and most of the cases were scarlet fever.

### LAKE WATER FLOWS FREELY

Bulk of City's Supply is Now Coming From This Source.

The city is now getting fully three-fourths of its water supply thru the temporary intake, and it is expected that by the first of next week the entire supply will be drawn from this source. In the meantime, there are bulkheads placed right-way up the slope at the first manhole and the shore crib to stop any sand coming thru and centrifugal pumps are kept constantly running both at these points and the temporary intake.

The mayor paid a visit to the island and went over the ground where the repair work is in progress.

The city board of engineers, J. G. Sing, Isham Randolph, Willie Chipman and T. Aldred Murray also spent a part of the day on the island.

### Three Nights' Illumination.

The illuminations in front of the city hall, which will be turned on next Tuesday evening at the hydro-electric celebration, will be left on for the two nights following. By this arrangement it is intended by those in charge to give all citizens who are not able to get a good view on the night of the celebration, an opportunity of seeing the illumination under what will perhaps be more advantageous circumstances.

### Queen's Alumnae Organized.

KINGSTON, April 28.—(Special.)—Women graduates and alumnae of Queen's University organized the Queen's University Alumnae Association. The following officers were elected: President, Miss S. Harry, Ottawa; first vice-president, Mrs. J. McGillivray, Kingston; second vice-president, Miss Redden, Kingston; third vice-president, Miss Mowat, Kingston; secretary, Miss M. MacDonnell, Kingston; treasurer, Miss E. Goodwin, Kingston.

### HURRYING HYDRO POLES

One Hundred and Fifty Cement Ones Being Turned Out Daily.

The city electrical department are at present manufacturing concrete poles at the rate of 150 per day at the Strachan-avenue yards, and will next week start out an extra force erecting poles.

Until the various streets of the city have one row of lights, it is not likely that the work of establishing the second row will be commenced. One reason for this is that the department wishes to be in a position to take over the lighting that is being done on the streets by the Toronto Light Company and this can more readily be accomplished by establishing a partial lighting system first.

### A GOOD MEDICINE FOR THE BABY

Baby's Own Tablets is the one medicine that can be given little ones with the firm knowledge that nothing but good will result. The Tablets are sold under the guarantee of a government analyst to contain no opiate nor any other drug which will harm the youngest child—they cannot possibly do harm; they always do good, and once a mother has used them she will never again give her little one another lot of the "soothing" stuffs which simply drug baby into temporary relief and in the end do harm. Mrs. Phyllis Partridge, Frampton, Que., writes: "Send me two more boxes of Baby's Own Tablets. I have used them for constipation and have always found them very good. My baby is certainly progressing under the Tablets." The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

## Note and Comment

There are several owners with the best stables at the show. Hon. Straton of Peterboro excels in harness horses. Senator Bell of Bowmanville is handling a lot of prizes with his high jumpers and ponies. Hon. Clifford of Ottawa handles a fine lot of horses for all round hunters, and has the most horses at the show. Bert Cox of Oakville would likely see the diploma as an all-round showman. Sir Henry Pellatt exhibits valuable harness-horses. E. Yeager of Simcoe has the champion high stepper, Earl Gray, winner of a King Edward trophy. D. Warren is a prize winner in the harness classes. Miss Wilkes of Galt is not so successful as in former days. Crow & Murray of Toronto are, as usual, getting the best share of the ribbon in the saddle and harness classes.

A special stepphase will be run at the meeting of the Meadow Brook Stepphase Association at Belmont Park Terminal next Saturday, under the following conditions: By subscription of \$500 each, \$100 for the day. It is declared by the board of directors, owners to ride: H. S. Page's Oakleaf and Malcolm Stevenson's Tama coming formerly owned in Toronto, to start on no race, about two miles over the regulation course.

Everybody will extend the hand of sympathy to the president in his hour of defeat. Well, they cannot win all the time, and six straight was the record for his league this year. Anyway, McCaffery was not to blame. He was very home, and cannot be charged with any errors of commission. Better luck to-day!

## PROVIDENCE DEFEAT LEAFS IN ELEVEN INNINGS GAME

With the Victory Cinched They Threw It Away by 1-2 Errors—Other Games.

PROVIDENCE, R.I., April 28.—Coming down the line with an unbroken string of victories, Toronto was defeated today by Providence 9 to 8. The game was characterized by heavy hitting and errors. Providence drove both Backman and McGilley out of the box, while Toronto made Joe Loyke take to the woods. The Canadians had several errors and the Greys were a close second with six. It was Muller's fumble in the eleventh that let in the winning run.

Toronto got one in the ninth on Bradley's triple and Phelps's sacrifice fly. Providence came right back in their half inning. Rock was safe on Bradley's fumble. Tarleton sacrificed Rock, scoring on the error of Peterson.

There was no scoring in the tenth. In the eleventh Jordan walked, Bradley sacrificed Phelps single, but Joe Loyke was caught at the plate on a close decision. Manager Kelley kicked up a prelude to the game when he ordered the first man up, was safe on Vaughan's error. Peterson sacrificed him along and he scored the run that won the game when Muller fumbled Maroney's hit.

### Oarsmen Organize For Annual Regatta On Dominion Day

### St. Matthew's Skips Lawn Bowling Club Ready For Season

The first meeting of the annual Dominion Day Regatta Committee was held in the Toronto Rowing Club last night when the following officers were elected: Chairman, F. J. Mulqueen; vice-chairman, H. S. Sherrard; hon. secretary, Jas. J. Dolan; assistant secretary, H. H. Nightingale.

The following clubs were represented: Toronto Rowing Club, P. J. Mulqueen, R. Hill; Dons, T. H. Murphy, A. C. MacIver; Toronto Swimming Club, H. H. Sherrard; Toronto Canoe Club, E. T. Hoare, R. Will; B.C.C., Hugh Stamer, John Vale.

The members are enthusiastic over the prospects. The greens are the best, now under the care of a group of men from Scotland. The secretary, Spears, Tel. N. 216, will be pleased to arrange game with other clubs.

Caer-Howell Lawn Bowling Club. A meeting of the members of the Caer-Howell Bowling Club for reorganization purposes and the election of officers will be held at the Gladstone Hotel, 711 Queen street, on Tuesday evening next at eight o'clock.

New York Sun. Willie Keeler has come back. The little fellow is playing great ball for Toronto on former days. He is hitting with his usual skill, and his hitting of speed is running the bases. Keeler appeared to be all in when the Highlanders let him out a year ago, and he was not ready to play. He lacked sufficient form to warrant his appearing as a regular. But with his keen chin, Joe Kelley, who has become rejuvenated, and is hitting up a fast pace. Kelley has included the veteran, Tim Jordan and Bill Bradley, with renewed vigor, and Toronto is again being led by the old-time Toronto players. If these old players can keep up their present rate, it is predicted, the Eastern League title will not be a snap for the Rochester champions.

According to the program, as outlined in the World last fall, the new Toronto hockey arena will be erected on the site of the present Mutual-Security Bank in the present owners, the Messrs. Tait and the other Toronto gentlemen in the enterprise are Sir Henry Pellatt, J. C. McMillan, Jarvis and George M. Beadman.

Montreal will also supply some of the capital, those interested from the Royal City being Messrs. Robert Redford, W. G. Carr, Hugh Mackenzie, H. E. MacDougall, Godfrey Bird, A. G. B. Claxton, William Taylor, R. Logan, O. A. Ross and K. W. Bickwell. The plans are now being prepared by the Montreal architects, Messrs. Ross and McFarland.

The arena will have an imposing entrance, the building running north and south, with an ice surface of 99 by 210 feet, and a seating capacity of 10,000. The new incorporators are the Toronto Arena Co., who have already taken over the property.

The work of raising the old Mutual-Security Bank will begin immediately on the return of Alex. Mill from England, who will supervise the work of the new company, and everyone will agree that no better selection could be made. The new arena will be ready for business next winter, even before back frost comes around, for there is to be an up-to-date artificial ice plant, and everything that goes to make up a first-class amusement amphitheatre of the kind.

PARLIAMENT MUST ACT.

The Toronto Telegram of Friday published the text of a letter addressed to Sir Wilfrid Laurier making charges against a colleague of his in the government and demanding that Sir Wilfrid dismiss the minister so named from the cabinet. The Telegram withheld the name of the writer of the letter and the name of the minister charged. It also published a letter of the prime minister's secretary, addressed to the man who wrote the letter containing the charges. This letter made an appointment for the writer of the charges with the premier. The Telegram said that several interviews took place between the two and that in one of these Sir Wilfrid Laurier said that he had seen his colleague, that he had asserted innocence of any wrong-doing, and that he would stand by his colleague.

The World read all this and as a newspaper concluded that a letter written to a prime minister, concerning the conduct of a minister, once it was published, even if never published, was a matter of public concern and must be disclosed. It belongs to the public.

The World asked its Ottawa correspondent for further information. That information was published in this paper yesterday. It was to the effect that the writer of the letter was Daniel McGillicuddy, a well-known newspaper man, who had been owner and editor of a Liberal paper at one time in Ontario and later of a paper in Calgary. Also that the minister charged was Hon. Frank Oliver, minister of the interior, who is also owner of a paper in Edmonton. The World published this statement yesterday. Its correspondent said it was more or less a matter of talk at the capital that these were the parties concerned, and that the charges published in the Telegram and the documents that formed part of them were offered to several papers.

The World believes that once the letter to the prime minister came out the public had a right to know who was the writer of the letter, who was the minister charged and what was the bank, whose ledger containing the minister's bank account had been photographed. It seems now that it was in an Edmonton bank. [Calgary and Edmonton seem to be the storm centres.] We still believe in this view of the fullest publicity. Sir Wilfrid Laurier brot up the matter in the house of common yesterday. He admitted the letter, the cheques, the interviews, and the reply he made. He said that he believed in his colleague's honesty and would not act on the request for dismissal. Especially in view of the threat that if the action he had been asked to take was not taken, the charges and documents would be turned over to the opposition. Sir Wilfrid concluded his speech by saying he left the matter in the hands of parliament and the country.

But he did not name the writer of the letter. After this declaration of the prime minister parliament and the country must have all the facts. They cannot deal with the situation without the facts, without the names. The responsibility is on parliament to get the facts. Mr. Oliver has enjoyed the confidence of the public of the west and of the whole country. He must know of his own innocence. He will, we imagine, feel it his duty to assist in any way he can that parliament to which Sir Wilfrid has left the matter. He may be the victim of hostile influences that centre in Alberta. It is not a crime for a minister to have a bank account.

Mr. R. L. Borden has only to ask for further information to get it and in this way assist a minister to clear himself. Sir Wilfrid Laurier to justify the stand he took in upholding a colleague, and to enable parliament, in whose hands the prime minister has left the subject, to discharge that responsibility. But Sir Wilfrid must also do his part. He must give the name of the writer of the details of the charges, the name of the minister concerned. Before the people, too, can do their part, and Sir Wilfrid has also left it in their hands, they must have more information. It is not in the public interest that a man should assail the character of one in high office without compelling him to make good or retreat. Parliament must take up the duty imposed upon it by the prime minister.

A GREAT CIVIC CENTRE.

By some peculiar freak in their mental make up Toronto newspapers can rarely agree about anything proposed by their contemporaries for the welfare of the city. They appear to be unable to judge any particular plan on its merits, but simply condemn it because it was proposed by someone else.

A notorious instance of this is the Bloor-street viaduct. Everyone admits that the viaduct must be built, but on one pretext or another it has been opposed or its postponement has been advocated until the cost has been doubled and is now being trebled by the appreciation of real estate and the increasing cost of labor and material. And the sole argument behind the opposition is merely that The World proposed it.

Of course, the people make a note of these things, and judge the other verdicts given by the press accordingly. The Globe, which aims at being "The Times" of Canada, should, above all things, cultivate impartiality, public spirit and foresight.

This division of opinion in past years has resulted in the piling up into an impassable barrier of a host of improvements, which should have been distributed over the past twenty years. The widening of Yonge-street could have been accomplished easily and at comparatively trifling expense twenty years ago, but the newspapers failed in their duty, then as they are failing to do in many instances now. The city hall square, which ought to occupy the block between Queen and Richmond, James and Bay-streets, was buried by the silly alderman and newspaper people of fifteen years ago.

Controller Ward has made a splendid fight for the seawall to the Harbour, which is one day going to be a glory to the city. But the silly critics talk about it as tho it were a fad upon which money was to be thrown away.

The Evening Telegram has made a specialty of the waterworks department, but has not been satisfied to be permitted to take the lead in waterworks criticism. It is, in sooth, difficult to support the Telegram in most of its civic policies, which usually consist in destructive rather than constructive effort. An attack is made on a policy or an official, and these attacks are made from the most inconsistent and opposite angles, any brickbat or missile that happens to turn up being used. Inconsistency in matters of this sort defeats its own ends.

We believe The World has the confidence of the public in civic matters, because the public interest alone is consulted, and plans and suggestions are considered on their merits, and approved or condemned utterly without reference to their source. The World does not claim infallibility as some of our contemporaries do, but the people appreciate the honest endeavor to work by the level and square.

It is in this spirit that The World would be glad to enlist the sympathy of its readers for the suggestion of The Globe that the block between the city hall and Osgoode Hall be expropriated by the Dominion government, and set apart for a group of federal buildings, a post office, a custom house, inland revenue offices, offices for the assistant receiver general and other departmental offices, as proposed by Mr. G. T. Somers, of the Sterling Bank, in a resolution adopted by the board of trade last week for submission to the Dominion government.

There is really no room for disagreement over a proposal of this nature, and if the press and the people, irrespective of party, will unite in its advocacy there can be no doubt that

FRUIT GROWERS AND RECIPROcity.

Dr. Buchanan of Beamsville, president of the Co-operative Fruit-growers' Association, is a man whose opinion on the reciprocity agreement is worth attention from those who are concerned with commercial aspects of the issues involved, the probable results on the tangible property of the country, and the general effect upon national development, rather than the merely political interests involved. Dr. Buchanan is cautious and moderate in his statements, which are based purely upon business experience, and are certainly not biased by political considerations.

On the broad question as to the direct result upon the fruit-growers he declares quite frankly that he does not definitely know. He finds fault with the government for not giving information to those concerned upon this point. If the government has information it should give it to those who need it. If the government has no information, then why, he asks, was the agreement rashly rushed into without some knowledge of the cost? There would undoubtedly be a great change in existing conditions if the agreement passed into operation. The free fruit-growers would undoubtedly suffer. The small fruit-growers might possibly benefit. There might over the whole trade be an average maintenance of the existing general level. But it would be giving Peter to pay Paul, and the whole issue would be problematical.

What, also, would the peach and apple and plum and other fruit-growers do when they were compelled to abandon their orchards? The farmer can change from oats to wheat, or grain to roots on a season's notice, but it is another matter when an orchard is in question.

The best that is to be expected from the agreement for the fruit-growers is an unsettlement of conditions, the outcome of which no one can forecast, but which there is a general belief would be of a disastrous character.

"On with the dance, let joy be unconfined," is all The Globe has to say to such arguments.

The Globe insists on counting Mayor Geary's chickens before they are hatched. This is hardly fair, even with the coronation incubator in full working order. One never knows whether any particular egg will successfully chirp. Mayor Howland was only rewarded with a C. B. If Mayor Geary is to be a knight, Sir James Whitney ought to be a peer.

If Controller Church does not feel capable of superintending the affairs of one of the proposed city departments, there is no reason why he should not give way to someone who is, in the judgment of the citizens, fit for the position.

Broom Tiers Get Increase.

An entirely voluntary increase in wages has been granted to the Broom Tiers in the Broom Manufacturing Department of the Bockch Bros. Company, Limited, of Toronto. For some years past the price paid for tying brooms was regulated largely by prison competition, which has now happily been done away with, and the company has, after careful consideration, decided to increase the wages of their workmen. In doing so, it has, however, been stipulated that every broom must be absolutely perfect, as otherwise it will be rejected by the firm's inspectors, thereby insuring to the consumer an article that will give the very best of satisfaction. The same rule has been in effect in the brush department of this company for some time, and has proved entirely satisfactory to all concerned.

SOME REPRESENTATIVE OPINIONS OF SUBSCRIBERS TO THE NEW (11TH) EDITION OF THE

Encyclopaedia Britannica

Several thousand subscribers to the new Encyclopaedia Britannica who recorded their applications in advance of publication recently received Volumes I. to XIV. of the work. The Cambridge University Press has received hundreds of congratulatory letters from those who are now in possession of these volumes. The following extracts are typical of the general comments made by subscribers in their letters, and demonstrate with what an extraordinary degree of satisfaction and enthusiasm the new work—particularly in the India paper flexible binding format—is being welcomed by all classes of the educated English-speaking public:—

From a Distinguished Editor

From Subscriber No. 100: "The hand does not now get tired before the brain."

"It is Magnificent" From Subscriber No. 1501: "It is magnificent, wonderful! I congratulate you on fulfilling all the hopes that you have aroused."

"My Delight and Happiness" From Subscriber No. 36: "After an examination of the books, I feel compelled to express to you my delight and happiness in being the possessor of such a beautiful work."

"More Than Satisfactory in Every Way" From Subscriber No. 2160: "The books are more than satisfactory in every way, and are a valuable addition to my library. Several of my friends who have seen them are unable to resist and are going to order the work."

"A Remarkable Book" From Subscriber No. 902: "I am very much pleased. The binding, paper, print and lightness make a remarkable book, and the contents are all that could be desired."

"Price 'Exceedingly Reasonable'" From Subscriber No. 2031: "The first fourteen volumes arrived the other day in most satisfactory condition, owing to good packing, and I am very much pleased with their appearance and contents. I think that the introductory price of four dollars a volume (\$4.00) is exceedingly reasonable."

"Most Hearty Congratulations" From Subscriber No. 2298: "I received this morning one-half the volumes of the new edition of the Encyclopaedia Britannica and want to send you my most hearty congratulations on the form in which this edition has been produced. I do not see how it would be possible to improve on these volumes."

"Beyond My Expectations in Every Respect" From Subscriber No. 3725: "It is indeed a wonderful work, beyond my expectations in every respect."

"So Much Easier to Use" From Subscriber No. 974: "I am much pleased with the volumes. They are so much easier to use than the old edition. I am particularly interested in the historical and biographical parts, and am quite elated at possessing such a valuable reference library in so small a compass."

"Most Satisfactory Work I Ever Had" From Subscriber No. 537: "I cannot say the most satisfactory reference work I ever had. It is a special pleasure to be able to handle the volumes so easily, and the limp leather binding is a delight. The general standard is unrivalled."

"Easy to Hold, Delightful to Read" From Subscriber No. 1598: "Permit me to congratulate you upon the beauty of the work. The volumes are charming to look at, easy to hold and delightful to read. . . . Already what I hoped for has been realized; my children have begun to read them with pleasure."

"A Splendid Work, Superbly Made" From Subscriber No. 856: "It is a splendid work, superbly made and reflects great credit upon its authors and publishers."

"Bound to Quicken Intellectual Life" From Subscriber No. 1820: "It seems to me that this publishing event is bound to quicken the whole intellectual life of our generation. . . . I am especially struck with the delightful literary flavor of many articles on subjects which one expects to find treated in the dust and ashes manner."

"A Treasury of Progress" From Subscriber No. 108: "The new Encyclopaedia Britannica is a treasury full of a wonderful record of the progress of civilization. Its beautiful volumes of thin paper and flexible covers are admirably adapted for reference and use."

"Advance-of-Publication Prices Soon to be Withdrawn." All subscribers who register their applications before May 31st will effect a very substantial saving, and will acquire the foremost work of reference at a price which has never before been possible.

Vols. I. to XIV. are now being delivered to early subscribers, and Vols. XV. to XXIX. are expected to arrive from England shortly. Complete publication will, therefore, shortly be effected, and the "advance-of-publication" terms will be withdrawn on May 31st next.

NOTE.—Those who possess copies of previous editions of the ENCYCLOPAEDIA BRITANNICA (now out of date) are requested to advise us of the fact, clearly indicating which edition they possess (giving name of publisher and number of volumes), and if they wish to purchase the new edition they will be informed how they can dispose of their old editions at a fair valuation.

The New Edition is sold direct to the public and through the leading booksellers. No Agents or Canvassers are employed or recognized.

"A Truly Wonderful Production"

From Subscriber No. 2339: "The work more than meets my expectations. It is a truly wonderful production."

Incomparable "In Good Taste and Convenience" From Subscriber No. 3452: "I have never seen an encyclopaedia or similar book of reference which in respect of good taste and convenience for use would compare with these books."

"The Excellence of this New Edition" From Subscriber No. 1696: "I beg to acknowledge the receipt of the first fourteen volumes of the Encyclopaedia Britannica, and desire to add my word of praise for the excellence of this new edition, which, to my thinking, places it far above any other work of a similar nature."

Special Features of the 11th Edition

(1) The new edition is being published by the Press of the University of Cambridge, England. It comprises some 40,000 articles, 41,000-000 words, more than 7,000 illustrations, 450 full-page plates, and 417 maps.

(2) Though a lineal descendant of ten editions of the Encyclopaedia Britannica, the new work is in no sense a revision of the obsolete text of its predecessor. It has been completely recast and re-written, and is an absolutely fresh, authoritative and up-to-date survey and exposition of the whole field of human knowledge.

(3) The plan of the encyclopaedia has been thoroughly reorganized with a view of combining comprehensiveness with brevity, exhaustive treatment of major subjects with the greatest facility of reference in the case of minor subjects.

(4) Something like 15,000 new headings have been added.

(5) The articles have been written by 1,500 contributors—scholars of the highest distinction, and experts and practical men and women whose authority in their special subjects is unimpeachable.

(6) A large and distinguished staff of editors (consisting with the 1,500 contributors a virtual College of Research) has been at work for eight years on the production of the new edition; and the organization and editorial control have all along been so perfect that an unprecedented congruity and co-ordination have been attained.

(7) Each article is right up to date, and all the latest discoveries and results of research have been incorporated.

(8) The whole work has been written simultaneously and is being published practically at one time, not volume by volume as heretofore.

(9) To an extent never before realized the work is cosmopolitan—universal. Each article is the work of a first-hand authority, irrespective of whether he happened to live in Great Britain, Canada, France, Germany, Japan, the United States, or any other civilized country.

(10) On the list of contributors are to be found the names of 131 members of the staffs of 12 Canadian and American Colleges and Universities.

(11) The problem of bulk has been happily solved by the issue of an edition on India paper with flexible bindings. In this format the volumes, though containing 960 to 1,064 pages each, are only 1 inch thick. There is also an impression on ordinary book-paper.

"Models of Fulness and Condensation"

From Subscriber No. 4334: "I must tell you how abundantly I am pleased with these fourteen volumes. I have read several articles or parts of articles and find them models of fulness, or of condensation, as required. . . . Certainly the whole work is a new and wonderful departure in encyclopaedic enterprise."

"Incredibly Light and Thin Volumes" From Subscriber No. 1641: "Apart from the extraordinary perfection of the literary contents and their arrangement, I am amazed at the beauty and effectiveness of the material features of the India paper edition. It is indeed a pleasure to handle these incredibly light and thin volumes."

"A Readable Encyclopaedia" From Subscriber No. 902: "I am delighted to be the owner of a readable encyclopaedia."

"Reference is Now a Pleasure" From Subscriber No. 3307: "I find it a pleasure to refer to the Encyclopaedia now, where before with the old edition it was a hardship. My hearty congratulations to you for your innovation in style and binding. I am simply delighted with the books, and the subjects, as I have found them, are pleasurable reading because presented and couched in understandable language."

"A Delight to Both Eye and Touch" From Subscriber No. 114: "I can think of no modern work of such magnitude carried to as great perfection. The flexible cover is a delight to both eye and touch. The little weight of each volume, the delicacy of each page of India paper, all are in extraordinary contrast to the profundity of knowledge contained."

"Far Surpasses All Previous Editions" From Subscriber No. 39: "We are much pleased with the new volumes; so light and so handy for constant use. . . . This new edition far surpasses all previous ones. . . . The more it is used the better it will be appreciated."

"Have Praised Them to My Friends" From Subscriber No. 1309: "I heartily endorse all the nice things that have been said of the 11th edition. . . . I like these books, and I have praised them to my friends."

"So Magnificent a Work" From Subscriber No. 1662: "I congratulate you on the production of so magnificent a work." From Subscriber No. 370: "A magnificent production."

"All I could Hope For" From Subscriber No. 4049: "The work is certainly all I could hope for. It is simply wonderful, surpassing anything else in the way of an encyclopaedia in the English language, and I know them all. I like the fulness of your treatment. There are some things which cannot be stated in a brief way."

"A Triumph in Book-Making" From Subscriber No. 178: "Needless to say, the new edition in India paper affords me the keenest satisfaction. It is a triumph in book-making."

**DISCUSSED MIXED MARRIAGES**

Quebec Congregational Association Want Law Modified.

MONTREAL, April 28.—The semi-annual meeting of the Congregational Association of Quebec was brought to a close by a public oration in the Zion Congregational Church. At one of the meetings the mixed marriage question was under discussion, and resolutions were passed by the association urging action on the part of the congregational union of Canada.

The association strongly recommended the union to have the laws thoroughly tested in the highest courts, and in the event of the prevailing jurisprudence in the Province of Quebec being sustained, to adopt such measures as will modify the laws and abolish disabilities and guarantee the citizens the rights and liberties enjoyed under the British constitution.

**NERVOUS DISEASES IN THE SPRING**

Can Be Removed by Toning Up the Blood, Thus Strengthening the Nerves.

Nervous diseases are more common and more serious in the spring than at any other time of the year. This is the opinion of the best medical authorities after long observation. Vital changes in the system after long winter months may cause much more than "spring weakness," and the familiar weariness and aching. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and various forms of nervous disturbances are at their worst, especially among those who have not reached middle age.

**THE WEATHER**

OBSERVATIONS, TORONTO, APRIL 28.—(4 p.m.)—Decidedly cool weather prevailing to-day in Alberta and Saskatchewan, with light snowfalls in the latter Province, while from Manitoba eastward to the maritime provinces it has been fine and quite warm.

**BIG BREWERY MERGER**

May Bring All Maritime Province and Quebec Properties In.

ST. JOHN, N.B., April 28.—A merger of the principal breweries in the maritime province with the syndicate known as the National Breweries, Limited, comprising all the breweries in the Province of Quebec, except one, is the scheme which is being promoted by R. Max McCarty, broker, and which, if carried into effect, will be one of the biggest mergers effected in Canada in years.

In Halifax all the breweries, about six in number, are amalgamated except one, and it is Mr. McCarty's plan to have this one, the Nova Scotia Brewery, join the syndicate, and then have the combined breweries merge with Ready's and Jones' breweries in the city and have the whole absorbed by the National Breweries, Limited, whose head office is in Montreal. This large corporation owns all the breweries in the Province of Quebec, save the Silver Springs Brewery at Sherbrooke. It is rumored that both of the local firms have expressed a willingness to sell, if the price is satisfactory, and it is also reported that Ready's have named the price and furnished particulars concerning the capacity of their business.

A SEVERE ALTERNATIVE.  
 CORNWALL, April 28.—(Special.)—A year in jail for default of a fine of \$5 and costs was the rather peculiar judgment handed out by a Rochester J.P. named Robinson to Charles Papineau of Maxville, whom he found guilty of receiving stolen goods. This was last September. Papineau was given four months in which to pay up, but nearly seven months elapsed before he was sent to the county jail to serve out his sentence, an effort being made to have him released, as it is said the magistrate had no power to impose a fine for such an offence.

FRAGMENTS FITTED LETTER.  
 Interesting Developments in Erie, Pa., Black Hand Case.

PHILADELPHIA, April 28.—Evidence tending to show that Charles Franklin, manager of the Philadelphia branch of the Perkins Detective Agency, was writer of the "Blackhand" letters sent Chas. H. Strong, the Erie millionaire, was offered a hearing today before U. S. Commissioner Craig Strong, the first witness called, described how on Feb. 8 he had found the mausoleum of his father-in-law, Wm. L. Scott, torn open and desecrated. The Perkins Agency was employed to find the culprit, and on Feb. 13, Strong received a Blackhand letter in which a threat was made that if \$50,000 was not left at Thirty-First and Penn-ave., Erie, the mausoleum would be blown up.

"I turned the letters over to Mr. Perkins, who said that if the man who sent the letter was found, he would have in possession pieces torn from the letters."

Jas. M. Woltz, a postal inspector from Parkersburg, W. Va., testified that after he had arrested Gilbert Perkins in Indianapolis on April 13, he had searched him and found in his pocket a piece of torn paper that fitted perfectly into the ragged edges of the first "Blackhand" letter.

### NINE G. T. P. LINES TO FOCUS AT CALGARY

Young City Displaying More Amazing Signs of Development and Prosperity.

CALGARY, April 28.—(Special.)—Signs of development and progress, of wonderful expansion and of opportunities for highly profitable investment are multiplying in Calgary every day.

Among the latest railway news officially confirmed is that nine G.T.P. lines are to focus at Calgary.

Such was the cheerful information brought by W. A. Lowry when he returned from Winnipeg. Mr. Lowry knows, for he is connected with the G.T.P. thru handling their routes.

There will be the line from the north connecting Calgary with the main line at Biggar. Another line comes up from the international boundary, and runs thru Letbridge en route. Yet another line will come from Battleford thru Watnawright and Buffalo Lake.

The Crow's Nest, Moose Jaw, Watrous, Regina, are also to be connected with Calgary.

All this will have the effect of making this city even more of a distributing centre for the province than it is at present. One advantage the G.T.P. will have, according to Mr. Lowry, is that the whole country will be within the shortest run possible between Calgary and Winnipeg.

It is expected that all, or most of these will be completed this summer. As instancing really imminent in Calgary, here is one transaction out of hundreds that might be quoted.

Riley & Strickland, the other day disposed of lots 24 and 25 in block 58 for \$20,000, or \$800 a front foot, to a Vancouver syndicate. The property has a frontage of 150 feet on Eighth-avenue, and is situated near the centre of the block adjoining the R.N.W.M.P. barracks.

About a year ago the property was purchased for \$15,000, and has just doubled in value in that time.

To show Calgary's high credit financial rating, the sale of over \$1,000,000 of city 4-1/2 bonds has just been effected at 103, the highest rate ever paid for western municipal securities. Not many years ago the Calgary council proposed to offer debentures at 88.

### A SOUVENIR OF CALGARY CITY

Beautiful Book, Descriptive of the Alberta Metropolis as It Was, and as It Will Be.

Among the very handsome publications issued by the city of Calgary, the wonderful young city of the west, that has recently come into the limelight and is astonishing the whole country with its marvelous growth and prosperity.

The book is entitled "Calgary that Was and that Will Be" and from a standpoint of workmanship is a very triumph of the printing and engraving art. The contents include a gracefully written and charming narrative of the rise and progress of one of the most remarkable cities of modern times—sketching vividly and entertainingly the march of events in its evolution from the shack and tent period till the railway came and set it on its course of progress.

The present of the book to the President of Calgary—a hive of commercial, financial and industrial activity, extending in all directions, spending millions, attracting new business, securing new factories, creating sky-scrapers, constructing palatial hotels, building beautiful residences—is written up very fully; while the prospects, also, are dealt with optimistically, but yet well within the lines which the possibilities amply justify.

The letter-press, in attractive type, is set off with exquisite wash-drawing border, illustrative of the text. Numerous fine half-tones, representing graphically the city and surrounding embellish the 36 pages.

A copy of the book on Calgary can be had on application to the J. O. E. Co., Investments, Kent Building, Toronto.

The authors are Mr. Joseph Ruse, president of the Chamber of Commerce, Limited, and Mr. C. A. Owens, managing director of J. O. E. Limited, Toronto and Calgary.

### Pianos at \$1.00 a Week.

A number of square pianos, including those of Steinway, Chickering, Miller, Heintzman & Co. and others, are being sold by the old firm of Heintzman & Co., Ltd., 132-135-137 Yonge-street, Toronto, in payments of \$1.00 per week. These instruments, whilst not absolutely new, have been thoroughly overhauled by Heintzman & Co.'s workmen and are guaranteed in good condition. They range in price from \$50 to \$150—a mere fraction of the original figures.

### Cadets for Bisley.

On Monday night, at 10.15 the cadets selected to represent Ontario at the Bisley competition will leave the Union Station. Toronto will be represented by Gaylor Hagarty, son of Principal Hagarty of Harbord-street Collegiate. The high and public school cadets will assemble on the parade ground at the armories at 9 o'clock to accompany the cadets at the station. The public school cadet bugle band will furnish music for the parade.

### Manchester Lodge, S. O. E.

The annual at home of Manchester Lodge, S.O.E., in Winchester Hall, proved highly enjoyable. Charles Much, treasurer, was in the chair and the attendance was large. He was supported by Bro. Bert Chandler, D. D., of East Toronto; A. O. Robinson, F. J. Norris, president, and Rev. W. Plummer, chaplain. A good program of songs and recitations was rendered.

ELPASO, Tex., April 28.—General Madero was officially notified today that President Diaz had appointed a commissioner to complete peace negotiations with a similar commissioner to be appointed by the rebel leader.

## When the Cook Leaves

don't fret or scold—lay in a good supply of Shredded Wheat—the food that is ready-cooked, ready-to-serve—contains all the nutriment in the whole wheat grain, steam-cooked, shredded and baked a crisp, golden brown—a food that is good all the way through—tempting in its nutlike flavor—a delight to eat and to serve.

## SHREDDED WHEAT BISCUIT

is without doubt the most perfectly balanced, most easily digested food ever given to man. It is not flavored or compounded with anything—not a "patent-medicine" food—not a "pre-digested" food—just plain, simple, wholesome, steam-cooked whole wheat, shredded and baked. It is better than mushy porridges because you have to chew it, thereby getting from it all its rich, body-building nutriment.

Try it for breakfast with milk or cream (hot milk in Winter). Being in biscuit form it is easy to prepare a nourishing meal with it in a few minutes in combination with fresh or stewed fruits. Always heat the biscuit in oven to restore crispness before serving. Two Biscuits with milk or cream and a little fruit make a complete nourishing meal! Your grocer sells it.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.

### HOPE TO RAISE MILLION TO AID CONSUMPTIVES

National Sanitarium Association Plans Memorial to Late King.

At a recent meeting of the trustees of the National Sanitarium Association there were present: His Honor the Lieutenant Governor (in the chair), Hon. J. J. Foy, Hon. I. B. Lucas, Hon. W. A. Charlton, Messrs. W. K. McNaught, M.L.A.; H. P. Dwight, W. P. Gaudy, Edward Gurney, Ambrose Kent, F. H. Bull, K.C.; J. L. Hughes, Dr. W. P. Caven, Dr. N. A. Powell, and W. J. Gage.

A proposal was laid before the meeting for the raising of a King Edward memorial fund for consumptives. It was pointed out that the late King Edward VII. on receiving a gift of \$1,000,000 from Sir Ernest Cassella had at once donated this money to the erection of a hospital for consumptives in England—now called the King Edward Sanitarium for Consumptives.

Thus giving evidence of His Majesty's deep personal interest in this great movement. Further, that during the past year Wales has organized a movement for the founding of a memorial to his late majesty by the raising of a fund of \$1,000,000 for the care of consumptives—the whole amount having been secured within a few months. This fund has since been increased to \$1,500,000.

The trustees were unanimous in their belief that not only would the people of the City of Toronto, but of the entire province and Dominion, consider this to be a most appropriate and practical way of establishing a memorial to the late King.

It was, therefore, decided that a fund of one million dollars be raised for this purpose, and that Canadians everywhere should be asked to join in commemorating in this way the illustrious name of King Edward the Peacemaker.

The fund will be used in making adequate provision for every needy consumptive, either in the early or advanced stages of the disease, who may seek admission to hospital, not only from any part of the province, but every part of the Dominion.

The work of organization has been commenced, and it is intended that the campaign will take place early in the fall.

### Suing Hydro Commission.

Charlotte Englehart and Herbert Englehart, executrix and executor of the will of Peter James Englehart, claim damages from the hydro-electric commission for crossing their farm, comprising 104 acres, in the county of Halton. The towers erected by the commission cross the farm and it is claimed the wires are not insulated and the line is left unenclosed from the rest of the farm.

Judge Morgan, hearing the case in chambers, Mr. A. R. Lobb, K.C., is counsel for the commission and Mr. D. O. Cameron is acting for the Englehart estate.

### Women's Auxiliary Meeting.

### WILL REMAIN WITH HYDRO

W. K. McNaught Not Able to Accept City's Offer.

W. K. McNaught said to The World last night that he considered he could best serve the interests of the province and the city with respect to financing the public with hydro-electric power by continuing as a member of the Ontario Commission rather than becoming a member of the Toronto power commission as suggested by the board of control.

Mr. McNaught said he found full scope for all his available time in the work of the Ontario Commission. Hon. Adam Beck is expected back in the city on Monday, when a decision regarding the Toronto appointment may be arrived at.

## UNIVERSITY SUB-DIVISION

### the Rosedale of Calgary

Horace Greeley's "Go West, young man," seems to be Nature's tendency. Men GO WEST. Western cities GROW WEST. In fact ninety per cent. of the cities of this continent GROW WEST, and Calgary is no exception to the rule. University is the BEAUTIFUL WEST END RESIDENTIAL ANNEX. Splendidly located. Excellent view stuff. In fact everything that goes to make residential property attractive.

The investing public of Toronto have done handsomely, and more than half of the sub-division has been sold this week. Just one more golden opportunity at these prices, and on Wednesday, May 3rd, prices advance. Buy today and make money.

**Listen--TERMS: \$10 cash and \$10 per lot per month. INTEREST 6% or a discount of 5% for cash.**

**Buy--too late and best locations gone.**

**Think--What this will mean to you in good cold cash when the electric line is operating and prices triple in a few months.**

**Prosper--By selling in a few months at triple what you are paying. Others have. Why not you?**

Deeds given by the Government. References Standard Bank, Calgary. That Toronto commercial-traveller who bought will be in the office on Saturday to tell you all about it. SEEING IS BELIEVING. He saw. Office opened Saturday night until eight to give all parties a chance on the property.

Smith v. Mantel--W. J. Boland for plaintiff. Motion by plaintiff for an injunction. Injunction granted restraining defendants and each and every of them both in their personal capacity and as partners of the Raglan Corundum Co. until May 8 from in any way interfering with plaintiff in the performance of any work which the plaintiff desires to be done upon the north 50 acres of lot 25 in con. 19 of Raglan. Known as mill E.O. 382, and the north 50 acres of lot 25 in con. 18, Raglan, being mining claims E.O. 304. The said work being applicable to the statutory work necessary to be done

by plaintiff in order to obtain full title to said mining claims.

Before Middleton, J.  
Re Norroll and Yearston--G. W. Holmes for purchaser. H. H. Shaver for vendor. Motion by purchaser for an order declaring that vendor cannot make a good title to land in question. Order declaring that according to the true construction of the will of Robert Yearston his executors had under clause two thereof, power to sell the whole 90 feet, being lot No. 32 and S. 1-2 of lot 61, according to plan D 14, and that lot 32 did not pass as part of his residuary estate and that the objection taken to vendor's title is not well founded. No costs.

Re Fitzmaurice and Newburgh--A motion to quash a local option bylaw. Judgment: The votes were \$1 for and \$1 against, so that the bylaw was carried by the exact statutory majority. Four votes were attacked--all other objections were expressly abandoned.

(1) The clerk's vote. As to this, I think I am bound by re Schumacher and Chesley, (3), (3). For reasons given, I hold that votes good. (2) Henry Sutton, farmer's son. The farm is situated as to 25 acres in Newburgh, the house in Camden. Does the son comply with sec. 38 (4) by "residing within the municipality"? If he was not resident within the municipality, he was not rightly upon the voters' list. Residence is an essential part of his qualification. Residence is a word of very elastic meaning. The "holding" or farm it appears to me cannot be subdivided and it cannot be said that the farmer and his family reside in any

one part of it. They reside on the whole farm. If the boundary ran between the bedroom and the dining room, would he reside where he slept, or where he usually took his meals? If the boundary line sub-divided his bed, as it usually stood, would one part of his body reside in one place and the rest in another? This goes to show that "residence" required by the statute is not governed by such narrow considerations, but is such a residence as can be fairly regarded as giving the voter the right to be regarded as a citizen of the municipality. Motion dismissed with costs.

Court of Appeal.  
Before Moss, C.J.O.; Garrow, J.A.; MacLaren, J.A.; Magee, J.A.  
Dell v. Michigan Central Ry Co.--D. Sanderson, K.C., and A. Ingram (St. Thomas) for defendants. W. M. Gorman, K.C., for plaintiff. An appeal by defendants from the judgment of Clute, J., of Nov. 1, 1910. The action was brought to recover damages for the death of one level Dell, father of the infant plaintiffs, and a section man in defendants' employment, alleged to have been caused by the negligence of the defendant. At the trial judgment was given for plaintiffs for \$2500 and costs. Appeal argued and judgment reserved.

Davidson v. Toronto Railway Co.--E. E. A. Du Vernet, K.C., for plaintiff. D. L. McCashey, K.C., for defendants. Motion by plaintiff for leave to appeal from judgment of a divisional court reversing the judgment at trial in favor of the plaintiff. Judgment (v.v.v.) Leave refused. No costs.

Before Moss, C.J.O.; Garrow, J.A.; MacLaren, J.A.; Magee, J.A.; Middleton, J.A.  
City of Toronto v. Toronto Railway Co.--J. W. Bain, K.C., and M. L. Gordon, for defendants. H. L. Drayton, K.C., for the city. An appeal by defendants from the judgment of the Ontario Railway and Municipal Board of August 8, 1910, directing the Toronto Railway Company to forthwith repair, renew and restore to a suitable and satisfactory condition the tracks and substructure on a certain portion of Dundas-st., used by the Toronto Railway Co. Appeal argued and judgment reserved.

DOWN COMES THE MILK.  
Despite rumors to the contrary, the Retail Milk Dealers' Association decided, at a meeting yesterday, to lower the price of milk one cent a quart after May 1, and to continue that rate for 6 months. This means that the bottled milk will drop from 9 cents to 8 cents per quart and the retailing combination for the city of Toronto will be 7 cents.

Some of the dealers did not want to lower the price, as they claimed that the troubles the M.H.O. had put them to made it hard for them to get along. These were in the minority, however. The move is said to be supported by 90 per cent. of the milk dealers.

Labor Leaders Meet.  
President R. Glocking of the Bookbinders' Union, Samuel Landers, general workers; Jack Barnett, organizer of the iron workers; three international officers of the trade unions yesterday met at the Labor Temple yesterday. The arrest of Secretary J. J. McNamara was an outrage, they declared.

### \$3.50 RECIPE FREE FOR WEAK MEN

Send Name and Address To-day-- You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excess of unnatural drains, or the follies of youth, that has cured so many worn and nervous men who in their own home--without any additional help or medicine--that I think every man who wishes to regain his manly power should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary, sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest and most effective remedy for the cure of deficient manhood and vigor, falling memory and all the troubles that attend it.

I think I owe it to my fellow men to send them a copy in confidence, so that they may not be discouraged by repeated failures and stop drugging themselves with harmful patent medicines, secure a permanent cure, and be the strongest and most energetic men of their generation.

Just drop me a line, and I will send you a copy of this splendid free of charge. A great many doctors would charge \$2.00 for merely writing out a prescription like this--but I send it entirely free.

CARETAKING TOO COSTLY

Trustee Fairbairn Would Have Work Let Out on Contract for Large Schools

Toronto's school system is growing to such a great extent that the caretaker question must be dealt with in some more economical way.

This was the opinion of Trustee Fairbairn yesterday at the meeting of the property committee. Caretaking should be let out on contract for large schools for groups of schools, he stated.

Superintendent of Buildings Bishop will report on the cost per room now. In the last ten years the cost has increased 92 per cent.

The committee will visit the schools to recommend midsummer repairs on May 3, 5, 8, 10, 12, and 15.

Following recent complaints, the committee recommended placing a wire netting around the College-st. and west sides of the technical high school playground.

Harbord playgrounds will also be closed in.

To enlarge the Amette school grounds, the committee recommended the purchase of two lots of a frontage of 50 feet each, extending 175 feet back, just south of the present grounds, at a cost of \$55 per foot.

They recommended the enlargement of Bolton and Ogden schools, and the addition of six rooms to the east side of Fern-ave school.

Canadian Missionaries Safe.

Three Canadian missionaries returning from China, who it was feared were on the wrecked steamer Asia, are safe.

A cablegram was received yesterday by Dr. R. P. McKay, secretary of the Presbyterian Foreign Missionary Society from Rev. J. S. McKay, Shanghai, China.

from Rev. J. S. McKay, Shanghai, China, who with his wife and Mrs. Dr. Marlon Glover were on their way home.

Dr. McKay is waiting for fuller details.

## GET BACK YOUR STRENGTH

With No Back Pains, No Nervousness, No Waste of Tissue, No Loss of Ambition, No Loss of Vigor of Youth.

Dr. McLaughlin's Electric Belt, With Free Electrical Attachment for Weak People, Will Restore Your Lost Strength.

This is the way they feel the men who had given up hope, who thought there was no cure for them until they came upon Dr. McLaughlin's Electric Belt. Now they are full of life, overflowing with joyous spirits, and "care to action."

Pains are gone; weakness is gone, and full vigor is in every limb.

Do you want to feel like that? Then wear this grand, life-giving appliance for two months at night. It will charge every nerve with electric life, and you will feel like a two-year-old. It puts steam into your run-down body and drives away the winds.

Dear Sir--I write to let you know that I am most pleased with your treatment. I feel like a new man. I have gained over twenty pounds, and am still getting. I would not be without your Belt for what it cost me, and if this one health, and Dr. McLaughlin's Belt will give it to anyone when it has helped me.

DAVID CRAWFORD.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and

I'll Cure You or You Need Not Pay

Let me treat your case in my own way. Let me apply a steady current of Galvanic electricity to your weakened system with my Dr. McLaughlin's Electric Belt. Wear this appliance, night after night, for a few weeks, and it will restore energy and equilibrium to your nervous system; it will fill your body with fresh strength and energy; it will give you back the powers of manhood, and make you a Man among Men.

The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electricity--the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the battle of life.

# Crop Reports Are Favorable But Market Closes at Advance

## Resumption of Buoyancy in Chicago Wheat Fit Despite Flattering Crop News From West—Winnipeg Market Firmer.

CHICAGO, April 28.—Bull leaders gave an appearance of strength to the wheat market to-day by timely purchasing wherever there was a sign of the approach of weakness. Forecasts of a material increase in the world's shipments proved to be something of a help against the bears. Closing figures were at a net advance of 1/4¢ to 3/8¢. Corn finished at 1/2¢ to 3/4¢ up, oats the same as last night to a gain of 1/4¢, and hog products irregular, strong out over the range of 1/2¢ divided just equally above and below the level of 24 hours before.

Shirts in wheat acted with much caution, covering quickly and causing a number of sharp but not extended advances. At the outside, the market received an upward impetus from the fact that Argentine shipments were about 1,000,000 less than expected. The tone at the close was steady, with prices about 1/4¢ higher at the day.

In corn the advance was largely due to wet weather and to a prediction of more moisture for to-morrow. Besides there was continued loading out of cash corn here. July fluctuated between 52¢ and 53¢, closing easy, 1/2¢ to 3/4¢ up, at 52 1/2¢.

Cash grain was steady. The oats trade was chiefly in the direction of changing from May to distant contracts, with the close left firm at 37¢, and in the end was 1/4¢ to 1/2¢ higher at 37 1/2¢.

# A Big Sale of Superior China

ANYONE who has "moved," or "had workmen in," or survived any similar ordeal, will quite realize the difficulty of packing and moving china and glass. We are so situated at present, our basement being upset on account of "improvements under way." This will enable you to make improvements, too; improvements in the contents of your china cabinet and the appearance of your table. You will never get another such opportunity. A great part of our magnificent stock of china and glass will be cleared out without the slightest respect for Cost Price and without taking Profit into consideration at all. The various branches of this department are well worth a visit at any time, but when extraordinary bargains in first-class china and beautiful glass are there, too, it will indeed be a very short-sighted person who does not take advantage of the opportunity offered during the next twelve days.

Commencing Monday, May 1st, and continuing until the entire lot are cleared out

"Fire" at one of America's leading picture frame factories gave our buyer a great opportunity to secure 5,000 high-class frames at his own price, and he availed himself of it. Space prevents stocking them to sell at regular prices, hence the discount of 50 per cent. The shipment includes all sizes from 3 1/2 x 5 to 16 x 20, in every style and finish.

We are of opinion that this shipment is the largest ever delivered in Canada. As the number in some designs is limited, we suggest that you make your selection at once. (Picture Galleries, 6th Floor.)

## Machine-made Oriental Rugs

There are some arts so old that their origin antedates all human records; the art of rug weaving is one of these. The earliest historical reference to weaving of any kind is in the passage of the Book of Genesis, wherein it is related that Pharaoh clothed Joseph in fine linen. We've come a long way since Pharaoh's time, and the inventive genius of the nations of the west has substituted faultless and economical machines for human fingers, and has made the rug a part of the furnishings of the humblest home. At the same time the art of the Orientals has been so admirably imitated in the higher class fabrics that the modern machine-made product is good enough for a palace.

There has never been in this city an exhibit equal to our present showing of machine-made Orientals. They are the finest, most artistic and most durable floor coverings ever turned off a power-loom—and yet they are not expensive—cost a little more than ordinary goods, it's true, but if you consider the extra years of wear which they will give, they are actually the cheapest; 9 ft. x 12 ft. sells at \$70.00; the several other sizes at proportionate prices.
