Founded

MEUNIER

in 1860

Avenue, Paris

LOMBART CHOCOLATE

In 1760, under Louis XV, **Mr. Meunier** took up his residence on *Vieilles Etuves Saint-Honoré* Street, near the Du Trembois Cross, now known as the *Fontaine de l'Arbre-Vert*.

This locality was the birth-place of the Chocolate Industry; for it was there that, some years earlier, an officer of Maria-Theresa, wife of Louis XIV, obtained, through the influence of the Queen, the monopoly of its manufacture and introduced it in France.

In 1789, King Louis XVI made **MEUNIER** purveyor by appointment to Her Royal Highness Victoire de France.

In 1804, Grimod de la Reynière perpetuates, in his *Almanach des Gourmands*, the high reputation acquired by the "HOUSE MEUNIER"; he declares that he considers it "as one of the two or three which alone make good chocolate"; and in his edition of the same *Almanac* for the year 1807, he states "that the **Chocolate Meunier** is much superior to that made in Florence and other Italian Cities.

In 1814, Her Royal Highness the Duchess of Angoulême selected **Meunier** as her purveyor by appointment.

The prosperity of the Firm thence continually increased.

It was in 1852, that the *Gazette des Hopitaux* called attention to **Meunier** by quoting a report of the Directors of the Medical Faculty, which ends as follows: "We do not judge of the value of the chocolate of the **House Meunier**, but by the results which we have obtained from it and we do not recommend any other, &c."

Finally, from 1849 to 1880, the following awards were granted to the Firm:

- PARIS EXHIBITIONS, 1849, 1855, and 1873, **Bronze, Silver & Gold Medals.**
- 1873, Vienna Exhibition, Medal of Merit.—1874, Marseilles Exhibition, Gold Medal.—
- 1876, Medal, Philadelphia Centennial Exhibition.—1876, Gold Medal of the First Class National Academy.—1878, Class 52, Two Medals for Patent Machines for weighing and systematic cooling of Chocolate.—1878, Class 74.

Out of competition, Member of the Jury.—1879, Grand

Diploma of Honor, National Academy.—1880,

Melbourne (Australia) Exhibition, Two First Medals, and the Cross of the Legion of Honour.

Such are the points which recommend the use of **Lombart Chocolate**, to the confidence of the public.

Mr. Lombart, for twenty-five years the proprietor of the **Meunier Manufacture**, has ever followed in the steps of his predecessor and has added to his industry all the improvements which his long experience aided by the advance of science has suggested.

The Manufactory, now working at No. 75 De Choisy Avenue, is the most extensive in Paris

The **House Lombart** imports *Teas* direct from China. It only sells *black teas* carefully selected and of extra quality.

Black Teas are the only ones, according to the Medical Faculty which are wholesome. See in reference hereto the reports of Doctors **TROUSSEAU** and **PAYEN**.

PREFACE.

In bringing this twenty-fourth edition of "CHERRIER QUEBEC CITY & LEVIS DIRECTORY," for 1882-1883, before the public, the publishers have had the usual difficulties to surmount; yet, in its completed form, have no misgivings as to its character, being conscious of having spared nothing so as to render it trustworthy, and believe this volume to be as perfect as human heads and hands, aided by 24 years of experience and a thorough knowledge of this Ancient City, can make it.

The issue of the book has been somewhat delayed by the addition of directories of the town of Levis, municipalities of Bienville, Lauzon, St-Columbia of Sillery, and the villages of Stadacona, La Canardière, Hedleyville, New-Waterford, and Little River St-Charles, north and south; a work involving considerable labor, and undertaken in the greater interest of this Annual and its patrons and at the request of a number of merchants and professional men throughout the City. This information has been taken from the last revised assessment rolls, kindly furnished by the municipal clerks, to whom we tender the expression of our gratitude coupled with our many thanks.

The above additions and the elegant colored map, new with this volume and pronounced by good judges in Quebec to be the best one ever published and free to patrons of our directory, together with a lithographed view of the Ancient Capital and the steady increase in the population and business of the city, requiring a constantly increasing outlay of labor, care and expense with each succeeding issue, has involuntarily compelled us to advance the price of the book to subscribers. For years past no increase in price has been made, and during all this time, we have annually borne the growing expense without a murmur, but it has of late become so great that we have been forced to ask our patrons for relief, which we are happy to acknowledge, has been willingly granted us.

Special attention is called to the revised and accurate STREET GUIDE prepared for and original with the 1877-78 issue—see page 16 and following. For simplicity of arrangement and ready reference, this guide cannot be surpassed.

In the Miscellaneous Matter, we have done much additional work, which we hope may be appreciated. These with the other improvements above alluded to, largely enhance the value of our Directory as a book of reference, and we feel assured that this volume contains a full and fair representation of the population and business industries of the Capital City.

Some idea of the amount of labor that is required to collect and compile the material for this Annual may be obtained from the table below, giving the number of names found during the canvass this year which were not in the Directory of last year; the number of names erased from the directory of last year, because they are not found in the canvass of this year, together with the number of other changes made either in the place of residence, business or place of business, and in the names of firms, &c., &c. Then to obtain this information, the fact exists that every dwelling, store, shop and building whatsoever within the directory limits have been visited by ourselves and canvassers. Then, further, when it is remembered that all the names are collected separately, one by one, and *not copied from other sources*, and that in more than *fifteen hundred cases* it has been necessary to visit the same buildings a second time for the purpose of making further inquiry in order to insure a greater degree of accuracy and completeness; when all this is carefully considered, then even only a part of the labor and care is visible which must necessarily be performed to complete the work of making the Quebec City Directory.

CHANGES MADE IN COMPILING THIS VOLUME.

Changes in location, &c., in preparing the Directory of 1882.....	2,433
Whole number of additions and alterations in preparing this edition.....	6,003

Of the 12,258 names contained in this issue, only 6,255 are to be found in our edition of last year, without some alteration. By comparing these figures, it will be

seen that on an average, only about one-half of the names which are in this edition, now remain correct in that of last year's.

The absolute necessity for a yearly publication is here amply shown by the fact that there are thousands of changes, besides new names added and old ones omitted, in the short space of one year.

Attention is called to the advertising department on pages 1-16, containing the well displayed cards of prominent business people in Quebec. On glancing through these pages it will be seen that some of its best men are there represented as staunch supporters and believers in this work as a FIRST CLASS ADVERTISING MEDIUM, a fact which should be a moral inducement to many others of our business men, who as yet have not availed themselves of our Annual as an advertising medium.

An advertisement inserted here is sure of preservation, having thereby an unqualified advantage over a simple announcement in the daily press, and as it carries the advertisement right into the office, the shop, or the house, it becomes a most valuable advertising medium, being the object of constant and hourly reference.

The table of contents on page 7, shows that the various information contained in these pages has been fully recorded in such a manner as to make reference to it easy, and it is believed that the above table will prove valuable to all who consult the directory.

We again are constrained to refer to the absolute want of numbering which prevails in that part of our city—St-John suburb—which was unmercifully destroyed in last year's conflagration. We respectfully call the attention thereto of those whose duty it is to enquire and see about such matters, for if taken in hand at once it could be easily remedied.

We return thanks to the public generally who have kindly aided us or our canvassers in collecting the names and other information for the work, and more especially do we thank those who have so generously favored us with their advertisements, because without this patronage no full and complete directory can be made, except at a pecuniary loss to the publishers.

Again we renew the assurance that we shall each succeeding year, strive to make the Quebec City Directory, superior to the one preceeding it and always equal to the directory of any city in this great Dominion.

And therefore we know that for accuracy, typographical appearance, general arrangement of contents, and ready reference, quality of paper and binding, Cherrier's Quebec City Directory stands unsurpassed by any similar publication.

This being the twenty-fourth consecutive year during which the Cherriers have compiled this Directory, we deem the fact worthy of special mention.

The following table exhibits the number of names published in each Directory since 1790, and the increase and decrease in population whenever any:—

DESCRIPTION OF QUEBEC.

QUEBEC, after Montreal and Toronto, the most populous city in the Dominion of Canada, capital of the Province of Quebec, is situated on the left bank of the River St. Lawrence, which here receives the St. Charles, 260 miles from the mouth of the River St. Lawrence at Point des Monts, 142 miles N. E. of Montreal, and 328 miles N. N. W. of Portland, 256. Lat. 66° N. E. longitude 46° 49' 6" N. lon. 71° 13' 45" W. Mean temperature in winter 19°, in summer 68° Fahrenheit. A year of the year 40°.

The city has a remarkably picturesque situation between the two rivers at the N. E. extremity of a narrow but elevated table land, which, for about eight miles, forms the left bank of the St. Lawrence. Cape Diamond, the extremity of the table land, is 350 feet above the level of the river at low water marks, to which it presents a nearly precipitous face; the descent to the St. Charles is more gradual. The distance from one river to the other across the ridge is rather more than a mile. Opposite Cape Diamond the St. Lawrence is contracted to a breadth of only 1314 yards; but immediately below, at the confluence of the St. Charles, it spreads out into a broad and beautiful basin more than 2600 yards wide, forming an expansive and excellent harbor. The spring tides rise and fall 22 feet.

Quebec is divided into two parts, called Upper and Lower Towns. The Upper Town occupies the highest part of the promontory; it is surrounded with walls, and otherwise fortified. The ancient citadel, which crowns the summit of Cape Diamond, covers, with its numerous works, an area of 40 acres, and from its position is probably the strongest fortress in America, according to the old system of gunnery.

The chief ascents to the Upper Town are by a steep and narrow winding street—called Mountain hill—and by a flight of steps.

The Lower Town, which is the seat of commerce, is built around the base of Cape Diamond, where, in many places, the river has been allowed to make room for the houses. On the side of the St. Charles the water at high tide formerly washed the very foot of the rock, but from time to time wharf after wharf has been projected towards low water mark, and foundations made sufficiently solid on which to build whole streets, where boats once rode at anchor. The banks of both rivers are now lined with warehouses and wharves, the latter jutting about 200 feet into the stream, and along which the water is of sufficient depth to admit vessels of the largest size. The streets are generally irregular and narrow, in few instances are they well paved and lighted. The houses are principally of stone and brick, two or three stories high, the older ones with steep and quaint-looking roofs.

The city has several times suffered from disastrous fires, but the result has been the erection of more substantial buildings, and a consequent improvement in the general appearance of the city.

During the year 1834, a supply of water was introduced from Lake St. Charles, but it is regretful to state that for years past the supply of water has been very inadequate; thanks to corporate mismanagement.

In the Upper Town are several squares and public walks, commanding views unobscured for their varied and picturesque beauty. In one stands an substantial monument, erected to the joint memory of Generals Wolfe and Montcalm, the English and French commanders, who fell at the taking of Quebec in 1759. It consists of an obelisk resting on a granite pedestal, the whole 65 feet high. A monument 40 feet in height marks the spot where General Wolfe fell on the Plains of Abraham; while on the St. Foy road stands an iron pillar surmounted by a bronze statue, presented by Prince Napoleon Bonaparte in 1855, intended to commemorate a fierce struggle which took place here in 1769 between the British and French troops.

Among the public buildings of Quebec may be mentioned the new Departmental Buildings, the Roman Catholic Cathedral, an irregular building, capable of containing 4000 persons, and covering an area of 3 acres; the English Cathedral, surmounted by a lofty spire; and St. John's Free school Church, also a tower with a spire, occupying several positions in the Upper Town.

A. LAVIGNE,

Editeur de Musique,

There are in all 20 churches in Quebec, and 1 Synagogue. Of the churches 5 are Church of England; 10 Roman Catholic; 1 Church of Scotland; 1 Presbyterian; 1 Baptist; 1 Congregational, and 1 Wesleyan Methodist.

The educational institutions comprise 3 Roman Catholic Colleges, viz: Laval University, with faculties of law, medicine and arts; the Grand Seminary, and the Minor Seminary; the Ursuline Convent, an extensive establishment founded in 1641: several nunneries; Morrin College with 4 professors; Laval Normal and Model School; the Quebec High School; and a number of academies and private and public schools. There are in addition the Canadian and Mechanics' Institutes, provided with libraries and reading rooms; the Literary and Historical Society, founded in 1824, and possessing valuable copies of correspondence of late French governors, and a large collection of historical manuscripts: but nearly the whole of its museum, and a great part of its library, were destroyed by fire with the Parliament buildings in 1854; there are besides the Entomological Society, St. Patrick's Literary Institute, Advocates' Library, Board of Trade, and Merchants' Exchange.

Nine daily newspapers are published in Quebec, 6 of which are in the French language besides two monthly periodicals.

The principal benevolent institutions are the Marine Hospital, the Hotel Dieu, the General Hospital, the Hospital of the Sacred Heart, the Jeffrey Hale Hospital, and the Lunatic Asylum at Beauport.

Quebec has the head offices of 3 banks, viz: Quebec Bank, Banque Nationale, and Union Bank of Lower Canada; besides which there are 2 savings banks, and agencies of the Bank of Montreal, Merchants Bank, and Bank of British North America.

Shipbuilding has been the chief manufacturing industry of Quebec; but has declined almost to a minimum. There are now manufactories of iron castings, machinery, nails, leather, boots and shoes, India rubber goods, rope, tobacco, worsted goods and cartridges.

Quebec is an important port of Canada. The great staple of export is timber; Montreal being the port where the agricultural exports are chiefly exchanged for supplies of foreign goods. The timber is furnished principally by the Ottawa and St. Maurice Rivers. As the rafts come down the river, they are collected into what are called *Coves* and secured by booms moored along the banks, the timber being partly afloat, partly aground, according to the rise or fall of the tides. These coves extend almost continuously along the left bank of the St. Lawrence, for a distance of six miles above the town, throughout the whole of which, at certain seasons, may be seen a mass of logs with a breadth varying from 150 to 200 yards. There are also extensive timber and deal sawing establishments near the city, on the right bank of the St. Lawrence.

Quebec returns three members to the House of Commons, and three to the Provincial Legislature. It is the seat of the See of two bishops, the Lord Bishop of Quebec (Church of England), and His Grace the Archbishop of Quebec (Church of Rome). Pop. in 1832, 27,662; in 1844, 34,500; in 1852, 42,052; in 1861, 51,100; in 1871, 59,699; and in 1881, 52,447.

Quebec was first visited by Jacques Cartier in 1535. It then consisted of an Indian village called *Stadacona*. In July, 1608, Champlain founded the city, giving it its present name. The progress of its aggrandizement was slow, in consequence of the hostilities of the powerful Iroquois. In 1629 it fell into the hands of the English; but with the whole of Canada was restored to the French in 1632. From this period some attention was paid to the aggrandizement of the city; and in 1663, when the colony was made a royal government, it became the capital. In 1690, the English attempted to reconquer it, but met with a disastrous defeat; but in 1759 it was captured by the brave General Wolfe, and has since been under the British Crown. An unsuccessful attempt was made by the Americans to carry the city by assault on the night of December 31, 1775, when General Montgomery was slain.

GUIDE TO THE LOCATION OF STREETS.

EXPLANATIONS.

The chief object this Guide has in view, is to show the location of each street, indicating also what other streets end on it, run from it or intersect it, with, whenever possible, the corner numbers where such streets end, commence or intersect. It will be noticed that the names of the streets are given in Alphabetical order giving the course which they run, according, as near as possible, to the points of the compass.

This Guide is also intended to indicate at a glance the proximate locality of any number on any street, for example: if you desire to know where CHERRIER'S DIRECTORY OFFICE, established in 1858, 72, St. Peter street, is located, this Guide tells you that being an even number, it will be found on the east or right side of St. Peter street, cor. of St. Antoine.

A.—denotes that there is no number on the corner.

St. Roch Ward.—From St. Roch to St. Ours, and from the north side of St. Joseph to the river St. Charles.

When no NUMBERS appear with the NAMES, such NAMES are understood to occupy the first number preceding them.

The STREET KEY is presented in its most simple form, it being considered only as a reference to addresses. For fuller information the ALPHABETICAL DIRECTORY must be consulted. A certain number of names are unavoidably left out from the Street Key—owing to the tardiness of persons in removing,—which however appear in the Alphabetical list.

In the Street Key, numbers followed by a— are houses *unoccupied* at the time of publication.

Names of residents in houses of ill-fame are not inscribed in the Street Key, and as a consequence will not be found in the Alphabetical Directory.

At the time of going to press, 12th May, there were still 314 houses unoccupied.

The temperature recorded in Table I, II, III to 1873, are derived from daily observations of the extremes of temperature made at the Observatory Quebec, those for 1874-1881, from bi-hourly observations made at the Citadel, under the direction of the Commandant.

The - sign to some of the entries in Table III indicates that they are that number of degrees below zero of Fahrenheit's scale.

The letters R or S, when used in the Table IV, indicate that although Rain or Snow fell, the quantity was too small for measurement.

ALPHABETICAL DIRECTORY.

EXPLANATIONS :

ABBREVIATIONS USED IN ALPHABETICAL DIRECTORY : bdg. hse. *boarding house* ; bds. *boards* ; h. *house* ; r. *rent* ; sq. *square*.

The Names in CAPITALS are those of Subscribers and Advertisers.

The object of the ALPHABETICAL DIRECTORY is to find a person's address knowing his or her name ; whilst the object of the STREET DIRECTORY is to find out a person's name knowing his or her address.

When hill, lane, place, road, square, or any other such word, does not follow the residence, the word *street*, is to be understood ; for example : Abgrall Victor, laborer, Champlain 809, *means* Champlain street 809.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of *business*, and the second the *residence*,—which is always indicated by the letter h.—and both in the same street.

It will be noticed that the names of all members of a firm are added directly after the name of said firm. This, it must be understood, does not interfere with the regular insertion of the same names in their *Alphabetical order*.

Our advertising patrons may be found by referring to the Index, page 6. We feel justified, after many years acquaintance, in saying we believe them to be among the very best in their vocations, in the City of Quebec.

Names of residents in houses of ill-fame not being inscribed in the Street Key, will not, as a consequence, be found in the Alphabetical Directory.

For full indices to the CONTENTS, see page 6.

In preparing this year's issue we have noted 2118 removals, have erased 1281 and have added 1273 names ; the number of names in this year's Directory being 9600 shows a loss during the past year of 9 names, there being 9609 in the last edition. At the time of going to press, 20th May, there were still 125 houses unoccupied, equal to 200 lodgings, a fact which will more than account for the few omissions that may be found during the year.

To find a name, first know how to spell it.

TO ALL:—

Pressing Request.

We wish to impress upon the minds of more of our business men the importance of aiding us, not only by their subscription to the work, but more particularly by their advertising patronage, to keep this indispensable annual up to its present high standard. It is a duty which they owe to the community and themselves, and which is trifling in amount for them to subscribe; it is solicited but once a year, and, as a rule, they reap a handsome profit from the investment, instead of it being any loss to them. It is with us as with newspaper publishers; we offer copies of our publication, at a price almost below the cost of production, and it is the income from this advertising patronage which should make up for the loss we sustain otherwise. Had the advertising patronage been bestowed more liberally upon our work in past years, we probably would not have been under the painful necessity of augmenting the price of subscription. Upon our non advertising business community and upon it alone, must we cast the responsibility and its consequences.

SO CALLED DIRECTORY PATRONAGE.

We do not consider that any body patronizes a **DIRECTORY** when he buys it, or that a Directory Publisher is under any obligation to any one who either purchases a copy or inserts an advertisement. If it is a good and reliable **DIRECTORY**—as we claim ours to be—the subscriber, purchaser or the advertiser gets **THE FULL VALUE OF HIS MONEY**, and the account is even between them.

CHERRIER & CO.

Publishers for the last

TWENTY - FOUR YEARS OF THE QUEBEC CITY DIRECTORY

Established in 1858.

DIRECTORY BORROWERS.

The Directory borrower is abroad in the land; his name is "legion." We do not mean your customer, nor the stranger who wishes to look up the address of a friend or relative, but the pessimist who does business next door, up stairs, or around the corner, who is too *stingy* to possess a Directory of his own, and too *small-souled* to contribute a dollar to its support. He who thinks it smart and manly to snub the convasser when asked to give his name and those of his employees; he who is the first one to find fault if he should see an inverted letter, or fails to find a name which *he does not know how to spell*. Discourage him. He borrows your Directory for "*just a few minutes*," and keeps it *as many days*—indeed you are fortunate to get it back *at all*. He is the unenterprising fellow who helps to *kill* a city. Send him around to the **DIRECTORY OFFICE, 72 St-Peter St.** Let him *sponge* on us. We keep **FOR SALE** an extra Quebec Directory, also Directories of Canadian and American Cities for free reference by **EVERY BODY**, at our branch office, **72 St-Peter St.**

STADACONA.

A village in Quebec County, on the River St. Charles, and connected with the City by "Bickell Bridge," very recently constructed by the gentleman whose name it bears. Although this village is outside the limits of the City, it may be considered a suburb of Quebec, possessing most of its advantages without being subject to its burdens. The population consists of about 100 families, containing some 500 souls, mostly of the working class, who gain their livelihood in the adjoining ship yards, of which there are five on that side of the river; three only, however, are in operation viz: those of Messrs. Julien & Labbé, J. & J. Samson, and McKay & Warner; there is likewise a steam saw mill which is not now in operation. The Canada Worsted Co., will shortly be in operation and will, no doubt, add greatly to the prosperity of the place. Hare Point, on the City side, has three ship yards, viz: Messrs. W. H. Baldwin, Narcisse Rosa and Louis Rosa, besides the lumber establishment of Mr. T. Gauvreau. It is to be hoped that in the good time that is now coming, when manufactures of all sorts will take the place of the now languishing industry of ship building, Stadacona will rank as one of the most populous of our suburbs. It is in every way suitable for the establishment of manufactories. On the heights above the River St. Charles is a fine level plateau, exceedingly well adapted for Villas, and overlooking the extensive valley of the St. Charles, with a fine view of the Parishes of St. Foye, Lorette and St. Ambroise, on one side, and on the other bounded by the pretty little river "Lairet" having a splendid view of the City and Port of Quebec. Distant from Quebec about 1 mile.

TOWN OF LEVIS.

A large and flourishing town on the south shore of the River St. Lawrence, opposite Quebec, Seigniorly of Lauzon, in the county of Levis. It is divided into three different wards, namely: the wards of St. Laurent, Notre-Dame and Lauzon. The head post office is in Lauzon ward, and branches of it in St. Laurent and Notre-Dame wards. An extensive trade of timber and fire wood is carried on here, which is surpassed in the province only in the cities of Montreal and Quebec. Several manufactures are now in operation. The Great-North-Western Telegraph Co. has three offices here, one in Lauzon ward, one at the railway depot, and another in Hadlow cove. The station of the Grand Trunk railway is situated in the St. Laurent ward. Two steamboats ply every five minutes between Levis and Quebec. Distant from Quebec one mile, fare 2c.; from Richmond 96 miles, and from Montreal 174 miles. Mails daily. Population according to last census returns 7,597.
