CARE HERE TO EARN, RATHER THAN TALK

G. T. P. Commissioners Reticent as to Plans MET BOARD OF TRADE And Heard Advantages of Different Routes Presented-- However They Did Not Commit Themselves, Nor Would They Intimate Which Route They Prefer.

The transcontinental railway commissioners, Hon. S. N. Parent, chairman, Robert Reid, C. Young and C. F. McLeas, who arrived here last evening were given a drive about the city this morning and an opportunity was afforded them of viewing the harbor front and Court-enry Bay to which they could form an intelligent idea as to St. John's resources as a shipping port.

About 10:30 o'clock they met the members of the board of trade, but had nothing to say as to which of the proposed routes through New Brunswick would be decided on.

Besides the commissioners there were present at the meeting: President H. B. Schofield, Alex. Macaulay, J. H. McColbie, Edward Lantlam, M.P.P., George Robertson, M.P.P., W. S. Fisher, Theo. E. Eastwood, T. E. Sumner, W. W. Hatheway, W. E. Foster, S. D. Scott, C. M. Botwick, W. E. Vroom, F. B. Robinson, C. J. Milligan, H. A. McEwen, Col. H. H. McLean, R. O'Brien, Charles McDonald, J. J. Foote and D. J. Purdy, M.P.P.

Mayor White to welcome the commissioners to St. John.

SWITCHMEN MAY STRIKE

Grand Trunk Officials Hurried to Chicago to Stop Threatened Trouble on the System

CHICAGO, Oct. 4.—High officials of the Grand Trunk railroad have been called to Chicago to prevent a general strike of switchmen on the system, growing out of the walkout of the 75 men in the yards at Eddon. Local officers last night admitted that the labor situation is growing more critical hourly.

Fourth Vice-president McGuigan and General Supt. Brownlee of the Grand Trunk will arrive from Detroit today, and will confer with Division Supt. F. W. Egan and his assistant, W. B. Costello. It is expected also that a conference will be held with a committee from strikers in an endeavor to adjust the dispute.

Vice Grand Master James Connors of the Switchmen's Union still holds out for peace, but the officials refused to discuss the chief demand of the men.

MISSIONARY CONVENTION

Annual Meeting of the W. F. M. S. Opened in St. Stephen Today.

ST. STEPHEN, N. B., Oct. 4. (Special.) The New Brunswick and Prince Edward Island branch of the Women's Missionary Society of the Methodist church opened its annual session in the Methodist church here this morning. Mrs. D. Shipman, president, occupied the chair, and sixty-five delegates were in attendance.

ST. STEPHEN, N. B., Oct. 4. (Special.) The annual meeting of the W. F. M. S. opened in St. Stephen today. The services were held in the Methodist church. Mrs. D. Shipman, president, occupied the chair, and sixty-five delegates were in attendance.

PAT CROWE CLAIMS YOUNG CUDAHY GOT HIS SHARE OF BOOTY

Sensational Story That Millionaire Cudahy's Son Himself Suggested Kidnapping Plan and "Worked" His Father for \$25,000--When Money Was Paid He Got His Share

NEW YORK, Oct. 4.—A Butte, Mont. dispatch to the World says that the man calling himself Pat Crowe, who was arrested in Butte, Monday night by two detectives after he had been about the city for a week made a statement last night relative to the kidnapping of Eddie Cudahy declaring that the proposition "to work" the boy's father for a ransom came from the boy himself.

Edward A. Cudahy Jr. was 15 years old at the time he was kidnaped, December 18, 1900 but according to the account given by Crowe the boy disappeared November 18, 1900.

Crowe gives the story of his life and says he was a prosperous butcher in South Omaha when the older Cudahy came there building a packing house and drove him out of business.

CHICAGO, Oct. 4.—Frank Hope, 50 years old, who has served 39 years behind the bars, pleaded guilty yesterday to a charge of swindling, and was sentenced to the penitentiary for ten years.

STOCK MARKET COMMENT

The Tendency is Toward Firmness, Says the New York Sun.

A Natural Market Says the New York Globe--The Copper Market.

(New York Sun.)

A state of affairs in the stock market prevailed last week that, while it could hardly be described as optimistic, because interest in financial matters was no more acute than at any time during the year, was still such as to produce greater confidence and business in market dealings than has been with it since the middle of 1904.

The market, however, was not so much as to be a source of general uncertainty, and the money situation and the fact that a large proportion of the number of people usually interested in speculative ventures were more and more inclined to close out their commitments, whether for the rise or for the fall, and to adopt a waiting attitude regarding all such matters until answers that at least approximated the truth were made to the pressing questions regarding money that had been raised. Yet the market was not so much as to be a source of general uncertainty, and the money situation and the fact that a large proportion of the number of people usually interested in speculative ventures were more and more inclined to close out their commitments, whether for the rise or for the fall, and to adopt a waiting attitude regarding all such matters until answers that at least approximated the truth were made to the pressing questions regarding money that had been raised.

The Copper Market

(New York Commercial.)

The extraordinary demand for copper has stimulated prices in this country and Mexico to unusual development, and yet they are unable to meet the requirements.

The price of refined copper in New York on Monday was advanced 1/4, bringing lake copper up to 16 1/2. The market is firm.

Copper Prices Advanced

The price of refined copper in New York on Monday was advanced 1/4, bringing lake copper up to 16 1/2. The market is firm.

THE RISE IN MONEY

Will It Continue High--Last Week's Rise--What Happened in Other Prosperous Years--How a Rise in Call Rates Forces Liquidation.

(New York Evening Post.)

The rise last week of call money to 7 per cent, with such advances in London, following the 1 1/2 per cent rise in the Bank of England rate, 1/4 per cent at Paris, 1/2 per cent at Berlin, and 1/2 per cent at Amsterdam, brings up the question, Will money rates permanently higher, or is the present firmness likely to be only temporary?

Last week's strength is admitted to have been largely due to the payment of \$100,000,000 by the Pennsylvania and the Atlantic bond syndicate, and the usual quarterly disbursements due on Monday.

It was what caused the 7 per cent rate, back of all these special influences, however, is the larger, but not so active, in the land trade--the country's bank exchanges are running 15 to 20 per cent beyond any previous record for the period--is absorbing bank money, more, quite outside of the heavy crop-moving demands.

Will the currency rise called to the west flow quickly back again? It did not do so in 1902, until well into the next year; it did not do so in 1900, or in 1896. Both of these years were similar to the present, in material property, to 1900. In 1900, despite gold imports, money rates rose to 6 per cent in every part of December. In 1896, the 6 per cent rate was maintained for a week, and then fell to a steady 5 per cent level; but that was because a flood of European money was poured into New York's October bank market, and raised the rate to 6 per cent, and then to 6 1/2 per cent. In another similar autumn, 1891, even the foreign gold did not do enough to reach 6 1/2 per cent, or higher in almost every part of the year.

The obvious question is, whether this season getting foreign gold, but it comes gradually, and the movement is not enough to reach 6 1/2 per cent, or higher in almost every part of the year.

On the face of things, this does not promise immediate relaxation of the strain.

Speculation Affected

With last week's rise in call money above the 4 per cent level, the cost of "carrying" stocks is increased, and the dividends returned. A stock carries itself when the dividends paid equal the interest charges on loans carried in margin accounts. This holding, selling around 100 would carry itself as long as money could be borrowed for 4 per cent, which is the dividend that the stock pays. On a 100-share purchase a speculator would pay \$100 in cash, representing a 20-point margin, and borrow \$100 on the stock collateral. On this basis the dividends would take care of the interest charge. But with money lending at 4 per cent, he would be out, extra, 1 per cent, or the difference between his dividends and the rate of interest, which would be at the rate of \$4 per year.

Those carrying charges aggregate an enormous sum in an active market, and for traders who buy 1000, 2000, or 100,000 shares of stock at a time, the burden often becomes insupportable. It, therefore, often happens that any sharp advance in money rates forces quick liquidation of speculative accounts, with a resultant decline in security prices. This is the case in the case of another call issue generally, and the same thing happens to borrowers to bid against one another for renewals or further accommodation. The situation then becomes abnormal and in the competition for money, the rate rises to an advance to a peak level, often 20 per cent, and then falls to 10 per cent, or 12 per cent. However, in the case of the October disbursements are being arranged, the rate has not risen to 10 per cent, and the first week in October call money touched 2 1/2 per cent, 1904, 4 per cent in 1902, 3 per cent in 1901, 4 per cent in 1900, 5 per cent in 1897, 6 per cent in 1896, and 3 per cent in 1895.

SUPREME COURT

October Sitting Opened Yesterday Before Justice McLeod.

The October sitting of the Supreme Court opened yesterday in the court house, Chief Justice Tuck presiding.

The cases of Galbraith vs the City of St. John, Connolly vs the City of St. John, G. V. McInerney for plaintiff in each case, and C. N. Skinner for defendant; and Maudie K. Kennedy and Maudie v. DeBury were made remanded.

The case of Nelson vs the Portland Rolling Mills Co. will come up tomorrow morning at 11 o'clock, the court having adjourned until then.

Judge Landry has granted leave to appeal to the Supreme Court of New Brunswick from the decision of Mr. Justice McLeod in the Cushing Pulp Mill case. The case will therefore come before the court at the November sitting.

As the court has already taken a position on the case, it is unlikely that there will be much argument. In all probability the previous decision will be affirmed, and then the matter will be in a position to be placed before the Supreme Court at Ottawa.

Just Common Sense and ARMOUR'S EXTRACT OF BEEF

will simplify many household difficulties, reduce your table expenses, and add several dishes to your daily menu without additional expense.

"Culinary Wrinkles" tells how to use Armour's Extract of Beef in the kitchen, at the dining table, and in the sick-room. Sent postpaid on receipt of name and address and a metal cap from a jar of Extract of Beef. Sold by druggists and grocers.

FOR MORE FACTORIES

It is encouraging to learn that the board of trade will look into the question of cheap power for factories, along the lines suggested by William Thomson & Co. Mr. W. S. Fisher made the statement at yesterday's meeting of the board that it was quite certain cheap power would bring a number of small manufacturing enterprises. The city greatly needs more work, a larger distribution of wages, better business for the stores and more revenue for the city.

The question of converting the tremendous tidal energy of the reversing falls into industrial power has often been debated. It is an engineering question, and the Times does not know to what extent the immense force might be utilized. This is the first question to be settled, on competent authority. If that energy can be utilized it seems obvious that the tides of the Bay of Fundy could be converted into similar force. The writer remembers to have read somewhere of an actual case on the Pacific coast where an American did convert tidal energy into industrial power.

The St. John board of trade has very properly decided to consider this question, and it will doubtless have the hearty cooperation of the city council. One of the best means of keeping our young people at home is to offer them profitable employment. For this, we need more factories.

DR. DRUMMOND

The atmosphere in which Dr. Drummond takes his audience diffuses a charm which is all-pervasive, and which lingers when the spell is broken by the return to the world of common things. For it is an uncommon world, touched by the kindly rays of genius and idealism, into which they are ushered, and where for a season they dwell content. It is a cheerful world, whose quaint philosophy appeals to the mind; and yet there is the subtle reminder note of pathos, which is inseparable from all human experience. It thrills with the joy of living, the pride of strength, and the pleasure of attainment; but through it also moves the Cure on his errands of mercy, the bells ring out the call to worship, and over all Le Bon Dieu. It is a world of simplicity, arrayed by the gentler passions, with the baneful features of life transmuted into softness by the poet's alchemy. One feels the mighty rush of the rapids, and the strong grip of the north; but floats on into quiet waters that wind among the meadows, where birds are singing in the trees. Dr. Drummond's characters live close to the heart of things, and, whether their mood be grave or gay, we welcome them and their philosophy of life. They are later apostles, who preach the gospel of a large content, in a world that is money and pleasure-mad. Dr. Drummond has no peer in his chosen field of artistic effort, and, in the midst of political agitation which is sometimes envenomed by race prejudice, we extend the cordial hand of welcome to our old friends, Johnny Courteau and the Cure of Calumette, and those newer acquaintances, the Voyageurs.

OUR GREAT PROBLEM

The most serious problem the maritime provinces have to solve is that of retaining their native population in the face of the call that comes from the west, and to develop such new lines of enterprise and activity as will offer to young men the prospect of success in the home field. The Toronto Globe a few days ago discussed this subject in a timely and discerning way, and the article will appeal with force to the readers of papers in these provinces. The Globe says:— "A good deal is being said these days about the success achieved in the west by young men from Ontario and the maritime provinces. For the most part what is said is quite true. But would not success quite as satisfactory in the long run have been possible for those same young men had they remained in the home provinces? How much of that success is due to the larger chances in the west, and how much to a new start and a fresh enthusiasm? In the east those young men were settling down, or might have settled down, in the rut and humdrum of life on the farm or in the town. They broke away from the outgrown conditions, and that very effort gave them new spirit and initiative. Had they remained in the situation at home, the undeveloped possibilities, the new lines of enterprise, the effect of modern methods on old conditions, and had they gathered up their scattered energies and put their strength into their work with the intelligence and unreserve they displayed in the west, they might have found ample scope and large rewards.

"There are chances, unused and unappreciated chances, in the east as well as

in the west, and the young man who has the eyes to see, the strength to do, and the courage to abide his time, will find life in older Canada big with opportunities that do not disappoint. What is needed, alike in rural and town life, is something of the enterprise and enthusiasm which young men manifest when they find themselves in the new conditions of a new country. Fathers owe it to their sons to afford outlet and scope for that enterprise and enthusiasm in the management of the old farm or the running of the old factory. The east needs it, and must have it if it would not be drained of its best blood. And young men of caliber and character would find the chances of the east worth while.

SENATOR PROCTOR'S GIFT

The state of Vermont is to have a hospital for tuberculous patients. The institution is the gift of Senator Proctor, who is quite a frequent visitor to New Brunswick, and is understood to be interested in some properties in the neighborhood of Grand Falls. The story is told in the following despatch of Thursday's date from Burlington, Vt.— "The erection and endowment of a state tuberculous hospital by United States Senator Redfield Proctor was announced yesterday by Dr. W. M. Bryant of this city, the secretary of the State Tuberculosis Commission. In a letter to Dr. Bryant, Senator Proctor stated that he would furnish the site, erect the building at a cost of not less than \$50,000, and endow the institution with a fund of \$50,000, the interest to be used in its maintenance. The offer of Senator Proctor is made, he says, at the request of his children. He desires that the hospital shall be managed by a state commission and that the governor shall be a member of the board. The hospital will accommodate twenty-five or thirty patients."

A London, Ont. barrister, on behalf of himself and other members of the Royal Arcanum, took action to restrain the society from enforcing increased contributions, and for a declaration that amendments made by defendants to their rules were ultra vires, and a breach of contract. The court held "that there was power to make changes in the by-laws governing the plaintiffs contract with the order; the changes made were necessary, and were within the powers of the society, and those changes have been properly effected, according to the laws governing plaintiff and defendants, and are, therefore, binding on plaintiff."

In all the churches in Hamilton, Ont. last Sunday, an appeal was to be made in behalf of a sanitarium for consumptives, and each congregation is to appoint a committee of five to act with a general committee canvassing for funds to establish the institution. Nothing has been said of late concerning the proposed New Brunswick sanitarium, but doubtless the Medical Society committee is actively at work in connection with this much needed hospital.

Secretary Wilson of the American department of agriculture offers the congratulatory public of the United States a grain of comfort for the coming winter. He predicts lower prices for meat, dairy products, poultry and other necessities of life. He says the relief for the householders will come from the enormous yields of small grain and corn in the great grain territory of Illinois, Minnesota, the Dakotas, Iowa, Nebraska and Kansas.

Since Jan. 1st, 1902, the city of Winnipeg has laid over thirteen miles of asphalt, nearly seven miles of macadam, four and a half miles of block pavement, nearly twenty-seven miles of artificial stone sidewalk, and over fifty-four and a half miles of plank sidewalk. It has laid 44 miles of sewers, 50 miles of water mains and 29 miles of graded streets. This is a wonderful record for less than four years.

OUT OF THE FOLD

The Wilbur Stock Company presented "Out of the Fold" in the Opera House last night before a large and appreciative audience. The company is strong throughout. Fred C. Stein, as Long Jim, a sheep herder, is one of the principal figures in the cast, while Miss Isabel Pitt Lewis, as Helena Grey, the leading lady is seen to advantage. Tony Tomkins, played by Chester Cook, keeps the audience in roars of laughter, while Jessie Bell, as Susanne Tomkins, adds greatly to the amusement of the audience. Philip S. Connor plays the part of the young school teacher very acceptably. The company introduces excellent specialties between the acts and during the performance. Each night the dancing of Chester Cook and Jessie Bell makes a decided hit.

COUNTY COUNCIL

St. John, N. B., Oct. 3, 1905.

Gives Authority to Lancaster Highway Board to Order up Street Railway Rails.

The municipal council yesterday gave to the highway board of Lancaster permission to remove the rails of the street railway company in that parish in the event of the company not furnishing a proper service. There was considerable discussion and voluminous correspondence between representatives of the council and railway company after which Council resolved that the master of compelling the St. John Street Railway Company to operate their cars in the parish of Lancaster in the city and county of St. John for the purpose of furnishing sufficient and proper service at all seasons of the year for the accommodation of the public as required by law, and also the master of any extension of said railway in said parish of Lancaster with power to act. And further resolved, that in case of neglect or refusal on the part of the said company to provide and maintain such service, then and in such case the highway board is hereby authorized and empowered to take whatever steps may be deemed necessary to have the rails belonging to the said company removed from the highways in said parish upon which the company's rails are laid. The resolution was unanimously carried. Regular reports were received and considerable routine business done.

HOW IT WAS YEARS AGO

Before the Natural History Society last evening, Dr. G. F. Matthews in a very interesting address took his hearers back in imagination to a time when palms and other tropical plants beautified the country now a waste of ice in the polar regions. It was the first meeting of the society now a waste of ice in the polar regions. It was the first meeting of the society now a waste of ice in the polar regions. It was the first meeting of the society now a waste of ice in the polar regions.

Dr. G. F. Matthews' address was on the Vegetation of the Earth in the most Ancient Times and in Relation to Climate. Explorations in the Arctic regions had, he said, among other things, resulted in the discovery of buried remains of ancient vegetation, from which it is plain that the climate of the Polar regions was once tropical. Palms and various other tropical productions flourished there. Now the temperature has fallen so low that only moss and turf or bare rocks are found. The refrigeration is a gradual process, and the tropical plants were slowly driven south to where the climate remained congenial. Many of these, like the poplar, the redwood of California, and the Cypress of the Carolina swamps first flourished in Greenland, whence they have crept southward.

Dr. Matthews took up the subject of the botanical stiffening of the fossil plant of the fern ledges in Carleton. Many of these, he said, have long been regarded as ferns, but late studies of similar kinds of the coal measures have led to the discovery that these are plants of a higher order, viz: fruit-bearing trees and shrubs, and that plants of that early order were of much higher organization than has hitherto been thought, the supposed ferns being sprays of leaves and branches that have fallen from such trees as modern trees now cast their leaves in the autumn. A paper by Mr. Ganong that was to have been read, was held over at his request.

TO COLONIZE THE WEST

Foresters Organize a Company to Assist Western Settlers.

A Winnipeg despatch says:—The Western Canada Settlers' Mutual, a strong land colonization company organized under the auspices of the Independent Order of Foresters, held its first meeting in the city, today. The officers and directors elected are as follows: Chairman of the board, Dr. Oronchotabak; President and General Manager, Hon. W. H. Montague, ex-Minister of Agriculture for Canada; Vice-President, Sir Daniel McMillan, K.C.M.G., Lieutenant-Governor of Manitoba, and Hon. Geo. W. Ross, M.P.P., Toronto, and Premier Roblin; Executive Committee, Chairman of board, Lieutenant-Col. James McMillan, M.C., Toronto; directors, His Honor Lieutenant-Governor Forget of Saskatchewan, Mr. John Dryden, Hon. W. J. Hanna, (Provincial Secretary), Hon. George E. Foster, M.P., H. N. Kitton of Hamilton; Secretary-Treasurer, Geo. A. Fraser. The company's policy is to bring young farmers from different parts of Canada and the United States and elsewhere and give them exceptional opportunities, on easy terms, to make homes for themselves in the rich wheat belt of the west. The capital is \$1,000,000, but the company are applying for authority to increase this to \$2,000,000.

THE IRISH GUARDS BAND

Charles H. Wheeler, one of Canada's foremost musical critics, writing of the Irish Guards band, says:— "Sousa himself, with all his vast experience in pleasing audiences, has not produced a better programme than that presented by Mr. Hassall. It was a veritable feast of melody, with a counterblast of descriptive music in which the dramatic inspiration of Rossini in the William Tell overture, the rugged eloquence of Liszt in his Robespierre overture and the sonorous power of Wagner exhibited in the Tannhauser overture formed the leading features. "The writer has heard scores of military bands and others play the "Tell" overture, but Mr. Hassall and his musicians beat them all. Such a magnificent interpretation has never before been heard in Canada; and this is praise emanating from a warm admirer of the Grenadier Guards band. Mr. Hassall's consummate phrasing, backed up by the wonderful adaptive abilities of his bandmen, enables him to produce tonal combinations hitherto unknown in Canada, giving facile expression to the most complicated modulations.

BILIOUS BRITANS BUNCOED BY BEAUTIFUL BILE BEANS

How Two Smooth Gentlemen Made Money Out of a "Cure" All on the English Market—Did Not Venture It On This Side.

Glasgow Weekly Herald, Sept. 6. The court of session on Tuesday, judgment was rendered in a note of suppression and interdiction by the Bile Beans Manufacturing Company (Limited), Greek street, Leeds, and Charles Edward Fulford and Ernest Albert Gilbert, the partners of that company, against George Graham Davidson, chemist, 1 Pulwarth Place and Tollrose, Edinburgh. The object of the action was to have the respondent interdicted from selling under the name of "Bile Beans" any pills or other articles not made or supplied by the complainants. It was not a proceeding for the protection of a registered trade mark, but for the protection of the complainants' trade and of a trade name at common law.

BY BUSINESS MANAGEMENT

The State-Owned Railways of Victoria, Australia, Wiped Out Their Deficit.

(Toronto World) There is a lesson for Hon. H. R. Emmerson in the history of the state-owned railroads of Victoria, Australia. Victoria like Canada, suffered deficit after deficit in its operations of its railways. Of its \$100,000,000 public debt, no less than \$100,000,000 was incurred in railway construction and railway operation. Failing revenues and increased operating expenses had become a settled condition of affairs when the government of Victoria decided to eliminate politics from the management of the road and place it in charge of a recognized railway expert. Thomas Dait, formerly superintendent of transportation for the C. P. R., was chosen, and the practical results that followed not only proved

W. H. MURRAY LAID TO REST

Body of St. John's Late Lumber King Taken to Springhill This Morning—Very Large Funeral.

A large number of citizens paid their last tribute of respect to the memory of the late W. H. Murray this morning. After a short service at the house, 170 Douglas avenue, the remains were taken to the station and conveyed by special train to Fredericton, and thence to Springhill for burial.

Some little time before the hour set for the service people began to assemble to view for the last time the familiar features of St. John's most prominent lumberman. The body, which had been embalmed, was enclosed in a heavy hand-carved casket of solid oak, with silver handles and extension base, and lined with white puffed satin.

After the service, which was simple but very impressive, consisting only of the reading of a portion of St. Paul's epistle to the Thimotheans, and a few appropriate collects, the remains were borne from the house by eight of the oldest employees of the Murray & Gregory mill, and the cortege formed containing relatives of the deceased, employees of Murray & Gregory's mill, pall bearers, Rev. G. A. Kuhnring, Rev. P. P. McKim, and N. Louis Brennan, Heane, mourners, lumbermen and the general public.

The chief mourners were E. S. R. Murray and J. Fraser Gregory. The remainder were Judge Gregory, A. J. Gregory, Geo. Murray, Hon. James Holly, A. W. MacRae, and James Pender.

The bell at St. Luke's church tolled out solemnly as the long procession passed down Main street. On reaching the station the body was removed from the hearse and placed in the rear car of a special train. The car which was reserved for the body and mourners was draped with large purple ribbons.

The train consisted of a baggage car, two first-class coaches and the funeral car, and was in charge of Conductor McGovern, and left for Fredericton about 10:30 o'clock.

Among those who occupied the special car were J. Fraser Gregory, Judge Gregory, E. S. R. Murray, Geo. Murray, Rev. R. P. McKim, A. W. MacRae, A. J. Gregory, James Pender and N. Louis Brennan, besides relatives of the deceased.

Among others going from the city were Robert Farmer, A. Edge, A. B. Holder, Charles Miller, John E. Moore, Neil McLean, A. P. Bernhart, F. C. Beattie and George Cushing.

At the funeral train passed through the city as a mark of respect to the memory of the deceased lumberman. Mr. G. A. Kuhnring, rector of St. John's (Stone) church, who conducted the service at the house, accompanied the remains to Springhill where he will perform the last sad rites.

Although it was requested that no flowers be sent, many handsome tributes arrived at the home of the deceased. Among them were a large bunch of white lilies and amilies, tied with a large purple bow, from Mr. and Mrs. J. Fraser Gregory; large bunches of lilies, amilies, tube roses, asters, phlox, amilies and arbutus, with the word "brother" in purple letters from the brother and sister of Mr. Murray; cross of lilies, roses, asters and stocks, with the word "Uncle" in the same, in purple letters, from his nieces and nephews; large bouquet of crimson roses from G. S. Cushing; large red and white lilies, asters, phlox, amilies and arbutus, from Messrs. Holly and Sons; large bouquet of lilies, asters, phlox and arbutus, tied with white satin, from Mrs. James Holly. Many private bouquets were sent by friends.

WHERE IS MORGAN? Young Man Arrested for "Lying and Lurking" Broke Away from Police and is Still at Liberty.

Last night between eleven and twelve o'clock Officer Finley looked up a young man for lying and lurking in a yard off Carmarthen street, and not giving a satisfactory account of himself to the police. The young fellow was placed in the British street lockup.

As is the custom, all prisoners are brought up to central in the morning, and that morning about 9:30 a. m. Officer Totten and the young fellow wended their way in solitude from the lockup en route through Queen square. Suddenly he wrenched himself from the officer's grasp and ran. The young man would not divulge his name, so the story goes, in the lock-up, but when being pursued he shouted "my name is Morgan." So it is that "Morgan" appears on the police books this morning, but there is no Morgan at the receiving end.

CONDENSED ADVERTISEMENTS (Too Late For Classification.)

ISAAC BURPEE, VICTIM OF FORMER PARTNER'S SPITE

Vindication of St. John Man Who Was Arrested in St. Louis on Charge of Embezzlement and Taken Back to Dawson—He Was Acquitted and Now His Complete Innocence is Proven.

(Fredericton Herald.) More than a year ago despatches to eastern newspapers from Dawson noted some difficulties into which Isaac Burpee, formerly of St. John, and well known in Fredericton, was alleged to have fallen through the action of his business partner, having him arrested at St. Louis on the charge of embezzlement and fraud. Mr. Burpee returned to Dawson to face the charge and was promptly acquitted by a jury of his fellow citizens.

An confirmation of the report to that effect which had already reached the Herald, we are pleased to be able to reproduce the following from the Yukon World of Sept. 17: "An advertisement in another column signed Mr. Burpee was intended to show a big miscarriage of Canadian justice. Three coaches containing A. J. Gregory, Isaac Burpee and E. Shoff. The nature of the charges against Burpee in connection with the business. The date of the dissolution of partnership Mr. Burpee was on the outside. The year after the dissolution of partnership Mr. Shoff, partner in Dawson, laid a charge of embezzlement of twelve thousand dollars against Burpee in connection with the business. Extortion papers were applied for, but were refused. However, on another criminal charge, that of embezzling six hundred dollars, the extradition process was allowed, and on May tenth of that year Mr. Burpee was arrested in St. Louis and brought back to Dawson. In all he was in confinement until Sept. 6th, 1904.

Burpee was tried before Mr. Justice Macaulay, who found him not guilty of the charges preferred against him, and ordered his release. At the trial it was admitted that Burpee had merely pressed in order that Burpee could be brought back and made to face the other charges.

Before Burpee was acquitted Shoff started a civil suit for the recovery of the twelve thousand dollars, which he claimed Burpee had in connection with their partnership. In October, however, the charge on which the extradition process was issued was merely pressed in order that Burpee could be brought back and made to face the other charges.

February last Burpee took a land in the game of the employees of the Canadian Pacific. There was considerable crossing and finally an agreement was reached that the whole matter of the partnership would be referred to F. W. Maddam, the expert accountant of the N. A. T. & C. Co. He was instructed to investigate the books and to go into the matter with the utmost thoroughness and find just how the partnership stood in regard to each other. Mr. Maddam finished his work yesterday. There were on the books some gross charges of over eighteen thousand dollars. A considerable portion of this was written off to profit and loss. After large allowances were made for a considerable sum of money was still due to Mr. Burpee from Shoff, and responsible for the same. The acknowledgment printed in another column.

Mr. Burpee and his friends are naturally jubilant at his complete vindication. There is still a feeling that Mr. Burpee has been wronged and that a whole year of his time will be joined at Norton this evening by Messrs. Reid and Young, who in the meantime will be known about the city by members of the board of trade.

NOVA SCOTIA SCHOOLS. A Halifax despatch to the Toronto Globe says David Solano, principal of the Provincial Normal School, has written a letter stating that the statements about the Nova Scotia schools made to the Toronto News by Rev. Clarence Mackinnon of Winnipeg, who Mr. Solano says, "has been imposed upon by a man who is a Catholic." He says that he has heard nothing of "demanding a separate normal school" nor has he heard of "many concessions in regard to the management of the normal school. Principal Solano has endeavored to adorn the walls of the school with reproductions of works of art for the inspiration and instruction of teachers, and among the number representing modern and other schools is a photographic reproduction of Titian's Assumption of the Virgin. That is all there is in the story.

ATE JUNE BUGS AND DIED. AMHERSTBURG, Ont., Oct. 4.—(Special)—During the past week one hundred houses have died in this neighborhood. The farmers at first were unable to account for the cause of the epidemic, but now they are convinced that the June bugs, which mixed in the hay, caused all the trouble.

PERSONAL INTELLIGENCE. Richard O'Leary, of Richibucto, arrived in the city last evening on legal business and is the guest of his brother-in-law, Geo. V. Melnerney, K. C., King street east.

Mrs. W. F. Harrison and Walter Harrison left last evening for Hamilton (Ont.) George Foley, manager of Carling's branch here, went to Montreal last evening. Andrew Jack left last evening for Boston.

Frank Peters, of C. H. Peters Sons, left last evening for Montreal. Robert Connolly, of Great Salmon River, was at the Dufferin yesterday.
