REPUBLICANS CHOOSE HARDING TO CONTEST PRESIDENCY

Russian Soviet Government Reported Violently Overthrown

SOVIET RECOGNITION IVE QUESTION FOR LABOR CONVENTION

**Progressives Ready to Wage
Bitter Fight Against Com-
mittee's Recommendation.**

CONDEMNNS CONGRESS
Montreal, June 12.—Having complet-
ed its condemnation of the Republican
party for rejecting labor's demands,
the American Federation of Labor to-
night was prepared to take up its
annual convention here legislation af-
fecting economic and industrial con-
ditions in the United States.

One of the first matters to come
before the delegates will be the charge
of the executive council's report that
"notwithstanding the needs of the
masses of our country congress failed
to enact a single constructive measure
that would aid the working proleter-
iate." A strong resolution on this sub-
ject has been prepared.

Alexander Howatt, president of the
Kansas mine owners' organization, an-
nounced tonight that he will fight for
the adoption of his resolution condemn-
ing the Kansas industrial court and
Governor Allen for "his despicable ef-
forts to enslave the working class of
Kansas and finally the working class
of the United States in prostituting
his office as governor of Kansas to the
work of crucifying the working class."
Howatt's resolution would also
pledge the organized labor movement
to the support of District 14, United
Mine Workers, and union labor of Kan-
sas in fighting the industrial court
system.

Several other resolutions have been
introduced which would pledge the

DR. SALEM BLAND FOR CANDIDATE

**Asked by I. L. P. to Contest
Vacant Seat in North-
East Toronto.**

A deputation from the Independent
Labor party of Toronto waited upon
the Rev. Salem Bland yesterday and
offered, on behalf of the I.L.P., to
nominate him as their candidate for
the vacant legislature seat in North-
East Toronto. Dr. Bland thanked the
deputation for the offer, and promised
to give it his most careful and favor-
able consideration.

Dr. Bland, whose recent book, dealing
with the evolution of the church and
labor's influence in the future on
the conduct of the church in gen-
eral has caused much controversy, was
seen last night by The World. Dr.
Bland confirmed the offer of the nomi-
nation, and when asked point blank if
he would accept it, said he could give
no definite answer until he had con-
sulted the officers and officials of the
Broadway Tabernacle, of which church
he is pastor. Dr. Bland thought that
if he became a member of the legisla-
ture it might be to the advantage of
the church, but, of course, he would
not say what view the church officials
might take of the matter. He said he
would do nothing against their wishes.

"Then," said The World, "if the
officials of the church are agreeable,
you will accept the nomination?"
"I do not say that," returned the
pastor, "for there are many consid-
erations to be taken into account. They
to my mind, however, would lend weight
to my final decision. It will take
some few days before I shall be able
to give my answer to the I.L.P.'s offer
—an offer it has given me great grati-
fication to receive."

ITALIANS SURRENDER TO ALBANIAN FORCES

**Two Detachments Overwhelmed
—Big Attack on Aviona
is Repulsed.**

Rome, June 13.—A semi-official
statement issued today, describing the
Albanian attack on Aviona, admits
that two Italian detachments of Hill
115 and Giorni, after heroic resistance,
surrendered to overwhelming forces.
The statement, however, adds that a
great attack on Aviona, which was
accompanied by a revolt of the
Muslim inhabitants of the town, was
repulsed with heavy losses to the
rebels. The Italian committee, ac-
cording to the statement, did not ex-
ceed 10 killed and 50 wounded. Rein-
forcements are now arriving, and the
critical phase of the situation has been
overcome, the statement asserts.

BAND OF KOREANS DEFEATED BY JAPS

Seoul, Korea, June 13.—Two hun-
dred armed Koreans, who attempted
to cross the frontier into China, north
of Ham-Gyong, were defeated in the
battle which ensued, losing 24 killed,
says an official communique. Two
Japanese were wounded.

TROTSKY KILLED, LENINE FUGITIVE SAYS UNCONFIRMED TOKIO CABLE

**New Government Headed by Gen. Brusiloff Reported
Established, But London is Skeptical.**

London, June 13.—A Tokyo cable says: Information that the Moscow gov-
ernment has been overthrown, that Leon Trotsky has been killed, and that
Premier Lenine has escaped, said to come from the Vladivostok government,
is printed in an extra edition of The Asahi Shimbun. A new government,
headed by General Brusiloff, is reported to have been established.
Nothing has been received in London from any other source confirmatory
of the report.

The Bolshevik military communiques by wireless have been received
daily. The latest, dated June 12, was received today and announces that the
Bolsheviks have occupied Kiev.
A Paris cable says: Persistent reports have been current of a counter-
revolution in Russia, but French official circles have no news on the subject.
Attention is called, however, to the fact that since Friday messages from
Moscow, picked up by French wireless stations, have been unintelligible. A
number of messages in Russian were copied tonight, but it was impossible to
make any sense out of them.

SAY PARLIAMENT TO SIT UNTIL MIDDLE OF JULY

**Talk of Prorogation Swung Onward Another Two Weeks
—Fall Session Unlikely — To Announce Immedi-
ate Naval Pr gram Soon.**

Ottawa, June 13.—(By Canadian
Press).—With quite a little work to
do not on the budget, and with the
franchise act and report on soldiers'
talk of prorogation of parliament has
swung still further than Dominion
Day, and the expectation is now that
it will be July 15. At one time the
Liberal opposition was reported to be
anxious to finish by June 25, in order
to allow of a western tour by Hon.
W. L. Mackenzie King. Now the pro-
posed trip has been pushed back until
the fall, thus allowing of more lati-
tude in talking against the govern-
ment proposals.

The talk of a fall session has also
been revived, but older members of
the house do not see any likelihood of
such being the case this year. Some
members believe the fall session was
planned to overcome the increased
indemnity question, but others
merely scout the idea, declaring that
only the imminent issue of a general
election would bring on a second session.

Luxury Tax Debate Today.
The house tomorrow will discuss
paragraph 1 of the luxury tax bill,
tax resolutions, and will then take up
the amendments, of which the minis-
ter of finance has given notice. When
formally moved, the amendments will
come into force; for the time being,
the luxury taxes originally proposed
in the budget speech will remain law.
The discussion on the taxes is expect-
ed to be somewhat protracted, and will
no doubt lead to the suggestion of
amendments apart from those which

SINN FEIN MURDER ANOTHER POLICEMAN

**General Boycott Against Irish
Constabulary Proclaimed
in Leitrim.**

Belfast, June 13.—Another police-
man, Constable King, was murdered at
Glengarriff, County Cork, last night.

Dublin, June 13.—A general boycott
against the Irish constabulary was
proclaimed through County Leitrim to-
day by headquarters of the Irish Re-
publican army, situated in Northern
Roscommon. Enforcement of the order
will stop supplies of food, milk and
other necessities to the police and
their wives and children.

NEW ENGLAND SHRINERS VISITING IN MONTREAL

Montreal, June 13.—A party of
Mystic Shriners, 400 in number, and
composed of officers of the various
temples of the orders in the New Eng-
land states, visited Montreal today en
route to Portland, Oregon, where the
annual convention of the Shriners is
to be held this year.

ANOTHER INDUSTRIAL TIE-UP IS THREATENED IN MELBOURNE

**Strike of Enginemen in Electric Power Station Likely
to Have Serious Consequences.**

Melbourne, Australia, June 13.—Enginemen in the electric power stations,
to the number of 800, have struck. It is estimated that the lighting and
cooking arrangements of 200,000 families are affected. Many factories are
idle. The streets and railway stations are lighted, but the suburbs are in
darkness. Efforts are being made to maintain a limited supply of electric
power for hospitals and other institutions. The tram service will cease this
evening to conserve the power supply.

The enginemen employed in the government cold storage plant have also
struck, leaving thousands of carcasses to spoil. The government officials are
doing their utmost to cope with the situation.
Indications seem to forecast a worse upheaval than that in 1917, as it is
feared virtually all the trade organizations will eventually be involved in the
present movement.

FACTS AND FIGURES FROM POSTOFFICE EXPLAIN IMPASSE

**Employees Claim Promises
Broken, Pay Bad—Officials
Show System Understaffed.**

NOBODY SATISFIED
Why is the postoffice service in To-
ronto so inefficient? Why are letters
so often delayed days in delivery?
Why are the letter carriers up in arms
against the government? and how far
is the government justified in its con-
tention that the letter carriers and the
postal clerks are being given a proper
remuneration and every consideration?
These are questions which The World
sought to unravel in the course of in-
terviews held Saturday and Sunday.

And the following facts have been
gathered to present the situation in its
naked outline.

The Chief Grievance.
The general executive of the Civil
Service Federation, which meets to-
night, may decide to order all the
postal employees in Toronto to strike.
On the other hand, it may not. The
grievances of the postal clerks are
said to be many, and to be also very
involved. The grievances of the letter
carriers are less complex, and may be
resolved into one central theme, the
promise of the postmaster-general, Col.
E. P. Biondi, under letter date of
Dec. 4, 1919, to General Secretary
McMordie of the Letter Carriers' As-
sociation, that the new maximum and
minimum rates would be paid to the
letter carriers as from April 1, 1919.

The government, so the carriers aver,
has amended the reclassification bill,
which invalidated the postmaster-
general's promise to the men.

Explain the Inefficiency.

riers' Association, and they explain

BIG BRICKLAYER FIRE DUE TO LIGHTNING

**Price Dairy Building Almost
Destroyed—Other Prop-
erties Also Suffer.**

Great damage was done by fire,
caused by Saturday night's storm,
many parts of Peel county. Brimley,
which was the scene of a big fire
year ago, suffered again heavily. The
Price Dairy dwelling, one of the old
buildings, was almost destroyed. It
contained valuable furniture,
and the total damage done is estimat-
ed at about \$50,000. Other Brimley
properties which suffered were the
barns of J. Cooper, W. L. Ross and L.
J. McCrimmon. Most of this property
was covered by insurance.

The outbreak started about midnight,
and destroyed the large implement
shed, stable and barns of the Price
place. A later outbreak about
four a.m. added the two large
dwellinghouses to the list of damage.
The origin of the outbreak is put
down to the lightning.

Another outbreak causing consider-
able damage was that occurring on
Melbriek farm, near Streetsville. The
farm buildings are practically demol-
ished, and the damage is placed at no
low figure.

The Methodist church had a narrow
escape, the tower being struck, but
only a few shingles knocked off.
Many other reports of minor dam-
age are to hand from this section,
which seem to have suffered severely
from the storm.

BIG LOSS OF LIFE IN HUNGARIAN COAL MINE

Berlin, June 13.—One hundred and
ninety-three miners are believed to
have been killed by the explosion of a
dynamite depot at Anina, the great
Hungarian coal and iron mining cen-
tre, 55 miles southeast of Temesvar,
according to a despatch from the last-
mentioned city today. Thirty-six others
were seriously injured.
One hundred and seventy-three bod-
ies have been recovered. The dynamite
depot exploded just as the miners were
leaving a shaft.

The Dead, the Crippled and the Live Ones.

The Roosevelt tradition has already
disappeared in Republican politics in the
States, the it may revive later on.
The Wilson legend is already a thing
of the past.
W. T. Bryan is still alive and in the
ring and may come out a party candi-
date for the fourth time, at San Fran-
cisco. He got the nomination for Wil-
son four years ago. But they and their
friends will be strong antagonistic forces
at the Democratic convention.

Ex-President Taft is still a live in-
fluence in the public life of the United
States, and might come back four years
hence.

W. G. HARDING, OHIO SENATOR, IS CHOICE ON TENTH BALLOT FOR REPUBLICAN NOMINATION

PLANKS IN REPUBLICAN PLATFORM

1. Opposes the league of nations, but declares in favor of some other in-
ternational agreement for preserving the peace of the world.
2. Denounces President Wilson's Mexican policy as wordy and futile, but
does not promise intervention.
3. Declines the Armenian mandatory, but expresses sympathy with and
desire to help the Armenians.
4. Approves compulsory arbitration for strikes on public utilities and
voluntary arbitration in respect to other strikes.
5. Opposes government ownership and operation of railways. Favors an
American marine, but under private ownership and operation.
6. Endorses the principle of the protective tariff.
7. Calls upon Republican states that have not yet endorsed the equal
suffrage amendment to do so promptly.
8. Favors deflation of currency and credits as the only method to reduce
the high cost of living, and pledges economical administration of public
affairs.

The platform does not mention prohibition or the Irish question. It urges
help to agriculture by improved transportation, formation of co-operative
societies and amendments to the farm loan act. The plank on the returned
soldier is vague and non-committal.

POLISH FORCES EVACUATE KIEV

**Battle for City Not Yet Over,
Say Military Au-
thorities.**

FIGHTING IS SHARP

**Gen. Budenny, Who Fought
Against Denikine, Bring-
ing Up Reinforcements.**

Warsaw, June 13.—The evacuation
of Kiev has been completed, the Poles
withdrawing to the region of Zhitomir.
News of the evacuation of Kiev
reached Warsaw Saturday night,
which was the first report from Kiev
in several days. Just prior to the cu-
lmination of the evacuation by the Bol-
sheviki, General Rydzynski, the com-
mander of Kiev, sent a despatch that
he would make a stand unless other-
wise ordered. With difficulty, the Poles
got thru a personal order from General
"Husidaki, the commander-in-chief, to
the Kiev commander to evacuate im-
mediately.

General Budenny, the Russian com-
mander who fought against Denikine,
is bringing up reinforcements, the de-
spatches say, but the military authori-
ties assert that the fight for Kiev is
not yet ended by any means.

The Polish forces are carrying out
orders to retreat to a new line of de-
fence in the Ukraine, and have de-
stroyed the bridges over the Dnieper,
according to an official statement is-
sued today. The realignment is pro-
ceeding in perfect order, the statement
says.

Sharp Fighting.
North of Kiev, the Poles are battl-
ing against the Bolsheviks, who are en-
deavoring to cut the Korosten-Kiev
railroad to join forces with the cav-
alry of General Budenny, which is
striking northward from the region
southwest of Kiev. Fighting is gen-
eral all along the Berdichev-Pastova-
Kiev railroad.

According to latest reports, the ter-
ritory in this region is changing hands
daily.
In a dash to the northwest, the cav-
alry of General Budenny, passed Berd-
ichev, killing peasants en route. It pro-
ceeded as far as Zhitomir, where it is
alleged, the cavalry killed several
wounded Poles in a hospital.

COBALT HAS SHOWERS, TO CHECK FOREST FIRES

Cobalt, Ont., June 13.—Rain which
is falling here today and which is re-
ported fairly general over the district,
is checking the speed of the bush fires
in this region. No further damage has
been reported here up to this morn-
ing, and little danger had been antici-
pated unless the wind rose.

JAPAN STANDS BY BRITISH ALLIANCE

Tokio, June 13.—Continuance
without revision of the Anglo-
Japanese alliance has been decided
upon by the cabinet, and approved
by the diplomatic advisory council,
according to The Nichi Nichi
Shimbun.
The newspaper reports the advi-
sory council as approving also the
cabinet's decision to guard with
Japanese forces the vicinity of
Nicolavsk, Asiatic Russia, for the
purpose of protecting Japanese
and law-abiding Russians.

Governor Coolidge of Massa- chusetts Selected to Con- test Vice-Presidency of United States, Upsetting Plan of Harding's Backers to Nominate Senator Len- root of Wisconsin—Con- vention Acclaims Harding Enthusiastically.

Chicago, May 13.—Warren G. Hard-
ing, United States senator from Ohio,
was nominated for the presidency last
night by the Republican national con-
vention, after a deadlock which lasted
for nine ballots, and which finally
forced out of the running all the original
favorites.

As his running mate, the convention
named Governor Calvin Coolidge of
Massachusetts, upsetting a plan of a
combination of the Harding backers to
nominate for the place senator Irvine
L. Lenroot of Wisconsin.

The collapse of the forces of Gov-
ernor Frank O. Lowden and their
transfer in large part to senator Hard-
ing put the Ohio candidate over-
board. General Wood lost heavily, however,
when the Harding drift began, and
Senator Johnson, who had been one of
the leaders on the early balloting, also
went steadily downhill.

Entering the convention four days
ago as a candidate distinctly of the
"dark horse" class, senator Harding
got only 64 votes on the first ballot,
and, on the second, he dropped to 56.
When the convention adjourned Fri-
day night, at the end of the fourth
ballot, he had 61.

All Night Conferences.
In all night conferences among the
party chiefs, however, he was men-
tioned many times as the most likely
to break the nomination deadlock.
Neither Wood, Lowden nor
Johnson were competing last night.
They all retired to their homes.
General Wood, who had been running
and Lowden running a neck and neck
for leadership on four more bal-
lots, while the strength of the Cal-
vin Coolidge forces was increasing.

ALBANIAN DICTATOR MURDERED IN PARIS

**Essad Pasha Shot by Alba-
nian Student When Emerg-
ing From Hotel.**

Paris, June 13.—Essad Pasha, head
of the Albanian delegation in Paris,
and former president of Albania, was
assassinated today here. Three shots
were fired at him by an Albanian
student, two of which took effect.
Essad Pasha was emerging from the
Hotel Continental in the Rue
Castiglione, when he was suddenly
confronted by a young man who later
gave his name as Rustem Avent and
said he was an Albanian student.
Without uttering a word, Rustem
fired two shots, which struck Essad
Pasha in the chest and another shot,
which was wild, struck the ground.
He was picked up and taken to
his bedroom, where he died shortly
afterwards.

The assassin was arrested by the
waiter. He told the police he arrived
in Paris on May 31 and declared the
crime was not premeditated. Recog-
nizing Essad Pasha on the street,
whom he held to be responsible for the
sufferings of Albania, he said he felt
a sudden impulse and fired the shot.
Rustem termed Essad "The Albanian
Dictator."

ARBITRATORS AWARD NOT YET RECEIVED

Neither John T. Vick nor William
H. Moore, arbitrators upon the T. S.
R. board, has received the report back
from Ottawa, according to latest re-
ports. Mr. Vick himself stated he had
received no word of its arrival, and
Mr. Moore stated that the report
would not be received officially by
either of the arbitrators. Both Joseph
Gibbons and W. D. Robbins, officials
of the Street Railway Union, were
called up by telephone, but were not
available. It is understood that the
report will be received this morning.

MELITOPOL IS TAKEN BY WRANGEL'S FORCES

London, June 13.—Capture of Meli-
topol, in the Crimea, by General
Wrangel, who succeeded to the com-
mand of the Denikine forces in South-
ern Russia, is reported in a Reuter
message from Constantinople. Five
thousand prisoners, 27 guns and five
armored trains were taken.

HORROR OF EPIDEMICS IS CONFRONTING KIEV

London, June 13.—Before evacuating Kiev, according to the latest Bolsh-
evik communique issued yesterday, the Poles blew up the Vladimir Cathedral,
the railway stations, the electric power station and the aqueduct. Destruction
of the latter, the communique says, doomed the population to the horror
of epidemics. The communique adds:
"Capture of Kiev was effected by the Bolsheviks debouching to the rear
of the enemy and capturing the Kiev-Korosten railroad in the Korodianski-
Tetrev sector. We then crossed the Dnieper River and entered the gully. Near
Vasilkoff we defeated the enemy, who is fleeing in panic northwestward,
abandoning military transports.
"In the Crimea, after three days' fighting, we have taken 3,000 prisoners."

WARREN G. HARDING W. G. HARDING WILL BE THE CANDIDATE. Republican Nominee for Presidency Prominent in Ohio Politics.

Warren G. Harding, the Republican nominee for the presidency of the United States, has always been represented as Ohio's best man since 1914. In private business life he is the number one man in the state.

It was the parleys between the Harding and Lowden men, however, which apparently bore the most fruit in the balloting, for Governor Lowden came to the convention during the ninth roll-call, and, in the previous plan to go before the convention, he had been defeated by the Harding men.

Almost as soon as the alphabetical call of states began, after the recess of the day, the Harding men, who were in the Ohio camp, started to get their feet on the ground.

It was Governor Sprout, himself the candidate of the state on every precedent, who first mentioned the name of Wood as a possible dark horse.

A demonstration of several minutes followed, most of which was spent in the shouting and cheering, while a procession carrying large pictures of the states and standards of some of the candidates, who were taking up their march around the hall.

When it was seen that the candidate had been nominated, the customary cheering and shouting began with a half dozen who were in the front of the crowd.

COOLIDGE FAMOUS AS STRIKE-BREAKER

Smashing of Policemen's Strike in Boston Due to His Firm Stand.

SUCCESS IN POLITICS. "Law and Order" Coolidge Went From Farm to Study Law.

Boston, June 13.—Calvin Coolidge of Northampton, Mass., who in public life has been known almost ever since 1895 as little known outside of Massachusetts until the greater part of the September, 1919. Coolidge was governor of the state, and he ordered the state guard to patrol the streets of Boston after a night of rioting, announced that he declared that the strikers were to be preserved and that their places would be filled by other men.

The strikers never regained their previous status. Troops maintained order for several weeks and a new police force was recruited. It was in Washington, and Coolidge was named as one of the candidates for the presidency, and he was promptly nicknamed "Law and Order Coolidge."

As the presidential campaign for 1920 approached he was invited to become an active candidate for the Republican nomination for president. They had gone as far as to open headquarters for him in Washington, and senator Henry Cabot Lodge had offered to present his name to national convention if the governor would consent to be announced publicly that he was a candidate and that he considered that while he was governor his job was at the state house.

Coolidge's Career. Calvin Coolidge was born on a farm in the little village of Plymouth, Vermont, on July 4, 1892. His father, in addition to being a farmer, was a village storekeeper. Coolidge's ancestors from the time John Coolidge settled in Waterbury, Mass., in 1730, were all farmers.

Young Calvin worked on the farm and in the store and attended the village school, and in 1910 he was elected to the law office of a firm in Northampton to such good effect that after twenty months dipping at the law books, he was admitted to the bar. He opened a law office in the same town and continued to practice there until his public duties occupied all his time.

His first public office was as member of the Northampton city council, and he was elected city solicitor, county representative for two years, state representative for two years, and state senator for four years, the last two years serving as lieutenant governor for three years.

Success in Politics. In 1918 Coolidge was elected to the legislature and was elected by a plurality of 1,000 votes to the Vermont state senate in 1919, and aided by the prestige gained through his relation to the Boston police strike, was elected to the legislature in Massachusetts in 1920.

Governor Coolidge was married in 1905 to Grace Goodhue Coolidge, daughter of a Vermont family. They have two children, a son and a daughter. He was chosen governor of Massachusetts in 1920, and he is returning the hundred odd miles to his home for the week-end.

SOVIET RECOGNITION IS LEADING ISSUE. (Continued From Page 1.)

labor leaders predicted tonight that the first big clash on the floor between the conservative and progressive wings would come when the debate opened on the resolutions demanding recognition of the soviet government of Russia and the lifting of the blockade against Russia.

The committee considering these resolutions, it was learned tonight, recommended that the convention refuse to endorse the soviet government, and any other form of government in that country, until the people of Russia have established a "truly democratic form of government."

The progressives, headed by James D. Pendergast, are prepared to wage a bitter fight on the floor for recognition of the soviet government. They will be supported by the "Igherman" Ladies' Gaiety Club, Workers of New York and several other international unions.

One of the resolutions presented by the garment workers declaring that Russia has thrown off its imperial oppression and the old czarist government, as well as the oligarchy of the "Igherman" Ladies' Gaiety Club, asks the federation to request the government to officially recognize the Russian soviet government as "the only true expression of the will of the Russian people."

Mr. Duncanson, in a resolution presented in behalf of the Seattle Central Labor Council, asks that the government "exert its best influence to the end that Japanese and all other foreign troops be immediately withdrawn from the territory of the former Russian empire," and that the commercial blockade be lifted.

An outstanding characteristic of these suits is their serviceability. The workingman is afforded an opportunity of selecting a suit for work that will give him unusually good service, and at a price that is not a proper representation of the splendid value offered. These are suits from the lines that have been made famous in England for the workingman, called the Government Three-Guinea Suit. All are British-tailored, and are from well woven, sturdy, all-wool tweeds and serges, or tweeds with a small percentage of cotton, but a small quantity are wool and cotton mixtures. Colors and patterns consist of grey and brown herringbone twills, plain, medium and dark greys or brown, grey with diagonal stripe or small check pattern. Navy blue serges are cheviot or rough finishes. Coats are all 3-button regular style, with notched collar, plain breast and two flap pockets, and are lined with mercerized cotton. Trousers have waist strap and cuff bottoms, strong pockets. Not all sizes in any pattern or color, but in the lot there will be equal opportunities for the man whether he shops at 8.30, or finds 12.15 a more convenient hour. Sizes 33 to 42 chest, for men from 5 feet 3 inches to 6 feet. Special, today..... **18.75**

Normal Hearing

For Persons Who Are Partially Deaf

People who are hard of hearing would certainly derive a great deal more enjoyment from summer holidays, or, for that matter, from the everyday pleasures of life, if their natural hearing were restored. Music could be enjoyed, business could be attended to efficiently, and an ordinary conversation could be carried on without embarrassment or strain for either party. Although a positive restorative is not yet known, the Acousticon is perhaps the most modern, most reliable and effective aid to partial deafness. It's an electrical device, made in four models to suit the severity of the affliction.

The notable feature in connection with the Acousticon is that it is almost inconspicuous when being worn.

If your hearing is afflicted in any way you'll find immediate relief in an Acousticon—a relief that will lead to immeasurable enjoyment, a renewed interest in society, and a confidence in business activity.

WOES OF RUSSIA ARE FOUND GREAT

British Labor Delegates Make Report on Existing Conditions.

London, June 12.—The first report of the British Labor delegates, who have just returned from an investigation of conditions in Soviet Russia, was made public last evening. The delegates declare themselves deeply impressed with the distress and disorganization which they found in Russia, the dejection of the people, and the extent of the government's interference with individual liberty. The report describes the blockade as injurious to the world and disastrous to Russia and makes reference to the epidemic of diseases, to which the absence of soap and medical supplies has given full sway, although great efforts have been made toward sanitation. Denouncing the Polish war, the report says:

Restrict Individual Liberty. "The appeal for creative work is being once more set aside in favor of an appeal, to military enthusiasts, while the war conditions provide new pretexts for restricting individual liberty and preventing freedom of discussion."

The report says war rallies all ally to the defence of the country; it emphasizes the breakdown in manufactures thru lack of raw material, and advocates the immediate recognition of Russia. The report was brought to England by Benjamin Turner and Tom Shaw, members of the British Labor delegation which visited Russia, for presentation to the Labor Congress at Scarborough. They brought also a letter from Nikolai Lenin, the Bolshevik premier, exhorting the workers to revolution in England, which Lenin criticizes the surprise expressed by the delegation at the "Red Terror," the suppression of freedom of the press, and free assembly, and declares that the red terror is the defence of the workingmen against exploiters, and that freedom of the press and assembly in a bourgeois democracy means freedom to plot against the workingmen.

TWENTY-TWO WOMEN IN NEW REICHSTAG

Berlin, June 12.—Konstantine Fehrbach, president of the German national assembly, intends to convoke the new Reichstag on June 24, according to a statement made today to The Lokal Anzeiger. Twenty-two women members will hold seats in the new Reichstag, 23 having been members of the national assembly.

ABITIBI DIVIDEND.

Montreal, June 12.—Following the announcement of the declaration of the usual quarterly dividend on the preferred stock of the Abitibi Company, quite a few enquiries were made concerning the action of the directors with respect to the common stock. Action with respect to the dividend on the common is not likely to be taken by the directors until the last week of June, when the matter will be discussed and a decision reached, probably following a visit to the plant. The dividend on the common stock is not due for payment until July 15th so that ample time remains. The street seems to have reached the conclusion that the declaration will be at the rate of \$1.50 a share per quarter.

EXPRESS EMPLOYEES' DEMANDS.

Winnipeg, June 13.—Chief Justice T. G. Mathers, chairman of the board of conciliation, which will investigate the dispute between the Canadian Northern Express Company and its employees between Halifax and Vancouver, over wage differences, announced yesterday that the first meeting will be held in Winnipeg on Thursday, June 17. W. J. Christie, Winnipeg, will represent the employers, and Fred Bancroft, Toronto, the men.

CAR ACCIDENT VICTIMS

New York, June 13.—Two men were killed and a third seriously injured today, when the door of a southbound Lexington avenue express train alighted while the train was passing Astor Place. The three men were standing on the rear platform of the first car. Two of them were thrown out and run over by the express, while the third man, who had fallen partly thru the door, was pulled back into the car by other passengers.

SIR LOMER GOULIN TO RESIGN OFFICE?

Quebec Premier Rumored to Be Attempting Pulp and Paper Merger.

Quebec, June 12.—It is understood that the cabinet ministers will sit every day next week, and that important events are forecasted. It is also said on reliable authority, that Sir Lomer Goulin is resigning in the course of next week.

Sir Lomer Goulin recently took a trip to England, and while there he made a speech describing the illimitable forest wealth of this province. On his return to this country, rumors began to get into circulation that he was to retire from the premiership of Quebec, to engage in the work of merging all the pulp and paper companies in eastern Canada with a capitalization provided by Canadian and British financiers, up in the hundreds of millions. No definite information has been obtainable in reference to the merger, and Sir Lomer, when asked about his rumored resignation, referred to the story as "a revival of an old yarn."

H. H. STEVENS, M.P., RAPS PROGRESSIVES

In Montreal Speech Declares Platform of the Party is a Menace.

Montreal, June 13.—A warning that the propaganda of the Progressive party was a dangerous form of doctrine which was being preached by the rulers of the Grain Growers and the Council of Agriculture, was issued by H. H. Stevens, M.P. for Vancouver, in an address he delivered to the Progressive Club here on Saturday. Mr. Stevens said that the Progressive platform was a menace. He believed its first idea was the socialization of the grain industry of Canada; that the government should market all the grain, and that there should be no private dealing. The elevators, the C.P.R. and the banks would also be taken over by the government under this platform, Mr. Stevens said. All the farmers in the prairie provinces did not uphold this platform, but the system of representation on the Council of Agriculture was such that there was no chance of the minorities in each district making themselves heard.

MEXICO TO SEND MISSION TO STATES

Washington, June 13.—Reports have reached the state department that the new Mexican government is about to send to the United States a mission to discuss the relations between the two countries in an informal way. The mission will not have plenary powers, but will endeavor to determine a basis for the adjustment of all the differences between the two countries. The members of the mission intend to confer with leading members of the senate and house and officials of the administration, and to discuss the formation of an international claim commission, as well as some of the legislation of Mexico, against which the United States has made frequent formal protest.

LOOK FOR SHAKE-UP IN MILITARY STAFF

Militia Department Likely to Revert to Conditions Prevailing Before the War.

Ottawa, June 13.—(By Canadian Press)—Although no definite announcement has yet been made, it seems likely there will be a shake-up among the heads of branches at militia headquarters following the departure of General Sir Arthur Currie, who assumes his new duties at McGill University on August 1. It is expected that Major-General Sir Willoughby Gwatkin will shortly go to the air force, and the two posts of inspector-general and major-general of the general staff will consequently be vacant. The feeling appears to be that the department will revert to the old order of things, which prevailed prior to the war. The position of inspector-general, while occupied by General Currie, has been invested with duties which had previously not been attached to that post but which were considered appropriate in view of the position held by Gen. Currie overseas. Following his retirement, it seems that the appointment of inspector-general likely will not carry with it all of these duties, also it will probably be continued.

FAVOR WALLACEBURG PLAN FOR MEMORIAL HOSPITAL

Chatham, Ont., June 13.—(Special).—At the closing session of the Kent county council on Saturday the scheme for the building of a memorial hospital at Wallaceburg was viewed with favor. The matter of making a grant to the fund was laid over until the December session, by which time, it was thought, an estimate of the cost of the proposed institution would be submitted. A few days ago a delegation from Wallaceburg, O. D. E. requested a grant of \$20,000.

CHICAGO'S GROWTH

Washington, June 13.—Chicago, whose 1920 census was announced last night by the census bureau as 2,701,212, had during the last decade the second largest growth numerically in its history, with an increase of 216,992. It was the third time Chicago had shown an increase of more than half a million. Chicago's rate of growth was 8.6 per cent, which was 5.1 per cent less than the previous ten years, and exceeded New York city's rate by 5.7 per cent. New York's 1920 rate having been 12.9 per cent.

DISCUSS RAILWAY SALE.

Montreal, June 13.—A conference took place on Saturday between Premier Stewart of Alberta and a number of prominent officials from that province and officials of the Canadian Pacific Railway here. The conference, it was understood, had to do with the sale of the E. D. & B. C. Railway to the C.P.R.

ATTEMPT ON LIFE OF EGYPT'S PREMIER

Second Time Effort Made to Assassinate Him in Six Months.

Cairo, June 12.—An unsuccessful attempt was made this morning to assassinate the Egyptian premier by means of a bomb. Today's attempt to assassinate the Egyptian premier is the third such incident within a year. Last September a bomb was thrown at the then premier, Hussein Rushdi Pasha, but the premier was not injured. The assailant was a theological student. On December 15 last an attack was made upon Yusuf Wahba Pasha, who had succeeded to the premiership, while he was driving to the ministry. Three persons, however, were wounded. The bomb-thrower was arrested.

WEALTHY TURFMAN VICTIM OF MURDER

Police Are Convinced That Elwell Did Not Die By His Own Hand.

BAFFLING MYSTERY

Countess Szinaskwa and Her Sister Questioned, But Decline to Talk.

New York, June 13.—The theory of suicide was virtually abandoned by the police tonight in the mysterious death of Joseph B. Elwell, wealthy turfman and noted whist authority, who was found in his home last Friday with a bullet wound in his head.

Assistant District Attorney John E. Joyce today belittled the report that women friends of the slain Elwell had keys to his home. He said the statement, originally attributed to Elwell's chauffeur, was absurd, as there were only two keys, one held by the housekeeper and the other by Mr. Elwell.

According to Assistant District Attorney Joyce, the sisters, who were born in Poland, met Elwell in Carlsbad, Bohemia, early in the war, while at the watering place with members of their family.

The countess and her sister admitted the assistant district attorney stated, that their friendship with Elwell was broken after they heard he had made a remark associating them with German interests.

Mr. Joyce said, in the detention of the countess as an enemy alien two years ago, their friendship was never resumed.

Police suspicion tonight was concentrated on two cluemen, both acquaintances of Elwell. One of them, the police called at his apartment, according to the police, the missing man had made arrangements for his departure the day before the murder and had left about the time Elwell was killed.

FISHERMAN KILLED WHILE LIFTING NETS

Wheatley Man Struck by Lightning—Two Companions Are Stunned.

Wheatley, Ont., June 13.—Struck by lightning while setting nets during the progress of a thunderstorm this morning, Lyle Dawson of this village was instantly killed and two companions were stunned. The small boat they had was somewhat damaged, but the two companions of Dawson managed to make shore with them. They are suffering slightly from the effects of the shock.

Dawson was a married man about 30 years of age. He is survived by a wife and two children.

FACTS AND FIGURES FROM POSTOFFICE

(Continued From Page 1). The inefficiency of the service in Toronto thus: "Our service is admittedly inefficient, and for the reason that we are both undermanned and overburdened; our routes are far longer, and our loads far heavier than they should be. We are supposed to have a staff of 550 bonafide letter carriers; as a matter of fact we have about 450, originally appointed, men. During the past month there were no less than 24 resignations from our staff in Toronto alone. This naturally means that those who remain share in a heavier burden for the lack of sufficient help."

In a nutshell, the grievance of the letter carriers is summed up by these men as follows: The reclassification bill, as originally formulated, increased the men from the minimum salary of \$750, and from the maximum salary of \$1,200, the increases being as from April 1, 1919, to a date as from April 1, 1919, by a definite amount, and from the postmaster-general carried out without fail. Later, following session of the special cabinet committee dealing with the matter, the bill was amended to read: (1) That the increases would be granted only to those men who had been receiving the maximum rates for five years or more previous to April 1, 1919, and even these would not receive the full maximum until April 1, 1920. (2) The men with less than five years at maximum rates prior to April 1, 1919, would receive a maximum of \$1,020, beginning April 1, 1919; \$1,140, April 1, 1920, and \$1,260, April 1, 1921.

"This means just this," said Mr. Hull: "The five-year maximum men had been promised the new maximum, \$1,260, as from April 1, 1919, instead of which they receive under the amended bill only \$1,140. They had \$120 there. Now, the same promise had been made to the men with less than five years' maximum pay in their credit. These men are discriminated against to the extent that they receive \$1020, instead of \$1,140, beginning April 1, 1919, and do not receive their due until April 1, 1921. They lose, therefore, \$240 in 1919 and \$120 in 1920, making a total loss to each of them of \$360. Hence, our strenuous fight for what we consider are our rights."

The following figures and comparisons presented by the men's representatives may prove of interest: The minimum wages paid in 1912 to married men was \$725, with no bonus; the maximum wage was \$925, no bonus. The grades were as follows: 1912: Grade A—\$13, days, \$23.25; Grade B—\$12, days, \$22.50; Grade C—\$11, days, \$21.75; Grade D—\$10, days, \$21.00; Grade E—\$9, days, \$20.25; Grade F—\$8, days, \$19.50; Grade G—\$7, days, \$18.75; Grade H—\$6, days, \$18.00; Grade I—\$5, days, \$17.25; Grade J—\$4, days, \$16.50; Grade K—\$3, days, \$15.75; Grade L—\$2, days, \$15.00; Grade M—\$1, days, \$14.25; Grade N—\$0, days, \$13.50.

So much for wages prevailing among the men in 1912. No increase was granted to the men until the end of, or toward the end of, 1917, when the government gave the carriers a bonus of fifty dollars. Soon after the commencement of the strike the men's salaries were deducted from the funds of varied calibre. There were 25,000 men who were reduced from \$50 to \$45 or \$40, according to the grades of the salaries. In July, 1918, the government added another hundred dollars to the 50 already granted, making the grand total in bonus of \$250. Still another \$100 was added early in 1919, and another \$100 was added in October, 1919. This added to the \$350 another \$70, to make a total of \$420. This made a final grand total of \$420.

More Comparative Figures. Under the salaries ordered by the reclassification bill, the bonus remains intact except for \$1,260, and in their case the bonus is reduced by \$24, making it \$336 instead of \$420. Therefore, the new grades will be as follows, compared with the old—

Table with 3 columns: Grade, Old Salary, New Salary. Rows include Grade A through Grade M.

The weekly average wages for 1912 have already been noted. Under the new rulings the men will receive \$22.35, \$24.45, \$26.55, \$28.65, and \$30.75 a week, according to grades. These figures are approximate, but reasonably correct, and in each case the five per cent. retirement fund has been deducted so that the carriers may know exactly what the carriers received in 1912, and what they will receive under the new act to carry on with. Temporary men are paid 50 cents a day more than carriers and porters on the permanent staff. The government pays 25 cents more than carriers and porters on the permanent staff.

Supplies to the Men. So much for the problem of salaries and bonuses. The men state they would sooner receive a straight income, of say \$1,500, than \$1,360, plus any sort of a bonus, since the bonus may be considered as an act of paternalism on the part of the government, whereas the income of \$1,500 would be their rightful due. Another question now enters into the problem, that of supplies to the men. The government gives various grants of clothing, shoes and accoutrements, which the authorities deduct from the government \$200 a man, but which the men claim costs the government only \$85 a head, according to blue book returns from Ottawa, now available at the Public Reference Library on College street. These supplies include a summer uniform every other season, a summer hat, ditto, a winter uniform, ditto, a reefer jacket, ditto, one fur cap every five years, two summer shirts, ditto, every other season, a raincoat every three years, a cape every four years, a cloth cap every two years, and two pairs of boots every year.

"Many of our men are grievously in debt," continued the secretary of the Letter Carriers' Association, "because of the fact that commencing November, 1914, the cost of living mounted rapidly and with increasing momentum. The men were held down to one tier minimum and maximum salaries until nearly the end of 1917, three years after the cost of living commenced its rapid ascent."

Increases Came Late. "Many of our men are grievously in debt," continued the secretary of the Letter Carriers' Association, "because of the fact that commencing November, 1914, the cost of living mounted rapidly and with increasing momentum. The men were held down to one tier minimum and maximum salaries until nearly the end of 1917, three years after the cost of living commenced its rapid ascent."

ROY M. WOLVIN ISSUES A LETTER

President of Dominion Steel Sends Word to Shareholders Regarding the Big Merger.

Montreal, June 13.—Roy M. Wolvin, president of the Dominion Steel Corporation, today issued a letter that will be sent to shareholders, in reference to the demand by certain directors of the company in Montreal and Toronto for further information on the British Empire Steel Corporation merger. He advises shareholders that any proxies that have been sent to him may be cancelled and new proxies sent to the directors demanding information. He also declares that in order that shareholders may have a good opportunity to study the directors' contentions that he will personally move at the annual meeting, set for Tuesday next, that adjournment be taken till Friday, June 18. Wolvin states that he heartily favors the British Empire Steel Corporation merger.

RAISE INSUFFICIENT SAY WAR VETERANS

Twenty-Five Per Cent. Pension Increase Not Enough, Say Tubercular Men.

Ottawa, June 13.—(By Canadian Press).—Signs that the tubercular suffering patients among returned soldiers throughout the country are not altogether satisfied with a 25 per cent. increase in their pensions, is now confirmed by letters being received by members of the commons. One letter which arrived yesterday from a western constituency disapproves of the proposal to grant a 25 per cent. increase on the ground that up to the present the tubercular patients have been receiving altogether too low a rate of pension, and that the proposed raise will not be nearly commensurate with the benefit of a similar rate to ordinary pensioners.

As yet no official announcement on the increase in pensions has been made, but the proposed general increase of 25 per cent. for the tubercular men, as stated by the Canadian Press several weeks ago, is now confirmed by members of the commons in closest touch with the whole situation. The pensions committee, it is understood, will likely set them within the next week or ten days, and will place its report before the house immediately.

RIDER INJURED WHEN MOTORCYCLE HITS PILE. Robert McFadden, 829 Carlaw avenue, sustained scalp injuries at 11 o'clock last night when a motorcycle which he was riding ran into a clay pile on the road at Danforth and Eaton avenues. McFadden was thrown to the pavement and rendered unconscious. He received medical attention, and was taken in the police ambulance to his home.

LITTLE RECOMPENSE FOR LOST MUNITIONS. Jersey City, N.J., June 13.—The jury which heard the suits brought by France, England and the Aetna Explosives Company against the Lehigh Valley Railroad Company for loss of munitions destroyed in the Black Tom explosion of July 30, 1918, last night awarded damages of \$128,568 to France and found for the defendant in the other two cases. The French claim was for explosives stored in the railroad yards, but the English and Aetna claims were for munitions loaded on barges which were tied to the piers and characterized as "trespassers" by the railroad.

'F. R. HAZARD' HITS UNKNOWN STEAMER. Collides in Fog in Crisp Point District—Hazard Makes Shore Safely.

Sault Ste. Marie, Mich., June 13.—During a heavy fog a collision occurred between the F. R. Hazard and an unknown steamer, about 25 miles northeast of Crisp Point. The Hazard will likely set thru within the next week or ten days, and will place its report before the house immediately.

MOTOR BANDITS KILL MONTREAL POLICEMAN. Montreal, June 13.—Interrupting a burglary, Constable Thomas Chioine was, early this morning, mortally wounded. One suspect has been arrested and the city is being secured for three other men who escaped in an automobile after the shooting. The officer noticed a car standing outside a store near the corner of Park avenue and Bernard street. He was about to ask the driver what he was doing there when the man pulled a revolver and shot him. The ante-mortem statement of the officer was taken this morning at the Royal Victoria Hospital in the presence of the suspect, who, Chioine claims, was not the man who fired the shot, but was sitting in the car. Chioine died this evening.

WASHINGTON GIVES HARDING WELCOME. Washington, Monday, June 14.—Senator Warren G. Harding, of Ohio, Republican presidential nominee, arrived in Washington at 12:05 o'clock this morning from Chicago, nearly two hours behind schedule time. He was greeted by a throng which crowded the Union Station.

SENATOR HARDING WAS MET BY A RECEPTION COMMITTEE and was escorted to the president's room of the station. He passed thru long lines of people who vigorously applauded him. As he passed out of the station to his automobile, he was greeted with a popular air from a boy scout band.

ITALIANS CLEAR AVLONA FRONT

More Than One Thousand Mussulman Albanians Have Been Deported.

Rome, June 13.—Italian Alpine troops have cleared the Avlona front of Albanian insurrections by violent counter-attacks, according to advices received today, which declare that the Italian troops were fired on from the rear by residents of Avlona. The Italians arrested and deported more than 1000 Mussulman Albanians. In reprisal, an Albanian chieftain is reported to have shot a number of Italian prisoners.

Despatches received today state that on June 6 Albanian rebels commenced isolated attacks in the region of Kanina, Glornj, Dukati and Tepeleni, to the south and southwest of Avlona. The Italian forces opposed desperate resistance, giving way only before the superior strength of the enemy. The garrison of Tepeleni and Dukati capitulated, but the other garrisons retreated.

News of the fall of Tepeleni and Dukati to the Albanians caused a feeling of sadness here today, as 76 officers and 500 men of the garrisons were taken prisoner.

CONVICTED MEN FACE GRAVE SECOND CHARGE

The two men, Geo. Decker and Gerald Shearer, both of Toronto, who were sentenced to the lash and one year's imprisonment for stealing a motor car last week, appear at Brampton court this afternoon on an additional county charge of reckless driving and causing bodily harm to the occupants of another car which accused smashed into when the Lake Shore road, near Clarkson, was the scene of the accident.

The second charge is laid by Provincial Officer Rutledge of Port Credit, who conveyed both of the accused to Brampton jail during the week-end. The charge is one of reckless driving, and causing bodily harm to Mrs. Stevenson of Clarkson, who was with her husband in their car when the accident occurred.

ONE EVERY MINUTE By BILLY SCOTT

Since daylight savin' there's a lotta things that look alright on the screen what can't be pulled on the front porch, I'll say there is. Hi's a good scout, but she's gettin' funny ideas. Course, I'm not sayin' nothin', understand—but no yad what pulls a movie much has a look-in with me. I rather have one what waits for the mistletoe.

Now, whenever I happen to date up with a slippy 'now and again'! My reg'lers interest and puts herself next in a pretty smooth way—that, if he shows her fond of sail doin'.

Last night I got took to a slip-stick by a swell assurance agent, after which we was chevin' the rag on the top step when up cawnts Hill. I expected her to stick around awhile, but soon as she lands my trifle she says to me: "A tender little thing like you shoulda hit the trundle long ago. Say goodnight, and make it snappy," and right away I knew that he was about as popular with her as a wooden leg in a canoe.

So I told him good-bye, and pivoted up after Hill. "Why he a joy evaporator?" I says, layin' off my duds. "Why's your education, dearie?" she says, "why, if that pill tried to make a date with me I'd be booked up till next January—dat me!" she says.

"Then you think he's got short-comin'?" He ain't a big juice?" "I don't think it, kid, I know. Maybe he don't waste no time on golf, but that ain't how I know he ain't no gentleman?" "Bunch it, unload! How do you know?" I says. "Then she shows herself herself a wis'-like. 'How do I know?' she says. 'Because he wears bow ties—of a sort, a suit all dewdads, chews, gloves and sports the bum's haircut. That's how I know,' she says."

Now what do you think about that? Guess if I wanna show taste in my pickin' I'd better be on my way after a head waiter or a Charley what wears cameo. Hi's certainly hard to get along with.

What a Motorman and Conductor Earn

On the Toronto Railway system the average length of schedule runs is eight hours and five minutes. More than sixty per cent. of these are "straight runs," that is, the man stays on the car until he completes his day's work, so that if he starts work at, say five o'clock in the morning on an eight hour run, he would be through his work at 1 p.m.

He operates this run six days in the week.

He works on Sunday on an average each alternate month, and when he works on Sunday he is given one day off in the week in lieu thereof.

The rates of wages are: For the first three months' service, 50 cents per hour; for the next nine months, 52½ cents per hour, and thereafter, 55 cents per hour.

When he works on Sunday he is paid at the rate of time and one-quarter, or 68¾ cents per hour.

When he works on a holiday he is paid at the rate of time and one-half, or 82½ cents per hour.

He is also paid for any time worked over eight and a half hours per day (excepting Sundays and holidays) at the rate of time and one-half.

Assuming that a man at 55 cents per hour works a straight eight-hour run, he would earn \$4.40 per day, or for a year of 313 working days the sum of \$1,377.20 per year. In addition, he would work an average of twenty-six Sundays which, at time and a quarter, amounts to \$1.10 per Sunday over a week day's wages, making a total of \$28.60 for the year. Then he would work eight holidays which, at time and a half, makes \$2.20 over the normal day, or \$17.60 for the year; so that he would actually earn \$1,423.40 if he did not work any overtime all year.

To those more than two years in the service, the Company provides free uniform suit and cap each year and overcoat every two years, costing an average of \$40 per year; and the man has also free car fare at all times, which might be estimated to be worth \$50 per year; so that his job is worth to him \$1,513.40 per year.

On account of the nature of the work, and particularly on account of

the short day, the man has abundant opportunity to make additional money by working morning or evening "tripper" runs in his spare time, thus augmenting his income by a considerable amount, as will be shown by the statement below, taken from the payroll for the month of May, 1920, which was submitted to the Conciliation Board this week.

EXAMPLE A—This man worked 21 week days in May. His daily run is worth 8 hours and 34 minutes, straight time, at 55 cents per hour, beginning work at 6.09 a.m. and finishing at 2.43 p.m. He worked on Sundays, and the value of his run was 8 hours and 13 minutes straight time at time and a quarter, or 68¾ cents per hour. He also worked on one holiday 8 hours and 22 minutes straight time at the rate of time and one-half, or 82½ cents per hour. He had four full days off during the month. He earned \$133.34 regular time and \$30.15 overtime for evening extras averaging from two to two and a half hours each evening between 4 p.m. and 6.30 p.m., a total of \$163.49, equivalent to \$1,961.88 per year.

EXAMPLE B—This man worked 22 week days in May. The value of his daily run is 8 hours and 32 minutes straight time, beginning at 4.23 p.m. and working to 12.55 a.m. He worked on Sundays 8 hours and 30 minutes straight time at time and a quarter, or 68¾ cents per hour, and on the holiday 8 hours and 24 minutes at time and a half, or 82½ cents per hour. This man was entitled to four off days and worked on one of them. He earned \$139.01 regular time and \$31.96 overtime for morning extras averaging two hours each morning between 7 a.m. and 9 a.m., a total of \$170.97, equivalent to \$2,051.64 per year.

EXAMPLE C—This man worked 21 week days in May. His daily run valued 8 hours and 6 minutes straight time at 55 cents per hour, starting at 4.32 p.m. each day and working until 12.38 a.m. He worked five Sundays, run value of 8 hours and 31 minutes straight time, at 68¾ cents per hour, and on the holiday 8 hours and 24 minutes at 82½ cents per hour, making a total of \$134.17 regular time. He operated an extra each morning, averaging about two and a half hours between 6.30 and 9 o'clock, for which he earned \$28.90, a total for the month of \$163.15, equivalent to \$1,957.80 per year. He was off four days in the month.

UNFINISHED HOUSES AT QUERY PRICES

Dissatisfaction Among Purchasers of Currie Street Property.

General dissatisfaction is expressed by the purchasers of the Toronto Housing Commission's houses on Currie and Hansen avenues, according to George Fox, Currie avenue, who pointed out to The World yesterday that some sixty dwellings on these streets, although occupied for the past six months, are still unfinished, and the people do not know what the purchase price is to be.

The contracts called for completion last October. Allen Ross, when interviewed, stated they would be finished in April, and they are still unfinished in the middle of June," said Mr. Fox, who added that the outside painting and parts of the inside painting is unfinished, the grading and sidewalk to be done, and only a few alien workmen are on the job.

The houses are occupied largely by returned soldiers, who were informed, when taking possession, that the price was \$3800 to \$3750. The price at the present rate of progress, it is stated, will be \$4000, as the work is being done by labor.

This price the occupants absolutely refuse to pay, and it is decided to form a deputation to visit the mayor and board of control, when an investigation of the situation will be requested.

CONDITIONS DIFFERENT AT LUNCH COUNTER

A report was published in The Sunday World last week of an interview with Richard H. Russell, secretary of the Waiters and Cooks' Union, in which Mr. Russell is quoted as having made a comparison between the prices charged at a certain lunch counter on Yonge street. Mr. Russell has written to The World stating that he is, for the most part, very fairly quoted, but in reference to the comparison in question there is an unfair quotation.

For, in the first place," states the letter, "the hotel in question has a very large staff to handle these various articles, also a staff is kept for the purpose of placing these various articles on the table, whereas, in the case of a lunch counter and a self-service establishment, you will realize at once that from the point of view of the Waiters and Cooks' Union, also men of the city, the comparison is odious to all concerned, and as a ground of friction has been caused by this comparison, it is hoped, for the benefit of all concerned, you will publish these facts as here set forth." In accordance with Mr. Russell's wish, The World publishes these facts understanding that thereby any misunderstanding that might have arisen will be rectified.

JOHN BARLEYCORN ALIVE AND KICKING

Rev. Dr. Crews Warns Howard Park Methodists Fight Yet to Come.

"I am very glad we have a municipal officer who will spend a lot of money and make the council vote him money to be spent for the city," said Rev. Dr. A. C. Crews, preaching last night at Howard Park Methodist Church in "The Law of Prevention." The death rate in Toronto today is about 11 per thousand as compared with 28 per thousand 28 years ago.

The speaker's text was taken from a photograph of the law forcing a man to put an embolism about the roof of his house. The roof was for social gatherings, for the sleeping purposes of the family, and also for the purpose of an embolism. "I am a member of the Liberty League," he said, "and I must not be satisfied with the rule of the Liberty League. There should be no vice-speaker in the morning and Capt. Chas. Webber spoke at the evening service.

Two-thirds of the accidents that occur could be avoided," Dr. Crews continued. They are taking the short way, the prevention of iniquity is the challenge of the Church of God.

Seven points in the sermon were outlined: (1) Fresh air; (2) plenty of sleep; (3) exercise; (4) avoidance of excesses; (5) cultivate cheerfulness; (6) avoid use of alcohol and tobacco; and substitute tea and coffee in moderation; and (7) avoid the fly.

"Some people think John Barleycorn is dead. Wait until next October, and I am surprised if he does not open up a strenuous campaign," the speaker added, after referring to the embolism made against the liquor traffic before the last effective measures were adopted. "We have been setting the drunkard on his feet only to knock him down without doing anything to the system knocking him down."

Nothing more should be done for the police court victim than just being jailed or fined. "I do not want to see the magistrate spend a little more time on the cases, the teacher and guide of our young life, and who does more for the children of God than the slum worker."

"Who does sin begin?" in the thought: "As a man thinketh in his heart, so is he." Sin rolls around in the mouth as a sweet morsel. Harboring sin is a crime for which we must accept blame."

EAST TORONTO L.O.L. HOLDS ANNUAL PARADE

The annual church parade and service of the East Toronto District L.O.L. was held yesterday with a large gathering of the following lodges, which assembled in Riverdale Park and proceeded to St. Giles' Presbyterian Church: Duke of Abercorn, 117; Erskville, Purple Star, 711; Medall, 781; Queen City, 857; Beaver, 911; Ionic, 1023; Orange Ashburn, Rose of Derry, 2159; Prince of Orange, 111; Torbay, 861; Broadview, 2744; Dion, 455; L. Col. Scott, 2416; Spruile, 2253; and Beaches, 227. Under the leadership of J. Walker, eastern district master, and officers, The brethren were their regulars. Rev. S. W. Pickett preached a forceful sermon from the text "Honor all men; love the brotherhood; fear God; honor the king." The preacher developed the two fundamental points—loyalty and brotherhood.

TODMORDEN

TODMORDEN RIPE FOR ANNEXATION

Controller Maguire Favorably Impressed—Might Relieve Housing Situation.

Discussing the recent tour of inspection of the board of control thru the eastern section of York township, Controller Maguire told The World yesterday that he was favorably impressed and believed that annexation of that fine section on the fringe of the city would relieve the housing situation in the eastern and the western sections of the city.

"We cannot have a congested district on the outskirts of the city," said the controller, pointing out that without sewers and water service a dangerous menace is always present both to the residents of the township and to the city. The matter will be carefully gone into by the board at their next meeting, and should the scheme be annexed, a sewerage scheme and water service will be taken into consideration.

Controller Ramsden said he was not prepared to discuss the question until it comes up before the board, and in fact he had nothing to say for publication.

Controller Joe Gibbons, who was not present with the board of inspection, told The World that he would reserve his opinion until the meeting of the board.

Controller Cameron is decidedly favorable to a large section of the eastern section being annexed.

BEACHES AMUSEMENTS MENACE SABBATH'S INTEGRITY

The greatest menace at the present time to the integrity of the Sabbath is the business of amusement," said Rev. W. M. Rochester, secretary of the Lord's Day Alliance, in a forceful address delivered at the morning service in Kew Beach Presbyterian Church yesterday before a large congregation. Dr. Rochester, whose subject was "Sabbath and Sanctuaries," pointed out that the free hours of the Sabbath day seem to offer an irresistible temptation to those whose business is to bring about the violation of it to their already lucrative opportunities the additional advantage of the people's day of rest and worship. "The Lord's Day Alliance is setting itself in resolute opposition to this unwarranted invasion of the Christian Sabbath," declared Dr. Rochester. Proceeding, the preacher spoke somewhat of the necessity of maintaining the spirit of worship on the Sabbath and its general recognition as a day of rest, as outlined by the charter of the city of Toronto, which is a part of the city's constitution. "The peace treaty of one full 24 hours off in every seven days, and that is the relief preferably the Christian Sabbath."

There is great need, however, of going a step farther," said Dr. Rochester, and emphasizing in the interest of character and the higher prosperity of the nation the necessity of Sabbath observance. The Sabbath and the sanctuary are indissolubly connected, he declared. "The work accomplished by the Lord's Day Alliance is to provide and maintain the day in freedom from unnecessary labor and business, so that every citizen may be able to use the day as it was intended."

MEMORIAL PARADE AT NIAGARA FALLS

Niagara Falls, Ont., June 13.—(Special).—A very impressive memorial parade was held here this afternoon. About five hundred men, the majority of whom were in uniform under the command of Col. C. H. Vandervliet, D.S.O., formed on the market square in New Liskeard, to the collegiate institute grounds, where a memorial service was held. Crosses were presented to a number of mothers of soldiers whose sons were killed. Col. Vandervliet made the presentation. A feature of the service at the collegiate grounds was a pair of aeroplanes which circled overhead.

OLD BELT LINE EARLSCOURT BOON

Use Would Attract Manufacturers to Section, Says Reeve.

Since the announcement of the possibility of the reopening of the old belt line, in the northwest district of Earls Court, a considerable amount of interest has again been awakened. From one and one-half to two miles is the walking distance from St. Clair to the old belt line, which has been lying idle for many years. Reeve Miller of York township is responsible for the statement that manufacturers are ready to locate here, if the street cars are connected. Failing these things, however, the district practically remains as it was 20 years ago.

The tracks are in good condition, it is said, and not much money would be required to put the entire line in shape for operation. It is right to expect a man after a hard day's work to tramp two miles from St. Clair before he can reach home? Is the question frequently heard. A public meeting is to be called to make some effort to interest the authorities to get something going right away.

EARLSCOURT PARK NOT YET READY FOR PUBLIC

The new Earls Court Park has not yet been placed in a condition for use by residents, although it is understood that \$15,000 has been set aside by the city hall for this purpose. The park when completed will accommodate 20,000 people. Complaints having been made as to the danger of playing football on the school playgrounds, permission is to be asked of the parks department that the park be used for this purpose as often as it is properly laid out for general sports. Already residents are using the park for small picnics and gatherings, and the ladies' auxiliary field day on the 19th is expected to bring a record crowd out, as it is in aid of the children of the district and to add to the funds of the auxiliary.

WHY NO FIREHALL?

There is no indication that the new firehall for Earls Court is to be built this year and residents are asking the reason why. The sum of \$1,000 had been voted for its erection, but builders say that it cannot be erected for less than \$40,000 and this only a brick foundation, the rest frame. Some pressure is to be brought on the board of control so that the work may be carried out without further delay, as this Earls Court branch has to do duty, whenever necessary, in the township as well as the city. Wychwood has less than \$40,000 and this population there is small compared to the congested condition of the Earls Court district.

WHICH IS THE INFERIOR SEX?

"Redemption," illustrating the deliverance, liberty, and the inheritance of the children of Israel. The evening service was preached by Professor Richard Davidson, of Knox College, on "The Kingdom of Heaven is at Hand"—an Old Subject but a New Subject. The speaker said the words came from God at a time when the world was in a state of unrest, anxiety and trouble corresponding to the state of things at the present time, when men are testing things to the very foundation. "After all there is only one way to make the world right—by the old method of the contrite heart, repentance." The choir gave special music.

WAITERS' CHIEF STATES VIEWS

Gives a New Angle to Causes of the Proposed Strike.

CONDITIONS ARE BAD

Little Less Than Intolerable is How Official Describes Them.

The latest situation among the dissatisfied employees of the hotels and clubs of the city and environs is that they are to hold a mass meeting at the Labor Temple on Monday morning, and will decide to strike or not to strike at 3 a. m. the same morning.

Dick Russell, business manager for the Waiters' and Cooks' Union, in an interview with The Sunday World on Saturday afternoon, stated that the conditions under which the waiters and cooks worked were little less than intolerable. He stated that the famous clubs of large cities were the worst offenders, and that some of the hotels were doing as well as might be expected in the circumstances, others again doing no better than the clubs. He instanced the case of one hotel, near the American border, a summer resort, where the steward was granted 50 cents a day a man to feed the waiters and cooks. It was too well-known that even 70 cents a day was insufficient for this purpose. The result was that the steward was forced to resort to unnatural methods to overcome insuperable difficulties. His mode of procedure in these circumstances was to collect the refuse from the tables of the preceding day, place these in a cart and serve them next day to the employees on deal tables covered with oilcloth. This had been carried to such a degree that many of the men had simply taken their meals outside, paying for them, although nominally receiving wages and board.

"These circumstances can be duplicated as practically all the elite clubs," said Mr. Russell, "more so at some than at others. But they form only a part of our grievances. Until recently the wages ranged from \$70 to \$115, only one man, chief of his department, receiving this figure. He was a highly skilled artist in his profession. This is at one of Toronto's best-known hotels. I know of another man who has full charge of the cuisine for the hotel. He is now receiving \$75 a month and board (for himself only and such as it is). He has a wife and three children. I tried to get him an increase of \$25 to make his salary a clear \$100 a month. I was told that if he didn't like it he could look elsewhere for work. Naturally, no better wages were being paid elsewhere. This was not a case of inefficiency, since the man was good at his job, and indispensable to the establishment. He was not an artist at his profession, but nevertheless splendid for the work allotted to him.

"The hotel people claim we are asking for altogether too much increase. Figures do not bear out their contention. In 1912 we were receiving \$25 a month and board, family or no family; today we are receiving \$45 a month, family or no family. We have always had to rely upon the generosity of the patrons of these establishments. We have come to realize that we should no longer be exploited while certain establishments in Toronto and elsewhere can afford to pay 15 per cent. dividends to their shareholders.

Mr. Russell then produced some figures in support of his stand on behalf of the men: Egg sandwiches (two eggs), 30c; cheese sandwiches, 50c; vanilla ice cream, 40c; halibut, 90c; nesselrode pudding, 50c; two eggs and bacon (three streaks), 80c. These same commodities either at Muirhead's or other similar establishments can be procured for one-third the cost at the establishments referred to above.

"Waiters in outside cities are receiving an average of from \$15 to \$18 a week, as against the Toronto average of \$10.50," said Mr. Russell. And it had to be remembered, too," said the union business manager, "that clothes and other commodities cost generally less in the United States than in Canada.

Lawrence S. Muldoon, resident manager of the King Edward Hotel in Toronto, was called up by The World relative to the grievances of the men. He stated that he could not speak authoritatively in the absence of Mr. George O'Neill, who was representing the employers in the city. He believed, however, that the report that the steward of any establishment was paid only 50c a man for the purpose of feeding the men was incorrect. So far as he knew, the kitchens of the hotels were run on a percentage basis. The employers, he said, had made a proposition to the men, which he hoped would be accepted in the spirit it had been made.

He was for several years president of the Alliance Française of New York, and vice-president of the Federation of French Alliances in the United States and Canada.

CANADIAN NURSES STOOD ACID TEST

Matron-in-Chief Macdonald Tells of Part They Played During War.

Matron-in-chief Margaret Macdonald, who had charge of the Canadian nurses overseas, was the guest of honor at a luncheon given by the Catholic Women's League of Canada at the King Edward on Saturday noon. Miss Gertrude Lawler, M.A., presided. His Grace Archbishop McNeil was the guest of the occasion. Right Rev. Mgr. Whelan and the officers of the organization were at the head table. The guests, 500 in number, filled the Pomelian room and had an overflow into a room adjacent.

Miss Lawler gave an address of wel-

come, and Miss Helen Macdonald presented a basket of white carnations, tied with the Macdonald tartan. By request, Miss Macdonald gave a sketch of her five years' service overseas, in the course of which she had 2800 nursing sisters in charge. "We never had to ask for volunteers," was the tribute paid to the girls and women of Canada. "There never were enough posts of danger to satisfy the demand." Among the incidents in the overseas career of this noted Canadian woman was a visit of several hours at Windsor, during which the kindness of the King and Queen and their real interest in the war was astounding. Strong faith, high ideals, the elimination of the ego, a good digestion, and a sense of humor were things tabulated as essentials for a good nurse.

Archbishop McNeil expressed appreciation to the speaker and to the president and members of the league on the auspicious of their first luncheon.

Matron-in-chief Macdonald, who is from Antigonish, served in the Boer war. She was decorated by the King, and after her return has been given the degree of LL.D.

The hardest things of all to Wash

Small boys' suits—rompers—kitchen aprons—dish towels—
Try this wonderful new form of Soap on them.

Rinso

Fine granules of the purest Soap. Different from any soap or powder, cleanses without rubbing or boiling; hot or cold water, either will do.

A new Soap product! Absolutely different from anything you have ever used before. Not a cake soap. Not a "washing powder." But fine granules of the pure soap heart. No harsh chemicals to eat fabric, destroy clothes or redden the hands. Pure granules so rich in cleansing power that they dissolve all the dirt—the hardest dirt—after soaking a few hours, without rubbing or boiling. Never again should you wash in the old exhausting way. Let your clothes say good-bye to the rub, rub, rub ordeal of the washboard.

Rinso is not a "washing powder"
The fine granules of Rinso look much like a "washing powder," but—make this test. Use a heaping teaspoonful to a glass of boiling water.

WASHING POWDER —high in harsh chemicals —low in soap
RINSO —absolutely harmless —so rich in soap it "jells"!

AT NIGHT— Soak the clothes with Rinso.
MORNING— Rinse them out—that's all.

GET A PACKAGE TO-DAY
You cannot believe how wonderful Rinso is until you have tried it. No rubbing at all! Cleans as perfectly in cold water as in warm.

AN INTERESTING TEST
To show how different Rinso is to the ordinary washing powder, dissolve a heaping teaspoonful to a glass of boiling water. Let it cool. Turn it out. So rich in soap that it JELLS!
