(Special to Times.)
Schenectady, N. Y., June 9.—At least eleven persons were killed and twenty-one others injured, some of them perhaps fatally, when a fast eastbound American express special crashed into the rear of an accommodation passenger train on the New York Central line about four miles west of this city early today.

Only two of the dead have so far been identified, Martin Doyle of Albany, engineer on the express train, and a two-year-old baby, supposed to be the child of Nellie Crouse of Utica. Mr. Crouse was removed to a hospital here unconscious, and the child was identified by the Pullman conductor.

Among the dead also was a man believed to be W. J. Zull of Syracuse. The other dead were two unidentified men, one boy and an elderly woman. The train which suffered the shock of the collision and on which virtually all the killed and injured passengers were, was the Michigan Central special of ten cars, carrying express for the American Railway Express Company.

Car Broken to Pieces.
The rear car of the passenger train was split to pieces by the impact. The train had stopped in an open field between Glenville and Scotia villages near here because of a defective water pipe in the engine.

Just before the crash came, the fireman of No. 84 leaped from his cab and escaped serious injury, but Doyle, the engineer, was pinned under the wreckage and was dying when he was extricated. Rescuers said his hand had registered to indicate he was being pulled away from a stretcher.

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam of the Times reporter, "what Ralph Connor has been telling the Presbyterians that for every convert the Christians get in China the seven more little pagans burn."

"So I have read," said the reporter, "I don't know what you think we ought to do something about it? Would the Settlements send another missionary—do you think?"

"I might," said Hiram, "if I knew what folks'd do when they get let up."

"I see no other remedy," said the reporter. "We can't bring those heathen people here to convert them."

"Convert 'em to what?" queried Hiram.

"Why—to make good Christians of them," said the reporter.

"So they could go into profitless 'n' get away with it?" asked Hiram.

"Decidedly not," said the reporter.

"Well," said Hiram, "as I think I said to you afore—if we had red Christianity in this country we wouldn't need to send no missionaries. They'd come here to work it out for themselves—yes, sir. If I do not, and I'm a missionary landed there to convert me, I'd say—'Mister, you just let along home an' get on with your own 'n' I'll come over after a spell to see how you're gettin' on with them squabbling churches an' tricky politicians an' money grabbers an' agitators of all sorts.' That's what I'd say to him—'By the way, An' then I'd go on and beat a decent Chinaman till I heard from him again. D'you s'pose the Lord s'nt s-gonto here to have a civvie class included in the curriculum of the local high school in order to give the growing generation any insight into civvy government. Although the idea has so far not been developed to any extent, it is considered as important."

The fact that sufficient interest in civvy politics has not been displayed by a majority of the citizens has been referred to on various occasions and this lack of interest has been attributed to a great extent to lack of knowledge of procedure.

The council meets in committee on Monday and Thursday mornings and it has been suggested that with the provision of sufficient accommodation in the council chamber of the proposed new civic building, the school classes could be present to listen to debates on matters of civvy government and could be asked the following day an account of what transpired.

THREE DAYS' FIGHT
SAVES THE TOWN

Forest Fires Raging in Parts of Ontario and Rain Is Badly Needed.

Cobalt, Ont., June 9.—For three days and three nights, practically without sleep, the men, women and children of Cobalt battled to save their town from a terrific forest fire which swept down upon it. They battled successfully, but in the meantime all communication with the town was cut off and there were many who feared that the town had been wiped out.

It was the third time the settlers had faced a terrific fight with a fire from the forest. Deputy Fire Ranger Davis took charge of the fight and divided the women, children and men into groups.

For a long time the school house was threatened and children put up a battle that saved it.

From Gowganda comes news of a menacing fire which threatened the new silver camp. It has approached the Bonall mill. The O'Brien power transmission line has been burned, and Wigwam is threatened, along with a big sawmill there. Swastika reports that the bush in that area. From there north to Porcupine Junction there are no fires of any account and Thompson and Sargent are not molested. The battle to save the settlers around Twin Lakes was a heavy task saving the Hammond and Robinson sawmills, practicing the lumbermen and turned to speak to Fairclough when the gun went off, but the fire had not yet reached the sawmills.

He died fifteen minutes later. Gibson and George Harold Finlay, two of the men of age, pursued the Melrose, who was with the men, are being held as witnesses for an inquest.

He died fifteen minutes later. Gibson and George Harold Finlay, two of the men of age, pursued the Melrose, who was with the men, are being held as witnesses for an inquest.

GERMANS RESUME
TRADE WITH SOUTH
AMERICAN PORTS

Berlin, June 9.—Resumption of Germany's South American trade is indicated by announcement of the sailing, in the middle of June, of the Undine, a Hamburg liner, to the South American line.

The first German cargo steamer to clear for Brazil and Argentina ports, since the beginning of the year the company has been running a few chartered neutral cargo and sailing ships to South America and now is taking up the service with German vessels.

Arrangements have been scheduled to sail in the middle of July, after which the company will run its own newly built 5000-ton vessel, the Undine, to South America, which is most anxious to secure a favorable place in the South American trade.

The regatta committee announced another triangular race today which began on Monday.

WALL STREET

New York, June 9, 10:30 a.m.—A firm undertone was shown by popular issues at the opening of today's stock market, although rails, with the exception of Heading, continued under moderate pressure as a result of the reduction in the Chicago and Northwestern dividends. Most of the steels, equipments, motors and oils scored variable gains. Crucible soon rose 1 1/2 points, with gains of one to almost two points for American Car, Baldwin Locomotive, Chandler Motor Royal Dutch and Middle States Oil. Shipplings, utilities and miscellaneous specialties made fractional advances.

NOON REPORT

Selling of investment lists became more general before the end of the first hour. The shorts evidently proceeded on the theory that other high-grade transports might be forced to follow the lead of Chicago and Northwestern and curtail dividend disbursements.

IN TROUBLED EUROPE

Berlin, June 9.—On the basis of figures supplied by the semi-official Hoffman Agency of Munich for the whole of Bavaria, the Bavarian people's party has secured twelve Reichstag seats. The Social Democrats won five, the Independent Socialists four, the Peasants' Party two, the Democrats two and the so-called Mittel party two.

Unofficial returns from thirty-one districts for 380 mandates are about equally divided between the present coalition government and the Right and Left opposition. It is generally believed that the allotment of the overflow votes to the empire list will give the coalition enough mandates to secure it a small majority.

The London correspondent of the Temps says he learns that Premier Lloyd George expects to go to Paris about June 20 to confer with Premier Millerand on questions regarding the German indemnity which will be brought before the Spence conference.

VETERAN OF RING

A Chat With Jack McAuliffe, Who Is Now in St. John.

Among the visitors at the Times office today was Jack McAuliffe, the only undefeated lightweight champion pugilist of the world. Although it is his first visit to this part of the country he is meeting with a cordial reception and is adding to his long list of friends.

Mr. McAuliffe says he knew both Jack Power and Eddie Connolly well and paid a glowing tribute to their ability. With reference to them he said they were both not only good fighters but boxers, a combination which he said was not found in the coming of the war. With reference to Sergeant Detective Power he said he was a clever exponent and was undoubtedly a successful fighter had he followed the ring game.

Mr. McAuliffe, though he has never been here before, is a widely traveled man, his journeys including several across the Atlantic. In the war he was one of the secretaries of the Knights of Columbus.

Compton & Lewis are presenting for St. John's approval a cast of players who represent some of the leading performers in Montreal and Toronto, also in Winnipeg and Vancouver—people who know what this company is capable of—are heralding their coming with much éclat. Seat sale for St. John starts Thursday.

OBJECTIVES FOR RED-BLOODED CANADIANS

What are the objectives of the Navy League? Briefly, they are these:

To keep alive the memory of the valor and sacrifices of our seamen during the great war and to impress upon present and future generations, as well as upon foreigners who make their homes among us, what the Union Jack stands for in the respect of its due to the necessity for supporting it to the fullest extent of our country's ability.

To constantly remind Canadians that the liberty and peace they enjoy they owe to the navy.

To render relief to the dependents of sailors who lost their lives during the war and to help disabled seamen, through aid to hospitals and otherwise.

To assist in the training of men and boys for the navy and mercantile marine.

To promote the interests of the government in maintaining an adequate naval fleet to co-operate with the imperial navy.

To do everything possible to strengthen Canada's position as a sea-faring power and as a member of the great family of British nations.

To educate Canadians as to the meaning of "sea-power" in its fullest broadest sense.

To look after the welfare of sailors at our ports through the medium of the thirteen institutes extending from Sydney, N. S., and Charlottetown, P. E. I., to Victoria, B. C.

Generally, to promote the interests of Canadian shipping, sailors and sea-ports.

Worthy objectives, truly. Every red-blooded Canadian should stand by the Navy League in the carrying out of these objectives.

HE LEFT HOTEL ON ACCOUNT OF FLIES

And Maine Supreme Court Holds He Was Justified in Doing So.

(Bangor Commercial)

The supreme court of Maine has joined in the work of campaigning against the menace of the house fly, and the course of a decision handed down from the law court, makes a strong argument for the exercise of every care to the elimination of this dangerous pest.

The case in point is rather a novel one. A party engaged rooms and board for two weeks at a York county hotel, but left at the end of five days, refusing to make the payment called for under his contract. The case went to court, the defense claiming that there was not proper care to keep the flies away from the dining table and that the demands of safety made it necessary for him to leave the hotel. The jury found for the hotel proprietor, but the law court has now set aside the verdict and ordered a new trial, stating its opinion that the defendant was justified in leaving the hotel on account of the fault of the plaintiff in allowing flies to collect at the defendant's table in such numbers as to become unsanitary and repulsive.

It would appear that the plaintiff would have done well to have submitted to his loss for the advertising that he is receiving will not tend to attract patronage.

Premier Norris of Manitoba, is confined to his room in a Brandon hotel suffering from lumbago.

The only cheap thing in the world to-day

IN purchasing power the dollar has shrunk to almost 50 cents. This is true of all you buy, with one exception. Clothes, food, shelter, everything costs double. The one exception is bonds.

A Bond is the only thing that costs less

As in the past, the present condition will not last forever, and a warning should be taken from the lesson of history. The present return from invested capital will drop. Then the investor who has had the foresight to buy at present record low prices will continue to receive high income returns when the dollar has regained its full purchasing value.

The first form of investment to reflect this changed condition is always the highest type of investment—

Government Bonds

A Government Bond purchased today, if sold after conditions return to normal, will provide money that has twice the buying-power of today's dollar.

Because of unusual conditions now prevailing, Dominion Government Bonds may be purchased at prices to afford the highest income returns on record. The Dominion Bonds now available are the seven Victory Issues which afford, through their diversity of maturities, prices and returns, a broad selection for every investment requirement.

TRADE WITH RUSSIA.

Premier Lloyd George believes England should renew trade relations with Russia. A London cable says: "The negotiations are apparently confined to the possibility of an exchange of Russian agricultural products for manufactured goods, of which the Bolsheviks are in dire need. Their wants include machinery, boots and commercial articles. There is skepticism here as to Russia's ability to barter an appreciable quantity of produce, but Krassin is apparently planning a London branch of the Moscow Co-operative Union and the establishment of a Soviet embassy."

found to be satisfactory. The community councils whether their activities are centred in school or other buildings, are doing a notable work. As one illustration we may quote from the New York Evening Post an account of certain activities to be staged in that city next week.

"Staten Island, The Bronx, Forest Hills, Washington Heights and the Park Avenue districts community councils already have their preparations for Neighbors' Day, June 13, under way, and other councils are rapidly arranging their programmes. There will be pageants, block parties, community dances and playground meetings, as well as other occasions for those who are neighbors to get together on a common ground, somewhat in the fashion of the old-time small-town meetings. The idea, which has been given impetus by Franklin K. Lane, (a native of P. E. Island) formerly secretary of the interior, is that persons who know each other in real neighborhoodness soon find means to work out their differences and thus obliterate class, racial and religious prejudices. Neighbors' Day is the first of three days of celebration arranged by the Community Councils of the City of New York. The National Social Unit Organization and other co-operating societies for the observance of Three Days for Democracy. The two other occasions will be Community Sunday, June 13; and Flag Day, June 14."

The mothers' allowances provided for by an act of the Ontario legislature will bring assistance, it is estimated, to ten thousand children in their own homes, and this as a larger number than is found in all the orphanages and charitable institutions in the province. These children, kept in their own homes, under their mothers' care, will be infinitely better off than if forced by poverty into the charitable institutions. They will have a mother's care, and there will be no stigma upon them. The mother in such cases becomes in a sense a civil servant, rendering the highest service to the state in return for her allowance.

SCHOOL CENTRES.

What is a school centre? It means the use of a school building for other than day and evening school classes. It means that the building owned by the people is used for community purposes. There are school centres in 107 cities in the United States, and these are scattered over twenty-six states. Many other cities and towns report an occasional evening use of school buildings for community purposes, but in the 107 cities referred to each school centre is in such use at least two evenings per week, while nearly a quarter of the number are in use three evenings, thirty-five of them six, and two of them seven. In eleven instances the centres are open on Sundays.

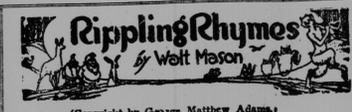

The Russell Sage Foundation has just issued a School Centres Gazette, prepared by Mr. Clarence Arthur Perry, giving a comprehensive review of the movement. There are, of course, many more than 107 of these centres, as each city has more than one. In New York, with its enormous population, there is one for every 46,655 persons. Chicago does better with one for every 36,421, Cleveland with one for every 40,047, and Pittsburgh with one for every 18,400 persons. In all, there are in the 107 cities 697 of these school centres. A review of the report says:

"School centres are, of course, ordinarily operated by the local school board, but in 227 instances the management of them was shared with a voluntary association. Very often the school board furnishes the heat, light and janitor service, and the community centre association, parent-teacher group or other voluntary body supplies the workers and the organizing ability. Among the organizations reported as assisting in running school centre activities there were mentioned a neighborhood association, community councils, community service, American Legion, Y. M. C. A., a university, a normal college, a social settlement, a charity federation and several manufacturing corporations. One-half of the school centres are supported entirely by public taxation. Over a quarter of them have both municipal support and a source of income from admission fees. Less than a quarter of them are helped out by contributions or donations of one sort or another. The report mentions eighty-six centres in which motion pictures are shown, the actual number using films is believed to be much larger."

It is easy to see how great an influence for good these school centres must be in any city. They bring the people together, break down prejudices, develop the community spirit, and care for the young people. In his comments on the subject Mr. Perry says:

"The existence of a school centre system in a city is a good index to its progressiveness. It means that the taxpayers are getting nearly 100 per cent. utilization out of a plant into which they have put a lot of good money instead of the 40 per cent return they get when it is used only for the regular day school. If a citizen wants to get a line on how things are done in his school board let him apply for the use of a school auditorium for a parent-teacher's meeting. If the procedure is quick and simple it's a good sign, but if it's expensive and tedious there's a cog slipping somewhere. If his application has to be acted upon at a meeting of the full board, or even a committee of it, he can make up his mind that the people running his school are behind the times. The up-to-date board formulates the rules for letting buildings and school superintendent, whose office is open all the while. In New York City you can engage a school gymnasium for a certain occasion in ten minutes, provided it has not already been taken for the date by some other group."

It has been found that in many cases there is no need of paid attendants at these centres. Organized groups unable to observe regulations and incidentally the school authorities against damage to property, and the results are winter.

THE CAMPAIGN.

Let's have a clean campaign, devoid of squabbles, vainglories and kindred shames; a courteous man maintain. Let's hold no long disputes with eloquent galleons, not fill the air with fur and hair, and bricks and rocks and boots. It's useless to get sore and rant and walk the floor, convulsing jakes of their mistakes—they'll have the same some more. It's useless to see red, and punch your neighbor's head; because that might well be right, when all is done and said. Let's let in statesmen come along and chant the same old songs if they get in they'll banish sin, and outlaw every wrong. I hear the siren tune smooth old statesmen croon, and much it means to horse marines, and people in the moon. But I have heard it sung since days when I was young; while others scrip, and rans, yip and yap, and I am wise to all such guys, for often I've been done. And so, and I am wise to all such guys, for often I've been done. And so, and I am wise to all such guys, for often I've been done. And so, and I am wise to all such guys, for often I've been done.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

HUDSON'S BAY COMPANY.

In the early days of June 1870, the Hudson's Bay Company was busy plotting its career in the New World. On the second day of the previous month it had obtained its charter to trade from King Charles II largely through the influence of the fiery Prince Rupert who was a friend of the King. The inspiration for the work was received from Ollivan who had spent a winter with some hearty adventurers in the frozen wastes of Canada and had created a little stone fortress called Fort Charles to mark the place where they had pitched camp. The company attained a power that the charter people never thought of. From the Arctic sea to the United States border it held sway in later years; its posts extended from the upper Ottawa and Fraser rivers in the Pacific coast; its power was felt in the far distance. In 1869 the Hudson's Bay Company then Russian America and from 1870 to 1889 it held the sceptre of government having one twentieth of the land of the vast area of North America. In its quest of furs the Company developed other paths. Samuel Hearne, one of its traders, penetrated to the interior in 1769 and the two succeeding years he discovered the Copper Mine River; he entered the Saskatchewan in 1774 and founded Cumberland House. His work was duplicated by scores of other hardy adventurers who risked life and limb and endured the hardships of a winter in unknown lands and waters because of their devotion to the company and their love of the wild, unmeasured land they lived in.

JUNE NIGHT.

This is the perfect night of June! The universe is smiling at the night. The mighty spheres that climb the orbéd heavens and the full orbéd moon. Lead on the stary chorus. Fancy with orchestras, the galaxy keeps time, And rolls, in unison and rhythmic rhyme. One grand, triumphant, million-chorded tune. —Frederick Oakes Sylvester.

True Kindness. The clergyman of a poor parish was showing a rich lady around, hoping to touch her heart and so receive a big cheque for his people. "We are now passing through the poorest slum," he said, as he turned into a side street. "These people have little to brighten their lives." "I must do something for them," sighed the lady, adding to the chauffeur, "James, drive the car slowly and turn on the big lamps."

"Were you annoyed because I shared a pencil with you razor?" "Twice," replied the patient barber. "After I had given up trying to shave I tried to write with the pencil."

Reported Progress at Conference re West Indies

Cable Matter Next and General Resume on Next Tuesday — Visitors Guests of Dominion at Rideau Dinner.

(Canadian Press.)

Ottawa, Ont., June 9.—Delegates and commercial advisers attending the Canada-West Indies conference were guests of the Dominion Government at the Rideau Club, at dinner last night.

Suggested agreements on reciprocal tariffs and increased shipping facilities have, it is understood, already been drafted, and there now remains the question of better cables suggested in the conference will further pursue its labors and, before the West Indies delegates leave for Toronto on Thursday evening, it is expected all the proposals will be in the hands of the dominion government for consideration.

On next Tuesday the conference is due further to consider the raft agreements with any changes suggested in the interval.

George Foster presided at last night's dinner. He said that "Unless unexpected storms arise, I think we shall have, as a result of the conference, an agreement in which we shall all be united, an agreement which will open up new fields of progress and development for those parts of the empire we have represented here tonight."

RECENT WEDDINGS

A pretty wedding was solemnized last evening at the home of the bride's parents, 145 St. James street, when Rev. S. S. Poole united in marriage Lillian Caroline Haynes and William J. Cooper of London, Ont. The bride was given away by her father, Fullford Haynes, and Mrs. William Prescott played the wedding march. Mrs. Charles Hilton of Philadelphia, sister of the bride, was matron of honor. The groom was supported by George Haynes. The bride and groom left this morning for a trip through the Annapolis Valley, and on their return will reside in St. John. Among the out-of-town guests was Mrs. (Capt.) Johns of Philadelphia.

The wedding of Miss Mary Elizabeth McCormack and John E. Murphy took place at 8:30 o'clock yesterday morning at St. Peter's church, Rev. E. A. Scully, C. S. R., officiating. The bride was attended by her sister, Miss Alice McCormack. The groom was supported by his brother, William Murphy. After the ceremony a wedding breakfast was served at the home of the bride's parents, 8 Harvey street. The happy couple left for a trip through the Annapolis Valley. On their return they will reside in Sydney street.

RECENT DEATHS

After an illness which lasted only two days, John Cruikshank, florist, of Lancaster heights, succumbed to an attack of pneumonia yesterday, aged eighty-two years. Mr. Cruikshank was one of the best known citizens of the west side and many hundreds there as well as all over the city will regret to learn of his sudden death. He was born in Aberdeen, Scotland, July 5, 1838, and while still a young man came to St. John as gardener with E. D. Jewett at his late residence in Carleton, which is now in use as the D.S.C.R. hospital. He remained there five years, leaving to accept the position of superintendent at Fernhill cemetery, which he filled with ability and soundness of judgment. At the end of that period Mr. Cruikshank bought the property in Lancaster heights, built the house in which he lives until his death, and started the florist business which became one of the industries of the city. For many years he was connected with the First Presbyterian church in Carleton as elder and for sixteen years he was the honored treasurer of the congregation. A man of few words, all who knew him were familiar with his probity and soundness of judgment and he will be a sore loss to the Presbyterian cause in his community. Mr. and Mrs. Cruikshank were married in Scotland and seven years ago celebrated their golden wedding. Besides his wife, who was Helen Craigie, he is survived by two sons, James C. of the C.N.R. mechanical staff, Moncton, and J. Perry, of the staff of T. McAvity & Sons, Limited. The brothers are Honorary members of the congregation. He is survived by Mrs. Elizabeth Adams, of the same place, also survive. The funeral will be held from his late residence Lancaster heights on Thursday afternoon at 2:30 o'clock.

At the general assembly of the Presbyterian church in Ottawa yesterday it was decided to divide the million dollars, the excess subscriptions in the forward movement financial drive, pro rata amongst the causes provided for in the four million drive. It was recommended by John Patterson, K. C., of Toronto, that the salaries of the treasurer of the church, the secretaries of the board of home missions and social service, foreign missions, Sabbath school and young people's societies and the editor of Presbyterian publications, be increased. This motion was not passed at this session because of the desire of the assembly to raise the minimum salaries of the ministers of the church. Other routine business was transacted.

NEW PROGRAMME AT OPERA HOUSE MAKES BIG HIT

Audience Convulsed With Laughter—Thrilling Acrobatic Feats, Tuneful Melodies, Good Dancing, etc., Make Up Mid-Week Bill.

Patrons, who attended the performance in the Opera House last evening, confessed that they laughed so heartily at times that they were ashamed of themselves. A better tribute could not be paid the participants, and they deserved the hearty and prolonged applause which greeted their efforts.

Following an episode of "Daredevil Jack," which is featuring Jack Dempsey, champion pugilist of the world, Pauline and Francis gave the audience an idea of the treat in store. The lay member played some tuneful melodies on an xylophone, while her partner danced and gave a demonstration of club juggling which was brilliant. Both received hearty applause.

Jack McCalliff, only undefeated lightweight champion of the world, then appeared and was given a flattering ovation. After making a few remarks, he had some moving pictures thrown on the screen demonstrating the seventy-three round battle between himself and Jim Carney, which took place in the eighties, and which was reproduced by the original thirty years later. His talk was entertaining and his act was evidently greatly enjoyed.

Miller and Kyle, in a blackface comedy skit, kept the audience convulsed with laughter and made a big hit. Their line of chatter was amusing and the manner in which they "put it over" won for them prolonged applause. It is conceded to be one of the best comedy colored skits booked here for some time. The boxing and dancing bout was unique and evoked hearty laughter.

Welch, Mosley and Montrose, "The Three Surprise Boys," lived up to their reputation and their acrobatic dancing was one of the features. Their interspersed comedy which is instrumental in making the act a popular hit.

The last number on the programme was that of the Four Moral Sisters, who appeared in a very pretty and sensational aerial and teeth act. They are clever performers and their various feats while suspended in the air evoked rounds of applause. This banner bill will be presented again tonight and tomorrow afternoon and evening and should attract capacity houses.

Rev. W. E. Carpenter has closed his work on the Rustenburg field, having accepted a call extended to him by the church at Kemp, Hants county. His address is now Cheverie, Hants Co., N.S.

Rev. M. A. McLean is most happily situated as pastor of the church at Franklin, West Virginia. For reasons of health he was compelled to give up his last pastorate in Toronto and seek a southern climate. His friends here will rejoice to know that the threatened breakdown has been averted.

The new pastor of the Central church, St. John, is winning golden opinions among the members of his congregation and the strangers who worship there. Le. E. L. Curry writes that he has closed his work at Bedford, N. S., having preached his farewell sermon there last Sunday in May. A few days

before closing his work there, Mrs. Curry were made recipients of a purse of \$55 on behalf of the congregation. For the present his address will be Port MacLeod, N. S.

A recent issue of the Liverpool Advertiser contains a very warm tribute to the work and worth of Rev. M. C. Higgins and wife from a correspondent in Milton. A few weeks ago we announced that Brother Higgins had accepted a call extended to him by the church at Sydney Mines.

Joseph E. Howe, Acadia '06, has been called to the chair of history in Brandon College, succeeding Dr. C. W. Sew, who goes to McMaster.

Last Friday we enjoyed a brief call from Rev. Geo. B. Macdonald. He is at present pastor of the United Baptist church at Mars Hill, Maine.

Rev. R. S. MacArthur and wife were recently tendered a reception by the Calvary Baptist church, New York, to mark the completion of fifty years in the ministry.

Rev. H. C. MacArthur, pastor of the North Head and Castalia churches, writes us that Brother Alexander Gilson has arrived at Grand Masou from Scotland and will take charge of the church at White Head.

WOMEN'S COUNCIL HAVE THE PLANS WELL IN HAND

Arrangements for National Council Meeting Completed Yesterday.

Arrangements for the annual meeting of the National Council of Women were completed at a meeting of the St. John Council of Women yesterday afternoon in the board of trade rooms, with the vice-president, Mrs. W. Edmond Raymond, in the chair. Everything has been done to ensure the speedy transaction of business as well as to tender the delegates a truly St. John welcome. The free use of the street car service to the delegates was offered by T. H. McCauley, general manager of the New Brunswick Flower Company. The offer was accepted. Miss Alice Estey reported the sum of \$400 in the entertainment fund.

Arrangements have been made for a special car to be attached to the C. N. R. at Toronto and the delegates coming to this city will be brought to this city by way of the Metapedia Valley, stopping in Moncton over Sunday. Mrs. Raymond for the hospitality committee said her sub-committee, Mrs. Bonnell Millican, Mrs. Doody and herself, had made arrangements for the comforts of the ninety-three delegates already registered. A concert for the purpose of raising funds will be held in the imperia after the annual meeting according to an announcement made by Mrs. A. Pierce Crockett of the ways and means committee. W. H. Golding kindly offered the use of the Imperia for this purpose.

Mrs. J. Boyle Travers reported a gift of \$10 from the West St. John Field Comforts Association for the luncheon committee. Mrs. A. C. D. Wilson of the entertainment committee said she had arranged such programmes as she was able to. Mrs. Doody announced that arrangements were made for the executive luncheon at the Manor House, Mrs. W. B. Tennant said she was going to hold a reception at her residence. Mrs. William Pugsley said she would entertain the executives of both local and national councils and all delegates as well as their husbands at the Manor House on Saturday afternoon. Mayor Schofield announced his intention of giving a reception at the Manor House. The Commercial Club suggested a sail on the river and the Automobile Association a drive to Gondola Point and a luncheon at the Country Club. Mrs. Bullock extended an invitation to see and W. H. Golding invited the delegates to attend a performance at the Imperia. Miss Alice Estey reported for the half committee, Mrs. Doody for the automobile committee, and Mrs. Estey told of arrangements for a bureau of information. Whatever you do, eat Kellogg's Shredded Krumbles

If you teach school, you've got to provide your system with the elements that help to make you vigorous, which strengthen you against weariness of nerves and muscles.

Nature makes wheat so good-tasting because she wants you to have the benefit of all the body-building, strength-making qualities she puts in each grain.

We use all the wheat grain for Krumbles. We cook it, we shred it, we toast it—And we give it an added flavor that makes it doubly good—

So that each Krumble is a sweet, tempting, satisfying morsel.

Ask your grocer for Kellogg's Shredded Krumbles—the only Krumbles made.

Jiffy-Jell

Fruit flavors in vials. A bottle like this in each package. Note that Jiffy-Jell fruit flavors are condensed fruit juices sealed in glass. They are found in Jiffy-Jell alone.

Now Real-Fruit Desserts

Instant, economical—flavors in glass

Pineapple. Half a ripe pineapple is crushed to make the flavor for one Jiffy-Jell dessert.

Loganberry. We crush loganberries where they grow, condense the juice and bring you all its richness in Loganberry Jiffy-Jell.

Cherry. And cherries are crushed in the same way, and the rich essence is sealed.

Now Jiffy-Jell offers you real-fruit desserts—not a mere fruit-flavored jelly. This is the new form of quick gelatine dainty. Millions of homes have tried and adopted it. Anyone who once compares it with the old style will forever cling to Jiffy-Jell.

Crushed fruit sealed in glass. Jiffy-Jell flavors are made by crushing fruit. Then the juice is condensed and sealed in glass. A bottle of this fruit-essence comes in every package.

The fruit flavor is rich and abundant. For instance, we crush half a pineapple to make the flavor for one Jiffy-Jell dessert. We crush 65 big loganberries to make another. In addition, almost a whole lemon is used to acidulate the Jiffy-Jell mixture by the evaporated juice.

We can do this by crushing the fruit where it grows—often fruit too ripe to ship. And the shipping is done in condensed form.

Fruit dainties at little cost. Jiffy-Jell is rich in fruit. Yet one package will serve six people in mold form, or twelve if you whip the jelly—all at little cost.

Jam or marmalade, for the same amount of fruit essence, costs several times as much. And the fresh fruit we use for the flavor would often cost you as much as the whole dessert.

In an instant. Jiffy-Jell comes ready-sweetened—and with sugar, not saccharine. It comes acidulated with lemon or grape acid.

You simply add boiling water, then the flavor from the vial, and let cool. The preparation is quick. Jiffy-Jell places eight fruits at your instant call.

Just compare it. Compare Jiffy-Jell with the old-style quick desserts. Learn how much the real-fruit flavors add. It will change your whole conception of gelatine delights.

Do this now. Fruits are scarce and expensive; so is sugar. Yet everybody needs fruit daily. Try serving in this way.

Try lime-fruit flavor also for a tart, green salad jelly. Try mint for a mint jelly. Try pineapple and loganberry for desserts.

Telephone your grocer now.

10 flavors in glass vials. Bottle in each package. Mint, Lime, Strawberry, Pineapple, Orange, Raspberry, Lemon, Loganberry, Coffee.

Jiffy Dessert Company, Waukegan, Wis. Wm. H. Dunn, Limited, Montreal Distributor.

Lime-fruit Tart salad jelly. Serve with your salad or mix the salad in before cooling and make a salad loaf.

For mint jelly. Mint flavor makes a green mint jelly to serve with meats, hot or cold. Or serve as an appetizing side-dish.

Republican Delegates at Chicago Much at Sea

Sign of Preference for Any Candidate So Far — Senator Lodge to Be Permanent Presiding Officer.

Chicago, June 9.—Delegates to the Republican national convention assembled in Columbus today for the second session with their views as to who shall be party at the polls next November a mystery, even to themselves. The giving of unopposed approval yesterday to Chairman Lodge's keynote advocating for destruction of the "Wilsonian" not a sign of any preference from the thousands who will select the Republican presidential candidate to undertake the job. There were no demonstrations, even for sons, no mention of the "big among the aspirants, Wood, on and Lowden.

Evening with unprecedented freedom centralized leadership or "boss" rule, the delegates promptly ratified a programme designed to make permanent temporary organization. Adoption of the organization committee's report a foregone result, will place the in Senator Lodge's hands as the permanent presiding officer, and set the nation off on the second stage of its way with little prospect that it will be a ballot on the presidential nomination before Friday or possibly Friday.

The Rise of Maxwell is Due To Its Metals

Fine soil makes fine wheat; fine feathers make a fine bird; and fine metals have made the Maxwell. They have given it:

1—A life of 100,000 miles. 2—Thriftiness. For its metals are light in weight. Therein comes thriftiness.

But these metals are of extra strength. Therein comes long life.

Metallurgists—those who have made the study of metals a science—will tell you that such metals are costly, but they guarantee quality in a car and their generous employment in a Maxwell is by far the best evidence anyone may need to determine its quality.

They are almost alone responsible for the rapid rise of Maxwell, for the fact that nearly 400,000 now have been built, for that ever-growing friendliness to Maxwell the world over.

SWORE FOR TWENTY MILES London, Eng. June 8—According to evidence given at Wilsden Police Court against Edward Bates, summoned for using bad language in a carriage on a railroad train, swore for twenty miles of drift evasion. Jack Kearns, the champion's manager, says that within a month after Dempsey is cleared of the charge he will sign himself because he could not get a seat. It was also testified that a lady even offered him her seat if he would cease swearing, but he refused to take it and kept on cursing continuously. He was fined \$10.

TAKE DEAD DOCTORS' NAMES London, Eng. June 8—The British public has been warned of the number of bogus doctors practising in the country. These impostors are passing themselves off in the guise of doctors killed in the war and are usually men who have scraped together sufficient knowledge of medicine to enable them to practise with a degree of safety. They established themselves in another district under the doctors' name.

Jack Kearns, the champion's manager, says that within a month after Dempsey is cleared of the charge he will sign himself because he could not get a seat. It was also testified that a lady even offered him her seat if he would cease swearing, but he refused to take it and kept on cursing continuously. He was fined \$10.

Canada a Nation—Not an Adjunct

Certain American paper manufacturers want unrestricted access to Canada's Crown Lands pulpwood. So the "Underwood Resolution" has been approved by the United States Senate, and a Commission has been appointed to "negotiate" with the Canadian provinces for the removal of restrictions on the export of Crown Lands pulpwood. If you want to know the real meaning of the agitation, write for a copy of the latest issue of Investment Items.

FAILS TO GET ACTION AS TO CHURCH UNION

Motions Before Presbyterian General Assembly in Ottawa Ruled Out.

(Canadian Press.) Ottawa, June 9.—The question of organic union of Presbyterians, Methodists and Congregationalists brought out a lively discussion in the Presbyterian assembly last night. The debate hinged upon when the war ended. By a resolution passed in the 1917 assembly, the question of church union was put over until two years after the war. Rev. Hislop Dickson of Alexandria, Manitoba, maintained that the war was over in 1918 and that the question should be presented to the 1921 assembly in such a manner that it could be definitely disposed of. He moved that the resolution go further and instruct the committee to meet committees of Methodists and Congregationalists during the year so they would be able to know the feelings of those denominations and of the assembly.

Rev. Dr. Campbell of Montreal, clerk of the assembly, vigorously opposed opening the controversy at this time. "It will begin agitation which will wreck the unity of the church and prevent the spiritual movement you have been promoting for the last two years," he said. He contended that since the blockade against Germany lasted until January, 1920, the war did not end until then. The moderator ruled the amendment out of order and Mr. Dickson tried to introduce another amendment stating that in the opinion of the assembly the matter would be open for discussion next year and the next assembly would be competent to deal with the matter, but this was also thrown out and the original resolution re-amended by the committee adopted.

PRENTICE BOYS. Last evening the Grand Lodge of Prentice Boys of British North America attended service in the Laidlaw St. Baptist church, where Rev. W. R. Robinson preached a very appropriate sermon on the foundation of the order. The collection was for the Memorial Home, Wright street.

After the completion of the service the members returned to the hall where the election of officers took place and resulted as follows: Grand master, A. Mason; grand deputy master, George Gilbert, Belleville (Ont.); grand treasurer, J. Regan, Toronto; secretary, A. O. Brickman; assistant secretary, P. F. Cole; inside tiler, W. Donahue, St. John; outside tiler, W. Keichen, Belleville; chaplain, James Calvin, Grand Bay; lecturer, A. L. Belyea, West St. John.

POLICE COURT. In the police court yesterday afternoon a case against Bob How, charged with not being able to give a satisfactory account of himself and refusing to move on when told to do so by the police, was resumed, and G. H. V. Belyea, counsel for the accused left the court on account of criticism by the magistrate. E. S. Ritchie took over the case.

A case in which Policeman Hogg is charged with supplying liquor without a license, was also resumed and A. Bentley, whose wife had obtained the liquor from the policeman, testified. The case was postponed until this afternoon. W. M. Ryan conducted the prosecution and J. A. Barry acted for the defence.

William H. Sharpe, charged with attempting to obstruct the course of justice, was again before the court and J. S. Sague told of a conversation he had with the accused. Bail was refused in spite of the physical condition of the accused and he was remanded to jail.

MONEY SPENT ON HARBORS. The amount of money spent on different harbors in Canada since Confederation was set forth yesterday by Hon. A. I. Sifton in the House of Commons. MURDER ON THE QUACO QUEEN

According to a letter recently received from Captain John S. Smith of the schooner Quaco Queen, from the port of Dakar, South Africa, the second officer, Daniel J. McLeod of the Whitney Pier district of Sydney, C. B., was murdered by seamen when he ordered them to do some work in the galley. The steamer refused as the weather was too warm and a row ensued which attracted the attention of the First Officer Captain John Ritchie, who rushed to the scene and on arriving was also challenged to a fight. According to Chief Engineer A. G. Hill of Williamstown, Carleton county, the sailor chased McLeod over the forecastle deck and on reaching the poop deck second officer said he had been struck. He was removed to a hospital at Dakar and died later. The men were taken to a British port and were tried but no information as to the trial has yet been received. The murder occurred on March 18 according to the letter. McLeod is survived by a wife and many friends who will regret to hear of the tragedy.

Snow was assisted by Sergeant-Major Strachan and Sergeant Oliver.

LOCH LOMOND
YIELDS BIG ONE
G. Sinibaldi Catches Trout
Nearly 20 Inches Long—
About 4 1/2 Pounds Weight.
One of the finest specimens of trout
brought to the city this season was a
fine big speckled one landed by G. Sin-
ibaldi, opposite Johnston's Hotel, on
Loch Lomond yesterday. The big fel-
low weighed in the vicinity of four and
one-half pounds and measures 19 1/2
inches in length, and 1 3/4 inches around
the girth. He was hooked with a silver
sege fly which was strongly embedded
in the roof of the mouth. The fish gave
the angler a rugged fight. It is Mr. Sin-
ibaldi's intention to mount his prize. Last
year his partner, Ogden Smith, caught
the big one of that season, a little heav-
ier than that of yesterday. It was taken
in nearly the same part of the lake.
YANKIES PLAY BEFORE 108,200
FANS IN 5 CONSECUTIVE DAYS
(New York Times)
Playing to more than 100,000 home
fans in the space of a single week is
something new for the Yankees, but
the Huguenot team passed that mark in
five playing days of the week just en-
ded. But for the postponement of
today's scheduled double-header the
Yankees undoubtedly would have played
to 135,000 fans from Monday to Satur-
day, a mark that probably never has
been reached by any major league club.
On Monday morning 118,000 fans
filled Yankee Stadium to witness the
game of the week, and in the afternoon
a crowd of 98,700 jammed the
stands. The game on Tuesday drew 12-
600 fans, and on Wednesday 98,000 saw
the double-header. About 8,000 at-
tended the game with the Yankees on
Thursday, and the Friday crowd num-
bered about the same. This ran the
total up to 108,200 for seven games in
five playing days. With good weather
prevailing yesterday at least 80,000
would have turned out for the double-
header.
CANADIAN DOGS FARRD
FROM U. S. SHOWS
(Montreal Star)
The remarkable experience of going
to a dog show in the United States, have
seen his dogs perform in the ring,
and then finding them missing, fell to
600 S. Kilby, former president of the
Montreal Kennel Association.
He had entrusted his Irish terriers to
Hert Swann, of Toronto, to exhibit
throughout the States, the first show at
which they were to be shown being
at Morrisstown, N. J.
Swann and his charges, however, were
turned down at the border upon the
ground that Congress has just passed
a new law forbidding the showing of
Canadian dogs at any kennel shows ex-
cept those held in connection with state
fairs.
A DOG AND HIS MASTER.
The people along Germain street, be-
tween Princess and Queen streets, have
been a great deal of interest in having
the street boulevardized and kept in good
condition with young trees and grass
plots. They have cheerfully paid to
keep it in good condition. The grass
plots are unenclosed and trimmed regu-
larly. Last evening the owner of a
large dog strolled along this street, and
when the dog decided to scratch up a
considerable space and scatter the ten-
der grass shoots over the sidewalk, the
owner stood complacently by until the
job was finished. This morning the res-
ident who had cared for and took pride
in that grass plot found that he had to
start all over again. He had been given
an illustration of another citizen's pride
in his city. Such illustrations unfortu-
nately abound in St. John.
CHANGING RULE
OF ROAD WILL
COST MONEY
But Vancouver Expects to See
Big Influx of Tourists.
Vancouver, B. C., June 9.—When, at
date yet to be indicated by the lieuten-
ant-governor of the province, British
Columbia falls in line with the rest of
the American continent and changes the
rule of the road from left to right, one
of the largest and most intricate feat-
ures of engineering in the history of street
railway operation in Canada will com-
plete the British Columbia Electric Rail-
way Company, costing anywhere from
\$500,000 to \$1,000,000. Large crews of
men will have to work at least 100 days
in Vancouver where the problems are not
so involved.
All cars, with the exception of the inter-
urbans, are built to conform with the
"keep to the left" rule, and to change
the rule of the road does not simply
mean turning the cars around and run-
ning them on the other track. Many re-
placements must be made.
All switches must be taken up and

Compares Star Short-Stops.
(Boston Globe)
The other day at Braves Field the
Nationals' former infielder, Bill Sweeney,
was comparing the work of Walter
Maranville and Everett Scott. It is not
the purpose to size up the work of these
great shortstops or go into analytic dis-
cussion, but there are few interesting
facts that may be stated. Since the
start of the 1915 season Scott has been
through five complete campaigns and the

LOCH LOMOND
YIELDS BIG ONE
G. Sinibaldi Catches Trout
Nearly 20 Inches Long—
About 4 1/2 Pounds Weight.
One of the finest specimens of trout
brought to the city this season was a
fine big speckled one landed by G. Sin-
ibaldi, opposite Johnston's Hotel, on
Loch Lomond yesterday. The big fel-
low weighed in the vicinity of four and
one-half pounds and measures 19 1/2
inches in length, and 1 3/4 inches around
the girth. He was hooked with a silver
sege fly which was strongly embedded
in the roof of the mouth. The fish gave
the angler a rugged fight. It is Mr. Sin-
ibaldi's intention to mount his prize. Last
year his partner, Ogden Smith, caught
the big one of that season, a little heav-
ier than that of yesterday. It was taken
in nearly the same part of the lake.
YANKIES PLAY BEFORE 108,200
FANS IN 5 CONSECUTIVE DAYS
(New York Times)
Playing to more than 100,000 home
fans in the space of a single week is
something new for the Yankees, but
the Huguenot team passed that mark in
five playing days of the week just en-
ded. But for the postponement of
today's scheduled double-header the
Yankees undoubtedly would have played
to 135,000 fans from Monday to Satur-
day, a mark that probably never has
been reached by any major league club.
On Monday morning 118,000 fans
filled Yankee Stadium to witness the
game of the week, and in the afternoon
a crowd of 98,700 jammed the
stands. The game on Tuesday drew 12-
600 fans, and on Wednesday 98,000 saw
the double-header. About 8,000 at-
tended the game with the Yankees on
Thursday, and the Friday crowd num-
bered about the same. This ran the
total up to 108,200 for seven games in
five playing days. With good weather
prevailing yesterday at least 80,000
would have turned out for the double-
header.

OFFER TO BACK UP CITY BOND ISSUE

Letter from Automobile Association Regarding Marsh Road Paving—Another Offer for Motor Fire Engine—New Sidewalk in Millidgeville Road.

A movement which gives a new aspect to the matter of the distribution of city bonds was started this morning when the New Brunswick Automobile Association, in a letter from Percy W. Thomson, the president of the common council, offered to underwrite the city bond issue to pay for the pavement of the Marsh road from the bridge to the One Mile House.

Commissioner Frink read the letter from Mr. Thomson calling the council's attention to the necessity for early repairs to this section of the road. He said that some of the members were willing to underwrite the bond should the city decide to do the work. The letter was referred to the commissioner of public works.

Commissioner Jones moved that Paul Dagero be permitted to surrender his lease of a piece of city land at Misep and that the lease be issued to Hugh Toner. The rental is \$10 a year. Carried.

The mayor read a communication from Eley & Co. in which they stated that they had submitted an offer to the commissioner of public safety for a motor driven combination pump and hose company, the cost to include the expenses of an operating and inspecting in its operation. No price was mentioned in the letter and Commissioner Thomson was not present at the meeting. He said afterwards, however, that the offer had not yet reached him.

On motion of Commissioner Frink, it was decided to recommend the laying of a fire-foot concrete sidewalk in Millidgeville road from Adelaide street to the old rope walk at an estimated cost of \$200. The commissioner said this piece was at present in a very dangerous condition.

The council will meet again in committee tomorrow morning at 11:30 o'clock, their fifth committee meeting this week.

JUNE BRIDES

(Continued from page 1)

Potter-Frodsham

A wedding of interest took place in Main street Baptist church at seven o'clock this morning when the pastor, Rev. David Hutchinson, D.D., united in marriage Miss Eva M. Frodsham, youngest daughter of Mr. and Mrs. John Frodsham, and Fred H. Potter of Digby, N. S. The bride, who was given away by her father, looked charming in a sand-colored tailored suit with Tuscan hat and Copenhagen trimmings, and carried a beautiful bouquet of roses. She was unattended. Following the ceremony the bride and groom left by the S. S. & C. for a honeymoon trip through Nova Scotia. While there they will visit Annapolis Valley and Wolfville, where the bride graduated from the Acadia Ladies' Seminary. They will reside in this city after summering along the St. John river. Mr. and Mrs. Potter were the recipients of a large number of magnificent presents in silver, cut glass and household effects. Included in the gifts were substantial checks from the bride's parents. Among the guests was Miss Lillian Hicke of Clementsport, N. S. who was a classmate of Mrs. Potter at Acadia.

Murray-Adams

An interesting nuptial event took place at three o'clock this afternoon in Brookville Methodist church when Rev. J. B. Gough united in marriage Florence Beaumont daughter of Mr. and Mrs. H. G. Adams and W. Cecil Murray, son of Colonel and Mrs. Daniel Murray of Springhill, N. S. The church was beautifully trimmed for the occasion by friends of the bride; the pulpit and chancel front presented a gorgeous scene of lovely June foliage banked in a very effective way. The ceremony performed under a floral arch of apple blossoms, honey-suckle and smilax, was witnessed by a large number of friends, the church being packed to its capacity.

The bride looked charming in a brown gabardine suit with hat to match and carried a large bouquet of roses. Both bride and groom were unattended. The bride was given away by her father. During the ceremony the wedding march was played on the organ by Miss Annie Murray, sister of the groom.

Immediately after the ceremony the wedding party drove to the residence of the bride's father where lunch was served at 4:30. Mr. and Mrs. Murray took the train for their honeymoon trip, which will include upper Canadian cities. On their return they will make their home in Sackville.

Among out of town guests for the wedding were Colonel and Mrs. Murray and the Misses Murray of Springhill, N. S. Numerous gifts testified to the popularity of the young couple, including presents from the Brookville Methodist church and choir and the Renforth Women's Auxiliary.

O'Neill-Barry

Fredrickton, N. B., June 9—St. Dunstan's church at seven o'clock this morning was the scene of the wedding of two young people well known in Fredrickton, Miss Gertrude Susan Barry, daughter of the late James Barry and Mrs. Susan Barry, of Fredrickton, and Hugh O'Neill, Jr., son of ex-Ald. and Mrs. Hugh O'Neill of this city. The bride was gowned in reindeer chamoise with sequin trimmings and wore a black picture hat. She carried a shower bouquet of brides' roses. Miss Martha O'Neill, sister of the groom, was bridesmaid. She was gowned in Pekin blue panne velvet and carried a large picture hat and carried a bouquet of pink roses and sweet peas. Nuptial mass was celebrated by Rev. F. L. Carney, pastor of St. Dunstan's. During the service, "O Promise Me" was played by the organist, and G. T. Fenney and Leo Cain sang "Ave Maria." Wedding breakfast at the residence of the bride followed the ceremony, after which Mr. and Mrs. O'Neill left for St. John and other points.

The bride's traveling suit was of taupe-brown with seal and genuine summer cap and green and brown hat. Mr. and Mrs. O'Neill on their return will reside in King street. The groom served overseas for several years. He enlisted in the west.

A Couch Hammock Needs No Appeal in Its Favor!

In the summer the thoughts of all, naturally, turn to things out-of-doors, and first in this direction as a natural course is a Couch Hammock, whether one lives in town or out; so comfy to peruse a favorite book on the generous and soft pads of the hammock, and even if "old Sol" is working overtime, the protection afforded by the canopy is ample.

Just now we are displaying three attractive Couch Hammocks in our window, and more inside. You may purchase the Hammock alone without the stand and canopy, or either one of these without the other; but we know the price will more than suggest the purchase of the outfit complete—Hammock, Stand and Canopy. Hammock equipped with resilient and rust-proof springs.
