### ST. ANDREW'S SOCIETY MAY HAVE CLUB ROOM

Committee to Consider It—Flare Up in Court of Revision—Day's Doings.

HAMILTON, Oct. 29.—(Special.)—Lieut.-Col. Moore, chairman of the court of revision, and ex-Ald. Baird had a run in at this evening's meeting of the court. The ex-almirant had appealed against several assessments and was huffed because they were confirmed. He told the court in vigorous language his opinion of it and hustled out of the room before his case was finished. The court promptly confirmed all his assessments. The work of the court is much heavier than usual this year. There were 171 appeals dealt with today. The reductions amounting to less than \$12,000 were made.

Following their time-honored custom, the members of the St. Andrew's Society this evening, at their annual meeting appointed a committee to consider the advisability of building a handsome hall on the site of the following officers were elected. Jas. Donald, hon. president; Wm. Hunter, president; Wm. McClelland and Wm. Robertson, J. J. Smith and Wm. McAndrew, vice-presidents; Wm. Davenport, secretary; James Chisholm, treasurer; charitable committee, Thomas Isbister, Jas. Sellar, Wm. Robertson, J. J. Smith and Wm. McAndrew. Instead of the usual hall the society will hold a concert this year. Jos. Leslie, a ballist, was arrested this evening charged with stealing \$5 from Jno. H. Plinkett, Rockwood. There was a fight in an uptown bar room this afternoon as a result of which Alfred Wreatham, 123 College street, had to be taken to the City Hospital with a broken leg and Robt. Magnus was taken to the cells charged with assaulting him.

Lt.-Col. Leslie retiring. Lieut.-Colonel Leslie will retire from the post of commanding officer of the 1st Highlanders and will be succeeded by Major Bruce, Captain McLaren will be promoted to the rank of major. Judge Smith this morning issued an order for the examination of Miss Patricia, Toronto, who under the will of Mrs. L. P. Scarron is down for a bequest of \$500. The husband of Miss Scarron charges that the will was fraudulent and void.

Bessie and Falconbridge have reported to the police that their dog, which on Burlington-street was entered by burglars, who stole about \$150 worth of goods.

Frank Stewart, the faker who tied one leg up so as to give him the appearance of a cripple, was sent down for six months by the magistrate this morning. The fake inspector is still at work. His latest victim being Mrs. Peter Patterson. It is said that a fellow named home he stole a gold watch and chain. The official figures for East Hamilton in the federal elections are as follows: Barker 298; Eastwood 178; Lane 132; making Barker's plurality over Eastwood 102, and over Landers 148. Sealey's majority in Wentworth was 246.

Judge Snider has refused to grant bail for Private Detective Huckle until he has time to look over the evidence. Mrs. F. Rowet says that a deliberate attempt was made last night to burn down her new house at 399 West Charlton-avenue. She managed to extinguish the blaze without the help of the firemen.

Hotel Cases. The three hotels accused of having their barrooms open on election day will appear before the magistrate Saturday morning, with the following accused of being in violation of the law: The Horse Shoe Inn and Dundurn Hotel; in the Horse Shoe Inn: James Moore, 41 Rebecca-street; George Martin, 23 Kelly-street; John Stewart, 123 Baiton-street; and Alf. Potter, 193 Baiton-street. In the Dundurn Hotel: George Brewster, 241 North Catharine-street; William Johnston, 181 North West-avenue; W. J. Holbrook, 68 Ingham-street; William Jewell, 104 Ingham-street; and John Jennings, 59 McGill-street.

County Constable Polton, Watford, has turned over to the local police a suit case containing a clothing stained with blood and marked "Godfrey." The case was found lying beside the G.T.R. tracks and it is supposed that it fell off a construction train.

Now open for visitors. Complete new building, home comforts, very excellent cuisine. Terms \$1.50. Geo. McIntyre, corner 4422, Province, 2nd Floor, Painters, Decorators, Paperhangers, 163 King St. West.

Writes Issued. Thomas and Constance Painting are suing John and Arthur Lee of York County for damages, for assault, trespass and wrongful eviction. Decker and Carlyle of Toronto are plaintiffs against Benj. Moore & Co. of West Toronto. The claim is for a supply of putty. The plaintiffs allege a breach of contract.

The Great West Life is suing R. J. Shales on a warranty for \$500. For the faithful performance of his duties as agent on the part of Herbert J. Shales.

Annie Ramsey of Toronto is suing Matthew Hulse of Toronto for \$1800. For the board, lodging and maintenance, care, education and clothing of Howard Hulse, son of the defendant.

### ONLY ONE-THIRD VOTED UP IN THE BUSH POLLS

#### Provincial and Federal Police Watched For Violations of Registration—None Attempted.

The provincial police who went to East Algoma to man the "bush polls" are home. Out of 800 names on the list only 228 cast their votes, and 510, Conservative candidate, got only 22.

A large number were sworn and a score or more refused to take the oath. The provincial Detective Miller was in charge of eight men for East Algoma. The four polls were about 60 miles north of Blind River. The detectives went miles by horse and had to walk from six to twenty miles to get to the polls.

At first the camp officers refused to direct them, supply transportation or even supply food. A launch that Inspector Miller secured for transportation was sunk over night. Finally Inspector Miller's diplomacy and persuasiveness aroused kinder sentiments and the provincial police were considered treated and the inspector's mission was greatly simplified. A squad of Dominion police arrived from Ottawa at the request of the Liberal organization, but the two horses were not there and there was not the slightest friction.

After the polls closed, acting on the Inspector's instructions, the constables kept a close watch on the ballot boxes traveling with them during a night of rain, reaching Blind River at 5 a.m. Tuesday. For six miles of the distance men waded thru mud and water at times waist high.

In West Algoma Chief Mains of Niagara Falls had an easier time as the country was not so rough, and the lists had been expunged by the judges. He was alone at one poll in a rocky district north of the "Soo." No arrests were made, and nearly all took the oath. This was in the constituency where A. C. Boyce, Conservative, was re-elected.

#### PRISON FARMS.

Expert Will Give Address on Question in Toronto.

It is anticipated that very widespread interest will be aroused by the visit of J. A. Leonard, superintendent of the Ohio State Reformatory, to Toronto on November 25 and 26. When the government commission found the statistics so rough, and when Mr. Leonard was suggested as the most valuable, interesting and picturesque authority they met on questions of education, reform and discipline. It was then suggested that a visit from him to Toronto would be acceptable at any time and an invitation to meet the members of the government and legislature and to address the Canadian Club was extended.

The government is anxious to have his views on the proposal to place the Central Prison outside the city, and the opportunity to hear one of the most original workers in American prisons was sought by those interested in advanced philanthropy. He will speak before the Canadian Club on the 25th, and to the Conference of Charities on the 26th, in the Normal School amphitheatre.

Mr. Leonard's career since his birth on the farm is a romantic one. He became interested as a school trustee in education without having any personal experience of it, and his mathematical and scientific attainments attracted the attention of the foremost educationists. He was selected by President McKinley to organize the Indian schools in the west.

#### CHURCH AND LABOR.

Meeting Canceled, But Dr. Milligan Explains His Attitude.

The church and labor conference, which was to have been held last night at the Labor Temple, was postponed as the date clashed with the business meetings of various trades unions. This was decided upon by Rev. Dr. Shearer, Rev. E. H. Siler, Rev. Mr. Cayley, Rev. J. Reid, Rev. W. Hill and James Simpson, when this securing an attendance of labor representatives proved under the circumstances to be impossible.

Rev. Dr. G. M. Milligan was to have opened a debate on the Saturday half holiday. Dr. Milligan said to those present that his view was that every man should have ample leisure for recreation and self-improvement, and if the labor men would come up to Old St. Andrew's he would tell them all about it.

Rev. Dr. Shearer left the hall to take the train for Winnipeg, where he goes in the interests of the committee on moral and social reforms.

**DR. WILKIE'S SUCCESS.**  
Annual Meeting of the Gwalior India Mission. The annual meeting of the Gwalior India Mission, India, was held last night in the lecture hall of Old St. Andrew's Presbyterian Church. J. K. Macdonald, president, welcomed the audience, which thronged the hall.

### HUNTSVILLE, Oct. 29.

While driving from Utterson to Windermere, a young man named Jacob Eaton, was shot and instantly killed. Eaton was in company with his brother and a companion, all employees of Peterson Lumber Co., and Eaton, who was lying down, either accidentally discharged the weapon with his foot or the jolting of the wagon set it off. The ball entered the young man's ear, glancing upward, struck the brain. The report frightened the horses, which ran away, and a trail of blood was left along the roadway. The neighborhood was well known through only five weeks ago to Miss Jennie Kingsmill of Windermere.

### Still Smarting.

LONDON, Oct. 29.—(C.A.P.)—At a meeting of the council of Bradford Chamber of Commerce, Mr. Thingley moved that the council endorse the resolution adopted at a meeting in Leeds, which protested against the false statements contained in an article published in Industrial Canada. Mr. Whiteley contended that by keeping the matter before the public they would only be assisting the cause of those Canadians who are seeking after duties put on British goods. After some discussion the resolution was agreed to, Whiteley voting against.

THE T. EATON CO. LIMITED

"College Ulsters" for Winter Comfort

SENSIBLE STORMY-WEATHER COAT FOR MEN  
THESE EASY PRICES--\$11, \$12.50, \$13.50 and \$15

THIS COAT  
\$13.50

THE "College Ulster" style of Overcoat promises to be very much favored this Winter. It is essentially a garment of comfort and that's why it appeals so strongly to the men. But its winning feature is perhaps the "smart," mannish style of the collar, clearly shown in each of the accompanying illustrations; this allows the coat to button up close to the throat, giving the kind of Winter Protection that makes for comfort. The "College" is a dressy coat, too; there's a lot of style about it; it is cut on smart lines.

ALL-IN-ALL, A VERY DESIRABLE, STYLISH WINTER COAT.

HERE ARE BRIEF DESCRIPTIONS OF GARMENTS ILLUSTRATED:

The Single-Breasted Coat

is a comparatively new style—a plain Chesterfield body and fly front—but the collar is of the ulster style, yet different from the ordinary ulster in the fact that it is smaller and with more of a stand-up effect. The material is a very dark grey all-wool English tweed with lighter stripe of grey, heavy and warm. Linings of best quality. Faultlessly tailored. A special value at **13.50**

SAME STYLE in a fine Oxford grey cheviot with very faint stripe; this is an imported material of very soft texture; heavy twilled Italian lining. Here's a coat that will appeal to "smart" dressers, to young men and older men. Price **15.00**

The Double-Breasted Coat

is of dark brown cheviot, with a subdued stripe of black; good thick cloth of Winter weight and serviceable quality; well lined with twilled Italian cloth. The interlining, the padding of the shoulders, and the "staying" which holds the coat in shape is all done in a way that shows the first-class tailoring, that each has undergone. All sizes from the young man up. Price **11.00**

SAME STYLE in a heavy 28-ounce tweed; dark brown and olive mixture with faint stripe; a well tailored coat, 50 inches long, full-fitting skirt with vent, lining of serviceable heavy quality; is priced at **12.50**

Winter Underwear in Great Variety

Through our many years' experience with the underwear mills of the world—for our representative crosses the ocean twice a year to "buy in"—we have acquainted ourselves with all that's worth while wherever underwear is made.

Thus the big Winter stocks we now announce as ready, are the outcome of careful, able planning and are selected with the knowledge that no better assortment of undergarments could be brought together. And the good buying is further evident in every price:

**Sanitary Fleece Lined** Undershirts and Drawers; soft heavy fleece; silver grey or brown shade. Fleece-lined underwear is selling in greater quantities each year because so close to perfection that we guarantee satisfaction. Cuffs and ankles double ribbed. Sizes 34 to 50. Price, per garment **.50**

**Scotch Wool** (Cotton and wool mixed—it wears better and is unshrinkable.) Made in two weights—heavy and medium—both in Shetland shade. A very warm and soft garment and a great wearer. Shirts double-breasted. Sizes 34 to 44. Price per garment (shirts or drawers) **.75**

**Natural Wool** shirts and drawers are, of course, the ideal Winter underclothes. Comfortable, soft and very warm. A little cotton is carded into this, our dollar line. It wears better for it and is rendered unshrinkable. Shirts double across chest and back; drawers double across back. Extra protection just where needed. The finish through-out is of the best. Sizes 34 to 42. Price, per garment **1.00**

**The "Last Word"** in underwear is our imported natural wool of Winter weight. It is all-wool and guaranteed not to shrink. The finish is superb—so soft and even—almost silky. Natural shade. Sizes 34 to 46. Drawers and shirts, each. **2.00**

Colder Weather: Warmer Nightrobes

There's a difference in Nightrobes. The skimpy-cut and even worse-made garment has no comparison with the kind "turned out" in the Eaton workrooms; the full, generous width of the skirt, the sleeves, the body—the well-fitted yoke, the double-stitched seams, the pearl buttons.

Yes, there's a difference in nightrobes, and it's in your favor when you buy here.

**AT 50c**—A nightrobe of medium weight English flannelette—blue or pink striped. Collar attached—yoke—pocket; felled seams. Sizes 14 to 19 **.50**

**AT 75c**—Good English flannelette—plain white and assorted pink and blue stripes. Full-sized bodies, 54 inches long; collar attached; yoke; pocket; pearl buttons; all seams double stitched. Sizes 15 to 19 **.75**

**AT \$1.00**—A very fine quality English flannelette, in fancy stripes. Extra large and roomy, having a gore on each side and measuring 70 inches around the bottom. Best make and finish. Sizes 15 to 21 **1.00**

**NATURAL WOOL NIGHTROBES**  
A thread of cotton in them—which prevents shrinking. Collar attached; large, roomy bodies; 60 inches long; natural color; medium and large sizes. Price **1.75**

Main Floor—Queen Street.

Our \$5 Suit For Boys

A suit with so many advantages—and every one a buying reason—that parents with boys to clothe can't help but be interested in these few facts about it:

The Cloth is pure wool—a tweed, of beautifully soft finish and a great wearer; thoroughly shrunken. Lining and trimmings of special quality.

The Patterns are very neat, having been specially selected.

The Tailoring, too, is of the best: shoulders carefully padded—fronts of coat interlined with canvas—linen "stays" give the coat extra support where needed (the always-loaded pockets, for instance), keeping it shapely.

It's a Three-piece Suit, in both single and double-breasted styles; and in the large sizes 29 to 33.

Don't you think the suit is well worth the \$5? When you've seen it you'll be glad to pay the money—and, we venture to say, eager for another when it's through.

A Stylish Winter Overcoat

A single-breasted Chesterfield Coat for boys—three-quarter length, with deep centre vent in back. Velvet collar. Material, a heavy winter-weight cheviot; comes in plain Oxford grey. Lined with Italian cloth. Sizes 29 to 33. A dressy coat and a serviceable one. Price **6.00**

The "College Ulster"

ILLUSTRATED HERE.

Here's a coat for the school boy, sure enough. It will protect his chest and throat: see how it buttons close up to the neck. Note the dressy collar—the width of it—the stand-up effect. And the dressy cuff and pockets. That it is a warm coat may be judged from the good thick materials it is made of—heavy cheviots and 26-ounce tweeds, the cheviots in a plain, stylish grey, the tweed in neat mixture. Heavy Italian lining. Sizes 29 to 33. Price **8.00**

Same style in 28-ounce tweed, **\$8.50.**

HANBRIDGE SCORES IN MILE HANDICAP

Beats Miss Sain in Fast Time of 1.39 3-5—Red Gauntlet in Front.

CINCINNATI, Oct. 29.—(Special.)—Altogether two favorites won at Laticia this afternoon, the majority of the winners were at a short price. Hanbridge scored another victory in the handicap at a mile, last time of 1.39 3-5. Miss Sain set a fast pace and held on remarkably well, but the end was out-gamed by Hanbridge, which has proved himself to be a pretty shifty handicapper at the present moment. Both Miss Sain and Red Gauntlet were taken liberally by the public at 7 to 5, while the winner's price was 2 to 1. Eddie Hanbridge rode a well-bred race on Hanbridge, Red Gauntlet defeated Hughie in the distance event, fifth of the mile. Both closed about 10 to 1. The track was weather was clear and the track fast.

JUROR ASSAILS CROWN. At the Inquest into the Mount-Vernon wreck last night, Geo. A. Heyd, counsel for Joseph Maguire, the missing yardman, for whose arrest a warrant was issued on a manslaughter charge after the accident, stated that Maguire, who had fled to the United States, wanted to return to the evidence. Counsel asked for a week's adjournment.

Crown Attorney Wilkes said that the procedure was unusual one in view of the fact that all the evidence had been submitted. The crown official was then attacked by John Robertson, jury foreman, who alleged that he was assisting the Grand Trunk rather than the jury. The foreman had made several remarks previously made by Robertson, who threatened to have him committed for contempt for insulting the crown official. By a vote of 9 to 3 the jury asked to have Maguire's evidence heard and adjourned until Monday.

Some of the jurors were under the impression that Maguire was warned to get out by the Grand Trunk officials after he had made a statement assuming responsibility for the accident.

MR. URQUHART PRESIDENT. Rev. P. C. Cameron Preaches Convention Sermon at Ottawa.

OTTAWA, Oct. 29.—Rev. P. C. Cameron, B.A., of Owen Sound, preached the convention sermon at the Baptist Convention this morning. The subject was "The Sunday School." The Board showed 464 schools in the Baptist Church, with 4962 officers and 100,000 members. The report showed an increase of 46,708, involving an increase of 100 officers and 1,000 scholars. During the year the Sunday schools raised for all purposes \$41,390, an increase of \$756 over last year. The average contribution was 89 cents for every member on the roll and \$1.41 for every member in actual attendance. The report was given with the question of training for Sunday school teachers, suggesting that it was imperative that some means of securing some instruction in methods of teaching be secured. The nominating committee made the following recommendation for officers, which were accepted: President, Thomas Urquhart, mayor of Ottawa; First vice-president, Rev. J. C. Syme, Ottawa; Second vice-president, Albert Matthews, Ottawa; Secretary, Rev. C. J. Cameron.

MISS REYNOLDS' PLUCK. Carries Thru Her Performance With Doctor's Assistance.

The fidelity to her art was evidenced last evening by Miss Carrie Reynolds, the little soubrette of the Imperial Opera Company. Wednesday evening was the close of the first act of "The Wedding Day." Just after the curtain fell Miss Reynolds was carried from the stage in a fainting condition by the exertion of her support she was able to continue the performance. Last night her condition was so precarious that she was only able to appear at the Royal Alexandra Theatre on Thursday. Her condition was attended by Dr. Warren, who by the constant use of water stimulants and hydropneumatics made it possible for her to play her part, yet so well did she conceal her agony with her winning smiles and happy disposition that none in the audience suspected the trying ordeal through which Miss Reynolds was passing.

UNDERWRITERS ARE NOT ANXIOUS TO CUT RATES. The Mayor has asked the underwriters to make the reduction in rates promised on the completion of the high pressure system.

The mayor has asked the underwriters to make the reduction in rates promised on the completion of the high pressure system. The board will consider the request next week, but it is pointed out that they stipulate the city shall first take over the system, which won't be done for two months yet. Also, the companies are not in the same happy position to reduce rates, owing to the Prisco calamity. Also, the underwriters asked that four pumps be installed at the pumping station, and the city installed only two. The city will, therefore, probably ask that at least another be put in.

Severed Head Stables Farmer. ADRIAN, Mich., Oct. 29.—A girded human head, apparently cleanly severed from the body, was found in a pile of sacks to-day in an out-building on the farm of the late Samuel Bryant, where threshers were working.

Bryant, who has been dead for six months, lived alone on his farm for several years. His wife had trouble with his wife. Close examination indicates that the head was severed probably by a saw. Dr. Wilcox declared it could not be the head of Bryant, but neighbors are unopinion in saying it is.

ACTUARIES' REPORTS WITHHELD. Some Things Omitted From Insurance Commission's Report.

The inaugural meeting of the tenth annual session of the Insurance Institute of Toronto was held at the St. Charles Cafe, last night. President Leopold Goldman, in his address, took occasion to score the royal commission for the suppression of the opinions given by British actuaries upon the proposed new insurance law. The government, he said, had approached several representative English and Scotch actuaries. The Canadian companies were led to believe that their views would be incorporated in the report rendered by the royal commission. These opinions had not yet been made public. Mr. Goldman quoted from one, Actuary Fraser, of the Royal Insurance Company, who unreservedly scored the restrictive intention of the proposed act in regard to investments, and stated that the adoption of any such expedient in the valuation of liabilities as that proposed by Miles Menander Dawson, would be regarded as an admission of weakness on the part of any British company.

The government should be chary about granting new charters to life companies, said Mr. Goldman, unless there were evidence of a high standard and sufficient premium thereon to avoid the appearance of impairment.

The unsatisfactory nature of the fire insurance business in Canada was touched on. Adequate rates and a larger capitalization were suggested. The difficulties of the specialty branch had been singularly free from complication by litigation, owing to the sense of equitable intention in the settlements of claims by the companies.

Principal Maurice Hutton of University College, Toronto, delivered the address of the evening. The theme was "The Student at Oxford and the Deaf at Toronto." The principal was not sparing in his satire upon some phases of what he preferred to call Americanism.

The Greek letter societies, the "Alphabetic" and "Phi Kappa" were mentioned in the student life in Canada came in for a severe criticism. W. C. Macdonald, in proposing a vote of thanks, congratulated President Goldman on his election to the office of the Institute. Those present included F. Sanderson, F.F.A.; G. A. Somerville, W. H. Wallace, John B. Milne, Prof. A. M. McKenzie, John B. Laidlaw, E. Williams, J. O. McCarthy, Henry Sutherland, T. G. McCarty and many others.

WILL VISIT TORONTO. President and Several Members Will Tour Ontario and Quebec.

At the recent annual meeting of the American Association of Public Accountants, at Atlantic City, a large number of representatives from the various bodies of Chartered Accountants in Great Britain as well as in Canada were present as the guests of the American association. Some of the British representatives, notably the president of the Society of Accountants and Auditors, are taking a trip thru Ontario and Quebec accompanied by their wives, and will be in Toronto on Nov. 5 and 6.

DYNAMITE, FIRE; SEE RESULTS. GUELPH, Ont., Oct. 29.—(Special.)—Foolishly leaving a quantity of dynamite in a room, a bonfire to thaw out almost caused the terrible death of a half dozen workmen who were engaged in the laying of a new waterworks system. Angelo Addario, a workman, sustained severe injuries.

A Real Cure. In giving due credit to the wonderful remedial springs of Europe we are apt to lose sight of the value of the ones near home.

About one thousand springs of various medicinal virtues exist in America. Of one of them there is a "Therapeutic" (1891), page 573, thus speaks: "A number of Saline springs exist in America and Europe, very strong water of this kind being used in the treatment of rheumatism, which contains about 275 grains sodium chloride to the pint, as well as 125 parts of calcium chloride. Its proto-rhizone in Europe is the celebrated Kreuznach Springs in Prussia, which contains about 140 grains sodium chloride to the pint. Other references are Phoeniciae Britannica, Appleton's American Encyclopedia, The Albutta System of Medicine, etc. The Grand Trunk Railway System's trains run direct to St. Catharines and further information can be obtained from their representatives. WATSON'S SCOTCH. AGE AND QUALITY GUARANTEED. McGAW & RUSSELL, Agents, Toronto.

IN THE LAW COURTS. Osgoode Hall, Oct. 29, 1908. Announcements.

Judges chambers will be held at 11 a.m. Peremptory list of divisional court for Friday, 30th inst. at 11 a.m.: 1. Harris v. Pearson; 2. Re Rogers and London and Canadian L. & C. A writ has been issued by Victor Pulstain and Edw. and Justice Pustain against the Toronto Railway Company for damages for personal injuries and for injury to property.

Master's Chambers. Before Cartwright, master: Robertson v. City of Toronto.—Judgment by motion by defendants for directions as to trial of third party issue. In view of the statutory provisions applicable the usual order should be made in relation to the parties, and all reasonable time should be given to the third parties to file their affidavits, and unduly delaying the plaintiff. F. R. Mackelcan for defendants. R. G. Hunter for plaintiff. M. L. Gordon for third parties.

Divisional Court. Before Meredith C. J., MacMahon J., Teetzel J.: Falvey v. Falvey, Boland v. Falvey.—H. T. Kelly for Falvey. An appeal by the defendant Boland in Falvey v. Falvey and by the plaintiff Boland in Boland v. Falvey, and a cross appeal by the defendant Falvey in the latter action from the judgment of Justice G. B. O'Brien dated June 8, 1908. L. V. McBrady, K.C., for Boland. Judgment pursuant to consent minutes varying the judgments pronounced by Justice G. B. O'Brien by the parties.

Walker v. Wabash Railway.—H. E. Rose, K.C., for defendants, on appeal from the judgment of Justice G. B. O'Brien dated June 8, 1908. J. B. Davidson (St. Thomas) for the plaintiff, contra. Argument of this appeal concluded and judgment reserved.

Vigars-Shear v. Turville.—W. E. Middleton, K.C., for the defendant appealed from the judgment of the district court of Thunder Bay dated June 1, 1908. H. Cassels, K.C., for the plaintiff, contra. The plaintiffs, wholesale and retail lumber dealers, supplied to the defendant a building and contractor, materials to the value of \$2,000, and afterwards filed a lien for \$2012.22, part of the said amount against the said lands. Defendant, a barrister and solicitor, afterwards purchased the lands and gave his undertaking to the plaintiffs to pay them \$2000 to release the lands. Defendant paid \$1500 of this sum, but alleges that his undertaking was given thru material misrepresentation of the plaintiffs thru their servants or agents and others, but denied plaintiffs' lien and refused to pay the balance, \$1500. Plaintiff's motion for judgment in their favor was granted. Plaintiff to sign a bill of costs.

Brockman v. City of Toronto.—F. R. Mackelcan for defendants moved to strike out parts of the statement of claim. J. G. Thurston, K.C., for plaintiff, contra. Stated. Ronald v. Whitehead.—J. T. CONFESSES TO SAVE BROTHER. Italian Executed in Pennsylvania, Says He Murdered in Italy.

READING, Pa., Oct. 29.—Salvatore Garrito, an Italian, was executed here to-day for the murder of Timothy Kellher of Pittsburgh, a member of the state police. Kellher was stabbed to death in attempting to rescue a young woman who was attacked by Garrito and another Italian on the outskirts of this city.

Richard McKwayne, colored, was hanged at York this morning for the murder of E. Warren Peterson, also colored, a year ago. Garrito left a statement to be placed in the hands of the Italian ambassador in Washington that he had murdered a man in Italy, for which crime a brother-in-law serving a 25-year sentence in that country. The statement that he committed the murder is not generally believed, but thru this document he had strong hopes that his brother would be freed.

## FRANCHISE AND INVESTMENT PROTECTION.

In his closing lecture on "Citizenship" Mr. Jas. Bryce, British ambassador to the United States, among other things, referred to the value attaching to the public utilities and services of a country. The greatest care, he said, must be taken in the granting of franchises and in the giving of contracts. "Bills promoted in a legislature by private persons," he continued, "for their own pecuniary profit ought to be strictly and closely examined by a responsible public authority and every precaution taken against the exercise of undue private influence."

Mr. Bryce's warning is needed on a continent where public franchises have been too long regarded as legitimate spoil. Even yet to question the time-honored doctrine that the only measure of rate charge is what the service will bear is to invite an accusation of indifference to the sacred right of capitalists to make as much out of the public as they can. Fortunately this notion is fast getting out of date as the people are getting more enlightenment into the methods and processes of high finance.

Another fallacy that troubles some otherwise excellent citizens is the supposition that what is called public ownership is something different from and even opposed to what is called private enterprise. This supposition is founded on the assumption that what any given number of individuals can do with perfect propriety as an organized company is wrong and injurious when done by the same individuals as an organized community. Yet, what essential difference is there between a city borrowing the capital necessary to carry on a public service and a company issuing bonds or debentures for the same purpose? It is private money in both cases that is employed.

But there is a difference between these two kinds of enterprise and it is a vital one both for the public that is served and the investors whose money is employed. Public service corporations, or, rather, the financiers who usually control such corporations, look on the service they operate as providing an easy means of aggrandizing themselves at the expense of the people who own the franchise and give it its value, and in many instances even of the shareholders whose interests they are supposed to safeguard. Examples of this do not need particularizing, since they are found in every municipality on this continent where there are franchise holding corporations. The present condition of the street railways of New York is the best of all warnings against parting with the control of public services for individual profit.

On the other hand, when public utilities are run for the straight benefit of the citizens who, as an organized community, own them, capitalization is restricted to actual cost and the profits that are earned are utilized for improving and extending the service and reducing the rates and fares. What is known as public ownership and operation, or, in plain words, the control of franchise monopolies by the individuals who create them and give them their value, is the only effectual protection against the misuse of public services for personal aggrandizement at the expense of the people. And the British investor, or, for that matter, any investor, can find no better or safer security than the bonds of an enlightened, progressive and well-governed city.

## SCOTTISH FARMERS ON CANADA.

On their return home the members of the Scottish Agricultural Commission that recently spent seven weeks in Canada, investigating its farms and farming conditions, have given out some general impressions indicative of the trend of the special reports that will later be made. According to a correspondent of The London Times, they found considerable variety in the extent to which modern scientific methods have been adopted in the Dominion and the variety of farming they note, is fully equalled by the variety of soils and climate, which have to be dealt with. The commissioners say that the old countryman seems to thrive in all the climates differentiating the districts from the Maritime Provinces to the Pacific, and "some of the commissioners, coming as they did from a northern country where atmospheric severity is not unknown, are inclined to think that Canada as a whole is particularly well adapted for the maintenance of a physically and intellectually powerful race." In the opinion of the commission, agriculture in Canada, once consisting almost wholly of mixed farming, tends more and more to specialization and each branch will eventually be the subject of a special report by some one or more of the members.

Prairie wheat farming is humorously described by a commissioner as "not farming, but just wheat mining." The commissioners hold that except in favor-

ored localities where the alluvium is particularly deep, the present method of cultivation cannot be maintained for many years without exhausting the soil, just as much of the soil has already been exhausted in similar regions of the United States. While some of the western farmers are going in for summer fallow and a certain number both understand and practice rotation of crops, many, on the other hand, appear inclined to let the future take care of itself. Referring to the scanty rainfall on the southwestern section of the prairie, which was the subject of searching enquiry, the commissioners say it appears certain that with the development of mixed farming the great advantages of irrigation will be appreciated at their full value. Notice was also taken of the steady breaking up of the great cattle ranches which, however, the commissioners state, is being accompanied by an actual increase in the number of cattle. In their view a great development in the meat packing industry in the west is one of the chief requirements of the Albertan cattle trade. It is this connection it is interesting to know that most of the commissioners favor the removal of the British embargo and lay stress on the freedom of Canada from cattle disease.

"There is a fortune in horse breeding, especially for a man who takes advantage of the present stage of western development," was the decided verdict of one of the commissioners. Sheep raising is reported as another industry deserving more encouragement than it now receives, and considerable areas in the Maritime Provinces and other parts of Canada, little used for other kinds of farming, are admirably adapted for this. While the meat is shipped and there is no lack of markets, the Scotchman was astonished to find the dog nuisance so severe as effectively to discourage the keeping of flocks and that a remedy was presented by the dog owners' influence. As regards fruit growing, the commissioners find that the apple is the king of Canadian fruits and for favor they incline to prefer the Ontario, and, perhaps, even more the Nova Scotian product. But they think the packing not so commendable as that practised in British Columbia. The commissioners highly appreciate the help given by the Canadian governments to agriculture, and contrast it with the lack of help extended in the old country. A general impression is stated to exist among the commissioners that Canada offers plenty of opportunities to the small farmer, but the particular province to be recommended would vary according to the taste as well as the means of the individual. Good Scottish farm laborers, they think, will continue to emigrate in large numbers to Canada, but they hint that Canadian farmers, if the difficulty of obtaining efficient and sufficient labor supply is to be lessened, should give yearly, not seasonal, agreements, and private cottages for married employes.

THE PATHOS WENT WRONG.  
Irving Bacheller, the novelist, is of unusually agreeable appearance and address. Once when he was a reporter the editor said to him: "I want you to write me a good story about the trials and discouragements of men who are looking for work in a big city. Get up early to-morrow, put on some old clothes, and visit all the places that advertise for male help in the morning paper. Give an account of the number of applicants and the kind of men they are, and describe vividly the feelings of a poor devil who, perhaps has had no breakfast and has walked miles because he hasn't got car fare, and then meets disappointment after disappointment. Draw it good and strong on the pathos. People like to read that sort of thing."

At noon the next day Mr. Bacheller appeared at the office, crestfallen. "The editor said I can't make anything out of that story," he said, to the editor. "What's the trouble?" "I've got three jobs already and a promise of two more."

There is no reason why any man in Toronto should be out of work. Read The World's classified ads and you will be sure "to land a job."

A REMINISCENCE OF THE WAR.  
Lord Milner's visit to Lindsay, the home of Col. Sam Hughes, has given rise to a story that will be of interest to Canadians generally. Some surprise has been expressed at the friendships between Lord Milner and Col. Sam Hughes. According to a gentleman who called on The World yesterday the story runs this way: During the South African war Col. Hughes found it impossible to secure an appointment in the field, and as a consequence, he went to South Africa as a free lance. While in South Africa he expressed himself as being of the opinion that the English generals in charge of the operations were not doing everything that could be done, at the same time offering much adverse criticism of their actions. These criticisms got to the ears of the then governor of South Africa, Lord Milner, and Col. Hughes received an order to go to the Government House and there he met Lord Milner, and as a consequence he became intimate with Lord Milner, who gave him an appointment during the South African war.

This explains the present intimacy between the colonel and the ex-governor of South Africa.

## Political Notes.

The campaign in North Waterloo apparently has left no sore. The candid dates quit friends, as they began the fight friends, and neither has any regrets. Mr. Reid was a good candidate, but his opponent had the advantage of a prospective cabinet position and an Ottawa training, which fitted him for the struggle.

It would be impossible to imagine anything more beautiful than the spirit of friendliness which characterized the joint debate held at Berlin last week between Mr. King and A. W. Wright, and if ever a discussion of public affairs was carried on with the observance of the amenities that was the one.

Returning from Berlin the next day with the writer Mr. Wright observed: "Mackenzie King is not going to be kept out of public life. He has the ability to succeed and he ought to succeed. But what the young man wants more than anything else is a good beating to start off with."

Mr. Wright's idea was that King would be defeated by his second attempt would be successful.

The Galt Reporter (Cons) wishes W. L. Mackenzie King an honorable political career. "To do him justice," says The Reporter, "William Lyon Mackenzie King bulked well during the contest, estimating that the minister on his side—and all that such connection implied—he made mincemeat of the big Conservative majority in Berlin."

The fraternity of pressmen can take satisfaction that one of their veterans, E. W. Thomson, operating as a free lance volunteer, gave more valuable aid to Sir Wilfrid Laurier than was rendered in the recent election contest by perhaps any other single combatant. In August, when the Liberals were still in the doleful dumps, he wrote a lengthy review of the elements of the situation in The Boston Transcript, estimating that the ministry must win and prognosticating that Laurier would rather gain than lose strength in Ontario. That article was reproduced by Liberal papers throughout the length and breadth of the Dominion. It and the writer were assailed violently all along the line by opposition writers and speakers. The total effect of the masterly performance was to put heart and hope and confidence into the Liberal rank and file, just as they needed courage. Mr. Thomson's prediction was so firmly based on common-sense arguments that there was no getting away from its judicious effect. Later Mr. Thomson went west on a correspondence tour for The Transcript. Being there rashly assailed by the opposition press, he turned on his critics with striking force. It is simply true that E. W. Thomson "got there" every time and in every part of the field. Yet he retained his usual independent attitude consistently through the contest. He went to help Laurier, not to help any in both his latest contests. More and more does the voice of the independent newspaper, or writer, or speaker, count for in modern politics.

A regular meeting of the Toronto Young Liberals will be held at their meeting room in the Temple Building to-night. All desiring to become members are invited to be present.

Albert Grigg is mentioned as the Conservative candidate for the local house in East Algoma in succession to W. R. Smyth.

The Kingston Standard (Con) thinks the defeat of the Liberal party is a foregone conclusion. "We have been dropped earlier, some certain Conservatives at least would have gone into the contest with a better team in the months, for both Mr. Forster and Mr. Laforgue were possessed of certain characteristics which can scarcely be said to have appealed to the better class of the Conservatives."

That there will be a big gnat of election petitions as a result of Monday's elections seems certain. A great deal of talk is being indulged in on both sides, and at the present moment probably half the members-elect are making for fear of having to face election trials. Many of the protests will probably be put in for the purpose of effecting a saw-off arrangement, but from the point of view of the losers the claim that many of the protests will come to trial seems justified.

In Centre Toronto Mr. Robinette's organizers are talking of aiming at disqualification of Mr. Bristol, the successful Conservative candidate.

The Conservatives of West Peterboro at a meeting decided to protest the election of Hon. J. R. Stratton, who was elected on Monday over J. H. Burnham. Proceedings will be instituted at once. The usual charges of bribery and corruption will be made.

Sir Francis Gould, England's cleverest cartoonist, in yesterday's Westminister Gazette pictures Laurier standing on one side of a pendulum, which is swinging towards him, and on the other side Asquith and Balfour, saying, "You side man, Sir Wilfrid, you are lucky." On the wall alongside

## CHAPTER III.

You were promised yesterday that certain facts regarding publishing companies, etc., would appear in to-day's "World."

The facts herein mentioned are not given as a forecast of what the

is going to accomplish. The Company hopes to equal them in course of time, and with the growth of Canada, but it does not assert as a fact that it will. No one knows, and the Company does not desire the people's money invested on misrepresentation.

Now, let us look at Cassell & Company of London, Paris, New York, Melbourne and Toronto. The National Company does not want you to believe that you are entering something as good as Cassell's. In comparison with Cassell's, the National Company is as a pea to a pumpkin. But the National Company means to secure a good share of trade and climb the ladder of success. In 1907 the Cassell Company made nearly

## Fifty Thousand Dollars Profit Over and Above the Profits of the Preceding Year.

The National Business Methods & Publishing Company may not be able to make even fifty thousand dollars' profit per annum on their capitalization of \$50,000. Such a result is too much to reasonably hope for. Enormous dividends of 100 per cent. are extremely rare. The Company, however, anticipates paying very good dividends (a profit of only five thousand dollars will pay 10 per cent. dividend on the total capitalization), and the time must come when two or three companies will be making enormous dividends in Canada.

## Invest Now

and if this Company becomes one of the fortunate few heavy profit makers, you will be in the harvest of the future.

Take another instance of profit. Mrs. Elinor Glyn wrote a book called "Three Weeks." Up to the middle of September last that book in but a short time had earned nearly \$90,000. President Roosevelt received a dollar a word for his African hunt story.

You were promised facts. Space allows for mention of only four more facts. It is said that the circulation of the "Ladies' Home Journal" exceeds one million copies each issue; "Everybody's Magazine" carries about 200 pages of advertising in every issue; the "American Home Monthly" enjoys a circulation of a little more than 120,000 copies every month and receives \$840.00 for every page

Sir Wilfrid Laurier has received a cable message of congratulation upon the result of the general elections from Premier Botha of the Transvaal, as follows: "My colleagues and I heartily congratulate you upon your success.—By, Botha."

The assault on Attorney-General Campbell of Manitoba arose from a conversation held over the telephone between Campbell and E. L. Howell on Sunday night, when the latter was endeavoring to get the release of two Liberals held in the provincial jail on bribery charges. On Howell saying he would publish this conversation, Mr. Campbell is alleged to have said, "Go ahead, you biharerskite." Howell is stated to have said he would get even, and at 2:30 Wednesday afternoon he approached the attorney-general on Main-street, in front of the Merchants' Bank building. Some words passed and eye-witnesses state that Howell struck Campbell and kicked him across the street. The attorney-general states he was struck from behind, and says he was not seriously damaged. Howell is a big strapping fellow of 26.

# A New Novel by Mrs. Humphry Ward

Here is an Event in Fiction, a great story—an addition to the Aristocracy of Novels. All of Mrs. Ward's women pale before the white fire of the spirit of Diana Mallory. Young, gracious, sweet-hearted, she is brought with brutal suddenness into cruel knowledge affecting her dead young mother.

## The Testing of Diana Mallory

Just before the blow strikes, Diana Mallory is betrothed to the man she loves. Therefore to him comes the highest possible privilege—to guard and shelter in time of trouble the woman he loves. And the man—but that's the story. The original paintings by W. Hatherell, R. I., make great illustrations.

HARPER & BROTHERS

## OF INTEREST TO WOMEN

### Hallowe'en Novelties.

A crepe paper Hallowe'en has a fragile sound, but it is perfectly practicable, and nothing could be prettier than the reality. Few people realize how many things are made of crepe paper and how tough and durable crepe paper as now manufactured is. A visit to a shop dealing in these articles is a revelation. Dresses, muffs, parasols, hats, vegetables, fruit and flowers, butterflies and birds, tablecloths, napkins, doilies—these are a few of the things made out of crepe paper. A crepe paper pumpkin and sunflower supper can be made very pretty. Over the cotton silks and damasks a crepe paper "cloth," with a design of yellow sunflowers. Use napkins with a sunflower and pumpkin border and draw them thru rings to make the doilies must have the same border and should be used to cover the bread plates, cake plates, etc. The green and yellow Japanese ware is more in demand with a sunflower and pumpkin supper than any other. Cute little "sunflower" make effective place cards, perched upon the rim of each wine glass. The nuts and bonbons can be served on crepe paper sunflowers, which come fixed on little stands, with receptacles for the goodies hidden in the brown centres of the blossoms. Put the olives in green and yellow striped gourds and the celery in big yellow cucumber shells. The fruit can be arranged in a large crepe paper pumpkin. The small sized pumpkin cakes make dainty dishes in which to serve ices, and for the salad there are the individual half cucumber, half carrot or green tomato cases. The candles should be deep yellow, and the very newest thing in shades—a picturesque trifle of black emerald paper, with opalescent yellow moon, stars and sunflowers scattered over the four sides—is most appropriate for Hallowe'en. For the centrepieces of the table use an immense sunflower. Jack Horner's pie filled with luck charms, each charm having attached to it a yellow ribbon which runs to one of the plates ending there in a dainty yellow pumpkin blossom. These crepe paper flowers must be seen to be appreciated; so deft have the makers become that it is difficult to tell the paper flowers from the real ones. Sometimes perfume is added to the cotton centres of the flowers, to make the illusion perfect. There are crepe paper decorations without end for a pumpkin and sunflower luncheon. For instance, there are pumpkin vines with blossoms and little pumpkins on them, which can be fastened above the table and along the walls. A big crepe paper pumpkin into which an electric bulb has been dropped, makes an effective lantern, depending from the vines above the table. The little pumpkins can be utilized for lights, too. If desired, and very pretty they look, shining with a deep yellow glow among the vines. For the rest of the decorations large standard sunflowers can be grouped against the walls, and with holes bored in them, grass and with holes bored in them, and insert the stems of the sunflowers in these. Cornstalks with yellow tassels and ripe ears are handsome, too, and may be arranged in the same way as the sunflowers. Something quite new is the lattice screen in green, with crepe paper pumpkin vines trained all over it. Some of the screens have three and even four folds, and can be made very large. There are green window boxes, too, filled with yellow hollyhocks, which at a little distance would deceive a gardener. Popular favors for Hallowe'en entertainments are the little "siren horns" filled with tiny pumpkins on the whistle end. Children love these horns, especially if they are filled with confetti. A bit of

paper over the tip of the horn holds the confetti in its place until it is desired to liberate the shower. Other favors are the brown and yellow sunbonnets, one of which might be hung on the chair of each feminine guest. On the back of the chairs in which the men or boys are to sit hang cones, to which brown and yellow night motifs might be fastened. Below is a supper menu appropriate for a Hallowe'en or any other harvest time festival: Supper—Hot chicken bouillon, whipped cream, chicken salad, olive sauce, mushrooms, duck and hot biscuit; coffee cake, tippy-turkey cake, fancy cakes, coffee, bonbons.

### Indian Girls Saved.

OTTAWA, Oct. 23.—The first time for the first time at the Great Petach in the northwest, no Indian girls were sold as slaves. On previous occasions they were bought and sold like cattle. The W. M. S. of the Methodist church has asked the attorney-general to enforce the law relating to polygamy with special reference to the Chinese. One woman, a fourth wife, was bought for \$350. She was 19 years of age, her purchaser, \$3,000. An officer, Whong Kong, signs papers allowing Chinamen to represent themselves as parents or guardians and showing these papers bring these girls into a civilized Christian country often to be sold again. These facts are known to the police.

### National Council of Women.

OTTAWA, Oct. 23.—That there is much objectionable printed matter in Canadian cities was asserted at the convention of the National Council of Women this morning by Mrs. Waycott of Montreal, and she told of the war being waged against it. The local council at Halifax has made a careful examination of the books of the public library and found several objectionable books in the collection. The complaint sent to the authorities was kindly received. In Toronto a crusade has been carried on against postal card sellers. Many arrests have been made, warnings given and fines imposed. Brantford council went in regard to an objectionable newspaper published in Calgary, which it is hoped to suppress thru the postoffice department. There will be a discussion to-morrow afternoon on the question of woman suffrage, which has already been brought before a committee of the council by Dr. Stowe-Gullen of Toronto.

### In Society.

### ATTACKED AND ROBBED.

NEW YORK, Oct. 23.—Mrs. Sarah Dickels was attacked in her apartment in West Ninetieth-street to-day by an unknown man, who fractured her skull with the butt of a revolver and tied her to the plumbing in the bathroom while he ransacked the house. He obtained, it is said, jewels and plate valued at \$200 and escaped.

### THE "GOLDEN RULE" POLICE COURT.

Charles D. Smith had a real life alibi in police court yesterday afternoon when charged with speeding his auto Sunday. He declared that at the time, 1.55 p.m., the machine was in the garage. He and his wife were both sure. Little things like these do not matter on the bench and when Chief Inspector Archibald told him it was a clear case a \$10 fine with costs was promptly handed out.

### Here, Ad Writers Get Busy.

BARCELONA, Oct. 23.—The Barcelona municipality has offered a prize of \$1000 for the best poster design for advertising Barcelona as a winter resort, and the mayor of the city has especially invited the competition of American artists. The competition is 1.25 by 0.90 metres, with space for the words "Barcelona Ciudad de Invierno." The designs must reach the "Secretaria de la Comision de Atenciones de Forasteros" before Dec. 31, 1908.

### SUFFRAGETTES TO JAIL WILL NOT PAY BIG FINES

Women Chained Themselves to Iron Grill in Gallery and Their Padded Chains Had to Be Filed.

LONDON, Oct. 23.—All the suffragettes, with the exception of two, who were arrested last night during the disorders in and around the house of commons, were this morning arraigned in court and fined \$35 each. They refused to pay and were consequently sentenced each to one month's imprisonment. Of the two exceptions one was a girl under 21 years of age and the other a woman who secured an adjournment to lodge a charge of assault against the constable who arrested her. The length to which suffragettes will go to obtain an object and to strike a blow for their cause before the nation, was illustrated in the house of commons when it was discovered in the midst of consideration of a bill, that two women had chained themselves to the iron grill in the gallery. Their chains had to be filed and portions of the grill cut away before they could be detached. The house was considering the Licensing Bill, when a suffragette from the gallery shrilly demanded that women be allowed to vote, and thrust thru the grill a placard on which were printed the precise demands of the suffragettes. Mr. Remnant speaking on the bill attempted to continue when a man threw down a bundle of papers and cried, "I am a man, and I object to injustice in voting." Attendants made a scuffle in ejecting this disturber. Over the sounds of this incident rose greater disorder in the gallery. A suffragette discovered that two suffragettes had chained themselves to the grill and were shrieking out: "We demand votes for women." Extremists put out a crowd in front of the gallery. Mr. Remnant attempted to pull the women away and then Mr. Glynne, who was Helen Fox, the suffragette, were led away, their chains filed outside, and being arrested, as their acts were not illegal. At the same time the police made a dash into a bunch of suffragettes that started a hurrahe before a crowd in front of the equestrian statue outside and arrested 13. The galleries have been temporarily closed.

### NEARLY WENT TO JAIL.

After Imposing Sentence, Magistrate Allows Case to Go to Jury.

Claude Downswell was fined \$10 and cost of police yesterday when he pleaded guilty to sending obscene postcards thru the mails to Mrs. A. H. Hollingsworth and her daughter of 15 years. The prosecution followed the complaint of Mrs. Hollingsworth to the Washington authorities who complained to the Canadian post-office authorities.

### HARRISON-STREET RINK.

Editor World: A matter that came up before the board of control yesterday illustrates the restrictive weight given to the legal machinery holding power in this country. The house-holders upon Harrison-street had protested against the erection of a rink close to their dwellings. They were told the "fire limits" stood in their way. The rink was up and was burned to the ground under conditions that came within the nearest sort of residents have again petitioned against the reconstruction of a rink, and Mayor Oliver told Mr. Cronin in their behalf that the city could not, if it would, give effect to the protest made and that the courts have so decided. His worship made the remark that this is the way the city is tied down by the people up in the park. And so it is thru the whole gamut. The federal government at Ottawa has set up by imperial authority from allowing Canada to assume an equality beside the United States in regard to oriental immigration. Federal legislation in exercises a sort of sub-suzerainty in its inroads on municipal brakes for the wheels of municipal extension. The city architect of Toronto as a consequence confesses his inability to give householders relief from what is a menace to their health. The Canadian people have been schooled to slavish respect for regulation and red tape all the way from Downing-street to the advancing too rapidly for "fire limits" that appear to have become fossilized in the absurd keeping of provincial authority, and the city architect of Toronto by a poor excuse for his job as a barrier to protection against districts. Householder.

### In the Police Court.

The following penalties were imposed in police court yesterday morning and afternoon: Charles Symons, disorderly by the welcome pastime of attempted but unsuccessful; William Sibley, theft, \$30; George Duff, theft from coat, \$30; Frank, committed for trial; John Philp, theft of goods, 15 days; Fred Norman, theft of goods, 15 days; Dora Harrison, uttering counterfeit money, 50 cent piece, dismissed; Fred Touse, theft of horse, committed for trial; Edith Blisset, theft of blankets, dismissed.

### Thanksgiving Day Rates.

For Thanksgiving Day the C.P.R. will sell round trip tickets at the fare between all Canadian stations and Buffalo, Toronto, and to Detroit on Friday, Saturday, Sunday and Monday, Nov. 6, 7, 8 and 9, returning until and on Tuesday, Nov. 10. Apply at nearest C.P.R. ticket office.

### McKENDRY'S LIMITED, 226-228 YONGE STREET.

### Public Amusements

Robert Ganthony's entertainment to-night and to-morrow night at Massey Hall will serve to introduce to the Toronto public a most versatile artist and comedian. His program includes a musical sketch, Japanese grotesques, transformation, caricature and laughable mimetic sketch. "The Weathercock Concert." Mr. Ganthony is assisted by a charming English actress from the Court Theatre, Miss Mary Stanmore, and thus he varies the program effectively by two sketches, "The Meeting," which represents two lovers meeting after nine years and comparing notes, and a domestic incident, which is the reverse, "All Brown's Fault," in which a belated husband arriving home in the wee sma' hours receives a reprimand. Mr. Ganthony will also be assisted by two excellent Toronto artists in Rhynd Jamieson, baritone, and Miss Belyea, contralto, with Miss Mary Morley, pianist, Master Fred Blakey, the boy soprano, with the very clear bell-like voice of Miss Hazel Stanmore. He will also take part in a most attractive entertainment, Mr. Ganthony's evening is quite different from the usual one-man entertainment in its wide variety. All doubts have been expelled from the minds of the patrons of comic opera regarding the ability of the Imperial Opera Company to stage the more difficult operas of the older school without sacrificing the excellence which has made the home company famous. The Imperials, since the beginning of the season, have presented representative offerings of the various schools of musical comedy to comic operas, which might be termed classical, and yet thru all has been visible a uniformity in elegance of production and rendition. The offering this week "The Wedding Day," an opera, thoroughly musical and humorous, has been the favorite of others, even a higher standard and will be followed to-morrow afternoon with a grand revival of "The Chimes of Normandy."

### POLICE ARE TRESPASSERS ON UNIVERSITY GROUNDS

President Falconer has advised the students to be peaceable to-morrow night. At the same time he tells them that the police have no authority to interfere with them on the university grounds. In this respect, he differs from the police views. EXHIBITION PROBE ON SATURDAY. On Saturday morning at 10 o'clock Judge Winchester will open the civic investigation as to industrial exhibition affairs. Circumstances may not warrant the enquiry going beyond a short hearing at that time. It is said, and the investigation may have to be postponed for a time.

# COBALT--Silver Queen Attracts Attention of Mining Exchanges--COBALT

## Record-Breaking Transactions At the Mining Exchanges

### Silver Queen, Little Nipissing and Other Issues Make Good Advances--Markets Close Strong.

World Office, Thursday Evening, Oct. 29. To-day's trading in Cobalts was exceedingly heavy and if anything a trifle more voluminous than yesterday, which was considered to be a record-breaker in speculative circles. Increasing activity is not restricted to Toronto. New York was busier than ever before, sales being taken up in a brisk manner, no less than 2,000 shares of Cobalt Central being dealt in.

Altogether over 62,800 sales were made on the New York curb, this would make it self-evident that the inquiry made by New York brokers as to why Toronto brokers do not hold a continuous session is reasonably raised.

It is predicted that the New York sales will undoubtedly go beyond the present figures with the presidential election out of the way.

Chambers-Ferland, after its sensational rise of yesterday, remained steady and sold as high as 100. One reason for the rise in this stock is that there has been a big demand for the shares in England.

Chambers-Ferland advanced over 20 points since last week and apparently the advance is justifiable on the strength of the combined demand abroad and the present prospects of the company.

Little Nipissing was strong to-day, advancing upwards of 12 points. This somewhat unexpected advance has been caused by a wire from Cobalt to the effect that a new find on the property has been made, disclosing a vein of silver high in silver and the vein is believed to have depth.

Temiskaming was steady, with considerable transactions. The high figure for Temiskaming to-day was 1.60 and 1.75 at 60 days.

Beaver was a popular stock on exchange at a further advance. A private wire announced a find on the property at a point most remote from Temiskaming.

Advances were general in almost all the listed issues and the volume of the business has caused somewhat of a congestion. It is not improbable that some brokers will have to refuse further business until the market has caught up with present orders.

**HALF-HOUR EXTENSION.**  
Members of Standard Will Put Question to Vote To-Day.

The Standard Stock Exchange members will hold a meeting to-day to decide whether or not to stay open until 12.30 noon.

The query from New York is being considered seriously and it is quite probable that a majority are in favor of a half-hour extension, if not a five-hour session.

**PREDICTS RISE.**  
United States Will Raise Price of Silver for a Purpose.

A Denver expert predicts that steps may shortly be taken by the United States to raise the price of silver, in order to revive trade with the Orient. Owing to depreciation in silver, the money standard of the east trade with Asia has fallen to very little.

**New England Buyers of La Rose.**  
Of the 4000 shareholders in the La Rose Cons. property over 1000 are real-estate men of New England, and the New England list is growing rapidly.—Boston News Bureau.

**Inspect Little Nip.**  
The three "J's"—namely, J. Curry, J. Bickell and J. Boldt—will leave for Cobalt on Sunday evening to inspect the Little Nipissing property and look into the newly reported finds on the ground.

**Some interesting information should result from this visit.**

**Little Nip Shareholders.**  
It has been decided upon by the directors and approved by the shareholders, that for the purpose of providing sufficient working capital the new stock of Little Nipissing would be offered for sale to the shareholders of record as such shareholders appeared on the books of the company on the 21st day of October, 1908, viz.: one new share of stock for every five shares of record stock that was owned by each shareholder at or for the price of sum of 20 cents per share.

**Red Rock Kicker.**  
The Mining Editor of The World is in receipt of a communication in regard to the Red Rock property, but as the letters are anonymous they cannot be accepted for publication. All communication on this or any other mining property must be signed if publication is desired, but a "nom de plume" may be used if the writer is desirous of withholding his real name from the published letter.

**Nova Scotia Cobalt.**  
Some misapprehension has occurred in regard to an item in Thursday's World respecting the transfer office for the stock of the Nova Scotia Silver Cobalt Mining Co. The Trust and Guarantee Co. is the transfer agent for the stock and the Imperial Trusts Company is the registrar.

**New York Curb.**

**Good Buying in Queen.**  
Send Prices of Stock Up Ten Points in Quick Time.

Quite an outbreak of buying orders developed for Silver Queen stock yesterday. The stock was scarce and an advance of 10 points had to be made before any real offerings of the shares were met. The buying was hard to trace, but it was thought that the recent find on the Little Nipissing had something to do with it. The Little Nipissing is close to the southern end of the Silver Queen, this part of the Queen has not yet been prospected and it is taken that the Little Nipissing vein can easily be located on the Queen, thus proving big values at the extreme limit of the Silver Queen property.

Silver Queen has attracted a good following among investors in London, England, and in Paris and some of the same purchases were made on European orders. The stock was strong at the highest point of the day at the close of the market and future transactions will have to be made at advances according to the sentiment of the evening curb.

**SILVER LEAF HOLDER.**  
Would Like Clear Cut Statement From the Directors.

Editor World: It is quite refreshing to read a clear honest statement like the Foster's people have put out. I think, as a shareholder, a little of the same sense from the Silver Leaf directors would not be amiss. What is it that is keeping this proposition in the rut? It apparently takes a scale of 40,000 to 50,000 shares to put this point higher in the market, only to fall back again the next day. It appears to have the goods, admittedly the capitalization is a bit flat, but take the Coniagas with less acreage at \$4,000,000, and standing away over par. The Nova Scotia at half the acreage standing at 60c and others; and the Crown Reserve, next door, at \$2.19; also the fact that mines never close down when the last shareholders have made good with dividends, and others

**WHAT IS A RATEPAYER?**  
Interpretation of Word a Factor in Annexation Petition.

To-day the counsel engaged in the scrutiny of the petition of the ratepayers of the Danforth-avenue section, in the term "ratepayer," resumes their investigation. Yesterday the township assessor, a question having arisen as to the ownership of some of the properties represented on the petition.

The petition may or may not be sufficiently signed according to the interpretation of the term "ratepayer." It is held by some that a ratepayer includes a person who pays taxes in the form of rent, but another view is that the term has not this wide significance.

It has been held by the municipal board, which is the arbiter in this case, that a tenant who pays taxes directly to the municipal officers; or a leaseholder for a term of years; or an ordinary tenant, according to this interpretation, is not a ratepayer.

If this is the meaning of the act it would appear that the petition has been sufficiently signed, but it may take several days yet to go thru the names and ascertain the qualifications of the persons whose names appear thereon.

**LEMON EXTRACT INTOXICATING**  
Magistrate Says So and Fines Man Fifty Dollars.

VICTORIA, B.C., Oct. 29.—A lemon extract in intoxicating liquor under the law? Such is the point the appeal of U. F. Bender of this city, to the British Columbia court of appeal, is raising. Bender is charged with selling a bottle of lemon extract, which he said was for medicinal purposes, but which he admitted was like the lemon extract used in making cake. This Mr. Bender did, making a present of the bottle to the Siwash Indian, who lived in the hotel in the vicinity. Next morning Mr. Bender received a summons ordering him to appear before the local magistrate to answer to the charge of selling an intoxicating liquor. He admitted having given the man a bottle of lemon extract, but said that he had no idea it was intoxicating, and that he gave it to him just as he would have given a bottle of Worcestershire sauce.

"Worcestershire sauce is also intoxicating. Fifty dollars and costs," was the reply of the rural dignitary.

The shipment will be routed Grand Trunk to Chicago, Wisconsin Central to St. Paul, and Soo Line and C.P.R. to Winnipeg.

**STREET RAILWAY NEGLIGENCE**  
The Street Railway Company has been made a third party in the suit of L. J. Robinson against the City of Toronto for damages for injuries caused by being thrown from his wheel beneath a wagon.

Robinson alleges the city was negligent in maintaining the roadway. Engineer Rust in an affidavit believed that the rut in the pavement was due to the working of the car rails owing to insufficient substructure.

The seizure of more ridding Japanese sailing schooners on the Russian sealing grounds in the north Pacific is reported by the steamer Montegia, which arrived at Victoria, B. C.
