Very large and powerful animals like the bull, buffalo and bison, if attacked at all, are in the first instance attacked from the rear with a view to disable them. Having killed, the tiger almost invariably begins eating a bind quarter, consuming one or probably both. Sometimes he leaves the stomach and intestines as they are; sometimes he will remove them to one side, making a neat parcel of them. A tiger and tigress will finish an ordinary sized animal at one meal, leaving only the head.

OTTAWA, January 31st. Following is a full report of the address delivered by Mayor Hazen of Fredericton, before the Dominion Government at Ottawa, on the subject of the completion of the Short Line Railway, and also the remarks offered by Sheriff Sterling Mayor Hazen said :

SIR JOHN AND GENTLEMEN, -Before pre senting to you the memorial which the delegation has prepared, and which my brother lelegates have entrusted to me. I will ask our kind indulgence for a short time while make a few remarks. In the first place think it will be well to give a summary of the legislation which has so far been enacted concerning the Shert Line Railway. In doing so, I will be as brief as I possibly can in ustice to the subject, as I am aware that you are all thoroughly familiar with the matter, and I will simply go over the ground for the

By Act 47 Victoria (1884) chapter 8 the Parliament of Canada voted a subsidy of \$130,000 a year for fifteen years for a line of railway connecting Montreal with the harbors of St.

John and Halifax by the shortest and best practical route. In the following session of Parliament by Act 48 and 40 Victoria (1885-6) Chapter 58, this subsidy was increased to \$250,000 a year for twenty years for the construction of a read from the South Bank of the St. Laurence river opposite of near the city Montreal to the harbors of St. Andrews, Halifax and St. John, via Sherbrooke, Moosehead Lake, Mattawamkeag, Harvey, Fredericton and Salisbury, and this was then declared to the shortest and best practical route. On the 18th November in the same year, the International Railway Company having satisfied the Government of its ability to construct the road, an order in council was passed, authorizing the entering inte of a contract with that company, and or the fourteenth day of December following, a contract was entered into between the Inte national Railway Company and Her Majesty Queen Victoria represented by the Minister of Railways and Canals, in the preamble of which the legislation on the subject, was recited, and the company by the terms of the centract, undertook to well, truthfully and faithfully make, build, construct, complete and acquire (by running powers or otherwise) one to the Government, as last session he gave promise of being capable of handling the gallant Sir Richard in true Tupperean a line of railway commencing at the South bank of the St. Lawrence river at or near Caughnawaga: then in as direct a line as

A girl's face, where the budding rose of youthful beauty blooms and grows by nature's influence, sweet and good, To fuller grace of womanbood; Is there a sight on earth so fair? Consider well the raven hair Consider well the raver hair
That clouds the forehead pure and white;
The lovely eyes like stars of light,
In whose clear hazel glance is seen
The soul antonbled and serene;
The rips, bewitching lips, that part
With smiles like sunshine of the heart
And all the charms unnoted here,
That history away to year, year, That blossom sweet from year to year. Time changes all. The fairest day Of short-lived summer fades away, And on the wintry garden-bed
The petals of the rose are shed;
Time steals the splendor from the hair
And marks the brow with lines of care; But there are beauties of the soul That time and change may not control; The faith and love, that still are blind To others' faults, and good and kind, And swift to help with blessed deeds A sister's or a brother's needs, These grow with years in brighter grace, and add now beauty to the face.

CHAPTER XVII.

A DISAPPOINTED LOVER, Gladys stole away from the crowd a soon as she could do so with attracting

attention, and sped down to the reception room to find her lover.

He was there and alone, fortunately, as nearly all the guests were still in the hall above, and his face lighted with a luminately as the still of the state of us smile as she sprang toward him, glad-ess beaming through every feature. "Dear did Geoff!"
"My darling!" was all the salutation

that passed between them, and then for an instant Gladys was folded close to her lover's breast in a fond embrace.

"Oh, Geoff, I thought you had not come; I never got a glimpse of you until almost the last minute, and was so disappointed that I was about ready to break down," Gladys said, with a little nervous shiver, as she remembered how nearly her courage had failed her.

her courage had failed her.

"I was late, dear, and I knew you would feel it; but I do not believe you would have failed even if you had not seen me at all," he answered, as he fondly smoothed heak the clustering rings of hair from her throbbing temples.

"You are very good to say so, Geoff,"
Gladys replied, modestly.
"Very good to say so," he repeated,
laughing. "Why should I not say it,

when your praises are on every lip, and a plit might have been heard, if one had dropped, while you were addressing the fabulty and bidding your classmates fare-well. Poor girls I the crystal drops were entiful over the thought of parting."
