

ST. JOHN N. B. FRIDAY, MAY 1, 1914

To Cease Firing Now

Truce Between Huerta And The United States

ARRANGED, IS REPORT

Now to Get Carranza to Rest on His Arms is Mediators' Aim—War Appropriation at Washington—Aviation Corps Proves Usefulness in Map Making

Washington, May 1—With the declaration of a truce between Huerta and the United States government, interest centered today in whether Carranza, the rebel chief, would resolve himself into the keystone of a diplomatic arch, designed to bridge the whole problem of the pacification of Mexico and its international complications.

War's First Shot Pierces Heart As He Hoists The U. S. Flag

George D. Poinsett, just coming into manhood, an able seaman from the United States battleship Florida, was the first killed in the struggle of the United States in Mexico.

HOME RULE

General Trend Towards Settlement But Extremists Dissatisfied

London, May 1—Though owners for a peaceful solution of the Ulster problem are, on the whole, favorable, angry patriots are still making angry settlements. The Unionist party is willing to accept the total exclusion of Ulster as an alternative to civil war, but the Nationalists still refuse to go beyond the six year limit.

MANITOBA ELECTIONS THIS YEAR PROBABLE

Member of Roblin Cabinet Makes Announcement in Montreal

Montreal, May 1—Hon. Joseph Bernier, M. L. A., for St. Boniface, and provincial secretary in the Roblin cabinet, before leaving last night for the west said: "There is a probability of an appeal to the people during the present year. The most convenient season for an election in our province is between seed time and harvest but as yet there is nothing definite."

GERMAN AERONAUTS GIVEN SIX MONTHS IN RUSSIAN PRISON

Berlin, May 1—Hans Berliner, the German aeronaut, who was made a prisoner at Kirgischank, Russia, last February, when he came to earth at the end of a balloon trip from Bitterfeld, Germany, and the two passengers who accompanied him, have been sentenced by the Russian authorities to six months solitary confinement.

PIANO PLANT BURNED

Auburn, N. Y., May 1—All but the east wing of the Wegman Piano Company plant was destroyed by fire here today with a loss of \$125,000.

THIRTEEN BODIES FOUND

Beckley, W. Va., May 1—Rescue crews last night assembled thirteen bodies at the foot of the shaft in mine number five, of the New River coal company and today continued their work of exploration in the hope of locating all of the 172 men who, it now seems certain, lost their lives in the explosion last Tuesday afternoon.

WEATHER BULLETIN

Issued by the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Fair weather prevails over the dominion, attended in the provinces, by comparatively good conditions. Frosts were almost during the night from Ontario northward.

AUTO THROUGH STORE WINDOW

Smash in Mill Street at James McDade's Place of Business

As a result of a peculiar accident in Mill street a little after noon today, one of the plate glass windows in the store of James McDade, tinsmith, was demolished and an automobile owned by E. J. Heatt, proprietor of the Hygenic Bakery, and driven by his son, received some slight damage.

AMERICAN CONSUL IN P. E. I. LEAVES FOR CORK

Presentation by Citizens—Increased Grant For Exhibition—Fair Will be Held September 22 to 25

(Special to Times.) Charlottetown, P. E. I., May 1—Wesley Frost, the American consul here for the past two years, left this morning for his new post in Cork, Ireland. Mr. Frost has done much to make the resources of the island known through the medium of his consular reports, many of which have been given wide publicity.

L. C. R. PRESENTATIONS

Gifts and Good Wishes For James Golding and Edward Russell

Two interesting features marked the day's work in the L. C. R. round-house yesterday when two old members of the staff, held in high regard by their associates, were leaving with superannuation privileges—James Golding, night foreman, and Edward Russell, locomotive fitter.

FREDERICTON NOTES

Fredericton, N. B., May 1—Dwelling houses to rent are very scarce here and consequently there is less moving than usual.

BURIED TODAY

This afternoon the funeral of Mrs. Agnes P. Watson was held from her late residence, 16 Peters street. Services at the house were conducted by Rev. J. H. MacVicar, D.D. Interment was in Fernhill.

## & Practical Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

**FOR A LITTLE LADY.**

ent day fashions lose none of their chic by their simplicity. Neat and becoming is this little frock in plain linen, trimmed with a front panel of striped linen and a broad box-pleat at the back. It is inexpensive to make up, only 3 yards of 36-inch or 3 3/4 yards of 44-inch material being required for a girl of average size. Tots under 4 require about half this amount of goods.

The pieces of the pattern can only be placed on a lengthwise fold of the material where it is 44 inches wide or over. If the linen is single width, then arrange the pattern on a lengthwise thread. If a short sleeve is preferred, cut off the lower part of the sleeve small "oo" perforations. The neck can be finished in round effect instead of with a standing collar, if desired.

For the making, first turn under the edges of side front on small "oo" perforations, notches open, and stitch, leaving edge to left of center-front free above large "oo" perforation in front for opening. Form box-pleat at center-back, bringing together and stitching along corresponding lines of small "oo" perforations leaving pleat free below large "oo" perforation and press. Close shoulder-seams, indicated by four notches. Turn under edge (forming sleeve) on double "oo" perforations, lap on sleeve to small "oo" perforations, notches open, and stitch. Close under-arm, extension and sleeve seams as notched. Pleat extension, creating on slot perforations lap to small "oo" perforations and press. Turn hem at lower edge of dress on small "oo" perforations. Stitch straps of material to position at under-arm seam between small "oo" perforations in back to pass belt through. Large "oo" perforation in belt indicates center-front. Turn under edges on slot perforations and stitch. Sew collar to neck edge as notched.

Scotch gingham may also be used for this model, in which case the front and belt should be of plain gingham or linen.

Allan liner Grampian is due at Quebec Sunday, Montreal Monday. Donaldson liner Saturnia will be docked upon her arrival in England as it has been learned that she sustained more serious damage than at first supposed in scraping the Lower Traverse Bar on way to Montreal.

farms in the maritime provinces conducted by the Commission of Conservation. Mr. Elliott has been visiting the farms under the direction of the commission, in Carleton county, and, incidentally, has addressed four public meetings there.

**WARNING TO FARMERS**

at New Brunswick potatoes will be admitted to Ontario or the other parts of the dominion next year unless powdery scab is entirely eliminated that the farmers of New Brunswick are making little or no effort to stamp out the disease, was the information given to The Evening Times last evening by Andrew Elliott, veteran farmer and treasurer, and at present engineer of the demonstration.

**WHEN NOTHING TASTES GOOD TO YOU**

You eat simply because you must. You are troubled with dyspepsia. It makes your life miserable. You have a bad taste in your mouth, a tenderness at the pit of your stomach, a feeling of puffiness, fullness, headache and heartburn, and sometimes nausea. Ask your druggist for Hood's Sarsaparilla. It acts on the stomach through the blood and also directly. Its beneficial effects are felt at once. It makes the rich red blood that is needed for perfect digestion.

**LORD MURRAY VINDICATED**

London, April 30.—The committee of the House of Lords appointed to investigate Lord Murray's dealings in American marconi shares, today issued its report which finds that he committed "errors of judgement."

There was, however, "nothing in his conduct which reflects upon his personal honor."

**LOCAL LABOR NOTES.**

The matter of a union of St. John street railway employees is said to be nearing definite decision. Mr. Sinclair, organizer, is here from Toronto.

Leon Worthall, traveling organizer for Canada for the Journeymen Barbers' International Union of America, last evening addressed a meeting of the barbers held in Oddfellows' Hall.

Louis Beaulieu, organizer of the National Railwaymen's Association, which is forming co-operative societies for supplying their members with the necessities of life, has organized a committee in St. John and subscriptions for stock in the new society will be solicited among railwaymen and trade unionists generally.

The... years old... what is called the... years in the penitentiary, commits a... of crimes within a month of his... from the last named institution, that are punishable by terms of imprisonment aggregating the balance of his natural life, it is not strange that thought occurs to thinking people—Does the reformatory reform, or the penitentiary bring penitence? Does not the importance of conserving the youth of this community appeal to our people? Why allow the Fred Thibideaus and the Wm. Gagniers to develop their criminal propensities when a little care, a little thought, a little effort would make of them, upright, useful citizens, instead of menaces to the safety of the country?"

Boys 4,000 Square Miles

**ANYONE CAN DYE THEIR CLOTHES WITH DYOLA**

The Dye that colors ANY KIND of Cloth Perfectly, with the SAME EYE.

No Change of Machine, Class and Method. Ask your Druggist or Dealer. Sold by Post, The Johnson-Richardson Co., Limited, Montreal.

**CLOGGED NOSTRILS OPEN AT ONCE, HEAD COLDS AND CATARRH VANISH**

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Dull Headache Goes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages, stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

NOT PROTECTION BUT PURE PIRACY

Opposition Comment On The Government Policy

AIMING MONOPOLY

Vigorous Attack on Proposals To Increase Duty on Stone and Iron—Tories Stand Pat on C. N. R. Proposals

Ottawa, April 30.—Tariff matters again engaged the attention of the commons today, the resolutions of the minister of finance covering the changes made in connection with the budget statement being disposed of. The most prolonged debate occurred in connection with the increase of fifteen per cent. duty on the more highly finished classes of stone. It was maintained a number of Liberal members that change in the duty would be of no benefit to the small quarriesmen or the miners, but would be to the advantage of the big concerns only. Hon. Oliver, who was particularly insistent in his structures, said that the proposals were going beyond protection and becoming pure piracy. Hon. W. T. White said that the result of the changes would be that much more stone would be finished in Canada. This would mean more employment for Canadian stone cutters, and a longer season. Many who now walk the streets in the winter months would have employment. He denied that the duty was prohibitive and that a monopoly was likely to be established.

this afternoon, in reply to J. H. Sinclair, of Guyabow. During the year ended March 31, 1918, said Dr. Reid, the I. C. R. carried 5,308,469 tons of freight, of which 2,183,064 tons was eastbound and 3,125,405 tons westbound. Of this total 2,698,024 tons originated in Nova Scotia, 99,808 tons being received at seaports. The freight tonnage which originated in New Brunswick was 799,894 and that which originated in Quebec 1,008,460 tons. The gross passenger revenue received in Nova Scotia was \$1,128,640; in New Brunswick, \$970,848; in Quebec, \$844,788.

Hon. L. P. Pelletier informed F. B. Carvell that the post office department purchased a new automobile on Dec. 16 last for use in Ottawa in connection with the department. The price of the car was \$4,950. At the opening of the house a number of Conservative members rose on questions of privilege to complain of an article in the Toronto Globe which stated that they were in opposition to the government proposals with regard to the C. N. R. They all denied this allegation and declared their sympathy with the stand that had been taken. Those who rose on this question were: John Fisher, of Brantford; J. A. M. Armstrong, of North York; William Smith, of South Ontario; H. J. Walker, of East Northumberland; Donald Sutherland, of South Oxford; John Best, of DuFurn, and E. N. Rhodes, of Cumberland (N. S.).

Tariff on Building Stone. Consideration was then resumed upon the tariff schedules. There was a lengthy discussion over the changes which are being made in building stones. The

minister of finance explained that these changes were being made at the request and in the interests of the Canadian stone-cutters who held that they should be given the opportunity of doing the finishing work on stone used in Canada. Mr. White pointed out that the duty had not been increased on rough stone or on stone which was sawn upon both sides. He thought it was a wise tariff policy that put the raw materials at low rates so that the work of finishing and manufacturing might, as far as possible, be done by Canadian workmen.

A. K. MacLean, of Halifax, expressed the opinion that it would be in the interest of the consumers to have all stone on the free list whether rough or finished. Hon. Mr. White replied that the quarry workers and the stone cutters would certainly hold a different view from that. The minister went on to say that strong, earnest and convincing representations had been made by the quarry workers and stone men, who maintained that the existing duties do not afford them proper protection.

J. G. Turfitt said that the more this matter was discussed, the more it became apparent that the increase in duty had been made for the benefit of the small quarry men and the consumer had not received any consideration. The higher duty would increase the cost of building with the probable result that less stone of this class would be used than now, and there would be less instead of more work for stone cutters. Mr. Carvell expressed the belief that the new duty would be prohibitive, and that in a very short time the result

Distress of Mind From Nervous Exhaustion

Fear of Insanity—Dread of the Future—Depressed Spirits Disappear When Dr. Chase's Nerve Food is Used

You may be accustomed to think of physical suffering as the greatest to which man is subjected. This is not so. Compare the sufferings of a man with a broken leg, for example, with the mental anguish of the nerve-racked patient who lives in constant dread of some terrible calamity or of losing his mind. Nothing can be more horrible to contemplate. Is it not right, therefore, to consider that no suffering is comparable to the anguish experienced by the victim of diseases of the nerves. You will read here the experience of a nurse who feared for the loss of her mind, so greatly were her nerves exhausted. She is now enthusiastic in praising Dr. Chase's Nerve Food to her patients. Mrs. R. J. Billings, nurse, of North

would be the organization of a combine which would increase prices. Geo. H. Bradbury expressed himself as being in favor of the increased duty. Most of the western quarries, he said, are in his constituency. He had asked Mr. Fielding to increase the duty but without success. As a result finished American stone had entered the west in such quantities that the number of stone cutters employed in the Selkirk quarries had been materially decreased. He agreed that a duty should not be prohibitive and did not think the new duty could be placed in that category. Hon. H. R. Emmerson made representations on behalf of quarry men in New Brunswick and at Montreal. These representations were to the effect that the tariff changes made by Mr. White would not help the Canadian quarry men but only the stone cutting industry. Mr. Emmerson stated that he was speaking on behalf of correspondents and not ex-

Dr. Morse's Indian Root Pills

are just the right medicine for the children. When they are constipated when their kidneys are out of order when over-indulgence in some favorite food gives them indigestion when their stomachs are upset. Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe, like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They

Parsons' Pills relieve constipation and headache

Further Increase in Iron Duty

As regards the increased duty the finance minister said that he had been assured by the Algoma Steel Corporation that if the duty were increased to 87 per cent as soon as they were in a position to turn out structural steel, they could obtain the necessary capital to enlarge their plant so as to produce this product. Assurances had also been received from the Dominion Iron & Steel and Nova Scotia Steel Company to this effect.

When the clause relating to the duty on wire rods was taken up, W. S. Loggie, of Northumberland (N. B.), expressed the fear that this would result in placing the entire nail trade in the hands of the Dominion Iron & Steel Company and the Steel Corporation of Canada. These two companies, he said, made seventy per cent of the nails output of the Dominion. He predicted that this would increase the price of nails by fifty per cent and would take three-quarters of a million extra out of the consumer in the course of a year. Mr. Loggie thought this could be prevented if the minister would reduce the present duty on nails. It would prevent a combine being formed.

HERE'S SOME FOX LORE (Summerside Pioneer.) In a ranch at Belem on the very day a litter was born the young foxes—four of them—were taken from the mother. And the pups are now growing splendidly. The same thing happened at Tryon. We are credibly informed, too, that in Newfoundland it is a common practice to exchange litters to give the kittens to the mother fox and give the pups to the mother cat. So the instincts of motherhood are satisfied on both sides. Are we approaching a revolution in the fox industry? It looks like it. It may mean in the future that every female fox that has once lost her litter will never again be trusted where she will be watched day and night until she produces the litter. The moment that litter is born it will be taken from her and handed to the mother cat—a cat in proper physical condition to suckle it. Such a cat, or boy of cats, must become a valuable adjunct to every fox ranch.

To clean windows easily first wipe thoroughly with a dry cloth. Then rub with a chamomile skin brush, being very out of cold water. No further polishing is needed.

The Popular Science

May opens with an article by T. MacDougal, of the Department of botanical research of the Carnegie Institution of Washington. He describes the work done in the laboratory and elsewhere.

Professor William Marshall, of Purdue University, describes the theory of relativity and the new mechanics, a departure which is thought by some to have revolutionized the science of physics. The difficulties of the small college and the autocratic rule applied by its president are described by a professor who is one of them, who withholds his name. Professor Charles F. Emerick, of Smith College, describes the struggle for equality in the United States, in relation to the courts and property, and Professor J. J. Stevenson, of New York University, the conflict between capital and labor. Dr. J. A. Udden, of the University of Texas, discusses the way in which science is treated by the newspapers. Professor C. W. Alvord, of the University of Illinois, considers the extent to which history may be regarded and treated as a science. Dr. R. W. Shufeldt, of Washington, contributes an illustrated article on the Laboratory of Comparative Pathology of the Zoological Society of Philadelphia.

There are shorter articles on The American Museum of Natural History, The Marvels of Science and on the Quarantine of Hawaiian Fruit.

## RECENT DEATHS

The death took place yesterday morning, after a paralytic stroke, of Mrs. George L. Evans, Martine. She had been stricken on Sunday, though she had previously been in the best of health. Born in Carleton, she was 55 years of age and leaves a husband, one son, James, and one daughter, Miss Ethel. There are three sisters in New York and one in Boston. Mrs. Evans was a member of St. George's church, Carleton. A service will be held at the house this morning at 10 o'clock and the body will then be brought here on the Boston train for burial at Cedar Hill. Rev. W. H. Sampson officiating in both cases.

The death of Charles A. McCullough, American Consul at St. Stephen, N. B., occurred at his home in Calais, Me., yesterday from blood poisoning.

John S. Bassett, aged eighty years, died yesterday at his home in Upper Charlo, Restigouche County, N. B.

The death of William James McDade, aged forty-six years, occurred last evening at the General Public Hospital. He was well known as a painter and had many friends about the city. Four brothers, Harry of St. John, Joseph of Boston, Wesley and John in the west, and three sisters, Mrs. T. L. Irving and Mrs. R. J. Wilkins, of this city, and Mrs. D. G. Waterbury of Brooklyn, N. Y., survive.

The death occurred at Butte, Mo., on the 6th inst., of Daniel Bonell, eldest son of the late Daniel Bonell, of Sussex. The deceased was well known in Sussex as a young man. He left here some thirty years ago and for a long time resided in Boston. Later he removed to Montana, where he was interested in mining.

A respected resident of Lower Millstream, Kings county, and a man well known in St. John in the days of wooden shipbuilding, passed away on April 25, in the person of William Currie. Mr. Currie, who was in the eighty-sixth year of his age, was born in Coldbrook, St. John county, but left there when nine years of age and went to St. Martins, where he learned the trade of ship caulker. After living in St. Martins for fifteen years he removed to St. John and was a familiar figure about the ship yards there in the days of wooden shipbuilding. Eighteen years ago he went to Lower Millstream, where he purchased a farm and home and resided there up to the time of his death. Mr. Currie's wife died four years ago. He had no children.

Harold Witherspoon walked from Whiting, Ind., to Chicago, a distance of twenty-three miles, in order to enlist in the United States navy. He was examined, measured and accepted.

Charles A. McCullough, United States consul at St. Stephen, N. B., died Thursday at his home in Calais. He was 65 years old, a former state senator and mayor of Calais from 1889 to 1891. He was appointed consul in 1897.

**THREE MEN CHARGED WITH SMUGGLING GEMS**  
New York, May 1—Three men were arrested here by the customs authorities on a charge of smuggling 6,000 uncut diamonds into this country from England.

According to the customs authorities the prisoners arrived in the steers of the steamship Mauritania on April 24. It is charged that they attempted to sell diamonds to a merchant, who notified the American Jewelers' Protective Association.

The three gave their names as August Fischer, Emil Propelle and Benjamin Edelson from South Africa. Each was held in \$5,000 bail for examination. The stones are said to be worth \$50,000.

## COMMODORE STEWART'S VIEWS ON THE BLACKMAIL CHARGES AND THE GLOBE

(Chatham World)  
An editorial which we quote from the Chatham Globe, on the blackmail charges, urged by an incorrectness of state—a moral hysteria, and an apparent indifference in regard to the ways of the political world, that suggests a new man, a stranger or a recluse, on the editorial staff.  
In the first place it is not alleged by Mr. Dugal that any legislation was enacted as the result of the collection by the government from the leaseholders. The only legislation was the Crown Lands Act of 1918, authorizing the re-letting of land leases at an arbitrary

price to be fixed by the Minister of Lands, which passed after being strongly opposed by two of the Northumberland grave of hope for all but the holders of big areas, cut off the small operators from the possibility of getting more land, and clothed the government with a dangerous amount of power over the leaseholders.  
Mr. Stewart's amendments were voted down and the bill passed.  
After a cursory examination of the lands, farcical in its lack of method and thoroughness, the government fixed the renewal prices of lands in accordance with a classification it had made, the price depending upon the classification, and here is where it is alleged that Mr. Flemming used his royal power for the collection of tribute. The holder of one, two or three hundred square miles, knowing that it depended absolutely on Mr. Flemming whether he should pay \$100 or \$150 a square mile, might reasonably be expected to pay \$15 a mile into an election fund on receiving an intimation that he was to be classified with the \$100 instead of the \$150 group. Is the Globe writer so innocent as to suppose that any holder of a large area would hesitate to pay the \$15 and thereby escape the possibility of paying \$50? The charge as made in the House by Mr. Dugal, is a picturesque tale of land piracy—not to be accepted as correct, of course. That money was collected for future election purposes, just as money has been collected from the leaseholders for election purposes many times before, there is no doubt, but that it was collect-

ed by the Chief Sealer, under the direction of the Premier, to enrich Mr. Flemming, is a fairy story, a product of Mr. Carvell's lively imagination. The probability, the almost certainty, is that Mr. Flemming will not be connected with the raid on the lumbermen. It will be proved, if any body in the government's interest is shown to have passed the hat, that every member of the government is just as guilty as the premier. The notion that he extorted money for campaign purposes, and that his associates are as innocent as the Baites in the Wood is too juvenile to be accepted by anybody.

## REDISTRIBUTION AND APPEAL TO ELECTORS ON NAVAL QUESTION

The latest word from Ottawa with regard to the redistribution bill is that it may be sidetracked until next session when the government hope to have a senate which will stand for a year—man, through increased senatorial representation from the west.  
The Liverpool Courier, in announcing that the Imperial Conference will be summoned early next year, says that the dates will be arranged to conform with the wishes of the Canadian government which will appeal to the people on the naval question.

Cheese may be kept from going mouldy by wrapping it in a cloth dipped in vinegar and wrung nearly dry. Cover the cloth with a wrapper of paper and keep in a cool place.

When ironing window blinds it is important to follow certain rules to ensure hanging well. After starching them fold them down the middle lengthwise and iron double, both sides together. Then open them out and iron the fold. They will then keep their shape, not stretching as when ironed singly.

## HEROES

(By Edmund Vance Cooke)  
It used to be boys asked their pas How large great Alexander was, But if the boys should ask today, They'd add, “And where did Alec play?”  
Boys once (at least I've heard they did) Were wont to envy Pirate Kidd, But now they say, “That yarn's a dream; There ain't no Kidd on Pittsburgh's team.”  
And once, as all boys knew by heart, Napoleon's name was Bonaparte, But every urchin knows today His name's Lajoie (or Lajoway.)  
So perish all the pests of war— Those heroes of earth's abattoir! Throw down the sword, take up the bat; There is no bloody stain on that!

### KINGS COUNTY PEOPLE WANT A RIVER BOAT

Suffering Great Inconvenience— Will Probably Ask Increased Subsidy For Hampton Service

Sussex Record—Kings county people are loud in their complaints about the steamer Hampton being withdrawn from the Kennebecasis River route. The owners of the Hampton who have been receiving a subsidy of \$600, went behind so far last season that they state they will not put the steamer on the route again unless the subsidy is increased to \$1,000. People residing along the Kennebecasis River will be unable to get to the city either with produce or to procure supplies unless there is a steamer on the route. One resident of Kings County stated they were planning to send a delegation to wait upon the government with a view to getting the matter straightened out. He said that besides the inconvenience they were suffering they were also losing money and that something would have to be done. They are also endeavoring to get some boat on the Millidgeville-Bayswater route until the Maggie Miller is ready for service.

### LOCKWOOD'S SPECIAL MISSION

Arthur G. Lockwood not only plays golf but he has a special mission—he takes care of the youthful champion Outmet. Lockwood is entered in all the big tournaments abroad along with Outmet and the other stars.

### FIRST THROUGH TRAIN OVER C. N. R. BETWEEN QUEBEC AND TORONTO ARRIVES

Toronto, May 1—The first through train over the C. N. R. line between Quebec and Toronto arrived here early this morning with 459 passengers, all immigrants, from the C. N. R. steamer Royal George.

### VALLEY RAILWAY ROUTE

The secretary of the board of trade has received a letter from Hon. George J. Clarke, acting premier, stating that the newspaper report which came from Montreal to the effect that the Valley railway was to be built on the west side of the River St. John, was not correct. Mr. Clarke says: “The legislation with reference to the St. John Valley railway and the contract executed under the legislation provides that the railway shall cross the St. John at The Mistake, and go by way of the Intercolonial to the east side of St. John harbor. I think I am safe in saying that no change in this route is contemplated.”

In Glenace, Ill., when the president and two members of the school board were elected, out of 180 registered voters only five women and twenty-six men cast ballots for the candidates.

May Day Finds No Labor Unrest in St. John

Reports From Other Cities — The Halifax Plumbers — Socialist Demonstration in Montreal

May day found St. John in a particularly pleasing state as regards labor conditions. Regarding the labor situation, one of the local leaders in the labor world said that there was apparently no sign of trouble in any of the city bodies. Thus far there had been no word of a strike in any of the unions, the men being satisfied with existing conditions, or at least thinking that the time was inopportune for making any new demands.

Halifax, N. S., May 1—This morning the plumbers of the city ceased work pending adjustment of the matter at issue between them and the employers. The president of the union said today that the men have not gone out on strike, and he strongly resented suggestion of any such intention. They are simply awaiting a reply from the employers to a communication as to an increase of pay. "In the meantime," he said, "we have offered our services to the board of health in order that the public may not suffer."

Montreal, May 1—The Socialists here started their principal holiday with every apparent intention of impressing its importance to them upon the public. Early this morning several socialist orators appeared upon the Champ de Mars to address the 1500 men gathered there to seek work from Mayor Mercier Martin. After haranguing the crowd for a time, the speakers led the men off to Auditorium Hall, where a mass meeting was in progress. This evening 6,000 Socialists, of twenty nations, will march through the principal streets, led by Mrs. Gerick, a German woman, who will carry a large banner of red cotton. Each member of the parade also will wear a miniature red lapel flag, and several will wear red arm bands. It is not known whether the national colors will be in the parade or not.

An Italian band will lead the procession. Those of each nationality will march together, so that there may be no confusion of orders. The police have promised not to interfere unless there is disorder, but the Socialists speak defiantly of what will happen if the constables do find it necessary to halt the parade. Following the parade, there will be speaking in Auditorium Hall. The Socialists are also conducting a "rag day" to raise funds to meet the expenses of the celebration, but apparently public response is not generous. Circles are quiet in this city, there are threats of coming "May Day" demonstrations without a "rag day."

N. Y., May 1—May Day today was signified by an unusual large number of parades and demonstrations by Socialists and their allied trade unions as International Day. These parades, in Manhattan, Brooklyn and the Bronx, found thousands of garment workers in line, and each ended with park mass meetings, at which the speakers discussed the eight hour law and demanded better working conditions for factory employees.

Rome, May 1—May 1 was observed throughout Italy by an almost complete cessation of work. In several cities, workmen's processions were held and speeches were made.

Paris, May 1—"May Day," the observance of which in the past has been characterized by violent conflicts between workmen and the police, passed without disorder today. Only a small percentage of the laboring classes quit work.

Premier Doumergue gave orders that the employees of the government arsenals who desired to celebrate the day by not working should be paid for the day. When this became known, the labor unions announced their decision not to take the day off with pay. The reason ascribed for this action is that the government desired, by its ruling, to win the approval of organized labor.

In other government establishments the employees consented to take the day off without pay. Fort William, Ont., May 1—One hundred and fifty bartenders employed in local hotels will go on strike today as the result of the refusal of eleven out of twelve local hotels to recognize the employees' union.

SEVERELY HURT John Stewart Injured on Schooner at Ballast Wharf John Stewart, employed by Swanton Brothers, unloading hard pine from the schooner David Ritchie at the Ballast wharf, is in the hospital with two severe wounds on his face and a broken nose, the result of an accident between ten and eleven o'clock this morning. He was working on the cars handling the lumber as it was being unloaded from the vessel. He left the car to go aboard the schooner to get a drink of water. While he was crossing the deck, a heavy sling swung around, striking him full in the face and knocking him heavily against the rail. He was taken to the hospital, where his injuries were attended to.

A slight accident occurred at Courtenay Bay this morning. Demitro Kuy, a Bulgarian, received painful injuries to one of his feet by a heavy piece of stone falling on it. Dr. F. T. Dunlop, after dressing the wound, brought the injured man to the city and he is now being looked after in the General Public Hospital. Although it is not thought that any bones are broken, his injuries are painful.

RECENT DEATHS Mrs. R. G. Thompson, of Woodstock received word Wednesday of the death of her uncle, R. M. J. McGill, of Ottawa. Mr. McGill was well known in railway circles, being at one time in the C. P. R. offices in St. John, later assistant manager of the Nova Scotia Central Railway and at the time of his death was chief accountant of the Grand Trunk Pacific Railway.

The death took place recently in Plainville, Mass., of Mrs. Oscar Herring, the daughter of the late Elijah Ayer of Dorchester, N. B., and besides her husband leaves one son, her mother, Mrs. E. Ayer, of Dorchester and three sisters.

"SAFETY FIRST" ON THE INTERCOLONIAL Make up of General Committee—Lee Dalton Station Agent at Coldbrook (Special to Times) Moncton, N. B., May 1—A circular issued from the I. C. R. general manager's office says the organization of the safety first department will be proceeded with at once. The committee will consist of the general manager as chairman, general superintendent, chief engineer, general solicitor, general claims agent, superintendent of rolling stock, safety engineer and secretary. In addition to the general safety committee there will be a district safety committee and car shop committee. Moncton is about the only place on the line to have a shop committee.

Willard P. Hutchinson, train despatcher, and William Crockett, conductor, both of Moncton, have been appointed additional instructors in standard rules. The standard rules will go into effect on the I. C. R. on June 1. Lee Dalton, a former Moncton policeman, and well-known athlete, has been appointed station agent at Coldbrook.

ALARMED BY INCREASE OF CANCER DEATH RATE New York Society For Prevention of Cancer Calls Attention To Need For National Movement New York, May 1—In a statement just issued showing the death rate from cancer in 1913, the American Society for the prevention of cancer calls attention to the need of the national movement to check the death rate from this source. For New York city the rate was 82 in each 100,000 of the population, against an average of 79 for the last five years. For Boston, the rate was 118 against an average of 79 for the last five years, and for Chicago, 86, against an average of 74. Other cities showed similar increases in the last five years.

Almost Record For Late Opening of Navigation

Not Since 1854 Has it Been so Late—Still Word Comes That One Farmer Has Potatoes Planted

The Ocean, which went up river on Monday, arrived at Indiantown yesterday afternoon after having been held up by the ice at Hampstead for several days. Captain Flewelling reports that there is much floating ice in the river and navigation is anything but pleasant, as the weather is so cold. The water is rising rapidly and it is now well up in the Alps at Indiantown. The Champlain, which left yesterday for the morning, did not get to Belvidere, but was not able to reach Nutter's wharf. The D. J. Purdy left this morning for Oranoch and it is expected that she will be able to reach that place today. The Hampstead, which has been here for the winter, left this morning for Gagetown and is ready to go on the Gagetown-Fredrickton route as soon as possible. She has undergone extensive repairs this spring. The D. J. Purdy will leave on May 6 for Fredrickton, which will be almost a record for late inauguration of steamer service between the two places. According to the New Brunswick almanac for this year, which gives the dates for the opening of navigation every year since 1825, the latest date on record for the opening was on May 7, 1884, and since that year it has always been open before May 1, until this year. Although previous to 1854 there were several years in which navigation was not started till May 1, 2 or 3. In 1802 the river was clear as early as March 29.

Word comes from up river that a few of the farmers have begun plowing and on Wednesday, Alfred Vanart at Gagetown's wharf planted a field of potatoes. This is very early seeding. In many places however, there is still frost in the ground.

LOCAL NEWS OFFICIALS LEAVING William Showers, of the Allan Line staff, left last evening on his return to Montreal. R. B. Teakle, local superintendent, and J. P. Doherty will leave tomorrow evening, the former for Montreal, and the latter for Quebec.

ASKED TO MEET HERE An invitation has been extended by the St. John Board of Trade to the Canadian Forestry Association to hold their annual meeting in St. John next year. The convention will assemble this year in Halifax in August, and the invitation will then be considered.

MARBLE COVE SEWER The work on the Marble Cove sewer is progressing steadily although it has been delayed somewhat by the cold weather, which has made concrete work slow. The main pipe has been laid from the boat club to Kennedy street and is now being carried down from Cedar street.

CASE CONTINUED The case of the Canadian Bank of Commerce vs. the C. P. R., with Frank McDonald joined as third party, was continued in the circuit court this morning before Mr. Justice McKeown. A considerable mass of documentary matter is being offered in evidence. M. G. Teed, K.C., and E. P. Raymond are for the plaintiff, F. Taylor for the defendant, and Recorder Baxter, K.C., for the third party.

I. C. R. CASE Hearing was begun this morning in the case against Frank Murphy and John Ryan charged with stealing eight tons of coffee from the I. C. R. cars. Mr. Gorman, foreman of the shed, said that a case containing eighty tons of coffee was put in an I. C. R. car at York Point. On Saturday the car was loaded with a newshy, saw an empty case floating about in the water and drew the attention of the foreman to it. A search was made and the contents of the shed and seventy-two cars were found between two I. C. R. cars. The two young men were arrested and seen within a short distance of the car. Policemen Gibbs and Briggs said they saw the two fellows with something under their coats. This was before the police had been notified of the appearance of the coffee. Lester Rowley said he saw another man standing near where the cars were found. The prisoners pleaded not guilty in court yesterday. The case was postponed for further witnesses.

"SAFETY FIRST" ON THE INTERCOLONIAL Make up of General Committee—Lee Dalton Station Agent at Coldbrook (Special to Times) Moncton, N. B., May 1—A circular issued from the I. C. R. general manager's office says the organization of the safety first department will be proceeded with at once. The committee will consist of the general manager as chairman, general superintendent, chief engineer, general solicitor, general claims agent, superintendent of rolling stock, safety engineer and secretary. In addition to the general safety committee there will be a district safety committee and car shop committee. Moncton is about the only place on the line to have a shop committee.

Willard P. Hutchinson, train despatcher, and William Crockett, conductor, both of Moncton, have been appointed additional instructors in standard rules. The standard rules will go into effect on the I. C. R. on June 1. Lee Dalton, a former Moncton policeman, and well-known athlete, has been appointed station agent at Coldbrook.

ALARMED BY INCREASE OF CANCER DEATH RATE New York Society For Prevention of Cancer Calls Attention To Need For National Movement New York, May 1—In a statement just issued showing the death rate from cancer in 1913, the American Society for the prevention of cancer calls attention to the need of the national movement to check the death rate from this source. For New York city the rate was 82 in each 100,000 of the population, against an average of 79 for the last five years. For Boston, the rate was 118 against an average of 79 for the last five years, and for Chicago, 86, against an average of 74. Other cities showed similar increases in the last five years.

SNOW FALL ON MOVING DAY Many People Away Before Last Day But Still This Was Busy One May 1, moving day, was ushered in keen and cold and actually a few flakes of snow fell about 8.30 o'clock. While today the activity in moving was pronounced, the greater share of it had already taken place during the earlier part of the week and it was generally only the finishing touches to the moving that were given today. The express companies say that there have been more families moving than for many years. There are many weary homes in the city this week for they have been working from early morn until late into the evening, and last night on the eve of May 1, many people were busily engaged in moving even up to well after midnight. Fortunately the rain which had been in the air for some time in his new home for the weather was too cool for comfort without it.

MRS. E. J. SHELDON IS DEAD IN WALLISTON News Will be Learned of With Regret by Many Old Friends Here The death of Mrs. Eliza Jane Sheldon, wife of Edward J. Sheldon, occurred yesterday at the home of her daughter, Mrs. F. Hall, in Walliston, Mass., where she had resided since leaving St. John, her old home. She was a daughter of the late James Stewart of West St. John, where her husband also belonged. They were married in 1842, about twenty years ago, but still have many friends in this city. Mrs. Sheldon, who was about sixty-five years of age, had visited her old home several times renewing her old acquaintances and the news of her death will be heard of with regret by many, by whom she was much respected. Sincere sympathy will be felt for her husband and the other members of her family. Besides Mr. Sheldon, she is survived by one son, C. Parker, and three daughters, Mrs. S. F. Hall, and Mrs. Gilbert Schenk, all of Walliston, Mass., and Mrs. Raymond Gillette of Montreal. Two sisters also survive—Mrs. J. B. Richards, of West St. John and Mrs. E. A. Allaby, of Victoria street, North End. The funeral will be held tomorrow in Walliston, Mass.

Eighty Years Old; Goes to Jail for Two Months "You would think the run came down from heaven and all these people had to do was to lapp it up," said Magistrate Ritchie in the police court this morning when a full bench of prisoners were up for sentence. "I do all I can to assist the police by remanding the prisoners to give the police a chance to find out where they get their run but it is no use." A man eighty years of age who was arrested a few days ago for drunkenness with a boy nineteen years of age was allowed to go at the time but he did not take advantage of the chance given him and was sentenced this morning to two months in jail for a like offence. Another man who has been arrested several times during twenty-four years was given the same sentence for being drunk. Louis Rogers, who pleaded guilty yesterday to assaulting George Kelly, was sentenced this morning to \$20 or two months with hard labor.

CUSTOMS GAIN HERE \$20,000 The customs returns for April have shown a handsome increase of nearly \$20,000 over the corresponding month last year. The following is the statement for the month, both this year and last: 1914 1913 Duties . . . \$180,278.90 \$160,645.49 Marine dues . . . 1,221.26 1,233.63 Total . . . \$181,500.16 \$161,799.17 Increase for 1914 \$19,995.99

BANK RETURNS The returns from the Dominion Government Savings Bank for April show deposits of \$66,400.12, and withdrawals of \$116,229.79.
