The copy filmed here has been reproduced thanks to the generosity of:

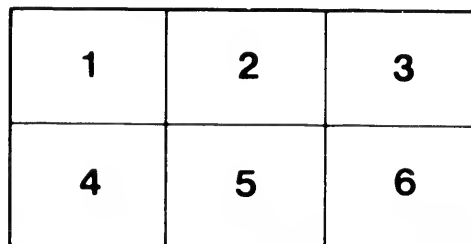

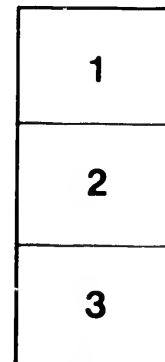

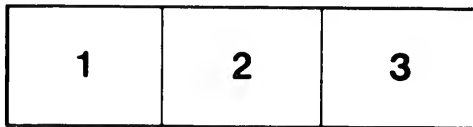

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE

In presenting this year's edition of the REVELSTOKE CITY DIRECTORY to the public I need make no remarks, as the work itself shows the improvements made since the issue last year. It has been enlarged, corrected and revised to date and will be of particular value to all business men. The map which accompanies it is the only accurate one in existence of the four townsites—the Farwell, Mara, Smelter and C. P. R. Hoping that this year's issue will give the same satisfaction and be as deserving of the patronage extended it as last year's, I remain,

R. P. PETTIPIECE.

It has been predicted by leading men of Canada that Revelstoke will be one of the leading cities of West Kootenay.

Would You Invest Money Profitably ?

If So Come to Revelstoke

That its unique position where the C.P.R. crosses the beautiful Columbia valley, with water transportation to the north and south and in close proximity to the richest mines in Kootenay, making its location unusually favorable.

If you want to invest your money in manufactories, real estate, or mining property, visit Revelstoke, the "Gateway to the Kootenay."

Revelstoke

Revelstoke has an early and eventful history, which if fully written up would be highly interesting from an historical point of view. It is not our intention, however, to give here a complete account of all the events which have transpired in the early days, but to touch upon only those which most concerns us at the present time, not believing in "ancient history." But here and there we find a few characters who remember distinctly the exciting times here years ago.

The banks of the Columbia, on which river the town is situated, have been the stage upon which strange scenes have been displayed and wild and daring exploits performed by the thousands who entered this district during the '67 gold boom in the Big Bend.

Revelstoke is probably one of the oldest towns in the interior, at one time being known as Farwell, named after the original locator of the townsite before construction, and over which there has been more trouble than a little, some eleven years having elapsed before clear titles could be obtained, and this only last season. And it was not until this was settled that Revelstoke really began to forge ahead, commercially and otherwise. As we said before, its growth was slow until 1897, but the old timers and newcomers had great confidence in the town and started in to make it a mining centre worthy of note.

The C. P. R. is concentrating all its principal work shops on the western division at Revelstoke. It has erected a large new round house and warehouse and car repair shops, a supply store, an hotel, also a freight shed and a new express office for the handling of merchandise coming and going into West Kootenay. Revelstoke is not only a mining town, but is now and will be increasingly so in the future a railway point of considerable importance in the C.P.R. system and a distributing centre for the business of the rich mining districts included in the section popularly known as North Kootenay. Its importance in these connections is due to its unique geographical position. Seated in a beautiful open valley at the point of intersection of the Columbia river and the C.P. R. main line, it commands the passes running north and south, to the famous goldfields of the Big Bend and the rich mineral leads of the Lardeau, while on the east up the Illecillewaet another district of great promise is being rapidly opened up. The town is the point of junction of the main line and the Arrowhead branch of the C.P.R., by which access is gained to the South Kootenay by rail and steamer. Before long another line of steamers will make Revelstoke their starting point for the Big Bend, for which country it

is at present the outfitting point and base of supplies. Thus by the mere force of geographical position alone Revelstoke has forged to the front until the little mining camp of a few years ago has become a town of considerable importance to the business of the province.

The mining industry is still in its infancy, but with the careful expenditure of capital in development work will grow to large dimensions.

Large areas of land in close proximity to the town are covered with timber suitable for lumber, but probably just as valuable as fire wood, there being no coal deposits discovered near at hand as yet. Wood is worth from \$2.25 to \$4 per cord delivered. This land when cleared is proving to be exceptionally fine farming and gardening land, and the demand for produce is always many times larger than the supply, train loads being imported from other points every season. This should be taken into consideration by intending settlers.

Across the river from Revelstoke an excellent clay exists for the making of brick in vast quantities, which commands a high price at any time.

The surrounding country abounds in both large and small game of all kinds. Lovers of mountain trout fishing can find their heaven here as all the adjacent streams are filled with trout. When the hunting and fishing are taken into consideration, coupled with the pleasant climate and beautiful scenery, this is an ideal place for any one, tourist included, to spend the summer.

The town enjoys many advantages: A fine, healthy climate—the death rate being exceedingly low—good water, supplied by a system of water works, from the mountain side just north of the town, underlying which is a stratum of gravel that insures a natural drainage. A short distance up the C. P. R. track, east, to the Illecillewaet river, is a canyon and falls, which must be seen in order to be fully appreciated. The power from these falls is now being utilized by the Revelstoke Water, Light & Power Co. for running their fine electric lighting plant. They have an unlimited power which later on will be useful for manufacturing purposes and running the proposed street car line.

In reading the contents of this DIRECTORY you can form your own opinion as to the progress and stability of Revelstoke, the North Kootenay Capital.

Grocery Department.

We carry a large and very complete stock of staple and fancy groceries. Our aim is to obtain the first quality of all articles for consumption. The long experience in business has enabled us to ascertain which brands of goods are the best value and will give greatest satisfaction to the purchaser.

Particular attention is given to orders from a distance, extreme care being taken in the selection of goods and packing for shipment. Goods in every case are shipped the same day the order is received.

A complete line of proprietary drugs and patent medicines, perfumes and toilet soaps is also carried.
