MR. PARKIN'S ARRIVAL.

Interviewed at Montreal on Imperial Matters.

[Montreal Herald.] A tall, spare man of a distinctly scholarly type of countenance was among the curiouslymixed crowd which thronged the Windsor rotunda the other evening. He was dressed in the plain gray and black of the gentleman, and he wore a very English top hat, slightly on the back of his head. He looked like an English professional man-in one respect at least -and that is exactly what he was. Geo. R. Parkin was the gentleman in question, and the name will be so well known to Montreal readers that any further introduction would seem to be unnecessary. A writer of world-wide fame, Mr. Parkin has perhaps discovered that a prophet cannot be without honor, save in his own country. At least, it may be acknowledged that there are many in Canada who have looked upon him as being in some

Jerome B. Chaffee, at one time United States Senator from Colorado, with two or three others who used to play with Cook a good deal, concocted a little scheme by which they figured they could have a gread deal of fun at Cook's expense and at the same time get a champagne supper out of him. So Chaffee and his anions, who had plenty of money, and who had suffered financially by being caught in a good many jackpots that Cook had opened, arranged among themselves that the very next time they played with Cook they would show him a trick he

would not forget in a hurry. The scheme was to open a pot, and if Cook stayed, to deal him enough cards to make six in all, and if he staved on a pair he was to get four aces; then when the pot had reached a goodly size to call him, make him show his six cards, have the set up the champagne. ELECTION TALK.

Dr. Stockton and his opposition friends a general local election may be sprung upon them in the next few months, and his organs are taking various methods to Government. One feeble little paper advocates drawing Liberal and Conservative lines with the hope that the Government might meet with disaster, and we observe the Sun follows on similar lines. The Sun's flattery of Dr. Lewis of Albert, is so glaringly transparent that the shrewd doctor must have had a hearty laugh at our contemporary. It is not many moons since the Sun had quite different treatment for the senior member for Albert. The Sun also expresses some confidence in the probable result in Westmorland, but anybody familiar with that county must be fully aware that Dr. Stockton's supporters have no chance whatever in that constituency. THE HERALD is informed that in St. John the Government cause has been greatly strengthened in the past three years, and that Dr. Stockton and his colleagues in the city will have to fight the battle of their lives in the next election. The Sun need not reckon on Carleton. Half a dozen candidates are named in the Government interest and no opposition man is yet in sight. The strength of the opposition in that

county died with Dr. Atkinson. Some interesting stories are afloat re garding opposition plans in York county. It is known that the wire pullers are anxious to get rid of nearly all the present representatives. They are tired and sick of Mr. Pitts, who has proved himself that will win this county back to the allesimply useless as a member of the House, giance from which it temporarily strayed and was only sent there in the first place in the last contest. York county is not as a freak,—they do not want Pinder and going to be represented in the next Asor Mr. Howe who has not startled the world with his legislative talent. Neither do they take kindly to Mr. W. K. Allen, who has not shown himself willing to be entirely moulded to suit opposition fancies. The wire pullers want an entirely new combination-like the Indian's gun, the old one is useless lock, stock and barrel. They are aware shall again be made the laughing stock of the lookout for new men.

THE YACHT RACE.

The great Anglo-American yacht race upon which has been centered the eyes of the English speaking world, ended Thursday in a most inglorious fizzle. The Valkyrie, Lord Dunraven's boat, and the Defender, owned by a syndicate of wealthy Americans, were the contestants for the international cup, and sailed the first race Saturday, the Yankee jacket winning by over eight minutes in a very fluky wind. The second race came off Tuesday, and in the preparatory skirmish just before crossing the line, the yachts collided, doing some slight damage to the Defender, which, course, and was beaten forty-seven seconds. The Defender protested, and made Thursday, and when at the starting line the Valkyrie seeing it was crowded was the course with excursion most unsatisfactory to the sport loving its possession, under the circumstances by which it was awarded.

THE DOMINION government do not show such promptness in calling on the byeelection in West Huron, Ont., as they displayed in the case of Westmorland. The date of the contest in the latter county was gazetted on the same day that Senator Wood's appointment was announced. West Huron has been vacant for some Manitoba, and his majority over M. C. Cameron, Liberal, was only sixteen. Perhaps this fact has something to do with | Wilson spoke shortly, and the meeting the government's delay in issuing the writ. Perhaps they are not anxious to of thanks to the chairman. The meeting was an undoubted success, and the entest the feeling of an Ontario constithusiasm displayed by the voters present, tuency where the Liberals have equal goes to show that the Liberal cause is by the town at large. The act will go count, not that it was not exact as to the strong, and strengthening daily. fighting chances with the Tories.

OPEN TO WOMEN.

An announcement from Washington, is of interest to women, especially those who claim communion with the Roman Catholic church. The great Catholic university of that city, richly endowed and with a splendid faculty, which has hitherto been devoted solely to the education of priests, has thrown open its doors to women. This is a radical departure from the ancient traditions of the Catholic church, and must have an important bearing on the educational future of its ad

MAYOR AND MRS. VANWART.

Entertain their Friends Handsomely at their Beautiful Residence Thursday Evening.

The List of Guests and some of the Dresses Worn.

One of the most successful social events ever seen in Fredericton, was the At Home given by His Worship the Mayor and Mrs. Van-Wart at their hospitable home on Church street, Thursday evening. The invitations included one hundred ladies and gentlemen and everybody present enjoyed the kindness and geniality of the worthy host and hostess. The Mayor's residence is well adapted for social entertainments, and decorated and illuminated as it was on Thursday evening, it presented a most attractive appearance The front parlors and the spacious hallway onnecting them, were thrown open for dancing, and the program was started at 9 o'clock, and continued until nearly 3 a.m., the sixteen dances on the regular list being supplemented by numerous extras. An chestra led by Miss Perkins on the piano, furnished excellent music, and there was a snap and go from start to finish. During the evening light refreshments were served, and numerous cozy sitting-out retreats were freely patronized by the fair maidens and gallants

A superb supper was served at midnight, and the tables looked most attractive : a beautiful flowering lily was the centre piece, graceful trimmings of smilax added to the effect, and throughout the house potted plants and cut flowers furnished further adornment. The ladies present included the fairest of Fredericton's society circles and many of the costumes were very pretty. mong so many pretty girls, so many graceful dancers, carried off the palm as the belle of the ball," but it may be hinted that "local talent" was bracketed for first place with a fair visitor from an upper

The excitement worked up regarding the

tower is largely without reason, and may be traced to a few irresponsible and hotheaded persons who do not stop to enquire into the real facts of the matter. It apcommenced in 1882, from plans by archison. In all of the years of his service there | tect J. C. Dumaresq, then of St. John, but prepared Mr. Dumaresq was informed by to save the architect's fees for supervision absence of General Superintendent Duna- of work, and so the work of building proceeded without that superintendence Within a few months after the completion of the building some defects were noticed in the stone masonry, but little or no ator so after, when the trustees finding the defect becoming more apparent, wrote architect Dumaresq asking his terms for visiting and inspecting the building in connection with the defect. He replied, stating his terms, but instead of sending for him the trustees got two engineers to make an examination of the work. THE HERALD saw Mr. Dumaresq this morning and put the straight question to him, "Do you consider the tower in a condition danger ous to the public?" and his answer was "No, I have no doubt it would stand for years, and an altogether unnecessary scare has been worked up over it." Mr. Dumaresq expects a competent builder tonight from Dorchester, and the work of repairs will be commenced at once under the architect's supervision, the trustees having given him full responsibility in the matter as to the employment of men and materials. WHIP-POOR-WILL.

When the darkness softly settles O'er the weary, waiting land: When, milking done, the cattle In the broad, green farmyard stand; When I'm waiting in the doorway For my bonnie farmer lad, From the wood a voice is calling With a note both sweet and sad:

Whip-poor-will! Whip-poor-will,

Pierces through the twilight still.

And the sound brings up a vision Of a farmhouse quaint and old, With the forest close about it Where my childish days were told. On the broad old door stone sitting, While I gazed on starry skies, Dreaming that my careless fancies Solved their awful mysteries, Calling of the whip-poor-will All the soft air seemed to fill

Years have flown since childhood's musings On the broad old stone were done. Now the house a heap of ruins Lies beneath the summer sun. All the dear ones who so fondly Guarded all my early years, Now are passed beyond earth's sorrow To the land that knows no tears.

When I hear the whip-poor-will. Though the days are passing happy They are never quite complete, For the charm of perfect joyance Vanishes with childhood fleet. Howe'er fortunate the mortal, Ne'er a thornless rose he wins. Once tempation's shining portal

Lures his entrance and he sins.

Whip-poor-will! Whip-poor-will! Echoes softly from the hill.

But my eyes with hot tears fill

possible, please." "This young man, George Heriot," commenced Mr. Drage, "was not even present at the time of Sir Geoffry's death. Mrs. Pickering, who had been strolling in the grounds to get some air, heard Sir Geoffry call out in an unusually high tone of voice, and came as quickly as possible to the window. There she found

him struggling with a man whose back was towards her. She saw the old man beaten with heavy blows; she saw him fall lifeless under his assailant's grip, but she was powerless to move or even to call out. Then the man faced round, but seeing her at the window, staggered "Did he recognize her?" asked Mr.

Moss. "He did, and she him; the recognition was mutual. He recovered himself in an instant and dashed through the window, flinging her, who strove to stop him,

heavily to the ground." "I see," murmured Mr. Moss, screwing up his eyes and looking into the fire, "this young Heriot must have come up just afterwards. He had been hiding about in the neighborhood all day, waiting to see his father; knew where to find him alone about that that time, and was coming to make his last appeal. That hooks on all right. Now," he continued, looking up at the rector, "you would have told me all this before, of course, if Mrs. Pickering had not some motive for wishing the real ruffian to remain unknown. I am a man of the world, sir, and obliged to speak plainly when we come to such close quarters. Was he her

Mr. Moss. "Now your dislike to enter into family particulars is quite intelligible; but as I shall have to know this man's name, you may as well me it at once. What is it?"

"His name is Vane," said the Rector, " Philip Vane." Mr. Moss started. "Not Philip Vane who is connected with the Terra del

DEVOTED TO Farm Crops and Processes, Horticulture & Fruit Growing.

While it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its Market Reports are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—When to Buy and When to Sell. It is liberally Illustrated and by Recent i nlargement, contains more reading mater than ever before. The subscription price is \$2.50 per year, but we offer a Special Reduction in our

Facts! Facts! topics of the day and season. IT is false economy to refuse a good article and accept a poor one because of the low price. All goods cost money to produce. The better the good the greater the cost. There are certain prices below which no good, henest materials can be tought. If you pay less, you get loss, no use dodging the fact. We always buy the best and sell the best, we don't believe in shoddy. We have just received one carload of STOVES and we consider them THE BEST in the market of their kind, and we invite the public to look them over if they are in want. Daily Evening Transcript-

Published Friday's Farm for Sale.

> THE subscriber's Farm at St. Mary's, near the Railway Station, containing 500 acres, 100 of Railway Station, containing 500 acres, 100 which are under cultivation.
> There are two houses, barns and outbuildings the premises, all in good repair.

Coffee Pots. WE have just received a lot of Coffee Pots, and after testing one ourselves in our own family, we are safe in recommending it and also in saying that there is no better way in the world of making coffee then by steaming it. By this process you secure all that is delicious and beneficial, and reject the rank, injuri us part. You cau't spoil your coffee; no eggs are needed to settle it; the coffee cannot boil; all the fine aroma is retained.
