## TWO LIVES LOST IN A BIG FIRE IN TORONTO

### Woodbine Hotel in the Queen City Was Destroyed Last Night.

### New York Guests Were Caught and Shut Off From Exit.

**Dead.**  
Max Cohen and Fred Levenson, New York.

Charles Wilmott of Belleville, William Jeffrey, of Stratford, a traveller, for McClary's, London.

It is practically certain that Levenson and Cohen perished, although the bodies have not yet been found. The fifth man is still missing. The other guests have reported.

TORONTO, March 18.—Two men were burned to death, one man was probably fatally injured, two were seriously injured, and \$150,000 loss was caused in a fire which destroyed the Woodbine Hotel, one of Toronto's best appointed and most modern hostleries, between 7.30 and 9 o'clock last night.

It was in an effort to save a valued bulldog that Messrs. Cohen and Levenson went back to their deaths after having been led to safety by Mr. Arthur Lee.

Mr. Lee, of 12 West 119th street, New York, occupied rooms on the third floor. The three men were sitting in Cohen's room when the smoke was noticed issuing through the cracks around the door. Mr. Lee, who was familiar with the hotel, immediately hurried to the hall and broke down the door of room 304. His friends followed him into the fire escape. Mr. Lee continued down the escape, but Cohen and Levenson remembered the dog and returned for it. That was the last seen of them until a search was pursued after the fire was brought under control and the charred remains of Cohen were found amongst the debris of the third floor with those of the dog. The body was taken to the Morgue, and the search continued for the remains of Levenson, but at an early hour this morning they had not been recovered. However, there is no doubt that Levenson perished in the flames.

**Frantic Search for Bodies.**  
The finding of the body of Cohen was the sequel to a frantic search conducted by Mr. Lee and a body of policemen. The city hospitals were

## BENTON WAS STABBED TO DEATH IN QUARREL IN GEN. VILLA'S OFFICE

### Facts of the Killing of the British Ranchman Are at Last Made Public at Washington.

WASHINGTON, March 18.—The facts of the killing of Benton, the British ranchman, as they will be set forth in an official report, became known here yesterday.

Benton went to Juarez to get Villa's permission to bring some of his cattle out of Chihuahua for sale in Texas. What had been known heretofore is the fact that Benton sought to make it worth while for the rebel chieftain to let him get his cattle out, offering in return for this permission to see that Villa got a certain amount of arms and ammunition.

This proposal, it is now reported, was favorably received by Villa. Discussion of the precise terms of the arrangement, however, led to a quarrel between the two men. This quarrel ended in Benton being killed, not by a revolver, as previously reported, but by stabbing. The Britisher was attacked with knives by those in Villa's office during the discussion,

## Hear Mr. Ames On British Navy

Much interest is being taken in the lecture to be given on Friday night, in Victoria Hall, by Mr. R. B. Ames, M.P., of Montreal. His subject will be "Why Three Dreadnoughts," and the event is under the auspices of the Borden Club.

Mr. Ames not long ago made a special study of British shipyards and enquired on the spot into the naval needs of the Old Land. The address will be illustrated by photographic slides. Admission will be free and ladies are cordially invited.

## POLLING VOTES TODAY AFTER A HOT STRUGGLE

### Quebec Government is Vigorously Attacked by the Opposition.

### Recent Graft Scandals Crop Up in the Bye-Election.

THREE RIVERS, Que., March 18.—Polling is taking place to-day in Three Rivers, the candidates being Hon. J. Tessier, seeking re-election on his appointment to the portfolio of minister of roads in the Gouin provincial cabinet, and J. A. Desjardins, the Conservative.

The campaign, which ended to-day, has been particularly fiery, the Opposition speakers vigorously denouncing the government for not investigating accusations made at the time of the Montreal Daily Mail graft charge inquiry, that some members were in the habit of receiving big legal fees for piloting measures through the house that were really bribes. The government was also attacked because by legislation it has given Mr. Tessier a four year term as mayor of Three Rivers in the face of opposition.

Last night Hon. J. M. Teller, leader of the Opposition, praised the hydro electric project of Sir James Whitney in Ontario, and asked why the Gouin Government did not develop the water powers of the province for the benefit of the whole people instead of selling it at exorbitant prices to private companies who charge high prices.

**A SON IS BORN.**  
BERLIN, March 18.—A son was born this morning to the Duke and Duchess of Brunswick. The Duchess of Brunswick was formerly Princess Victoria Louise of Hohenzollern, only daughter of the German Emperor. The marriage of the Princess to Prince Ernst Auguste of Cumberland took place on May 24th, 1913. The prince assumed the throne of the Duchy of Brunswick last November.

## GOVERNMENT MAY ARREST THE ULSTER LEADERS

### Sinister Rumors Current in Lobbies of British House of Commons.

### Strong Action Against Volunteer Movement is Contemplated.

LONDON, Wednesday, March 18.—The Unionist morning papers give prominence to sinister rumors that the Government is contemplating or has perhaps already set on foot, measures against the Ulster volunteer movement, which is likely to start trouble there on Friday.

Another rumor is to the effect that a large force of Royal Irish Constabulary from other provinces has been secretly moved to Ulster in the last few days and that a transference of troops is impending. It is also reported that 4,000 picked volunteers, all of whom are veterans of the war in South Africa, will be mobilized at Belfast on March 23.

The Unionists profess to see an endorsement of this rumor in John Redmond's speech at the St. Patrick's Day banquet last night, and Winston Churchill's speech at Bradford on March 14.

Captain James Craig, M.P., one of the Orange leaders left for Belfast last night for the alleged purpose of keeping Ulstermen quiet. Sir Edward Carson, the Ulster Unionist leader, will follow on Friday. He is staying in London for the debate on the motion of Bonar Law, censuring the Government for not making its proposals in regard to Ulster more formal, which is fixed for Wednesday next, when, according to the Unionists, there will be stormy scenes.

The Standard says it learns that the War Office has advised the Premier that it would be most undesirable to employ the army against the Ulster volunteer movement at the military officials feel grave anxiety in regard to using troops to quell an armed rising in the United Kingdom, in the face of the restlessness on the Continent. Such a development, it is claimed, would have a most disturbing effect on army discipline.

**Outbreak Near.**  
The Daily Mail which is one of the papers that prints the Ulster rumors prominently, says: "The leaders emphatically do not desire any disturbance and Sir Edward Carson's presence may have a calming effect, but even if he is successful it is evident that an outbreak of serious trouble in Ireland is nearer than is generally imagined."

The Standard says: "The situation in Ulster is more tense. If any direct action is taken by the Government a large number of Unionists inside and outside of Parliament will immediately cross to Belfast and actively assist resistance to the Irish executive."

## SHOT THE ROBBER

### Attempted to escape with two companions after burglarizing the post office and store at Mimico, five miles from Toronto on the lake shore road, owned by Fred Werden, William Egglestone was shot in the leg by Werden after the constable had called him to stop.

He was taken to Grace Hospital, where the wound was dressed. George Powers and W. Davis were locked up and this morning remanded to jail on a charge of shop breaking.

## Burglaries Are On the Increase

By Special Wire to The Courier] MONTREAL, March 18.—A London cable to the Gazette quotes Mr. Roger Owen, who presided yesterday at the annual meeting of the Ocean Accident & Guarantee Corporation, as saying that the last year had been remarkable for the great number of burglaries committed in the United Kingdom, and the heavy losses sustained by persons whose property was stolen.

Of 202,000 accidents since the Workmen's Compensation Act came into force in 1907, 18,500 had involved domestic servants, showing that it had become necessary for householders to take out policies.

## STRONG FACTS FOR PURCHASE OF THE RAILWAY

### Meeting at the Victoria School Was Held Last Night.

### Mayor Spence Discusses New Features of Proposed Purchase Deal.

Although the attendance at the street railway by-law meeting in Victoria school last night was small, the array of counsel asking for the support of the by-law was formidable and the arguments convincing. Actual figures were given to show that the street railway, in its present condition of dilapidated cars and uncertain service, had paid its way last year, Grand Valley had had a profit of about \$15,000. With improved service, the \$500,000 was asked by Mayor Spence and others, with considerable force, would not the revenue from the railway show an appreciable increase?

The meeting was presided over by ex-Ald. Robert Middlemiss, and the speakers were the Mayor, Ald. Pitcher and Ald. Charlton.

They say, "that certain interests are at work with the object of having the Grand Valley road abandoned if the city makes the purchase. It does not look to be of advantage to junk the line between Paris and Brantford, as that is paying well. However, if the line to Galt is junked, I think that the 'interests' will pay the city first for the benefits they will derive from such process."

The Mayor, who was the first speaker in regard to the operation of the road. He declared that the management of the street railway was not for a commission. Aldermen had too many friends in the ordinary course of events, and it frequently happened that friendships came before civic welfare. There should be a commission appointed, said his Worship, amid applause, and he looked forward to the day when a public utilities commission in Brantford would have charge of not only the street railway, but the hydro-electric and waterworks. This board could be made up of five members, possibly, with the Mayor having an ex-officio seat.

There was no reason, he continued, why the city could not make it pay. He understood that opposition was being engendered by Mr. Kelleff, who had statistics from Calgary and Brandon showing that municipal street railways had proven gold mines.

## DEADLOCK AT LEGISLATURE IS BROKEN TODAY

### It Was 4.45 A. M. When the Government Won Its Own Way.

### Obstruction of Rowel Proved a Fruitless and Forlorn Effort.

TORONTO, March 18.—Deadlock reigned for 14 hours last yesterday afternoon and evening until 4.45 this morning, the opposition minority in the legislature, fought the most bitter battle which they have put up for years in the House of Parliament because they found the Government attempting to force through remedial legislation for the benefit of G. Howard Ferguson, M.P.P., for Grenville. The trouble with Mr. Ferguson was that he had accepted a commission from the Dominion Government to investigate conditions of employ on the Trent Valley canal, received an honorarium for the same and by so doing, made himself liable to forfeit his seat in the legislature and at the same time pay a penalty of \$2,000 per day for each day he sat in the House since taking the official work.

In the end the official head of Mr. Ferguson was saved along with the heads of many others who remained unnamed. The bill, carried its three stages in one day, by a vote of 61 to 17, thus providing a blanket indemnity for members holding such positions for the future. The opposition members attempted to drag into the same situation as Ferguson was Mr. William Proudfoot, of Centre Huron. Mr. Lucas' contention was that a Godrich partner of the Huron Liberal, a Mr. Hayes, had accepted success in duty work from the government and that this involved the member. Mr. Proudfoot denied all knowledge of such transaction on the part of his partner. The passing of the bill was welcomed with government cheers.

The Ferguson situation was serious. In the words of the acting Premier and the Speaker of the House, it was urgent and extraordinary, so the Government went to its rescue immediately the House opened at 3 o'clock yesterday afternoon, by introducing a bill which is almost unprecedented in the history of legislation. The text was to go back to the legislation in vogue in 1903 and amend the revised statutes of 1914 in such manner that the words of the acting Premier and the Speaker of the House, it was urgent and extraordinary, so the Government went to its rescue immediately the House opened at 3 o'clock yesterday afternoon, by introducing a bill which is almost unprecedented in the history of legislation. **GRAND BREAKS UP**

Ice at the River Dam Passed Out Very Quietly This Morning.

The Grand river broke up quietly last night at the dam, contrary to expectations. The water raised up about a foot last night and carried the ice over the dam without doing any damage. The ice about one mile above the dam is still in the river, the water not having raised enough last night to carry it down.

For the past week the river below the dam has been free of ice, and when the break came last night, no damage was done.

The only fear of damage which the city has now, is when the ice comes down from Galt. That is the worst rush, as it will all come at once, and if the water is not sufficiently high enough to carry it safely over the dam, serious damage may be feared.

How soon the ordinary ice may come down is only a matter of time. However, the dam for the present is safe, and the only wish City Engineer Jones has now is that the water will remain sufficiently high enough to carry the ice safely over.

The Echo Place Women's Institute will meet Thursday afternoon at the home of Mrs J. Barnes, Hamilton Road. A full attendance is requested.

The many friends of Miss Nellie Tucker, 42 Rose avenue, will learn with regret of her sudden illness and hope that she will soon be able to be about again.

A jolly euchre party was given on Thursday evening by Miss Grace Strohbridge, Nelson street, in honor of her guest, Mrs. Butler, of Harover. The evening was spent in music and progressive games. After a very dainty lunch the guests departed in the wee sma' hours.

A most enjoyable time was spent last evening at the home of Mr. and Mrs. Ashton, 11 Dublin Street, when the members of the I. S. C. Club with their husbands were most delightfully entertained. The evening was passed in music and games after which a very tasty luncheon was served. The Shamrock Orchestra being in attendance favored the guests with Irish and Southern melodies. A hearty vote of thanks tendered the host and hostess brought to a close a very pleasant evening.

Mr. and Mrs. C. P. Coles, 62 Northumberland street, were last night host and hostess of an enjoyable dinner and progressive euchre to about thirty friends who delightfully succeeded in carrying off first prize for the ladies, while Mr. Kitchen won first prize for gentlemen. Mr. VanDine of Toronto won the consolation prize. During the evening, Mr. Coles was presented with a pair of handsome military brushes by his friends. Delightful music was rendered during the evening, and the party broke up at an early hour this morning.

**Obituary**

**The Late W. E. Platt.**

Many friends will learn with regret that after a long and venerable life, Wm. E. Platt passed away at his residence, 73 Victoria street this morning. The deceased was born in Cornwall, England, in 1829, and came to Canada over sixty years ago, residing in Whitby for many years. Subsequently he went to Toronto and after twenty years in that city came to Brantford three years ago. He was a diligent member of Colborne Methodist church and leaves three daughters and two sons, Miss M. E. Platt and Mrs. A. E. Brown of this city and Mrs. Bard of Plattsville and John and Thomas of Toronto.

**The Late Edith Sanders.**

A sad death occurred last night in the Brantford Hospital when Edith Eauders, passed to rest at the age of 29 years. She leaves to mourn her untimely end two brothers, Samuel and Albert. The funeral will take place to-morrow from the undertaking parlors of Mr. H. B. Beckett, under the auspices of the Grace Church A. Y. P. A., to Grace church where service will be held, and from there the cortege will proceed to Farringdon cemetery where interment will take place.

**Laid to Rest**

**The Late Thomas Hague.**

The remains of Thomas Hague were laid to rest yesterday in Mount Hope cemetery, upon their arrival from the grandsons' residence in Toronto, upon the G. T. at 3 o'clock. The funeral was conducted in a very quiet and solemn manner and was not greatly attended. He Rev. J. J. Liddy of Wesley Methodist church officiated.

**MISS PEARL O'NEIL DELIGHTED HEARERS**

**Successful Concert Held at Colborne St. Church Last Evening.**

The old and time honored custom of observing, annually, the day of St. Patrick, the venerable Irish Saint, was celebrated yesterday in the city, and a fitting conclusion to the Irish festivities was the concert for the wearers of the green given at Colborne St. Methodist church, under the auspices of the Epworth League. Miss Pearl O'Neil, was the principal attraction, and she was ably supported by the Brant Male quartette in various numbers. The Rev. Mr. Holling opened the affair, but excluded his introductory remarks, because of the lateness of the commencement, before a large audience. Miss O'Neil as an elocutionist, has certainly few superiors in Canada, but unfortunately her voice was somewhat unsuited to the meagre acoustic properties of the church. She recited with feeling and her efforts met with a just reward, while her character impersonations simply brought the audience to her feet. Reciting or impersonating Miss O'Neil was perfectly at ease and her best success of the evening was "When father laid the carpet on the stairs." The entertaining comedy was supposed to represent a little lady's first efforts upon the stage. She was a little shy and uncomfortable but got through. Miss O'Neil's representation was accorded hearty applause. Peter Patrick, the story of a brave Irish youth touched the hearts of those present. "The Troubles of a Darkey," dealt with an amusing incident which occurred in the kitchen, when the leg of a fowl was found to be missing. It caused great amusement. The artist was compelled in every appearance to give an encore and she smilingly obliged in every instance. Members of the Brant Male quartette sang individually, in duos, trios and full strength and their numbers were heartily enjoyed. Mr. Green, tenor, sang beautifully. "The end of a perfect day." The national Irish patriotism was evident throughout and many of "Ould Erin's" best songs and poetry were rendered exceptionally well. The programme was divided into two parts and included solos by Messrs. G. N. Crooker, Thos. Green, R. Kerr; duet, by Messrs Kerr and

Green; trio by Messrs. Green, Styles and Crooker and four selections by the quartette. Miss O'Neil appeared twice in each half and had to respond to encores every time. The concert was without doubt a splendid success, and a tribute to the merit of the performers.

Concert at Congregational. A very successful St. Patrick's concert was held in the Congregational church school room last evening.

Rev. M. Kelly delivered a brief sketch on the life of the patron saint of Ireland which was much enjoyed. The decorations were in keeping with the event and were beautifully done. An excellent programme was rendered including piano solos by Miss Whitney, solos by Mr. Byers, readings by Mr. Burnley, solos Mr. J. S. Brooks, Bronson, Hunter and Campion; piano duet by Misses Adams and Dixon. Refreshments brought a very happy evening to a close.

Military Notes

A splendid meeting of D Co. was held last evening in the company armory, it being the annual meeting of the company. Reports were read and new committees elected for the year.

A splendid program has been arranged by the company in all directions, and all members are very enthusiastic. Over forty members are on the roll at the present time, and special efforts are being put forth to bring the company up to sixty in the next few weeks, and attractive prizes are being offered for recruiting. The financial statement was read, which showed a good balance on hand to carry on the season's work. D Co. was never in better shape than at the present time, and everything points to a bigger and better company than ever.

The company have been very successful in the regimental sports, also having won the company relay race and several of the individual events, and also the football championship of the Regiment.

It was decided to hold a theatre party and dinner later, when each member of the company will be asked to bring a friend.

The officers and non-commissioned officers of the company are: Capt. F. E. Hicks; Lt. G. Deneau, Lt. F. Bingle, Lt. G. Cockshutt, Col. Sgt. A. C. Hart, Sgt. H. K. Martin, Sgt. H. T. Crumplin, Sgt. P. Unsworth, Sgt. T. K. Martin, Sgt. H. Brooks.

STRONG FACTS FOR RAILWAY PURCHASE

(Continued from Page 1)

carry the 38 franchise privileges would still remain and the city would remain in the hole. Then Mr. Kellert would probably step in and buy, or the bondholders would make a deal with other interests.

"If we get the road there will be no high priced officials or managers appointed," said the Mayor who expressed the opinion that there were sufficient of such officials in Brantford now, and the over-head charges for running civic business was too great.

The Mayor believed the investment was a good one and he based his opinion on last year's receipts of the railway. The receipts of the Street Railway for the year were \$40,291.41, while the operating expense amounted to \$25,356.91. When the city taxes amounted to \$9,000, and the interest on the first mortgage of \$125,000, making a total of \$15,250 are deducted, it will be seen that the street railway lines last year just about carried themselves.

On the other hand the Grand Valley was operated at a profit. The receipts of the Grand Valley lines were \$43,248.14, while the operating expense amounted to \$31,049.78, leaving a balance of \$12,198.36. In these figures no provision is made for interest on the second bonds amounting to \$1,700,000, but it is contended that the greater part of these bonds should never have been issued, the money not having been invested in the road as it stands to-day, and that they should not therefore be taken into consideration. By civic purchase these bonds would be wiped out or burned up.

In conclusion Mr. John Noble asked the Mayor several questions. Mr. Noble would not vote for the Street Railway if it was mixed up with Hydro-Electric. He wanted the railway receipts kept by themselves, and there was a surplus it would go towards reduced taxation and not towards reduced fares.

To this the Mayor replied that he did not believe in jumping a creek until one came to it. The street railway, he assured the meeting would be conducted as a separate department and made to stand on its own feet.

Mr. Noble took objection to the statement that the Waterworks had not cost the city any money.

Mayor Spence said that not one nickel out of the general treasury had been spent on Waterworks. That department from its revenue for the supply of water had paid the interest, sinking fund and every other expense and had had a profit every year.

Mr. Noble again remarked that consumers were charged too high a rate for water.

Ald. Pitcher.

Ald. Pitcher spoke briefly but to the point. He declared that wiping out such an iniquitous franchise was worth the price alone. The council of 1913-14 with the City Solicitor had handled the problem effectively and the matter was now up to the people to put the finishing touches on.

Ald. Charlton.

Ald. Charlton, whose committee has had charge of making an inventory of the railway delivered into figures to show that the city was getting pretty good value for the money. The inventory which shows the assets of the company in part was given by Ald. Charlton as follows:

The arature for the Generator at the old power house, is at the Westinghouse, Hamilton, the cost of repairs of \$127.00. When the equipment was appraised a short time ago the Grand Valley equipment was put at \$27.750. The Brantford equipment was put at \$10,389.

The cost of the steel rails which are 80 lbs. laid from St. Paul Avenue to Stanley street from the G. T. Ry. station to the T. H. and B. station, from Colborne street to Park Ave. on Alfred and Arthur streets, was \$25,867.

The special manganese steel work cost \$32,314. This is the highest grade of material in railroad construction work.

The total including cost of construction, steel rails and special rails and special work on the above streets was \$194,236.

The iron standards are worth \$28 each. In the machine shop the 2 1/2 praisers value of the lathe was \$887; shaper \$298. These are mentioned to show that there is good equipment at the car barns.

The material is as good as would be found in any factory in the city. True there is much scrap, but not so much as one has been led to believe. There is much that is new, and much that is yet good and serviceable.

The old power house on Colborne St. is assessed at \$14,000 and is worth \$18,000. The West Brantford property is assessed at \$1,775 and is worth perhaps \$2,625.

The Brant Avenue property running through to William street, Mr. Ludlow values at \$22,675. There are two persons using power

**CANADA'S SHAME**

No true Canadian can read the speech of Hon. Winston Churchill in announcement of the biggest naval program ever contemplated, without again feeling the blush of shame over the action of the Grit majority in the Senate which has temporarily blocked Canada's offer of three dreadnoughts.

It has been the part of Sir Wilfrid Laurier and Liberal papers to sneer at an "emergency" as a myth, but the speech of the First Lord of the Admiralty gives the lie direct to that asseveration. John Bull is not adding to his navy burden for the fun of the thing, but as a prime necessity for himself and his lusty family the world over, Canada included. Mr. Churchill makes that abundantly clear with most impressive solemnity. The Borden Government in the Commons offered to perform a too-long-delayed duty, only to have the measure poked in the Upper Chamber at the nod of that much over-rated statesman, Sir Wilfrid Laurier, with regard to whom his own followers and the general public are each day rightly becoming more and more disillusionized. Hon. Winston Churchill put the matter in courteous, yet unequivocal form, when he stated that the non-fulfillment of Canada's promise, accepted in good faith, rendered it necessary, in the meantime, for the British taxpayers to bear the burden of the three vessels. He also stated, what all can readily see:

1—That if the Dominion were annexed to the United States she would be taxed for the upkeep of Uncle Sam's navy.  
2—That, if independent, she would at least have to maintain a fleet equal to that of any other American state.  
3—That he did not wonder that most Canadians considered it incompatible with "the dignity and status of the Dominion that she should depend upon the British taxpayer, who was often much less well off than the average Canadian."

The situation, as far as Canada is concerned, is most humiliating, but let it be remembered that it is not owing to the people at large, but solely and wholly to Sir Wilfrid Laurier and his headmen in the Senate.

**TRIBUTE FROM A LIBERAL PAPER**

The following is an editorial from the Toronto Globe:

"The biggest feature of Ontario's economic progress at the present moment is the substitution of water-produced electric light and power for coal-produced electricity. Ontario's coal bill is one of the chief items in the cost of everything produced and sold by factories and workshops of the Province. Until a few years ago we had to import coal to provide the power that hauled our street cars and lit our streets, business buildings, and homes. The drain of money to the producers of soft coal in Pennsylvania and Ohio was very great. In duties on bituminous coal Ontario still turns millions of dollars yearly into the national treasury at Ottawa.

"But we are beginning to change all that. The snow and rain of this northern region, the great reservoirs of the lakes and the numerous waterfalls on the chief rivers of the Province give Ontario a wide distribution of available sites for the generation of hydro-electric power, which is the envy of our neighbors to the south, and must ultimately make this Province one of the greatest centres of manufacturing on the continent. From the rapids at Cornwall in the east to the Lake of the Woods on the west there are few centres of any importance beyond reach of cheaply produced electricity generated by water.

"The waterfalls are everywhere being brought into service. The Provincial Hydro-electric Commission, through the allied distributive services of forty-five municipalities, supplies light or power now to 65,000 customers. Assuming that each of them represents an average family of five, it would seem that already an eighth of the population of Ontario obtains light and power from publicly-owned wires, while probably almost as many more are served by private companies. The use of water-produced electricity is only in its infancy. Its adaptation to heating on a paying basis is only a matter of time, and probably of a very short time. The general extension of electric railways owned and operated by the people throughout the Province will result in the substitution of mechanical power for horse power in the marketing of a large part of our agricultural products and in the distribution of farm supplies. Much passenger traffic also, now carried by the steam railways, will be transferred to the radials,

"The net result of all these changes will be a very marked reduction in the coal bills of the Province, as well as a material cheapening of the cost of production per horsepower of electricity required for use within Ontario. An estimate of the annual money value of the substitution of water-produced power supplied at cost for coal-produced power supplied at a profit is somewhat difficult to make, but it may be said in general terms that if ten years hence Ontario is using half a million hydro-electric horsepower in her industries and her domestic light and power the annual saving as compared with the generation of a like amount of power by the use of coal will be not less than \$15 per horsepower, or \$7,500,000. That will be pure economic gain, money in pocket, which would otherwise have to be spent for a necessity by manufacturers, traders, railways and householders. Hydro-electric development means much for Ontario."

**IMPLEMENT DUTIES**

For once the Liberal and Conservative parties in this city are in agreement with each other, while at the same time they are in disagreement with the policy of their respective parties. They are in agreement because the interests of Brantford are threatened, and when such a thing occurs all party distinctions ought to be abandoned, and Brantfordites stand together as one.—Expositor.

Quite so, and having expressed this view, the local Grit organ speedily forgot its protestations in the closing words of the article:—

"The present situation is the result of the hard times and unrest in the west. The Laurier government saw the storm coming and sought to avert it by entering into a reciprocity treaty with the United States which was calculated to conciliate the west, while touching very lightly our manufacturing interests. That agreement was misrepresented and destroyed, but already there are signs that it was calculated to benefit those who denounced it most."

Bosh. If the Laurier Government saw the storm coming (and they didn't as such because Laurier did not deign to consult his followers), why did the sapient Expositor describe the proposed pact as "a bolt from the blue?"

Anybody of ordinary intelligence must realize that Reciprocity would not have helped but intensified the situation—that as Taft wrote Roosevelt, the scheme was to make Canada "an adjunct" of the States, and that the project was to make Canadian hewers of wood and drawers of water for our neighbors.

Reciprocity does not figure in this thing, but the cross-foolishness does of the Laurierites in promising the removal of duties on implements altogether.

**FOR WORKINGMEN**

In all its essential details, the bill on Workmen's Compensation, introduced before the Legislature by the Hon. I. B. Lucas, Provincial Treasurer, follows closely the draft bill submitted to the Government several months ago by the commissioner, Sir William Meredith. In the scale of benefits and awards which come to the workman or to his family for injury or death, and which points offered the greatest controversy between the labor interests and the Canadian Manufacturers' Association when the evidence was being submitted to the commissioner, the Government have adhered to the draft bill. This is in itself a compromise between the demands of the two parties. The labor interests asked high benefits, the manufacturing interests insisted upon much lower rate of liability, and the commissioner struck a midway figure between the two scales. The Hon. I. B. Lucas, in introducing his measure, has not seen fit to depart from these figures in any essential particular.

The most important point at issue between the two organizations was that dealing with compensation for permanent total disability, which would follow in case a worker met with an accident resulting in injuries which prevented him from following his occupation for the rest of his life. The clause in the bill covering this point calls for a weekly payment to the injured equal to a percentage of the average weekly earnings for the previous twelve months, or for a lesser period under the employer. The rate fixed is 55 per cent. The manufacturers favored a fixed pension of \$20 or \$25 monthly.

In the matter of contributing a proportion of their wages towards the premiums paid by the employers, the labor interests have won out. The Act states that "it shall not be lawful for an employer, either directly or indirectly, to deduct from the wages of any of his workmen any part of any sum which the employer is or may become liable to pay to the workmen as compensation under this act, or to require or to permit any of his workmen to contribute in any manner towards indemnifying the employer against any liability which he

has incurred or may incur under this Act." The penalty provided for a breach of this clause is imprisonment of not more than one year or a fine not to exceed \$1000, or both.

**NOTES AND COMMENTS**

Canada's humiliation is Laurier's shame.

In referring to the proposed street railway purchase, the Courier inadvertently spoke of the retirement of the \$125,000 first mortgage bonds as included in the money-by-law. They are not. It may also be remarked that there will be other obligations involved outside of the sum asked, but even at that municipal acquisition is desirable, if only for the sake of stopping a franchise which has 38 years yet to run. Municipal operation would seem to be the proper thing. If not, which is unbelievable, then the city, with regard to new terms, is the boss of the job instead of being bossed, and flouted, and outraged, by a private corporation.

**Birthdays of Note**

WEDNESDAY, MARCH EIGHTEENTH

The most anxious days ever spent by Lieut.-Col. A. P. Sherwood, Commissioner of Dominion Police and Head of the Secret Service Department, who is celebrating his sixtieth birthday to-day, were during the trip of the Prince and Princess of Wales through Canada in 1901. To him personally was committed the safety of Their Royal Highnesses and the task was all the more onerous because the assassination of President McKinley had occurred just before the royal couple landed. During the time he was with them, Colonel Sherwood went through more trying moments than when in Quebec while the Mayor was reading an address of welcome a sharp report, as of a gun or pistol, was heard. Coming so suddenly it caused momentary consternation, until it was realized that it was only the slamming of a door, when the general perturbation gave place to nervous laughter. For his services in 1901, Col. Sherwood was created a C.M.G.

WEDNESDAY.

This is a chaste and cheerful day, that makes a hit most everywhere; it took three medals and (they say) a ribbon at the county fair. On Monday man begins the week, and hardly gets his job on straight; next day he labors like a streak, on Wednesday he has struck his gait. He then makes every motion count, and thus he doesn't draw a blank; might find him with a large amount of real mazzina in the bank. Old Woden was an ancient god who never ceased to get up lay, while other godlets roamed abroad and spent the golden hours in play. And Woden humped himself so well, and showed such stunning zeal and vim (nor listened for the dinner bell), they named this blooming day for him. So Wednesday is the workers' day, the day on which we chase the bones; it is no time for foolish play, it is no day for drowsy drives. On Wednesday we should greet the sun when that orb rises in the West, and say "Before your trip is done, we'll fill with plunks the treasure chest." And then when comes the rainy day—such days have come, and will, again—"You cannot freeze our feet," we'll say and open up a can of yea. Set to work while Wednesday dwells upon Time's exanescence chart, and then when sounds the evening bells you'll go to rest with peaceful heart. WALT MASON

**Little Consolation For "No Emergency" Party In Churchill's Speech**

LONDON, March 18.—Speaking in explanation and defence of the navy estimates, which are approximately a million pounds a week for the coming year, Winston Churchill, First Lord of the Admiralty, said in the House of Commons last night:

"The world is arming as it never armed before. Every suggestion for the limitation of armaments has been unsuccessful. Awkward things happen from time to time which make it necessary that the naval force at our immediate disposal, which is now here and now there, should be in a position to be rapidly concentrated. The responsibilities resting on the Admiralty come home to those responsible with brutal reality, and unless our strength is solidly ample and unswervingly maintained, we will not be doing our duty to the country."

"All the world is building ships, and training men. It is sport to them, but life or death to us. We have won

for ourselves an exceptional share in the wealth and traffic of the world. We have got all the territory we want, but our claim to live in undisturbed enjoyment of the vast and splendid possessions we have largely acquired by war and largely maintained by force often seems less reasonable to others than to us."

During his speech of two and a half hours, Mr. Churchill instituted comparisons between Germany and Great Britain. He announced that steps were being taken to increase the number of officers and accelerate promotion and remove the fears of those in favor of a big navy by announcing that the armament for the new battleships would include fifteen-inch guns capable of throwing a projectile weighing nearly a ton from ten to twelve miles.

In the course of his naval speech in the British Commons yesterday, Winston Churchill, First Lord of the Admiralty, explained that, owing to Canada's failure to supply three Dreadnoughts, it was necessary that Britain

should build three ships to maintain the indispensable margin of security in home waters. He said:

"The Government is not without hope, however, that Canada will meet her share in naval defence. Canada is a great and wealthy community with interests ever spreading more widely over the surface of the globe. She has to make some provision for her own naval defence. If she were annexed to the United States she would no doubt contribute, through taxation to the upkeep of the United States navy. If she were independent she would have to make provision at least equal to the most powerful American state. I do not wonder at all that Canadians of every party think it is not consistent with the dignity of the status of the Dominion that she should depend upon the British taxpayer, who is often much less well off than the average Canadian."

Mr. Churchill affirmed that on the general question of Canadian ships and the propriety and need for Canada, in common with the other Dominion, to take an effective part in the defence of the empire, there was nothing more to be said. The admiralty view had been expounded in the Canadian memorandum, to which the Admiralty adhered, and the facts had been strengthened by the passage of time. They continue an absolute justification for Canadian action hereafter.

**Fine Imposed For Slander Unlawful for Woman to Call Another a Suffragette**

COLOGNE, March 18.—For calling a woman school principal a "suffragette," the wife of a physician in a neighboring village was to-day convicted and fined on a charge of slander, according to The Cologne Gazette. The offence was committed in the course of a quarrel over the punishment by the school principal of the physician's daughter.

The complainant in supporting the charge before the court argued that the suffragettes had shown themselves to be scarcely normal. Educated people, she said, were enraged against them owing to their outrages and nobody would entrust a child to her if she were a suffragette. The defendant refused to apologize and declared that the teacher had acted like a suffragette. She was thereupon ordered to pay a fine.

**Canada's D Subject O British**

By Special Wire to The Cour MONTREAL, March 18.—A don cable to the Daily Mail. The Standard, commenting editorially upon Mr. Winston Churchill's statement, in presenting the estimates in the House of Commons yesterday, declares:

"In the matter of the subsidy for the Canadian ships, Mr. Churchill has no effective defence. A nation cannot supply the deficit which Mr. Churchill pledged to meet in the event of Mr. Borden's slighting to carry his proposal. "It may be that the Canadian lock is removable, but it is not to base a policy on a near hypothesis as it will be injurious to Canadians are doubtless willing anxious to co-operate in navigation, but they must make up their minds as to the extent and of their contributions. Telling lies and that we hope they will up their minds soon, is meritorious of exercising pressure, ought not to be exercised."

The Daily Express says: Churchill demanded three Canadian ships as an absolute necessity are not forthcoming. Does Churchill lay them down? He merely attempts to meanly accelerate of his coalition program. Either he has Canada or he is jeopardizing Empire."

The Daily Chronicle says: replacing of the Canadian ship an extra half million pounds. acceleration is to be maintained the eventual extra will work out considerably. Colonial offers will, if they are treated as committing the Country to an expenditure would not otherwise be used are an experience which few would wish to occur."

# Canada's Deadlock Subject Of Regret In British Press Comment

[By Special Wire to The Courier]  
MONTREAL, March 18.—A London cable to the Daily Mail says: The Standard, commenting editorially upon Mr. Winston Churchill's statement in presenting the naval estimates in the House of Commons yesterday, declares: "In the matter of the substitution for the Canadian ships, Mr. Churchill has no effective defence. Accelerations cannot supply the deficiency which Mr. Churchill pledged himself to meet in the event of Mr. Borden's inability to carry his proposals out. It may be that the Canadian deadlock is removable, but it is not safe to have a policy on a near hypothesis as it will be injurious to Canada. Canadians are doubtless willing and anxious to co-operate in naval defence, but they must make up their minds as to the extent and character of their contributions. Telling Canadians that the delays are inconvenient and that we hope they will make up their minds soon, is merely a form of exercising pressure, which ought not to be exercised."

lock will be fulfilled, "because every passing day renders more apparent the needed accession of strength which the Dominion would bring to the Empire. Meanwhile, the British taxpayer has to pay hard cash for the temporary failure of Mr. Borden's noble purpose."  
Referring to the increasing urgency of the problem whether the Mother Land will be able to continue its imperial services unaided, the Telegraph says: "If the Empire's whole requirements are to be supplied in time to avert disaster, some form of co-operation is necessary, for we, fifth and sixth, may be facing a future containing the germs of imperial dissolution."

## KAISER IS HAPPY

Berth of His Sixth Grandson Means General Holiday in Berlin.

[By Special Wire to The Courier]  
BERLIN, March 18.—Emperor William to-day ordered a general school holiday in Berlin in celebration of the birth of his sixth grandson at Brunswick this morning. The young Duchess of Brunswick, who is the only daughter of the Emperor, is reported to be doing well, as also is her son.  
The Emperor has cancelled all his other engagements, and will proceed to Brunswick to-morrow in order to see his latest grandson before departing for his annual trip to Corfu on March 22.  
Berlin and Potsdam were decorated with flags to-day in honor of the occasion.

**Also British Prince.**  
BRUNSWICK, Germany, March 18.—While a battery of artillery fired a royal salute in honor of the birth of a son to the Duke and Duchess of Brunswick, the counsellor of the British embassy in Berlin drew up the birth certificate of the newly-born prince, who is also a prince of Great Britain and Ireland.

**BIG TOLL OF STORM.**  
LONDON, March 18.—A St. Petersburg despatch to The Times says it is estimated that between 1,500 and 3,000 persons perished in the storm and that 150 boats were sunk in the Black Sea.

## CLOSE WEDNESDAYS DURING THE SUMMER

Grocers and Butchers Association to Ask for Early Closing By-law.

The Grocers and Butchers Association held a large and enthusiastic meeting last night when a strong resolution was passed which will be presented to the City Council asking that they pass a by-law to enforce early closing. During week days they ask that all shops be closed at 7 p.m. sharp, except Saturdays and days before holidays. No special time was set for these days.

It was also decided that they close their stores every Wednesday at eleven during June, July and August at 1 o'clock. Some wanted to include May and September, but it was finally decided that the three months mentioned above be set apart for half holidays.

There was a large and representative gathering in attendance and as soon as the resolution regarding early closing is properly signed it will be presented to the City Council.

## DEADLOCK IS BROKEN TODAY

(Continued from Page 1)

remained standing all through the reading until the motion was handed to the clerk as a protest against the government's action. The bill was then given a second reading despite vigorous protests.

"You can't do that, Mr. Speaker," shouted the Opposition leader.

"But we have, and it is now six o'clock, the house rises."

It did until eight, but at nine the confusion started all over again. The Central Huron Liberal opened operations in the evening by pointing out that no bill could be read the second time until it had been printed and distributed, but the Speaker allowed him to gain little headway, declaring that the riling of the afternoon covered everything.

Mr. Rowell moved the adjournment of the house, declaring the action of the government was entirely without precedent. It was lust of power which desires to force its will upon the people without regard to rule or precedent. Mr. Rowell's offer of compromise was rejected, and for hours Liberal members attacked the second reading, but without avail.

## City News Items

**Meeting With Success**  
The canvassing committee for old home week are meeting with splendid success in their efforts to collect money to finance the celebration. The manufacturers and merchants are responding liberally to the call for money, and the expectations of the canvassers is being more than realized.

**Triangle Club Celebrate**  
St. Patrick's Day was celebrated by the Triangle Club of the Y. W. C. A. in a quiet, unostentatious but fitting manner yesterday, when they entertained the "I Will Trust Club" to a banquet at the Y. W. C. A. Splendid readings by Miss Gould and Mrs. Wright were pleasantly interspersed with games and songs and music, and a very successful revival of the Irish annual commemoration was held.

**Arrested in Welland**  
Detective Chapman left the city this morning for Welland, where he will take charge of George Vair, who is wanted by the local police on a charge of conversion. Vair, who kept a boarding house, defrauded two boarders of some \$470, which he had been given for the purchase of provisions, and decamped about two months ago. He is an Austrian and has just been located in Welland. He will answer the charge before Magistrate Livingston to-morrow.

**Soft Ball Games**  
A fast and exciting game of soft ball was played last night in the Y. M. C. A. gym. between the Colborne street clerks and the Cocksbutt Plow Co. office staff. The plow boys won out by 13 to 6. The easily defeated the pick of last year's city league players. Hanley, on the mound for the clerks, was effective at times only, having a tendency to soar skyward at the critical points in which he was nobly seconded by the rest of his team mates. Phillips and Brown for the plow makers were the stars of the game, and hit rings around the invincible Hanley. The teams lined up as follows: Cocksbutts: Berry, catcher; Woolma, pitcher; Brown, 1b; Kew, 2b; Waddington, 3b; Ashbury, s.s.; Phillips, Stiles and Cleator, field. Clerks: Weir, catcher; Hanley, pitcher; Powers, 1b; Campbell, 2b; Ramsay, 3b; Slattery, s.s.; Brown, T. Slattery and Patte, field. Umpires, Dowling and Stewart.

**TO LAUNCH SHAMROCK.**  
LONDON, March 18.—It is expected that Sir Thomas Lipton's Shamrock IV, challenger for the America's cup, will be launched the end of April. She will draw thirteen feet nine inches. The centre-board will drop ten feet, giving a total draught of nearly 24 feet. The mast will be of wood and will be hollow.

## TWO LIVES LOST IN A BIG FIRE

(Continued from Page One)

communicated with, but without avail. Failing to locate the men outside the buildings, it was thought they had gone to some other hotel. It was only when the firemen made their final round to assure themselves that the fire was out that the ghastly discovery was made. During the search the valuable jewellery of Miss Elsa Ryan, leading woman with the "Peg 'O My Heart" company at the Royal Alexandra Theatre, which had fallen from the third floor, was discovered intact in the basement. Several members of the company lost their entire belongings.

Messrs. Cohen and Levenson were both Hebrews, and owned the Union Feature and Film Company of Canada. Edmund S. Giles of Montreal may be a third victim of the fire, as the injuries he sustained when he jumped from a second story window were very extensive. Both his legs were fractured, and his back is thought to be broken. Mr. Giles was found lying on Pearl street in a semi-conscious condition. He was dressed only in his underclothes, and had apparently gained such great headway that he was cut off from the fire escape, a short distance from his room. He was taken to the General Hospital.

**Fire Demon Descends With Great Swiftness.**  
With an appalling and dramatic swiftness the fire demon descended. At the merriest hour, when the guests at the hotel were dining, with- out a thought beyond the pleasure of the hour suddenly everything was turned into panic and confusion. Night had fallen but a short while

when a small tongue of flame crept upward from the basement of the hotel. Silently and insidiously it crept, until with a roar the flames flared skywards from the second floor, and the hotel was ablaze, eleven minutes after the fire had begun.

Downstairs the girl in the checking office became gradually wreathed around with little, curling plumes of smoke. For several minutes she continued to take in checks and to give them out, and no one rung in the fire alarm. It seemed as though everybody was temporarily paralyzed, and could not believe what had occurred. Then the tenstness broke. The girl in the checking office suddenly became panic-stricken. Men and women surged through the rooms and passages, up the stairs, shouting, crying, one or two women fainting, and before anyone was aware of it the fire engines drove up with clanging gongs, the escape ladders were against the walls, the firemen were in the building dragging the lengths of hose along, while the frantic guests rushed from room to room, corridor to corridor, striving to save their goods and chattels.

**Proprietor Collapses**  
Soon water began to rain down from the floors and ceilings of the hotel. Streams spread along the marble pavements and in the bar, where—grim irony of fate—water poured in catacombs on the whisky bottles and over the bar itself. Many were gathered there; trunks and piles of linen lay scattered hither and thither, their owners standing by, in some cases, sitting on them. In a small room nearby a man was sobbing as though his heart would break. It was George Spears, the proprietor. He had owned the hotel but six months, some \$100,000 had been spent on it, and now—"O God," he cried "O my God." Nearby, trapezoidal by pale of face, stood Mrs. Spears, tall and slim, perfectly collected, trying to comfort her hus-

band. Around him were some friends, Mr. McCaffery took the distracted man to the Bay Tree Hotel, and so helped to carry out the hotel registers, and other valuable property.

## With the City Police

In the police court this morning, Mrs. John McKinnon, although down on the list charging her husband with assault, would say nothing against him at the court this morning. She said she had not laid the charge and her husband had never struck her. He had asked her for some money and he had got drunk but he had not assaulted her. He had been out of work during the winter and they had felt the pinch somewhat. Her father came forward and said he had laid the charge and said defendant got drunk and did not look after his wife. The husband admitted being drunk, but claimed he had never struck his wife, to which the father rejoined that only last Sunday he had helped the wife and family out with a supply of food. "This was an assault charge" commented the magistrate, "but it looks as if it will soon be one of non-support." He discharged defendant upon the condition that he settled a previous fine for being drunk and advised him to cut out the whisky.

James Sykes was again before the bench charged with being insane and he will be examined on Friday medically and possibly consigned to the care of an asylum.

Thomas Monture, an Indian was found drunk upon Colborne street yesterday and was fined \$5 and costs to-day. He said he obtained the liquor from Percy Hill, another Indian, who had a bottle. Gordon Trickle will have a chance to make good during next week. He says he can get good employment

and wants to be like any other individual. It is now "up to him" for the magistrate dealt with the charge of vagrancy very leniently.

## A Coal Case.

"So you have installed yourself Government Inspector of weights and scales" said the crown prosecutor at the police court this morning to Percy Walsh, who was in the box in connection with a charge against Robert Micklebora, of breach of a Market By-law.

"No," replied Walsh, "but I do know that those scales are not correct." He also asserted that wet weather affected a load of coal to the extent of 250 pounds in spite of the fact that when the coals were first weighed they were 380 pounds, on the second time 100 short and upon the third, 80 pounds. This was denied by Angus McCaulay, market inspector, who claimed the coals were 380 pounds short, and upon another scale being used only five pounds difference was noted. Defendant said there was eighty pounds short according to the second scale. The magistrate decided that a fine of \$10 and costs would meet the case.

## Channel Causes Damage

Because the Lake Erie & Northern Railway Co. failed to dig a wide enough channel through Kerby Island, work on the new pumping station at the waterworks has been stopped. The channel is blocked with ice, and the water has backed up over the banks on the waterworks property making work there impossible. If the water raises another couple of feet the flats at the pumping station will all be flooded and in all probability some serious damage will be done.

Steamer "City of Sydney" Sends Out Call For Assistance.

[By Special Wire to The Courier]

HALIFAX, N. S., March 17.—The Steamer City of Sydney from New York for St. Johns Nf., is on the rocks at Sambro, a few miles from here. She struck during a dense fog early to-day and water in her stoke hold put out the fires. She carries a number of passengers. Several vessels were despatched to her assistance from here and boats have gone out from Sambro.

The weather continued extremely thick during the forenoon and boats had difficulty in locating the steamer. Early reports said that the Sydney had grounded on Stag Rock, which is at the southwest entrance to Halifax harbor, and was in a dangerous position.

The City of Sydney is a steamer of 1600 tons and plys between New York Halifax and St. Johns Nf. She is believed to carry a crew of about 40. Captain McDonald is her commanding officer.

The Sambro ledges have been the scene of many wrecks, and few vessels that have struck them have come off safely. The ledges extend for nearly two miles from Sambro Head, on which there is a powerful light, a fog signal and wireless station.

LABOR REPORT FOR FEBRUARY

Decrease in Number of Days When Strikes Were in Progress.

[By Special Wire to The Courier]

OTTAWA, March 17.—The record of the department of labor for February shows that there was a pronounced decrease in the number of days lost through strikes and lockouts as compared with the previous month, although the number was somewhat larger than for the corresponding month of last year. The decrease was largely due to a settlement of a strike of shoe machine workers in Quebec, about 3,000 employes returning to work on February 14.

There were altogether seven disputes in existence in Canada during February, as against 8 in January and nine in February of last year. About twenty-three firms and 4,400 employes were involved in these disputes. Approximately 66,937 working days were lost as compared with 117,450 during January and 42,880 during February of last year.

Three disputes commenced during February, none of which were serious from the standpoint of numbers affected. They were all moreover of short duration. The dispute of coal miners on Vancouver Island and garment workers at Montreal remained unsettled at the end of February.

FROM YESTERDAY'S LAST EDITION FORTY LIVES MAY BE LOST IN THE ATLANTIC OCEAN LABOR REPORT FOR FEBRUARY Decrease in Number of Days When Strikes Were in Progress.

(By Special Wire to The Courier) OTTAWA, March 17.—The record of the department of labor for February shows that there was a pronounced decrease in the number of days lost through strikes and lockouts as compared with the previous month, although the number was somewhat larger than for the corresponding month of last year.

The decrease was largely due to a settlement of a strike of shoe-making workers in Quebec, about 3,000 employees returning to work on February 14.

There were altogether seven disputes in existence in Canada during February, as against 5 in January and nine in February of last year.

About twenty-three firms and 4,000 employees were involved in these disputes. Approximately 6,937 working days were lost as compared with 117,450 during January and 42,880 during February of last year.

Three disputes commenced during February, none of which were serious from the standpoint of numbers affected. They were all moreover of short duration. The dispute of coal miners on Vancouver Island and garment workers at Montreal remained unsettled at the end of February.

The City of Sydney is a steamer of 1600 tons and plys between New York Halifax and St. Johns Nf. She is believed to carry a crew of about 40. Captain McDonald is her commanding officer.

The Sambro ledges have been the scene of many wrecks, and few vessels that have struck them have come off safely. The ledges extend for nearly two miles from Sambro Head, on which there is a powerful light, a fog signal and wireless station.

The City of Sydney has been running regularly all winter between New York and St. Johns Nf., calling at this port each way. Her northward trips have been generally light. The steamer left New York on Saturday with a small cargo and eight or ten passengers. The weather was thick, though not boisterous all the way up the coast, and the vessel made fair progress, arriving off the coast last evening. The fog was still dense, and Captain McDonald, believing that he was wide of Sambro Head, apparently steered for the entrance to the harbor.

According to wireless reports received here, the Sydney fetched up on Stag Rock, one of the outer ledges in the Sambro group, about 4 o'clock this morning and at once began pounding as the deep ground swell on to the broad Atlantic was crashing on to the rocks. Within a short time the rocks had punctured the steamer's bottom in several places and the sea sweeping in put out the fires.

The wireless, however, continued in commission and help was summoned from the life saving station at Sambro and from this city, 15 miles up the harbor. The fog, however, was dense and the life savers and tugs had great difficulty in locating the stranded steamer.

Those familiar with the scene of the accident were of the opinion this morning that the steamer would hold together for some time and that the life savers and tugs would be able to take off the passengers in safety, provided the Sydney remained fixed on the ledges instead of rolling off into deep water.

Western Counties Account. The account of the Western Counties Electric Co. for February amounted to \$798.74. There were no outages during the month.

To Attend Game Messrs J. J. Kelly and P. R. O'Neil will go to Toronto this afternoon to attend the Victoria-Toronto game in that city to-night.

Going Over Course Mr. George Cumming, the well-known Toronto golf professional, is in town to-day going over the Brantford course with a view of replacing several of the greens destroyed by the Lake Erie & Northern running through the links.

D.L.'s Baseball Practice. The Duffs Baseball team is practicing hard for their coming conflict with C Company of the 13th of Hamilton. On Wednesday at 7 o'clock, they will have another practice in anticipation of Friday's event.

Y. M. C. A. Circus. It has been decided to hold the annual circus at the Y. M. C. A. for three days, April 23, 24 and 25, by the committee which met last night. Great and many will be the novel acts put up and some of the gymnasts are already getting busy with their acts.

Gift to St. Basil's. A splendid canopy and sounding board has just been added to the pulpit in St Basil's church. The addition is the gift of a family in memory of a departed mother, and the appearance of the church is materially benefited whilst the speaker has a greater range with the improvement.

Put Diamond In. Workmen on the Lake Erie and Northern Railway this morning put in a temporary diamond on the Grand Valley tracks near the Governor's Road at Paris. It is the intention to eventually divert the Grand Valley, the diamond crossing merely being to accelerate track laying of the L. E. & N. in the meantime.

Tidings From Old Land. A popular and well known Brantford couple who are at present touring the Old Land, going through Warwick, are despatching post cards to their numerous friends in this city. In so doing, they are putting a halpenny stamp on the same. Yesterday six postals arrived and in each instance the recipients had to pay two cents to get the glad tidings. A cablegram will be sent immediately.

SIX WEEKS FOR THE MASQUERADER

Woman's Only Regret Was That She Failed to Whip Premier Asquith.

(By Special Wire to The Courier) LONDON, March 17.—A sentence of six weeks at hard labor was pronounced to-day by the police magistrate on Katherine Wilson, a militant suffragette, who was arrested last night in the lobby of the House of Commons, while dressed in men's clothing and carrying a dog whip secreted in her sleeve. She was charged as a suspected person.

She said to the magistrate: "Of course I shall not serve the sentence," and added, "I went to the House of Commons to give Premier Asquith or Home Secretary McKenna a good thrashing."

Personal Notes Mr. Roy McGraw has returned home from Florida. Capt. M. E. Cutcliffe, who recently had the misfortune to break his ankle, was able to be out to-day, with the aid of a pair of crutches. Capt. Cutcliffe stated that he had to get out on the 17th, as it is the anniversary of his birthday.

Sale Postponed. Owing to the illness of Dr. McMeans in Baltimore the sale of the McMeans household furniture, Dalhousie street, has been postponed to March 24. The doctor recently underwent an operation for appendicitis.

CANADIAN LEAGUE MAKES DIRE THREAT

President Fitzgerald's Circuit Would Jump to the Federals.

Hamilton and London Pajers Favor the Action Proposed—National Association has Given League "Raw Deal," says Mr. Fitzgerald.

President Fitzgerald of the Canadian League and directors of the Clubs in London, Ottawa and Hamilton do not deny that the league will jump en bloc to the Federals unless it is granted Class B classification, which was recently refused.

The Hamilton Spectator credits the following statement to President Fitzgerald: "It would appear that we have to stand for such a rank decision as has just been handed us. Here we are, a growing organization, in reality a class B circuit, and yet refused what is rightly ours, because of an antique rule which says classification shall be granted upon the population figures of the various cities as shown by the last government census. The last census was taken in 1901, and the next will be taken in 1911. The population of the cities is enough to give us the rating. Here we have such a growing centre as Hamilton rated in our league, according to the National Association, on the census figures of 1911. Why, Hamilton in that time has shown a gain of nearly 7,000 people and is still growing. By 1921 Hamilton will be double its present size, and yet according to the National Association ruling, advantage cannot be taken of that wonderful growth. The decision is most unfair and unless notice is taken of our appeal, I would earnestly suggest that the league withdraw its membership from the National Association and join forces with the Federal League. The latter has organized at the present time, and is very anxious to get a minor league linked up with it in order that the recruits signed up and not nearer this year can be passed down."

A London exchange says: "At present the Federal League is giving organized ball more concern than will be readily admitted in the latter's quarters, with several test cases coming up in the courts regarding the jumping of major league players, who had accepted money for signing and

Shag Shaughnessy weighs 199 with his haberdashery. Shag must have been loafing offside during the hockey season.

Rube Deneau's getting one pitcher from the Chicago Cubs and two from St. Louis Nationals. He'll need 'em all—Ottawa Free Press.

Rube Deneau will have "Slim" Ivers back at first on his Brantford outfit. Ivers is so fast he has to 99 out a three base hit to reach first.

In 1910 Doc Reising ranked to Walter Johnson as Washington's leading pitcher. Johnson won 25 and lost 17. Reising won 10 and lost 19.

Brundage, who hit something like 750 the first three weeks of the 1913 season with Brantford, then fell off to .087 the next three, will be given a chance with St. Thomas this spring.

There will be a raft of ex-big leaguers drifting around the Canadian circuit this season. When Dummy Taylor mounts the rubber for Erie, one can't help but recall the great Giant twirling staff of Mathewson, Ames, Taylor, Wiff and Crandall.

There is a possibility of "Knotty" Lee managing the Toronto Canadian League team this year. Eddie Holly who was slated to manage the Canadian team but could not come to terms with the management. The Toronto World has the following about the father of the league—

St. Thomas led the Canadian League from May to till July 15 last season, then flopped, eventually finishing third, one game in front of Peterboro, Ottawa, the pennant winners, did not get a smell of first place till June 28. The rest of the journey they were always in front.

Frank Shaughnessy says Doc Reising, the London leader, can still pitch good ball, and vouches for the statement the dentist will win several games on the mound this season. Shag says Reising at London, and Curly Bloom at Peterboro, are the pilots who will be watching in the Canadian this year.

Besides Tesch Shag has Anderson, a youngster recommended by Ed Renker and Fried, the nominee of Frank Kubat for the job. Either of these youngsters may show enough class to be retained.

The Ottawa Senators are on the hunt for two pitchers, but he will not divulge their names. The London club beat the Senators to Lamy, and Shag is taking no more chances. Training camp will open at either South Bend or Grand Rapids on April 18, and Manager Shaughnessy will leave on his scouting trip April 12. Shag still has his heavy clotting brigade on hand—Dolan, Lage, possibly Rogers, and himself. This is enough to ensure the Senators being up in the hunt.

It's not likely that the Saints will trade off any of their pitchers. Manager Craven looks on his line-up of twirlers as the best in the league, and he is banking on them to get him away to a good start in the spring. The only man in doubt is Hughes, and he is liable to be anything when the season opens. A trade involving him might be considered—St. Thomas Times.

Outfielders—Frank Shaughnessy, Petie, Powers, Murphy. Infielders—Smejkal, Bullock, Tesch, Dolan. Catchers—Lage, Powers. Pitchers—Kane, Kubat, Lill, Bernloh, Kohl, Durkee.

This is the line-up of the Senators up to date. Among the outfielders the name of "Lefty" Rogers is missing, although Shag still thinks the big Southpaw will abandon selling paint for the more exciting occupation of spearing flies, when the time comes.

THE CHAMPIONSHIP QUESTION DISCUSSED

Many Teams Fail to Come up to Expectation While Others Make Good

By the recent comparative failure of leading teams in the English Football League, Blackburn Rovers as the champions are practically secure. Aston Villa have only come back to form too late to put up a good fight, as they are now six points behind the leaders.

Another team to fall in Manchester United. They have done nothing worthy of their name for some time and accepted defeat in the Cup in a very tame manner.

Bolton Wanderers, who now occupy third place, have been plodding steadily all the season, and although they are not dangerous rivals of the leaders, they will have a good position when the season ends.

Manchester have suffered during the season from accidents to players, but Aston have only suffered from a spell of bad luck. Sunderland have had a good deal of trouble in the ranks of the team, and when there is dissension among the players they will not combine and they lose their games, sometimes just to spite a particular official against whom they have some grudge. Such is said to worry the Sunderland directors at the present moment.

The champions in recent outings have not exhibited the dash and virility needed to retain the honors in the season's most exciting competition. The Old Trafford team have been showing signs of distress for some little time also. Their failures, however, are chiefly owing to their toll of injured men. Probably if the side had been immune from serious accident, and no changes had been necessary in the composition of the eleven, the Mancunians would have been the Rovers' most dangerous rivals for League honors. In spite of their lapse at St. James' Park, Bolton Wanderers are well in the running for top place, and are likely to finish higher up than either Manchester United or Burnley.

The commanding lead of Blackburn Rovers does not make it probable that any other combination will displace them from the position they have occupied with such credit for the bulk of the season.

FREDDIE WELSH GOT DECISION

English Boxer Outpointed Joe Rivers in Twenty-round Bout.

LOS ANGELES, Cal., March 18.—Freddie Welsh, lightweight of Wales, won a decision over Joe Rivers, of Los Angeles, at Vernon Arena last night after 20 rounds of fighting. Welsh had a lead on points nearly all the way.

Welsh kept Rivers in the glare of the sun and worried him with his quick punch and lively footwork. In the fifth round the referee cautioned Rivers about using his elbow on Welsh's body in a clinch. In the 13th round Rivers forced Welsh through the ropes, but failed to land any damaging blows.

Welsh now is in line for a fight with Willie Ritchie, the champion, possibly on July 4.

Levinsky Outpointed Fred Fritz. NEW YORK, March 18.—"Batling" Levinsky, of New York, outpointed Fred Fritz, the United States Navy heavyweight, in a ten-round contest in Brooklyn last night. The weights were: Fritz, 180 1/2; Levinsky, 172 1/2.

Dundee Defeated Hirsch. NEW YORK, March 18.—Johnny Dundee of New York, defeated "Special Delivery" Hirsch of Chicago, in a ten round bout here last night, having the advantage in every round except the second. Dundee weighed 127 pounds, six pounds lighter than his opponent.

BIG LEAGUE MANAGERS TELL HOPES FOR 1914

By Clark C. Griffith (Manager Washington Americans)

In one respect at least my system of training the Nationals differs from that of most league managers. I do not take my players to the far south to do their preliminary work because I believe it does a detriment to them when they are forced to come North to open the season.

For the past two seasons we have trained at Charlottesville, Va., and go there again this spring. The climate there is just about the same as it is in Washington, but we have a perfect ball field on the college grounds and a modern gymnasium to work in when the weather does not permit of outdoor stunts.

Unlike most teams, I do not expect to make a lot of changes in the line-up of my team. As far as I know now nearly every position will be occupied this year by the same individual who filled it in the last campaign.

Shanks, Milan and Moeller will, no doubt, fill the gardens, while Grandif, Morgan, McBride and Foster will take care of the infield.

VICTORIA-BEATEN AT THEIR OWN STYLE

Second Game for Toronto in Overtime Play—T. R. and A. A. 3, Kenora 3.

TORONTO, March, 18.—Demonstrating that the seven-man game, without the foolish offside rule, invogue in the N.H.A. is better than the six-man game, and more interesting from the spectators' standpoint, Toronto, champions of the N.H.A., and Victoria, holders of the Pacific Coast League title played their second Stanley Cup game at the Arena last night.

The game was played under Pacific Coast League rules. These call for seven men on each team, and the loss of the services of a player when penalized. Another and important feature was the new offside rule in centre ice, which was shown to local fans for the first time.

Victoria did not produce the great combination plays which it was said they would demonstrate under their own rules. There was none of the three-man pass, as seen in the O. H. A. In the last period the Toronto

and Williams will again do the catching, but Walter Johnson will really be the only seasoned pitcher I shall carry. The rest of the staff will have to be selected from Boeding, Engel, Gallia and Cashion, youngsters who have been with me for two or more years, and then there is a large squad of recruits who will be tried out, consisting of Harper, Bently, Williams, Ayers, Musser, Schwartz, Mumford, and one or two others unknown.

I will also have quite a large number of in and outfielders to look over, but most of them are untried youths who naturally stand little chance to make good. Holland and Smith, late of Atlanta, have had some experience in the infield. In the outfield I will have Acosta, the Cuban, who was with us last year, and Mensel, Paul Smith and Otto Nye, all youngsters who came highly recommended and will be worth while watching.

Luck, of course, cuts a big figure in baseball and it is the strong team which is not handicapped by injury to its stars, which always stands the best chance in a long-drawn-out campaign.

Following finished second in the last two races, I expect to do as well in the coming campaign, but if the young pitchers come up to expectations I may do even better and finish at the top of the heap.

Following the fast game of basketball with the Hamilton Collegiate last Friday evening here, the home players have been practicing overtime to be in readiness for the contest to be held on the Hamilton floor on Friday night next. A hard battle is looked forward to, notwithstanding the victory here. To perform their share of the struggle a large crowd of rooters of both sexes have made preparations to accompany their favorites.

The following resolutions were adopted, and a committee chosen to carry them to the council. The committee will report at a ratepayers' meeting a fortnight hence, and then will be instructed as to what is to be done in the various matters under attention. A recommendation is made that Roland road and Cocksbutt road be connected up, also the need of measures being taken to prevent flooding from the river as in previous years. That the Hydro lighting system be installed in the district, and the use of a snow plow to clear the roads if required in the future.

Committee to ask council to grant petition for a sidewalk on Cocksbutt road on a two-thirds majority. These motions were all unanimously carried by a show of hands, and it is hoped that they will be conceded at an early date.

WINNIPEG, March 17.—Archbishop Langevin has issued instructions forbidding his clergy from attending theatres and moving picture shows and urging them to warn their people from attending such places. The archbishop also forbids the holding of dances for the aid of any church organization and issues a general warning against the new dances.

SERIOUS BLAZE. No one was injured. The loss is estimated at \$1,500,000.

BELLVIEW RESIDENTS WANT IMPROVEMENTS

A Meeting Was Held Last Night When Resolutions Were Drawn Up.

Bellview ratepayers met last evening when several resolutions calculated to bring about improved conditions in the district were brought forward. Rev. Dr. Linscott acted as chairman, and a couple of scores of ratepayers were present.

The following resolutions were adopted, and a committee chosen to carry them to the council. The committee will report at a ratepayers' meeting a fortnight hence, and then will be instructed as to what is to be done in the various matters under attention.

Says Both Sexes Display an Extraordinary Rage For All That Is Not Decent

English Paper Scores Modern Dress and Manners and the Search for All That Is Improper in Action, Speech and Clothing.

"No one can have watched the life of our cities for the last few years without noticing the extraordinary rage for all that is not respectable, not only among men, but quite as strongly among women," says Truth in a scathing article on the mock impropriety of the times.

"From a period of extreme gentility we have been gradually approaching this phase ever since the first person dared to smile at any of the codes of Jane Austen's time. But the last few stages of our progress have been so rapid that one wonders where we shall stop.

Imitate Chorus Girls. "Thanks to dress and social customs, one can watch the new dislike of propriety best in women. Ten years ago every chorus girl wanted to look like a duchess; and her notion of a duchess, if perhaps a little highly colored, was yet remarkable like the current idea of a gentleman. Nowadays the chorus girl goes her own way, sets her own fashions, makes her own customs, secure of having all our duchesses assiduously imitating her as soon as her new coiffure of her extra inch of knee has been displayed on the stage.

"There was a time when a theatrical dressmaker never dreamed of drawing any custom from the world of great ladies. Now their books are crowded with titled customers, who are anxious to look as much like Fifty Tips or Luffy Lacks as possible, and would even undergo an operation if they could thereby get the same adolescent smile. Last year a fashionable bride, daughter of a great house, was married in a dress not permitted, but exactly copied, from one worn by the heroine of a certain long-lived musical comedy.

Dowdy to be Respectable. "Women go as a matter of course to places where they used not to be admitted. There is nothing in that; but both men and women seem to prefer things which have a show of being improper. It is a little dowdy to be respectable, or to seem so, and this applies very strongly to conversation. Not only do women hear language which they would once have swooned to read, but they take an open pride in not being shocked by it.

What Will Become Of It? "What will come of it is difficult to imagine. We have not much further to go before we arrive at the real thing. There is little doubt that when we reach that point our indomitable hereditary sense of propriety will assert itself. But the road that remains to go will surely be fertile in surprises. When we have not only danced the tango, but

Limit of Theatricals. "The youngest man about town who wants to look as though he drank too much absinthe, the flightiest young grandmother who dresses as if for the promenade of the Empire will be excellently turned back into the paths of righteousness they have never left by five minutes conversation with, or observation of, Montmartre habitue, or the sweated worker who has no market but the streets.

"Our sense of drama has led us to try and ape impropriety under the impression that it is amusing to be improper; we are approaching the limits of public theatricals, and shall shortly be so close to the real thing that we shall be able to realize what Kipling meant when he talked of Life with a capital 'H.'"

HE THINKS WOMEN ARE MOST BABYISH

WASHINGTON, March 18.—Dr. James Harvey Robinson, professor of history at Columbia University, who was chief speaker at a feminist meeting of the Woman's Forum in the philosophy building at Columbia, said that woman's present status was due partly to nature.

"It is the lot of all of us to be born babies," said Dr. Robinson. "Women are encouraged less to outgrow it than men. One thing that possesses a baby is to be doing something, and whatever it does is at the expense of something else. Women haven't been encouraged to leave the baby stage soon enough. If they weren't permitted to remain babies so long their status would be different."

Dr. Robinson suggested that women ought to have part time jobs and devote the rest of the time to raising families. He believes that men are now the slaves of their jobs and that if they would play part of the time and give their jobs to the women while they are playing both sexes would be better off.

Tarzan of The Apes

By EDGAR RICE BURROUGHS

Copyright, 1912, by the Frank A. Munsey Company.

CHAPTER VII. Man's Reason.

THERE was one of the tribe of Tarzan who questioned his authority, and that was Terkoz, the son of Tublat, but he so feared the keen knife and the deadly arrows of his new lord that he confined the manifestation of his objections to petty disobediences and irritating mannerisms. Tarzan knew, however, that he but waited his opportunity to wrest the kingship from him by some sudden stroke of treachery and so he was always on guard against surprise.

For months the life of the little hand went on much as it had before, except that Tarzan's greater intelligence and his ability as a hunter were the means of providing for them more bountifully than ever before. Most of them, therefore, were more than content with the change in rulers.

During this period Tarzan paid many nocturnal visits to the village, where he often renewed his supply of arrows. The blacks had not as yet come upon Tarzan's cabin on the distant beach, but the ape man lived in constant dread that, while he was away with the tribe, they would discover and despoil his treasure. So it came that he spent more and more time in the vicinity of his father's last home and less and less with the tribe.

Presently the members of his little community began to notice on account of his neglect, for disputes and quarrels constantly arose which only the king might settle peacefully.

At last some of the older apes spoke to Tarzan on the subject, and for a month thereafter he remained constantly with the tribe.

Tarzan tired of it as he found that kingship meant the curtailment of his liberty. He longed for the little cabin and the sun kissed sea, for the cool interior of the well built house and for the never ending wonders of the many books.

As he had grown older he found that he had grown away from his people. Their interests and his were far removed. They had not kept pace with him, nor could they understand aught of the many strange and wonderful dreams that passed through the active brain of their human king.

Had Kala lived Tarzan would have sacrificed all else to remain near her, but now she was dead, and the playful friends of his childhood grown into surly brutes, he felt that he much preferred the peace and solitude of his cabin to the irksome duties of leadership among a horde of wild beasts.

The hatred and jealousy of Terkoz, son of Tublat, did much to counteract the effect of Tarzan's desire to renounce his kingship among the apes, for, stubborn young Englishman that he was, he could not bring himself to retreat in the face of so malignant an enemy.

That Terkoz would be chosen leader in his stead he knew full well, for time and again the ferocious brute had established his claim to physical supremacy over the few bull apes who had dared resent his savage bullying.

Tarzan would have liked to subdue the beast without recourse to knife or arrows. So much had his great strength and agility increased in the period following his maturity that he had come to believe that he might master the redoubtable Terkoz in a hand to hand fight were it not for the terrible advantage the anthropoid's huge fighting fangs gave him over the poorly armed Tarzan.

One day the tribe was feeding quietly, spread over a considerable area, when a great screaming rose some distance east of where Tarzan lay upon his belly beside a limpid brook, attempting to catch an elusive fish in his quick brown hands.

With one accord the tribe swung rapidly toward the frightened cries and there found Terkoz holding an old female by the hair and beating her unmercifully with his great hands.

As Tarzan approached he raised his hand aloft for Terkoz to desist, for the female was not his, but belonged to a poor old ape whose fighting days were long over and who therefore could not protect his family.

Terkoz knew that it was against the laws of his kind to strike the woman of another; but, being a bully, he had

taken advantage of the weakness of the female's husband to chastise her because she had refused to give up to him a tender young rodent she had captured.

When Terkoz saw Tarzan approaching without his arrows he continued to beat the poor woman in a studied effort to affront his hated chieftain.

Tarzan did not repeat his warning signal, but instead rushed boldly upon the waiting Terkoz.

Never had the ape man fought so terrible a battle since that long gone day when the great king gorilla had so horribly manhandled him ere the new found knife had, by accident, pricked the savage heart.

Tarzan's knife on the present occasion but barely offset the gleaming fangs of Terkoz, and what little advantage the ape had over the man in brute strength was almost balanced by the latter's wonderful quickness and agility.

In the sum total of their points, however, the anthropoid had a shade the better of the battle, and had there been no other personal attribute to influence the final outcome Tarzan of the apes, the young Lord Greystoke, would have died as he had lived—an unknown savage beast in equatorial Africa.

But there was that which had raised him far above his fellows of the jungle, that little spark which spells the vast difference between man and brute—reason. This it was that saved him from death beneath the iron muscles and tearing fangs of Terkoz.

Scarcely had they fought a dozen seconds as they were rolling upon the ground, striking, tearing and rending—two great savage beasts battling to the death.

Terkoz had a dozen knife wounds on head and breast, and Tarzan was torn and bleeding, his scalp in one place half torn from his head, so that a great piece hung down over one eye, obstructing his vision.

But so far the young Englishman had been able to keep the horrible fangs from his jugular, and, as they fought less fiercely for a moment to regain their breath, Tarzan formed a cunning plan. He would work his way to the other's back and, clinging there with tooth and nail, drive his knife home until Terkoz was no more.

The maneuver was accomplished more easily than he had hoped, for the stupid beast, not knowing what Tarzan was attempting, made no particular effort to prevent the accomplishment of the design.

But when finally he realized that his antagonist was fastened to him where his teeth and fangs alike were useless against him Terkoz hurled himself about upon the ground so violently that Tarzan could but cling desperately to the leaping, twisting, twisting body, and ere he had struck a blow the knife was buried from his hand by a heavy impact against the earth.

But Terkoz was no more, and Tarzan, who had himself defensedless, during the rollings and squirmings of the next few minutes Tarzan's hold was loosened a dozen times, until finally an accidental circumstance of those swift and ever changing evolutions gave him a new and well earned right hand, which he soon realized was absolutely unassailable.

His arm was passed beneath Terkoz's arm from behind, and his hand and forearm encircled the back of Terkoz's neck. It was the half Nelson of modern wrestling which the untaught ape man had stumbled upon, but it did the work of a full Nelson, and he was

loosened a dozen times, until finally an accidental circumstance of those swift and ever changing evolutions gave him a new and well earned right hand, which he soon realized was absolutely unassailable.

STATE INSURANCE BEING DISCUSSED

Mr. Lloyd George Ridicules the Idea of a Voluntary System.

Mr. Hamilton, Unionist member for Altrincham, opened a debate in the House of Commons on Wednesday upon the Insurance Act. His motion spoke of the general fear that it would be impossible to go on paying the minimum benefits under the Act, and asked for an investigation into the possibilities of a voluntary system aided by State subsidies.

Mr. Worthington Evans (U) announced his conversion to the principle of a voluntary system, declaring that there was the gravest doubt as to the solvency of many societies, and in many of them the expenditure on sick benefits was twice as large as had been anticipated.

Mr. Lloyd George proceeded to picture the impracticability of a voluntary scheme. First of all it would mean giving the employer a primary interest in engaging men who were not insured. Members of trade unions, members of friendly societies, members of collecting societies need not apply.

Mr. Bonar Law: Employers would pay for all their workmen whether they were insured or not.

Mr. Lloyd George: We almost owe the right hon. gentlemen a debt of gratitude for making that statement. (Ministerial laughter.) The employer is to pay whether his workmen are insured or not. If his workmen are not insured he is paying for other people's workmen.

Reports from different parts of the country showed that the benefits conferred by the Insurance Act were the main among the poorer type of workmen, who before the Act had nothing before them but the Poor

WHITE SWAN BAKING POWDER

"Lighter—More Digestible!"

"Yes, madam, cakes and pastry made with White Swan Baking Powder are not only whiter and lighter, but they are much more digestible than when made with the common baking powders."

"For purity and excellence, White Swan Baking powder has led them all for 17 years past."

"One tin wins success for you." Order it from your grocer in 10c. or 25c. tins.

Scientific Reasons White Swan Baking Powder is a phosphate—not an Alum Baking Powder. Whenever alum is used in the kitchen, it is changed chemically and becomes Sulphate of Soda, which is injurious to the health, producing indigestion and other internal irritations. That is why many people cannot eat hot biscuits without ill effects.

White Swan Baking Powder contains a bone-building substance, highly recommended by physicians.

Charles Wilcott of Belleville, William Jeffrey of Stratford, travellers, for McClary's, London. (By Special Wire to The Courier) TORONTO, March 18.—Two of the victims of the fire, whose bodies were recovered, one about midnight and the other about eleven o'clock this morning, are believed to be Charles Wilcott of Belleville, well known horseman and William Jeffrey Stratford. It is practically certain Levenson and Cohen perished though the bodies have not been found. A fifth man is missing. The other guests were reported. Wilcott went to his room in the evening and asked to be called at a quarter to eight a.m. intended to see the Victoria hockey match. At a quarter to eight the hotel was flames. TORONTO, March 18.—Two were burned to death, one probably fatally injured, and 150,000 was caused in a fire which destroyed the Woodbine Hotel, one of the city's best appointed and most in hostilities, between 7.30 and 9 o'clock last night. It was an effort to save a building that Messrs. Cohen and Levenson went back to their deaths having been led to safety by Arthur Lee. Mr. Lee, of 12 West 119th St., New York, occupied rooms on the third floor. The three men were in Cohen's room when the fire was noticed issuing through cracks around the door. Mr. Cohen, who was familiar with the hotel, hurriedly hurried to the hall, broke down the door of room 311. His friends followed him into the escape. Mr. Lee continued to escape, but Cohen and Levenson, who were in the room, were until a search was pursued after fire was brought under control. The charred remains of Cohen were found among the debris of the floor with those of the dog. The was taken to the morgue, and search continued for the remains of Levenson, but at an early hour morning they had not been recovered. However, there is no doubt Levenson perished in the flames. Frantic Search for Bodies The finding of the body of Cohen was the sequel to a frantic search conducted by Mr. Lee and a policeman.
