CORONATION OF KING EDWARD WILL LIKELY FALL ON AUG. 9TH

Official Announcement by the Earl Marshal—The Procession Abandoned—Practically Certain the Date Will be as Declared.

London, July 11.—It was officially stated to-day that the coronation of King Edward will take place between August 8 and August 12. The proposed procession has been abandoned. It is now considered practically certain, in view of the announcement made to-night, that King Edward will be crowned Saturday, August 9, since the holding of the coronation ceremony on Monday, August 11, would involve another full bank holiday, with the attendant dislocation of general business, while Saturdays are almost universally observed as half holidays. The fixing of such an early date for the coronation is regarded as an additional guarantee of the confidence of the King's physicians of a continuance of His Majesty's rapid recuperation. The text of the official announcement concerning the coronation of King Edward was issued from the Earl Marshal's office, and is as follows:—The King's medical advisers state His Majesty's progress has been more speedy and less complicated than was at first anticipated. His Majesty's excellent constitution has played a conspicuous part in bringing this about. If the present rate of progress is maintained, and if no more complications arise, the King's medical advisers are of the opinion that His Majesty would be able to undergo the fatigue of the coronation ceremony on a day between the 8th and 12th of August. The exact date will shortly be announced. The procession will go to Portsmouth by rail or whether His Majesty will be brought to Shornsea to shorten the railway journey. All the details of moving His Majesty will be kept secret. Everybody except the officials concerned will be excluded from the railway stations and every precaution will be taken to prevent public demonstrations. The royal yacht will probably be moored off Cowes, Isle of Wight, until the coronation. The King's health and the weather justify a cruise, in which the Victoria and Albert may go to Plymouth and lay off the Earl of Mount Edgecombe's beautiful estate.

will go to Portsmouth by rail or whether His Majesty will be brought to Shornsea to shorten the railway journey. All the details of moving His Majesty will be kept secret. Everybody except the officials concerned will be excluded from the railway stations and every precaution will be taken to prevent public demonstrations. The royal yacht will probably be moored off Cowes, Isle of Wight, until the coronation. The King's health and the weather justify a cruise, in which the Victoria and Albert may go to Plymouth and lay off the Earl of Mount Edgecombe's beautiful estate.

THE CANADIANS WILL ENTERTAIN

Ministers Will Give a Dinner on 15th—Premiers Invited to Norway.

The Queen's Message of Sympathy on Hearing of the Fatality to Miss Strathg.

London, July 11.—When the coping stone fell yesterday crushing to death Miss May Strathg, daughter of Edward W. Strathg, of Lachine, the unfortunate lady was walking with Mrs. Delaher, who was injured. Queen Alexandra sent the following message of sympathy: "The Queen is greatly shocked to hear of the sad accident and wishes a report sent at once. Please convey Her Majesty's deep sympathy to the sufferers, and, if possible, express to the relatives of the lady killed Her Majesty's distress and sorrow at this lamentable event." Deceased will be buried at Birmingham, where her uncle was buried. It is said the deceased's mother dropped dead at Montreal station ten years ago.

INVITED TO NORWAY.
Sir Edmund Jones, of the Elder-Dempster Company, has invited the Premier and Canadian members of Parliament here, with their families, to visit Norway on the Lake Simcoe. CANADIANS GIVE A DINNER.
Sir Wilfrid Laurier and other ministers will give a dinner at Hotel Cecil on July 15, in acknowledgement of the civilities they have received.

BARTON HERE IN AUGUST.
Sir Edmund Barton, the Australian Premier, is booked to sail for Canada about the middle of August, on route for Sydney from Vancouver. VISIT THE CHANNEL ISLANDS.
Sir Gilbert Parker, M. P., will accompany Sir Wilfrid and Lady Laurier on a tour of Jersey and other Channel islands at the end of this month. The Jersey officials are arranging a handsome reception for the Canadian Premier's party.

THE CROPS

Henry Parsons, of Fletcher, was in the city to-day. In a brief conversation with The Planet in reference to the condition of the crops, he said:— "There is no corn whatever around where I live. I myself have no crop whatever, and nearly all of my neighbors will be in the same fix. All of the corn crops in Raleigh and Tilbury are complete failures on account of the recent heavy rains, with the possible exception of those on the Raleigh plains. Here there are some fields of corn all tassel out and looking as well as you could wish for. On the high clay lands, however, the rain has done untold damage. There is a field on the old Thackeray place on the 5th concession, Raleigh, which is looking splendidly. James Holmes also on the river road has about forty acres of corn which it would be hard to beat. These, however, are exceptions and the generality of the farmers will suffer terribly.

OPEN AIR SERVICE

At 8.15 to-morrow evening, weather permitting the Sunday evening open air services will be inaugurated on Tecumseh Park. Rev. J. J. Ross will have charge of the meeting, and Rev. T. Beverley Smith will deliver the address.

These meetings last year proved both pleasurable and profitable. On one occasion Rev. J. Robert Sims counted 83 little baby carriages at the service, which mothers are thus permitted to attend.

GAY DECEIVER

He Elope With 17-Year-Old Girl Leaving Wife in Indiana—Police on Track.

Niles, Michigan, July 11.—Several months ago Frank Railing, a young man of good address, arrived in Niles and settled down to live here. He soon became acquainted with Florence Zimmerman, the 17-year-old daughter of Fred Zimmerman. Miss Zimmerman is bright and attractive, and it wasn't many weeks before Railing had so completely won her affections that she eloped with him to Buchanan, where they were married. News of the elopement created quite a stir in certain circles in Niles, inasmuch as the Zimmerman family is well and favorably known, and also because of her engagement had been announced to Edward Cook, son of a wealthy manufacturer at Kalamaazoo. The parents of Florence were very angry over the elopement, for one reason, because they knew nothing of Railing's antecedents. However, they finally relented and the young couple returned to live at the Zimmerman home.

At last week's wedding until one day last week Railing told his young wife that he had another wife at Fort Wayne, Ind. The news naturally shocked her and much against the wishes of Railing she confided the fact to her parents. When Railing learned that she had done so, he at once left the city. On Wednesday J. E. Railing, of Decatur, Ind., father of the much married man, arrived here and endeavored to effect a settlement with Mr. and Mrs. Zimmerman. The elder Railing found, however, that nothing could be done to allay the wounded feelings of the parents of the girl, and the same night he returned home. Yesterday young Railing put in an appearance, and, meeting Mrs. Zimmerman, the latter in her excitement, told him that she intended to have him arrested. Railing thereupon hired a lawyer to take him to South Bend. In the afternoon a warrant was placed in the hands of Deputy Sheriff Harry Pierce and the latter, upon learning that Railing had gone to South Bend, immediately notified the officers of that place.

Railing's second wife is still true to him, and refuses to say anything concerning him, further than to plead with her parents to let him go free.

EMANCIPATION DAY

Energetic colored citizens are making extensive preparations for a large first of August celebration to be held here on that date. Arrangements have been made for a large gathering and splendid program, and the local committee are kept exceedingly busy.

COLLEGE OF MUSIC

Successful students having passed the June examinations of the Toronto College of Music conducted at the Krause Conservatory of Music, Chatham local centre.

Vocal, 3rd year, 2nd class honors—Miss Edith Dolsen, Miss Pearl White. Vocal, intermediate, 2nd year, 1st class honors—Miss Edith Dolsen, Miss Nellie Rhody. Vocal, 1st year, 1st class honors—Miss Nellie Rhody.

Vocal, 1st year, 2nd class honors—Miss Maude Bond, Miss Lola Dunkley. Vocal, 1st year—Miss Maggie Johnston.

Piano, intermediate, 1st class honors—Miss Mabel Cowan, Miss Anna Bogart.

Piano, intermediate, 2nd class honors—Miss May VonGuten, Miss Bird Kintree, Miss Candace Fleming.

Piano, intermediate, pass—Miss Bertha Sterling, Miss Hughine McPherson, Miss Geneva Shillington.

Piano, 1st year, 1st class honors—Miss Mabel Cowan.

Piano, 1st year, 2nd class honors—Miss Freda Spackman, Miss Louise VonGuten, Miss Eric Stripp, Miss Jean Ripley.

Piano, 1st year—Miss Maude Bond, Miss Maggie Johnston, Miss Alma Campbell, Jean Tallant.

junior, 1st class honors—Miss G. Spackman, Miss Claire Shambles. Piano, junior, 2nd class honors—Master James Boyd, Miss Winifred Arnold.

The names do not appear in order of merit and are only the names of those passing the practical examinations. The theoretical examination results will be announced at an early date.

During the big electrical storm, the edge of which barely touched Ridgeway and the east side of Howard, the burns of M. Kenny, 8th con., of Oxford, were struck by lightning and totally destroyed—Ridgeway Dominion.

CONVICT TRACY IS IN HIDING

Bloodhounds Failed to Locate the Desperado After a Long Chase.

Gave Pursuers the Slip After an Ugly Fight at Close Quarters.

Seattle, July 11.—Bloodhounds and scores of deputy sheriffs were unable to stir outlaw Harry Tracy from concealment in the brush near Covington today. Because of the midnight battle last night, the posse was sure of the convict's whereabouts. A cord of experienced marksmen encircled the place early in the evening, and there was no possible avenue of escape for the fugitive without a fight. Hounds were started on the trail early this morning and worked in every direction today but without success. Darkness fell with less encouragement from the hunters than on Wednesday evening. Every kind of rumor was received from the scene of the sheriff's deputies' search to-day. A report was started that a battle had been fought resulting in the death of seven deputies and the wounding of the convict. Diligent search for the source of this rumor met with failure. It is believed to be absolutely groundless, yet cannot be declared so until every effort of the pursuing crowd has been heard from.

The nature of the country through which the chase leads would make it possible for a battle to be fought in one of the ravines and little be heard of it in the neighboring towns for many hours.

Covington, Washington, July 11.—A man answering the description of David Merrill, Tracy's partner, appeared at Ravendale yesterday afternoon. He forced a family two miles east of that place to give him dinner and later returned to the house and procured a supply of provisions.

Tracy has performed the marvellous feat, and slipped like a phantom through a cord of guards at the mouth of Sluice creek, fought a battle with the deputies, and is now in the timber. In the fighting no one was hurt, though when the outlaw fired twice at T. F. Crowe he was so close that the deputy was burned by the powder.

MOTION DISMISSED

The motion made by the applicants for an order allowing and directing the applicants to pay into court the moneys on deposit in the applicant's bank to the credit of the account of the claimants, The Chatham Binder Twine Company, Limited, or for an interpleader order or for both, was heard this morning before Judge Bell, who ordered that the application be dismissed with costs to the claimants, the new board of directors, W. E. Gundy for applicant, J. B. Rankin, K. C. contra.

Seattle's exports to Japan, are now about \$5,000,000 per annum, which is 11 times what they were six years ago.

THE BAND WILL TAKE HOLD AND GIVE GOOD CONCERTS

Continued Neglect of the Lighting Equipment Compels the Abandonment of Concerts—Band Will now Proceed to Present a Concert of its Own.

There is not a more popular attraction in the city during the summer than the band concerts on Tecumseh park. Every night that these have been put on, the park has been crowded with pleasure seekers, who have listened with delight and appreciation to the music of the band. In the face of these circumstances, it is indeed a pity that some arrangements cannot be made whereby the lights in the band stand could be kept in working order. The concert was advertised for last Thursday evening, with the result that the park was crowded with people anxious to hear Chatham's popular musical organization. They listened to a couple of selections, and then the band had to retire on account of darkness. The crowd naturally were disappointed and several enquiries have been made by those who attended, as to the reason of this disappointment. Bandmaster Harry Philip, in a brief interview with The Planet this morning, said:— "The band have decided to discontinue the park concerts for a while. Last Thursday was the third night that we have had difficulty with the lights. It was all right the first night, everything passed off well; but ever since then we have had trouble with the electric lights. The second night we had to use our own globes and fix the

organization. They listened to a couple of selections, and then the band had to retire on account of darkness. GONE MYSTERIOUSLY

Mrs. Wm. Bowers, of Chatham T. P. near Darrell, reported to Chief of Police Holmes this morning that she was minus a pocket book containing about \$15 in real money, a couple of railway tickets and a Chinese laundry check. Whether she had had her pocket picked or she had lost it she knew not. She asserted further that she carried the purse in a large pocket in her dress and had held her hand right on the pocket all the way in on the cars, and can't understand how it could have gotten away.

FINE RESORT

Rev. T. T. George Praises Port Stanley and Pays Tribute to Railroad Men.

Rev. T. T. George, pastor of the Victoria Ave. Methodist Church, is very enthusiastic over the Sunday school excursion to Port Stanley on Thursday last.

In conversation with The Planet this morning he said:— "Port Stanley is without a doubt the finest summer resort on the lake accessible by rail. The day of our excursion we left here at 7.30 a. m. and arrived there at 10.15 a. m.

"It is a very easy matter to put in the day. There are good ball grounds, excellent bathing, boating and fishing facilities. Then again, for the smaller children, there is a splendid grove for romping and picnicking. The grove also contains good swings and other forms of recreation. The excursion was a splendid success in every way; we had fine good coaches full, and I don't think there was a person but who would speak in the highest terms of the day's outing. The train officials deserve the greatest credit for the courtesy shown and the able way in which they handled our excursion."

OLD TIME QUARTETTE

Four young men were walking down King St. this morning. One was from New York, one was from New Orleans, one was from Portland, Mich., and one was from Buffalo. One is married, another is going to be, and the other two are confirmed bachelors. It may seem strange that four persons from such widely separated places should be roaming down street together, arm in arm, engaged in earnest conversation, when they were, judging by marriage ties, evidently of such different dispositions. The secret of the whole thing was that the quartette were individually all old Chatham boys and they loved the old home town. That was one quality they had in common. They had come home from different parts of the United States and were only reacting in words deeds of other days, hence the earnest conversation. The four young men were: Walter T. Bray, New Orleans; Will Scott, New York; Will H. Martin, Buffalo; and Stanley Horning, Portland, Mich. The last named is the benedict. The reader can place the other three in the class to which they belong.

Mr. and Mrs. J. W. Perkins and son, Theodore, and Mrs. Walter Perkins and son, William, all of Cleveland, Ohio, are visiting their parents, Mr. and Mrs. John Perkins, Queen street. J. W. was a C. C. L. Model and C. B. C. student of this city, and is pleased to meet with some of his old friends again.

THE TUNISIAN IS SIGNALLED

Passed Father Point at 6.10 Last Night With Coronation Force on Board.

Is Due at Quebec at About Six O'clock This Morning—A Message of Welcome.

Ottawa, July 11.—The Canadian coronation contingent is expected to reach Quebec to-morrow, and the members, according to a militia order issued to-day, will proceed to their homes by the earliest possible trains. All arms issued by the militia stores will be handed over to the officer commanding the Montreal district. The officer in command will impress upon all ranks that they are on duty until such time as they reach their homes. The senior officers, or, in the event of their being no such officers, the senior non-commissioned officers, will take charge of parties of men travelling with them.

THE TUNISIAN SIGNALLED

Father Point, Que., July 11.—6.10 p. m.—R. M. S. Tunisian inward. I signalled her, "The King is well," and flagged F. O. R. were immediately run up to her masthead, signalling back the thanks all on board. I can see with my telescope her decks crowded with soldiers in uniform. The steam tender has just gone alongside, and is taking off her passengers and mails. A large party of gentlemen and ladies have gone off to welcome the contingent back to Canada. The Tunisian will proceed for Quebec about 7 p. m. The weather is very fine, and she should reach Quebec about 6 Saturday morning.

OFF RIMOUSKI

Rimouski Station, Que., July 11.—The royal mail steamer Tunisian, having on board the Canadian coronation contingent, arrived off Rimouski at 6.30 this evening and landed the mails and some passengers for the east. A large number of residents of Rimouski as well as a number of others from the west boarded the steamer and gave the returning soldiers a most enthusiastic welcome. The members of the contingent were all well, and in a very happy mood. The voyage across was a very pleasant one with the exception of the last couple of days, when much fog was encountered, which no doubt delayed the steamer somewhat. The members of the contingent expressed themselves as having a splendid time and thoroughly enjoyed themselves, though, of course, were disappointed at the postponement of the coronation.

Mr. and Mrs. J. W. Perkins and son, Theodore, and Mrs. Walter Perkins and son, William, all of Cleveland, Ohio, are visiting their parents, Mr. and Mrs. John Perkins, Queen street. J. W. was a C. C. L. Model and C. B. C. student of this city, and is pleased to meet with some of his old friends again.

THE LOCAL BUDGET

W. Connell, of Wallaceburg, was a Chatham visitor yesterday.

Boardmaster Harry Morris, of the Lake Erie, was in the city yesterday.

J. A. McGregor, of Tilbury, was a visitor in the Maple City yesterday.

Mr. and Mrs. Sydney Stephenson returned this afternoon from Chicago.

James Sterling, of Blenheim, called on his Maple City friends yesterday.

John Piggott, Sr., is to-day moving to his summer residence at Erie Beach.

F. Yott, of Melbourne, Australia, was registered at the C. P. R. Hotel yesterday.

Miss Annie and Master Stanley Head, are visiting with relatives in Cleveland.

J. A. Smith, of the Lake Erie staff, of Ridgeway, was a visitor in the city yesterday.

Wm. King, who had his foot crushed by a log on Wednesday last, is progressing favorably.

Mrs. Joe. Delisle, of Marine City, who has been the guest of Dr. Bechard, has returned home.

Mrs. McDonald, of The Ark, is spending a couple of weeks holidays in Ingersoll and Woodstock.

Miss Shaw, who has been visiting her sister, Mrs. Baird, Lansdowne avenue, returned home this evening.

Walter Dezelin, until lately of the S. Badley Co., has secured a position with the Campbell Farming Mill Co.

District Deputy Grand Master Samuel McCormick installed the officers of the Wallaceburg lodge, I. O. O. F., last evening.

A young man, Mr. Pool of the Dowsley Works, had two joints of his hand dislocated at the works today.

Dr. W. H. Tye dressed the wound.

MONKS SENT TO PRISON.

Jerusalem, July 11.—A sensational trial here, the result of the clash between Greek and Latin monks in the Church of the Holy Sepulchre, surrounding Christ's Tomb, in November last, has resulted in the sentencing of thirty-four Greeks, including twelve priests, to terms of imprisonment ranging from a week to nine months.

The most interesting point which developed after the disturbance was the fact, now generally known, that Germany and Italy, in supporting the claims of their wounded monks, obtained an irade from the Sultan recognizing their right to protect their respective subjects, and that thus France's claim to an exclusive protectorate over all the Catholic clergy in the East is no longer admitted.

The best reason for seeking to rise in the world is that the higher we stand the better we can lift.

The heart of a woman is as a driven well and he who would sound its depths must be blessed in patience, even like one who dives for pearls.

LIGHTNING!

These lightning storms are dangerous! Better to be insured than sorry.

We are agents for four excellent fire insurance companies, and would be pleased to quote you rates on any risk in the city or country.

**Pianist Attained High Rank
Though Deformed From
Birth.**

Chicago, July 11.—Herbert D. Jones, 21 years old, who, though he was born without fingers, had become a pianist of unusual ability, died yesterday morning at his home, 387 Fifty-Fourth street. A musician by nature and the possessor of a baritone voice of great range and power, the young man had attained a high rank among Chicago musicians, both as a vocalist and pianist.

Besides being born without fingers, he was so badly deformed that he was forced to go about on crutches, and he at first began his musical studies as a means of passing away the time. From childhood he had an unusual voice, and his parents encouraged him in its cultivation. Studying alone for three years, he became known as a vocalist, and his study of music caused him to begin the study of the piano.

Handicapped by lack of fingers, the ambitious young musician struggled patiently for three years to become a pianist, and, after long effort, he began to show that he had a wide grasp of music. He studied composition and harmony, and, aided by his musical instinct, grew to be able to transcribe musical notes to flats, and was thus enabled to strike the high black keys with the stumps of his wrists.

Since graduating with honors last year, he has continued his studies alone, and his teachers said yesterday that if he had lived he would have become widely known as a baritone singer and pianist.

STILL AT IT

**Poet Laureate Austin's Greeting
to General Lord Kitchener.**

London, July 11.—Alfred Austin, the poet-laureate, has written another poem which will be published on the day General Kitchener arrives in England. It is entitled "Bringing His Sheaves with Him." Following is the first verse:—

Strong as is silence, patient as time,
Deaf to hot censure as to hasty praise;

Who, when the crowd denounces as a crime,
The tarrying stroke, nor hurries nor delays.

The fourth verse reads:—

And such is he, who, with the salt
Still on his lips, comes homeward from afar,

Bringing the sheaves of peace from
ended strife,

Less proud to conquer than to be
done with war.

THE MASKED WOMAN

Paris, July 11.—An incident which has just occurred in the law courts is causing some stir here. A wealthy widow, Mme. du Gast, well known on account of her automobile exploits, being the female competitor in the Paris-Berlin race, and who entered for the Paris-Vienna contest, was recently the plaintiff in a civil action. The defendant's counsel was Maitre Barbois, who also is well known.

During the hearing he produced a photograph of a picture called "The Masked Woman," by Gervey, exhibited at the Salon of 1886, representing a nude female, the face alone being concealed by a mask.

M. Barbois handed this photograph around the court, declaring that Mme. du Gast had served as the model.

Mme. du Gast made an indignant denial, and demanded a retrial. M. Barbois took no notice of her demand, and Mme. du Gast has now brought an action against him.

The Figaro says this is the second time the picture has caused trouble.

When it was first exhibited a jealous husband thought he recognized his wife as the original and challenged M. Gervey. The latter gave the name of the real model, but the husband was not satisfied, and insisted on a duel, in which eventually he himself was wounded.

Of London's policemen 333 per cent are daily on the sick list.

Rancid butter may be sweetened by washing it with good new milk and then with cold spring water.

PIERCED EYE

**Lieut.-Col. Rankin Meets With a
Painful Accident Which
May Jeopardize His
Sight.**

Col. J. B. Rankin, K. C., is suffering from a very serious accident to his eye. Last evening he was taking a little exercise cutting the grass of his lawn, when he ran a pine tree needle in his eye, making a very painful wound.

Eye Specialist Dr. Garnet Holmes was called and is attending him. Col. Rankin was out for a while this morning, but is confined to the house this afternoon. The doctor thinks the sight of the eye will not be lost.

IN LONDON

**Lord Kitchener Was Met by the
Prince of Wales and Cheer-
ing Crowds.**

Special to The Planet.

London, July 12.—Lord Kitchener arrived at Paddington railroad station at 12.48 p. m., and was greeted by cheering crowds.

The Prince of Wales welcomed Lord Kitchener at Paddington, where an address was presented to the general. The latter shortly after started for St. James palace, arriving there at 1.27 p. m. The Prince of Wales was already there, awaiting him.

WARM WELCOME

London, July 11.—Earl Roberts, commander-in-chief of the army, steamed for two hours down the Channel aboard a tug this afternoon, but did not sight the Orontea, with Lord Kitchener on board, which is not expected to arrive until 9 o'clock to-morrow morning.

After returning to Southampton, took a train for London. He will await Gen. Kitchener at Paddington Station, where he is expected to arrive at one o'clock to-morrow afternoon.

The morning papers, reviewing Gen. Kitchener's career, recall that his first experience in war was under the French flag. He enlisted in 1870 as a private in the battalion of the Garde Mobile, and assisted in several balloon ascents. This resulted in a chill and an attack of pneumonia.

He subsequently became a cadet at Woolwich, where he remained a year before he received a commission in the Royal Engineers.

SCHOLARS MUTINY

Berlin, July 11.—A duel with loaded pistols took place a few days ago in a country place near Erfurt, between two 14-year-old boys.

For some trifling reason one of the youths challenged the other to a duel. They took their places according to rule, and fired the first round. As nothing happened they fired a second time, with the result that one of the duellists fell to the ground.

The uninjured party hurried for a doctor, who could do nothing but order the patient's removal to the hospital.

200-FOOT SEA SERPENT.

Halifax, N. S., July 11.—A special to the Herald from Sydney says that a serpent measuring about two hundred feet long was seen off Cranberry Head, C. B., yesterday afternoon by South Bar pilots. It came up well to the entrance of the harbor, and then turned round and went northward.

The American steam yacht Wacontia, with President Hill, of New York, and party on board, was coming into the harbor at the time, and was obliged to haul out of the serpent's way.

About fifty feet of it was above the surface. The middle was of huge proportions, both ends tapering to a point.

CALLED KAISER A LUNATIC.

Vienna, July 11.—The readers of the official Police Gazette, of Prague, were astonished to-day when they read in that paper this formal announcement:—

"Kaiser Wilhelm II., residing at Potsdam, recently escaped from Chancellor von Buelow's lunatic asylum, and was last seen at Marienburg, where he suffered paroxysms of talkativeness. If seen, his arrest should be promptly effected."

It is announced that if the perpetrator of this announcement is discovered he will be severely punished. It was at Marienburg that the Kaiser made a vehement speech denouncing Polish arrangements.

DEATH OF A GIANT.

Chicago, July 11.—One of the giants of the earth died to-day at the Presbyterian Hospital, when Lewis Wilkins expired after several months' affliction with a tumor on the brain.

Wilkins was twenty years old and eight feet two inches in height. When in good health he weighed 365 pounds.

A basket nine feet long and twice as wide as the ordinary coffin is being constructed for the body of the dead giant.

A special bed had to be constructed for him at the hospital. A ring that Wilkins had worn on a finger of his left hand is so large that a silver dollar can be easily passed through it.

A special bed had to be constructed for him at the hospital. A ring that Wilkins had worn on a finger of his left hand is so large that a silver dollar can be easily passed through it.

Minard's Liniment Cures Distemper.

WORLD OF SPORT

LACROSSE

Yesterday's lacrosse game at Blenheim, between Thamesville and Blenheim teams, resulted in an easy victory for the home team by a score of 16 to 3.

The game was a pretty clean one, neither side indulging in much rough work. No one was hurt badly. The game was largely attended; besides the large Blenheim crowd there were representatives of Chatham, Wallaceburg and Thamesville on the grounds.

A much closer game was expected from the result of the Chatham-Thamesville match on July 1st. Not five seconds had elapsed after the face-off before Blenheim had scored its first goal by some pretty passes and excellent combination.

Blenheim scored ten goals by their fine work before the Thamesville boys had one. Then they seemed to pick up and, after several rushes on the Blenheim defense, succeeded in putting the sphere through the goal.

Blenheim then scored again, then Thamesville repeated its former operation twice, following which Blenheim scored four more goals and time was up.

Stevenson, Shillington and McCallum put up star games for Blenheim.

The line-up was as follows:—

| Thamesville | Goal | Blenheim |
|------------------|---------------|-------------|
| Sizes | Point | J. Burke |
| A. Simms | Point | Blewett |
| Harby | C. Point | S. Burke |
| G. Simms | 1st Defense | Knight |
| Sayer | 2nd " | Bell |
| Higgins | 3rd " | Shillington |
| Fox | Centre | M. Burke |
| Hubble | 3rd Home | Stephenson |
| Davidson | 2nd " | Grant |
| Sherman | 1st " | Baird |
| Dolson | Outside | McCallum |
| Richards | Inside | Henry |
| Lush | Field Captain | |
| Referee—Cornwall | | |

LEAGUE STANDING.

The league standing is:

| | Won | Lost | To Play |
|-------------|-----|------|---------|
| Chatham | 6 | 0 | 2 |
| Blenheim | 4 | 1 | 3 |
| Thamesville | 1 | 3 | 4 |
| Rodney | 0 | 3 | 5 |
| Wallaceburg | 0 | 4 | 4 |

BOWLING

The two rinks of Chatham bowlers who went to Ridgeway, defeated the home rinks by 39 shots. This was quite a victory for the Chatham players, as they played the same rinks as were runners up last week at the Chatham tournament.

The grounds were in good condition and the weather splendid. The visitors were most hospitably treated by the Ridgeway men. The playing of D. A. Hutchinson was exceptionally fine.

The result:—

Chatham—Rink 1.

A. H. VonGuten, 1.

W. E. Merritt, 1.

D. A. Hutchinson, 1.

A. E. Jewett, skip—22.

Ridgeway—Rink 1.

A. Long, 1.

W. B. Graham, 1.

P. Bawden, 1.

W. H. MacMackon, skip—14.

Chatham—Rink 2.

J. Mitton, 1.

J. W. Webb, 1.

L. E. Titton, 1.

R. A. Smith, skip—25.

Ridgeway—Rink 2.

H. Thompson, 1.

R. Reid, 1.

E. E. Newcomb, 1.

W. A. Little, skip—13.

Chatham, 47; Ridgeway, 27.

SPORTING NOTES

The Draders lost to the Senior Bricks last evening by a score of 13-9.

Blenheim had an easy victory yesterday and expect to win here next Thursday.

Elliott will be home for Thursday, and some good practice games won't be out of place in the meantime.

Chatham beat Blenheim 4-2, Chatham beat Thamesville 1-0, Blenheim beat Thamesville 16-3. What's the result?

At the Blenheim game yesterday a witness had been out to keep the crowd back. An arrangement of this kind or something similar should be made for the west side of the Park on Thursday.

IMITATED ELDERS

Berlin, July 11.—A strange scene was recently enacted in Juchken, a miserable village near Herent, in Polish Prussia.

The school assembled as usual, and morning prayer had just been read by the schoolmaster, when the oldest pupil suddenly rose, and shouting "Now's the time!" jumped over the forms and attacked the teacher with a big stick.

It was immediately followed by the other scholars, who had also smuggled sticks into the class, and they proceeded to belabor the astonished teacher.

The latter finally got the upper hand, whereupon the youths flung down their weapons and rushed to their homes, where their parents were awaiting them.

What impelled the riot is not known.

Fly poison may be made with a strong solution of white arsenic sweetened with moist sugar, molasses or honey.

—If you are scrofulous, dyspeptic, rheumatic, troubled with kidney complaint, general debility, lacking in strength, take Hood's Sarsaparilla.

TOILET TIPS.

Never brush or rub the eyebrows the wrong way.

Keeping the hands long in hot water or in very cold water should be avoided. In washing the hands only tepid water should be used.

It is often difficult after washing long hair to comb it through, but if a lemon is squeezed over it the tangles will quickly disappear.

Salt as a tooth powder is better than almost anything that can be bought. It keeps the teeth brilliantly white and the gums hard and rosy.

Tincture of myrrh added to a glass of water in quantity sufficient to make a milky liquid is a good solution with which to sponge the gums after the teeth are cleaned.

If your hands are very dirty, rub a little olive oil or vaseline well into them before washing them with soap and water. The oil helps to loosen the dirt and will also make the skin softer than it would otherwise be.

Keep at hand half a lemon from which the pits have been removed and a fibrous slice of borax inserted. The juice will remove almost every kind of stain, and its constant use keeps the hands white and soft.

Pretty Clothes.

It may seem an odd prescription—that of "pretty clothes"—but, since it has been known to work wonders in certain instances, its value will probably become better appreciated in the near future.

"One of the things that helped my recovery," said a woman recently who has just regained her health after a severe illness, "was a pretty bed jacket which my sister brought me one day in lieu of pills and fruit. It was becoming, and I enjoyed it. The doctor, when he first saw me in it, said I looked 20 per cent better than I did before. Manlike, he didn't appreciate the reason, and my spirits, and consequently my condition, became better in proportion."

"Too often invalids are wrapped in any old thing that is handy. I remember laughing once when a friend in robust health showed me a dainty lace trimmed sick gown. 'For me,' she exclaimed, 'if I ever need it.' The notion struck me as absurd, when she was that bed jacket I appreciate better the value of attractive environment under depressing circumstances."

"I never," said the illiterate shoe clerk, "forget a man's face that I have fitted shoes on."

The Trusts and guarantee Company, Limited, 14 King St. West, Toronto, acts as trustee for the investment of money and collection of income from mortgages, bonds or other securities. Its wide experience in making investments enables it to obtain at all times the best possible securities obtainable. All moneys collected will be accounted for according to the terms of an agreement entered into with its clients.

We are advised by W. E. Rispin, City Passenger Agent Grand Trunk and Wabash Railways, that he has a number of special excursion trips available for intending tourists to Portland, Maine, to Tacoma, Spokane, Washington, Portland, Oregon, Vancouver, Victoria, and other British Columbia points all summer long to Atlantic and River St. Lawrence points, also lakes Huron, Superior and Georgian Bay, and would be pleased to give intending tourists full information and rates.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Liniment, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.
Hall's Family Pills are the best.

THE MARKETS

There was an exceedingly good market today. Vegetables, while not too plentiful, were offered in fairly good quantities. Fruit, however, is the main product offered, the prices remaining the same as last Saturday. Dairy produce was very scarce for a Saturday market, and what was offered sold very rapidly. Green apples made their appearance and sold for 5 cents a quart.

Following is the full price list:

IN THE SHEDS.
Eggs, 13c. to 14c. per doz.
Butter, 14c. to 16c. per lb.
Chickens, each, 15c. to 25c.
VEGETABLES.
Green onions, 2 bunches for 5c.
Sage, a bunch, 5c.
Green currants, per quart, 10c.
Red currants, per qt., 5c.
Carrots, per bunch, 5c.
Old potatoes, per peck, 20c.
New potatoes, per peck, 40c.
Peas, 5c. quart.
Lettuce, two bunches for 5c.
Summer asparagus, six o'clock dinner with us.
Pepper plants, 10c. doz.
Tomato plants, 12c. a dozen.
Cabbage plants, 10c. a doz.
Culinary plants, per 100, 25c.
Culinary plants, per 100, 25c.
Strawberries, four boxes for 25c.

Children Cry for CASTORIA

WRITES FROM WEST INDIES

Harry J. Stevens Sends Home an Interesting Letter Giving His Experiences.

A Splendid Trip Punctuated by Many Splendid Sights—The People He Met.

The following letter speaks for itself:—

St. Martins, W. I., June 23, 1902.
The Canada Flour Mills Co., Ltd., Chatham, Ont.

Gentlemen—This is the third island on my trip. "Madiana" has called at on her trip. The island of St. Thomas, which is the first island, is a most beautiful spot. Taking a bird's-eye view the buildings are strongly constructed of red stone, with the roofs, which give it a most striking effect, from the ship. The population, numbering 10,000, is at the foot of the hills or mountains 1500 feet high. The roads are good and built of stone. What is used for sewers is a ditch along the street, which is unsightly as well as unpleasant, especially after coming from the ship and breathing the salt air for seven days without putting foot on land. The colony is Danish, with Danish officials. The Lutheran church, being the national one and is supported by the crown entirely, still other denominations are well represented. The people are friendly and courteous to foreigners. We had the Lutheran minister on board ship, also an electrician to work on the Panama Cable Company's ship. This is the company that lost the ship Grapier, at Martinique, and the officers made St. Thomas their headquarters. I met Mr. Burnet, at times chief of the council of the island, also Mr. Petit, of the Panama Cable Company and Mr. Moran, the Italian Consul, also Miss Moran.

The Morons own Blue Beards Castle, which I had the pleasure of visiting. The old cannons and tower are still in their places.
A divided opinion as to the advisability of the island being sold to the United States, but it is generally believed that during October of this year the transfer will take place. The ponds holding the salt water are lower than the sea and in dry season the water is evaporated and the salt bagged up. It is said owing to the volcanic eruptions the dry season is turned into a wet one and there will be no salt crop this year. The people live in houses about 8x8 and as near as I could see, begged for a living in the town part, although a great many people live in the country, which is quite productive in grazing. In the French part of the island cattle grazing is carried on extensively by the Van Romandts and exported to Guadeloupe. We are now steaming towards St. Kitts and St. Christopher. Will write you again soon. Trusting all is well at home.

Yours respectfully,
H. J. STEVENS.

Call or Write For Your Standard Fashion Sheets
William Gordon
We Will Mail You Our Standard List

this morning and as we had a passenger from New York here, named Mr. Van Romandts, we felt introduced to the place. Everybody in this place carries on a business is apparently named Van Romandts. The original being a grandfather of the one I became acquainted with. There are 10,000 people in this place and the French and Holland governments officiate. The only export is salt, which is made through evaporation by the sun. The ponds holding the salt water are lower than the sea and in dry season the water is evaporated and the salt bagged up. It is said owing to the volcanic eruptions the dry season is turned into a wet one and there will be no salt crop this year. The people live in houses about 8x8 and as near as I could see, begged for a living in the town part, although a great many people live in the country, which is quite productive in grazing. In the French part of the island cattle grazing is carried on extensively by the Van Romandts and exported to Guadeloupe. We are now steaming towards St. Kitts and St. Christopher. Will write you again soon. Trusting all is well at home.

Yours respectfully,
H. J. STEVENS.

SACHEL

OF THE

SATELLITE

No coalition. Silence was golden, but Buller didn't know it. Sandford, the well digger, is now a sick digger. I wish these cold snaps had a little ginger in them. I think Chatham has the best lacrosse team in the league. If Forepaugh-Sells Brothers, what would he do with the sisters? These are the days when the scholars look anxiously for the results of the examinations. It's music in the Park the people want, but the band can't furnish music in the dark. Next Saturday the Maple City small boys will be out early working their way into the circus. It beats the band how the Parks committee of the city treat the 24th Regiment's musical organization. If you never saw the Maple City small boy work, see Forepaugh's circus unloosed next Saturday morning. Next Saturday there's many a boy will do Forepaugh what maw couldn't coax him to do with either candy or a club. I believe there are some people who would blame the sewer system if the flood were as big as the one that made Nosh famous. If the Board of Health collects all those small-pox accounts, I may say they will surely give a good account of themselves. If I am any judge of millinery, some of the hats worn by the horses this year are last year's and not trimmed at that. The water tightness of the cottages at Erieau was tested fully this week. All the rented cottages that didn't stand the test, you heard about. The moon was up Thursday night and I guess the council evidently

wanted to run the lights in the band stand on the moonlight schedule.

The Forepaugh circus has two Sells with it. One weighs 140 pounds and the other 135 pounds. They imagine they are the biggest Sells on earth. They own the whole show.

Press agent Daniels, of the Forepaugh-Sells organization, says that they figure that it will require eight grown people to take one child to the circus. That's how they make money.

Among the reminiscences of the class of '02 at Yale is the story of a stout and healthy looking member, who was told by his tutor that "he was better fed than taught." "You teach me; I feed myself," was the retort.

Out in Calgary, too, two rivers, the Bow and Elbow, flow around the place on either side and join just on the outskirts. The standing joke is why are the Calgary ladies most fortunate. The answer is because they have the Bow on one side and the Elbow on the other.

Without counting its employees the Indianapolis street railway company has increased wages one cent an hour. It is understood that the labor organizations of Indianapolis will hold a council of war to discuss this exceedingly auspicious and unexpected move of the enemy.

A fellow, I know, a lieutenant in the 24th Regiment, had his picture taken at Port Stanley on Thursday with four girls. I saw one of the young ladies showing the picture to the disagreeable man. "A wretched good of W. W. Sells," said I. "I volunteered the girl." "Yes," replied the disagreeable man. "It was awfully good of him to be taken with such a frightful collection of girls."

INDIAN STORY.
The Bow river is in flood and many a settler on its banks has had an arrow escape.

WITHOUT PREJUDICE.
This verification hangs in a number of Michigan saloons: The Frenchman likes his native wine, The German drinks his glass of beer, The Irishman his whiskey straight. Because it gives him cheer. The Englishman likes 'aff and 'aff, Because it brings on dizziness. But the American has no choice at all. He drinks the whole blanked business.

Petokey Lyre.

NOTICE TO CONTRACTORS

Sealed separate and bulk tenders for the erection of PUBLIC LIBRARY BUILDING, Chatham, will be received up to 8 o'clock p. m., July 18th. Tenders to be addressed to I. L. Davis, Secretary Library Board. Plans and specifications may be seen at the office of J. L. Wilson & Son, Architects.

THOS. R. HARRIS, Secretary C. I. B. Chatham, July 8, 1902. 3td

The best men are not those who have waited for chances, but those who have taken them—besieged the chance, conquered the chance, and made the chance their survivor.

"DRINK GRANO. CEREAL COMPANY."

JOYFUL MATERNITY.

Hopeful Words to Childless Women.
Two Grateful Women Tell How
They Were Helped by Lydia E.
Pinkham's Vegetable Compound.

How shall a mother who is weak and sick with some female trouble bear healthy children?
How anxious women ought to be to give their children the blessing of a good constitution!
Many women long for a child to bless their home, but because of some debility or displacement of the female organs, they are barren.
Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the parts, curing all displacements and inflammation.

Actual sterility in women is very rare. If any woman thinks she is sterile, let her write to Mrs. Pinkham, Lynn, Mass., whose advice is given free to all expectant or would-be mothers.

The Story of Mrs. De Bett and Her Baby Girl.

"DEAR MRS. PINKHAM:—Before I took your medicine I suffered for years. Life to me was a torture. I often wished I were dead. I had no children, and the doctor said I never could have. Menstruation was very painful, also, and I suffered with severe pains in my back and legs, and terrible headaches, and weakness of the kidneys. I tried everything, but would dilate twice but that did no good. I got discouraged and concluded to let the doctors go and try your medicine. After writing to you explaining my case, I followed your advice carefully and with the result that I never felt so well in all my life. I am indeed a new woman and have a lovely little baby girl which is the happiness of my home. I feel that I owe my life to Lydia E. Pinkham's Medicine, and feel very proud to recommend it to all others. I hope that many others will follow my example and that homes may be brightened as mine has."—Mrs. LUCY DE BETT, 304 S. Halstead St., Chicago, Ill. (March 1, 1901.)

"DEAR MRS. PINKHAM:—I must write and tell you what your Vegetable Compound has done for me. Before taking your medicine I was unable to carry a babe to maturity, having lost two—one at six months and one at seven. The doctor said next time I would die, but thanks to Lydia E. Pinkham's Vegetable Compound, I did not die, but am the proud mother of a six months old baby girl. She weighs nineteen pounds and has never seen a sick day in her life. She is the delight of our home."—Mrs. A. D. JARNEY, Belmont, Ohio.

Get Mrs. Pinkham's Advice.

It is free as the air. She has been the means of making many a miserable life turn into one of joy—no other living person has had such wide experience with woman's ills. Her address is Lynn, Mass.

Minard's Liniment Cures Distemper.

DRESS HINTS.

If you want a white dress that will wear two seasons, wash well and never look old-fashioned, have one of lawn trimmed with white insertion. Kid boots and shoes may be cleaned by dipping a little bit of sponge in white of egg to which have been added a little ink and a few drops of oil and rubbing well.

Powdered French chalk will work wonders in removing dirt and grease spots. Rub the place well with the chalk, cover with paper and leave for twelve hours, then brush.

Faded printed art muslins take a new lease of life when starched with cream instead of white starch. It entirely restores the ground and also brightens the colors and patterns thereon.

To remove mildew from white cloth dip in a hot solution of a teaspoonful of chloride of lime dissolved in a quart of water. The cloth should be thoroughly washed in warm water as soon as the spots disappear.

To take off the disagreeable shine from worn garments lay a wet cloth over the shiny place and then rub with a hot iron, not allowing the cloth to become wholly dry under the iron or it will leave its mark. The cloth should be kept steaming.

Fond of Their Empress.

The empress of Japan inspires the people with an affectionate veneration. There is no dispute about her virtues and her intelligence; but, of course, her influence does not penetrate beyond the narrow limits to which the Japanese woman is confined.

Her majesty has overcome her natural timidity in order to appear before the eyes of Europe as a free sovereign of the east. She has performed the dress and manners of her court, and her heart has discovered subtleties of conduct which she never learned from the protocol. Thus, when the present czar was almost assassinated on the road at Nara, it was the empress who, on her own initiative, wrote a personal letter to the empress of Russia. She remains faithful to the usages of her country, and she has done much to make fashionable again the home cultivation of the silkworm.—American Review of Reviews.

The Best Room.

"I look forward to the time when it will be possible to have the best room in the house the kitchen," said Professor Luther Gulick of the Pratt high school before a convention of the Woman's Household Economic association. And it was reported that this produced a sensation. Well, some of us can look back to the time when the kitchen in grandmother's house, where we went to visit in vacations, was far and away the best room in the house. The shut up parlor couldn't hold a candle to it. No room was so bright, so cheerful, or had such comfortable old rocking chairs with patchwork cushions in them. And, then, to be always on hand when doughnuts were fried or preserves were made was a privilege one could have only by haunting the kitchen. Best room in the house? No question about it.—New York Press.

The Chimney and the House.

There is one thing in the construction of a house which should have careful attention, yet seldom gets it—the chimney. If you want a good one, you will probably have to engage a competent disinterested person to supervise its construction. Every chimney should begin in the cellar and have the points well filled and smoothed on the inside. If it is not double cased, it ought to be incased by galvanized iron boxing in the attic. This boxing should reach from the lower edge of the joints to the top of the rafters and may be made in sections like a stovepipe for convenience. With such chimneys and a slate or metal roof an attic fire would be a rarity indeed.—Good Housekeeping.

Silk Handkerchiefs.

Silk pocket handkerchiefs should be washed by handkerchiefs. Put them in cold water for an hour or two. Then wash them in water, soaping them as they are washed. If the stains have not then disappeared, wash through a second water of the same description. When finished, they should be rinsed in cold soft water in which a handful of common salt has been dissolved. Then rinse again in water containing a little bluing.

A Foot Salve.

The very best salve for tired and aching feet may be made at home of mutton tallow and camphor. Cut the clear fat, which may be the trimmings from chops or the kidneys, into small pieces and add to them a piece of raw potato, peeling and all. Cover with water and try out in the oven. When nothing is left of the fat but the cracklings, strain, add a few drops of camphor and pour into eggshells or small jars.

The Toothbrush.

In a drugstore the following suggestion appears on an label pasted inside the glass cover of a showcase where brushes of various kinds for toilet use are kept: "Soak a toothbrush in water for a couple of hours before using. It has probably been in the store for some time and become dry. If this bit of advice is heeded, there will be little cause for complaint about bristles falling out."

Mating.

Mating on rooms that are little used should be swept very clean, then wiped with a cloth wrung out of sweet milk. If done once a year, it is said to keep the room pleasant to a certain extent. The milk wash should be followed with a wiping with very hot water to prevent the matting from becoming sticky and drawing flies.

BABY'S OWN TABLETS.

A Positive Cure for Hot Weather Ailments

In the hot weather the little ones suffer from bowel troubles, are nervous, weak, sleepless and irritable. Their vitality is lower now than at any other season. Prompt action at this time often saves a valuable little life. Baby's Own Tablets is the best medicine in the world for little ones at this time. They speedily relieve, promptly cure, and give a good, refreshing sleep. The Tablets should be in every home where there are little ones during the hot weather months. Mrs. P. Ferguson, of 105 Mansfield street, Montreal, says:—"I have found Baby's Own Tablets the best medicine I have ever used for children. My baby was attacked with dysentery and was hot and feverish. I gave him the tablets and they promptly cured him. Before this he had been rather delicate but since using the Tablets, he has been much better in every way. I can sincerely recommend the Tablets to all mothers of little children."

Baby's Own Tablets are guaranteed to be absolutely free from opiates and harmful drugs. Children take them readily, and crushed to a powder they can be given to the youngest infant with perfect safety. They are sold at all drug stores or will be sent post paid at 25 cents a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

GAYNOR-GREENE CASE.

Washington, July 10.—The papers in the case of Gaynor and Greene, in which the department of justice seeks the aid of the state department to secure the extradition of the men named, have reached the state department. They have been referred to the department of justice. Secretary Hay is in possession of all the essential points in the application, he will proceed to consider the case. It is not certain when the application will be presented.

Paine's Celery Compound Saves The Life Of A Manitoba Lady.

It Completely Banishes The Agonizing Troubles That Were Dragging Her to the Grave.

There never was a remedy so highly recommended as Paine's Celery Compound. There never was a remedy in such demand. It is popular, and is prized in tens of thousands of homes, because it makes sick people well. Paine's Celery Compound has saved thousands from nervous prostration and collapse; it has effected wonderful cures in kidney and liver complaints; its victories over rheumatism and neuralgia, have commanded the attention and admiration of our best physicians in every clime. When everything else has failed, the following voluntary testimony from a Manitoba lady who owes her life and good health to Paine's Celery Compound will cheer the souls of many despondent sufferers. Mrs. Annie R. Cobb, of Seaside, Mass., says:—"Before using your valuable Paine's Celery Compound I was so crippled with rheumatism that I had to crawl on hands and knees from one place to another. I also suffered from neuralgia and dreadful headaches, and could not get more than one or two hours' sleep each night. I often thought it would be better to die than live and endure my terrible agony. I was happily advised to use Paine's Celery Compound, and after use of six bottles the rheumatism and neuralgia are banished, and I now rest and sleep well. My present improved state of health is due to the virtues of Paine's Celery Compound, which has done wonders for me. My husband is now using it for dyspepsia, and it is doing wonders for him."

Suing them for his pay is one thing that tries a doctor's patience.

A literary pursuit is usually a race for the elusive dollar.

Pimples and Blisters.

How unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up the whole system does. You can quickly bring about the improved condition by using Ferrozone. Pimples are driven out of the blood, organs grow stronger, the blood purifies the nerves. Pimples and blisters disappear, color becomes good. Glad! try and see how much joy can be gotten out of a box of Ferrozone.

The less a man thinks or knows of his virtues the better he likes him.

Truth does not make everybody free; it sends some men to jail.

Cramps are Like Burglars.

They come unexpected, and when they are least welcome. Be armed with a one minute cure for cramps and keep Polson's Nervine handy; it acts instantaneously. Nervine's anodyne power is unique, for its composition expresses the highest medical progress of the age. Polson's Nervine is a true comfort in the family for in all derangements of the stomach and bowels it is an absolute specific. Nervine has five times greater medicinal value than any other remedy and is sold in large 25 cent bottles. Try it.

Clever men are good, but they are not the best.

Minard's Liniment For Rheumatism.

LAUNDRY LINES.

Cool rainwater and soda will remove machine grease from washable fabrics.

Rainwater and lukewarm soda of white castle soap make the best mixture in which to wash embroideries. Silken fabrics, especially white silk handkerchiefs, should not be dampened, but ironed with a moderately warm iron when taken from the line.

Yellow stains left by sewing machines oil on white may be removed by rubbing the spot with a cloth wet with ammonia before washing with soap.

All friction towels should be washed very rapidly, stretched into shape and dried as quickly as possible. It is unnecessary to add that they should never be ironed.

Fruit stains on white material may be removed with spirits of camphor if applied before the material has been wetted. Afterward wash and boil in the usual manner and the stains will vanish.

Fans in starch is frequently employed to give a brilliant finish to the starched article and also to prevent the iron from sticking. Add a piece the size of a walnut to the boiling starch.

For the Housecleaning.

No home can be comfortable unless it is not only clean, but thoroughly clean. If carpets are not thoroughly swept, glass and china really clear and bright, the effect is almost as bad as if they were really dirty. A cleaner that will keep the furniture looking nice, remove the stains and soil and does not cost a great deal in time and money is a great boon to housewives. To reach this end there is nothing better than a mixture of linseed oil and kerosene. If the article to be polished is very much soiled, wash it thoroughly with warm, soapy water, drying as quickly as possible. Then, with a dandel grass dipped in a mixture of two parts linseed oil to one of kerosene, rub the surface thoroughly. Let it stand awhile until you have rubbed another piece, and then, with a perfectly clean piece of flannel, free from oil, polish until it shines to your taste. Bronzes and bent ironwork, fenders and grate fixings all look brighter and fresher for a little rubbing with the oil rags, and the room and its furnishings that you have thus treated present a look of daintiness, refined cleanliness that is worth a great deal of work and infinite trouble to produce.

Make Home Pleasant.

If you are a big sister, don't be too strict with your little brothers. Try to be patient with your own blessings and make home pleasant. You know you go to bed later than they do, and when the house is silent and still just think how solemn and sad it would be were the days as quiet as the evenings.

If you are a plain girl and one of your brothers has a pretty sweetheart, do not roam about the house repeating the stale saying that is to the effect that beauty is only skin deep. Do not be ashamed of dusting the drawing room, darning your brother's socks or doing any little kindly act for them. If you are musical, see to it that your performances are really meritorious ere you get into the way of wearing out the nerves of your family instead of affording them pleasure.

A Cup of Chocolate.

Chocolate as a drink is often unpalatable because it is improperly made. A good formula which, if carefully followed, brings about sure results should allow two ounces of chocolate to half a pint of cold water. Use the unsweetened chocolate and break into small pieces, letting it stand in the water until soft, when the mixture is put on the fire and brought to the boiling point. Cook exactly one minute after it boils and no more. Remove from the fire and beat quickly with a chocolate muddler or an egg beater and serve at once, putting a tablespoonful of whipped cream on the top of each cup at the last moment. The mistake most persons make in serving a cup of chocolate is to cook it too long. This brings out a strong, rank taste that is not agreeable.

An Open Kitchen.

"I never allow a single inclosed space of any kind in my kitchen," said a very good housekeeper. "My cupboard or closet becomes a sure receptacle for rubbish unless most carefully watched, and no cook, however tidy, likes to have the 'mistress' opening doors and looking in, as though investigating the state of affairs. So I have found that by far the best way is to have everything open—no kitchen closet, no inclosed space under the dresser or above all the sink, and in this way I pass all the pots and kettles and pans under a daily review without hurting the cook's ever susceptible feelings."

A Clothes Hanging Hint.

A woman who treats her clothes with beautiful care says that she hangs her silk petticoats or skirts of silk, chiffon, or anything adorned with flounces she wears three or four loops along under the facing of the skirt rather than in the waist belt, by which the average woman hangs her clothes. She claims when flounces are hung the opposite way from that in which they are worn they are fresher and take on a new lease of life.—Good Housekeeping.

The Bathroom.

Don't put a cheap wall paper in a bathroom. It should be a thick, sanitary paper, highly glazed, and ought to have a final coat of clear varnish when it is on the wall. A thin glazed paper peels off and gets quite discolored in a few months with the steam arising from the hot water. A washable distemper is excellent for coloring the walls of bathrooms.

A RAILWAY MAN

Extraordinary Unpleasant Symptoms of Kidney Trouble in This Case.

Tortured by all kinds of Pains and Aches he Tries Everything, but fails to Find Relief Till Friend Advises Him to Use Dodd's Kidney Pills—They Have Made a Well Man of Him and he is Grateful.

Ottawa, July 11.—(Special)—Frank Chartrand, a railway man, whose home is 138 Little Chaudiere Street, has acknowledged that Dodd's Kidney Pills have done more for him than anything else in the world has ever done. He says: "I suffered with backache and was always drowsy and had a very heavy feeling in my limbs. I had frequent severe headaches and more times very sharp pains in the top of my head, which gave me much annoyance in my work."

"My fingers would cramp and I would have an uneasiness in my legs and occasional pains in the loins. I was dizzy in spells and short of breath. If I ate a hearty meal I would have a pain in my left side. My appetite would sometimes be very good and sometimes I couldn't eat anything."

"I had a constant soreness and tenderness over the spine and tired feeling in the region of my kidneys. I suffered quite a little with a dragging heavy feeling across the loins."

"Dodd's Kidney Pills were recommended to me by a friend of mine who had been cured, and I began to use them."

"Almost from the start I began to feel the wonderful improvement, which continued as the treatment proceeded, till the unpleasant symptoms had one by one entirely disappeared."

"Dodd's Kidney Pills have worked a wonderful cure in my case, and I cannot speak too highly at this great and good remedy."

What Dodd's Kidney Pills have done for Mr. Chartrand they have done for thousands of others, and they'll do the same for you if you give them a chance.

There are many railway men in Canada to-day who find Dodd's Kidney Pills indispensable. They are the railway man's surest and best friend.

The constant vibration on trains and engines is very hard on the kidneys, and Dodd's Kidney Pills make these organs well and able to resist disease.

ALLEGED DEFAULTER.

Hamilton, Ont., July 10.—J. C. McKeand, who has been the greatest book-keeper for E. T. Wright & Co. for the past nine years has been missing since last week, and an examination of his books shows a large shortage in his accounts. H. G. Wright says he believes McKeand is in the United States, and will likely stay there. The exact amount of his defalcation cannot be stated until a complete audit of the books has been made, but it is estimated at over \$5,000. Dabbling in the bookish shops is supposed to be the cause of McKeand's downfall.

The Sight of it Whets The Appetite.

Malt Breakfast Food ALWAYS A WELCOME DISH AT THE MORNING MEAL.

Many Use it Twice a Day in The Hot Weather.

Malt Breakfast Food is a blessing to thousands in the hot weather. Amongst those who toil with brain and muscle, a large proportion have weak and failing appetites, and were it not for a relished dish of delicious Malt Breakfast Food, the duties and labors of the day could not be properly met. Malt Breakfast Food whets the weary appetite. It is always a welcome dish at the morning meal. Many with great advantage use it for breakfast and supper in the hot weather. Try it for a week and note your gain in strength. Your grocer recommends it.

If bald spots were a sin, false hair would be the charity that covers a multitude.

Catarrh is a Germ Disease.

Science, armed with the microscope, has established it a fact, and this conclusion renders obsolete the practice of treating Catarrh and Bronchitis by stomach drugging, or sprays, snuffs, etc. Such treatments are an utter failure because they cannot penetrate the delicate air cells of the lungs, or permeate the air passages of the nose and bronchial tubes where the germs of Catarrh have their stronghold. Catarrh is the only certain remedy. It is inhaled by the mouth and after spreading through all the respiratory organs is exhaled through the nostrils. Catarrh kills the germs, heals the inflamed tissues, clears the head and throat in two minutes, and cures in a few hours. Nothing is so effective, pleasant and simple as Catarrh. Two months' treatment \$1; small size, 25c. Druggists or N. C. Polson & Co., Kingston, Ont.

If you have faith in your watch remember that "faith without works is dead."

"DRINK GRANO, CEREAL COFFEE."

An ounce of mother is worth a pound of clergy.

If you are scrofulous, dyspeptic, rheumatic, troubled with kidney complaint, general debility, lacking in strength, take Hood's Sarsaparilla.

God's showers can bring no blessing to seedless soil.

Pastors and others who contribute news items to this department of Saturday's Planet will confer a favor by seeing to it that their "copy" reaches this office not later than Friday noon of each week. Matter received later than that hour cannot be guaranteed insertion.

International Bible Lesson for Tomorrow—The Ten Commandments—Duties to God—Ex. xii, 1-11.

Golden Text—"Thou shalt love the Lord thy God with all thy heart."—Luke x, 27.

Today's lesson is the first of two tablets of laws written upon stone by God. God so loved the world as to give His law as well as His Son. That greatest joy and pleasure a loving, faithful parent can have, is the love and the obedience that springs from them, and so infinitely is the joy of our Heavenly Father. He would here enlighten our ignorance, and warn us of our danger. These directions are to inspire the very best of those He loves and rules by love, and yet men live without God, and are their own god, and despise Him and His rules. Any wonder Satan, who hates God and man, would lead them in such a course? The man who has not God's love, needs to turn to Him for it, and the Holy Spirit given to them who ask "whosoever will"—soon creates a loving heart.

2. God here shows the carnal mind wants some visible object for worship, when "they who worship must do so in spirit and in truth," with a heart communing with His God.

3. Had men God's love they could not dishonor His name.

4. A chief factor in the knowledge and love of God is the Sabbath; in it He rested and hallowed or made it holy, to make us holy also. No man who despises God's Day as His holy making day can have a holy life here or hereafter, because he neglects a holy and heavenly eternity.

Church Notes.

Mr. and Mrs. J. W. Aitken will move out to Sandy Knowe next week.

The story of the run two young ladies are making for a minister is amusing Erieanites just now.

Miss Jessie Houston and Miss Bartha Northwood went fishing on Friday. They acknowledge catching one bite.

Miss Addie Lylewhite and Mrs. John Cooper are the guests of Mrs. (Dr.) V. Bray.

BARBER SHOP AT ERIEAU.

George A. Taylor, barber, has opened a first class barber shop and will give his customers the best service.

"DRINK GRANO, CEREAL COFFEE."

BEAMS OF SUNSHINE

Chatham Branch of the International Sunshine Society.

Motto—Good Deeds.

Have you had a kindness shown? Pass it on.

'Twas not given for you alone—Pass it on.

Let it travel down the years, Let it wipe another's tears, Till in heaven the deed appears—Pass it on.

Last Saturday marked the commencement of our Flower Mission, and every Saturday during the summer months the Sunshine members purpose carrying flowers to each of the hospitals, the Home for the Friendless, and the House of Refuge.

Miss Kate Mercer is convener of this committee, and if there are any Sunshine members who would like to pay their dues by giving a few flowers for this purpose, she would have some of the members call for them and distribute them in the poor wards of the hospitals.

In Detroit this branch of the work has reached such proportions that they found it necessary to establish headquarters for the Flower Mission in the centre of the city, where flowers are sent from all over the city and State for distribution among the sick and the poor.

In the Sunshine column of last week's Free Press, Mrs. Ayres tells of a gentleman from Boston who had happened to read the Sunshine column and called at Grimes' (their headquarters) and made numerous inquiries about the methods employed by the Sunshine Flower Mission. He did not give his name, but said he had an acre and a half of flower beds near Boston, and that the hospitals sent wagons to his place once a week. He raises the flowers especially for the benefit of hospital patients and for the pleasure he derives in so doing. He considered, he said, that at least half the enjoyment in the receipt of a bouquet by a sick person, might be in the happy, helpful call of a friendly stranger. He approved of the Flower Mission, and was right. The Sunshine calls are generally appreciated as much as the flowers.

The President-General tells how to start a Sunshine barrel:

"Here is my method already outlined, and Sunshine, I am sure, will readily adopt it. Go straightway and fix up a barrel. Fix it up nicely with chintz and contrive some pretty cover to keep the contents clean. Into it drop all the toys as the children grow tired of them; all the clothing that, though still in good condition, has become too small for the children it was originally designed for. Drop in all the books and magazines you have no further use for. In fact, put here all pretty and useful things as they finish their mission with you, and have them ready to pass on. You remember last Christmas, how I had to refuse pleas after pleas from Santa Claus just because the time was too short. We had started too late to meet all applications."

"When your barrel is quite full, nail on the top, roll it on its side into a safe place, and begin to fill another. You ought to fill a good sized barrel every month."

The idea has prevailed in the past, that self-interest is the great concern—that if one would find success, greatness, happiness, he must give all attention to self, and to self alone. This has been the great mistake; this the fatal error, this the direct opposite of the right, the true, as set forth in the great immutable law that we find our own lives in losing them in the service of others. In longer form, the more of our lives we give to others, the fuller and the richer, the greater and the grander, the more beautiful and the more happy our own lives become.

—Ralph Waldo Trim.

DRESDEN

July 12.—Dr. and Mrs. McDonald arrived home from their wedding trip yesterday.

Artie Smith left on Wednesday to join his brother Harry in Arkona.

Miss Fay leaves this evening for her home in Chatham.

Mrs. W. H. Willson and son Harold leave on Monday for a visit at Port Lambton.

A mistake occurred in the local columns of the Times this week concerning the standings of Miss Emma Oldham at the recent B. C. exams, which The Planet correspondents had been asked to rectify. Miss Oldham wrote 70 words per minute copying matter on the typewriter and 85 words per minute from dictation at the typewriter and also wrote about 150 words per minute in shorthand. She also transcribed shorthand notes at the rate of 40 words per minute and secured 1,114 marks out of a possible 1,350.

The plate glass and oak fronts are being placed in the Penfold building. J. W. Hastings, of Watford, has placed acetylene gas throughout the building.

John Richardson has purchased three acres of the Amasa Wright estate and will remove his buildings from the lot he is at present occupying and which has been sold to the Lake Erie to his new property.

Carrier boys are not authorized to collect subscriptions. Our collector calls in each town once a month; if a subscriber wishes to pay his account before the collectors call he must remit direct to The Planet Office, Chatham, as we will not be responsible for roonies laid to carriers.

There is a lot of unconscious humor concealed in the explanations of baseball managers as to why their clubs lose.

Patient—I tried to, doctor; but I was unable to keep it up for more than five minutes at a stretch.

Men's Washable Vests
