WATERDOWN

Charles McMonies

Death last Friday morning claimed one of the best known and most respected residents of Waterdown when Charles McMonies passed away at his home here in his 88th year, following an illness of several months duration.

The late Mr. McMonies was born in East Flamboro in 1834, and had resided practically all his life in the vicinity of Waterdown. He was married 59 years ago, the bride and groomsmen at the wedding, Mrs. Wm. MacHattie, now of Vancouver, and Mr. Thos. English of Wardsville Ont., are still living.

Deceased had been a farmer all his life, but a few years ago built a home in the village and retired. Up until his recent illness he enjoyed remarkable good health, his kindly disposition made him many friends, and his death will be mourned, not only by the entire community of Waterdown, but also by his many friends throughout the district.

Mr. McMonies was a Scotch Presbyterian in religion, and a staunch Liberal in politics. His father had the distinction of being the first member for the county of Wentworth in the Dominion parliament after confederation.

Deceased is survived by his wife, nine children and 21 grand-children. The daughters are: Mrs. Henry, Mrs. J. F. Vance, of Waterdown; Mrs. Gardner, of Woodstock; Mrs. H. B. Higginson, of Hamilton; Mrs. O. A. English, of Peables, Sask; and Miss Nellie McMonies of New York. The sons are: C. E. McMonies, of Lyons, Neb.; D. E. of Huron, So. Dak., and Fred at home. County Clerk J. F. Vance and Rev. H. B. Higginson, curate of the Church of Ascension, Hamilton, are sons-in-law. Frederick W. McMonies, the American sculptor is a cousin of deceased.

The funeral took place last Monday at 2.30, and was in charge of Waterdown Masonic Lodge, the Rev. Mr. Wedderburn of Knox church conducting the services at the home and grave. The pallbearers were R. C. Griffin, Robt. Platt, Geo. Willis Warren Gallin, Jas. Thompson and William Little. Honorary pallbearers Dr. J. O. McGregor, Wm. Hall, Geo. Horning and R. Sparks. Interment being in Waterdown cemetery.

People Liked Him

People liked him, not because
He was rich or known to fame;
He had never won applause
As a star at any game.
His was not a brilliant style,
His was not a formal way;
But he had a gentle smile,
And a kindly word to say.
Never arrogant or proud,
On he went with manner mild,
Never quarrelsome or loud,
Just as simple as a child.
Honest, patient, brave and true,
Thus he lived from day to day,
Doing what he found to do
In a cheerful sort of way.
Wasn't one to boast of gold,
Or belittle it with sneers,
Didn't change from hot to cold,
Kept his friends throughout the years.
Sort of man you like to meet,
Any time or any place;
There was something always sweet
And refreshing in his face.
Sort of man you'd like to be,
Balanced well and truly square;
Patient in adversity,
Generous when the skies were fair.
Never lied to friend or foe,
Never rash in word or deed,
Quick to come and slow to go,
In a neighbor's time of need.
Never rose to wealth or fame,
Simply lived and simply died;
But the passing of his name,
Left a sorrow far and wide.
Not for glory he'd attained,
Not for what he had of pelf
Were the friends that he had gained,
But for what he was himself.

W. A. A. Items

The Basket Ball team played the return game with the Doormats at the Hamilton "Y" on Tuesday last and lost by a score of 25 to 38. The small playing floor at the Y seemed to handicap our boys. Gordon, Burns and V. Willis playing up to form, and the subs, Griffin, Newstedt and R. Willis playing good ball. The team and followers all sat down to lunch at 11.30. Clever speeches by V. Willis, G. Burns and A. Lovejoy being on the bill of fare.

The grand ball on April 1st was a big success, although the proceeds did not amount to very much, an enjoyable time was spent. The boys wish to express their thanks to Mrs. A. W. Palmer, Mrs. D. A. Hopper, Mrs. W. H. Torrance, Mrs. A. Lovejoy and Mrs. J. J. Burns for their kindness in looking after the lunch tables.

The base ball practice held on Saturday last was a hummer, about 25 players turned out and went through a warm practice. All the boys showed good form, and plenty of players to pick from. Waterdown should be heard from on the baseball map judging by the material on hand.

A meeting should be held at once to prepare for the 24th of May when the boys expect to have a bumper day.

"Art" Lovejoy had charge of the basket ball team on its journey to Hamilton last Tuesday night.

Millgrove W. I.

The Millgrove Women's Institute held their regular meeting at the home of Mrs. J. E. Carey, Wednesday afternoon, March 30th. Two very instructive papers were read by Mrs. Miles Markle on "Duties to Ourselves, and by Mrs. J. E. Cummins on "Ideas and Time-savers for House-clearing Time." Arrangements were made for entertaining the Millgrove Dramatic Club on Thursday April 7th in the Millgrove Town Hall. The next monthly meeting and election of officers will be at the home of Mrs. Fred Griffin, Wednesday, April 27th. A feature of the afternoon will be a contest for the best layer cake, open to all members and suitable prizes given. A demonstration on icing cakes will be given by Mrs. O. Lester.

Use Sun Varnish and Varnish Stains for best results—Eager's.

Mountsburg U. F. Club Entertained

An enjoyable social evening was spent on Wednesday, March 30th at the home of Mr. and Mrs. Alex. Campbell, when the United Farmers' Club of Mountsburg, along with their wives and families, assembled there.

The home was thrown open with instructions for all to have a "good time," and accordingly games and other forms of amusements were indulged in. After refreshments were served, speeches were in order, Mr. Burge Gunby acting as chairman. Speeches were given by Messrs Leslie Scott and Albert Campbell. The evening was brought to a close by singing God Save the King.

Millgrove

Rev. Mr. Albright met with an accident last Sunday evening. While driving to Rock Chapel the horse became unmanageable, throwing Mr. Albright out of the rig and cutting his face badly.

Mr. Geo. Shelton has moved to the village.

Mr. Wesley Pepper is moving back on his farm.

Mr. John Roberts has purchased the home lately occupied by Clifford Wrecks.

Mr. Will Robbins has moved to Blythe.

Mr. Kenneth Cummins is getting ready to erect a new barn.

Wedding bells were ringing in our village last Wednesday. The happy young couple being Miss Leta Carey and Mr. Cecil Cummins. They will reside on the town-line above the village.

Greenville

The Women's Guild met at the home of Miss Woodley, on Tuesday afternoon.

Miss O. Cliff, of Hamilton, has been spending a few holidays with Mrs. Catchpole.

Mr. Isaac Case is very ill at the home of his daughter, Mrs. G. Riley.

The building lately occupied by Mr. Bailey has been torn down, greatly improving the appearance of the corner.

Paint and save your buildings—Canada Paint is sold at Eager's.

Just Arrived

A new assortment of Water-proof Coats suitable for Spring wear. Made in the latest American styles.

The Sunday School Lesson

Lesson II. April 10.

BIBLE TEACHINGS ABOUT HEALTH

Lesson—1 Cor. 6: 19, 20; 9: 24-27; Gal. 6: 7, 8.

Golden Text.—"Every man that striveth in the games exerciseth self-control in all things" (1 Cor. 9: 25).

The Lesson Text.

1 Cor. 6: 19 Or know ye not that your body is a temple of the Holy Spirit which is in you, which ye have from God? and ye are not your own; 20 for ye were bought with a price: glorify God therefore in your body.

9: 24 Know ye not that they that run in a race run all, but one receiveth a prize? Even so run; that ye may attain.

25 And every man that striveth in the games exerciseth self-control in all things. Now they do it to receive a corruptible crown; but we an incorruptible.

26 I therefore so run, as not uncertainly; so fight I, as not beating the air:

27 but I buffet my body, and bring it into bondage: lest by any means, after that I have preached to others, I myself should be rejected.

Gal. 6: 7 Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap.

8 For he that soweth unto his own flesh shall of the flesh reap corruption; but he that soweth unto the Spirit shall of the Spirit reap eternal life.

Comments

1 Cor. 6: 19. The general tone of the New Testament teaching is that in some way the Spirit of God dwells in or among His people. The teaching is equally plain that the human body should be kept so clean as to be a fit habitation for the Spirit of the living God. See 2 Cor. 6: 16; Eph. 2: 21, 22; 1 Tim. 3: 15; Heb. 2: 2; 1 Pet. 2: 5. The purpose of this high ideal is to restrain us from sin.

Verse 20. There is no way to glorify God in one's body except to so use the body as to make it a servant of godliness, righteousness, purity and truth. Paul elsewhere (Col. 1: 18) states that the church is the body of Christ. All in all that is such spiritual intimacy between Christ and His followers that in both body and mind we should so live and think as to be worthy of Him, and not be inconsistent with His righteousness.

9: 24. The games celebrated near Corinth would make Paul's figure familiar to those he addressed. Running, leaping, wrestling and boxing were practiced in these games for the purpose of building strong bodies. In the Christian race we do not struggle against one another, but against sin, and the aim is to keep physically, mentally, morally and spiritually fit in order that the race may be won.

Verse 25. Every one who entered the Corinthian games was compelled to submit to a long course of rapid and severe discipline. Trainers in athletics today require the same practice. Temperance is simple the practice of the highest type of self-control. No man has a right to so abuse his physical powers as to impair his value to society or his standing with God.

Verse 26. The runners and wrestlers in the Greek games were uncertain as to victory. The sincere Christian has no such uncertainty. Uncertainty of victory comes only with unpreparedness in the running.

Verse 27. Self-discipline consists of the body to the mind. (2) The entire subjugation of the mind to the spirit of Christ.

Gal. 6: 7. Paul carries forward the same idea. Whatever may be the nature of our habits or practices, such will be the nature of the results and rewards.

Verse 8. Living a life that sensualizes and demoralizes the body brings consequences of weakness and destruction to both body and soul. It is bodily appetites that undo us. It is yielding to the physical that makes us coarser and coarser until we lose power of response to the spiritual. The real battle of life is between our

better intelligence and our debasing impulses.

Illustrated Truth.

No one can honor God who shows little regard for the body that was given him with which to serve God and the world (1 Cor. 6: 19).

Illustration.—A young woman who held several important positions in the church was given the sort of social life that meant late hours, over-eating and unwholesome excitement. Still, as she often boasted, she managed to drag herself to teach her class on Sunday, though she was "half dead." She would have scorned the idea of offering one of her friends as a gift something she had already nearly worn out, yet she was making such an offering to the Lord and was priding herself on the fact.

Topics for Research and Discussion.

I. A Clean Body (1 Cor. 6: 19, 20). 1. What is the New Testament teaching as to keeping one's body clean and fit? 2. How may we glorify God in our bodies? 3. How is it possible for a man of strong physical tendencies to swing over to spiritual living? 4. In the light of this Scripture, what becomes of the basis for the plea for "personal liberty" in those things that destroy both body and soul? 5. What right has any one to abuse a trust placed in their care? If it is wrong to misuse a trust, is it not wrong to misuse our bodies, which belong to us only as a trust?

II. A Controlled Body (9: 24-27). 6. What kind of games were Paul and the people of Corinth familiar with? 7. How does training for athletics correspond to training for Christian living? 8. What is temperance? 9. How does the Christian differ from the athlete as to victory? 10. How would you define self-discipline?

12. A Spiritually Consecrated Body (Gal. 6: 7, 8). 11. Is it possible to get into the habit of doing good as well as evil? 12. What is the effect of a life of sin? 13. What is the effect of a life of righteousness? 14. Then, why do men sin? 15. Why do men try to deceive themselves about sin.

TABBY-CAT MOTHERS CHICKS AND DUCKS

A poultry dealer in Chicago found a very much battered-up kitten back of his shop one day. He took it in and fed it. And now tabby, a grown and well-fed cat, is returning good for good. Nothing delights her more than when she is mothering a hatching of baby chicks or little ducklings—or both at the same time, as shown here.

Sign in a restaurant: "Table d'Hotel Dinner 60 cents. Soup changed daily.—Boston Herald.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, frostbites or chilblains it excels, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief than to inhale from the bottle through the nasal organ.

And as to my supply of veterinary remedies it is essential, as it has in very many instances proven its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cow's udder has again demonstrated its great worth and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I think I am safe in saying among all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real trueness good for man or beast. CHAS. K. ROBBINS, Chebogue Point, N.S.

EYES TESTED FREE

WHAT THE BOY SCOUTS ARE DOING

If the Boy Scouts of Ottawa were to join hands they would be able to encircle a large part of their home city. Ottawa has more Scouts per capita than any other city of 100,000 or more people in America.

Scoutmasters in Hamilton and Ottawa "go to school." But to special schools organized just for them. Instead of arithmetic and spelling and all that they study boys, and scouting, and games, and discuss with experts the best ways of running their troops.

Assistant Scoutmaster Ed. Walker, of Grimsby has been instrumental in saving no less than three persons from drowning—and at three different times. The Provincial Board of Honor recently recommended him for one of the highest Boy Scout decorations.

Increased interest is being shown throughout Ontario in the Wolf Cubs—the junior branch of the Boy Scouts' Association. A new booklet called The Wolf Cub has just been published and will be sent to men and women interested upon application to Provincial Headquarters, Bloor and Sherbourne Streets, Toronto.

The annual meeting of the Canadian General Council of The Boy Scouts' Association was held in the Governor-General's office, Ottawa, on Wednesday, March 23. His Excellency the Duke of Devonshire, Chief Scout for Canada, presiding. Reports presented showed splendid development of the movement in all provinces, and plans for still further field and extension work were approved.

CAN DECAY OF THE TEETH BE AVOIDED

How shall this question be answered? If one considers the number of people suffering from this disease, and the number of Dentists there are to treat it, it would almost seem unavoidable, yet it is avoidable. This is a strange paradox unavoidable yet avoidable. Teeth were not made to decay, but to do their work, free from disease, the same as other organs of the body.

Humanity has been and is afflicted with any number of diseases, yellow fever, diphtheria, typhoid, malaria, tuberculosis, cancer, smallpox and many others. None of these are so common as tooth decay. In some localities ninety-five per cent. of the school children are suffering with this disease. If all the people suddenly decided to have their teeth put in healthy condition, there are only dentists enough to care for thirty per cent. of them.

Through the discoveries of great scientists and the organization of our health departments, a good many diseases have been rendered preventable. Some still seem unavoidable, among these is tooth decay.

It has been demonstrated that this disease rests largely with the individual. One's habits, diet and mode of life are the principal factors involved. As civilization has advanced so has tooth decay. If it cannot be prevented entirely it can be greatly lessened. It is known that the mosquito bite will cause yellow and malarial fevers, that drinking impure water and unsanitary conditions will cause typhoid, that direct contact and lack of fresh air and neglect of colds will cause tuberculosis, that contact with the many contagious diseases will produce them. Through the elimination or modification of the causes many of these diseases are becoming unnecessary. In the City of Toronto, through the work of the

Health Department in the last ten years, two thousand fewer people per annum die than if the former rate had been maintained. It has been said that one third of all poverty is caused through sickness, that the vast majority of chattel mortgages are the result of sickness, that sickness is the deciding factor between contentment or worry over the family finances.

The object of this article is to get the people interested in the lessening of tooth decay, and hence the elimination of the far reaching troubles and expense that arise therefrom. Many people of middle age say "How I regret that I neglected my teeth, when young." At middle age one appreciates the necessity, the comfort, and the health value of sound and efficient teeth.

In previous articles the pre-natal influence and the care of children's teeth have been pointed out. The rules laid down are simple and easy to follow. In the next two articles the influence of mastication and mouth cleanliness on the teeth and the influence of diseased teeth on the general health will be considered.

Our hope for the prevention of tooth decay is in the children and the coming generations. At present the ideal should be, that when children leave school, they will not only be mentally fit for the battle of life, but physically as well, with sound and healthy teeth. There is now, connected with the Department of Education, a Dental Inspector. Any school section or municipality can at any time, get advice on the best method for the prevention of tooth decay in the school children.

All parents and others interested are asked to get behind this movement for tooth preservation. Thus it will be possible to make tooth decay avoidable.

GOOD JOKES

HAD AN EYE FOR TRADE.

A Sunday school teacher had been describing to her pupils the joys of heaven. At the close of the lesson, she asked: "How many would like to go to heaven?"

All, save one, raised their hands. Turning to the exception the teacher asked: "Surely, you don't want to go to hell?"

The youngster nodded his head vigorously.

"Sure, I do," he asserted. "My father said that's where business has gone, and I want to go in business."

FIFTY-FIFTY.

Butcher—This pound of butter you sent me is 3 ounces short.

Grocer—Well, I mislaid the pound weight, so I weighed it by the pound of chops you sent me yesterday.

PAINFUL.

Son—But smoking doesn't hurt me, father.

Father—Oh, no; but it hurts me to see you smoking up my expensive cigars.

COULD DO ANYTHING.

Judge—You have attacked this man, Can you deny it?

Prisoner—Certainly, I can, sir, if it will help me.

MOTHER'S LITTLE GAME.

Little Bessie, 5 years old, after calling her mother several times during the night and receiving no reply, said: "Mother, are you really asleep, or are you just pretending you're a telephone girl?"

LOOK FOR DROP IN PRICE OF COAL.

DOMINION AND U. S. GOVERNMENTS CONFER WITH MINE OWNERS.

With the event of Spring the chances are that the price of anthracite coal will take a drop. Conferences are in process between representatives of the Dominion and United States Government officials of the mines respecting a proposition to reduce the price of anthracite fifty cents a ton to dealers at the mines. At present the joint conferences are confining their efforts solely to dealing with the price of anthracite coal.

It was stated that the proposition under consideration stipulates that commencing May 1, the price of anthracite be reduced fifty cents and that the rate be increased ten cents per ton per month for the following five months, at the termination of which the price would be equal to the present price when the Fall season sets in. This proposition has been favorably received by many of the mine owners; in fact there is a chance that the new rate may become effective owing to the continued mild spell of weather. There is a possibility that the prices of coal for manufacturing purposes may also be reduced along similar lines.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

The annual meeting and election of officers of the W. M. S. of the Methodist church will be held at the home of Mrs. A. Hemingway, Wednesday afternoon, April 15th. Members are requested to bring mite boxes.

Word was received here Wednesday of the death of Ormond Skinner Mitchell at Rochester, on April 6th. The remains will be taken to Weyburn, Sask. for burial, where deceased had been in the Druggist business for a number of years. Mr. John Mitchell of this village is a brother and Mrs. Geo. Rohr a sister of the deceased. Funeral announcement later.

Flamboro Centre

A number of young people spent a very enjoyable evening in dancing games and music at the home of Mr. and Mrs. Henry Lawson, on Friday evening, April 1st.

It is generally recognized that in a comparatively new country such as Ontario there is a tendency for a gradual decrease in crop production per acre owing to the natural depletion of soil fertility. It is interesting and worth while to note, however, that according to the best information obtainable there has been an actual increase of from ten to twenty per cent. in yield per acre of three of the principal farm crops of Ontario for the last eighteen years as compared with the previous period of eighteen years. This increase in yield per acre for these three crops, reckoned at market prices, has made an estimated increase in money value of over one hundred and thirty million dollars.—Prof. C. A. Zavitz, O. A. College, Guelph.

Diameter of Pine Tree.

Mr. Hill, lockmaster at Buckhorn, Ont., experimented with a pine tree to determine improved growth which may be secured by proper care. Fifteen years ago, he pruned all the lower branches off a 4-inch white pine sapling, removing other saplings from its vicinity, dug up the earth around it and applied manure to its base. It is now 19 inches in diameter at its base and has a long, clean pole. Thus, during the fifteen years, the growth in diameter has averaged one inch annually.—Conservation.

OUR BOYS' AND GIRLS' CORNER

By Aunt June

DEDICATED TO EVERY BOY AND GIRL IN CANADA

Shallow Lake.

Dear Aunt June—I go to school every day and like it fine too. I am trying entrance this year so I am quite busy learning. In the morning I help get breakfast and get my two sisters and myself ready for school. When I come home at night I get wood and water, feed the poultry, milk two cows and get the supper ready. After supper is over I wash the dishes and do my homework. Mama always goes to the city on Saturday. I also help with the housework such as sweeping, washing dishes, dusting the furniture, scrubbing the floor, washing the chairs, getting wood and water, feeding the poultry, taking care of baby sister who is just sixteen months old. Besides this I do the baking. I can bake anything but bread and I am just learning now. I always make the yeast for mama. I have a mile and a half to go to school but don't mind it. For pets I have a dog named "Sport" that is pure white all but one brown ear and brown eye. He is very playful; a cat named "Ted" that is black and white and a pair of rabbits named "Topsy" and "Peter." Topsy is pure white, just the color of the snow, and Peter is grey and white. We feed them oats, alfalfa, bread and all kinds of vegetables. We get them birch branches so they won't touch the apple trees.

BROWN EYES.

Dear Brown Eyes—I enjoyed reading your letter very much and I am sure the other Helpers will like reading it too. What very nice pets you have. I am sure you have good fun with them. I am sending you a badge and hope you like it. Let

PLEDGE FOR HELPERS.

"Do a little kindness to someone every day, Scatter rays of sunshine all along the way."

I pledge myself in the service of my King and Country to do my best in my daily work, whenever it may be, to help others whenever possible, and to endeavor in every way to make myself a good citizen.

Name

Date

me hear if you pass your entrance or not. I hope you will get through splendidly.

Hodgins P. O. Que.

Dear Aunt June—I am 16 years old and I live on a farm. I love doing chores, minding horses and cows. We have 3 cows and 2 horses, 3 all the time and help mama in the house. There are eight of us altogether. Hope I am doing enough to get a badge.

LUCY LE BAIRD.

Dear Lucy—Yes, you are certainly doing enough to get a badge and I am sending you one to wear and am glad to have you as a member of the League. You must be kept very busy minding all the animals and doing chores. I hope that you can have lots of fun together

when you have so many brothers and sisters.

Dear Aunt June—I received a badge but lost it. I would like to receive another. The last time I wrote I was in Shawville working in a hotel but now I am on a farm. I am fifteen past. I help Mama with the washing, carrying all the water, help to knit socks, mits and shirts, get meals and scrub. We live four miles from the store.

EMMIE BAIRD.

Dear Emmie—I am sending you another badge and I hope you do not lose this one. I am sure you must like it on a farm much better than a hotel and I hope you will write to me again some time and let me know how you are.

Thank.

Dear Aunt June—I have been reading the Boys' and Girls' column for sometime and thought I would like to become a Helper. I am eight years old. I go to school and when I come home I help mother wash the dishes and sweep the floor and help my brother to carry in the wood. I help to take care of my little brother four years old. I have a big doll as a baby one year old.

RETA REVOIR.

Dear Aunt June—I am twelve years old and thought I would like to become a Helper. It has been a lovely winter for sleigh riding. I go to school and like my teacher fine. I make the fires at school. When I come home I do the chores and cut the cedar. I have a horse named Topsy. She is very quiet, and a rooster who is a very clever fellow. He is red. I have two sisters and two brothers.

CLARENCE REVOIR.

Dear Reta and Clarence—Thank you very much for your letters. I am answering them both together because we have so little room in our letter box for such a lovely lot of letters. I am glad you are such splendid little Helpers and am sending you both a badge which I hope you will like.

Pense, Sask.

Dear Aunt June—I like reading the letters and thought I would like to help my King and country. I was born on the Prairie and live on a farm near Regina and 8 miles from Pense and 6 miles from Keystown. I have a pacing mare of my own and she has raced all over Western Canada. I plowed this summer with six horses on a gang plow, the walking plows are only used for potatoes and gardens here because the fields are so big. When I come home I help do the chores and get in a good supply of water and get up coal.

JOHN RALPH McLAREN.

Dear Ralph—I very much enjoyed reading your letter and hope you will write and tell me some more about your life on the Prairie. I am sending you a badge and think you are a splendid Helper. I am glad your pacer has raced all over Western Canada and I hope you have been fortunate to get prizes with her.

Chippawa Hill.

Dear Aunt June—I have every one of your letters in the paper and hearing of the boys and girls getting badges I would like to get one too. I am thirteen years old. My birthday was yesterday. I got three nice presents. I have two brothers and one sister. My father is an Indian Agent. I do not go to the Indian school though. There is a white school too. We live two miles and a half from a town called Southampton. I help wash the dishes and make my bed.

JEAN SOUTH.

Dear Aunt June—I have been reading your Boys' and Girls' page and I would like very much to join your Helpers' League of Service. There are many things I do to help. I wash dishes, sweep the floor, carry in wood and water, scrub and sometimes do a little baking. And I sometimes milk until lately and the cow has a dislike against me. Sometimes when by brothers are away I do some chores. We have two cats and a kitten, but I am going to tell about a special one. I call her Snowball, she is grey and white. When I give her a piece I hold her up on my knee and she will hold the piece in her front feet and eat it. I used to give her tea and milk off a spoon and sit her up on a chair, but I haven't this last ten years. And the rest are good micers.

GLADYS LYONS.

Dear Aunt June—I have three brothers and one sister. The work I do is sweep the floor, wash the dishes, sweep and school, wash the separator sometimes. I have four cats and three rabbits for pets. We did have a dog but he was killed by a train. We also have a ferret and some bantams for pets. We have two Kewpie dolls. One belonged to me. We have a Brantola and quite a few records for it. I am in the senior third class at school. I am eleven years old. I would like to correspond with any girl of my own age if she will write first. My birthday is the 8th of October.

EVELYN HAGAN.

Dear Aunt June—I am 12 years old and live on a farm. I have about two miles to go to school every day. I do quite a lot to help. I wash the dishes, sweep the floor, bring in the wood and water, help to milk the cows and make the beds. For pets I have a dog and two cats and a calf.

We have got a car and I got a lot of car driving last summer. We had a Christmas tree at our school and I was in two exercises. I like reading books. We have a large library in our school and I have read almost all the books there. We have had lovely weather so far this winter but it is turning colder now. I have three sisters and one brother all older than myself. We have three horses. Their names are Queen, Prince and Frank. I think I would sooner live on a farm than in a city. I would like if some of the other members would write to me.

PEARL CLOSS.

Dear Jean, Gladys, Evelyn and Pearl—You will see I have put all your letters in print and I should like to send you a badge as you are all such splendid little Helpers, but you all forgot to send the three-cent stamp for it. If you will send me the stamp I will send you a badge right away.

AUNT JUNE.

Box 516, Station F, Toronto, Ont.

FOR STIFF NECK AND SORE THROAT

Immediate relief comes from rubbing Nerviline over the chest and lower part of the neck. Rub in deeply-lots of rubbing helps. Nerviline reaches the congested parts at once, relieves tightness takes out the soreness. A bottle of Nerviline in the home relieves a hundred ills, internal and external. Used for nearly half a century, as a general household remedy. Large bottles 35c at all dealers.

STAR WITNESS TO STAY

REV. THOS. GREEN INVITED TO REMAIN IN DUNNVILLE CHURCH.

Rev. Thomas Green, pastor of Grace Methodist Church, Dunnville, and "star witness" for the Crown counsel in the recent investigation into the case of Magistrate Hastings, has been invited to remain another year as pastor of the church. The resolution, which was passed unanimously at a meeting of the Quarterly Board of the church mentioned the "antipathy" shown to Mr. Green as the result of his stand at the inquiry in Cayuga, and expressed united confidence in the pastor, and the belief "that he has carried out the moral obligations resting upon him with the utmost regard for truth, and without fear or favor."

THAT DRY COUGH IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the healing soothing vapor of Catarrhazone. It's action is magical, every congested spot is healed, irritation is soothed away, phlegm and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappears. Catarrhazone is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months' treatment. Prepared by the Catarrhazone Co., Montreal.

Mississippi has fifty agricultural high schools with an enrollment of 7,000 pupils. Each school has a farm ranging from 60 to 100 acres.

"Rheumatism Reuters" relieve rheumatisms.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Minard's Liniment for sale everywhere

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

Crown Brand Syrup

"The Great Sweetener"

ADVICE TO GIRLS

BY MISS ROSALIND

Registered According to the Copyright Act.

Miss Rosalind welcomes letters from young women asking for advice on any subject. All you have to do is to address your letter to

MISS ROSALIND,
34 King William St., Hamilton, Ont.

Dear Farmerette—The easiest rule to follow is "be natural." If you like a boy and really enjoy his company, tell him so. It is not necessary to gush over him; but be sincere in your friendships. Tell him you will be glad to have him call again.

Dear Black Eyes—The length of your skirt depends on your height; it must be a becoming length or it spoils your whole appearance. If a bachelor gives a dance at his house, he must have a woman relative to receive his guests or if he has no relative, some of the mothers of the girls he has invited, should also be asked to the party.

Dear Beauty—A girl can be as friendly with her cousins as any other of her boy friends. Sometimes girls and boys are invited to houseparties that last several days, at Christmas or Easter holidays or over Dominion or Thanksgiving days. Such gatherings are quite alright.

One boy and one girl are not usually asked to stay any length of time. The form "Dear" in a letter is merely a salutation and has no personal meaning whatever. It is always used. A girl should use the form and say merely "Dear Will."

Of course you should greet your acquaintances on the street. Just how and say, How do you do? A girl friend may do anything in reason to enlarge another girl's circle of friends. But remember the young people in this column are trying to encourage helpful friendships and to get away from the old "going with" idea.

Dear Ambitious—I am sure it is splendid to be able to write songs. There are firms who publish music and words; but just at this minute the only person I know who would set your words to music is Mr. Jules Brazil, 41 Gormley Avenue, Toronto. This is just a guess on my part, but you could write to him.

Dear Dapple Gray—Your idea of boy friends is not what the girls of this column are trying to cultivate. We want boy friends, lots of them, to help to inspire and to chum with. If you are not engaged wear your ring on your right hand. Sensible people are not disturbed by such trifles. Nice girls do not sit on boys' knees. It is extremely silly to say the least.

Dear Beatrice—A girl your age does not "go with" anybody—neither has she "gentleman friends." Those are backwoods expressions anyway. Go to the rink with any of your boy chums and skates with them all and have as good a time as you can. Skate as long with each boy as you both enjoy it. Go home with the boy who took you to the rink and several other jolly couples. If it is not too late, it is alright to ask your chums to come home with you for a cup of coffee. The smoking in the house depends on what your mother thinks about it.

Your girl visitor should accompany you every place you go while she is staying at your home. It would not be proper for a boy

IF a woman ease your suffering, I want you to write, and let me tell you of my simple method of home treatment, and you ten days' free trial, post-paid, and put you in touch with women in Canada who will gladly tell what my method has done for them.

If you are troubled with weak, tired, aching, back-ache, bearing down, dizziness, headache, constipation, catarrhal conditions, pain in the side, regular or irregularly, bloating, sense of falling or misplacement of internal organs, nervousness, desire to cry, palpitation, hot flashes, dark rings under the eyes, or a loss of interest in life, write to me today for free trial treatment.

Mrs. M. Summers, Box 8, Windsor, Ont.

A MESSAGE TO WOMEN!

COCK-a-doodle-doo,
My master's lost a shoe,
And like a silly baby, he's boo-hoo-ing;
Can't he see I've got it here?
He'd not need to shed a tear,
If he'd pay a little heed to what I'm doing.

Find three other city-babies. Left side down, in grass; left side down, above rooster; upper side down, on hay.

Henrietta or any one who writes nice letters.
There you are!
Now to come back to the more personal part of your letter. The preparations you speak of are more to encourage the growth of hair than to scalp and prevent dandruff. If you were in the city you could have your hair permanently waved. It is expensive, but about the only thing that will do the trick. The only alternative is to select your most becoming style of hairdressing and do your hair up in curlers every night. Have you tried that style where the hair is sleeked straight back off the forehead? If you can wear that, you don't need marcel waves, just some back-combing to make ear-puffs.

Dear Hyacinth—Girls your age can have heaps of boy friends, but no "steady."
Boy chums do not talk about loving you. They are just jolly good pals who have to make sure of a good business future first. A girl is old enough to marry at 24 or 25.
ROSALIND.

Uncle John's Joke

JENKINS WON'T LET HIS WIFE DRIVE THE CAR FOR FEAR SHE WILL SMASH THE CAR.

IF TORMENTED WITH CORNS USE GOOD OLD "PUTNAM'S"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractors. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

MURINE

ARE YOU AWARE

THAT YOU CAN RECEIVE

\$1,083.78

In Canadian or New York Funds

FOR

\$290.00

By Investing in long term bonds

GUARANTEED

BY THE

DOMINION GOVERNMENT

We have many other investment equally attractive CONSULT US.

G. A. STIMSON & CO. LIMITED.

Bond Dealers
Established 1888
36-38 KING ST. E., TORONTO.

In reference to the above offering of long term bonds, guaranteed by the Dominion of Canada, to return \$1,083.78 in Canadian or New York funds for \$290.00, we wish to say that, due to the premium obtainable on Canadian funds in England since the war, we have been able to purchase Gilt-Edge Canadian Securities (sold in England prior to the war) at much less than their face value, and can now offer them at prices to yield handsome profits.

G. T. P. 3 per cent. Bonds for \$486.00 each, maturing January 1st, 1962, issued by authority of the Canadian Government, which guarantees payment of both principal and interest.

If purchased on, say, April 1st,

Would Cost	
For principal	\$285.52
For interest	3.55
Total cost	\$289.07
Would return to investor	
Face value at maturity	\$486.00
\$2 half-yearly payments	697.78
Total return to investor	\$1,083.78

As the holder has the privilege of collecting payments in New York funds, a considerable additional profit over and above the \$1,083.78 referred to is assured.

The following attractive points in regard to these Bonds should be noted:

- The investment is safe.
 - Payment of both principal and interest is guaranteed by the Dominion Government.
 - The guarantee of the Dominion Government is engraved on each bond.
 - Principal and interest are payable in New York or Canadian funds at option of holder, who thereby makes an additional profit due to the premium on New York funds.
 - As the price of the Bonds is much below par the increase in capital will be great.
 - This is an excellent security to leave in one's estate.
- Attention is also called to the following Bonds upon which the holder may collect principal and interest in New York or Canadian funds. Although not guaranteed by the Government, these bonds are secured by a mortgage on certain lines of the Canadian National Railway System now owned and operated by the Dominion Government:
- A \$486.00 G. T. P. 4 per cent. Bond maturing April 1st, 1955, guaranteed by the Grand Trunk Railway, on April 1st would cost \$320.32 and return \$1,086.32 in New York funds to the investor.
 - A \$486.00 Canadian Atlantic 4 per cent. Bond, maturing January 1st, 1955, and guaranteed by the Grand Trunk Railway, on April 1st would cost \$295.06 and return \$1,096.92 in New York funds to the investor.
 - A \$1,000 G. N. R. 4 per cent. Bond, maturing 1954, and guaranteed by the G. N. R., on April 1st would cost \$772.50 and return \$1,520 in New York funds to the investor.
- We have many other securities equally attractive and shall be pleased to give you our advice on any investment.
- Bonds may be purchased on the partial payment plan.

Bootleggers and Whiskey Smugglers are Disgracing Canada

On April 18 Abolish Importation by voting YES

Since January 1, 1920, thousands and thousands of gallons of Whiskey, Gin, Brandy and High Wines have been shipped into Ontario.

Express shipments alone for a long period averaged four to six cars per day, and have run as high as eight!

Four car loads a day means at least 19,200 quarts daily, or over 5,000,000 quarts per year. And yet the people of Ontario voted to make prohibition the permanent law!

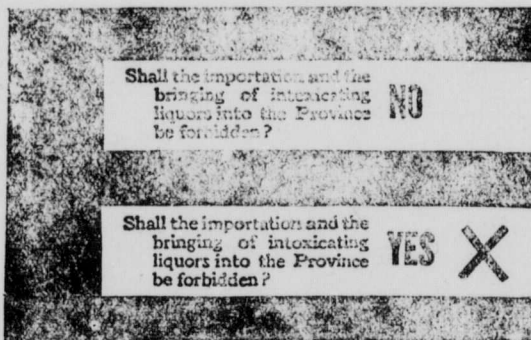

This imported "Booze" is the stuff which enables the "Bootlegger" to carry on his illegal trade, and allows "Rum Runners" and "Whiskey Smugglers" to disgrace Canada.

Officers of the law are set at defiance.

Read what the Chairman of the Board of License Commissioners says himself.

Importation Makes Law Enforcement Difficult

"After an experience in the administration of the Ontario Temperance Act covering the period from its first coming into force in September, 1916, I am in a position to state that importation is seriously hampering its effectiveness. The War Measures Act was repealed in January 1920 and the Dominion Orders-in-Council under the Act were rescinded. Heavy shipments of liquor into the province began at once. The number of cases of breach of the Ontario Temperance Act have increased in even greater proportion."—From a Statement by the Chairman of Board of License Commissioners for Ontario.

VOTE—and vote "YES"

Mark your ballot as above with an X opposite the Yes, and nothing more.

Public School Essays

I Am a Drop of Water

When I was in a cloud I moved to a mountain. I got cold and I fell to a little creek on the mountain-side. I flowed down and soon came to a river a long time after. I went around so many curves and over water falls that I thought it would be the end of me. I flowed in a smooth quiet river. Then all of a sudden I came to a dark place. My friends and I were dashed in the spokes of a great wheel. We soon came out in a broad river and there was a village beside the river. There were a number of ships there. My friends said we would be soon to the sea and we soon did. Then we had no rocky shores to dash against and we were happy ever after. One day a long time after Mr. Sun drew me up to the clouds. My friends and Mother Cloud said "You little rain drops, must go to earth."

Stock Reduction Sale at Eager's this week

THE MAELSTROM

BY FRANK FROEST,
Late Superintendent of the Criminal Investigation
Department of Scotland Yard.

"H'm!" Menzies stuck his thumbs in the arm-holes of his waistcoat. "You went and made sure it was only a half-penny afterwards, of course?" The man's eyes had hitherto not met. No they were fixed boldly on his face. "No," he declared. "I didn't think it worth while." "A man may fall to look one in the face and be perfectly honest and truthful. But when such a man does do so it is because he has become conscious that an averted gaze may arouse suspicion. Menzies smiled under his mustache and stretched out a hand. "Where is it?" he added quietly. "Give it to me."

The lift attendant flushed and drew back. The directness of the demand had disconcerted him. "I don't know what you mean," he said. "I haven't got anything."

"That so?" said Menzies smiling. And then, with a swift change of voice: "Now, sonny, don't let's have any monkey business. You can't play with me."

Reluctantly, as though hypnotized, the attendant thrust two fingers into his waistcoat pocket, slowly drew something out and placed it in the detective's hand.

It was a plain, heavy circle of gold—a wedding ring!

CHAPTER IX.

News and a Note.

Jimmie Hallett had run into Weir Menzies in the police court corridor after the magistrate had formally remanded "William Smith." The detective threw up his hands quickly in the attitude of one parrying a blow. "Don't hit me, Mr. Hallett," he implored. "I've got a weak heart."

Jimmie grinned a little shamefacedly. He had not been quite sure how the detective chief would take the assault on the shoulders of Miss Greye-Stratton. He brazened it out. "Well, what are you going to do about it?" he demanded.

Menzies caught him through the arm and pulled him into a small room set apart for consultations between lawyer and client. "I suppose you know that men have got six months for less than you did this afternoon. You can't knock police officers about with impunity, you know."

"There was an underlying current of seriousness in his jocular tone which Jimmie could not fail to perceive. He ran his hand through his hair.

"I'll see you," he said, adopting the language of the poker table. "What are you driving at?"

"This." The detective laid a thick forefinger on the palm of his left hand. "You're got sense, Mr. Hallett, and you've had experience. Now, I've gone into your credentials, and I believe you're straight. But I'm not going to stand for any funny business. I'm investigating a case of murder, and any one that stands in the way is liable to get hurt. Now, don't interrupt. Let me finish. I don't know whether you were putting up a grand-stand play after lunch to win the girl's confidence or if she talked you over."

He paused inquiringly. Hallett pressed his lips together firmly. "Go on," he said.

"Right. You were batted into this at the start and I've tried to treat you fairly. Don't you forget murder's a

dirty thing, however you look at it. I don't say Miss Greye-Stratton's not straight, but she knows a deuce of a sight more than she ought to—or than she's telling us. She's got something up her sleeve. She's no fool for all her pretty face. She seems to have taken a fancy to you. Do you know why?"

The other shook his head, although he had a very good idea what Menzies was going to say. His face was impassive.

"For the same reason that the man we've got below tried to get you this morning. You're an important witness. She wants to shut your mouth and to find out how much you really do know."

Jimmie laughed outright. "You're wrong there. She's not asked me a single question. All the talking was on her side."

Then he realized that he had fallen into a trap. Not that Menzies gave any obvious indication of triumph. He merely stroked his mustache serenely. "Well, I don't know that I'm far wrong. She wouldn't be too quick. So she talked, did she? What did she say?"

The young man was not to be caught off guard a second time. "It will all be stale to you. She repeated what she said she had already told you."

"All the same, there may be something new," persisted the detective. "Let's have it."

"If you like to let me have a look at her statement I'll tell you if there's anything fresh I can add," parried Jimmie.

Menzies raised his eye-rows. "I think I see," he said. "I'd consider this a lot if I were you. Why man, can't you see she's playing with you? Confidence for confidence is an old trick. She has known you a matter of hours, and here she is pitching a tale to you as though you were an intimate friend. I trust you—you trust me! That's what it comes to. Now, why not play our game instead of hers? If she's innocent you won't hurt her, but if she's got her pretty fingers in the tar—"

Hallett became conscious of a smoldering rage at the innuendo of the comfortable, ruddy-faced detective. He did not realize that he was being deliberately provoked for a purpose. Menzies wanted to discover, without doubt, his attitude to the girl.

"Cut it out," he advised curtly. And then more quietly: "I think you entirely misjudge the lady. If I've only known her for a few hours I guess I'm a better judge of her type than you."

"Bearing a bit hot, eh?" smiled Menzies. "It's no good getting angry with me. I'm clumsy, but I mean well. I hate to see a man stepping into trouble. And you'll find trouble on your hands pretty soon, believe me. If I were you I think I'd carry a life-preserver, or advertise that you didn't see the man who killed Greye-Stratton."

Hallett had taken a quick turn or two about the room, his hands thrust deep in his trouser pockets. He came to a sudden halt. "What do you mean by that?"

Weir Menzies had a well-worn briar pipe in one hand and a tobacco-pouch in the other. He methodically filled the pipe before answering. "Only

from what I have gathered the lady's in with a tough mob. I'll know more about 'em by tomorrow, but I don't want you laid out before I've picked up all the ends. I've warned you. You must do as you like. Only don't go believing she's a little blue-eyed saint, that's all."

Jimmie's temper held in till now, continued to rise. Whether it was the implication that he was being made Miss Greye-Stratton's antagonist, or whether it was the suggestion that the radiant girl was the willing accomplice of a gang of criminals, he did not stop to analyze.

"We was wroth with Menzies because he did not know by intuition what was plain to him—that if she was acting a part it was for the sake of some one else. He regretted now that he was bound not to divulge anything she had told him."

"I guess you're a fool, Menzies," he sneered. "You're barking up the wrong tree."

Menzies took the handle of the door. "You think so, do you? Well, we'll let it go at that." He swung open the door. "I suppose the lady told you she was married?"

He spoke casually, as though by an afterthought, but he was quick to observe the change that passed over Jimmie's face.

"That's a lie," he blurted out. "You've got something at the back of your head."

The detective swung the door to again and took something from his pocket. "Look at that," he said, and smoothed a sheet of paper before Hallett's eyes.

Jimmie read it over twice, unable at first to completely grasp its significance. It was an attested copy of a marriage certificate between Peggy Greye-Stratton and Stewart Reader Ling.

"She didn't tell you about this," went on the detective levelly. "That may alter your idea that she intends to play straight with you."

Jimmie was struggling with a tangle of thoughts. "Who is Ling?" he demanded.

(To be continued.)

THE MAN WHO WORKS HARD SHOULD FOLLOW THIS ADVICE

Persistence and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from bilious fits. The occasional use of Dr. Hamilton's Pills keeps a man feeling fit and fine, keeps him always at his best. Headaches, indigestion, poor color are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine for men is better than Dr. Hamilton's Pills, 35c all dealers or The Catarrhzone Co., Montreal.

HOW FOREST FIRES START.

The record of forest fires in the United States shows that 25,000 timber conflagrations are started each year by human carelessness. Canada's record is estimated at about five to eight-thousand annual forest fires and nine-tenths are due to the following human causes:

Throwing away lighted tobacco and matches while in the woods.

Leaving camp fires unextinguished. (Every such fire should have at least two gallons of water with every ember thoroughly stamped out.)

Clearing land in newly-settled districts by uncontrolled burning.

Carelessness by locomotive drivers. From what appeared like innocent causes many of Canada's worst forest conflagrations have taken their start. Last summer several thriving communities of New Brunswick were destroyed (with no insurance) because a few settlers took no precautions while burning off their lands. When prosecuted in court, the settlers confessed that they "did not know a little fire could get out of hand so quickly."

RAILWAYS WILL NOT ADOPT DAYLIGHT SAVING THIS YEAR

"Daylight saving time has not been adopted and will not be adopted by the railways of Canada this year, so far as is known at present. A special Federal enactment would be necessary before railways could make this change in time, and such an enactment has not been asked for." This statement was issued by the Railway Association of Canada to clear up a misunderstanding which arose out of an appeal issued by the railways to various municipalities, asking them if they did adopt daylight saving time to make it effective all at one time. The railways suggested that this should be May 1, and October 2, as these are the dates on which the railways make their usual Spring and Autumn time table changes.

No surgical operation is necessary in removing corns in Holloway's Corn Remover be used.

The average yield of wheat per acre in Alberta during the past ten years has been: Spring wheat, 20.54 bushels; winter wheat, 22.61 bushels.

YOUR CHILD

A Department For Farm Mothers.

As a result of many requests from our readers, we have decided to publish each week a department devoted to the better care of children. Articles will be published from time to time many of which have been taken from "The Canadian's Mother's Book" which is published by the division of child welfare of the Dominion of Canada, Department of Health.

If any of our readers wish to secure some particular information, they may do so by writing to Canadian Mother, 31 King William Street, Hamilton.

If the information is of a private nature enclose self-addressed envelope for a personal reply.

Be Glad.

Because you have the promise of a child. The angel of the Lord is coming to your door. God and man will help you with your burdens and share your joy. Through you and your child, the stream of human life will flow on to eternity. New duties, new interests and new pleasures will fill your days.

"We must purify, glorify and dignify motherhood by every means in our power."

Be Brave.

This is not some strange thing which is going to happen to you. It is the right, natural and healthy thing for you, just as it was for your own mother when you were born. Too sacred to be spoken, the dearest wish of the best woman is to be a mother.

Be Cheerful.

Go on with all your regular work and interests, but moderately, and plan so that you will be free from any strain, extra work, or other responsibility for several months before the date of the birth. Do you keep a diary? It is quite a good idea to keep a very private diary at this time. Do not give up anything that does you good, or gives you pleasure.

FERTILIZING ORCHARDS, VINEYARDS, AND SMALL FRUITS

In fertilizing vineyards, orchards or small fruits, best results are obtained by applying the fertilizer away from the trees, vines and shrubs, so that it may be immediately helpful to the feeding roots. In trees these active roots are found at a distance from the tree about as far as the tree's branches stretch.

Fertilizers should be applied to vines and cane fruits about a foot from the vines and canes. The best time to apply the fertilizer is early in spring when growth and cultivation start. At this time the added plantfood is most helpful to the crop. The fertilizer should be thoroughly worked into the soil. The quantity

After Long Suffering Mrs. Peasey Restored to Health by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains, so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not get to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them as you please."—Mrs. J. F. PEASEY, 387 King St., Toronto, Ontario.

If you are one of these women or suffer for four or five years as Mrs. Peasey did, but profit by her experience and be restored to health.

Cuticura Soap Shampoos Best For Children

If you wish them to have thick, healthy hair through life shampoo regularly with Cuticura Soap and hot water. Before shampooing touch spots of dandruff and itching, if any, with Cuticura Ointment. A clean, healthy scalp usually means good hair.

50c 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Leason, Limited, 245 St. Paul St., Montreal.

50c Cuticura Soap shaves without soap.

and analysis of fertilizer to use is as follows:

For grapes, use fertilizers analyzing about 3 to 5 per cent. ammonia, 6 to 8 per cent. phosphoric acid, and 1 to 4 per cent. potash. Good results have been obtained by applying 400 to 800 pounds per acre of such fertilizer.

For orchards, fertilizer analyzing 3 to 6 per cent. ammonia, 8 to 10 per cent. phosphoric acid and 3 to 5 per cent. potash applied at the rate of about 10 to 15 pounds per tree have given profitable results.

Cane fruits and strawberries as well as orchards benefit greatly from an application early in the season of bonemeal or fertilizer analyzing 3 to 4 per cent. ammonia and 8 to 10 per cent. phosphoric acid.—Henry G. Bell, B. S. A.

BABY'S HEALTH IN THE SPRING

The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HAS MARRIED 2,161 COUPLES

Canon Dixon's Record—Rev. J. D. Morrow Last Year Alone Tied the Knot for 345 Couples—Fees Are Not Magnificent.

Toronto clergymen agree that an average of one wedding per week is good business, but a few overstep this average, as a glance through the city's registration book for 1920, and the 7,786 weddings entered therein, proves:

Out on the American border, at Sault Ste. Marie, Michigan, there is a Methodist minister, Rev. T. R. Basterday, 84 years old, who, in his 57 year in the ministry, has tied three thousand and six nuptial knots. Mrs. 67 years in the ministry has tied three thousandth bride, and Dr. Basterday gave her a set of silver spoons, each marked "3,000," and also a white prayer book.

Some Toronto ministers said it was, of course, only a "border" record, with the advantage of catching an elopement "trade." However, Rev. J. D. Morrow, of Toronto, topped the local list of marrying minister with 245 couples in 1920. Canon H. C. Dixon came second with 241, and Rev. Logan Goggin had 126. The Methodist ministers had 1,421 weddings among them, but they divided them pretty well, and Rev. G. Norris Gray at Carlton street church scored the highest number, with 82 couples.

Married 2,161 in 14 Years.

Few of the ministers kept any record through their ministry.

Canon Dixon has married 2,161 couples during the last 14 years, Dr. Isaac Towell, in the Methodist ranks, counts up over one thousand in his 47 years in the ministry. He had married the parents and the grand-

Over 50 Years Ago

A young man who practiced medicine in a rural district became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. He finally made up his mind to place some of his treatments before the entire people and, moving to Buffalo, N. Y., he put up what he called his Favorite Prescription, and placed it with the druggists in every state in the Union and in Canada.

That was over fifty-five years ago. For fifty-one years this Favorite Prescription of Dr. Pierce's has sold more largely throughout the land than any other medicine of like character. It's the

testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to.

For over fifty years some of Dr. Pierce's home medicines have been selling over the drug counters, so that more than fifty million bottles have been sold during that time. This speaks well for the reliability and value of Dr. Pierce's standard home remedies. Dr. Pierce's Golden Medical Discovery is a blood tonic and strength-builder, which contains no alcohol, yet has tonic qualities that have endeared it to the American public. Dr. Pierce's Pleasant Pellets, composed of May-apple, Aloin and jalap, have long been considered a reliable vegetable laxative, in the same way that Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womankind. More recently that wonderful discovery of Dr. Pierce's—namely, Anuric (anti-uric acid), has been successfully used by many thousands of people who write Dr. Pierce in unqualified terms of the benefits received—that their backache and other symptoms of kidney trouble have been completely conquered by the use of Anuric.

Are You Building this Spring

If so—get our prices for your cement foundation, floors, walks, septic tanks, etc.

Also the plastering of your new house or repairs to your old one.

PAN-AMERICANISM.

Chief Apostle Wants Co-operation of Canada.

John Barrett, the unique, the irreplaceable, the lovable, finally has retired from the directorship of the Pan-American Union after 25 years devoted to the public service, 14 of them spent in the upbuilding of the Pan-American Union. He is succeeded by the capable Dr. L. S. Rowe, a former assistant secretary of the Treasury, later in charge of Latin American affairs for many years. Mr. Barrett resigned for the reason, which he frankly states, that if he remained much longer at his present post he would find himself "in danger of going eventually from the beautiful Pan-American Union, which he loves with the affection of a parent for its favorite child, to the lowly poorhouse." Mr. Barrett says that after spending a month with his aged mother at the family homestead in Grafton, Vt., and a brief trip to Panama to assist in the inauguration there of the new Pan-American College of Commerce, he will establish connections in large American and possibly some Latin American cities as a general counsellor and adviser in Pan-American and other international affairs, based on his long official experience.

An entirely separate and civil project of international character, however, to which he will contribute his spare time and which will most appeal to public interest, will be the carrying to early completion of the organization, already initiated by him, of a great popular and practical "League of American Nations and Peoples," which will probably be known either as the "League of the Americas," or the "Pan-American League." Its purpose will be to organize effectively for Pan-American progress, prosperity and peace that large and rapidly growing number of men and women in North, Central and South America who realize the immense possibilities for the good of the Americas which will result from their economic, social and intellectual co-operation, free from political, governmental or official control. This league will in no sense be a special agency of the United States for advantage over the other American countries or antagonistic to Europe or Asia. Mr. Barrett says, but a natural and logical co-operative effort of Western Hemisphere peoples, from Canada to Chile, for Western Hemisphere good.

A new and important feature will be the active participation of Canadians, who heretofore have been treated to a degree as outside of the Pan-American family. It will not rival in any way or clash with the work and prerogatives of the Pan-American Union, as a great international office which is strictly official and hence limited in its popular activities. It will co-operate with and enlarge upon the work of the powerful Pan-American Society of United States, whose headquarters are in New York city and of which Mr. Barrett had the honor to be the founder several years ago.

Indians Died from "Flu"

Five thousand Indians succumbed to the epidemic of the "flu" during the fall and winter of 1918 is the statement of the deputy superintendent general of Indian affairs.
