DISCUSS PENSIONS

Bill to Amend Military Pensions Act Piloted by Rowell.

Ottawa, May 23-A thin house commons spent most of the Friday session considering estimates. Before the votes were taken up there was some discussion of the bill to amend the military pensions act, which deals Hon, N. W. Rowell had charge of the diers' civil re-establishment, which is presided over by Sir James Lougheed. government leader in the senate. They were voted without much criticism. altho Mr. James Douglas, Strathcona asserted that there had been a wasteful expenditure of public money in connection with the construction of hospitals for soldiers in many places. Mr. H. B. Morphy made the observation that while the lower branches of the civil service were underpaid, the salaries of the higher officials includ-

reased.
Mr. Rowell thereupon stated that the civil service re-classification would probably be tabled early next week. Harbor and river votes in the even ing were the cause of some discussion many items were voted.

BORDEN'S MESSAGE FOR EMPIRE DAY

Britannic Commonwealth Must Become Worthy of High and Wide Ideal

London. May .23-(Reuter.)-

Prior to his departure for Can-ada, Sir Robert Borden wrote the following Empire Day message which Reuter's has circulated to the British press: During nearly five years of desperate struggle the Britannations have fought in a cause which transcended even the destiny of their empire. With the dawn of peace, and in the task of reconstruction behooves them to make the Britannic commonwealth worthy of that wider and higher ideal. Ultimatum to Postal Employes

Winnipeg, Man., via St. Paul, Minn., May 23.-The following statement was given out today by Hon. Gideon D. Robertson, minister of labor, and Hon Arthur Meighen, acting minister of justice:

"The postal service has been denied the citizens of Winnipeg, and all correspondence of those citizens since May 15. This has been done at the dictation of a small body of men not connected with the postal organization. These employes, sworn to faithfully serve the state in their several capacities have deserted pat service. They have done so entirely without reference to any grievance of their own, and, indeed, within a few weeks of an adjustment acknowledged by themselves to be satisfactory. Under these conditions they have chosen without notice, and on a sympathetic issue, to dislocate and paralyze the public service of a great community. Today voluntary workers are temporarily taking the posts these people have left. The government announces that those returning before 12 o'clock noon of Monday, the 26th inst., will be accepted, and that all failing to resume their duties by that hour will be definitely refused thereafter a place in the federal service. Following the truck in another motor car was David Wilson of Broadview avenue, who the police allege owned the whiskey. Wilson, the police say, was driving in the second car directing the driver where to deliver the barrels to. Inspector Lewis was also keeping an eye on the express truck from a third automobile, and when he was satisfied that Wilson was the man directing the liquor shipment he immediately placed him under arrest and took him to Claremont street station, where he is held on a charge of B.O.T.A. The liquor was not taken to the police station. When it was seized on the street Lewis sent it direct to the new government storehouse on Front street.

And a Camera-It, too, is a Motorist's

If it's to be a spin in the country by motor, you'll surely want to make photographs of the beautiful rural scenes. If vou intend spending the day picnicking at some favorite suburban spot, you'll want to "snap" the frollicking kiddies and make picture stories of all the interesting incidents for every member of the party. These three models are good, dependable cameras, which are inexpensive to buy and inexpensive in upkeep.

The Folding Scout at \$12.00.

A Light Weight and Very Compact Camera, made of aluminum, with reinforced wood sides. It is covered with waterproof seal grain leather, and its equipment includes a shutter with three speeds to the slot, a time and a bulb movement, a single lens, and focussing gauge, and an adjustable view finder. Price \$12.00.

The New Ansco "Vest Pocket" at \$9.00.

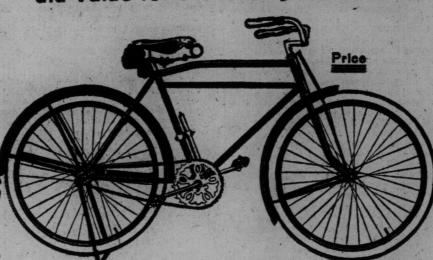

When you see the pictures it makes and compare its' size, you'll concede that this Ansco "Vest Pocket" is one of the most compact cameras you've seen. It takes pictures 21/4 x 31/4 inches, has single

achromatic lens, three speed and bulb and time shutter, and two tripod sockets, adjustable table rest, and adjustable view finder. One of its distinct advantages is that focussing is not necessary. Price \$9.00.

> Postcard Size Camera at \$23.50.

The postcard size is 3 1/4 to 5½ inches. This camera is equipped with a shutter of unusual range, for it has five speeds to the snap and a bulb and time movement. The lens is a good rapid symmetrical (double). The body is made of aluminum and covered with grained composition leather. A camera of distinctly superior workmanship in every detail. Price

Does the Treaty Violate Wilson's Fourteen Points?

The latest and bitterest blow to German hopes, successively disappointed in the Zeppelins, the submarines, and the Kaiser, is the discovery that President Wilson and the American people have not secured for Germany a "soft peace." German leaders and German papers angrily protest that America has "betrayed" the German people. President Ebert declares that in the Peace Treaty President Wilson "has deserted his fourteen points," while Ludendorff declares, after reading the terms, that "if this is peace, America can go to hell!"

In the leading article in THE LITERARY DIGEST this week, May 24th, German and American public opinion, as represented by the statements in the leading journals of both countries, is presented. Each of the fourteen points is carefully analyzed in its relation to the terms of the Peace Treaty, so that the reader may readily understand just how much justification there is in Germany's protestations.

Andrew Crittall was acquitted in police court yesterday morning of selling liquor. The police found over one thousand bottles of whiskey in the cellar of Crittall's home on Roncesvalles avenue. Crittall denied having ever sold liquor to a man named Emmory, a police witness, and Magistrate Denison withdrew the charge.

Neil Refuses Bab His Usual Caress

CHAPTER XCIII.

When Neil came down, his aunt was fideling and told her that, it spite of her 'business lecture'—he spoke face-tiously—he must leave us on a very important business matter. I was terribly humiliated by the stand ne had taken, and—I had discovered nothing. Had I, perhaps, I would not have felt so chagrined. But the idea that he would tell his office force that I, his wife, was not to be allowed in his private office was so belitting. Then came the thought that he might only have said that to frighten meritate he had not given such orders. Really it wasn't quite sensible to think that he mould. It would humiliate him as well as me to say such things to his employes. I breathed a bit more freely after this thought came to me, and tried to join in the conversation as usual.

All thru dinner Neil chatted with his aunt in his ordinary manner, but not once did he address me, nor, as far as I could see, did he look at me. Several times I tried to attract his attention, but to no purpose. Just as we finished, I heard Robert crying.

When private bills came up for an hour this evening Hon. Rodolphe Lemieux suggested that the government ought to announce its policy on the question of empowering provincial courts to grant divorce. He said more divorce bills were going thru the house this session than had been passed in the first fifty years of confederation and he objected strongly to the erection of a divorce factory on Palla-ment Hill. He complained that divorc-

A most important conference opens in the physics buildings of the university on Monday and is one to the university of the Carnegie foundation to Sir William informing allowance of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundation to Sir William informing allowance of the university of the Carnegie foundatio then says, "Clause 1, divorce granted, clause 2, leave to marry again," and that is all there is to it.

There is some perfunctory enquiry by the house committee on miscellaneous private bills, but when the bill "for the relief" of John Smith or Mary Jones of the senate and even something in the nature of a political crisis after Sir Robert Borden takes hold again and Sir Thomas White delivers his long expected budget speech. Of course the trial itself takes place

afternoon to the effect that he had been misquoted and misrepresented by Mr. Nickle of Kingston in the cource of the debate. There seems to be no love lost between these fellow citizens of Kingston. W. F. Cockshutt, of Brantford, the high priest of protection, and Dr. Michael Clark, the equally high priest of free trade, were observed this afternoon in an almost fraternal embrace. They were like two hids upon a single stem in their fight against the abolition of titles and are probably taking less interest now than they did a few days ago in the coming visit of the Prince of Wales.

The politicians are discussing the coming elections in Quebec and their possible influence on federal politics. Sir Lomer Gouin will undoubtedly ment Hill. He complained that divorces were being facilitated by not exacting the deposit of two hundred dollars required by the rules of the senate.

All of which was interesting, but apparently not convincing, for the shackles dropped from five unhappy couples five minutes after. Divorce bills are rushed thru the committee of the whole in a way that reminds one of Mayor Church expediting business at a public meeting. The deputy speaker reads the title of the bill and then says, "Clause 1, divorce granted, clause 2, leave to marry again," and carry the province as he has

Both the manufacturers and employes were well represented at the hearing, and considerable evidence was taken. The manufacturers in their evidence all manifest a spirit of co-operation with the workingmen and women of the city, and from the evidence given it may be deduced that the average wages for Kitchener is

the average wages for Kitchener is 3830 a year.

Own Their Own Homes.

It was gleaned that the principal reason for the contented condition found among laborers here is the fact that the majority of them own their own homes. The principal cause of the unrest, as evidenced by employes who were heard, is the high cost of living. Practically every branch of industry represented in this city was heard by the commission, and there was no serious discrepancy disclosed in the stories told by the manufacturers and their employes. The fact that there have been no strikes here in the past 10 years, and the fact that there is no apparent tendency on the part of manufacturers to place obstacles in the way of unionism and collective bargaining was evidenced from the testimony of industrial and labor heads. Both sides of the question admitted that requests for advances in wages had been made and had been granted as well as requests for a nine-hour day.

Say That as She is Responsible for War, She Must Suffer Like Other Countries.

Paris, May 23—Germany's share of the burdens growing out of the was as set down in the economic terms of the peace treaty is based on her ability to shoulder it and not according to her deserts, the allied and associated council declares in its answer to the German note of protest against the section of the treaty.

Germany was mainly responsible to the damage and destruction, it pointed out, and she cannot escape the acts of those who made and continued the war, which are the cause of an sufferings Germany may have

was heaviest.

Can Import Commodities

The Germans complained that they would lose certain necessary commodities. The allied reply is that Germany can import these goods. Germany, it is asserted, destroyed the Lens coal fields, and the coal fields taken from her in payment for the destruction wrought still leaves her sufficient sources of this fuel.

The Germans complained that the German population would suffer under the treaty, which was described as a "death sentence." The reply points out that all countries are suffering as a result of the war, and there is no reason why Germany, who was responsible for the war, should not suffer. Germany's figures as to the loss in population due to the blockade and speculation as to what will happen to the population in the future, are declared to be fallacious. There will be every opportunity for Germany to make her position in the world both stable and prosperous. Germany, it is pointed out, has not suffered from pillage and devastation, and there will be a saving from reduction of armaments and the size of her army and Passes Committee Stage in Senate

A Shell-Shocked Soldier

Tells of His Remarkable Experience with Dr. Chase's Nerve Food

MR. FRED. K. SAUNDERS, 66 Euclid Ave., London, Ont., writes: "After having re-turned from the front with shell-shock, and while still in a nervous condition, I met with a painful accident due to a fall from the top of a painful accident due to a fall from the top of a ladder, striking my back on the edge of a desk, which confined me to bed for three weeks. After the sprain had been reduced and the pain eased so that I was able to be around, I was obliged to return to bed, suffering a complete mervous breakdown. My regular physician attended me until the middle of September, without results being in any way satisfactory. out results being in any way satisfactory.

"My nights were spent in tossing about the bed worrying about the future, which looked so black. The continual loss of sleep caused me to become light-headed, so that I would say and do things quite unrational. My heart action became quite deranged, together with my stomach and digestion. My skin and the whites of my eyes became yellow. My kidneys were deranged, and when I would try to get up everything would go black in front of me with dizziness, and I would fall if nobody was near. Following these dizzy spells I would become so ness, and I would fall if nobody was near. Following these dizzy spells I would become so weak, and a sickenizg feeling of faintness would creep over me, so that for two or three hours afterwards I would be helpless, and my head would ache almost to the point of splitting. Nothing seemed to help these weak spells. I became so irritable that to speak to or answer anyone, even my wife, in a decent manner seemed almost impossible.

"About the end of October someone recom-mended Dr. Chase's Nerve Food, and my wife

got some for me. After taking only a few doses I thought I felt a little hungry and better in several ways. The weak, dizzy spells were gone after taking two boxes. About that time I noticed my yellow complexion, and decided to get Dr. Chase's Kidney-Liver Pills, which I took occasionally at night. After taking seven boxes of Dr. Chase's Nerve Food and two boxes of Kidney-Liver Pills I was able to get up and be around the house, gradually taking more interest in life.

"My heart action gradually became normal, my digestion good, and the dirty, muddy, yellow color of my skin and eyes disappeared. My hands and feet were no longer cold and clammy, and my weight increased at the rate of four pounds a week. I was quite normal and fit for work after using eleven boxes of Dr. Chase's Nerve Food and four boxes of Kidney-Liver Pills, and felt just as good as new, but in order to safeguard myself continued to take this treatment for some time afterwards. I really think—in fact, I know—that Dr. Chase's medicines saved me from the asylum or even parthink—in fact, I know—that Dr. Chase's medicines saved me from the asylum or even paralysis, perhaps even saved my life. These are my reasons for saying that I swear by Dr. Chase's goods. I am never without them in the home, and recommend them to anyone as a safe and reliable medicine to those who will give them a fair trial. One or two boxes won't work any miracles, but I do believe in praise whea praise is due, and I praise them to every poor soul who is in poor health. I shall be glad to answer any correspondence on these valuable remedies from anyone doubting their value as reliable and safe medicines."

The conditions so well described in this letter are experienced by many people who will appreciate Mr. Saunders' thoughtfulness in writing so fully of his case and pointing the way to cure. Dr. Chase's Nerve Food, 50c a box, six for \$2.75. All dealers, or Edmanson, Bates & Co., Limited,

Birds Won Initial Game in Overtime—Second Easy for Leafs.

The Leafs and the Birds split a double bill at the Island yesterday. Bal-Baltimore.. timore won the first 8 to 5, and Toronto annexed the second 3 to 1. The Leafs let Dunn's men get a big lead in the first game, and then staged a lively batting bee in the eighth inning to tie it.
The teams battled to the twelfth, and

sixth, and again luck helped Gibson. McInnis popped out, Gonzales walked and Whiteman rolled to second. Onslow walked and Purtell raised back of second. Morgan and Honig did the Alphonse and Gaston stunt and the ball dropped safe, Gonzy scoring. Purtell started the delayed steal, and the return home falled to get Onslow. Holden rolled out. The final was 3 to 1.

At New York—After failing to get a man on base until the fourth inning. New York bunched hits off Doak of the St. Louis Cardinals in that inning, and won the first game of the series by a score of 7 to 6.

St. Louis hit Benton hard until he was taken out in the seventh inning, but sharp support repeatedly saved him. Chase and Fletcher of New York, and Shotton of St. Louis made home runs. Score:

A meeting of the executive committee of the C. A. A. O. was held in the president's office, with a large attendance.

Notwithstanding unfavorable weather conditions which have restricted training,

The not definitely decided, it is alto-gether probable that the annual regatta of the association will be held this year, Dalhousie, on Friday and Saturday, August 8 and 9. These dates are a week later than those of the National Regatta, and it is expected a number of entries

will come on from the United States. Buffalo will likely send a considerable contingent, as there is a strong revival of the sport in that city.

A regatta committee was appointed consisting of the members of the executive in addition to P. Sewell Roberts, president Ottawa Rowing Club; J. R. MscLaren, captain Brockville Rowing Club; S. F. M. Smith, captain Lachine Rowing Club; Major Con Riley, president Winnipeg Rowing Club; R. L. Schran, captain St. Catharines' R. C.

On account of the unusual conditions prevailing this year, several events on the regular program will be omitted. Contests for veterans will be substituted, however, The following will probably be the program: Single scull shells, junior, intermediate and senior; four-oared

EMPIRE DAY OBSERVED BY SCHOOL CADETS

Five Thousand Pupils Listen to Inspiring Patriotic Addresses.

Empire Day was honored in Toronto by a turnout of 5000 uniformed cadets of the schools, who assembled on University avenue at half past two, the parade and ceremonies lasting until four o'clock. More than ordinary interest was shown by the adult population who were in evidence some thousands strong, lining the route of the parade and forming a multi-colored background for the bright scarthe khaki of the high school cadets, the khaki of the high schools and the green and gray of De la Salle Institute.

A red and white marquee had been erected in the centre of the avenue, and with floating flags formed a note of color pointing out the base from which the salute was taken, and forming a headquarters for Brigadier-General Gunn and staff, together with members of the board of education and others officially engaged in the demonstration.

and others officially engaged in the demonstration.

Standing at ease before the march past the cadets stretched out from College street and as far as the eye could see towards Queen street. In four autos General Gunn, the mayor, members of the council and of the separate and public school board, ode slowly along the line inspecting the boys, who made an exceptionally fine showing. The march past followed when the cadets in platoon formation carrying their colors came in excellent order, their salute being returned by General Gunn. Four high school cadet bands and eight bands of the public schools furnished marching time for the thousands of young feet. The boys of De la Salle were preceded by their band of Irish pipes.

The inspecting officer told the boys to mind their "B's" and they would be all right. By the "B's" was meant their boots, belts, buttons, bayonets. A word of advice on the necessity for politeness when the uniform is off, as when it is worn, was also given." In conclusion, General Gunn declared the cadets were a credit to the city and to Col. General Sir William Otter, K.C.B., is spending the week-end at the York Club. The tenth annual athletic meeting of St. Andrew's College took place with great success, and a very large attendance, yesterday afternoon in the university stadium, Bloor street. The races and other events were most exciting to the onlookers, and the afternoon was much enjoyed. Dr. and Mrs. Macdonald were present on the platform. Dr. Macdonald and Mrs. Macdonald met Law Hendrie at the gate and escorted her to a comfortable chair on the platform overlooking the field. Lady Hendrie wore a brown costume, a blue hat with crown of ashes of roses flowers, and a silver fox fur; Miss Hendrie wore dark blue, with a cloak of the same, embroidered in khaki; a brown hat, with wreath of uncurled ostrich feather. Lady Hendrie was accompanied by Col. Fraser and Col. Owen (Montreal). Mrs. Macdonald looked extremely well in black, with an ostrich feather boa and a black hat. His worship the mayor was among those present, and Mrs. Bethune, Mrs. Carrick, Col. The president and officers of the Canadian Military Institute are giving a reception to Lieut.-General Sir Robert Baden-Powell at the institute on Tuesday, the 25th inst., at 5.15 to 6 o'clock, a request is made to members and overseas officers to be present.

Sir John and Lady Eaton have issued invitations to garden party for the Ontario Medical Association on Wednesday, the 25th inst., from four to six o'clock, at Ardwold.

The terrace at Upper Canada College was thronged with people yesterday af-

condition as when captured. They have on them insgriptions, the Fiand have on them insgriptions, the Fiand have made and part of the carnoulage. One of the howitzers which was captured by the Canadians, has written on it: "Captured by the 19th Battalion," "Really captured by the 19th Battalion," "Really captured by the wags." There are other guns captured by the 19th Battalion at St. Remy and Neuve-chapelle in October, 1918. Many of the guns have a history connected with local regiments, which will be "carded' on them before they are put of exhibition. Of course all the five hundred guns were not captured by Canadians, the Alles being very generous and allocating this number to Canada as trophies. The whole of them will be assembled at the Exhibition of the guns that the Exhibition posters and photographs. Captured by the 19th war trophy museum in Ottawa, the remainder will be distributed to Canada as trophies. The whole of them war trophy museum in Ottawa, the remainder will be distributed to Canada as for the populace to see them en masse. After the government has made a selection for the war trophy museum in Ottawa, the remainder will be distributed to Canada as trophies. The whole of the war the Exhibition posters and photographs (300 in color) which have never been on exhibition before and deal mostly with the later stages of the war, and the last big drive. In another building of the Exhibition will be the war memorials—an exhibition of paintings connected with the war. These well consist of 400 paintings and drawings, of which 25 were painted overseas and 75 in Canada. A tank is also promised for the Exhibition.

As an example of the early interest shown in the guns, it may be mentioned that yesterday it was found necessary to place a guard over those guns already arrived and to remove their important parts, as two men with crowbars were found early in the morning, trying to hack off pieces of the guns to keep as souvenirs.

Tone on Toronto Market Firm, With Toronto Railway an Exception.

Altho it had not been expected that the Toronto market, on the eve of the holiday, would show much animation yesterday, stocks gave a very good account of themselves, the bullish tone in New York giving a stimulus. Nearly all the issues traded in closed with fair gains, a notable exception, however, being Toronto Rallway, which declined 1½ to 40, repeating the low point in the history of the stock, on indications that the company's troubles with its employes are reaching a serious stage.

Bell Telephone "rights" were again active, altho less so than on Thursday, and, at 4½, the closing price, a decline of ½, was seen. The Canada Steamships issues were firm, the common moving up ½ to 50½, and the preferred closing at \$5½, a net advance of half a point. Spanish. River rallied strongly here, as in Montreal, the price advancing locally 1½ to 23½. Fractional gains were shown by Maple Leaf at 167, Brazilian at 58½, Dominion Canners at 42½ and Cement at 67%. Atlantic Sugar preferred rose 1½ to 91½, and the common stock ½ to 33½.

Nova Scotia featured the steels with a five-point advance to 73½. Dominion Iron, for which 61 was bid on Thursday, sold at 64, and Steel of Canada was firm at 63½ with the bid later advancing to 64. The war loans were quiet.

The day's transactions: Shares, 3391, including 600 mining shares; war loans, \$73,850.

WET WEATHER CAUSES RALLY IN CORN PRICES

Chicago, May 23.—Despite persistent selling today, the corn market raillied at last owing to a renewal of wet weather. Prices closed unsettled 34 net lower to 34 advance, with July \$1.65 to \$1.65%, and September \$1.57% to \$1.58. Oats finished 34 to 36 down, and provisions unchanged to a decline of 85 cents.

Assertions that corn planting would be back several days in important sections where rains had again started, put the bears at a sudden disadvantage just before the session ended. Previously the market had shown weakness, influenced by the fact that country offerings were more liberal than has recently been the case.

Oats reflected a sharp break in the value of barley. Polls indicating that congress might not remove war-time prohibition were chiefly responsible.

Slowness of cash demand, together with down-turns in the hog market and with a falling off in clearances from New York operated as a weight on provisions.
