ST. CATHARINES.

The Town of St. Catharines is the County Town of Lincoln, and is at present the most populous Town in the Province, its population being over 10,000. It is a very flourishing Town, situated on the line of the Welland Canal, from which it derives large commercial and manufacturing advantages. It is also the centre of what has been long known as the "Garden of Canada," a tract of country lying between the two lakes—Erie and Ontario—the influence of which moderates its climate, and in addition to the character of its soil, makes it favorable to the growth of fruits and vegetables and every other kind of Agricultural products. This, in addition to its Shipping interests, which may be said to be the blood, for without them there would be very little life, give to St. Catharines an energy and impetus that have enabled it to grow to its present proportions. Notwithstanding the great depression in the business of the Country during the past year, St. Catharines has sustained itself as well, and perhaps better, than some others of greater pretensions, but in so doing they have had the advantage of the large expenditure on the construction of the new line, or as it is called, the enlargement, of the Welland Canal. This work will no doubt extend the borders of the Town and increase its population. The people, alive to their own interests, have already induced the authorities to take the necessary steps, and by the first of January, the limits of the Corporation will be so enlarged as to place it beyond all competition in the race of Towns and very soon enable it to take its place among the Cities. When the new Canal is completed, the manufacturing facilities will be so increased that the future of St. Catharines will be no longer problematical, but in the ordinary and almost certain course of events, be assured and beyond doubt. At present the Town presents a very prosperous appearance. The number of Stores or Shops for the transaction of business, erected during the past year, and many still in the course of erection, afford ample proof of the confidence which business men feel in its onward progress. The public buildings of St. Catharines are a credit to it. It has

some very respectable Church edifices, among which may be mentioned the St. Paul Street Methodist, the Roman Catholic, St. George's (Episcopalian), Knox (Presbyterian), American Presbyterian, Queen St. Baptist, with several smaller ones, branches from these denominations, which are located in the outlying portions of the Town, and serve to add materially to the religious accommodation and meet the requirements of the people. The School System is one of the Institutions of which St. Catharines may well feel proud. Its Public Schools are well conducted and the buildings provided by the liberality of the people are ample, and not only so, but in their style are elegant and substantial. The Central School occupies one of the finest sites within the Corporation and raises its chaste and ornamental head above every other. In connection with this are several other buildings of a substantial and convenient construction giving accommodation ample to meet all the requirements of the rising generation. The High School also occupies an almost equally elegant site, and is a commodious and good building, and gives a good idea of the progress of higher education in the evidently complex or patchwork character of its construction. The Roman Catholic Convent as an educational structure is, perhaps, the largest in the town, and is a very fine building, erected within the past year. All these taken together afford ample facilities and show that St. Catharines in the march of intellect is in the foreground.

There are also some very fine Hotels in St. Catharines, among which may be mentioned the "Stephenson House," the "Spring Bank," the Welland House," the "Murray House," the "Cairns House" and many others of smaller dimensions, but for public accommodation. Among its charitable institutions, the first in character as "the first in fame" is the "GRANT-HAM and MARINE HOSPITAL." This institution owes its being to Dr. Theophilus Mack, in whose mind first originated the idea of establishing an asylum for those who, subject to the vicissitudes and accidents of canal transit, might be left friendless and homeless. In its first existence it may be truly said to be "a day of small beginnings," but now it stands forth as one of the noblest charities and the best administered of which the Province can boast. Although not local in its object, it is local in its origin, and therefore belongs to St. Catharines. It is the best monument that can be reared to the generous philanthropy of Dr. Mack, aided as it was by the liberality of Capt. James Norris, the present M.P. for the County of Lincoln; nursed and cherished by the charitable impulses of St. Catharines, it now is spoken of as one of the most useful and, it is to be hoped, permanent of the institutions of the country. The Town Hall, as it is called, is a cut stone structure and, taken with its adjuncts of Court House, Public Offices, etc., is rather a creditable building. The "Town Hall" (proper) is however the best apartment in the structure, and the Court House, Public Offices, and other appendages of the building, will no doubt soon be improving. The Market grounds surround the building, and on market days are crowded to excess. It is in contemplation to provide larger accommodation for the greatly increasing requirements of the Public Market. The County Gaol is situated at the east end of the Town and is a very imposing building, erected on the most improved principles of government science; as is also the County Registry Office, located near the Town Hall. The Firemen's Hall is another of the public buildings. It is situated on St. Paul street, and contains all the appliances which St. Catharines affords for the protection of property from fire; these consist of two Steam Fire Engines, Hose, Hooks and Ladders &c., but the PEOPLE have voted for a system of Water Works, and there is a prospect that the cry of the people will ere long meet with a response.

It would scarcely be just to close this hasty sketch of St. Catharines, without paying some tribute to the memory of one to whom it is indebted more than any other for even its existence. He has passed away but is still remembered. We mean the Hon. William Hamilton Merritt. To him and to his indomitable perseverance the country owes the Welland Canal. He cannot be spoken of as an individual. He was the author of the Welland Canal and consequently of St. Catharines.

MERRITTON.

Merritton is now an incorporated village, also situated on the line of the Welland Canal, and, like St. Catharines, indebted to that great public work for its existence. Its population is 1,600, and from the energy and enterprise manifested within its borders lately, it bids fair to rise to importance. It is the connecting link between St. Catharines and Thorold, and from its situation is well adapted for manufacturing purposes. The Lybster Cotton Mills, so justly celebrated, are in Merritton and employ a large number of hands, and there is also another mill owned by Messrs. Wait & Co. engaged in the same business. The Paper Mills of Mr. John Riordon are also here and give employment to 120 men, and several other establishments of more or less extent. Since its incorporation the village has grown rapidly and is still on the increase.

MASONIC.

The fraternity of Ancient, Free and Accepted Masons is well represented in St. Catharines, there being three flourishing Lodges, one vigorous Chapter, and a Preceptory of the united orders of the Temple and Hospital, a Council of Royal and Select Masters is all in course of formation. The fraternity owns a substantial iron front building known as the Masonic Temple, erected in 1872 at a cost of about \$30,000, or \$15,000 more than the subscribed capital. This building is managed by a Board of Directors annually elected, who absorb its income in extinguishing the excess of capital stock. The third story is devoted exclusively to Masonic purposes, and contains a large hall for Lodge and other meetings, with ante-rooms adjoining. The second story possesses several fine offices and a large millinery establishment, while the first story or ground floor contains a magnificent store 53 x 90 feet, being the largest and most imposing in the town.

The following is a list of the officers of each organization, with the times of meeting and fees charged:—

MANUFACTURES.

ST. CATHARINES WHEEL WORKS, HUNT, CAIRNS & Co., PROPRIETORS.—These works were established by Messrs. R. McKinley & Co., about 1861, on the Canal between Thorold and Merritton, and subsequently moved to the Novelty Iron Works building, where their business extended rapidly until it became the most extensive establishment of the kind in the Dominion. In 1871 they purchased a property on the Canal near the St. Paul Street swing bridge where they have erected several large buildings more suited to their increased trade than the Novelty Works. They manufacture every description of carriage wood work, felloes, spokes, tubs, shafts, wheels, &c., which are shipped to all parts of the Dominion, as well as to England, Ireland, France and Germany. The principal article of manufacture is the Patent Wheel, which has been proved to be the best in use, and is now most generally in demand all over the Dominion. These wheels are made after the American patent "*Sarvans*" and "*Warners*," and of the best quality of second growth timber. They present a very neat appearance when finished, and those who have tried them will testify as to their durability and strength. In fact it is noticeable that almost all the buggies, sulkies or waggons that took prizes at the fairs are furnished with these wheels, while the Buffalo bronze medal, the English gold medal and all the first prizes at Provincial and local fairs have been awarded to them. The machinery employed is of the best description, and all the latest improvements are added as soon as proved efficacious. This firm gives employment to from 80 to 100 men constantly. The engine used is of 80 horse power. The name of the firm was changed in July, 1875, Mr. Cairns purchasing an interest in it, and it is now composed of R. McKinley, M. Hunt, and Jas. Cairns.

WILSON & SMITH'S PLANING MILL, SASH, DOOR, AND BLIND FACTORY.— This firm at present occupy a brick building 50 x 60, employing between 40 and 50 men. The mill comprises the newest machinery in all the branches of the business, driven by an engine of 50 horse power. Messrs. Wilson & Smith intend enlarging their premises the coming season, when the building will be 60 x 80.
