Bayly, hospital trustee, in the place of Mr. Thomas McCormick, and a school board composed of the same trustees as those who superintended the instruction of our youth in 1902. It was said in The Advertiser yesterday that the day was enlivened by no extraordinary features, and that probably the vote cast would be small. This was true. Election days are invariably days of at least superficial calm. Excitement rarely shows upon the surface, although there is in the individual breast, the stirrings of an unusual tumult.

The interest that was taken in the election was by far less keen than is customarily shown, which was due, of course, to the absence of a contest for the mayoralty. The vote recorded was less by big figures than that which was polled a year ago. If two men had been running for mayor it is reasonable to supose that a much bigger number of voters would have been induced to look for their poiling booths and place their crosses opposite the names of those nominees whom they considered the fit and proper persons to control the affairs of this municipality during 1903. The street scenes peculiar to election night were in evidence last night. Long before 7 o'clock a large crowd had gathered in front of The Advertiser building to get the returns. By 8 o'clock this had swelled to large proportions, and apparently the greater portion of it remained until the final returns had come in. On street corners little groups discussed the chances of the various candidates, guesses were made as to majorities and an occasional wager laid as to the results. It was a great night for the small boy, and vivors. Ald. Abram, perched upon his he was very much in evidence. link our names with mismanagement of the hospital. "Politics have never entered this issue to my knowledge, either in the choosing of a candidate or in our

methods of work. "The present arrangement in the free wards at the hospital has meant loss of from twelve to fifteen fourth-year men, who left, giving as a reason the insufficiency of clinical material. Unless this is remedied greater loss will result. Our students come from all over the province, and in many cases from the surrounding states, especially Michigan. They have always stood well before the Ontario Medical Council, which shows that the teaching had been up-to-date in every particular. Our chief weak point has been the lack of clinical material, which has been curtailed by

half in the past session. "I have spoken to many Conserva-tives recently who have expressed their astonishment at the perversion of fact by the other papers here," said the (Continued on page 2.)

ALD. CL. T. CAMPBELL HEADS THE POLL IN THE MUNICIPAL ELECTION IN LONDON

(Continued from page 1.)

doctor, "I myself am much surprised at them. The Standard of the medical profession has been raised by the presence of the school here and in numerous other ways it has been of benefit to the city. Its pecuniary advantages have been felt, too, and the students who attend leave annually from \$25,-000 to \$30,000 in the city. Besides this, many families have been drawn to reside in the city on account of the school. The teachers' remuneration is trifling considering the time spent. "I am quite satisfied," said Dr. Moorhouse," that the grounds upon which Mr. George M. Reid ran were entirely non-political."

DR. McCALLUM SPEAKS. Dr. McCallum said:

"The poor have heard of a thousand and one misdeeds in that hospital, such as that bones were fractured to be re-

et again; that legs were cut off to show ...w to cut them off; that private patients, the operating room had no privacy at all, and a thousand and one other slanderous things have been said about it among the electorate and the verdict is based upon quiet systematic slandering which has gone on in some "I array Mayor Beck and Isaac

Waterman for standing by and hear-ing the institution slandered and never raising a finger to prevent it. Anything that would make for the advancement of Mr. Bayly's election was ruthlessly thrown forward. The doctors themselves he attempted to degrade, a policy which he has pursued since elected to the mayor's chair. No wonder the poet cried, 'Deliver me

from the never-ending audacity of entire profession among the outsiders, elected persons.'

"Allow me to go back into a little history of three years ago, when Dr. Wilson was the occupant of the mayor's chair. He succeeded in dividing the profession into 'schoolmen' and this whole hospital trouble. He contended at that time that the 'school-men' should be content with the men' should be content with the winter age should retire. In a small city like months. He followed up his conten-tion by saying that as the outsiders of excellent service to the hospital and were over 40 and the 'schoolmen' were about 20 in number, that eight months should be given to the 'outsiders,' and four months to the 'schoolmen,' setting himself as the mouthpiece of the 'outsiders.' As the 'schoolmen' had the right to nominate their staff, he, along with the trust, gave the outside physicians the right to nominate their The outside physicians met at the beginning of last year and nominated the staff. "But to return to the election of today. George Reid, without any organization behind him, except such as we dectors could put up, and that a poor one by reason of the fact that we are not skilled in this thing, made a masterly stand against a complete and unique organization. George M. Reid appeared in the field at our suggestion in order to throw the nomination to Adam S. McMahen. There was no intention of having a contest, and we

siders' was on that list sent into the trust as the choice of the 'outsiders.' Mayor Beck and Isaac Waterman ignored that nomination and appointed to the hospital staff men that were rejected by the outside profession. Therefore these men represent nobody but themselves, and applying Dr. J. D. Wilson's line of reasoning, they are only entitled to two months on the hospital staff.

"By their maneuver they have dis-

"At 6 o'clock on the day when they could withdraw George Reid asked Adam McMahen to stay in the field and he would withdraw in his favor. The latter thought it wise to withdraw, leaving Mr. Reid alone in the field to face the other nominee. Mr. Reid declined to run the contest as a political one, and said that he was simply in the hands of the doctors who signed that petition; that he considered the request of the petition a reasonable one, and the denial of it on the part of a majority against us, compared to

The Company cwns leases on 200 acres of land near Dutton, Elgin County, 20 miles west of St. Thomas and 35 miles southwest from London. This district has amply proven itself, as it already has nearly 100 producing wells. The companies owning and pumping these wells are paying dividends.

The Elginfield Oil and Gas Company's property adjoins this Company's, and they have down about 40 wells, producing from 200 to

1,000 barrels per month.

Elginfield stock is now quoted at 200, and is hard to get at that, and the wells produce an average of only one (1) barrel per well per

A COMPARISON.

The Elginfield Company is paying 8 per cent dividends and 8 per cent into their reserve fund from "one-barrel" wells, so that in our No. 2 we practically have 25 wells (at the lower computation), and that with the expense of drilling and pumping only one well instead of 25. We are pushing ahead with our drilling as fast as the rig can work, and there is no reason why we should not get other wells just as good as No. 2, as we are working in a strata of oil rock

The Petrolea fortunes have leen made from Oil Rock 2 to 5 feet thick, while our two wells are actually in Rock 9 and 15 feet thick respectively.

If Mrs. Penwarden died first (and it is proved that she did by several minutes) the property goes to the doctor's relatives. Mrs. Penwarden's relatives claim her husband died first, and therefore the property goes to

Exports from Windsor, Ont.

Windsor, Ont., Jan. 6 .- Hugh Morris, United States consul, estimates that the value of exports from Canada into the United States, through the port of Windsor, for the quarter ended Dec. 31, 1902, will amount to about \$325,000. Compared with the previous month, this amount is about \$35,000 less, but as it represents fewer returnable goods entered, Mr. Morris claims the showing for the past three months is probably the best that has ever been made in Windsor.

Report of the U.S. Mint.

Washington, D. C., Jan. 6 .- George E. Roberts, the director of the mint, yesterday issued his preliminary estimate of the production of gold and silver in the United States during the calendar year 1902. The total production of gold was \$80,853.070, an increase for the year of \$2,186,370. The production of silver amounted to \$31,040,025, a

net increase of \$3,352,084.

REACHES SEAT OF TROUBLE

Don't Try to Cure Hemorrhoids

With External Application. When it is such a well known fact that hemorrhoids or piles is a disease originating in the morbid dilation of the veins of the lower part of the rectum, it seems incredible that people afflicted with this painful trouble should go on doctoring with external salves washes, when the diseased parts can only be reached by an inward ap-

plication. The suppositories used in Pyramid Pile Cure are composed of the most soothing and healing oils and lotions known to Materia Medica, and act onthe diseased veins and surrounding tissues like magic, giving almost instant relief. The dilated blood vessels are relieved, the irritation of the mucous membrane ceases and bleeding

The predisposing causes of piles are such as produce fullness of the hemorrhoidal veins and impede the return of blood from them, such as constipation, sedentary habits, city life, pregnancy, corsets, etc.; in fact the causes are all fully covered in a very interesting little book published by the Pyramid Drug Company, Marshall, Mich., and the same will be sent free to any address upon application.

The general principles of treatment are, according to the evident causes, active habits, attention to diet, and other hygienic rules, etc., avoidance of constipation and each night the infection of a Pyramid suppository to heal and cure the afflicted parts. That this treatment has been effec-

tive is instanced by the testimony of thousands of people who have been permanently cured, and by the evidence of druggists. The case of Mr. Samuel Gouldie, 526 Moyamensing avenue, Philadelphia, is a fair sample. "For twelve long years I suffered terrible torture from piles. I had been under two surgical operations, once in Cleveland, Ohio, in the year 1895. and once in Toledo, Ohio, in 1900, and also tried a number of salves and ointments from different doctors. I at last found a permanent cure by only using two 50 cents boxes of Pyramid Pile Cure. The first two or three applications gave me relief at once. am now entirely cured and thank God for finding such a medicine as the Pyramid Pile Cure."

Canada and the United States. The American people are very sure, sooner or later, to realize that a new leaf must be turned in their relations with Canada. Enough time has now elapsed to prove the fallacy of that theory of statesmanship, prevalent 30 years ago, which assumed that a policy of commercial non-intercourse could force the Canadians to seek political amalgamation with this republic. The theory, as stated by Gov. Boutwell in his book of reminiscences, was this: "The system of qualified intercourse tends to make the Canadian farmer dissatisfied with his condition, and as long as there are cheap lands in the United States he will find relief in emigration. The time, however, is not far distant when the Canadian farmer will be unable to sell his lands in the Dominion and with the proceeds secure a home in the States. When that times arrives he will favor annexation as a means of raising his own possessions to a value corresponding to the value of land in the States. The body of farmers, laborers and trading people will favor annexation, ultimately

* * * and thus the union of the two countries will be secured." If one examines the present situation he will find little in Canada to indicate that view. The cheap and fertile land of the United States is already practically exhausted; we have had "qualified intercourse" for a generation, yet there is no body of annexation sentiment in Canada today which a responsible statesman would regard as worthy of serious consideration. non-intercourse policy has failed politically and it is futile to expect po ical results from it in the future. time has come, therefore, to look upon the trade question as one of business and as one involving also the future peace and prosperity of the North American continent under the two flags -the Union Jack and the Stars and Stripes.-Springfield Republican.

Year-More Emigrants for Canada. London, Jan. 6.-The friends of the Grand Trunk Railway Company note with satisfaction the results of the half year completed by Saturday's traffic returns. The gross increase over

the whole system of \$1,470,000 is equal to 9 per cent, to which the Grand Trunk proper contributed \$1,203,000, the Grand Trunk Western \$243,000, and the Detroit and Grand Haven \$24,000. Heavier results may work out in the The Financial News says there can

be no question but that the Grand Trunk has enjoyed a bumper year. The Financial Times says there was a recent revival of the old-fashioned suggestion of a leakage of information regarding the earnings of the Grand Trunk, but it fails to find any confirmation in the traffic statement of the past ten days of the half year. The Canadian Pacific has done even

better. The aggregate increase for the six months was \$2,530,000, equal to 13 Writing to the Times, Sir John Colomb denies Sir Charles Tupper's statement that he opposed the Pacific cable

Canada's Increasing Commerce. Canada is sharing in the general prosperity of this continent, her exports and imports for the last fiscal year aggregating \$35,188,058 more than for the previous year. As is always the case, exchanges with this country form the great item of the Canadian trade, being two and a half times that of her trade with Great Britain and nearly four times the aggregate of her trade with all other countries. sold to Canada last year more than \$10,000,000 more than we sold her the fiscal year previous, in spite of a marked falling off in the sales of cereals, due entirely to our shortage of Indian corn. In some lines of manufactures Great Britain is gradually gaining on us, due entirely to the

effect of the preferential tariff on British goods. Of this preferential tariff we have no right to complain any more than Canada has the right to complain of the preference which we give to Porto Rico and the Philippines. It is logical and in every way proper for all peoples under one general government to trade freely together and present a united front to the rest of the world. But should Canada, under any pretext, grant preferential duties France or Germany, there can be no doubt that there would be strong feeling against Canada in this country, just as there would be feeling in Canada against us should we give preference to Mexico or any other country. And yet there is a strong effort now

being made to secure a "reciprocity"

treaty between this country and Can-

PANY (Limited.)

The New Council.

On the whole we think the council of 1903 is an improvement on last If Ex-Ald. McMechan had been elected in place of Ald. Cooper, improvement would have been more marked, but at the rate Ald. Cooper is descending in the scale he will be sloughed off next year.

There is one feature of the aldermanic contest that calls for comment. We refer to the entrance of the political machine, naked and unashamed. In late years political preferences have had a great deal to do with determining the choice of aldermen, but in the past two years a party executive has undertaken to say who shall or shall not have the party vote. This year it not only brought out a set of candidates, but directed that other members of the party who insisted upon running without its sanction, should be knifed. The names of those on the Conservative ticket were printed on cardboard slips, which were distributed by the thousands. Every Conservative committee was actively at work, and every wheel and pulley of the machine was set in motion. The Liberals took no hand in the fight. Seven of the candidates were Liberals, but they were brought out by no party or clique; they had no committee workers, no organization of any kind at their back. Under the circumstances the machine has little cause icr congratulati n. A Libe al head d the polls and five Liberals were elected, a sixth failing by only a few votes. The machine failed to deliver all the goods. It was unable to carry five of its twelve proteges. The ticket was badly scratched. If the Liberals had put any organization into the contest they would have captured the council, and they may be compelled another year, in self-defense to take up the challenge. Unless we are much mistaken there are two or three Conservative members of this year's council who will refuse to conform to the narrow partisanship which prevailed last year.

The Hospital Issue.

A year ago Mr. Isaac Waterman was swept into the office of hospital trustee on a tidal wave of so-called hospital reform. The main thing that elected Mr. Waterman, who was Mayor Beck's alter ego in the contest, was the pre-"the poor man" was discriminated against in the city hospital. "The poor man is not allowed to have his own doctor!" "The poor man is at the mercy of the medical students!" Catch-cries like these, addressed to prejudice and class feeling, had the desired effect. The poor man's friends on the hospital trust have since recanted, but as we anticipated last night, a great many who put confidence in them last year are still undeceived. The enemies of the Medical School throughout the campaign just closed repeated their tactics. They tried to obscure the real issue and throw dust in the eyes of the electors by characterizing the medical students as a set of rowdies whose intrusion was resented by the public patients. The claims of the faculty, supported by nearly the whole medical profession of London, were scandalously misrepresented. However, a majority of 2,312 for Mr. Waterman has been reduced to a majority of 739 for -Mr. Bayly, and if the process of education goes on a little longer the rights of the Medical School will be restored. Of all the institutions of higher education in London, the Medical School most valuable. It brings money and the prestige to the city. It cannot and will not be allowed to go under. Mayor Beck is already alarmed at the injury he has inflicted, and

through his organ intimates that he is ready to "give the school men and their students a status at the hospital that will serve their legitimate purposes." It must be pleasant for Trustees Bayly and Waterman to read that only Mayor Beck can do such things, but it is generally understood that he is to carry his two colleagues in his vestpocket. Note the calm assumption, also, that Mayor Beck is the only one who is qualified to determine the status of the medical faculty at the hospital. "Upon what meat doth this our Caesar feed, that he is grown so great?" We | tage Hospital. think the medical practitioners of London are in a better position to know what is best for the school and the hospital. Their judgment must ultimate-Mr. George M. Reid has nothing to

regret in this contest. He had no desire for public honors, but when other arrangements failed he stayed in the field from a chivalrous impulse. He stood up for a principle, not for a party, believing that the interests ive campaign for reciprocity with of a great educational institution were Canada has been begun by the Northof a great educational institution were in jeopardy. For this he was prepared to sacrifice himself. He canvassed no vote, and had no organization, except such as the medical men were able to improvise. His unselfish and manly attitude is worthy of all praise.

The School Board.

It is to be regretted that Trustee McCormick has been re-elected. He is the chief reactionary on the school board, and is responsible for depriving public school pupils of domestic sci-THE LONDON ADVERTISER COM- ence instruction at the Collegiate Institute. As chairman of the board last year, he distinguished himself by voting to sustain his own ruling, a ruling so palpably absurd and unjust that some of his political friends on the board refused to stand by him. Mr. R. H. Cullis, who made his first venture into a municipal contest, put up a plucky fight, almost unaided, and succeeded in pulling Mr. McCormick's majority down to 165.

Trustee Blackwell is to be congratulated on his victory in No. 2 Ward. It is a deserved reward for long and faithful service. He may be relied upon to uphold the interests of the

Trustee Dr. English is re-elected in Ward 3. Dr. English, on personal grounds supported the chairman of last year's board in his anti-public school policy, but otherwise has been an acceptable trustee. The Campbells are coming.

Ald. Gerry doesn't say much, but he saws a lot of wood.

Mr. George M. Reid was far more concerned for the Medical School than The Medical School will live a good

deal longer than some of those who are trying to kill it.

The mayor's portrait is missing from this morning's Free Press. Is the camera exhausted?

Ald. Winnett's mayoralty aspira-

tions have been knocked out, and the

Conservative Club is secretly chuck-Young blood is infused into the council by the election of Messrs.

Saunders, Becher, Stevenson and Matthews. Not a bad thing, either. There is no man who stands higher

in public esteem than Dr. Moorhouse. Yet the mayor's organ describes him as the head of a company of grafters. Congratulations to Ald. Campbell, who headed the poll! It is a personal tribute and an acknowledgment of

The Free Press accuses Dr. Moorhouse of threatening to close the mayor's mouth. With all due respect

several years of useful service to the

"An hour was not too long for the recital of the year's doings," says the Free Press of Mayor Beck's East End speech. Just so. His worship hadn't even time to refer to the part he took in the electric power dispute.

It is admitted by outside medical practitioners that London, in proportion to the population, has a greater number of clever specialists than any city on the continent. The Medical School has accomplished this. And yet we have men trying to kill the School and boasting of their public spirit. The people can't be fooled all the time.

The Free Press tries to defend Mayor Beck's conduct at the East End Hail. It is true Doctors Moorhouse, McCallum and Cline were late in getting to the hall, but they had no reason to expect that in the absence of a mayoralty contest Mr. Beck would spout from 11 o'clock till Sunday morning. His worship knew the doctors were waiting to address the audience, but he deliberately talked against time to crowd them out. It was a selfish and a characteristic trick.

Homestead Entries in West. Ottawa, Jan. 6.-The homestead entries in Western Canada in 1902 num bered 22,194, as against 9,145 in the previous twelve months, and 1,857 in the year 1896. This return is but further evidence of the flow of immigration into Manitoba and the Territories, and the area of land that is being taken

push the views of the league. A Rough Passage.

Halifax, N. S., Jan. 6. - The Allan Line steamship Tunisian, with the weekly mails and passengers from Liv-

rpool, arrived at 10:30 o'clock Sunday. The steamer had a very rough passage. She brought three saloon, 15 second cabin and 148 steerage passengers. Among the passengers were Trooper A. A. Marcien, of Montreal, and John Hall, of MacLeod, late of the C. M. R., and Troopers L. Coln Campbell, of Montreal, and J. A. Johnston, of Winnipeg, of the S. A. Constabulary. The steamer started for St. John at 2 o'clock in the afternoon. 2 o'clock in the afternoon.

BIG TIMBER DEAL

Boton Men Secure Newfoundland Concessions for \$250,000.

Halifax, Jan. 6.-Over eleven hundred square miles of the finest timber areas in Newfoundland have just passed into the hands of a Boston syndicate at a purchase price of \$250,000. The Exploits Lumber Company, composed of eleven Nova Scotian manufacturers, have sold out their property on the Exploits River, Newfoundland, to Wood, Baker & Co., wholesale lumber dealers, of Boston and New York, representing a syndicate of capitalists, who, on the completion of the purchase, will operate the property on an enlarged scale. The timber areas on the Exploits comprise 1,146 square miles, running along both banks of the river. It is heavily wooded and is capable of producing a large quantity of lumber. It has besides several valuable waterpowers suitable for the operation of pulp and paper mills. This property was obtained a few years ago by a number of Amherst, N. S., men, including the members of Rhodes, Curry & Co., car builders, and the late Hon. A. R. Dickey, ex-Minister of Justice of Newfoundland's resources were not then so fully known to the outside world, and the Amherst men got the property for a song. They have since erected a large modern mill, with an output of 100,000 feet a day. The property has been extensively developed, and has recently been much sought after by several American concerns. The purchase will not be actually completed until after this year's cut. about June 1. The cut, it is estimated, will be 10,000,000 feet, which the Boston syndicate will take at the market price.

Uncle Sam's Cotton Crop. Washington, Jan. 6. — The quantity of cotton ginned to Dec. 13 in the United States was 9.311,835 bales. Ginestimated 8,057,771, or 90.2 per cent of crop.

Newfoundland Herring Fishery. St. Johns, Nfld., Jan. 6 .- A prolonged period of mild weather has serious ly affected the frozen herring industry Newfoundland waters, and a number of American fishing vessels will have to wait a long while before they can secure cargoes. The herring fishery at Bay of Islands was unusually good to end of last year, 160,000, barrels of herring being taken. The catch is valued at \$250,000.

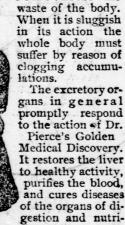

"Great Ruby" Company Disbands. Ottawa, Jan. 6 .- "The Great Ruby" Theatrical Opera Company disbanded here Saturday. The night engagement at the Russell Theater was not filled. J. L. Lodge, the manager, announced his intention of going to New York to arrange for reviving "The Runaway Girl" Company, which went to pleces in a southern city a few weeks ago.

Sudden Death at Iona Station. Iona Station, Ont., Jan. 5.-Jennie Kerr, aged 25, youngest daughter of the late Alexander Kerr, of Southwold, who lived about a quarter of a mile north of the village, was found dead in her bed this morning. She retired the night before in apparently the best of health. Miss Kerr was stenographer in Angus McCrimmon's office in St. Thomas for two or three years.

Crooked Car Conductor. Montreal Jan. 6 .- Conductor Masson of the Montreal Street Railway Company, appeared in court yesterday and pleaded guilty to robbing the company of fares by using two fareboxes, Motorman Renaud, who was arrested at the same time, was also arraigned. He pleaded not guilty and was re-

Cordwood Blockade at Winnipeg. Winnipeg, Man., Jan.6.—Sunday night t midnight, there were 344 carloads of cordwood or about 4,000 cords lying in the C. N. R. yards. There were also about 300 cars in the C. P. R. yards, and both roads have a cordwood blockthe part of the railways, but is the result of inactivity on the part of the cordwood middlemen who neglect to unload the cars with over 7,000 cords of wood lying in the yards. There is ble cause for hope that prices will take a drop before long.

It can change the cheerful shilanthropist into a morose misanthrope and the optimist into a pronounced pessimist. The liver has a great deal to do with the removal of the

Mr. Edward Jacobs, of Marengo, Crawford Co., Indiana, writes: "After three years of suffering with liver trouble and malaria I gave up all hopes of ever getting stout again, and the last chance was to try your and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets,' I am stout and hearty. It is due entirely to your wonderful and hearty. It is due entirely to your wonderful medicines."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains: you lose. Therefore, accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pler ant Pellets assist the action of the "Discovery." They are easy to take, agree with the weakest constitution, and do not beget the pill

That Third Year

The second important stage in a child's life is reached about the third year. It has begun to walk then and there are greater demands on its bones, muscles and tissues. A great deal depends upon proper nourishment right at this time. The utmost care is necessary in the matter of feeding, particularly if the child has been brought up on the bottle.

The majority of children with rickets either are or were bottle-fed, hence their food should be reinforced by something to make them less liable to this distressing disease. Years of experience prove that Scott's Emulsion is the most effective foodmedicine for children who are of the rickety age. The symptoms of this

disease manifest themselves in the slow and imperfect growth of bone and muscle. The teeth are delayed in appearing and cause unusual trouble. The bones of the legs yield when walking and bow-legs are the result. The spine is weak and tends to curvature. The bones of the head are soft and the whole frame-work of the body is affected. Even prolonged nursing will cause rickets as well as breathing impure air, unsanitary apartments and improper care generally. But in spite of these numerous causes it is a simple matter to avoid and cure rickets. Scott's Emulsion is the easiest, most effective remedy known. It makes new bone, new flesh and rich blood. It puts children on the right path to healthy growth and vigor. It is always a reliable help.

These claims are not made off-hand. We know from nearly thirty years contact with such cases that Scott's Emulsion will do just what we say it will do. We will be glad to send you a sample free so that you can judge for yourself.

The Non-Irritating MR. AND MRS. CHAMBERLAIN WARMLY GREETED IN AFRICA

Gen. Botha and Numerous Other in a lengthy conversation with the Boer Leaders Ready to Honor the Visitors.

Pretoria, Transvaal, Jan. 6.-All doubts as to whether the Boers would participate in the entertainments given in honor of Colonial Secretary Chamberlain and Mrs. Chamberlain were dissapated by the appearance of Generals Botha, Delarey, Cronje and Smuts at the garden party given by the governor yesterday. The attendance of the town Boers, however, was not large. Mrs. Chamberlain is tactfully aiding the Colonial Secretary in his pacificatory mission. When Gen. Gronje was introduced she at first did not catch his name, but immediately she heard it was Gen. Cronje, Mrs. Chamberlain sent for him and engaged VILJOEN WILLING.

NEW AFRICAN PORT. Ladysmith, Natal, Jan. 6.-Col. Sir McCallum, the governor of Natal, made an important announcement at a banquet in honor of Colonial Secretary Chamberlain. He said that the Government had decided to establish a new seaport at Umslatuzi, Zululand, and in this way connect the coast with the newly annexed territory of Vryheid and Utrecht. Thence connection would be made with the Transvaal, and there would be no occasion for using Delagoa Bay, the seaport of Portuguese East Africa.

THE LIBERAL CAMPAIGN

Being Pushed Vigorousiy in North Norfolk and North Perth.

Simcoe, Jan. 6 .- The campaign in North Norfolk is being carried on with vigor and many well attended meetings have been held. There is a feelcount of the temperance issue that they were mistaken in their understanding of the matter, and from this it is believed that the Government candidate, himself a strong prohibitionist, will receive a number of votes that were polled against his predecessor,

Mr. Carpenter. Stratford, Jan. 6.-The North Perth campaign grows daily more intense, and each side expresses confidence of victory. The Opposition concede that in Stratford the local organization of the Liberals is superior to the Con-servative organization of outsiders, but in the north part of the riding they are carrying on a most aggressive campaign, and it is said that, includ-ing speakers, they have a half a hundred at work in the riding. Peculiar Death of Bell Organ Company Workman in Guelph.

Guelph, Jan. 4.-A rather peculiar death occurred in the city this morning. Fred Noble, an employe of the Bell Organ and Piano Company for the past eighteen years, took a dish of oysters in one of the hotels on Christmas eve. He swallowed a portion of a shell. After he went home he became sick, and a physician was called in, but the piece of shell was not dislodged. On Tuesday he worked at the factory, and on New Year's Day had his dinner and supper with his brother-in-law, Mr. S. Ewing—the first meal that he had taken since he swallowed the shell. About 2 o'clock next morning he commenced spitting blood, and hemorrhages followed, the third resulting in death. The deceased leaves a widow and three small children. He was a member of Court Wellington,

Fire in Hardware Establishment Did Slight Damage.

About 8:30 o'clock last night the fire brigade were called to Westman's hardware store, 111 Dundas street. The fire, which started in the cellar, for a time threatened to destroy the large quantity of oils, paints, and varnishes that are kept there. To keep the flames in check it was found necessary to lay four lines of hose. The origin of the fire is unknown. The damages will amount to about \$100.

"SWINE WHO EAT SWINE"

Sultan of Bacalod So Describes American Soldiers in Mindanao.

Washington, D. C., Jan. 6 .- "Swine who eat swine" is the latest compliment ten-dered American soldiers in Mindanao by the Sultan of Bacalod and the Panadungan of that place. These two Filipino ing among many of those who voted against the Government in May on account of the temperance issue that "braves" of the Moro tribes have caused the American troops no little annoyance since the occupation by their guerilla warfare. The following is an example of the letters received at the war depart-ment in the last Philippine mail. It was sent to the American soldiers in Mindanao, bearing the imprimata of the Sultan and the Panadungan of Bacalod: "We want war, if you do not get out of here and go back to the sea, because neither the Sultan of Bacalod nor the Panadungan wants to be your friend.
Within this month we want the war to begin, and if you do not want it you are a lot of cowardly rascals. Follow our Mohammedan religion. Do not look for the Mausers, for we have them. They were captured by Bantuas and Buarsing, the people of the Sultan of Bacalod. We send our regard to the four generals and the people of the Sultan of Bacalod. We send our regard to the four generals and their vermin. If you do not want to go from here, come to this place and the Sultan and Panadungan will take care of you, for you are a lot of hogs that eat hogs, and in not presenting yourselves at Bacalod, look out, for we shall go to fight you." The advices show that the neighbors of the Bacalod chiefs are quite friendly to the Americans, the Sultan of Uato having visited Camp Vicars.

Why has it the greatest record for absolute cures of any female medicine in the world? Why has it lived and thrived and done its glorious work among women for a quarter of a century? Simply because of its sterling The reason that no other medicine has ever reached its success is because there is no other medicine so successful in curing woman's ills. Remember these important facts when a druggist tries to sell you something which he says is just as good.

A Young New York Lady Tells of a Wonderful Cure:-"DEAR MRS. PINKHAM: -- My trouble was

with the ovaries; I am tall, and the doctor said I grew too fast for my strength. I suffered dreadfully from inflammation and doctored continually, but got no help. I suffered from terrible dragging sensations with the most awful pains low down in the side and pains in the back, and the most agonizing headaches. No one knows what I endured. Often I was sick to the stomach, and every little while I would be too sick to go to work for three or four days; I work in a large store, and I suppose standing on my feet all day made me worse. "At the suggestion of a friend of my

mother's I began to take Lydia E. Pinkham's Vegetable Compound, and it is simply wonderful. I felt better after the first two or three doses; it seemed as though a weight was taken off my shoulders; I continued its use until now I can truthfully say I am entirely cured. Young girls who are always paying doctor's bills without getting any help as I did, ought to take your medicine. It costs so much less, and it is sure to cue them.—Yours truly, ADELAIDE PRAHL, 174 St. Ann's Ave., New York City."

Women should not fail to profit by Miss Adelaide Prahl's experiences; just as strely as she was cured of the troubles enumerated in her letter, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, nervous excl tability, and pervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't

allow any druggist to sell you anything else in its place. If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. The local juvenile branch of the Ancient Order of Foresters held its first meeting of the year last night. The annual election of officers resulted as follows: Senior woodward, Bro. Tarling: junior woodward, Bro. T. Gordon; senior beadle, Bro. Chantler; junior beadle. Bro. Wright; minute secretary, Bro. Brock. To conclude the evening an entertainment was given before a large number of visitors and members of the lodge, under the direction of Prof. Turner, a hypnotist. CHOIR IS ON STRIKE.

One of the Hamilton papers makes the following statement regarding the of the Centenary Church, which Mr. W. H. Hewlett, formerly of the Dundas Center Methodist Church of London, left some time ago to take. charge: "The music in Centenary Church today was furnished by a quartet instead of by a volunteer choir as formerly. The quartet consisted of Mr. and Mr. George Allen, Dr. Wickens Mrs. C. J. Meakins, Manley B. Morden presided at the organ instead of L. H. Parker. The other members of the choir are on strike. The trouble arose over the action of the musical committee in dispensing with the services of Mr. Parker, who for over 30 years had played the organ in the church. The volunteer vocalists take the stand that Mr. Parker having invited them into the choir, and no person having asked them to remain since dismissal, they are no longer wanted. The members of the musical committee, however, say this is not the case. They, however, will not take out any steps toward the reorganization of the choir until Mr. Hewlett, the new musical director and organist, arrives, which will be about Jan. 15. Some of the old singers say they will return to the choir if requested by Mr. Hewlett to do so; others will stick by Mr. Parker."

CHAPTER XXXIX.

On Monday morning—the day previous to that set for the departure of Dr. Ash-ton and his niece from Paris—Queen Bess informed her uncle that she was going out to do some shopping and wanted some

arew forth his pocketbook to comply with her request.

She mentioned twenty-five hundred trancs as the sum she needed, and this he gave to her, wondering somewhat at her extravagance. She was merely providing the necessary funds for a premedi-

tated return to America.

The next day they left Paris for London, where they were to spend a week before going to Scotland.

They had a suite of rooms, comprising two chambers and a private parlor in a pleasant hotel. One morning, when Dr. Ashton had gone out to transact some business on the Strand, she thought the opportunity favorable to write a letter to Kenneth. Opening her writing-desk, she made the discovery that she was en-

out of paper.

She found it lying upon his table, and, opening it, took what she needed, when a loose paper fluttered from it and dropped upon the floor. She stooped to pick it up, when a name caught her eye and held her spellbound. Then, hardly conscious of what she was doing, but with dilating eyes and bated breath, she read every word that was written upon it. It was dated Fayette, Miss., and was a receipted bill, made out in the cramped, irregular hand of one evidently unaccustomed to the use of a pen:

tomed to the use of a pen:
"Fayette, Miss., May 1, 18—
"Dr. John Ashton, Dr.;
"To three months' board for Miss \$60.

Alice ... \$60.

"Received payment.

"WILLIAM HARRIS."

"Whatever in the world does it mean?"

Queen Bess breathlessly exclaimed, a strange feeling of suffocation at her heart, her head reelingg as if from the influence of old wine. "Whose board is Uncle John paying at Fayette, Mississlppi? Who is Miss Alice? There can be but one Alice whose board he would be responsible for. It must be that she was not killed in that explosion, after all, but she may be ill—crippled—helpless from dreadful injuries, and he is hiding her there, while we are spending her money here.

wicked thing for the sake of your money? If he would sell my happiness for money he would certainly not hesitate at such a deed as that. I feel like a thief. What shall I do?"

She buried her face in her hands and sobbed as if her heart would break.
"I must know—I shall never have one
moment's peace until I learn the truth," mused. "But how shall I discover Shall I confront Uncle John with this bill and demand an explanation of it, or shall I undertake to solve the riddle for myself He would not tell me, I suppose he would evade me in some way, and then, if he is the bad man I am forced to believe him, I am afraid he would try to cover up his wickedness by having Alice—if it is Alice—removed to some other place where I could not find her. Something dreadful must have happened to her, or she would never willingly re-main there in Mississippi, shut away from everyone whom she knows; and he said that she was dead! He would never have dared to circulate such a report if

have dared to circulate such a report if she was not helpless and incapable of proving the contrary."

She walked the floor back and forth many times, in a brown study.

"No." she said, at last, with sudden resolution, "I will not say anything about it to him—I will not give him a chance to outwit me; I will go myself to Fayette and ferret out this matter."

She carefully put the receipt back between the pages of the blotter and then returned to her own room, where she returned to her own room, where she wrote something of these circumstances to Kenneth, telling him that she should probably return the following week, if the could arrange to do so without ex-citing her uncie's suspicious, but he was to look for her on ever steamer until

She had but just finished this letter when Dr. Ashton returned. He told her that she was looking pale, and asked her if she was not feeling

She certainly was looking wretched, for the extreme agitation which had followed the discovery of her uncle's treachery could not fail to leave its mark upon her, and it was the hardest work in the world for honest, ingenuous Queen Bess to get her park

to act her part.
"No," she told him, "she was feeling cuite unwell," and she longed to confront him and denounce him on the spot for the dreadful deed of which she believed him to be guilty. But her better udgment told her that this would not to; that if she hoped to carry out her purpose to discover Alice's retreat and selease her from her confinement she must use strategy. The man's wickedness frightened her and made her fear that he might be guilty of some desperties. that he might be guilty of some desper-ere act in connection with herself if he hould discover that she had found him

Cut and meant to bring his treachery to light at any cost.

He had been planning a trip to Chatsworth, the country seat of the Duke of Devonshire, a place they did not have time to visit when they were in England before, and he now proposed that they should make the excursion the first of

the following week.
"I have a little business for Monday, "I have a little business for Monday," he said; "so suppose we leave on Tuesday morning, spend the day in doing the village, stop overnight at the Chatsworth Arms and visit the duke's palace Wednesday, returning to London on Wednesday night, and leave for Scotland Thursday morning."

This arrangement suited Queen Bess exactly, for it would work in nicely with her own plans, and she assented to it with apparent enthusiasm. She had post-d herself regarding the departure of the d herself regarding the departure of the teamers, and found that one would sail om Liverpool on the following Thursby at noon, and she meant to leave on he vessel for home, if by any possible eans she could bring it about. Tucsday morning came, but Bess did at make her appearance as usual at the L.caklast-table, and Dr. Asaton, wonder-

her room to ascertain the cause of her non-appearance. The waitress answered his knock, and, in reply to his inquiry for his niece, told him that she was ill and not able to rise.

"Come in, Uncle John, please," called a weak voice from within, and, entering the room, he found Queen Bess bolstered up with pillows, her head bandaged with a wet towel, and the chamber redolent with camphor and spirits of lavender. Her assumed illness completed deceived him. He saw it was only slight, but still serious enough to prevent her taking ed him. He saw it was only slight, but still serious enough to prevent her taking the trip to Chatsworth. She urged him to go himself saying it would be a great pity for him to lose the opportunity to visit the release of the Duke of Duke nalace of the Duke of Devonshire. He had long wished to inspect the art treasures there, and he was, therefore, strongly inclined to do as she sug-

"Well," he said, at last, "if you are sure you will not need me I will go."

As soon as Bess was assured that her uncle had departed on his pleasure trip to Chatsworth, she made the necessary as one of the best-all-round horsemen arrangement to leave for Liverpool. On Thursday morning she was there, safely on board the Oceanic. At eleven o'clock she sent a steward on shore with the

It was nearly nine o'clock on Wednesday evening when John Ashton, after having enjoyed his trip into Devonshire far more than he had expected, reached his hotel in London. He met the waitress, whom he had left with Queen Bess, as he entered and invariant warriers in whom he had left with Queen Bess, as he entered, and inquired somewhat anxiously for his niece. The girl told him she was much better and had been out during the middle of the day; so, being very weary, he thought he would have his supper before going upstairs to inquire for her in person. He was unsually hungry, and it was about ten when he at last mounted the stairs and tapped upon the door of Bess' room. He was so dissatisfied that he released here, while we are spending her money there, while we are spending her money there.

Aurel Batonyi, who is well known in Toronto for his achievements in driving fours-in-hand both at the horse show and the Industrial Exhibition reently related an experience with the famous Lord Brilliant, thrice winner of the Waldorf-Astoria Cup at the New York horse show and many times a champion. It appears that the horse was a bit of a terror when they first took his tail off and asked him to work in heavy harness. Clarence Mackay, who formerly owned him, is said to have sold him because he could not be controlled. Batonyi says no other norse ever gave him so much trouble. "On one occasion," he said, "when I wanted to tone him down for exhibition at the Westchester horse show, I put him to a great big gig, weighing 725 pounds, threw in six bags of shot for ballast and then, with two men weighing 400 pounds on the seat, drove him two hours in the ring at White Plains. This was in 1897. W. H. Catlin saw the whole performance, and I guess he hasn't forgotten it." Lord Brilliant is evidently the right kind of a prize winner. I venture to say few of his rivals would come out as well if set the same task.

AVERAGES OF BIG LEAGUES. Washington, D. C., Jan. 5 .- The official batting averages of National League players who participated in 15 or more games during the season of 1902 as compiled by Secretary N. E. Young, were made public tonight. They show that the ten leading run-getters were J. Wagner, of Pittsburg, leading with 105; Clark, of Pittsburg, Beaufrom their positions too much, which just suited their opponents, who play a quick, close game, with no long shots.

WORTH KNOWING

At This Season of the Year.

Any cough accompanied by expectoration which lasts over three or four days, requires attention and treatment; does not mean a visit to the hospital, nor to your physician nor wholesale drugging with patent medicines; but it means that some simple, harmless effective antiseptic remedy like Stuart's Catarrh Tablets should be used to ward off any possible termination in pneumonia, chronic catarrh, bronchitis or consumption. All of these formidable diseases start from a common cold, neglected or allowed to run its course and it is only the exercise of common every day caution to cure a cold as quickly as possible, not so much for what it is at the moment, but what it may become if neglected.

Perhaps no remedy is so safe, reliable and convenient to stop a cold or obstinate cough as Stuart's Catarrh

The extract of blood root contained in them combined with the red gum of the Eucalyptus tree seem to put the mucous membrane of the nose, mouth and throat in a condition to throw off the germs of catarrh, bronchitis and consumption, and as they are taken internally they seem to equalize the and throws off the germs of disease. A person in perfect health rarely catches cold and if he does, throws it off in a day or two, but, where the cold hangs on, stopping up the nostrils, irritating the throat or there is persistent annoying cough it is evident that the system for some reason is unable to throw off the disease germs gale. which cause the trouble; a little assistance is necessary, and this is best given by the use of some harmless germ destroying antiseptic like Stuart's Catar Tablets which are also palatable and equally so for chil-

dren, and adults. Druggists sell these tablets at 50 cents full sized package, higher in price than troches and cheap cough syrups, but Stuart's Catarrh Tablets contain antiseptic properties which actually cure colds, catarrh and throat and lung troubles, while it is a notorious fact that cough drops and cough syrups are largely composed of opium, cocaine and similar drugs that have

no curative power. It is also true that many popular liquid medicines and tonics for catarrh depend upon the alcohol they contain which give simply a temporary stimu-lation of no real benefit for any trouble catarrhal or otherwise

Dodd's Kidney Pills Cured His Kidney Trouble, and He Tells All About It.

Lower Windsor, Carleton County, N. Jan. 5-(Special).-Postmaster B., Jan. 5—(Special).—Fostmasser.
H. Belyea is one of the substantial men of Lower Windsor, who declares that Dodd's Kidney Pills cure Kidney Complaint. The Postmaster says: "I had a very bad spell of Kidney trouble, which bothered me for years. I tried several kinds of plasters and medicines, but did not seem to get much lasting benefit till I tried Dodd's Kidney Pills.

"I received more benefit from Dodd's Kidney Pills than any other medicine I ever tried, for they seem to have made a complete cure, as I am as well as ever. I believe Dodd's Kidney Pills are the right medicine for Kidney Trouble.

Bright Disease, Diabetes, Pain in the Back, Lumbago, all come from diseased Kidneys. Dodd's Kidney Pills will cure them.

He heard the blast of the whistle, accompanied by effort to jump aside, but he was too late. When the train came to a standstill the lifeless form of the old man was picked up from the ground. The son is almost frantic with grief.

KILLED AT A CROSSING. Winsted, Conn., Jan. 6.-Rev. A. H. Norris, pastor of the Congregational Church in Torringford, while driving to that town, was struck and instantly killed by a special train on the Nagatuck division of the New York, New Haven and Hartford Railway. Mr. Norris was 57 years of age.

Brockville, Ont., Jan. 6 .- While driving over the railway crossing near McLaren's mills, on Perth street, John Shaver was struck by a C. P. R. passenger train and seriously injured, but will probably recover. The cutter was demolished. Mr. Shaver was electioneering on his own behalf, being a candidate for the town

council. STRUCK BY TROLLEY CAR. Amish farmer, residing near here, was driving to church with his two daughters, Fanny, aged 18, and Katie, aged 9. when a trolley car crashed into his team, killing Fanny instantly and inflicting serious injuries on Mr. Zook and the younger daughter.

G. T. R. YARDMAN INJURED. Toronto, Jan. 6.-Edward Williams, a Grand Trunk Railway yardman, was crushed between two cars near the foot of Dufferin street and badly injured in-

ternally. INJURED IN THE TUNNEL. New York, Jan. 6 .- Antonio Jeppo was killed and two other laborers were injured by a fall of timber in the Rapid Transit tunnel at One Hundred and Sixteenth street yesterday.

FOUR MEN DROWNED. Seattle, Wash., Jan. 6.-The flood situation in the district south of Seattle does ot seem to be greatly improved. Two men engaged in rescuing people at O'Brien, have been drowned by the capcirculation and place in the body in sizing of their skiff. This city is in dark-that condition of health which resists, ness owing to the flooding of the electric lighting plant.

Gloucester, Mass., Jan. 6.-Two men were swept overboard and drowned, while others narrowly escaped the same fate on Christmas Day, when the schooner Aloha, which has just reached here from Newfoundland, encountered a terrific DRANK POISONED WHISKY.

Colorado Springs, Col., Jan. 6 .- J. F. Bailey, who drank poisoned whisky given him as a present died today. His wife, who drank from the same bottle, has partially recovered. She asserts that the whisky was purposely poisoned and given her husband. There is no clue to the murderer.

SHOT HIMSELF. Syracuse, N. Y., Jan. 6.-After a lovers' quarrel, in the presence of his sweetneart, Blake Darling, 21 years of age, shot himself in the temple, at Gouverneur, and died five minutes later.

The people of the United States are aiding largely in the development of Canada. Within the last year millions of dollars have been invested there in agricultural and timber lands, mining and manufacturing industries.

Detroit, Mich., Jan. 6 .- Mayor Maybury has approved an appropriation of \$50,000 for the purchase of coal to be sold at cost by the municipality. Bids will be enth Regiment, and "The Old Members of the Company," responded to by Messrs. Barnes, Mitchell and Chapman. invited on anthracite and bituminous coal in lots up to 10,000 tons, to be sold as indicated

ALLEGED COMBINE. Cleveland, O., Jan. 6.-The grand jury was summoned before Judge Neff in common pleas court and instructed to investigate the charge that a combine exists among local coal dealers. The cost of soft coal has been steadily advanced of late, until it is now selling for double the price asked six months ago.

WILL INCREASE COST. New York, Jan. 6.-Reports from Philadelphia stating that the anthracite roads had suspended the 65 per cent tidewater agreement with the independent operators, were confirmed today at the offices of several of the roads interested. In the case of the Lehigh Valley, the suspension carries until March 31. The strongest pressure was brought to bear against that road because of the large number of independent operators along its lines. The Lackawanna road is a party to the suspension agreement, but not for any fixed period, and may cancel its agree-

ment with the independents at will. It is the opinion of coal road representatives that the action of the independents must inevitably increase the cost of coal to the public. Althogether there are over 100 independent or individual operators in the Lehigh, Schuylkill and Wyoming coal districts. Their output for 1902 was, of course, greatly reduced by reason of the protracted strike. In 1901 the aggregate tonnage of the independents in the districts named was about 15.000.000 tons.

Washington, D. C., Jan. 6.-When the Senate reconvened yesterday, a discussion began regarding the coal situation. Mr. Lodge prefaced his introduction of a bill suspending for 90 days the duty on coal, with the statement that in New England there was much distress owing to the scarcity of coal, and that unless relief engine attached to a long train of coaches was afforded at once a number of factories would have to shut down. Mr. Culberson followed with a resolu-
