The total number of persons whose lives were snuffed out almost instantly is probably 66, with nearly a score injured, several of whom, it is thought, will die. Fortyeight bodies have already been brought to the surface. There were 91 persons on the train, 15 passes and 76 fares. Twenty-five of this number have been accounted for, which, with the bodies recevered, bring the total to 73. This leaves eighteen persons not accounted for, and who are supposed to have been drowned. It is possible that some of these may never be found, as it is the belief of the divers that some of the bodies floated through the broken windows out into the Thoroughfare, and were carried by the swift current out

### Prof. Schiemann Thinks Mixture of Many Nationalities Will Make It So.

Berlin, Oct. 28.-Theodore Schiemann, in his monthly review of foreign affairs, rakes some interesting speculations in regard to the changes which probably will have taken place in the world by the time the Kaiser's grandson, who was born on July 4, ascends the throne as William IV.

The professor thinks it is clear that the peoples of Asia and Africa will increase in power and strength. The victory of the yellow Japanese has stirred them, and European civilization, which is imparting new knowledge to the lower races, will inevitably produce far-reaching effects. It will be far more difficult the professor says, for Great Britain France and Russia to maintain supremacy over the Asiatic and African races than now.

# Trifles Make Perfection Perfection Is No Trifle.

It is by the most careful attention to every trifing detail in the milling of "FIVE ROSES" FLOUR that we have been able to bring this brand up to its present state of perfection, and are able to maintain it.

Every single bushel of grain which enters our mills, every single bag and barrel of flour which leaves them is tested and retested at every stage of the milling in order to insure the absolute purity and uniformity for which "FIVE ROSES" FLOUR is noted the world over.

This attention to trifles is costly, but it enables us to maintain a reputation for perfection, which is no trifle, and users of "FIVE ROSES" can rely upon getting the "flour of perfect quality" for all household

New York, Oct. 28.—Louis G. Hamp-on, assistant secretary of the United States Trust Company, of this city, shot and killed Victoria I. Tasczkow, a beautiful young woman, in the Hotel night, and then committed suicide. Hampton was infatuated with the woman, and they had been seen together many times during the past month. They had been at the hotel where the Whether it was the result of a pact between the man and woman to ogether has not been determined.

Hampton, who was about 60 years of age, leaves a wife and two children. Miss Tasczkow was 29 years old, and lived with her father and invalid mother. She was employed in Fifth avenue department store.

The United States Trust Company, of which L. G. Hampton was assistant secretary, is one of the largest and strongest trust companies in New York. Ex-Secretary of the United States Treasury Lyman J. Gage was its president until recently.

The events leading up to the tragedy have been traced by the police, and, according to them, the last chapter in what looks to be an illicit romance and engaged a room. He said he would morning, and expected to have his wife with him. Friday morning about 9 o'clock he entered the hotel, accom panied by a woman, and, going to the office, registered as "Mr. and Mrs. Sin. an unusually handsome brunette. She was wearing a tailor-made skirt, white shirtwaist, and carried in her hand a

small traveling bag. Asked To Be Called.

After registering, the couple went the hotel dining-room and breakfasted, and then went to their room. The oman left the hotel several times during the day, but Hampton remained in the room. Soon after she returned from one of these excursions, early in the evening, a light dinner was sent up to their room, and a request was sent to the clerk to call them at 11 o'clock last night. "We want to be called at 11 so that we might catch train," said Hamilton.

At five minutes to 11 a maid went to the room to call them, but her repeated raps at the door brought no response, and she notified the hotel office. Accompanied by the proprietor she returned to the third floor, and after rapping several times opened the door with her pass key. In an instant the silence was explained.

Woman Shot Four Times.

On the floor, between a large mirror and a dresser lay the man stretched out on his back. In his right hand was clutched a revolver, while his derby hat was field tightly in his left hand. Blood was everywhere around him, and a hasty examination proved that a shot, fired into his mouth, had entered his brain, killing him instantly. On the bed, half seated and half lying on the edge nearest to the man, was the woman, also dead, and bathed in blood. Her left arm lay across her face, as though to shield it, and in the arm were three bullet wounds. Right under the left armpit was a fourth wound the result of a shot fired after she had raised her arm to her face. The bullet had entered her body in a downward direction, and must have gone through the heart. On the floor, between a large mirror and

Your "Sunday-go-to-meeting" Linen will show what kind of a housewife did the ironing. Women have sharp eyes

The only way to give linen or white goods that snow like satin finish and gently yielding stiffness that proclaims the skilful ironer is by using Celluloid Starch. If cheap common starch be used you can rub till your arms ache and get no polish or pliable stiffness; but ironing is no trick at all if the starch is right. Common starch doesn't get thoroughly worked into the linen but merely coats its surface. Celluloid Starch fills every fibre, the hot iron swells it up making cloth and starch like one solid body, stiff, yet pliable, dazzling white, with a gloss like a mirror.

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it ing her work as effectively as she could was common for mothers to make their own home medicines from roots and herbs, nature's own remedies-calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds; sick women the world over, and represo, if we but take the pains to find them, sent a vast collaboration of information in the roots and herbs of the field there are remedies expressly designed to cure which for authenticity and accuracy can the various ills and weaknesses of the hardly be equaled in any library in the body, and it was her pleasure to search these out, and prepare simple and effec-tive medicines for her own family and

### \* REVIEW OF THE PAST WEEK

<del>`</del> Local sport lovers were treated to two splendid athletic offerings last week, and several more were down on the calendar, but failed to materialize, owing to the fact that Jupiter Pluvius was working overtime on Saturday. The Western University held its annual field meet, and some rare sport re- LUBS. sulted. Jack and Maurice Folinsbee, the two Strathroy boys, carried off nearly every first and many seconds at the meet, besides winning the championship medal, and the silver cup offered to the runner-up in the events. Jack, the elder brother, proved to be the better of the two, but the younger boy bids fair to beat his speedy brother with a little more development. Maurice

is only 17 years of age.

The football match held Saturday at Tecumseh Park was one of the best and most closely-contested struggles that has ever taken place on a local gridiron. The local boys were certainly deserving of a victory, and were only beaten by 4 points, the result of a lucky kick over the goal from the field by Harrison. Had the Forest City boys been properly coached, they would have stood a good chance of winning the intermediate championship. This statement may appear to be a trifle far-fetched, when it is noted that the team did not win a game out of three played in the intermediate series, but anyone who witnessed Saturday's match with the Tiger Cubs cannot but admit that the London team was composed of the better material. The game proved another oft-stated fact conclusively-that a man must be in condition if he would indulge in the strenuous gridiron game. Raymond, the warrior from the Barracks, who put up a star article for the local team, went into the struggle with scarcely any preparation at all, and, as a consequence, he is now in, the hospital. His legs are bruised, his ankles swollen to double their normal size. With Raymond in shape, and the team properly coached, there is no team in the intermediate branch of the O. R. F. U. that can show up better than London. However, we were beaten fairly and squarely, and the bettercoached team won. Take Harrison off the Tiger lineup and 60 per cent of the team's strength would be gone.

Longboat, the Caledonia Indian, won the Ward Marathon race in Toronto on Saturday, his nearest competitor being two minutes behind him. Longboat averaged ten miles an hour for the fifteen miles. That is faster than many horses would have traveled in going such a distance. Amos, the local runner, finished fourth. When it is remembered that over 48 faced the starters, it must be said that "Billy" ran a great race. Amos bids fair to become champion some day.

Saturday was a great day for the red man. The Carlisle Indians placed the "23" sign on optimistic Pennsylvania, and won out by 24 to 6. One of the largest crowds that ever turned out to witness a gridiron contest was present to witness the defeat of the palefaces

In the world of padded mitts, there has been but little doing. Steve Kinney, a Milwaukee recruit, trimmed up Benny Yanger, who earned a decision over Young Corbett a few years ago. Young Corbett and Terry McGovern signed articles for a scrap to take place in the near future; and Joe Gans and Kid Herman, the little Chicago Hebrew boxer, are to meet in a finish bout in Nevada before the snow flies.

The 1-mile relay footrace, which was to have been held at Victoria Park on Saturday, and was postponed on account of rain, will be held some time this week. Trainer Hughes is still assisting Captain Robson to get into championship form, and from here it looks as though the captain will show London Had Much the Better as if to attempt to run back with the ictorVias (6)—Back, Freeman; halves, ball in the face of the onrushing Cubs. Heal, Stollery, McWhirter; quarter, his heels to the rest of the bunch. The Court House Athletic Club's rooters will be present when the race comes off to cheer the speedy Tom to victory.

Chicago, Oct. 28.-The railroads yester-Detroit, Oct. 27.—Beans—Cash and the day informed Grand Master Hawley, of the Switchman's Hair the Switchman Hair the Switchman Hair the Switchmen's Union, that the demands of the men for an eight-hour day and an increase in wages would be refused. The offer of an increase of 2 cents an hour was repeated, but the men were told that this would be all that could be obtained. The refusal of the demands of the switchmen was also made to apply to all other organizations of railroad employes which have of late presented demands for shorter hours or increased wages.

It was made clear in the reply to the switchmen that the requests of the Brotherhood of Railway Trainmen, to which a reply was asked by Nov. 1, will Big Oil Concern Incorporated by Chatbe refused.

Grand Master Hawley called a meeting of the switchmen, who met here tonight, but no strike action was taken until there has been a referendum.

Works of this character are necessarily expensive, and the people who have entered into the arrangement have to raise money for the purpose. Accordingly they have issued a prospectus in England, which naturally enough puts their venture before the public there in a most favorable light, but the transfer of the land is contingent upon their meeting the requirements of the irrigation act and bringing water upon the tract proposed to be acquired. If the Opposition think that it is improper to make provision for irrigating lands on a large scale, as the irrigation act does, let them say so and endeavor to amend the law.
