TIMBER LIMITS SALE.

Persons in the market for timber limits
will be given an opportunity of purchasing
valuable berths on Tuesday, April 18th,
when Mr. Peter Ryan will offer for sale by
public auction virgin limits in the township
of Ermatinger, on the north shore of Lake
Huron. These comprise four lots of nine
square miles each, being one of the best
properties in the province. The sale will
take place at the Board of Trade rooms,
Toronto, at 2 p.m. on the date named, and
should bring together a large gathering
of lumbermen. The advertisement of the
sale appears in another column.

CURRENT TRADE CONDITIONS.

ONTARIO.

The severe weather has not been con-
ducive to a heavy demand for lumber,
and such buying of small lots as has tak-
en place has been chiefly for filling up
purposes. Retail dealers are apparently
keeping out of the market until they are
better able to estimate the volume of the
year's building operations. The fact is
generally admitted, however, that both re-
tailers and consumers are carrying light
stocks, and that sooner or later they
must add materially to their stocks. From a
wholesale standpoint the volume of
business is quite encouraging. Sales
are being made freely for shipment by
vessel upon the opening of navigation.
One transaction reported involves ten
million feet of lumber, but, while gener-
ally credited, the details have not been
learned. Logging conditions in
the pine districts are most favorable, and
the outlook is that nearly all operators
will succeed in getting out their contem-
plated cut. The hardwood situation is
but a repetition of past weeks. The con-
suming industries are operating to their
full extent, but are evidently deferring the
purchase of their lumber supply in the
hope of getting some concession in price.
Whether or not they will be successful in
this depends entirely upon the hardwood
manufacturers, who up to the present
time have positively refused to yield.
Lath and shingles are strong. At Geor-
gian Bay points as high as \$2.75 is being
asked for No. 1 lath and \$2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber seems
to be improving as the season advances.
Representatives of Quebec houses are
meeting with considerable success in
effecting sales in Great Britain, and there
now seems to be reason to believe that
about the usual quantity will be marketed
here. There is a greater number of en-
quiries for stock from the Eastern States,
especially for clapboards and shingles.
Cedar shingles, on Boston rate of
freight, are generally held at \$2.85 to
\$2.95 for extras, and \$2.60 for clears, al-
though as might be expected, sales are
being made below these figures by deal-
ers who are anxious to realize immedi-
ately. Logging operations are proceeding
satisfactorily, although in some parts of
Nova Scotia deep snow is interfering with
successful work.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba
and the Territories is showing more ac-

tivity, due to the improved outlook for building operations. In Winnipeg a number of quite important buildings are projected, and in smaller towns and villages the volume of building promises to be greater than last year. British Columbia shingle manufacturers report that the consumption of red cedar shingles in the east is on the increase and that orders are coming in freely for spring and summer delivery. The demand from Manitoba is quiet and will be inactive until good crops are assured.

Current quotations for red cedar shingles delivered in Ontario are as follows. No. 1, 6 butts to 2 inches, \$2.75 per M; No. 2, \$2.25; No. 1, 6 butts to 2 3/16 inches, \$2.90.

UNITED STATES.

The volume of trade in white pine lumber has shown a decided improvement during the past week. Heavy sales have been made at Duluth, Ashland and other points, the buyers being from Chicago and eastern wholesale distributing points. It is estimated that by the opening of navigation there will be practically no dry lumber at Duluth, while the recent sales have included much of the coming season's cut. The demand for building materials for immediate consumption has been confined largely to the coarser grades. The supply of box lumber seems to be comparatively heavy, but a scarcity of cutting up stock is still reported from

Buffalo. The secretary of the Buffalo Lumber Exchange has compiled statistics which, in comparison with one year ago, show a shortage of 14,000,000 feet in white pine and 6,000,000 feet in Norway. Shingles and lath are both firm and high in price, with a tendency towards higher values, especially for white pine lath.

There is an apparent improvement in the hardwood trade, although prices are not altogether uniform. Red birch is scarce, and commands \$30 to \$32 on cars at Buffalo. Quotations on Albany rate of freight are \$40. Brown and white ash are also firmer, the former selling at \$26 to \$28 for No. 1 and 2, and the latter at \$30 to \$32 for inch firsts and seconds.

GREAT BRITAIN.

Business in the timber trade in Great Britain is less active than at the corresponding period one year ago. Negotiations are under way, but shippers are finding some difficulty in closing contracts. This applies particularly to pine, as importers apparently believe that, considering the stocks on hand, the prices asked are too high. Nevertheless, shippers seem to be a unit in holding out for their present asking prices, even if such a course should restrict the volume of business. Spruce is selling now more liberally at good prices. Sales of 3x9 third regulars have been made at £8 10 shillings per standard c. i. f. London, and 3x7/8 inch battens at £8. The consump-

tion of lumber at the leading ports is about normal for this season of the year. Large quantities have been sold by auction and have brought fair prices; 3x11 first pine sold at £22 to £23; thirds at £13 10s; and a parcel of Quebec pine boards at £25. First quality Quebec spruce, 3x9 brought £11 10s; second quality £9 15s to £10, and 3x11 thirds £9 5s.

STOCKS AND PRICES.

Kent & Campbell, of Duluth, last week sold 7,000,000 shingles to the Arthur Gourley Company, of Chicago.

The schooner Prohibition has just sailed from Sydney, N. S. for Demerara with a cargo of 156,000 feet of lumber.

The steamer Alatina is loading lumber at Hastings, B. C. for the Orient. She will carry about three million feet.

The base price for Hemlock in New York continues at \$14.50. For 10 and 12 inch boards \$15 can be obtained.

A two mile timber berth on Young's Brook Gloucester county N. B., was sold by the New Brunswick Government last week to J. J. Riordon at \$85 per mile.

With the old logs being carried over, the Holland & Emory Lumber Company, of Bying Inlet, Ont., expect to have 50,000,000 feet of logs for the coming season's operation.

The Saginaw Lumber & Salt Company expect to have 20,000,000 feet of logs to take over from the Georgian Bay to Saginaw this season. These were cut in Indian reserve lands.

No. 1 pine piece stuff is selling in the Chicago market at from \$14 to \$16, 6 inch No. 1 strips at \$20, 4 inch at \$17.50, and

No. 1 Norway strips at \$18. There is a scarcity of all grades of good lumber.

The Eastern Lumber Company, of Tonawanda recently purchased 2,000,000 feet of C-selects and better from the Bay Shore Lumber Company, of Marionette, Wis., and 1,500,000 feet of same stock from the Sawyer-Goodman Company. These two deals involve a consideration of \$1,400,000.

In the Barbadoes market according to Clairmonte, Mann & Company, there is a good demand for both spruce and white pine lumber. Latest sales have been made at \$24 for merchantable pine, and \$18 for second quality; \$21.50 for merchantable spruce, \$17.50 for second quality. The (Continued on page IV.)
