BOTH SIDES. A man in his carriage was riding along,
A gayly dressed wife by his side;
In catin and laces she looked like the queen,
And he like a king in his pride.

The carriage and couple he eyed; And Laid, as he worked with his saw on a log, "I wish I was rich and could ride"

The man in the carriage remarked to his wife,
"One thing I would give if I could—
I'd give my wealth for the strength and the health
Of the man who sawed the wood."

A pretty young maid, with a bundle of work." Whose face, as the morning, was fair, Went tripping along with a smile of delight,

She looked on the carriage; the lady she saw,
Arrayed in apparel so fine,
And said in a whisper, "I wish from my hear! The lady looked out on the mail with her work.

So fair in her calico dress, And said, "I'd relinquish position and wealth, Her beauty and youth to possess. Our minds and our t me we enploy In longing and sighing for what we have not,

not a troubled dream, and how long it would is deposed; science cannot travel without be before the waking. The seven years are gone, and the troubled dream drags on, like the nightmare oppression, which seems to stretch out to a pang of a thousand years' duration. and security, but for two circumstances—the indignities cast upon the legislators of the Republic, and the acts and demeanor of the soldiery. These forbade hope to many; but a multitude of gay—hearted Frenchmen were disposed to hope that the promised results would arrive; and, when they had once obtained order and security for a basis, they could erect upon them any structure of political institutions that might seem good to the nation. If they had been asked whether they were willing to wait seven years before beginning the construction of their liberties, would it have damped their spirits? If told that in seven years they would be living under a despotism without parallel in modern history, would they have used their last moments of possible concert in modifying the exhistory, would they have used their last moments of possible concert in modifying the experiment? or would they let it proceed on the responsibility of one man? Glad as we all are to dismiss questions of this kind when they carry pain in them, ready as we all are to comfort ourselves with the traism that what is

has given to Frenchmen, in the place of that once proud and gay existence which we all remember, not so many years ago? The non-political inhabitants feel the pressure of politics in a way which seems to them very hard. The old smoothness regularity, and ease of trade and daily life seem to be gone. Trade is bad; credit is impaired; and there is an amount of hopeless destitution in by-places which weighs upon all social transactions.—

THE SEAT OF GOVERNMENT. QUESTION.

Amongst the many Governmental matters been talking, and busily sending messages about the country, is the policy of Ministers at to the permanent Scat of Government. It was lately announced in Montreal as a settled and admitted fact, that that city is to be the fortunate place. But the story was soon thrown into sur Her Majesty got Mr. Cartier to consent to in good demand and slightly lower—pots 28s ber decision in favor of Ottawa being sustained. And so the advocates of several places are thrown into alternate fever and ague, as the newest rumor displaces another that is itself

yet quite fresh.

Now, if our readers will give up excitement for a few moments, and look where we will point them, they may become indepen-dent of, and superior to, all these stories.— We do not pretend to any special knowledge We do not pretend to any special knowledge of Cabinet counsels, but we can safely plead such knowledge as ('hough not special') is clear and decisive. It is this: the appeal to the Queen was made by the Ministry of Col. Tache, to which the present Ministry with out any protessed change of policy quietly succeeded. Both houses of Parliament joined in the reference to Her Majesty, and in a vote of money for carrying into effect her decision. Her judgment then is law. It is the completion of the legislative process for selecting a site and supplying the funds. When the present modified Cat inet came in, last August, it spoke of allowing a reconsideration of the question; and it is at this moment just where ing Vera Cruz dates to the 22nd. The and property. that declaration placed it. And where is that? Simply that of a law passed, but not vet carried out; and liable to reversal .hat does not intimate an intention to inthing; but simply to allow any one of the two lower estates of the Legislature to adopt a new decision and get it sanctioned by the other two. If the Legislative Council and the House of Assembly do not agree upon some place other than Ottawa, the Queen's Representative here and his advisers will have nothing before them but to carry out the Act place for which there will be a majority in each branch of Parliament, will thus devolve on those who oppose the existing decision.—

If the Cabinet wish a change they will propose one, and that probably in the Thronespeech at the opening of the coming Session.

We can say nothing of what they contemplate;

CARLETON-PLACE.

Thursday, January 6, 1859. RESIGNATION OF MR. SICOTTE.

The Hop. Mr. Sicotte has retired from the ministry and tendered his resignation of his seat in the Cabinet. The immediate and may not, perhaps be understood, until ulation is rife as to his probable reason for taking such a course and the effects it will produce on the future fluffling of cards in the political game.

Some of our cotemporaries, not very friend ly to the men at present in power, assert that Mr. Sicotte had become alive to the danger of, any longer, remaining in the sinking shi and attempts to effect his escape. That ministerial p sition and the unwillingness inability of the government to mature a policy embracing leading questions, in view of the approaching parliament, induced him resign. Another paper, an apologist for or organ of, the present ministry asserts that the whole trouble arose out of the Seat of Government que tion, on which it is confidently stated that Mr. Sicotte dissents from the policy of the Premier and his colleagues. The the 2nd Dec, Several vessels were slightly Legislature, and the decision of the arbitra-Sovereign at their own solicitation. CHANCING IT.

Mankind are desperate gamblers. Not only at the faro table and in the licensed sablandishments, but in private life, amid the domestic circle, and even in the Sick bed of friends, and the health and life of those dear to them, multitudes seem desirous to test bow close a game may be played with death, and how near the brink of the fatal precipice they can venture without toppling over. Strange that it should be so, yet daily observation confirms the assertion. And some after a few parrow escapes and near approaches to the silent land, become so emboldened, in their own cases and others, that Death might well ay in reference to them, as he is reported to have said in "The land o' cakes:"-

The Fur trade this year has been a healthy one in comparison with last. Manufactured goods have been disposed of at a fair profit, meet the requirement of the winter trade. Montreal manufactured fors have obtained a wide spread celebrity within the past few years, more e-pecially in the finer descriptio's, in ny of which are sent to the Uni ed Stat s and Briain. During the last 19 years the minufacture of fur goods has completely changed. Instead of exporting the raw ma-ter at to England, to be there manufactured by Eng's h operatives and brought back to Can.da, they are now taken from the raw sta e, dresseo, colored and manufactured in this country in a style better adapted to its wants, and at much lower prices, thus effecti g a saving to the community and imparting a direct benefit to the Province in the profitable employment of a large number of me-

Carl encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary of water passage, and which could not have been discharged in any other way. The tourth is a Cathartic, and accompanies the other properties of the Pills which engaged in puritying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in greater quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system; for they cannot remain when the ody becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they lo not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence a larger quantity of food and other matter is lodged, and the stomach, and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery until life is taken from the body by disease. Dr. Morse's PILLs have added to themselves victory upon victory, by restoring millions of the sick to blooming health and

disease. Dr. Morse's PILLs have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble fra a es have been acorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate case and strength, and take away all sickness pain and anguish, but they at once go to work at the toundation of the disease which is the blood. Therefore, it will be shown especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the prospect of a long and happy life will cherish and brighten your days.
