FINDS BROTHER DEAD IN BED

Charles Hilliker of Burgessville Expires in Woodstock.

Woodstock, March 17.—Charles Hilliker of Burgessville, a well-known Holstein breeder, was found dead in bed at the Y. M. C. A. this morning. He had slept with his brother last night; early this morning he was heard to moan, and when his brother investigated, he was horrified to find his brother dead. Deceased was here yesterday attending the annual sale of the Holstein Club. He was 50 years of age, and is survived by his wife and five children.

EASY FOR CRIMINALS TO SECURE EXPLOSIVES

Washington, March 17.—Withdrawal of supervision over the manufacture and sale of explosives in the United States by the repeal by Congress of war legislation, has made it easy for anarchists, safe blowers, and others, to obtain explosives for illegal purposes, said a statement issued today by the bureau of mines.

In urging legislation to control the handling as well as the manufacture and sale of explosives, the bureau asserted that the United States is practically the only civilized government in the world that fails to exercise a national supervision over explosives, and declared it is easier to obtain explosives in this country than in any other.

WILL STOP WORK FOR PRESENT ON HUDSON BAY RY.

Financial Conditions Do Not Warrant Going On For Awhile.

HAS COST \$23,000,000

Dr. Reid Says Western Lines Are More Urgently Required.

OTTAWA, March 16.—(By Canadian Press.)—There is to be no further work on the Hudson Bay Railway this year. On this, Dr. Reid was emphatic in the House of Commons this afternoon. J. A. Campbell (Nelson, Man.) the member for the railway, Hon. T. A. Cresser supported the idea, but said the present time was not propitious for further outlays.

Mr. Campbell declared the Government appeared to have forgotten its promise. After spending \$23,000,000 on the road it appeared to have been abandoned. There were important resources in the district traversed by the road, and the people of the West are demanding that it be completed. The Government is interested in the Government's present attitude, and those interests were not showing their hands.

Financial stringency, Dr. Reid replied, was the only reason for postponing work on the road having been held up, it was only possibly postponed until conditions were more favorable. Dr. Reid reminded Mr. Campbell that when 310 miles of the line were operated with a bi-weekly train service the revenue was not sufficient to pay the train crews' wages. "If money were available this year," said Dr. Reid, "I would use it to extend some railways in the West. I would not use it to extend the Hudson Bay Railway at the present time."

Thomas Hay (Selkirk) moved in amendment that completion of the Hudson Bay Railway be carried out when conditions permitted, and that the road be completed as soon as possible. This carried, and debate on the resolution was adjourned.

Up to Commission.

Earlier in the afternoon the House took up Major C. G. Fowler's resolution, asking that the upkeep and control of the ancient walls and fortifications of Quebec be vested in the national battlefields commission. The minister of militia said there was no objection to handing over part of the fortifications, but some must be retained by the militia department. Engineers were now making estimates of the cost of rebuilding and upkeep. Major Fowler withdrew his motion on receiving this assurance.

The release of W. H. Tapley of Montreal from penitentiary on ticket-of-leave, after serving two years of a thirty-year sentence, was discussed on a resolution of Mr. F. Casgrain (Charlevoix-Montmorency) which declared that Tapley should be rearrested and sent back to the penitentiary. Mr. Casgrain declared that Tapley was a notorious usurer and money-lender, who was extorting huge sums from his victims, in some cases as high as 120 per cent.

Hon. H. G. Guthrie replied that Tapley had been released on ticket-of-leave on representation which came in very serious doubt on the evidence which formerly convicted him. He said as he complied with the ticket-of-leave act he could not be rearrested. Mr. Casgrain's resolution was withdrawn.

Spent \$23,000,000.

J. A. Campbell (Nelson) moved for a resumption of the work on the Hudson Bay Railway. He said that the

West was keenly interested in this project, and quoted Sir Robert Borden as saying in 1914 that the road would be finished without unnecessary delay. Now, after \$23,000,000 had been spent, it appeared as if the Government was abandoning the work.

Mr. Campbell said that the Hudson Bay Railway had met with the support of both political parties. He quoted from the speeches of members from both sides of the House, in which they expressed their support of the project. He stated that more money was spent on the construction of this road during the four-year period from 1914 to 1917 inclusive, than had been spent in any other period since the project was started. It was incomprehensible to him, unless it could be explained on the basis that the Government thought it might use the railway for war purposes. Engineers had reported that the road was perfectly practicable and feasible.

Valuable Minerals.

There were very valuable mineral deposits in the country traversed by the road, and the Government thought it would be made once the road was through. Navigation in the straits was open at present for about four months. By using modern aids to navigation, this period could probably be extended to five months in the year. Mr. Campbell said it appeared to him that there were interests who were responsible for the Government's negligence in regard to this project. These interests were at present in the hands of the Government, and he hoped the resolution, seconded by Andrew Knox (Prince Albert), would be carried.

The carrying of this resolution meant the carrying of the expenditure of public money, and it was not, he thought, in order for a private member to introduce such a motion.

Speaker Rhodes reserved his decision on the matter, the debate proceeding in the meantime.

Hon. W. S. Fielding said there was nothing to prevent a private member introducing a resolution which called for an abstract expression of opinion, as this one did. He requested the speaker to give particular attention to this phase of the question when making his ruling.

Fielding Sustained.

Following a brief plea in support of the early extension of the railway to develop the northwest portion of Canada by Andrew Knox, Speaker Rhodes gave his decision, which sustained Mr. Fielding's contention.

Hon. Dr. Reid then explained that the railway had not been resumed on the railway owing to financial stringency. He stated that the line was being abandoned, and that he was not being discriminated against, as many others throughout the West were suffering similar experiences. He stated that the line, when 310 miles of it was in operation, operated at a loss. The revenue from traffic when one train ran twice a week failed to pay the crews' wages. There was no intention, however, he added, to abandon the construction of this line. It is merely postponed until conditions warrant the expenditure.

More Important Work.

Dr. Reid intimated that the Government was not in a position to undertake railway projects which were, in his opinion, much more pressing than the construction of the Hudson Bay Railway. Mr. Campbell, he said, had drawn attention to the fact that delegations had supported the Hudson Bay project, and that resolutions advocating its construction had been re-introduced, however, that resolutions and delegations asking for railway construction in many places came to a Government.

The Government was faced with a great amount of work on its national system, and a loss which would persist for some time in the present year. The Grand Trunk Pacific and National Transcontinental was \$20,000,000 per annum, and the Government was faced with the Government to go out and find the money to pay for the Hudson Bay railway which would probably add to this deficit. It is the minister of finance who is responsible for the Hudson Bay railway extensions, said Dr. Reid, it would be better to have the money to pay for the West where transportation facilities were much more urgently needed than in the Hudson Bay district.

Would Be Supported.

W. D. Euler (Waterloo North) declared that if Dr. Reid had stated that the Government would not go on with the Hudson Bay Railway, he would have been supported by a large number of members. Already a large sum of money had been sunk in this rather uncertain proposition.

The railway was designed to carry wheat to Port Nelson, but experts had testified that the road would be practically useless for three months of the year when navigation was safe to the Hudson Straits.

Mr. Euler expressed the view that the Hudson Bay Railway were built in would be productive of great benefit to the West where transportation facilities were much more urgently needed than in the Hudson Bay district.

Is Not Feasible.

E. W. Nesbit (Oxford) said that as far as he was concerned, the Government would not proceed with the construction of the Hudson Bay railway. It was not feasible for many reasons. The navigation was limited to three months in the year; it would require two drafts of grain to be stored in the open season to keep Port Nelson free of silt; it would be necessary to construct elevators and a special class of ships that could not compete on other routes would have to be provided. Mr. Nesbit did not believe the Hudson Bay Railway would reduce the cost of transportation. It would be suicide to add in any way to the railway problem at the present time.

The people of Canada did not comprehend what the country was up against in the present railway problem. The Government was not to blame, and a Liberal, in 1904, he had advocated building the Transcontinental Railway, and if his efforts gained him one vote, he would be put in jail for it. If his support in the Commons were to carry the Transcontinental Railway legislation, Mr. Nesbit would be pleased to see it uniformly hampered by over-construction.

Thomas Wren (Leithers) also opposed the resolution.

Suggests Committee.

He suggested a committee from both sides of the House to investigate the railway situation. When members of the Opposition criticized the Government for the railway situation they were talking for a purpose.

"We members of the House might as well make up our minds not to play politics as far as our minds not to play politics," Mr. Nesbit said, when declaring that the House must face the situation as a unit. It was necessary to get in touch with the people with a view to reducing the wages. If wages were not reduced the railways would be forced to cut down their services to such an extent that thousands of men would be thrown out of employment. Transportation charges must be reduced and the wages under the Meadaw award must come down if this was to be effected. The railways must be made to earn their operating expenses.

Thomas Hay (Selkirk) moved an amendment to the resolution to the effect that the Hudson Bay Railway should be resumed as soon as the financial condition of the country permitted, and that the project be completed with the least possible delay. He was satisfied that the Hudson Bay scheme was bound to be a great success some day. It was becoming one of the biggest trade routes of the world. But he would have to oppose its completion for the present on account of financial difficulties. The Government's paramount duty at the present time was to bring the country's expenditure within its income at the earliest possible moment.

The vote on the amendment was taken at 6 o'clock, and it was carried. Mr. Campbell then sought to move the adjournment of the debate on the main motion as amended. He declined to allow the motion to go to a vote. Thus, the subject can again be discussed.

54 NOMINATED FOR BOARD OF BENCHERS

Windsor Parent Takes Action Over Injuries To Eight-Year-Old Son.

[Special to The Advertiser.]

WINDSOR, March 16.—Instructions were received this afternoon by Wilson and Wilson, barristers, to start an investigation involving the Windsor Board of Education and Dr. E. Biehn, school dentist, on behalf of William Chantier, a Wellington avenue citizen, who alleges that serious personal injuries were suffered by his eight-year-old son as a result of Dr. Biehn extracting four sound and permanent teeth.

The action, it is stated, is taken because the school board has offered no explanation to Mr. Chantier's demand for an investigation of his charges. The writ will be served tomorrow, when the amount of damages claimed will be made public.

The case also involves Mrs. Muriel Nash, supervisor of public school nurses. Miss Nash, the trustees declare, is guilty of "disloyalty to the board," because she is said to have taken excep-

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Nothing else is Aspirin.

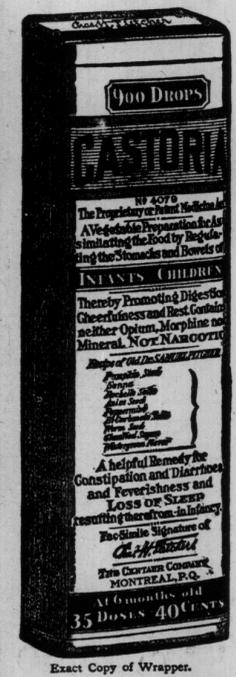

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For Fletcher's CASTORIA

Your Friend, the Physician. The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moments call that is the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. He knows. MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA. GENUINE CASTORIA ALWAYS Bears the Signature of Dr. H. H. Fletcher.

ACCUSES GOVT. OF LACK OF PRINCIPLE
Eamonn de Valera Denies Rumors of Overtures For Peace.

DUBLIN, March 16.—Eamonn de Valera, "president of the Irish Republic," gave an Associated Press correspondent today the first newspaper interview since he was elected to Ireland from the United States. Extraordinary precautions were observed to prevent betrayal of de Valera, the correspondent being guided to him by a member of the "Irish Volunteers" and kept under surveillance for an hour after leaving the Sinn Fein leader.

Among other things, de Valera accused the British Government of lacking principle and statesmanship. "England," he said, "is trying to win by playing on human weakness. As a matter of fact, she is playing the strongest quality of the Irish people—their spiritual quality. The young men of Ireland are saying to themselves: 'A best the span of life is only 70 years. We must all die. So why not now in circumstances like these?'"

WANT TRIAL BY JURY. SARNIA, March 16.—William Hunter, charged with stealing merchandise, consisting of ladies' hose and shoes from a G. T. R. car, and Oscar Anderson, similarly charged with the theft of merchandise from a vehicle on the G. T. R. on March 10, both elected trial by jury when arraigned yesterday. Preliminary hearings were enlarged till the afternoon of the 17th. The amount of bail mentioned in the former case was \$500 and the \$100 cash bail furnished by the latter was renewed for his appearance next week.

ST. THOMAS, March 16.—A survey is being made by Dr. J. C. Miller and the department of education, in relation to the erection of a joint technical college and junior high school in St. Thomas. Data will also be collected in connection with the changes in the local educational system that must be made to meet the requirements of the adolescent school attendance act, which goes into operation next month. The campaign will be most required to meet local conditions in the department of education. The results of their investigation will be given to the board of education.

ST. THOMAS, March 16.—A street donkey, after being refused admission on ball on a similar charge, was again today, but there was no response. Under the arrangement arrived at, the defendant is produced by Monday. The bail is forfeited and is scheduled charges are the result of activities of "P. F. H." detectives following the recent pilfering of a freight car.

THE PROBLEM

The problem is to draw a chain of circles once across the chart, from the first column on the left to the last column on the right, selecting the figures to encircle which you can obtain the greatest difference between the sum total of the even and the sum total of the odd figures. The odd figures are 3, 7 and 9, and the even figures, 4, 6, 8. By "sum total" is meant the figures added together. That is, you are to take the odd figures you put circles around, and add them up; then the even figures, and the difference between the two totals is your total. It makes no difference which of the two sum totals is the larger; the greatest difference you can obtain either way is what counts.

The chain must be drawn in continuous sections of either three, four or five circles to a section. "Section" is meant three, four or five circles in a straight line. You may use either number of circles you wish in each section. The sections of the chain may be either up or down, or to the right, but not to the left. That is, in the first column by drawing either three, four, five or six circles up or down, as you wish; then proceed to the right, then up or down again; then to the right, then up or down again; then to the right, then up or down again; then to the right, then up or down again. The chain must end with either three, four or five circles in this column.

ILLUSTRATION

The accompanying illustration explains what a chain of circles is. The first section, it will be noted, consists of four circles; the second, three; the third, three, and so on. The sum total of the even numbers, viz., 4, 6, 8, 2, etc., 82. The difference between these totals is 142.

AFTER THE "FLU" WHOOPING COUGH

Four Children Had WHOOPING COUGH

Whooping Cough, although specially a disease of childhood, is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy and early years causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in the family than male children.

Whooping Cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness and cough.

Dr. Wood's Norway Pine Syrup is highly recommended by the medical profession where for the relief of this trouble as it helps to clear the clogged-up air passages of the mucous and phlegm that collect, and in this way bring on the "whoop" which brings the so-much-sought-for relief and heals and soothes the inflamed and sore throat.

Mrs. J. M. Rouse, Imperial, Sask., writes: "After the 'flu,' just fall, my four children took whooping cough and one of them developed bronchitis. After using two or three bottles of Dr. Wood's Norway Pine Syrup they were greatly relieved of their nasty coughs. It is an especially good remedy for children, and is so nice they take it readily, and ask for more."

Dr. Wood's Norway Pine Syrup is 35c and 50c a bottle at all dealers. Put up only by The F. M. Milburn Company, Limited, Toronto, Ont.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles, such as indigestion, flatulency, sourness, stomach-ache, and inability to retain food are in probability cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of free acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To stop or prevent this souring of the food, a neutralizing agent should be used to neutralize the acid, and make it soft and harmless, a teaspoonful of blaud's magnesia, a good and neutralizing rector of acid stomach, should be taken in a quantity of water, or whenever sourness or acidity is felt. This sweetens the stomach, and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as blaud's magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work without the aid of irritating and dangerous stimulants. Magnesia comes in several grades, but the best and most reliable is blaud's Blaud's Magnesia, which is especially prepared for the above purposes.

GENERAL PANET MAKES INSPECTION AT CHATHAM

CHATHAM, March 16.—Gen. Panet, D.S.O., of London, commanding District No. 1, and Major Cortis, general staff officer, inspected the local machine gun company, sign company, and also the Kent Regiment Cadets tonight.

An officer's course for the Kent Regiment Cadets Corps, No. 891, was successfully started last week. In the classes will be held every Tuesday night. It is possible that a cadet camp may be held near this city this summer, owing to the widespread interest that is being taken in cadet work.

A BARREN SESSION.

There is every indication that this is going to be a barren session at Ottawa. The speech from the throne presented a rather meagre bill-of-fare, and the Government is evidently not going to go out of its way to increase the allowance.

In support of their request for increases the teachers not only pointed out that other places are much ahead of London in the remuneration of their teachers, that during the war period they received no increases of salary, and point to the specific action of the city councils of 1919 and 1920 in giving the city officials boosts of from 35 to 100 per cent over the salaries of 1918.

It is announced that the budget will not be down till April. The promised tariff revision is evidently requiring more thought than was at first planned to give to it. There have been some ominous happenings since the tariff commission finished.

There is not too great a tendency in this country to "knock" England? By England we mean Great Britain. Sir Philip Gibbs, the famous war correspondent, speaking in Toronto, said that the gloomy pictures that had been painted of England, in Canada and elsewhere, had been overdone.

We seldom hear of a Canadian who has newly returned from a trip to the other side of the Atlantic but has something to say about "the spirit of unrest" that is supposed to have become chronic in the old country, the high price of everything, and the general discontent of the people.

All things considered, the people of Great Britain are about as level-headed a race as there is in the world, and are not readily carried away by the ebullitions of tub-thumping orators, or street-corner politicians.

In this the people of Great Britain have an advantage over newer countries where foreign elements of the most heterogeneous kind assert themselves at every turn of the national wheel.

marking that when in the midst of all their troubles the people of England could find time to read such articles, and also to write them, that country should have no fear of her future.

BOARD VS. COUNCIL.

The fight between the board of education and the city council over the board's estimates, which the council claims are still too high by \$70,000, despite the fact that on Monday the trustees cut some \$35,000 off by dint of paring where they felt it was possible to do so without impairing the efficiency of the schools of the city, has naturally directed attention to the fact that a large item of the board's expenditure is the teachers' salaries.

The amount set down in the estimates for this purpose this year may properly be considered under two heads. First, the ordinary and automatic increase which forms part of the board's contract with the teacher, and, secondly, the special increase allowed by the board this year after a full consideration of the request of the teachers that their salaries be brought more into line with those being paid in sixteen other cities and towns in the province.

Where are the rooms that once rang with your laughter? Where are the stairways that echoed your feet? Oh, the long vigil you wait them to keep!

Where are the rooms that once rang with your laughter? Where are the stairways that echoed your feet? Oh, the long vigil you wait them to keep!

ALL SET.

[Columbia Jester.] She—I wish God had made me a boy. He—He did. I'm he.

HEIR TO THE OPEN.

[Minna Irving.] With his head in the stars and the moon round his neck. And feet that can hardly the common earth tread.

ABROAD AT HOME.

[Calgary Alberta.] Place—A motion picture theatre in a remote country town. Time—Any night.

INSPIRATION.

[Montreal Star.] What is the perfect life and how may we attain to it, how reach the final goal where beauty is, how bend the brittle soul.

EVERYTHING.

THE OCEAN. [By Oscar Williams.] Do you hear the sounding, The innumerable sounding Of the ocean pounding On the shore?

PLAYED THEM BOTH UP.

[London Tit-Bits.] A boy was playing with an iron hoop in the street, when it bounced through the railings and broke a window in the area beneath.

A TOUCH OF ROMANCE.

[London Daily Express.] The King of the Belgians has been awarded the Distinguished Flying Cross, and has earned it. The story, Alberto a secret for most people, of his personal

reconnaissance over the lines in British aircraft gilds a little more the romantic figure of the combatant king. In those dark days a king has little chance of distinguishing himself in battle; the King of the Belgians was given his chance by Fate—as was the Prince of Wales—and made use of it like any paladin of the story books.

THE COMMON TOUCH.

[Literary Digest.] ("Dolls, dolls' furniture, colored bricks, and other playthings from the tomb of a little Roman girl of the time of Tiberius have just come into the possession of the Berlin Museum.")

Little dead maid from the time of Tiberius. You have been sleeping so long with your toys: You must have hushed them with whispering mysterious.

When you had kissed them and sung them to sleep. "You must be quiet and wait till the daylight." Oh, the long vigil you wait them to keep!

Where are the rooms that once rang with your laughter? Where are the stairways that echoed your feet? Oh, the long vigil you wait them to keep!

Where are the rooms that once rang with your laughter? Where are the stairways that echoed your feet? Oh, the long vigil you wait them to keep!

OTHERS' VIEWS.

THOSE STAGGERING DEMANDS. [Quebec Chronicle.] Now that the Government has taken the roads over, the truth is becoming increasingly evident that they cost just so much to operate and maintain no matter how they are run.

When the farmers showed an intention of setting up a farmers' government, they pronounced the doom of the extra representation that has been allowed the rural districts in Parliament.

THE SOVIET SIGNED UP.

[Saskatoon Star.] Labor and socialism the world over are proving "too materialistic" for the Moscow International. The manifesto launched at Montreal by the American Federation of Labor, calling on organized labor the world over to "let the Soviet savages know what labor of the civilized world think of their bestial system," said to protest against "the ruthless persecution and slaughter of labor unionists" is but one indication among many that this is working to destroy the Soviet regime.

COURAGE AND MODESTY.

[Montreal Herald.] Lieut. Michael O'Leary, V. C., has been made a life member of the Ottawa branch of the Great War Veterans. The association is honored in having so distinguished a member.

WHAT HE OVERLOOKED.

[Toronto Star.] When ex-kaiser Bill yearned the other day for the good old middle ages, it escaped his memory that medieval kings, whatever their failings, did some fighting for themselves.

IS IT A COINCIDENCE?

[Hamilton Herald.] The nearest approach to Russian socialism on this continent is in North Dakota, where there have been in recent years some bold socialistic experiments—co-operative store, and marketing, a state banking system for the benefit of farmers, state insurance of various kinds, state flour mills, etc.

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is of the Catarrh, success is general if the sufferer persists in the use of Catarrhose, and thereby drives Catarrh out of the system.

BILIOUSNESS

Constipation and Headaches Quickly Relieved by FIG-LAX

Big Eaters Get Kidney Trouble

Take Salts at First Sign of Bladder Irritation or Backache.

The American man and woman must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headaches or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home because it can make a mistake by having a good kidney flushing any time.

Too Fat?

Do not try to become slender by drastic doses of thyroid or salts. Reduce weight and wasteless; lose double chin, etc. by the Kowin-Kowin system. The shadow on this picture gives you an idea how absolutely and felt. By taking Kowin and following each direction of Kowin-Kowin you will reduce from clumsy figures to graceful proportions. Now this method is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home because it can make a mistake by having a good kidney flushing any time.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe To Bring Back Color and Lustre To Hair.

You can turn grey, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Weyth's Sage and Sulfur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually save a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

MAY BE VICTIM OF RUM-RUNNERS

Body of Roy Schindler Found Hanging From Row Boat.

BRIDGEBURG, March 16.—The body of Roy G. Schindler of Buffalo was found hanging from a rowboat drifting near Motor Island, close to the United States side of the Niagara River at 10 o'clock this morning, and it is thought that he may have been murdered by rum-runners who possibly had an appointment with him. One foot was caught beneath the seat, and his head was in the water. It was evident that he had received blows on the head from some instrument, but his death is attributed to drowning. It is said that Schindler had about \$7,000 with him when he met death, and also two diamond rings, all of which are missing. It is also said he had about 20 cases of liquor when he left Bridgeburg. No liquor was found in the boat.

TOO MUCH DEADWOOD IN TEMPERANCE ACT, DECLARES MR. RANEY

Attorney-General Plans Amendments At the Next Session, He Tells Critics—Sidesteps Questions Regarding What Will Be Done With Provicinal Police.

TORONTO, March 16.—Opposition members of the Ontario Legislature spent several hours today opposing the bill sponsored by Hon. W. P. L. Raney, providing for the creation of the office of the commissioner of Ontario provincial police. Hon. G. Howard Ferguson and H. H. Dewar, K. C. did their best to draw from the attorney-general a statement as to who would be appointed to the position. The attorney-general asked outright if it was the intention of the opposition to supersede the superintendent Joseph E. Rogers, who is now head of the provincial police. "I am thinking about the matter," said the attorney-general. "The matter must be considered by the government and action may come later." "You have made up your mind and you do not propose to tell," said Mr. Dewar.

Not Yet Decided. "I have not made up my mind," replied Hon. Mr. Raney to a question of half a dozen persons for the position. "Will this bill do away with license inspectors in the several counties?" "Oh, no," was the reply. "Every license inspector is a representative of the Ontario provincial police." Hon. G. Howard Ferguson was very anxious to know whether in drafting the bill which provides for the amalgamation of the forces which will enforce the general law and the temperance act, the attorney-general had consulted the head of the provincial police force.

No Use Consulting. Hon. Mr. Raney stated that Superintendent Rogers when testifying before the Ontario temperance committee of the Legislature, had said that the branches being opposed to the two views of the bill were the one headed by the attorney-general and the other headed by the attorney-general of Alberta. Hon. G. Howard Ferguson ventured to have the opinion of a man who had spent thirty or forty years of his life in police work rather than have the opinion of an attorney-general who had only been eighteen months in office. The attorney-general said that the Ontario temperance act at present was full of deadwood, so far as the action of the Legislature a bill would be brought down to amend the act. He came up to the question as to what was to be done with the license inspectors under the bill he is now trying to pass through the House, would have the duties of enforcing the temperance act taken away from them. Will Drop Clause. The attorney-general told the House that he had decided to drop a clause in the bill, which provided for the appointment of a chief officer in every county.

Some Hot Shots. Much of the time of the House was taken up by a controversy between Attorney-General Raney and Dr. Forbes Godfrey regarding Smith and Hanna, two provincial constables, who, according to the Ontario Temperance Act, were dismissed by Inspector W. J. Linnin of Windsor, because they refused to spy on the Ontario Temperance Act. The attorney-general said that Linnin was appointed by the attorney-general, and that it was fair to sample of appointments made by Hon. Mr. Raney, he could not be entrusted with the task of selecting a commissioner of police. Dr. Godfrey, West York, reminded the attorney-general that he had informed the Ontario temperance act committee of the Legislature that it was not his intention to supersede Superintendent J. E. Rogers. This the attorney-general promptly denied. Capt. J. E. Thompson and H. H. Dewar, K. C., supported the contention of Dr. Godfrey. Major Toimie thought the attorney-general had intended to convey the idea that he was not going to appoint Superintendent Rogers.

Wants Information. "Why did he go to the reporter and ask him to keep it out of the paper?" "I had made some remarks about the gentleman in question which I thought should not be made public," replied Hon. Mr. Raney. "Nobody has been definitely excluded. My impression was that it would not be a good thing to appoint Mr. Rogers." M. M. MacBride, South Brant, opposed "establishing a dictatorship in freedom-loving Ontario." He would not let the bill held up at least for the present session. Hon. A. E. Ross, Kingston, and Major A. C. Lewis opposed the bill, as also did G. G. Halcrow, who said "We are putting men in the scrap heap who know more than we do." The discussion continued until a late hour. Important Amendment. Important amendments to the workmen's compensation act were contained in a bill which Hon. Walter Ross introduced in the Legislature this afternoon. It mostly affected schedule 2 industries, which include railway, mail, ship, express, telegraph and telephone companies under other classes. It is set forth under the proposed amendments that employers in this schedule are required to re-employ injured workmen at suitable remuneration and work. Any man not so re-employed shall be considered to be permanently totally disabled or disabled to the extent of the difference in his earnings before and after the accident, and the employer shall be liable to pay compensation in accordance therewith. It is left to the discretion of the board of modify this section in respect to any industry. The section is retroactive. Provides For Pension. Another amendment regarding schedule 2 industries provides for the creation of a pension fund to safeguard dependents of injured workmen, similar to that created under schedule 1, and to amalgamate the two funds. All pensions now being paid under schedule 2 are to be reviewed and the employer will be required to pay into the fund a sum equal to the capitalized value of each award. Deposits now standing to the credit of any award will be deducted from the capitalized value. The pension fund thus created will hereafter be liable for the payment of all awards whether for accidents happening before or after the amendment is enacted and employers shall be released from all individual liability. In order to meet any default of schedule 2 employers who may have heretofore or hereafter occurred, the board may at any time assess the employers in an amount not exceeding in any case 1 per cent of the employer's accident cost for the year. The assessment including government employees has been added at the request of certain departments, as for instance, the northern development branch of the Ontario Government. For Farm Laborers. Another amendment announced by the minister was to allow the workmen's compensation board to grant compensation to farm laborers and domestic servants under part 1 of the act, on the request of the employers. These are the only two classes ex-

M'FADDEN AND HOTRUM FACE SERIOUS CHARGE

One of the Two Killed Druggist Sabine, Says Jury.

TORONTO, March 16.—Responsibility for the murder of L. C. Sabine, druggist, this city, was placed by a coroner's jury tonight upon either William McFadden or Roy Hotrum. John Conley, a third man in the party of bandits, who is also under arrest charged with the Sabine murder, testified at the inquest that he had not gone to the Sabine drug store, but had asked McFadden and Hotrum to go. The latter replied: "Nothing, and I had to plug him to get away."

Waiter Hulse, driver of the motor car used by the bandits, who is held as a material witness, testified that when McFadden and Hotrum returned to the car after having been in the Sabine store, Hulse said he had to punch the man in the stomach. Hulse said he did not know at the time that the man who had been shot. McFadden and Hotrum were at the inquest, but Hulse said he had received a short distance from the drug store, while McFadden and Hotrum had received \$8 for his night's work, he admitted. Conley, in his evidence, said he had lent Hotrum his .38-calibre revolver preparatory to the latter starting on his fatal errand.

SINN FEIN HECKLERS WERE THROWN OUT

CHICAGO, March 16.—Police reinforcements were called tonight to Orchestra Hall to quell a tumultuous audience gathered to hear Sir Philip Gibbs, the English author and war correspondent, who spoke on "The Irish Question." A dozen hecklers, said to be Sinn Fein sympathizers, were escorted from the gallery to the street and allowed to go free.

WINGHAM MEN WERE EACH FINED \$200

Pleaded Guilty At Blyth To Infraction of the O. T. A.

[Special to The Advertiser.] BLYTH, March 16.—William Patterson, jeweler, and Albert Loutitt, butcher, both of Wingham, were each fined \$200 and costs by Magistrate Reid of Goderich here on a charge of a breach of the O. T. A. laid by Inspector Pellow of Goderich. The case was the outcome of the recent shooting affair at Wingham. Both Patterson and Loutitt pleaded guilty. A largely signed petition was presented to the magistrate by many Wingham people asking the magistrate for leniency in the case. Magistrate Reid also heard a charge laid by Inspector Pellow against Dr. W. J. Milne, who, in addition to being a doctor here, is also a drug store. The charge was laid under section 41 of the O. T. A. It was alleged that Dr. Milne obtained 36 bottles of liquor, and that in two weeks only three bottles were sold. He also obtained liquor in certain preparations which he sells as medicinal. The magistrate ordered that the charge be laid under section 41 of the O. T. A. and will hear further evidence at Goderich.

CRAWFORD MUST SERVE SENTENCE

License Commissioners Will Not Entertain Petition For Release.

ST. THOMAS, March 16.—Official information has come from the board of license commissioners that the sentence given Lawrence Crawford, Port Burwell, for selling liquor would not be varied, and that he must remain in jail until the three months he has expired, although through his infirmities he is unable to take care of himself. Application may now be made to the attorney-general's department for a change in the penalty, making the punishment a monetary one, and substituting a fine for the prison term. Crawford's stay in jail is an expense item in the management of that institution.

WILL RUSH WORK ON GOOD ROADS, BIGGS DECLARES

Hopes To Have 1,800 Miles in Use by Next Fall.

[Special to The Advertiser.] GUELPH, March 16.—Speaking to the Wellington and Waterloo Counties Good Roads Association here tonight before representatives from Guelph, Kitchener, Waterloo, Galt, Preston, Hespeler and Guelph and Waterloo Townships, Hon. F. C. Biggs, minister of public highways, in outlining the Government's highway scheme, stated that he hoped to have every mile of the 1,800 miles designated in the scheme in reasonable shape for the people to use by next fall. The system would not be completed by that time, he said, but the department would insist on giving immediate results.

The Rich Flavour of CANADA GREEN TEA

is due to the freshness and purity of the leaf. He also stated that the contracts for largely because of the war. But while \$2,500,000 for road work this year had the roads were marking time, trucks already been awarded, and his department was five months in advance with the result being that the roads were done their work over last year. His good scheme he characterized as the one of the biggest problems in the largest public-ownership undertaking in the province today, because it benefited everybody in every circle of life. "Ontario," he said, "had not kept pace with the times regarding road building in the last six or seven years, there would be no opponents to it."

THE RAVENOUS WOLF

Storing up food has no part in his savage nature. All summer long he gorges himself on his prey...

A good enough life for a savage wolf, but you cannot afford to take chances with the future.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks. The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.
