ROUNDING UP BAD ONES.

The fact that CUROL is equally good for baby and grown ups makes it at once popular as the mother's friend. Mrs. Jefferies of 5 Defoe St., Toronto, did not know how to rid her baby boy of Eczema. She says: - "My baby boy, three years old, suffered from a bad attack of Eczema. It frettated the little fellow so badly that he could not sleep at night. I took him to the drug store and got some salve made up for him, but this did no good.

Two doctors treated him but were unable to relieve. One day a sample of CUROL was left at my house. I anointed baby with this and it did him so much good that I at once bought four

boxes at a drug store on Queen St. He made good progress under the CUROL treatment and the little fellow can now sleep well. All itching has gone and he is cured of this irritating Eczema."

"I consider a wonderful salve such as CUROL is a boon to the working class for it is sold at a price well within our reach." This is what makes CUROL so popular. Healing, Soothing and Antiseptic, it contains the finest and purest healing substances the world can produce. Compare CUROL with any salve advertised at double the pile and prove our statement.

THE THUNDERER AND THE TREATY.

The London Times very maladroitly .eads Canada a lecture because of the protest, voiced by Sir Wilfrid Laurier and Mr. Borden, against the system which delays the publication of the terms of the Canadian-American treaty until the document has travelled across the Atlantic and back. The Times professes to see in the protest "a deepseated historic sense of grievance against the imperial tie," and with amazing impolicy reminds this country that it lacks armed strength to give its diplomacy force and argument, thus taunting us because we pay no money to the British army or navy. The Canadian contention, it says, is based upon an "absolute misrepresentation of the facts," and "a misconception of the case," the very terms which may be applied to the comment of the Times itself.

The complaint registered by the party leaders and nearly all the news- Northwest and the development of the papers of Canada was not inspired by new provinces, which are estimated to any feeling of ill-will toward the have more than doubled the assets of mother country, much less by any the Dominion, the Transcript considers "deep-seated historic sense of griev- it wonderful that in the face of all that ance against the imperial tie." It was has been accomplished our public debt merely a plea for a more sensible is less than \$300,000,000, and proceeds: method of transacting international business, and one more consistent with Canada's dignity and importance. As soon as the treaty was signed at Wash. ington by the British ambassador and the American Secretary of State, the latter laid it before the American Senate, where it has been under discussion for two weeks, while the Canadian Parijament is meanwhile refused a glimpse of it, because of red tape and sealing-wax. It has gone to Engbe returned at the convenience of ment of Canada's resources there is land for the King's signature, and will Downing Street. This may be etiquette, but it is not business. As the Imperial Parliament would not dream of sanctioning or enforcing the treaty against the will of the Canadian people, the King's signature anterior to the submission of the document to the Canadian Parliament is a mere formality, waived without any impairment of the feated Laurier.

The present situation is absurd, but not more so than the language of the Times, suggesting that a great constitutional principle is at stake, and that "the imperial tie" is involved. It cannot be imagined that the attitude of the Times corresponds with the British Government's point of view in this The anomaly will surely be removed if the Parliament of Canada formally makes the request.

The Republic was an English vessel, with Liverpool as its home port, and the Liverpool Board of Trade may be expected to sift the matter thoroughly. In addition, there will be an inquiry by the United States District Court in New York, the English company having filed a libel in New York against the Italian company owning the Florida, claiming a million and a half dollars damage for the loss of the Republic, and an additional halfmillion for the passengers' effects. Eczema,

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

No other remedy has done, or can do, so much for those who are almost driven to distraction with the terrible torture, as our thousands of signed testimonials can testify to.

Mrs. John O'Connor, Burlington, N.S., writes :- "For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine.

A Dutchman with a goat and goose met a milkmaid leading a cow, whereupon the maiden screamed with terror.

"What frightened you?" asked Hans. "You are going to kiss me against my will," said the coy maid, "How can I do that with these cranky animals on my hands?" asked

"Because that cross-looking cow might hook me," said Hans. "Oh, that fool cow wouldn't hook nobody, and what is to prevent you

from driving all three of them into my pasture field?" replied the terrified maiden. And right here comes the most interesting puzzle of the series which has yet been presented to our friends, for during the subsequent discussion the following facts developed: They found that the goat and the goose together would eat just as much grass as the cow, so if that field would pasture the cow and the goat for 45 days, or the cow and the goese 60 days, or the goat and the goose for 90 days, how long would it pasture the cow, the goat and the goose? No; it wasn't a very serious matter, after all; and the witchery of the night took possession of her, causing her to build castles in the air again. In the misty moonlight the world about her was fantastical. How could one expect to hear in it the echoes of distant strife, or to imagine the fierce struggle of nation against nation? It was a land of romance, a realm where love was king, the only arbiter of life; the only sorrow and trial in it were the longing and the waiting for the hero who must come presently and be perfect, even as fancy had pictured him. Well might he come through these moonlit gardens, suddenly out of the dia-

DELIGHTS OF TRIP TO EUROPE

Continued From Page One. Shottery, where the modest young actor learned much of that passion of love

that glorifies his pages London the Great.

But all roads lead to London, and oon the journey is continued southward to the metropolis of the world, that can look back in its history nearly 2.000 years. In London the first journey is always to Westminster Abbev. Here in the sounding aisles of Britain's Valhalla, it seems easy to realize how the little island has come to dominate the world, as one by one the names of Britain's heroes catch the

eye. There is the Tower, with its grim

Traitors' Gate many and many a one has passed to that country from whose bourne no traveller returns. Then there is the brighter side, the inns of court, where Swift and Johnston and a host of other boon companions whose names are deathless, have wiled the hours away. There is the Old Curiosity Shop, and Tom Pinch's Fountain, where Dickens seems to live again. There is the house in Cheyne Row where the sage of Chelsea lived. When the mind tires of the bustle and strain of life, there are the art galleries-the National, with its collection of the old masters the "Tate." with the more modern school There is Windsor Buckingham, and the Horse Guards, and name upon name that have been on the lips of all since earliest childhood.

But farther afield, the travellers go, across the narrow seas to Dieppe, that has been the haven of the artist for decade after decade. There are the herring fleets, riding at anchor, and road south. beyond them in the grey mist to the north, lies the British shore. Here the very stones are vibrant with history, and the very streets seem to cry aloud of the mighty dead. Here centuries and centuries ago came Rollo the Norseman and his Vikings, and from that day to this there has not been a dull moment in its history. Time and time again its streets have run with blood. Poets have lived and died here, some in a palace, like Charles of Orleans; some in the prison and the gutter, like Francois Villon and Paul Verlaine. Napoleon, "The Great Adventurer," has trodden its streets. A king and a queen have passed, bound with cords, on the same way. Here is the scene of Dickens' story of the greater love, in "The Tale of Two Cities."

The Emerald Isle.

Landing at Cork, which has stood now for nearly fourten hundred years, memory turns back to those grim days when Cromwell's Ironsides surrounded it with psalms upon their lips and blood upon their hands. Then there is Blarney Castle to be visited, where the venturesome may gain the boon of irresistible speech by the hanging over its ramparts by the heels to kiss the Blarney Stone. Then northward again to the land of lakes:

"Angels fold their wings and rest In this Eden of the west, Beauty's dream, Killarney: Heaven's reflex, Killarney.'

Killarney has been a synonym for beauty the world over, and words are

Dublin and the Channel.

Then to Dublin, the scene of so much of Ireland's story, where the city looks out on the dim waters of the rish Sea. No wonder that Irish heart have beaten to the splendid old tales of the clan of Finn, half truth, half legend, all romance, that have found their way into the writings of William

Butler Yeats and Fiona Macleod. Night on the Irish Sea is an experience never to be forgotten. A fairyland of romance lies behind a land

of Ireland. Once more in Liverpool, but this time homeward bound. The great vessel sweeps on till the chalk cliffs of England are only a dim line in the distance.

"Well, ah, fare you well, for the channel winds took hold of us, Choking down our voices as we snate the gaskets free. And it's blowing up for night,
