BOSTON DISTRICT SWEEP BY FIRE

\$10,000,000 LOSS, AT LEAST 4 DEAD PEOPLE MADE HOMELESS

Chelsea's Manufacturing, Retail and Tenement Sections Are Swept Away in Conflagration Which Rages All Sunday and is Fought by Firemen From Dozen Cities—Soldiers and Sailors Assist.

CHURCHES TAKE FIRE BEFORE CONGREGATIONS KNOW OF THE DANGER

BOSTON, April 12.—An apparently insignificant fire, which started among rags on a dump in the City of Chelsea, today was fanned by a northwest gale into a conflagration which obliterated nearly one-third of the city. Five hundred dwellings, houses and public buildings were destroyed, 1500 were driven from their habitations, and ten thousand people made homeless.

Two lives are known to have been lost, and at a late hour to-night it was reported that two other persons had perished, one a woman, having shot herself in a frenzy over her inability to save her property.

From 50 to 75 persons were injured. In the confusion attending the situation, accurate estimates of the loss were impossible. The city police estimated it at nearly \$10,000,000.

The fire raged before a 45 mile an hour gale for more than six hours, defying the combined fire departments of Chelsea and several nearby cities, and a large detachment of Boston firemen and apparatus.

The fire area, which was in the form of an ellipse a mile and a half long and half a mile wide at its broadest part, extended diagonally across the city from a point near the boundary between Everett and Chelsea to the waters of Chelsea.

The Winning Stand.
It was useless for the firemen to attempt to check the onrush of the flames, before the fire had gained sufficient headway to prevent a spread of the blaze upon either side.

Their last stand was taken at Chelsea Square late in the afternoon, and for hours a doubtful battle was waged. At 9 o'clock word was passed that the firemen were winning, and with renewed energy the contest was pressed. At 10.55 official announcement was made by Fire Chief Spencer that the fire was under control.

The great majority of the buildings were of wood and were completely destroyed, but structures of brick, stone and iron were almost as quickly and thoroughly incinerated by the fierceness of the blaze.

All the banks, more than three-quarters of the churches, half of the business blocks and nearly all the schools were wiped out. One hospital and many nurseries were destroyed. In the turmoil many of the sick and infirm found difficulty in obtaining assistance, and several of them had narrow escapes.

Thousands were sent to Boston to-night and were furnished with food and lodging in schools, armories, etc., and various churches and other public buildings in the unburned section of Chelsea were thrown open to shelter the unfortunate. A committee was formed to-night and a meeting will be held to-morrow, at which definite measures of relief will be considered.

The Beginning.
The fire started at 4.40 a.m. Half of the Boston fire department's strength, and steamers from a dozen other cities and towns went to the aid of the helpless Chelsea department.

The fire originated in the marshes in the rear of the Boston Blacking Co.'s works on West Third street, among large quantities of rags that were being dried there.

A terrific gale from the northwest, which at times had a velocity of sixty miles an hour, communicated the fire to the buildings of the blacking company and carried along shingles, embers and myriads of sparks from these to a score of neighboring buildings, most of them of cheap wooden construction.

The place of origin was almost in the extreme southwest section of the city, and the fire cut a path to the end of Maverick street at the extreme southeastern end of the city, which borders on Chelsea Creek, and about one mile and a quarter from the point where the conflagration began.

The flames wrecked the heart of the retail business section of the city. Buildings burned.

Among the structures destroyed were thirteen churches, two hospitals, the public library, city hall, five schoolhouses, twenty bus blocks, nearly a score of factories and upwards of 300 tenements and dwelling houses.

Among the places burned were: Frost Hospital, Children's Hospital, Fitz Public Library, St. Stanislaus Polish Catholic Church, First Baptist Church, Central Unitarian Church, St. Luke's Episcopal Church (old building), First Methodist Episcopal Church, Elm-street Synagogue, Walnut-street Synagogue, Chelsea Presbyterian Church, People's Afro-Methodist Episcopal Church, Fourth-street Universalist Church, Fifth-street Congregational Church, Shrewsbury-street Methodist Episcopal Church, Second Adventist Church, New England Telephone and Telegraph Co.'s central offices, Austin & Young's cracker factory, Chaplin & Soden Car Company's shops, Rosenfelt Bros.' three-story rag picking factory, and the Tidewater Oil Co.'s three immense tanks.

Five Banks Gone.
These banks were burned: County Savings Bank, Chelsea Savings Bank, Chelsea Trust Co., Winnisimma Na-

TRAGIC FREAKS OF WINDSTORM IN NEW YORK CITY

Several Fatalities Are Reported—Two Men Are Killed by Falling Signs—Boat Upset, Man is Burned Trying to Put Out Early Fire

John Dinwoodie Painfully Injured—Two Ladies Carried Down Ladder by Firemen.

NEW YORK, April 12.—Five men are known to have lost their lives, a number of boatmen are reported missing and dozens of persons were injured in a furious windstorm which set in here Saturday afternoon. The fire was discovered by the married daughter of Dinwoodie, about 120 p.m. She gave the alarm, and Dinwoodie, rushing to the kitchen, tried to smother the flames, which were making good headway. He was unable to do so, but the policeman on the beat, turned in an early report, and was quickly responded to by Portland-street sections.

Mrs. Dinwoodie and her daughter, who had taken refuge in the second storey balcony, were brought down by Capt. Davis and Lieut. Dean of hook and ladder 2.

The fire, which caused about \$200 damage to the kitchen and about \$40 damage to contents, had its origin in the dropping of fiery soot from the chimney.

The house is the property of Mrs. Garrett, 11 D'Arcy street.

AGAINST SIR HIBBERT.
Conservative Club Not Enthusiastic for His Candidature.

VANCOUVER, B.C., April 12.—(Special.)—Sir Charles Hibbert Tupper has written a letter to The News-Advertiser, commenting upon the resolution adopted by the Conservative Club executive on Friday evening. This resolution laid down the Conservative Club's opposition to the candidature of any person before the calling of a convention, and deprecated attempts made to bring any candidate into the field, or to canvass for him until that time. The resolution mentioned no names, but was confessedly passed in view of a meeting held last week in favor of Tupper's candidacy.

Sir Charles says to-day that he wishes a meeting of the entire club called to discuss the resolution and obtain a representative expression of opinion. He adds: "I would prefer this course to the only other one open to me, namely, to ask the Conservatives of Vancouver to hear me on this subject."

The matter has caused a big sensation here. Ever yeffort is being made by leaders, other than purely Tupper followers, to prevent any chance of his nomination.

PASTOR RESIGNS.
Rev. Dr. Woffles Wouldn't Even Conduct Evening Service.

WOODSTOCK, April 12.—Dr. Woffles, pastor of the Baptist Church here, created a sensation this morning after the regular service by announcing his resignation, to take effect immediately. He simply lay down on his job, and refused to undertake any further duty, declining to conduct the evening service.

There has been trouble in the congregation for some time. He blamed the congregation for the poor showing made at the recent services, and for his resignation. Hence the strained relations. He came here from New York State three years ago.

KIPLING IN TROUBLE.
B.C. Exclusionists Will Try to Offset His Writings.

NEW WESTMINSTER, B.C., April 12.—(Special.)—Rudyard Kipling was roundly condemned at Saturday night's meeting of the Westminster Branch of the Asiatic Exclusion League. A number of statements made by the bard in his series of "Letters to the Family," being objected to by anti-orientals. The offender, while statements contradicting his conclusions with respect to the need of the Asiatic in this province will be scattered broadcast.

CHARLES LINDSEY IS DEAD

LEAVING A NOTABLE RECORD IN CANADIAN JOURNALISM

Nestor of the Profession Passes Away at a Grand Old Age—A Maker of Early History—Registrar of Deeds in Toronto for Many Years.

In the death of Charles Lindsey, the Canadian public has lost one of the oldest, most experienced and most distinguished of those who may be called its own special servants. For this at least may be said of a man who spent the greater part of a long lifetime as an able, industrious and accomplished journalist, the author of books, pamphlets and papers full of facts and information, political, historic and economic, of general interest and value, and who filled usefully and honorably an important and responsible public office under the government of the province.

Yesterday morning at 10 o'clock Mr. Lindsey died at the residence of his son, G. G. Lindsey, K.C., in Ryndall-avenue, in this city, at an advanced age, having not long completed his eighty-eighth year. Although a month or so ago, mentally strong and with a memory and faculties clear and unimpaired as to past events ranging over a long period of our political history, which he had in a measure helped to make, Mr. Lindsey had been failing physically for several years past, and particularly since his return from Fernie, B.C., where he had been living under the affectionate care of his son and the members of his family.

Death was due to a general breaking up of the constitution. For the past three weeks Mr. Lindsey had not been conscious, and death was hourly expected. The family were all present when the end came. The funeral will take place to-morrow afternoon at 3 o'clock to the Necropolis.

If he had had his way Mr. Lindsey would probably have died in harness as a hard working journalist, for as a rule they who have once entered the political strifes of public life seldom quit the scene willingly or become deaf to the old challenges and the familiar rallying cries. But the need of rest was imposed upon him while in mid career, and he sought it while still able to enjoy it, and while able at the same time to render useful public service, and to cultivate, under less strenuous conditions, his fine literary talents and those intellectual tastes the relish for which he never lost. Life's retrospection, in these circumstances, and at the close of eighty-eight years, is not an unenviable lot.

Career as a Journalist.
The late Charles Lindsey was born on Feb. 7, 1820, in Lincoln, England, the famous cathedral city. He was educated at the grammar school there.

POLISH GOVERNOR SHOT DOWN BY STUDENT

Member of a Delegation Slays One of Country's Most Prominent Aristocrats.

LEMBURG, Austria-Hungary, April 12.—Count Andreas Potocki, governor of the Austrian Polish Province of Galicia, was assassinated this afternoon by a Ruthenian student, Mierostap Sjezynski, by name, while giving an audience to a delegation of students.

The assassin fired three shots from a revolver, all of which took effect. The governor soon afterwards died, but first asked his secretary to inform his majesty at once.

"Tell him," said the dying man, "I was his most faithful servant."

The assassin did not resist arrest. When led thru the governor's ante-chamber he said to the Ruthenian peasant who were waiting for an audience: "I have done this for you."

The assassin's brother, who had been informed of the plan to kill the governor, committed suicide shortly before the murder.

The affair has caused a great sensation throughout the monarchy. The Potocki family is among the most prominent aristocrats of Polish blood. On learning of the tragedy, the emperor sent a message of sympathy.

Many Ruthenians have been arrested, but none as yet implicated in the assassination. Sjezynski said he thought it his duty to avenge the Poles for the oppression of the Potocki government.

Mayor Returns With Only Mild Enthusiasm for Filtration Plant.

Mayor Oliver and City Engineer Rust returned yesterday from Philadelphia, where they inspected the \$2,000,000 filtration plant.

The mayor said that, while the plant was undoubtedly a fine one, he had not yet become an enthusiast like Controller Harrison on the subject of filtration.

"The Philadelphia plant applies the process of filtration to 200,000,000 gallons of water a day, the cost of operation being \$4 per million gallons," he continued. "Mr. Rust estimates that Toronto only needs to make provision for 40,000,000 gallons, and the plant required would cost about \$2,000,000. It looks to me like a large-sized item."

The mayor will make a report to the board of control to-morrow.

WOMAN FATALLY BURNED.

While Bathing Children, Dress Catches Fire From Gas Stove.

DUNNVILLE, April 12.—This morning as Mrs. Stanley Bates was bathing her babies in front of an open gas stove, her dress took fire and she was so badly burned that she died this afternoon.

Mrs. Bates was alone in the house, her husband having left for Penetanguishene a week ago. She leaves four small children, the youngest being twin boys 4 months old.

HOSPITAL BURNED.
CHIPPewa FALLS, Wis., April 12.—Fire Saturday destroyed the North-western Hospital. The nurses prevented a panic and 23 patients were carried out in safety.

Carl Sorenson was under the influence of ether on the operating table when the fire broke out.

NOT MANY CHANGES.

New Cabinet is Received With Favor in London.

LONDON, April 12.—Official announcement was made to-night of the new cabinet appointments. They are as follows: HERBERT ASQUITH, prime minister and first lord of the treasury; DAVID LLOYD-GEORGE, chancellor of the exchequer; LORD TWEEDMOUTH, president of the council; EARL OF CREWE, secretary of state for the colonies; REGINALD McKENNA, first lord of the admiralty; WINSTON SPENCER CHURCHILL, president of the board of trade; WALTER RUNCIMAN, president of the board of education; JOHN MORLEY, secretary of state for India; SIR HENRY FOWLER, chancellor of the Duchy of Lancaster, have been made peers, but retain their present offices.

COLONEL G. S. E. SREBLEY has been appointed under-secretary for the colonies.

LORD LUCAS, parliamentary secretary of the war office.

F. D. ASLAND, financial secretary of the war office, and THOMAS R. BUCHANAN, parliamentary secretary of the India office.

Asquith's course, having been fully anticipated in well-informed political circles, the few changes which Mr. Asquith made in the old Campbell-Bannerman cabinet caused no surprise. There was some speculation as to whether the new premier would think well to resign parliament, and he would have been fully justified, in assuming the government under somewhat unusual circumstances, in taking the course of appealing to the country for a new mandate. He has, however, evidently decided otherwise.

His aim in composing the cabinet seemingly has been to avoid as far as possible any by-election in constituencies where the faith in Liberalism is wavering.

The changes are announced only necessitate four by-elections, of which heretofore had respectively by John Morley, Walter Runciman, and Sir Henry Fowler, may be considered safe. Winston Churchill's re-election in Manchester, however, is considered decidedly doubtful. Until won by Mr. Churchill, after one of the most notable contests thirty months ago, his seat had been for a decade a Conservative stronghold.

It is interesting to note that before giving the chancellorship to Lloyd George, Mr. Asquith offered it to Mr. Morley. Mr. McKenna, the new admiralty chief, is credited with being an advocate of economy in the navy.

Some further appointments outside the cabinet will be announced after the King's return to London.

The Change in the Admiralty. The only appointment provoking

A WOMAN UPSET ASQUITH'S HOPES

How C.B.'s Resignation "Leaked" Into Publicity Ten Days Before it Was Due.

ASQUITH NAMES NEW CABINET

NEW YORK, April 12.—The World's London cable says: How Mrs. George Keppel precipitated a British ministerial crisis is all the talk in political circles.

When Sir Henry Campbell-Bannerman sent his resignation to King Edward at Biarritz, Friday, April 3, by special messenger, the intention was that it should not be made public until Monday, April 13. This was by arrangement with Herbert Asquith, to give him time to quietly complete a plan for cabinet reconstruction before proceeding to Biarritz to see the King, and also to enable the government to proceed with the business of legislative work before the house of commons, was of vital importance to the government.

The King received Bannerman's resignation last Sunday morning and at luncheon that day a remark fell, it is said, by Mrs. Keppel was seized upon by one of a company, a French diplomat, who immediately telegraphed the French premier that Bannerman had sent in his resignation. Premier Clemenceau at once communicated the news to the official paper, the Temps, which published it Sunday afternoon.

It appears that Mrs. Keppel did not say directly that Bannerman had resigned, but made some remark about a possible alteration in the King's holiday arrangements, which the keen Frenchman instantly interpreted as indicating Bannerman's actual or imminent retirement.

When the statement was published in the Temps there was nothing for it but to make a clean breast of the secret, and so the King gave an authorized announcement to Hava's agency, Asquith was dumfounded and desperately angered when enquiry at his house Sunday evening showed that all his plans had been shattered and that cabinet reconstruction, which was to have been completed secretly and disclosed only when finished, would have to be carried out in the full blaze of publicity, hampered by press and political influences, and that ten days of the parliamentary session would be lost, when every hour is valuable.

MIDNIGHT ROW CALLS FIREMEN WITH POLICE

Lamp Thrown at Woman Sets House Ablaze—A Call for Prohibition Activity.

HAMILTON, April 12.—(Special.)—There was a lively row at the home of Mrs. Grundy, Bay and Simcoe streets, about midnight Saturday. Both the fire and police departments were called out before it was quelled. It is alleged that Ben Grievess threw a lamp at his mother, Mrs. Grundy, and upset the stove. Mrs. Grundy was taken to the city hospital with a nasty cut in the head, and the son was taken to the cells and charged with aggravated assault. The firemen had little to do, the loss not amounting to more than \$25.

Rev. Roy StanWick, pastor of the Sherman-avenue Presbyterian Church, said to-night that it was time that the goodly-godly church and King's did not take a part in politics should go into the party caucuses and use their influence to have prohibition placed in the party platform as one of the planks. Now that the provincial and Dominion elections would soon be on he thought it was time for the temperance people to get busy.

SCOUT UNDER GEN. KITCHENER

Death of Lieut. J. O. Le Valle Recalls An Interesting Military Career.

OTTAWA, April 12.—Lt. James O. Le Valle, who died at the age of 35 at the Chelsea apartments, occupied the position for some time of head scout under General Kitchener in the South African campaign and was in charge of the escort which conducted Lady Roberts across South Africa. He served through with distinction and was esteemed for his bravery and for his attention to the suffering.

The late James O. Le Valle was born in Manchester, England, and after attending Manchester School, Eton School, and a university, he studied medicine, came to Canada, he established at Winnipeg and went into the printing business. With the 13th Field Battery and was sergeant-major when he enlisted with the 1st South African contingent. After returning to Canada he was employed with The Brandon Sun, but later came to Ottawa.

Hearst May Yet Be Mayor.

NEW YORK, April 12.—The right of George B. McCallan to the office of mayor of New York City, which is challenged by Wm. R. Hearst, will be determined at a trial to begin Tuesday before the appellate division of the supreme court in New York. The preliminary contest has been dragging through the courts for more than two years.

A Magnificent Service.

The people's Sunday night services in Massey Hall reached a climax last night when the great auditorium was filled with as respectful and attentive an audience as could be found yesterday in the churches. The topic was the events of the holy week which Mr. J. M. Wilkinson illustrated by beautiful views. An attractive feature of the service was the brilliant white and red electric cross furnished by the Toronto Electric Light Co. by the light of which the great audience sang, "In Christ I Glory" and other favorite hymns. Special mention should be made of Madam Kathryn Chatterton and Rejected of Men, and also Miss Georgia Rodgers' singing of "There is a Green Hill far Away." The African Orchestra played a selection of sacred pieces from 6.30 to 7 p.m.

Mr. Wilkinson thanked the audience for their numerous benefactions and attributed to "present financial conditions." The prospect of having another "nobleman" in the family is enough to start a period of strict economy in all the Gould households.—Kansas City Times

ELECTIONS WILL LIKELY BE HELD IN JUNE

The eleventh legislature of the Province of Ontario may be said to have passed from existence at 5 o'clock on Saturday afternoon, and the obsequies will be celebrated on Tuesday at 3 p.m. A very busy day preceded the last moments of the assembly, and the "dying hours" of the past week must be confessed by the warmest admirers of the Conservative party to have somewhat lowered the eminence of the record established since 1905.

Before the adjournment Premier Whitney stated that the elections would be held either in the autumn or in June. The cabinet had not decided yet if they would be held before the 15th of June, but if not they would be held at a later date.

The Premier's Promise.

As far as possible he wished to carry out his promise to the house, and make a statement about what some people called the coming elections. His reason for saying anything was to dispel the general atmosphere of pseudo-mystery surrounding the matter. Everyone knew what was going on. Everyone had assumed that no one should know anything, and especially political opponents. He had made it a rule to give the speech from the throne to all newspapers alike. No harm could be done by taking the people into confidence as far as possible. He was unable to state just when the elections would take place, but would do so as far as they knew. He remembered once when he and Hon. Mr. Matheson made a little journey together. Hon. Mr. Hardy had a little warmed up about it, but when he cooled down he called Mr. Whitney into his office and asked him his views as to the time that should elapse between the issue of the writ and the election date. As it happened they agreed, and ever since then Mr. Whitney thought of the matter in the course of the best. All he could tell them was that the elections would be in September or October, or comparatively early in June, if they did not take place in June they would go over to a later date. (Laughter.) The cabinet had not decided on the moment it had the news would be given to the press. If in June it would not be later than the 15th.

Penalties for Bills.

D. J. McDougall (Ottawa) suggested that if Premier Whitney intended resisting the rules the Ottawa practice of insisting on \$100 penalties for bills delayed beyond the dates fixed for introduction had worked well there. There was a general scramble on the last day to get bills in time, and only one or two were left over, it being known that the penalty would certainly be inflicted. Premier Whitney was obliged to not mention mentioning the matter. He intended to consult the gentlemen in Ottawa, and perhaps elsewhere, on the subject.

The Premier Hints Appeal May Not Be Held Until Autumn Comes.

The eleventh legislature of the Province of Ontario may be said to have passed from existence at 5 o'clock on Saturday afternoon, and the obsequies will be celebrated on Tuesday at 3 p.m. A very busy day preceded the last moments of the assembly, and the "dying hours" of the past week must be confessed by the warmest admirers of the Conservative party to have somewhat lowered the eminence of the record established since 1905.

Before the adjournment Premier Whitney stated that the elections would be held either in the autumn or in June. The cabinet had not decided yet if they would be held before the 15th of June, but if not they would be held at a later date.

The Premier's Promise.

As far as possible he wished to carry out his promise to the house, and make a statement about what some people called the coming elections. His reason for saying anything was to dispel the general atmosphere of pseudo-mystery surrounding the matter. Everyone knew what was going on. Everyone had assumed that no one should know anything, and especially political opponents. He had made it a rule to give the speech from the throne to all newspapers alike. No harm could be done by taking the people into confidence as far as possible. He was unable to state just when the elections would take place, but would do so as far as they knew. He remembered once when he and Hon. Mr. Matheson made a little journey together. Hon. Mr. Hardy had a little warmed up about it, but when he cooled down he called Mr. Whitney into his office and asked him his views as to the time that should elapse between the issue of the writ and the election date. As it happened they agreed, and ever since then Mr. Whitney thought of the matter in the course of the best. All he could tell them was that the elections would be in September or October, or comparatively early in June, if they did not take place in June they would go over to a later date. (Laughter.) The cabinet had not decided on the moment it had the news would be given to the press. If in June it would not be later than the 15th.

Penalties for Bills.

D. J. McDougall (Ottawa) suggested that if Premier Whitney intended resisting the rules the Ottawa practice of insisting on \$100 penalties for bills delayed beyond the dates fixed for introduction had worked well there. There was a general scramble on the last day to get bills in time, and only one or two were left over, it being known that the penalty would certainly be inflicted. Premier Whitney was obliged to not mention mentioning the matter. He intended to consult the gentlemen in Ottawa, and perhaps elsewhere, on the subject.

What Every Woman Requires For Headache, Languor Mrs. Mary Flannigan Gives Advice That is Sound, Useful and True.

Has your strength given out? Do you feel languid and tired this spring?

Are you pale, somewhat nervous, finding it hard to do your household work? Thousands feel just the same—feel the enervating influence of spring weather, that brings out latent symptoms of disease and weakness.

Essence Junction. Here is her experience: "I will never again suffer the torture of deadening spring illness—nervousness, that keeps me up at night, such pale cheeks and lack of appetite. I lived through it all several times, but now I know the medicine that cures. I urge every person, young and old, to try the invigorating effects of Dr. Hamilton's Pills. When I was so played out, listless, Dr. Hamilton's Pills gave me appetite—I relished my meals and grew strong. Rosy color came to my cheeks, every day, I felt brighter and better. All my old strength has been restored and the tonic, blood purifying powers of Dr. Hamilton's Pills did it all."

Women who are naturally pale, suffer from blind and sick headaches, faint and dizzy spells, aching muscles, bearing down pains, lack of sleep and loss of appetite—they are the poor women that sorely need Dr. Hamilton's Pills of Mandrake and Butternut. 25c at all dealers

A very useful style for these difficult ages is the kimono, now varied by the kimono. It consists of a loose blouse with a low, square-cut yoke and loose sleeves. The square top, the skirt, and the sleeves are all edged with a pretty wide material matching the waistband, and it is worn over a blouse of white or some lighter color. This gives appearance of brightness and smartness, and allows the dress to be of a dark and durable color and material.

It also has the advantage that old blouses which have worn under the arms can be worn with it. The prettiest mode for the skirt is to have it arranged in flat pleats, stitched for a few inches below the waist. The fullness on the top of the arms can be drawn into tucks arranged in just the same way.

Women's Work. NEW YORK, April 12.—Discussion of means to check the ravages of tuberculosis in New York State occupied much of the session of the State Charities' Aid Association held here Saturday.

Joseph H. Choate, formerly American ambassador to Great Britain, and president of the association, who presided, commented on the number of women present at the meeting, and complimented them upon the efficiency of their efforts in behalf of the association, the greater part of the organization work since its four women having been done by the nation, he said.

Heavy Veils. Veils are topics of never-ceasing interest. It is bad news to the brunette—who has, perforce, to choose her veil with even more care and consideration than she bestows on her hat, and who has discovered that her best chance lies in the selection of a very light open mesh, somewhat sparsely spotted—to learn that fashion in Paris is all on the side of heavy black veils fashioned of coarse silk net, with a rather rough web, which supplies a notable contrast to the wide-meshed silk net of cobwebby fibre with which the smartest of her hats or the most up-to-date of her evening dresses are trimmed.

These heavy nets give a somewhat funeral appearance to a dark woman, and, unless thrown back from the face, they are more than a little apt to give the effect of an unbecoming black frame around the forehead and hair, while in their arrangement over the face care should be taken that the veil lies perfectly smooth, without a series of thick wrinkles or creases in the net on either side.

World Fatter Department

A Charming Neglige. No. 850. There is something wonderfully graceful and becoming about the simple lines of a kimono. This one is made more attractive by deep tucks that are taken up on the shoulders, the fullness falling in soft folds to the lower edge. Oriental figured silk makes the most bewitching of negligees, but other inexpensive fabrics are also used, such as cotton crepe, China silk, French flanne and lawn. The medium size will require 3-1/2 yards of 36-inch material.

Ladies' Kimono, No. 850. Sizes for small, medium and large. A pattern of the accompanying illustration will be mailed to any address on receipt of ten cents in silver.

AT THE THEATRES

Frank Daniels will play the evening of "The Zaccato" at the Grand Opera House Theatre this week, when he is to be seen in his latest comic opera success.

The concert to-night by Josef Hofmann, the great pianist, and Fritz Kreisler, the splendid violinist, is in many ways the most exceptional musical offering of the season.

The combined salaries of Oscar Hammerstein, Bond, Mme. Melba, Maud Adams, Anna Held, Charles Telford, Montgomery and Stone, Louis Mann and Joe Welch, would stagger the most ambitious impresario, but Manager Jack Singer of the Bohman Show at Frank D. Bunker Rowland's Congress of American Girls, which plays the Grand Theatre this week, has played this question very nicely in his opening burlesque, "Out on Strikes."

The Junior recital announced by the Toronto Conservatory School of Expression was given in the Conservatory Music Hall on Friday evening last. The uniform excellence of the program, which was very varied in character, was evidence of the careful training received in this sterling institution.

The announcement is made of the engagement of Miss Grace Marks, daughter of the late Mrs. Roland B. Marks, Chicago, to Mr. Lionel Montrose Parker, Belleville, formerly of Chicago, and a brother of Sir Gilbert Parker, M.P.

The marriage will take place in Chicago on April 20, when Miss Edith Marks, a sister, will also be married to Dr. Charles Edward Pearson, New York.

BERKMAN, ANARCHIST, LECTURES IN TORONTO

Refers to Recent Deeds of Violence and Blames Economic Conditions as the Cause.

"Anarchists take the very sensible position of neither justifying nor condemning something that is the result of certain conditions."

"This is the position towards deeds of violence committed by individual anarchists taken by Alexander Berkman, an associate of Emma Goldman, and one of the leaders of the anarchist movement in the United States."

"The bomb-thrower in New York had said that he had been brutally treated by the police. It was just another case of the economic conditions which had caused this man the suffering which had finally led to his act of violence."

"Social conditions are responsible for the deeds of violence," Berkman declared. "There lay the blame and not on the anarchists, who are trying to explain those conditions. Our methods

are not methods of violence, but of education and propaganda."

"We always have peace and order as long as the police do not interfere," said Berkman in way of preface to his interpretation of anarchistic philosophy. It was a philosophy, he said at the outset, which was the subject of much willful misrepresentation.

President Roosevelt had stooped to a conscious falsehood in classifying anarchists with criminals, and had forgotten that Payne, Jefferson and Franklin, if not thorough-going anarchists, had expressed many anarchistic ideas.

Anarchists, however, could suffer to be classed as criminals, because Christ had been crucified between two thieves. An anarchist would not mock a carnival of crime, for the causes of crime would be largely eliminated.

Under the present system, with all its laws, crimes are increasing. He had taught that no man should be the master of his fellowman, and no man the slave of his fellow-man. The early Christians had lived in a state of true anarchism and communism.

The producing classes, Berkman continued, were the support of the social system, but enjoyed very little of what they produced. The capitalist class controlled the necessary means of production, and were thus able to exploit their fellow-men.

The government existed to support this class. The armed and violent means which every government possessed to carry out its mandates constituted its authority.

Here the speaker side-stepped from a matter of some little importance and said: "How abolish government and private property?" he continued. "A very simple matter."

It could be done, he claimed, by simply applying the principle that a man has the right to enjoy what he produces, and that only the man who could produce was entitled to the land and other means of production. It was simply a question of social honesty and square dealing.

WE HAD A FIRE. Thursday night, April 2, the third flat of our building was burned out. Our rugs and Oriental goods were on the first and second floors, so that while a few valuable rugs were scorched and soaked, most of our stock was not really injured at all, though pretty well wet, as is usual in such circumstances. No smoke, to speak of, got into our principal stock rooms; the rugs are as good and fresh as new, aside from being damp. However, this is enough to make it necessary to sacrifice values, just as much as if the stock was damaged.

Free-for-All Race for Rugs. We are forced to make immediate sales of a large quantity of goods to get enough capital to meet the extra expense of repairs and restocking.

We are going to make the prices so low that it will clear out a great amount of our stock. This is the first fire we ever had, and probably will be the last, so take advantage of this unique opportunity of getting the finest Oriental rugs at prices that will not be sufficient to see us out of a big loss.

We Want Your Help. Do You Want Rugs? During this week we will offer you the biggest bargain chances you ever saw. This is the rarest opportunity for rug buyers, so come in and make a personal selection.

Gillette Safety Razor

NO HONING NO STROPPING

Contracts?

If you knew a barber who would shave you for 2c a week—and guarantee never to cut you—and give you cleaner, smoother shaves than you ever had with an old fashioned razor—wouldn't you sign a life contract with him?

This is exactly the contract you sign with yourself when you buy a Gillette Safety Razor.

The Gillette Safety Razor consists of a Triple Silver Plated Holder (will last a lifetime)—a double edged safety blade (4c each)—a pack in velvet lined leather case—worth the price in itself. At all jewelry, drug, clothing, hardware, sporting goods, and Dept. Stores. Write or ask your dealer for free booklet.

If he cannot supply you, write us.

GILLETTE SAFETY RAZOR CO.

CANADA PERMANENT MORTGAGE CORPORATION
 TORONTO STREET TORONTO

HARRIMAN AID ERIE
THE CENTRE OF INTEREST

Wall Street Speculation Converges on This Fact—Canadian Securities Rally With New York.

World Office, Saturday Evening, April 11.

Last week the possibility of receivership for Erie admitted of bearish operations on the Wall-street market, and this week the temporary reclamation of the property by E. H. Harriman allowed of speculations for a rise. While the Erie incident is a matter of import to the shareholders of that concern there was certainly no reason why the subject should have influenced the rest of the market. Except that it provided means of manipulating Erie stocks as well as most of the other speculative issues, it would have had but a temporary notice. Eries have proved the source of a tremendous revenue to the insiders, thru market manoeuvres, for ever one-quarter of a century and they may be relied upon to be kept in the list for the purpose of fluctuations for a good many years more. The suggestion that Harriman will make the head part of his Union Pacific system will provide a mystery that can easily lead to the buying up of the shares on every fresh rumor.

The real market influence the first government crop report of the season, issued on Wednesday last, was the only event of the past week. In that, so much depends upon the success of this year's crop that it is hardly understood why every item along this line should be so carefully scrutinized. The increase is about the same as a year ago, and the government statement was therefore accepted as thoroughly satisfactory. Rye has not weathered the winter quite so successfully, but the loss in percentage comparison was not important enough to be mentioned. The crop report was concurred in by Chicago speculators and this therefore gave it a further tinge of authenticity. Late reports from Kansas and other states in the western wheat belt speak of a shortage of moisture. As the crop will form the basis of this year's stock market, any irreparable damage will be inevitably reflected in Wall-street without delay.

Considerable interest still centres around the commercial situation. Those who keep a close record of business movements aver that the present improvement which has taken place is a recovery from the abnormal state of affairs during the last two months of 1917. Those who dominate the steel industry contend that no cuts have yet been made in the prices of these commodities, and this statement it is as polished out that while prices are maintained in the home markets, orders for export are being executed at curb quotations. A large order for rails for Australia is cited in support of this statement. All the textile industries are experiencing a sharp reaction in business and consequent reductions in wages have already been made or are in contemplation. The reports of railroad traffic during February were quite in keeping with a much smaller movement in all classes of merchandise. Trade depression may be overestimated, but it is certain that a heavy decrease in business has already developed.

The difficulty of obtaining money except for choice securities is a prominent feature of the large increase in surplus funds at New York. The large oversubscription for the London Convention loan at London indicates a plethora of money at that centre. This fact is a great inducement to the New York financiers to endeavor to stir the market into buoyancy and thereby replace the securities with commission houses which were discarded in the panic of 1914. A small further reaction in prices bears in the way of this endeavor, but long accounts should be confined to only the leading speculative securities.

Large holders of domestic securities have at last accepted the dictation of the New York market, and have come in on both the Canadian exchanges, and in the higher level. They are assisted in this tentative movement by a more lenient attitude on the part of the New York market, but the volume of money available for stock market purposes in Canada is certainly not very large. Montreal brokers have lowered their rates to clients, but in brokerage houses have been. The speculation, both on the part of provincial traders and the investors, is quite cautious, and the tendency to broaden out beyond its present confines.

The C.P.R. pool, after having introduced doubt concerning payment of the \$3,000,000 notes due this week. Fortunately, a re-overship has been thus averted, along with all the entanglements and disturbances which such a step would have inevitably involved. Had Erie gone into the hands of a receiver, the effect both at home and abroad would have been exceedingly detrimental to the financial situation generally. That Mr. Harriman's plans for the future are remains to be seen, but judging from his past operations he is likely to be of a constructive order rather than otherwise. If it be, as is generally supposed, Mr. Harriman's ambition to secure a great transcontinental system, then control of Erie would undoubtedly offer him a signal opportunity, such a one as would fitly crown the achievements of any great railroad magnate.

General business as a whole is upon the mend, and its volume is larger than in February. March, but liquidation of trade and industry is still incomplete, and for a few months longer should be expected patiently in the hope of better times to come. Stock market operations will have to be conducted on conservative lines until improvement elsewhere becomes more pronounced. Henry Clews.

New York Bank Statement.
 NEW YORK, April 11.—The statement of clearing house banks for the week shows that the banks hold \$43,250,000, and the requirements of the 25th and 26th of the proportionate cash reserve as follows:
 Loans, increase, \$7,000,000; deposits, increase, \$1,500,000; circulation, decrease, \$500,000; legal tenders, increase, \$2,000,000; specie, increase, \$2,200,000; reserve, increase, \$2,000,000; surplus, increase, \$2,500,000. The percentage of actual cash to the clearing house banks at the close of business yesterday was 23.8.

The statement of banks and trust companies of Greater New York not members of the clearing house shows that these institutions have aggregate deposits of \$808,770,300; total cash on hand, \$108,300,000; and loans amounting to \$312,525,300.

WHEAT AND DRY WEATHER PRODUCE A SHARP BREAK IN WHEAT FUTURES AT CHICAGO.

World Office. Saturday Evening, April 11.—Liverpool wheat futures closed today 1-34 higher than Friday, and corn futures 1-84 higher. At Chicago May wheat closed 1-2 higher than yesterday; May corn 1-2c higher and May oats 1-5c higher.

Chicago car lots to-day, wheat 9, contract 8; corn 110, 23; oats 10, 24. N. W. cars 100 to 60, week ago 248, year ago 450.

Pringle received the following telegram from the London office: "The general appearance of the wheat crop is not satisfactory. Favorable weather might make a wonderful change. Reported showers too light to give relief."

Receipts of farm produce were 100 bushels of grain, 10 loads of hay, with about 20 loads of mixed produce, such as apples, potatoes, butter, eggs and poultry, on the street outside the market.

Market Notes. The farmers were filled with indignation at being kept outside of the market building, which they say was erected for them by the taxpayers of Toronto, on condition that the tolls should be removed from the market roads.

Wheat—No. 2 white, buyers 45c, sellers 46c; No. 2 mixed, 43c. Corn—No. 2 yellow, buyers 56c, sellers 57c. Oats—No. 2 white, buyers 45c, sellers 46c; No. 2 mixed, 43c.

Pringle received the following telegram from the London office: "The general appearance of the wheat crop is not satisfactory. Favorable weather might make a wonderful change. Reported showers too light to give relief."

Receipts of farm produce were 100 bushels of grain, 10 loads of hay, with about 20 loads of mixed produce, such as apples, potatoes, butter, eggs and poultry, on the street outside the market.

Market Notes. The farmers were filled with indignation at being kept outside of the market building, which they say was erected for them by the taxpayers of Toronto, on condition that the tolls should be removed from the market roads.

KEEP MEMORY GREEN OF BRAVE DEEDS

Sum of \$10,000 Required for South African Memorial—Sculptor to Finish Task Next Year.

The announcement that the proceeds of the sixth military tournament of the Toronto Garrison will be devoted to the South African Memorial has received interest in that worthy object and it will probably be not arise to trace the history and present status of the undertaking.

The South African Memorial Association was organized in Toronto in 1904 for the purpose of erecting in this city a monument to the memory of the Canadian soldiers, nearly two hundred in number, who were killed in action or died of wounds or disease while on service in South Africa during the Boer war of 1898-1902.

The following committees were formed: General committee, Sir William R. Meredith, chairman; finance committee, R. W. Allen, chairman; site and design committee, Col. G. S. Byrson; honorary treasurer, Lieut.-Col. James Mason; secretary, Sydney H. Jones.

As a result of the committee conferences, competitive designs were advertised for in the leading daily newspapers of Canada. Of the thirty-six designs submitted for competition, one by Walter Allward of Toronto was finally selected, and the illustration presented herewith in The World is an engraving made from a sketch model of this design.

Mr. Allward has made satisfactory progress with the work, the centre figure being completed, and the soldier on the right hand of the central figure in place, while the third model is well underway. Mr. Allward expects to have the work finished in about another year, and it will then remain to obtain the granite column and select a suitable site.

A FIGHT OR NOT A FIGHT THIS THORNHILL'S QUERY

Whether Roy Henry Clashed With Burglars or Only Dreamed That He Did.

Thornhill residents to a man, the officials of the bank and Manager Roy Henry, all 'thoroly and honestly believe that on the night of Wednesday last the 'Thornhill' branch of the Sterling Bank, of which Henry is manager, was entered by burglars who severely beat the young man while he, revolver in hand, was defending his charge.

Provincial Detective Miller and County Constable Burns declare that the whole thrilling tale is a figment of Henry's imagination. They don't suggest evil design, but think he was dreaming. They believe that Henry read of similar affairs of late, numerous through the province, Mr. Henry on his head and face must have been smacked with some blunt weapon. I examined the glass of the front door and one of the holes was made by a bullet, and the other one from the inside. It is highly improbable, but not impossible, that Henry could have fired that shot.

Mr. Henry himself, in speaking of the affair to The World, said Saturday: "I certainly believe that that thing really happened and that it was not a dream, but the police and other people have been asking me to do a mystery, and I don't know what the matter was not preying on my mind."

"I have heard of cases like that, but I do not believe that this is one of them."

A. Lowery, a barber, living next door to the bank, said at first that he had heard no one about the mysterious matter, and that he had been asked to interview the bank officials.

Assistant Wright says that he believes Henry's story, while he remembers hearing only two shots. The police say that the holes in Henry's nightshirt were not made by a bullet, but are tears. Henry says that the bullet, but are tears. Henry says that the bullet, but are tears.

The police point to the location of the bullets, saying that they could not have lodged where found under the circumstances, and that they would have robbed a man to enter over a transom when he might have followed his confederate inside by means of the back door, which was open.

Mr. Henry was in the city Saturday interviewing the bank officials. Assistant Wright says that he believes Henry's story, while he remembers hearing only two shots.

Partnership Dissolved. The partnership hitherto existing between David McDonald and A. W. May, live stock dealers, has been dissolved. Mr. May has retired from the firm and his place has been taken by Mr. Thomas Halligan, and the new firm will be known as McDonald & Halligan, who will do business at the old stands at both the City and Junction markets.

Will Unite to Prevent. Railwaymen at Winnipeg and the Resistant Cut in Wages.

WASHINGTON, April 12.—Debate on the naval appropriation bill in the house of representatives Saturday revived itself in the main into a discussion of the possibility of a war between the United States and Japan.

Mr. Hobson of Alabama pleaded for four battleships instead of two for the next fiscal year, and pointed out that from now on the United States should have a fixed policy with regard to naval construction.

A war between the yellow and white races he regarded as inevitable, and the combination of all the railway men in the city, including both C.P.R. and C.N.R., employees, against any such proposed reduction in wages, an Impetus having been given this movement by the recent action of the C.P.R. employees in Vancouver, who are reported to have formed a powerful union to combat threatened reductions.

Given Public Funeral. ST. CATHARINES, April 12.—(Special.)—The late Dr. Goodman was buried this afternoon, being accorded a public funeral, which was attended by a large number of the city council, board of health, veterans, Masons, Royal Arch, Masons and Knights Templar and St. Catharines Lawn Bowling Club. Dr. Killmer, George Burk, Levi Lay, Harry Johnston, A. R. Thompson, Fred Southcott, acted as pall-bearers.

ALL RED ROUTE REPORT. It May Be Made Almost at Once—Financial Obstacles.

(Canadian Associated Press Cable). LONDON, April 12.—The "rail-red" route committee will report immediately, according to The Scotsman. It is believed that Japan's present military activity was with a view to the supremacy of the Pacific and as a natural consequence there would be a clash at arms with the United States.

North Toronto Citizen in Earnest About Tree Planting—Big Influx to Beaches.

WEST TORONTO, April 12.—Confirmation services were held to-day at St. John's, when twenty-nine new members were received into the fellowship of the church. The confirmation ceremony at 11 a.m. was conducted by Bishop Reeve of Toronto, who also preached the sermon. The pastor, Rev. T. Beverley Smith, preached in the evening. The church at both services was crowded to the doors. There will be two services in St. John's Church on Good Friday, one at 11 a.m. and a special musical service at 8 p.m.

Mrs. Johnson, wife of R. Johnson, 57 Dundas-street, died suddenly on Friday night at St. Michael's Hospital. Having arrived in Toronto only the day before, from England, she took ill on Friday morning and died at 11 o'clock the same night, the cause of death being heart disease. Mr. and Mrs. Johnson were married in Buckingham, where two years ago, and the husband later came to Canada and obtained work as brakeman on the C.P.R. He had saved enough money to send for his wife this year, but tried without avail to dissuade her from crossing the Atlantic till later in the season.

A fine collection of ores from the Maxwell-Harris Mine at Larder Lake is now on exhibition at the Bank of British North America. One interesting sample is a gold bar worth \$200, obtained during one day's run of the stamp mill from ore not showing any visible gold. Many of the other samples are much richer. As the Maxwell-Harris Mine is practically controlled by West Toronto citizens, the collection will be of special interest.

James Judson of the Welland Canal Sailors' Mission gave an interesting address to-night at the Amette-street Baptist Church. The Welland Canal Mission is a branch of the Upper Canada Tract Society, and is doing great work among the sailors. "The past year," said Mr. Judson, "has been an extremely anxious one for us. There are about 25,000 men in the lumber camps of Ontario, and it is among these that the work is being carried on. Last year 200 steamers registered as Canadian, and on July 29 twenty-four vessels passed through within the hours. For the most part they continued the speaker, "these sailors are cut off from all the joys of home life and of Christian society, and as a representative of every respect in the church I labor there among people of every creed and nationality."

Dr. Cunningham, veterinary surgeon, of Dundas-street, returned three days ago from a trip to the west. He reports that trade in the western cities is very dull at present.

Ald. James Hales of Toronto gave an interesting address at the Gospel Temperance meeting in the Auditorium this afternoon. He was brimming over with statistics showing that a large majority of the cases in police court were due to drink. He congratulated the citizens of West Toronto on their determination to keep the city free from the liquor traffic. James Buchanan, manager of the Sterling Bank, presided.

MIMICO.

Daring Hold Up on Mimico-Avenue on Saturday Night.

MIMICO, April 12.—James Blythe, engineer at the Mimico Industrial School, was on Saturday night held up and relieved of \$27 on Mimico-avenue by two men. Blythe was accompanied by one of the pupils of the school, left Sunnyside at 9 o'clock and walking from the car at the foot of Mimico-avenue, had ordered a large amount of money to be carried in his pockets. At the same time covering him with a revolver, while the other did similar duty for the lad. Going through the engineer's pockets, they relieved him of the \$27 and a watch, but the Blythe protesting that the latter was a keepsake, they returned it to his pocket. They then made off in the darkness, at the same time warning the victim not to follow or raise an alarm.

Ex-Councillor Shaver was notified, who in turn acquainted County Council with the facts of the case. The latter, together with the city police, is working on the case. The men were not masked, are of medium height and dressed in dark clothing. No attempt was made to search the boy's pockets.

MIMICO, April 12.—The Mimico branch of the Women's Institute will hold their regular meeting on Wednesday, April 15, at 2:30 p.m., at the home of Mrs. Barnum on Stanley-avenue. All ladies will be made welcome. The subject to be dealt with is "Kitchen Gardening and Care of House Plants" by Mrs. McCarthy and Mrs. Royce.

By order of the village commissioners, the row of large willow trees on Manchester-street, west of the G.T.R. depot, are being shored up. The work at the present time will not only remove an obstruction, but also provide a few loads of brush for the repair work to the road at Mimico. The work of rebuilding the road at the wash-out west of the Mimico Creek is now being hurried along. The job will be done by day work, with O. L.

OUR CONSTITUTION— DOES IT REALLY EXIST?

Le Nationaliste Asks a Query in Connection With Saskatchewan Legislation.

MONTREAL, April 12.—(Special.)—Le Nationaliste thinks that the next few days will be of the greatest consequence to the French race in the Province of Saskatchewan, and, in fact, asks if the constitution really exists.

"To-morrow," says Le Nationaliste, "Armand Lavergne will put a question to the ministry of the very greatest importance. The legislature of Saskatchewan at its last session adopted two measures which, according to the very best jurists, are contrary to the constitution. The federal government has the power to disallow these bills in order to protect the minority, but if the prerogative be not exercised before April 22 it will be too late. The member for Montigny wants to know what the government purpose doing in the matter.

"The new province exists only three years, and at this early day, in spite of the enormous sacrifices we have made for that province, she violates the constitution with impunity. Now, if the federal government backs down before the Province of Saskatchewan, what will happen ten years hence when their population be ten times greater than it is now? To-day we are still 30 per cent. of the population of the Dominion. In the last session the government is a man of our own race, and if the minority claim what is their due, we should give it to them, for what will happen when we are but ten per cent. of the population of the Canadian people?"

"We suppose that they will tell us

Hicks in charge. Etobicoke residents to be engaged if possible. At present there is no thorough east or west at this point for teams, which means a long detour by way of Queen-street for those here and farther west who make daily trips to and from the city.

That the present council intend to keep the road in good condition is evidenced by their appointing a caretaker for the same. John Douglas of Mimico has been given the duty of seeing that all water is drained from the road, and that all ruts and holes are filled with broken stones. The work is to be begun at once and promptly attended to whenever occasion demands.

UNIONVILLE.

Venerable Couple Are Worthily and Kindly Remembered.

UNIONVILLE, April 11.—(Special.)—An event unique in the history of this village, one possessed of more than ordinary interest, was the celebration to-day, at the home of Mr. and Mrs. John Smith, of the sixtieth anniversary of their marriage. No formal invitations were issued, and the gathering was confined largely to the immediate friends, but many of the neighbors and villagers generally took occasion to call on the venerable couple. From Toronto and many other points came congratulatory messages conveying the kindest greetings, and wishing Mr. and Mrs. Smith many happy returns of the day. The occasion was a happy and a long and worthy life. The World joins in the congratulation.

RICHMOND HILL.

Telephone Line Is Expected to be Started.

RICHMOND HILL, April 11.—John Michael is taking a business tour to the west. He will go as far as Saltcoats, Assiniboia.

Independent telephones are spreading rapidly. The Stouffville line is projected to reach here this summer. King Township has given permission to the Bolton Telephone Company to erect on the highway a line of poles to carry the wires. The hockey club wound up its affairs last evening, after, on the whole, a very successful season. With the same care, the management of the market, some parts of the season, next year should show splendid hockey and good, clean sport.

Mr. Bertram E. Newton was given a splendid send-off by his confreres at the Tannery. He leaves for the west with the best wishes of all his friends.

Cartoonist J. W. Bengough will be the chief attraction at the high school concert next Wednesday; besides this an excellent program is arranged. The district officers of Toronto Central District will visit the Epworth on Saturday afternoon. Monday evening, Business of great importance is to be transacted.

The regular meeting on Monday evening, Business of great importance is to be transacted.

Men's \$25 Raincoats for \$18

Are you going to wear a raincoat this spring? Most sensible dressy coat ever invented. Light in weight, yet wind proof and therefore comfortable in raw spring weather, where a regular overcoat would be too warm. Rain shedding, of course, as well. We have some special coats to offer Tuesday:

Men's High-grade Imported Raincoats, the palette style, with close-fitting frock back, the popular style, in light shade, no light fawn and grey; the material is a very fine worsted in neat, intricate pattern, also perfectly plain weave, extra well lined and trimmed; the workmanship, fit and finish on the coats compare favorably with the best custom tailored garments. Regular \$25.00. Tuesday, your choice **\$18.00**

Men's Imported English Coat Cloth Raincoats, olive and Oxford grey shades, the long single-breasted Chesterfield style, with deep vent at back, broad shoulders and good linings and trimmings. On sale Tuesday **\$10.00**

Men's Feather Weight Waterproof Rubber Coats, on a very fine silk-finished drill, made double-breasted to button close up, with storm collar and tab, wind cuffs and strap on sleeves, bottom leather facings and edges piped with leather, ventilated at arms, warranted to wear well and give entire satisfaction, a splendid chauffeur's coat. Tuesday **\$12.00**

Men's Fine Quality Rain or Shine Coats, dark Oxford grey covert cloths and fancy worsteds, splendidly tailored in the correct single-breasted Chesterfield style, comfortable and roomy, with broad shoulders and close-fitting collars, lined or unlined. On sale Tuesday **\$15.00**

Men's \$2.50 Pyjamas for 98c

You don't often hear of a man going back to the old style nightgown once he learns the comfort of pyjamas. Here's a good chance to begin.

100 suits only. Men's Imported Pyjamas, made from fine Scotch madras, English Oxford, cambric and cashmeres, military style, with or without trimmings. Sizes 34 to 46. Regular value up to \$2.50 a suit. Tuesday **98c**

Men's Hats --- A Common Sense Talk

Every man about town wants a new hat for Easter. Do you? Very well. Now do you see any sense in mixing sentiment with business? Yes or no? Buy a hat where you can get the hat that suits you cheapest. Don't pay fancy prices for mysterious labels. If you want a label look for the good old name of Christy. We sell hats in the men's store to suit the best dressed men in town and we charge only common sense prices.

Men's Derby or Stiff Hats, correct spring and summer shapes, in flat set or curling brims, with the latest style crowns. Large selection. Can suit almost any features. These are made from fine quality English fur felt and dyed to hold their color. Tuesday special **\$1.50**

Youths' Soft Hats, in the popular college or telescope crown hat, colors black, brown, maple, slate, steel or grey, also regular fedora shapes. Tuesday **\$1.50**
