CHAPTER XXX.

Would she see him and speak to him again? If not, she thought to herself, this was certainly the happiest hour she had had in her life. How well be seemed to comprehend her! The Genoa Conference has made it lear that leading European diplonatists do not realize that the labor evolution in Russia is the beginning of a new historical epoch, and not a temporary change from one form of property to another. War Minister Trotsky said to-day that the collapse of the Conference would retard Sovlet economic work, but the ruin of the nomics of Europe would proceed the greatest catastrophe in the world, which will begin with finance, Trotsky said. DUBLIN, May 5. Eammon De Valera in a speech here last evening disavowed any desire to hamper the peace agreement. He said nobody was more anxious for peace than he. SETTLING DOWN.

GENOA. May 5 The Genoa Conference, to-day, exected to conclude its deliberations on Financial Economic and Transport Questions. This will leave only political problems to settle, and very stubborn problems they are. The Russian question and the proposed nonaggression pact are taxing even the ingenuity of Lloyd George, but there was great optimism to-day over a probable solution to both questions. Patience is being counselled by all the leading delegates, and the Conference apparently is facing the hard

pull of at least three weeks. DEATH AND DESTRUCTION.

AUSTIN, TEXAS, May 5. Nine dead, 38 injured, two probably fatally, and propebty damaged esti-mated at \$400,000 was the toll of death and destruction in the wake of a ornado, which late yesterday, swept through the West Side and on out of the city, to Oak Hill, eight miles southwest, according to a check of the situation last night.

T. JOHN'S SHOULD OWN ONE.

A Community Theatre in which plays would be performed by either a resident stock company, or amateurs, would be a great benefit to St. John's, said Mr. J. Mr. Anderson says that many towns in Canada and the States have similar theatres, in which citizens own the stock, and in every case they are a great success.

F. W. Knight wrote in reference to the dump on the Southside Road stating several proporties in that locality had been decreased in value owing to its close proximity. This matter has already been the subject of discussion by the Council, and is receiving atten tion. The Council, for some time past has not used the property for dumping purposes, and any such dumping is the work of private individuals. It was, therefore, ordered that notices be plac ed along this thoroughfare and also in the daily papers, warning parties against depositing rubbish or refuse of any kind on said property.

The following plans were submitted:-M. Driscoll, to erect building. Golf Avenue; J. W. Cooke, to extend dwelling, Murray Street.

Permission was refused Mr. Driscoll, as water and sewerage are not available in that locality, Mr. Cooke's plan. however, was passed, subject to the Engineer's approval and on condition

water and sewerage are installed. The weekly accounts were ordered paid. The City Engineer's report was tabled, and it was decided that this and other unfinished business, be deferred, and that the meeting adjourn until Saturday at 12 o'clock noon.

Salvage Notes.

During the past week much talk has been expended on the subject of Pit-Props. The majority of cutters were at Newman's Sound and other places of work raising their winter's cut when the news came through that "Rinding before May or June was useless." Of course supplies were curtailed somewhat and a very serious situation for suppliers has apparently arisen. One could almost question the legality of certain aspects of the whole question. We are assured by men of experience that it is practically impossible for men to do with drawknives what is generally done with a barker, viz: fit food for the grinder. Granting that such is possible, what time would a man require to rind twenty cords? At present parties are merely sawing the wood up into the required lengths.

The light on Little Denier Island, which has been unlit for the last two months—as per regulations—was relit yesterday by Mr. Robt. Dyke,

The motor schooner "F.P.U.," Capt. Wm. Rideout, arrived here Monday, April 24th, the first boat since navigation was opened. The boat brought a small quantity of provisions for the local Union Store and then went to Sandy Cove with provisions, after which she intended going to Newman's Sound for wharf piles

Mr. John Moss and crew were up to Traytown this week in trap boat for a load of provisions. Relative to above we might add that Mr. John Moss has moved his business store to a somewhat safer locality.

We are hourly expecting the arrival of the S.S. Watchful, our first steamship for the season. Mr. Isaac Squires, who was to the ice with Capt. Geo. Barbour, is to arrive by her.

We are glad to hear that Mr. Noel, C. of E. Teacher at Flat Islands, who went to hospital a few weeks ago for an operation, is doing well and is expected to get back to resume his duties on or about May 10th.

We understand that Mr. Jas. Moss. Bishop's Harbor, will not prosecute the Labrador fishery this year, unless conditions for supplying become a little easier than they are at present. CORRESPONDENT. April 26, 1922.

Nothing that could be done to show respect for the dead was neglected. The coffin of ebony, chastely silver mounted, was brought from North Sydney, by her son-in-law Dr. R. J. McDonald, who did everything a son could do to ease the last hours of a respected mother. The funeral was largely attended, many friends coming from distant places to be present The funeral services were performed by the Rector of St. Stephen's, the Rev. E. A. Butler, and the body was faid in the cemetery at Sandy Point, among the graves of her friends and kindred and under the shadow of the church spire. The deceased leaves to mourn, a husband at St. George's, and four daughters:-Mrs. McCabe. of Detroit Mich., Mrs. J. Hann of Halifax N. S., Mrs. Capt. It's Flavor that Makes the Meal!

And the sauces that the Libby chefs have adapted for you give. flavor to the simplest dishes.

It may be eggs, or macaroni, or a cheap cut of meat—an unusual and delicious sauce will make it something you eat with delight and remember with pleasure—because of its flavor.

LIBBY'S CATCHUP and CHILI SAUCE are made from red, ripe tomatoes, grown in the fertile soil of Kent County, Ontario, picked when they are mellowed by the sunshine of long summer days, then rushed to the nearby Libby kitchen.

Here in sunny rooms the tomatoes are cooked with fragrant spices, onions, sugar and the best vinegar—cooked for hours until all the flavors are blended through and through.

Now the sauce is ready to give an appetizing relish to your steaks and chops, or a new piquancy to the meat gravy you serve with your roasts.

Your grocer has, or can get you, Libby's Catchup or Chili Sauce. Use it with your cold meat teas and note how quickly the second helping is necessary.

The delightful flavor of Libby's Beans is due largely to the wonderful Sauce prepared by the skilled chefs. Have you tried them?

During the past few days represe tives of the Rotary Club have visite Bishop Feild College, St. Bon's College, St. Patrick's and Holy Cross Schools, and Methodist College, delivering instructive addresses to the boys. Rotarian Bertie C. Gardner who spoke on the "Value of Thrift" in a very clear and pleasing address, pointed out to the boys the value of thrift as opposed to wastefulness. He instanced many cases in which waste could be avoided, and the habit of thrift acquired, and the boy who made the most of his time, his property and other resources would reap untold benefits in the years to come, and has a distinct advantage over the boy who was inclined to be careless, wasteful and destructive. N the recent Advertising Contest the question was asked, "For what is Dr. Chase's Nerve Food most frequently used?"

And the answer in the great majority of cases was: "I have found on inquiry among my friends that Dr. Chase's Nerve Food is most used by women who have their own housework to do and small children to look after.

"When tired and wornout by the continuous monotony of household duties and the care of small children the nerves in time play out and then it is that Dr. Chase's Nerve Food proves the good friend in time of need.'

TOKIO. (Associated Press.)-One of the most beautiful sights of the Far East, a trip through the Inland ea, is reserved for Edward, Prince of Wales, when he leaves here for Kobe to continue his tour of the em-pire as guest of the Japanese Government. The Inland Sea ,so called ecause it lies almost enclosed between Hondo, the main island of the Japanese Empire, and the southerly Islands of Kyushu and Shikoku, is 240 miles long from east to west, and varies in breadth from eight to 40 niles. It is interspersed with numberless islets of various shapes and dented, Passengers journeying to and from Kobe by steamer are filled with wonder over the fascinating views which present themselves in ever changing variety. One of the three beautiful scenes in Japan is the sacred Island of Miyajima, thickly wooded with pine, cypress, cherry and maple trees.

THE SACRED SPOT OF JAPAN. According to tradition, Miyajima has been a sacred spot for more than 18 centuries. Until the restoration in 1868, births and deaths were forbidden on the island. Sacred deer still wander about, tame enough to feed Kings, near the top of Mount Mizen, ond-class at 11 p.m. The new rule Shrine, the principal shrine of the isand, founded in 1614, is built on the each, with a mountain rising straight up behind it. Upon His Honor as Minister of the Gospel REV. W. A. THOMPSON WRITES OF DR. F. G. KINSMAN'S HEART TABLETS.

I had heart trouble severely for fifteen years and had many doctors to treat me with no discernible effect. I had become so low that I could scarcely walk fifty steps. At night I was troubled with fluttering of the heart, and by no means had a night's rest for that length of time. I had pains most excruciating and could not lie on my left side even for a moment. I tried five boxes of your Heart Tablets and can now truthfully say that I am well. I am a Minister of the Gospel and upon my word as such, I believe I could not have lived had it not been for your remedy I am not generally speaking, willing to give testimonremedy. I am not, generally speaking, willing to give testimonials, but I fully owe this or more to you as owner of the Hear SOLD AT ALL DRUG STORES.

This is a new one which we are informed, is a good purchase just now.

It has had a checkered history from a High of \$164 three years ago to \$68 in 1920, and from \$152 then to \$22 last year. It is now around \$52 and soon expected to resume dividends which were suspended in February, 1921.

This issue might very easily register a ten-point advance.

We trade on margin at \$10 per Share.
