15、京都市

But youth's the time for mirth and glee,

But youth's the time for mith and give,
And while the year is young.
Away with sombre thoughts—the Pree
Dwell on my jo und tongue.
Then hat while I a list received,
Of bubbles, bubbling from the fount,
On press has pressed for service;
Alike propaged for reversand ago,
The Sant, the Savage, or the Sage.

Lotherio, or Dervis.

Thus, like the ghosts by Banque led.
Your imp parades the illustrious sead;
And bids the greater States seize.
For truth's review, in simple guise,

First of old nations, mother of the new,

I reed om and laws and read a manufacture.
Long may where the preserve that, happy lay
Where her half Parona took a sacred stand.
And sterely fixed a counterpoise secure—
Rank for the rich, protection for the poor.

On who would for experiments wild whin, Higard a seven-told century's regime? Those only who could sever avery tie the series of Pathers fought nor tened to distribute in modern times reforms arise of the havely its varied tests applied. Building could thing all the residing state; the series of the havely at higher will good its inture fals. As troubled stream the

As troubled streams him with to surface throw, While all that's worth subsides arene below—for when the recopest of crision raves. The wise chdure the fury of the waves, Ferure; and certain, when the storm is past, To see the sun of Truth shine out at last.

New pass we to old Gaul's bright land,

And not, 'hal sive is begatells!'
Coning a tone, reseate all change,
And salt maintains its wonted range;
Wide a invention -wider still
texquasic s'aplays of skill.

nation, the man to sweeping onward to ever; man may wish to sweeping onward to rever; man may wish to stay its course, when the heaven above him is anclouded; and that all the myrad barks which or wd its basom, will all to be dashed streets of Rome, which he had upon the shore of oblivian, and their shattered to make in a solemn procession ed wrecks sink beneath the autlace of its

EUROPEAN INTELLIGENCE. The unexpected and extraordinary transi-tion in the state of the weather since Friday nated, a material influence on all articles of the body.—Ken Journal any part extended.

The spow and frost have extended as far west as Bristol, and northward throughout Bugland and Scotland, This upscasonable visitation has been the more impo-portune, as the previous hot-weather had much impeded the sowing of wheat, and the breadth of land, therefore, at present under seed is extremly limited. All field operations are now suspended and the flash may be the Liestenant Governor proceeded in State much higher prices. Since we last wrote, the alarm has spread throughout the King Iom and enhancement in the value of aggorditural produce, appear to have been alarms in since we produce, appear to have been alarms in since the hoped that the consequences will not be so serious as the consequence of the House of Assembly; the consequence of the House of Assembly; the consequence of the House of Assembly; the same that the consequence of the House of Assembly; the same that the consequence of the House attended accordingly, and His Excellence was pleased to deliver the following Specific that the consequence of the House attended accordingly, and His Excellence was pleased to deliver the following Specific to both House attended accordingly, and His Excellence was pleased to deliver the following Specific to both House attended accordingly, and His Excellence of the House of Assembly; the consequence of the House of Assembly; the c ed to bring their wheat to market wiless at appreheaded, yet we cannot divest ourselves sembly; or the presentiment that the result may have or the presentiment that the result may have a more preponderating effect on that trade, jesty's Government, I have called you to jeand on the corn laws, than at the present ther at this unusual, and I tear to amany of plaugh the snow into the ground, and the to ray before you, as I and directed to do with fields presenting at present a "wide extent of white," the stagnation in the out-door work despacehes, in answer to the Address of the has become complete, which with any docated thouse of Assembly respective the surrender ficient sum being secured to his Majesty.

In the desultory system of war carried on spain, there have been no results worth ntioning since the attack upon General Evans lines. The Journals which have attempted to keep up the narrative of events have involved themselves in the most inex. plicable confusions, so contradictory are the accounts. The merauding expedition of Go-mez has been more romanced about than ever was the exploit of the famous Cid. or Messrs. Crane. Alle Chaixote. The chief difficulty is to know Chaixote. The chief difficulty is to know what town in Spain he did not ener; after what town in Spain he did not ener; after what town in Spain he did not ener; after being reported as in possession of a great willimot Street, Freeze, Brown, Morehouse, freeze, Brown, Morehouse, freeze and be seed, for any of the preference to all other charges or payments to be made quarterly (that is to say) on the boundary of the street of the st know that Mendizable experiences the that the resources of the Government are nearly exhausted. Spain, so long misgoverned, is about to pass through the fiery ordeal.

Messrs. Tayler, Paimer. Connell, Robinson. It is already atterity disorgation, Johnston, Rankin and M. Leod on Rythe contending factions .- Edinburgh Obs.

To wake Boors and Sitoes waren proof.—
The is no propriety in making boots to weigh 20 weight, in order to keen out the cold and, water. A marganesi get about very fast with such a thought on his feet. It is better to have a sale of moderate thickness old a low heel, and when these we wore but have a adjuser put on. Eat the sole, as well as the upper leak, r. should be well saturated with some substance which is impervious to water; and this should be well worked into all the seems. This is a matter of impratance to all in our climate. People whoar most of the time in doors, can put on India ribber overshoes when they go out: but these will not thewer for farmers and others to knock about in the transver for farmers and others to knock about in the transver for farmers and others to knock about in the transver for farmers and others to knock about in the transver for farmers and others to knock about in the transver for farmers and others to knock about in the transver for farmers and others to knock about in the part of leaks and the same warm to the transver of lands rubber into small shreads (an old over show will answer). The India rubber must be dissolved in the oil. There are perhaps, either kinds of til which will dissolve the rubber, but Sanaca oil to the best. Let the vessels containing it be put in some warm place and heated and stirred frequently. It will not be perfectly dry: rub it of by the fire and work it into both sole and upper lag ther, and particularly into all the seams—make a regular evening job of it; then let the boot stend a few days, when they will not only be found impervious to water, but they will not only be found impervious to water, but they will wear twice as long an boots not astured with any similar substance. TO MAKE BOOTS AND SHOES WATER PRO

rew days, what they will not only be found imperrious to water, but they will wear twice as long as
boots not satured with any similar substance.

The sole of a boot, unless filled with some bleagaous substance, will in wet weather take up water like a spongel and hold it to the bottom of the
foot. If the sole is very thick it will only take up
the more water and hold it the longer. But if the
batter is made whiter tight, the boar is ead not be. was referred to the Committee of supply.

This day the House was ended result and soung as the body. The legs need nearly as much covering as the body. The legs need nearly as much covering as the body. They do not use any other than their Alress in answer to large that people general cellency made the following forly:

On motion of Mr. Wyer, the Bello Fish bly which has proved that a committee on The Cym Bello Fish bly which has proved the committee of Rivers, Beys &c.

A Petition from E. & J. Wilson, praying that Deties paid to head money on passengers the same appertaining for the then previous they had made provided that a stern dearer of the Committee of supply.

This day the House waited on the Lieut. Governor with their Alress in answer to ing the continuance of this Act, shall be used.

DEBAT HEN'S ACADEMY BILL

Mr. Hitt, the House went is a whole on the bill to establish rademy. Mr. Particles in the classic he should hike to hear withhe bill. It was rather unus to be expected from it. slied, that the object we fully es

all itself; it was, for threstablish ary of education; and noone coul

ject thought the object was, o get a tion. The promotion of elecation rable object; but to act of heavy required for that purpose. If the disher an uld go with the Trustees of the political promotion of the pol

said that it was well known the had repeatedly been called on a sable corporate bodies to sell land, who petitioned for this bill, wanter, to purchase land to build an Acintended rules and regulations of tailed in the bill. There would be this bill of the could be the bill. t this bill, if they could hold proper

s observed, that the Clergy were in from interfering with Graning vas considered that their elerical distribution, but sufficient for their attention, but

g, was of the same opinion. He demy, and that his clerical duties intent to because his attention. If he flock properly, he would have noting eige; and in other respects to we ment for the Rector to preside in One reason why the College was rest, that it was so entirely in the Clergy of the exhabitshed Church; inferences of opinion and disputeriong trustees of soch institutions, in sor to be exposed to them. He therefore hoped the bill would be beyond.

point. prinon with the ton. Speaker and er from Caueri. Caunty. This was I no doubt hed seat with a publicular of the House read. An he House for the was a very novel, es of analogy between this case and analogy between the House need in altering the full with a season and ten (bir. E.) thought the House need in altering the full with d not see who they should de s a right to redira'n Clergymen from a right to testan Ciercy men nonof Grammar Schools, because the
pandiaries of the Legislature, and
proper that Clergy men should no
by the House; but this wood of
ries desiring it had pointed of the
they wishes it to be effected, and hed, if the bill were passed in

said, that the Grammer School is ie, that Clergyman should note them, but only that they should at ers; ip fact, they were the surers, in fact, they were the to be peraidents of such scholar the Parish of 8t Stephen had use to pass this bill, and they to so if they had not been sate

stated, that the bill was to inc stated, that the bill was to inche the separating on Provincial had been a distinction as to religious ought to be made. But this without the service had been provided the service before the service the service that the service the service the service the service that the service the service the service that the service the service that the service the service that nse, and they had those for the of their own denomin a the House ought to comply with

e bill; but supposing that missio minued, then there would be n of the bill, and though

e Academy, approved of the Lill, and thought of the Rector as President of the greeily in its favour.

Talso supported the bill; and a ved, that he only wished its producted to the Grammar Schools y instances, the Trustees of the almost the only persons who dit from them. If the provisions e extended to then, it we have been public, and remedy the said this was a decidedly locally of therefore press any objects. at least have excepted the Gra-neen's County. His hon College e Trustees derived the whole ise Trustees derived the whole sommar Schools, but that certally in Queen's County. The Gase was most respectably conduct, and the was most respectably conduct, which was most respectably conducted a Westmorland, Charlotte Corp. i. York and many from St. Ja; his hon colleague had said coulier amner School in Queen's Corp. replied, that he admitted thank satablishment of as high an orders arry, and that there was a mafter so; though most of those School of the Proxince; but if was conducted in a highly elements.

chearved, that as there egema. y of opinion on this Bill, an theday, it would perhaps be I tress, and ask leave to sit again, notion being seconded and put carried.
