IMMEDIATE ARMISTICE ACCUSED TO BY JAPAN

Announcement Conveyed to Russian Plenipotentiaries and Proclamation to Be Signed To-day—Rapid Progress in Drafting Treaty.

Portsmouth, N.H., Aug. 31.—Japan, thru Baron Komura, has agreed to the immediate conclusion of an armistice. At 11 o'clock yesterday Mr. Takahira went to Baron de Rosen's room and explained that he and Baron Komura had received instructions to arrange terms of an armistice. Baron de Rosen immediately communicated with M. Witte and it is probable that a meeting will be held to-morrow morning for the proclamation of a complete suspension of hostilities preliminary to the arrangements of the details by the two generals upon the battlefield. Rapid progress was made to-day in the drafting of the treaty of peace. Baron Komura, at Mr. Witte's request, will probably to-morrow sign the preliminary nature. Russia's consent to a suspension of hostilities reached Mr. Witte to-night in a cablegram from Count Lamortoff, whom Emperor Nicholas has empowered to deal with this important phase of the negotiations.

So rapidly and well Mr. de Martens, with Mr. Dennison, performing his delicate and important task of drafting the treaty, that he was able to return from the Navy Yard to-night to report to M. Witte the practical completion of ten articles of the preliminary treaty in its entirety will consist of 15 articles, exclusive of the preamble. The Japanese plenipotentiaries, before the convening of a conference to withdraw under the conditions which he regarded as unjust.

Witte is anxious to call for home to-day on Sept. 12. In the meantime, he wishes to take leave of President Roosevelt and personally present the thanks of the emperor for the president's assistance.

The only difficulties which have thus far appeared, have been due to the ambiguous language of certain parts of the daily protocols which form the framework of the treaty.

TOKYO PRESS REBELS.

Utation Will Be Hampered if There Is No Protest.

Tokyo, Aug. 31.—(4 p.m.)—The attitude of the Japanese government indicates that there is no immediate intention to issue a formal statement relating to the result of the peace conference. The foreign office intimates that there will be no publication here until a signed copy of the treaty reaches the emperor and his approval is given. The press, however, has been for a month hence, or until Baron Komura appears before the emperor and makes report of the peace conference. The date for the reassembling of the diet has not yet been determined. The emperor's cabinet, and the recipients of numerous protests and memorials against the version of settlement of the war, as given by the newspapers.

The Yoru Shinbun, an important radical newspaper, attacks the peace pact, opening its criticism with the words "Arise, brethren." It then reviews the situation from a representative of the government with the powers of treaty revision, and recalls the attempt to assassinate the emperor. "The people never remained quiet when the national interests were menaced," it says. "The emperor should be the guarantor of the peace, and not a foreign power." They declare that the people's action alone will prevent national disaster after a record of brilliant victories on land and sea. "Otherwise," it says, "our brothers who have been killed in the field had died in ignominious death."

AERONAUT BLOWN TO BITS.

White 2000 Feet in Air, Dynamite Explodes in Balloon.

Cincinnati, O., Aug. 31.—Aeronaut Edwin of Losantville, Ind., was today blown to shreds by his balloon as floating high in the air.

He was giving at the county fair an exhibition of the use of dynamite. He had three sticks of the explosive with him, when he reached a height of 2000 feet the dynamite accidentally exploded and the balloon and man were literally torn to fragments.

GRAIN RIPENS TOO FAST.

Not Enough Harvesters and Much Loss in Result.

Winipeg, Aug. 31.—(Special)—From 50 to 75 per cent. of the wheat is cut, according to the Canadian Pacific Railway report issued to-day, but not nearly that amount is stored and not of danger, owing to the deplorable lack of harvesters.

Scared Veterans Were Here.

Eighty members of the Grand Army of the Republic of the State of Maine arrived at the Palmer House, on their annual excursion trip. They had breakfast at the hotel and took the first boat out for the Falls. Late last night they returned, and after supper started east. They are now on the home trip, after a tour of sightseeing.

Treaty Signed; Means Much

Anglo-Japanese Understanding Guarantees Mutual Interests and Ensures Peace in the Far East.

London, Aug. 31.—The report that an Anglo-Japanese treaty was signed Aug. 12, by Foreign Secretary Lansdowne and Minister Hayashi, is confirmed.

While secrecy is maintained for the present regarding the exact terms, it may be said that the document is of far-reaching importance. It affords mutual guarantees for the protection of British and Japanese interests, even if the two contracting powers are only threatened by a single hostile power, and assures the maintenance of the status quo in the far east.

The new treaty will be found to be a powerful factor in ensuring the peace of the world, at any rate so far as the far east is concerned.

MEN WHO MAKE THINGS WERE AT THE EXHIBITION

Manufacturers Day Draw an Appreciative Attendance of 55,000 in a Splendid Weather.

The manufacturers, the men who are responsible for the making of most of the things we need, had their day at the exhibition yesterday, and there is no doubt that they were well pleased with the program of the fair. They are quietly critical in seeing the best that the other fellow can do, and they gain ideas, the outlet of which is to be evidenced at next year's fair.

Remarkable Accident at Burning of Little Bros' Saw Mill at Halleybury—Volunteer Fire-fighters Moved Down by Plank—One Man Was Disemboweled, Second Slain as He Ran

Halleybury, Aug. 31.—(Special)—On Monday night about 10:30 Little Bros' sawmill broke out in a blaze. A crowd of started down to help save the lumber. In a few minutes they could hear the boiler blowing off steam and warning cries to look out for an explosion followed.

Suddenly the noise became less and it was thought the water had evaporated or that something must have fallen on the valve and closed it.

Six men gathered for a well near the boiler room for water, with pails. The boiler was blown over 50 yards. The loss to property is \$4000; no insurance. The loss of the mill will be greatly felt as it was the only one here and has been supplying Halleybury and Cobalt with lumber.

WHY C. P. R. SELLS HIGH.

Proceeds of Land Sales to Go Towards Dividends, Perhaps.

Montreal, Aug. 31.—(Special)—The investors of England and the British public generally are too well acquainted with the untold resources, the immense extent and possibilities of the Canadian Northwest to fear for an instant that the building of the Grand Trunk Pacific and the Canadian Northern Railways will be in any way detrimental to the Canadian Pacific.

This statement was made to-day by Thor. Shimer, London director of the C.P.R. and European financial agent of that company. He gave as the reason why C. P. R. shares had been bought and the proceeds of the land sales might soon be devoted to the paying of dividends and other purposes as follows: "The Canadian Pacific has the lands which would be relieved of its 1-2 loan line.

WEST TO RULE IN POLITICS THEN WHAT OF LIBERALISM?

London Times Correspondent Says Initial Advantages Are Sacrificed—Problems of Future.

(Canadian Associated Press Cable) London, Aug. 31.—The Times correspondent, giving a short account of the religious difficulties over the Northwest autonomy, says the time may show that the desire of both political parties is in the hands of the west. The exceptionally rapid development of the territory between Winnipeg and the Pacific promises that in a few years the balance of power in Canada will have passed decisively to the new communities west of the great lakes and the party drawn out via the west will dominate Canada. It seems that the advantage in alienating western opinion for the sake of consolidating their racial religious support in Eastern Canada.

CHOLERA SCARE IN GERMANY.

Spread in Last Five Days is Creating Much Alarm.

Berlin, Aug. 31.—The spread of cholera from two localities on the River Weichsel five days ago to thirty-four cases in twelve localities extending from the Balteia to the Rhine, 200 miles south, and its appearance in Hamburg, has given an unpleasant thrill to the people of Germany, for it is in 1822, to prevent the disease from getting beyond control. In those years it is estimated that 300,000 persons died in Russia from cholera. The Prussian government is keenly aware of the fact that cholera is a disease which so far is not regarded as giving occasion for apprehension.

FORCING THEM IN.

"The proof of this is the fact that foreign industries are already obliged to come to Canada and establish themselves in order to avoid the customs duties. A higher tariff would consequently bring our farmers in the best position. Our tariff is not a protective tariff, but one of revenue."

See a sealskin before it is made into a sacque or a jacket. A remarkable collection of these skins recently received from the dyers in London, which is the only place in which sealskin is successfully dyed, is exhibited in Dineen's beautiful showrooms on Yonge and Temperance streets. These skins are shown now in the fur exhibit which has been prepared for visitors.

PRINCE LOUIS DEPARTS.

Society and Civic Officials Bid Him Good Speed.

A number of society people and civic officials gathered at the Union station last night to bid the Prince of Easternberg farewell to Toronto.

He thanked those present for the pains they had taken for insuring his having a good time, and he was heartily sorry to leave at a time when he was enjoying himself so much.

Among those present on the platform were Mayor Urquhart, Lady Kirkpatrick and her son Eric Kirkpatrick, Lt.-Col. Denison, Mr. and Mrs. Gwynne Francis, Mr. and Mrs. William Beadmore, Manager Orlando J. Orr, Walter Townley and Lady Susan Townley, Percy Riddell.

The prince's bluejackets will travel on the regular train to Montreal, after which his car will be attached to the special train of non-quebecers.

Nothing official was included in the prince's program yesterday. In the morning he visited the King Edward Hotel in company with Lady Kirkpatrick, Mrs. Beadmore, Mrs. Kingsmill, Capt. Pierce and a few others.

PHONES NOT WANTED. English Firm Says They Are Bad for Business.

Incredible as it may seem, one of the largest mercantile institutions in London declines to introduce telephones into its business, upon the plea that its interests are best served by their absence.

When the general manager of the firm in question—Mr. Pragnel of Cook, Son & Co., warehouseman of St. Paul's Churchyard—was asked the reasons for the firm's decision in the matter, he said:

"The installation of telephones in our business would be a serious detriment. For example, we have 50,000 accounts on our books. We daily receive orders by post or messenger, and the delay of these orders are for numerous articles individually of little value.

"Should we have a telephone system for the use of our customers there would be an endless interruption of salesmen in all departments. These salesmen are here to sell goods, and, if they were at the call of everybody by telephone their sales would be much curtailed.

"Besides, we should be compelled to establish a large exchange, and engage at least twenty operators and as many more messenger boys.

PLAY THE MAN, MR. FORGET. Sir Wilfrid Laurier is not the only man who is on trial in connection with the organization of provincial government in Saskatchewan.

OUT OF PLACE AS CITY SOLICITOR. It would be interesting to know what City Solicitor McIntyre is doing at the Ontario municipal convention.

THE DIPLOMATIC CAMPAIGN. Now that the peace agreement is being seen in truer perspective those observers who were at first inclined to hail it as a "great Russian diplomatic victory" will be inclined to regret their hasty and shallow judgment.

THE MUNICIPALITIES SHOULD HELP. No fault is to be found with the views of Mayor Erskine on the Niagara Power Company as expressed before the Ontario municipal convention.

EASTERN CUBA AND THE RAILROADS. It will pay anyone who wants to know anything about Cuba to read Mr. Milliken's statement in regard to "Eastern Cuba and the Railroads" in another column.

FROM ARM TO MOUTH BOY GETS A NEW LIP. Baltimore, Md., Aug. 31.—With an entire new lower lip to replace one bitten off by a horse, and grafted from his arm to his face, Frank Cronin, aged fifteen years, is today outdoors after a successful operation in the Johns Hopkins Hospital.

Arrested for Walking on Grass. New York, Aug. 31.—Persons who saw two girls tripping across the grass of Central Park after having finished a game of tennis were astounded to see a policeman not only order them, "Don't walk on the grass," but when they told him they were not doing any harm, commanded them to accompany him to the Arsenal police station.

What sort of complaint is this? "Demanded Magistrate Zeller when the facts had been laid before him. 'You, a policeman, arrested these two young women for such a thing? I am ashamed of you. You ought to be ashamed of yourself. They are discharged.'"

fully constructed drama. Russian official circles obviously have an uneasy feeling that in some way or other they have been jockeyed into an agreement involving the acknowledgment of defeat. As that, we believe, it will ultimately find its place in history. Many reasons, doubtless conspired to induce Japan to adopt the resolution, but these were no late discovery, but were dominant throughout the conference from its Alpha to its Omega.

A COWARDLY RESOLUTION. The West Lambton Reform Association put itself on record in the following resolution:

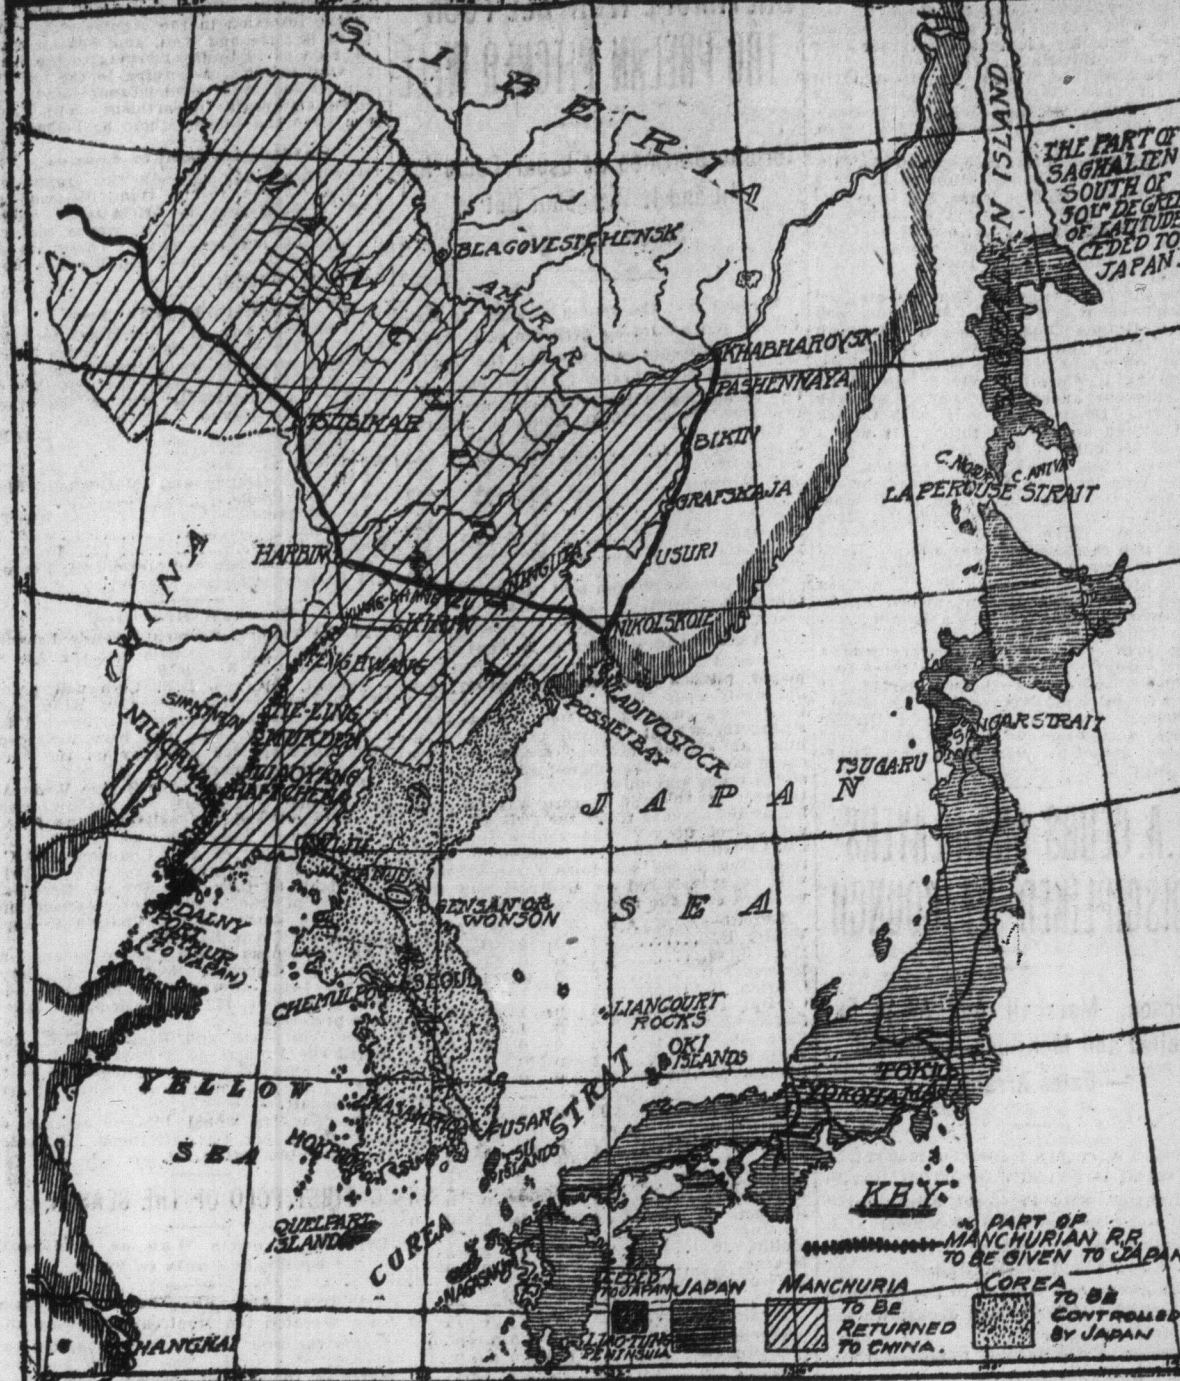

"We desire further to express our entire confidence in the present government under the able leadership of our illustrious premier, Sir Wilfrid Laurier. At the same time we cannot even under these circumstances permit this opportunity to pass without expressing the great disappointment we feel at the action of both parties in this respect, irrespective of class, creed or nationality, in passing the late indemnity bill, and especially the 'last' and 'penultimate' to ex-ministers of the crown."

This is an extraordinary expression of opinion. The premises are in direct conflict with the conclusion and the whole resolution is an example of the kind of logic which is altogether too common in party conventions, and which encourages governments and oppositions into all kinds of political wrong-doing.

What respect can Sir Wilfrid Laurier have for public opinion which expresses itself in feeble words of qualified rebuke. If the West Lambton Reform Association has, as it says, conferred confidence in Sir Wilfrid Laurier, it has no right to declare that it is opposed to the salary grab. A government deserving of confidence would not make itself responsible for a salary grab such as was perpetrated at the last session of parliament, and this must have been obvious to the delegates who tried to embellish a resolution with contradictory statements of fact.

It would have been much more creditable to the West Lambton Liberals to say nothing than to say that which can in no wise impress their leaders or remedy the conditions which they lamented. A strong straight expression of opinion on the salary grab coupled with a rebuke to both party organizations at Ottawa and the nomination of an independent candidate pledged to work for the repeal of the salary grab legislation would have had a good effect on both the government and the opposition, and it would have entitled the West Lambton Reform Association to public respect. The resolution which it has passed means nothing except that it has convictions which it is afraid of its life to express.

MAP SHOWING THE CHANGES OF TERRITORY BROUGHT ABOUT BY THE WAR.

Besides owning Siberia and Sakhalin Island, Russia was dominant in Manchuria, controlling the railroad, Port Arthur and the Liaoting peninsula, and she was rapidly extending her influence over Korea. By the eighteen months' war, and by the peace of Portsmouth, Russia is driven from Manchuria and surrenders to Japan one-half of Sakhalin Island, the railroad south of Harbin, her lease over Port Arthur and the Liaoting peninsula, and her knowledge of a Japanese protectorate over Korea.

ELECTRICIAN BADLY BURNED

John Mitchell Short Circuits Wires at Exhibition—Drunken Longshoreman Causes Accident.

Perched on the top of a tall pole on the exhibition grounds in front of the administration building yesterday, John Mitchell, a young electrician, short-circuited a wire, burning his arm very badly and causing him to lose consciousness. Melvin Sanders, who was working with him, heard his cry, crawled over beside him and kicked his foot loose from the pole. In addition to the injury to his arm, Mitchell was badly burned on his face and neck. He was taken to the Emergency Hospital, where the tips of two fingers were amputated. He lives at 141 West Richmond street.

MUNICIPALITIES UNION ASK REPEAL OF COMTEE ACT

No Change Will Be Asked in Act Governing County Councils—Officers and Executive Elected.

"Let good enough alone" was the keynote of the afternoon meeting of the Ontario Municipal Association, and in a resolution passed, by which the legislature will be asked to make no change in the County Council Act as it stands at present.

In the discussion along this line it was proposed that the twelve candidates to the county councils within the province be placed before the township electorates as a body, instead of each section of the council from the district in which the township or subdivision is located. In this it was pointed out that all portions of the county would elect the councillors equally and that it would to a certain extent do away with the party favoritism that are at present in vogue.

Prior to their adjournment the association passed a resolution lamenting the death of the late City Solicitor T. P. Caswell. When the resolution was being read before the association the Mayor of Toronto, Mayor Erskine, made a very laudatory speech on the good qualities, the great assistance and energy that Mr. Caswell had shown in furthering the work of the association during his lifetime.

At the morning session the association dealt with the Comtee Act, and to a member was opposed to it. The following resolution was passed: "That the Comtee Act be repealed, and that the municipalities be given the power to purchase or expropriate on equitable terms any light or water plant."

Mayor Urquhart and Ald. Jones were heard and gave voice to their views on the subject. The Mayor of Toronto, Mayor Erskine, of Kingston wished to supplement words in the resolution by which protection would be given to private capitalists in event of the act being repealed. To this Controller Hubbard strongly objected, and Mr. McIntyre's proposal was lost.

A resolution of thanks was tendered to the Ontario government for the interest taken in the question of water power for the development and transportation of electric energy. The following resolution, asking that the local government defray the costs of the "patent" lists was again passed. The matter of the term of two years' representation by mayors and aldermen met with unanimous approval.

Their officers elected. Controller Hubbard and Mayor Ellis of Ottawa were proposed for the presidency in an open vote. Controller Hubbard was elected the vice-president; second vice-president, D. McIntyre; third vice-president, Ald. Cooper; London; fourth vice-president, Warden Beam, Wexford; secretary-treasurer, S. H. Kent, Hamilton.

The executive this year will give fair representation to every part of the province, including the county councils. The following are elected: Mayor of Toronto, Mayor of London, Mayor of Brockville, Mayor of Ingersoll, Mayor of Cornwall, Mayor of Parkhill, W. Maclellan, K.C., of Hamilton; City Solicitor "Chisholm" of Toronto, W. C. Mickie, Belleville; W. A. Boys of Barrie; Charles Collins, Wentworth County; S. R. Armstrong, clerk of Peterboro.

OTHER ACCIDENTS YESTERDAY

The bear that walks like a man will sleep like a log this winter.

The current of the Globe's thought is roughly estimated at 2000 voltage.

The West Lambton Reform Association hates the sin, but they love the sinner.

The United States claim to have the greatest ruler on earth, but Canada has the greatest exhibition.

The feature of the close of the peace market at Portsmouth was the sharp slump in Jap Irreducible Minimus.

The Russians won the last battle of the war just by way of relieving the horrible monotony of the campaign.

The Russian bear now thinks it can sleep next winter without waking up every other night to find the house on fire.

Premier Whitney was not at all anxious to open the exhibition, knowing that there would be such a rush of applicants for the vacancy.

A peace conference differs from war in the essential respect that in the latter there is never any doubt as to which side got the worst of it.

The hotels are taxed to their utmost these days; so are all the rest of the people whose names happen to be honored with a place on the assessment rolls.

Prince Louis had a German dinner at Berlin. His serene Highness would well to sidestep French dinners unless he wants to be read out of the navy by The Hamilton Spectator.

It will pay anyone who wants to know anything about Cuba to read Mr. Milliken's statement in regard to "Eastern Cuba and the Railroads" in another column.

ITCHING, BURNING, Stinging Eczema

With All Its Unbearable Torture is Entirely Overcome by the Use of Dr. Chase's Ointment

ITCHING skin diseases such as eczema, salt rheum and tetter are the despair of the doctors. They prescribe some relief for the itching or an internal medicine to act through the blood, but usually tell their patient candidly that they can do nothing for such ailments.

We do not recommend Dr. Chase's Ointment as an experiment, for it has long since passed the experimental stage as a cure for itching skin diseases. It has positively proven its power to relieve the itching in thousands of severe cases, and if you could read the sincere letters of recommendation which come to these offices you could not help but consider this the most successful treatment for diseases of the skin that was ever discovered.

It exercises to a remarkable degree that soothing, healing, antiseptic influence which alone is successful in making the cure of eczema and other itching skin diseases.

Dr. Chase's Ointment, 40 cents a box, at all dealers or Edmanston, Bates & Co., Toronto.

DOG SAVES A GIRL

ON RAILROAD TRACK. Ladoga, Ind., Aug. 31.—Lying on a railroad track in an unconscious condition with no one near her but a faithful dog that was making an effort to call assistance, Miss Maud Heitzner, living near here, was picked up just a few moments before a heavy freight train dashed over the spot where the girl had been found by her uncle.

Miss Heitzner, who is 15 years old, accompanied by her shepherd dog, was walking on the railroad track when she discovered what appeared to be a mistal tube. She began pounding it with a rock, there was an explosion and the girl was thrown heavily to the track.

The dog began to bark and the attention of Frank Barton, an uncle of the girl, who was at work 200 yards away, was attracted.

WOULD IDENTIFY CRIMINALS.

Central Bureau to Be Formed by Chief Constables.

One of the features to be submitted to the Chief Constables' Association, which will convene in the city hall on Tuesday, will be the formation of a central bureau for the identification of criminals. It is something which Chief Constable of Montreal, Colonel Sherwood of the Dominion police and Chief Constable of Toronto, Colonel Grawert have had in their minds for some years, and it seems as if it would reach a satisfactory conclusion next week.

The three chiefs mentioned will meet on Monday to prepare a program. There will be an all-day session. Lunch will be served at the Royal Canadian Yacht Club at noon, and the chiefs will return early and resume their work. Among the other subjects for discussion will be the use of the telephone as a police agent instead of telegraph, which is used at present.

When the meeting first opens badges will be given out entitling the wearers to admittance to the Industrial Exhibition, Shea's Theatre, the Star Theatre and transportation on the Toronto Ferry Company and the Toronto Street Railway, thru the kind permission of those institutions.

Sharp All Round Decline and Little Recovery—Domestics Are Very Sympathetic.

World Office, Thursday Evening, Aug. 31.

The local market was seized with a spasmodic movement at New York. Speculation on these issues interested in Wall Street. The local market was not the decline. The buoyancy enjoyed in New York in the afternoon was not the result of the opposite action of the market, but rather a result of a sudden recovery in the market, without a corresponding recovery in the market.

Fur Exhibit

The furs we sell pass through two hands only, the trapper and our agents.

With Canadian furs—the greatest of all popular furs—the advantage we have in buying and manufacturing, puts us in a class by ourselves.

We have been in the fur business half a century—we have agents in the Canadian northern wilds and in every other country in the world.

We want you to call and view our special exhibit in the big showrooms Corner Yonge and Temperance Sts.

134 CAR LOADS AT CITY WARD RECEIVED SINCE TUESDAY

Market Yesterday Was Draggish With Prices Lower for Cattle—Lambs Easier.

Receipts of live stock as reported by the railways since Tuesday were large, 134 car loads, composed of 1852 cattle, 1378 hogs, 2133 sheep and lambs, and 215 calves.

The quality of the bulk of fat cattle was common to medium, with a limited number of good.

There was a large run of the common light eastern hogs, the market for these being very active.

USED RUSTY REVOLVER

Arthur L. Hayzlett Attempts to End His Life.

Arthur Lionel Hayzlett, an English, employee of the J. D. Ivey Company, attempted to end his life in his boarding house, 76 William-st., yesterday morning.

The great danger is blood poisoning, resulting from the revolver having entered his chest. Dependencey thru ill health is given as the cause for his rash deed.

The sound of a muffled report and a cry from Hayzlett's room was heard about 8 a.m. The young man was lying on the floor with blood spurting from his forehead.

He was removed to the Emergency Hospital in the ambulance, where his wounds were treated. He is likely to do, he will be prosecuted in the future.

He is 25 years old and came to this country about six months ago.

SWEDEN WANTS DRIED APPLES.

Making Inquiries as to Extent of Canadian Supply.

(Canadian Associated Press Cable). London, Aug. 31.—The Swedish government is making enquiries, through Lord Strathcona's offices, as to whether Canadian dealers in dried apples could supply a very large quantity of the fruit.

Representatives of Canadian firms here, who said that if a large quantity could be supplied.

John MacAuley, general manager of the Canadian Fruit and Produce Company, in the course of an article on the Magazine of Commerce, refers to the question of technical education.

He says: "The ban who frequently, if not most frequently, comes to the front in Canada and the States is he who as a boy did not receive anything beyond an elementary education."

AMBULANCE WAS BUSY.

Answered a Dozen and a Half Calls Yesterday.

The ambulance department in connection with No. 1 Police Station had a busy day yesterday over a dozen and a half cases being moved by them. They consisted mainly of accidents which had to be attended to immediately, and the regular work of removing patients to the different hospitals.

A gentleman asked her if she didn't want a letter box. He had guessed right.

AT EXHIBITION TIME. This is a true story. Last evening an elderly lady was seen standing apparently in doubt, at Queen and Bathurst-streets. In her hand she held a bunch of letters.

The Bishop of Niagara will preach in St. James' Cathedral on Sunday morning.
