**DEATHS SUDDEN AND TRAGIC MADE YESTERDAY BUSY FOR CORONERS**

**William Coleman Dies in Police Ambulance Two Hours After Wishing He Was Dead.**

**WOMAN ATTENDS FUNERAL, AND DIES IN THE EVENING**

**Man Falls Dead on Street—Respon- dent Foreigner Ends Career With a Razor—John Moran Found Dead in Bed.**

"I wish to God I was dead!" said William Coleman, when Constable Hamilton took him in charge at 3 o'clock yesterday morning. Two hours later his wish was granted in the ambulance while on his way from No. 1 police station.

William, or "Billy" Coleman, as his acquaintances called him, has been a well-known character in Toronto for years. He was about 64 years of age and leaves a widow, who resides on Oxford-street, John B. Anderson, 221-2 Alice-street, is a brother-in-law.

The deceased at one time took an active interest in politics, especially in Ward 3. Some 30 years ago he organized an amateur minstrel organization, which became popular. He was afterwards associated with the late "Cool" Burgess. Several who were members of his amateur troupe became prominent as professionals.

After Coleman had been in the cell for a time it was noticed he was appearing ill. After being placed in the ambulance he did not talk. P. C. Harrison, who accompanied him, noticed him place his hand on his heart. When they attempted to remove him into the hospital he was dead.

Coroner Johnson will hold an inquest at noon to-day in the morgue. The mourners' union, of which deceased was a member, will take care of the remains.

**Woman's Sudden Death.** Having attended the funeral of Mrs. Adam Bell, of 116 Lippincott-street, mother of Mrs. William Keating, 237 Lansdowne-avenue, in the afternoon, Mrs. Elizabeth Keating Crowe of 270 Avenue-road, aunt of Mr. Keating, died suddenly at her home last night. It is less than three weeks since Mr. Bell died.

**Foreigner Satisfied.** Dependent and in hard luck, Isaac Gogolus, a native of Poland, cut his throat with a broad saw. He boarded with Charles Swinton, 31 Agnes-street. When the other inmates of the room woke about 5 o'clock they found Gogolus saturated with blood. Dr. J. M. Johnston, 25 Elm-street, was sent for, but the man was dead when he arrived.

The deceased a few days ago received a letter from his wife asking him to return to Poland. He had no money.

Coroner Johnson decided an inquest was not needed and allowed the body to be taken to Poland. He had no money.

**Was Not Asphyxiated.** Coroner McConnell held an inquest last night on John Moran. The jury decided that death was due to natural causes.

Deceased, who lived at 13 Ostrale-avenue, was found dead in bed by his wife yesterday morning. It was thought at first that death was due to suffocation. When the coroner had left the gas burning. During the night the light went out, it was claimed, owing to the pressure being put on the gas pipe.

The post-mortem, however, showed death due to heart trouble and not to gas poisoning.

**Dropped Dead.** Joseph Smith, age 35, who lived at the King-street Mission, dropped dead in Kentworth-avenue yesterday morning. Henry Sullivan, who works for the Consumers' Gas Co., was walking behind Smith at the time and saw him fall. The body was taken to the morgue. Coroner Greig decided an inquest unnecessary.

**Accidental Death.** Coroner Elliott enquired into the death of Daniel Griffin, the brakeman, who was injured at Mimico last week, and died in St. Michael's Hospital. The jury brought in a verdict that he received his injuries purely accidentally. The evidence showed he was riding on a foot board of the engine and slipped. Also riding there against the rules of the railway company, it is a common thing for brakemen and yardmen to do so.

**Inquest Adjourned.** Coroner Young resumed the inquest on the infant found in the yard at 108 Beverley-street, and adjourned it for three weeks.

**JUDGE OF VICTORIA COUNTY.** Lindsay, Oct. 25.—(Special).—The vacancy in the position of police magistrate for Victoria County, caused by the death of the late J. McSweeney, has been filled by the appointment of F. D. Moore.

Mr. Moore is well and favorably known in law circles throughout the province. He received his earlier education in Peterboro, but studied law in Toronto, being called to the bar in 1874.

**Empress Hotel, Yonge and Gould Streets, E. Disette, Proprietor, \$2.50 and \$2.00 per day.**

**Babbie Metal.** The best made Canadian Metal Co.

**LOSES HIS SUIT.** J. R. E. Winters lost his suit against W. J. Munshaw for \$5000. The case was heard before Justice Magner and a jury and took two days. The action was for malicious prosecution and arrest.

**At Kay's you can buy flat-top desks in golden oak, weathered oak or mahogany, at most reasonable prices.** 86 King Street West.

**Hunter Cigar, the smooth smoke 10c**

**DR. WELDON'S PROGRESSIVE PLATFORM**

**Conservative Candidate in Queen's-Shelburne Promises, if Elected, To Use His Influence in the Direction of Lessening Influence of Unscrupulous Corporations, and To Do Some Real Service on Behalf of the Public.**

Halifax, N.S., Oct. 25.—(Special).—Dr. Weldon, Conservative candidate in Queen's and Shelburne, has issued a manifesto as follows: "Gentlemen,—Having accepted the nomination of the Liberal-Conservatives of your constituency as candidate for the election to be held on Oct. 31, I beg leave to ask the support of all who are in sympathy with the views herein set forth, and who believe that, in the event of victory we will do our best to keep our word."

"I regret that the government have allowed so few days to hear the candidates and their friends discuss the momentous issues which are before us. It will be impossible for me in the short time allowed to meet personally any considerable part of the electors, but we shall hold as many meetings and see as many of the electors as possible."

"I elected I will use my influence in parliament to secure clean elections and thereby lessen the influence of unscrupulous corporations; lighten the burdens of the common people; check the shameful waste of the people's money; drive out of the public service the many thieves whom the Laurier government has allowed to fatten at our expense; help our fishermen to secure better markets; bring into the eastern provinces immigrants where needed; amend the life insurance laws and insure safer policies and lower premiums; and secure the repeal of the Indemnity Act of 1905."

"I wish to God I was dead!" said William Coleman, when Constable Hamilton took him in charge at 3 o'clock yesterday morning.

**GOVERNMENT IS A MOCKERY TOM MURRAY FOR NEW PARTY**

**Liberal Candidate in North Renfrew Suggests Revision of Constitution with View to More Practical and Honest Government.**

Ottawa, Oct. 25.—(Special).—Tom Murray, ex-M.P., defeated Liberal candidate in the North Renfrew by-election, says in that constituency alone during the last ten years between the candidates for the house of commons THERE HAS BEEN EXPENDED OVER \$200,000 TO CORRUPT THE ELECTORATE. "It is out for clean elections."

"Give us a patriotic national party for the Dominion," he says. "In my opinion the whole machinery of government to-day, and procedure of parliamentary elections in Canada, is simply a mockery on patriotism, religion and Christianity. The question is, What is to be done? What can be done? Will the people of Canada tolerate such work, or will they unite as one man and assert their manhood—yes, assert their rights as free citizens?"

"I would suggest a revision of the constitution with a view of more practical, economical and honest government; abolition of the senate, or, if it is to be in existence, for my own part I do not think it should, then let it be responsible to the people."

**BORDEN IN NORTH BRUCE SCORES ON AYLESWORTH**

**Public Opinion More Important Than Strict Procedure in Corruption Revelations.**

Warton, Oct. 25.—(Special).—A fine meeting in the interest of Abram McLeellan, the Conservative candidate in the by-election, was held here to-night and was addressed by R. L. Borden, leader of the opposition in the commons, Dr. Sproule, M.P. (South West), and William Jackson, M.P. (West Elgin), were also present and delivered short speeches. The chair was occupied by James Hunter.

Mr. Borden's speech was one of the most forcible arraignments of electoral and administrative corruption ever heard in this riding. He devoted some attention to Mr. Aylesworth's speech of last night and was loudly applauded when he declared that Mr. Aylesworth would some day learn that the demands of public opinion were of more importance than the carrying into effect of the exact letter of the law.

The exposures of the last session at Ottawa formed the text of Mr. Borden's speech, and he characterized them as more scandalous than anything that had ever taken place in the history of Canada.

He did not blame the government because some of its ministers had indulged in work of this kind or in scandalous extravagance and granting of raffle-tickets to middlemen, but when these matters were brought to the attention of parliament and of the government by an opposition, that government would be derelict in its duty if it did not have them probed to the bottom. The fault should be placed in the right quarter and justice meted out.

**EPIDEMIC OF DIPHTHERIA. Dozen Families in Wartburg, Perth County, Affected.**

Stratford, Oct. 25.—(Special).—Diphtheria has broken out in Wartburg, a village five miles from here, and has assumed alarming proportions. A dozen families are affected. Two little girls died recently. The village school is closed.

Stratford health authorities have taken steps to prevent the spread of the disease to this city. The provincial health officer has been notified. It is claimed that the township authorities have not taken proper precautionary measures to prevent the spreading of the disease, the children affected being allowed to mingle with others. It is said that all the houses were not placarded.

**NEW LABOR PARTY.** Winnipeg, Oct. 25.—An Independent Labor party was organized here to-night following lines suggested at a recent trades congress. About 75 members were affiliated.

**Richard Tew & Co., Assignees. We collect everywhere. Phone M. 1876.**

**RUBBER FACTORY SOLD.** Maple Leaf of Port Dalhousie Absorbed by Consolidated.

Montreal, Oct. 25.—(Special).—The Maple Leaf Rubber Co. of Port Dalhousie, Ont., has been purchased out and out by the Canadian Consolidated Co., possession being taken to-day.

The capital of the Maple Leaf Co. is \$300,000, but the Consolidated had to state the purchase price, except that it was a cash transaction.

**Office furniture and filing cabinets, the best makes, reasonably priced.** John Kay, Son & Co., Limited, 36 and 38 King Street West.

**"Ask the man"—The Daisy Hot Water Boiler.** Cash for Sage Servants. New York, Oct. 25.—Mrs. Russell Sage has made several cash gifts to old servants in the Sage household. Charles Boss, coachman, forty years in the employ of the late Mr. Sage, gets \$2000, and several other servants are similarly provided for.

**No cold house when waiting for repairs when you use the Daisy.** Hunter Cigar, the smooth smoke 10c

**After That Last Fall**

WILKIE, faintly: "Nothing serious—just skaken, y' know."

**Cost of Light Cut in Two Cataract Co. Quits Field**

**St. Catharines Will Pay Less Than \$40.00 a Lamp for 75 Arc Lights, the Present Price Being \$72.50.**

St. Catharines, Oct. 25.—(Special).—St. Catharines has every prospect of securing 75 arc lights for street purposes at a price less than \$40 per light. The special committee of the city council, of which Ald. Harry Southcott is chairman, opened two tenders, one from the Stark Company and one from R. F. Carter of Niagara Falls, and while the prices were not made known, it was stated that the figure would be less than at Welland, where the Stark Company got the contract this week at \$40 for 20 lamps. It is understood the Stark Company is the lowest tenderer.

The Lincoln Company, controlled by the Cataract Company, which now holds the franchise, did not tender, as they claimed they were not fairly treated in the extension of time for submitting tenders.

The city is paying the Cataract Company \$72.50 a light.

The committee will now obtain rates for street lighting from the natural and manufactured gas companies, and from the tendering electrical companies for incandescent lighting and power for manufacturing purposes, and they confidently expect to decrease the cost to the citizens also very materially. At the present time, those who are using the incandescent lights furnished by the Cataract Company are paying a meter rate of 10 cents per kilowatt hour per lamp, and 25 cents a month meter rate, while the district rate is 13 cents per lamp per month for a 5-candle power lamp, the schedule rising gradually to 61 cents per lamp per month for a 32-candle power lamp. At Welland the Stark Company have agreed to furnish incandescent lighting for 6 cents per kilowatt hour and to cut the flat rates paid locally in two. It is on this ground that the locally committee base their hope.

**Edwards, Morgan & Company, Chartered Accountants, 26 Wellington St. East. Phone Main 1185.**

**Kay's vertical filing cabinets at \$24.00 for 100, 36 and 38 King Street West.**

**EDUCATION BILL IN LORDS FOOD FOR CONTENTION IN RELIGIOUS CLAUSE**

**Unionists, Under Leadership of Church Dignitaries, Determined to Amend It to Provide for Denominational Instruction in Schools.**

London, Oct. 25.—The crucial stage of the education bill was reached to-day, when the measure came before the house of lords for detailed debate.

Unless the peers should decide to postpone consideration of the bill until a judicial decision is rendered upon the question of the liability of local educational bodies for the expenses of religious education, the upper house is likely to be the scene for some time to come of the bitterest legislative fight witnessed in the British parliament of recent years.

The bill bristles with contentious points, but the main battle centres on the clauses relating to religious instruction.

The Liberals are allegedly immovably pledged that there shall be no denominational teaching at the public expense, while the Unionists, under the leadership of great church dignitaries, both Church of England and Catholics, are outwardly as unalterably determined to amend it so that children of parents belonging to these churches shall have denominational religious instruction during school hours.

The debate is expected to last three weeks.

**K. OF P. BARS LIQUOR DEALERS**

**Sweeping Statute Passed by Supreme Lodge at New Orleans.**

New Orleans, Oct. 25.—A sweeping anti-liquor statute was passed to-day by the Supreme Lodge, Knights of Pythias. The new statute is expected to bar from entrance to the order wholesale liquor dealers and hotel-keepers, who run bars in connection with their hotels. It includes "professional gamblers, saloon keepers, bartenders or dealers in spirituous, vinous, or malt liquors."

The new statute does not affect any who are already members of the order.

**Roll top desks in oak and mahogany with modern equipment, at Kay's, 36 and 38 King Street West.**

**6 MEN A WEEK ON THE SEA GLINGING TO A TRAIL RAFT**

**Terrible Sufferings of Survivors of Wrecked Houseboat—One Ends His Life.**

Norfolk, Va., Oct. 25.—Counting the minutes, which seemed to them to be but few, intervening between them and death, bruised, bleeding, hungering and thirsting, five men adrift on a bit of wreckage off the Florida coast saw one of their companions, whose sufferings had driven him mad, throw himself into the sea to death, and not long afterwards a ship saved their lives.

The five survivors were landed here to-day by the British steamer Heatherpool, Capt. John Grieves commanding, which arrived to-day for bunker coal en route from New Orleans to Rotterdam.

They, with about 145 others, were constructing a concrete viaduct for the Florida East Coast Railway, thru the Florida Keys, and were aboard houseboat No. 4, which lay anchored off the coast on the night of Oct. 17. The great hurricane which swept over the coast struck the houseboat about 1 o'clock in the morning of Oct. 18, and No. 4 broke adrift.

A houseboat soon afterwards foundered, and all of the 150 men aboard were thrown into the sea. The houseboat was dashed to pieces by the waves.

Many of the men were killed by heavy timbers. Six men lashed together two timbers, one 10x20 inches in thickness and breadth, and the other 6x14 inches and both 20 feet long, and clung to this raft until one of the party became mad from suffering and injury and threw himself into the sea.

**OPERATORS ASK MINERS TO PAY \$550,000 FOR ILLEGAL HOLIDAY**

Chicago, Oct. 25.—The executive board of the Illinois Coal Operators' Association, and of the Coal Miners' Union, met here to-day to adjust certain differences. The operators presented to the miners a bill for \$550,000, which they demanded should be paid on account of the holiday taken on Oct. 12, by the miners, on the anniversary of the Vir-

den riot. The demand is based upon the agreement between the miners and operators, which declares that no holidays shall be taken only on certain specified rates, and that the sum of \$10 shall be paid by the union to the operators for every man who fails to work on other days.

**WHEN GOD SENDS NIGHT.** When God sends night we cannot make it day. Let darkness reign; it will not always stay. Grieve, if thou must, with outstretched arms, and a man's manly. But look above where God's stars shine and smile.

Following upon the Thanksgiving Day fight in the 'Ward' it was suggested in the district labor council last night that the committee on legislation bring pressure to bear on the authorities for the enforcement of the law against the carrying of concealed weapons.

MONARCH LIFE MANAGER RESIGNS OUTCOME OF INSURANCE PROBE

T. Marshall Ostrom Writes Commission Directing That Stock in Their Hands Be Delivered to Hon. Robert Rogers, Chairman of the Executive. Winnipeg, Oct. 25.—(Special)—Announcement was made here that T. Marshall Ostrom of Toronto, managing director of the Monarch Life Insurance Company, had resigned. His resignation is the direct outcome of insurance investigations.

TO BREAK UP A COUGH IN 24 HOURS AND CURE ANY COUGH THAT IS CURABLE.

Mix one-half ounce of the Virgin Oil of Pine (Pure) with two-ounces of Glycerine and half a pint of good Whisky. Shake well and use in teaspoonful doses every four hours. Dr. Leach, the famous throat and lung specialist, who established a camp for consumptives in the Pine Woods of Maine, and whose wonderful cures there have attracted the attention of the civilized world, declares that the above formula will strengthen weak lungs, relieve the cough, heal the bronchial tubes, and cure any case of lung trouble that is not too far advanced.

REPORT OF COBALT. Cobalt has now become a proposition demanding attention from the government as the guardian not only of the citizens but of the reputation of the province in the stock markets and investing centres of the world. There can be no doubt now of the value of the mineral deposits in the district, and it is well within the bounds of possibility that Cobalt may soon be, if not the richest, possibly among the richest silver camps ever known. Huge profits have already been made in resales of claims and in the steady and rapid advance in share values shown by the daily price reports. All this has drawn an ever-increasing amount of public attention, and recent investigators, while freely admitting the frequent indications everywhere prevalent of untold wealth below, are equally emphatic in warning 'intending investors against the numerous wildcat companies already offering, or which will certainly offer in the immediate future, tempting propositions without real substance or without having had their warrant properly tested. Thru the bureau of mines the government has the means, not perhaps of placing the quietest or most cautious of investors, but at least of providing an approximate index to the value of the mining claims actually in operation. Just now the return required from mine owners is a quarterly one, with an annual summary embracing various details not asked for in the quarterly statements. This may be enough in the case of mines which have been worked sufficiently long to allow of their capabilities being generally known and in regard to which either official or reliable information can be obtained from patent sources. But at this stage in the development of Cobalt, authoritative and, as nearly as the circumstances will permit, reliable statistics should be supplied at more frequent intervals—preferably weekly, as is the practice in British Columbia. No doubt there are certain difficulties in the way in the case of Cobalt, due to the fact that no local smelters are yet in place and that the ores have to be shipped outside the country for treatment. Other practical obstacles are stated to be present in the inequality of the grade values, and in the stacking of the ore mined. But it should not be impossible to devise a method of acquiring information which would indicate, if nothing more, the precise situation from week to week and in view of the incalculable benefit which would result no pains should be spared by the department to advance, in this important matter, the interests of Ontario.

THE LOBBY AS A SANITARY PRECAUTION. Medical men have discovered another microbe. Lodged in the human system, it excites a nervous condition which is 'spreading itself in the form of an hysterical epidemic.' It appears that unless precautions are taken, the disease will infect members of the legislature. To guard against this, we are gravely assured that lobbyists must be maintained at the various capitols. Dr. A. R. Mitchell, surgeon for the Rock Island Railroad, has diagnosed the disease: 'The educated physician,' said he, 'knows that hysteria is as much a disease as smallpox. It affects men as well as women.' The objective symptoms are inflammation, rapid pulse, and a strange mental obscurancy, which prompts the patient to vote against the wishes of the great corporations. To quote again from Dr. Webb: 'Corporations frequently submit to extortion, almost to blackmail, rather than take their chances before a jury of men whose minds have felt the contagion of the pre-

vailing hysteria. The lobbies maintained by railroads and other corporations in various capitals have been made necessary for self-protection, because of the low standard growing out of perverted nerve action, which is spreading itself in the form of an hysterical epidemic.' The treatment in the case of a legislator is something like this. The physician administers some mild stimulant; he then makes some passes, and presents them to the patient. A greenback poultice is then applied and the patient is soon able to be in the house and cast a vote as directed. Now and then a member refuses to take the treatment. This shows him to be erratic; and his colleagues, who are under treatment or convalescent, are advised to shun his company. As a matter of precaution, they also shun their constituents, since many of them are poor people, and susceptible to any epidemic that may be passing around.

'BEGIN AT THE TOP, TO-DAY.' Under this caption, The Toronto Star announces that: 'THE PUBLIC ARE TIRED OF GENERALITIES AND PLATITUDES ABOUT CORRUPTION. THEY WANT DEFINITE SPEECH AND DEFINITE ACTION. THE GOVERNMENT OF THE DAY, AS THE CHIEF POLITICAL POWER, IS THE RIGHT BODY TO MAKE A BEGINNING. THEN IT WILL BE EASIER TO DEAL WITH THE OTHER FELLOWS, WHO ARE JUST AS CORRUPT.'

Good! But is the Star in earnest? Brave words, my masters, but they stop short of the definite; they recede from the concrete. Begin at the top? Very well. Who is the man at the top who ought to move or be moved? Is it Charles S. Hyman, a minister of the crown, who does not dare to appear before any public meeting in all Canada to-day? He is, to say the least of it, an accessory after the fact in the carnival of crime that disgraced his election. He is admittedly the beneficiary of a fraud, the receiver of stolen goods. Will the Star call upon Mr. Hyman to resign? No platitudes, no generalities—yes or no? 'Begin at the top to-day,' call on Mr. Hyman to resign this afternoon—otherwise the editor of the Star will find himself one of a Pecksniffian triumvirate, with congenial colleagues in the Rev. J. A. Macdonald, the editor of the Globe in Toronto, and the Rev. W. J. Clark, the assistant editor of the Globe in London.

'BEGIN AT THE TOP TO-DAY.' EXTEND BLOOR STREET. No local question is of greater importance than the extension of Bloor-street to Danforth-avenue. At the present moment the housing of the working classes is a matter of paramount urgency and intimately connected with the industrial prosperity of the city. A high-level bridge connecting Bloor-street with its eastern continuation would be of incalculable value, both directly and indirectly. It would open up 2000 acres of land for building stances admirably situated and convenient for all purposes. As a mere investment it would repay the city within a very few years. As a practical solution of the transportation problem the completion of a northern artery of traffic between the east and west cannot be exceeded in benefit. No one can look at the map without perceiving the enormous benefit which must result from the connection of Bloor-street with Danforth-avenue. It would relieve the downtown streets of a large part of the traffic which now congests them and save to residents in the northern parts much time and inconvenience. Nothing will weld the northern suburbs together so effectually as the provision of a direct and ready way of communication.

What the council has to do at this period of the city's growth is to provide at once the most available and suitable area for the instant and insistent demand for cheap housing. This the opening up of the northeastern district would ensure. It is one of the first duties of the civic authorities to shorten transits and thus cheapen the cost of transportation. No proposition now before the citizens so commends itself to any impartial citizen who takes the trouble to investigate the actual situation. It has so many arguments in its favor that the difficulty is not so much to demonstrate its value as to explain the delay in accomplishing so great a public benefit. Our civic authorities must learn to think imperially regarding the future of Toronto, and look not so much at the actual cost as at the certainty that it will be greatly exceeded by the public convenience and ultimate pecuniary advantage.

NORWAY AND LIQUOR CONTROL. Last August, on the invitation of the Scottish temperance legislation board, four commissioners went to Norway to study the liquor laws of that country and report upon them. The gentlemen who undertook the task were John Cowan, ex-master of the Edinburgh Merchant Company; James Beth, professor of moral philosophy in Edinburgh University; John Mann, Jr., chartered accountant in Glasgow; and Hector Munro Ferguson of Assynt, Novar, all well-known Scotsmen. While in Norway they made an extensive investigation, and took a very large body of evidence on all points touching the subject matter of their tour. Pending the issue of their final report, they, early this month, issued an interim statement of their conclusions, which are of considerable importance, since, as they say, within the last fifty years, Norway has been transformed from one of the most

drunken of European nations into one of the most sober. In the opinion of the commissioners, apart from the general advance in civilization, there is due to two main causes. The first of these is the growth of a strong temperance sentiment, which, while present in all sections of the community, is most powerful in its earnestness and intensity among the working classes. The other is the effect of progressive temperance legislation, under which the people are invested with powers of local control, but with considerable latitude in the choice of means of control. In sparsely populated country districts, power of local veto is given, but towns have an option between local veto and management by disinterested companies, known in Norway as Samlags. Commenting upon the influence, respectively, of sentiment and legislation, the commissioners observe that the effectiveness of each of these two factors in sobriety depends upon its co-operation with the other. The temperance movement in Norway, they conclude, would have been largely ineffective had it not been supported and aided by wise legislation; and, conversely, the power conferred by such legislation would have remained unused but for the driving force of an ever-growing temperance sentiment. This correlation between public sentiment and restrictive legislation is too often ignored by extreme reformers, but lies at the foundation of all successful efforts to control the drink traffic.

Watch this space each day if you're looking for a bargain in a musical instrument. Our offer for to-day is as follows: BARGAIN NO. 23

KRANTZ & BACH—Baby Grand—a magnificent instrument—one of the latest models of these celebrated makers—entirely new, in perfect playing order—highly polished, deep rich tones and best American action—used about a year and a half—rare opportunity for someone who wants a fine instrument—original price \$1000.00—our bargain price \$525.00

We make the terms of payment to suit your convenience. We have a couple of dozen other bargains in pianos and organs. If you can't come, we'll send you a catalogue. We'll be glad to send you a catalogue. Bell Piano Warerooms, 146 Yonge Street. PIANOS RENTED.

drunken of European nations into one of the most sober. In the opinion of the commissioners, apart from the general advance in civilization, there is due to two main causes. This correlation between public sentiment and restrictive legislation is too often ignored by extreme reformers, but lies at the foundation of all successful efforts to control the drink traffic.

A 'TIP' TO THE BOARD. Editor World: I enclose you the ticket for the trip from Brantford to Galt (20 miles) which I made yesterday.

Have the commission gone as far west as Brantford yet? They should certainly lose no time in running over this line (the Grand Valley Railway) to inspect the roadbed, cars, etc., as well as to learn why it is they still collect three cents a mile. O'Neill, Oct. 24, 1906.

MINE UNDER COBALT STREETS. Railway Commission Have Charge and Must Be Applied to. It appears that the right sought by H. H. Lang and Major Pinak of Cobalt, to secure permission to mine under the streets of the town raises a very pretty question of law. The Silver City Mining Company, Limited, which is a syndicate of Cobalt citizens, who bought city lots from the T. & N. O. Railway commission on those lots secured the mining rights in the town. By the Mining Act the rights on the streets were turned over to the government. They were, however, by order-in-council, again turned over to the railway commission by the government. It is with the railway commission, therefore, that the company will have to deal.

BIG NEW STEAMER ARRIVES. The Edmonton is a Fine Addition to Lake Craft. It was blowing hard on the lake yesterday, and two or three schooners had to anchor in the lake, being unable to make the harbor. The new steamer Edmonton arrived during the morning. She was built for J. and J. T. Mathews of Toronto at Newcastle, and left there on Sept. 30, making thither to Toronto in what is considered good time. The Edmonton is a big steel steamer, 238 feet long, 42 feet 6 inches beam, and 23 feet deep.

She will be a sister ship to the Hadington of the Mathews line. The Edmonton is sailed by Captain H. Matland. At a canal draft of 14 feet, the steamer will carry 72,000 bushels of wheat, and on the upper lakes at full draft her capacity will be about 110,000 bushels.

20th Century Canada. Superb illustrations of Toronto a century ago, views of Old and New Ontario, Temagami region, Cobalt, Winnipeg, Manitoba, Canada's farthest north, life among the Northwest mounted police, the wonders of the Rockies and the Selkies, camping with the Alpine Club of Canada, British Columbia, Victoria and Vancouver, will be shown in over one hundred views by Frank Keith on Saturday night in Association Hall. New Mexican Railway. Mexico City, Oct. 25.—The Tehuantepec Railway will be opened the first of next month, with elaborate ceremonies. This railroad project is the favored idea of President Diaz, who believes that the line will tend as much toward civilization for many years to come as will the Panama Canal.

MISS LAWLER TO STAY UNTIL THE END OF THE YEAR. School Management Committee Accedes to Request of Deputation.

Another stormy session marked the meeting of the school management committee last night, when the long-standing trouble with respect to the appointment of a classical master to Harbord-street Collegiate was under discussion. The committee-room was thronged with the parents and friends of the pupils. Miss Lawler, specialist in English at Harbord-street Collegiate, had, it was claimed, long been desirous of leaving the latter institution and joining the staff of Jarvis-street Collegiate, near which is her home. Strong objection has been taken by the parents to her removal. Miss Lawler will remain at Harbord until at least the close of the school year.

The action of the committee in refusing to sanction the transfer of Miss Lawler rendered abortive any attempt to secure the appointment of Charles Glassy to the position of specialist in English at Harbord-street Collegiate for the present at least. On motion of Trustee Shaw the appointment of David Glassy to the position of classical master at Harbord-street, at a salary of \$1400 a year, was adopted. A long and acrimonious discussion ensued before this motion was adopted. Trustee J. Simpson moved the appointment of John Jeffries of Peterboro to the position of specialist in English at a salary of \$1400. This was carried unanimously. The committee recommended that the board empower them to appoint a supervisory writing and commercial work at \$1500 a year. The request of the management of the Girls' Home for improved school accommodation was favorably received, and if a grant of land can be secured action will be taken in the matter.

NIECE TO CONTEST WILL. Mrs. Sarah Gooderham's Requests to Be Fought in the Courts.

Contest of the will of the late Mrs. Sarah K. Gooderham has been declared by a niece, Mrs. Josephine Alfreda Ferrer of this city, who alleges 'that certain wills alleged to have been made by the deceased were executed as such by the deceased, was not of sound and disposing mind and memory, and were procured by undue influence.' She claims that the will filed in the surrogate court is not the last one. It was drawn Sept. 8, and the testatrix died Sept. 16. By the one filed, the adopted daughter of the deceased, Mrs. Elizabeth Collins, wife of E. W. Ellis, receives her household furniture, all personal effects and half the remainder of the estate, which is \$52,000. Mrs. Collins, who is 62 years of age, which he is to disburse in remembrances to friends whom Mrs. Gooderham mentioned in her will. The remainder of the estate goes in portions of one-twelfth each, \$517.13, to her sister, Mrs. Amelia Lobb; her brother-in-law, E. B. Hall; her nephew, Carrie Will; the Methodist Women's Missionary Society, the children of the late Thomas N. Gibbs, and the children of the late W. A. Peley and Aida.

The will is signed in a very feeble hand and witnessed by Dr. John Cayea and Dr. Robert T. Noble. It directed that the property be divided equally between the Methodist Women's Missionary Society, the children of the late Thomas N. Gibbs, and the children of the late W. A. Peley and Aida. The will is signed in a very feeble hand and witnessed by Dr. John Cayea and Dr. Robert T. Noble. It directed that the property be divided equally between the Methodist Women's Missionary Society, the children of the late Thomas N. Gibbs, and the children of the late W. A. Peley and Aida.

Company Wouldn't Pay. Andrew Hartford of Lenington took out a policy in the Toronto Life Insurance Company for \$500 on May 10 last. He died on July 19 of the same year. The company alleged fraud in his application and refused to pay the insurance. Lucy Hartford, his widow, sued them in the county court of the County of York, and obtained judgment for the full amount claimed. Now the company is appealing to the divisional court. The case is not finished.

Must Proceed. Henry Sheard has had an action standing against Theodor Menge since 1901. The trouble began over a drain which damaged the plaintiff's property, and for which it was alleged Menge was responsible. At the trial other parties were directed to be added to the action, but nothing further was done. Since then the plaintiff has parted with his interest in the land. Now the defendant wants to have the action dismissed without costs. The master-in-chambers has given judgment ordering the plaintiff to proceed with all possible diligence, and gives him a week to decide whether he will go on or have his action dismissed.

Heavy Damages Claimed. R. I. Henderson, former president of the Henderson Roller Bearing Company, has issued writs claiming \$25,000 damages from Henry Pepler of Hanover for false arrest, and another \$25,000 from Adam Stieling for malicious prosecution.

Bury Rifles in Sea. Havana, Oct. 25.—The statement made by Secretary of War Taft on the eve of his departure from Cuba that he would put all the arms surrendered by the insurgents where they would do no further harm was verified yesterday when a company of the Cuban artillery spent the afternoon throwing these weapons into the sea from the outer bastion of Morro Castle. Thousands of rifles and carbines were sunk in thirty fathoms of water.

T. EATON CO. LIMITED STORE CLOSING DAILY AT 5 P. M.

Price Chance in Suits

ANNOUNCEMENTS. Master's Chambers. Cartwright, master, at 11 a.m. Hon. Mr. Justice Anglin, at 11 a.m. Divisional Court. Peremptory list for 11 a.m.—Toole v. Newton, Rex v. Mann, Wallingford v. Ottawa. Action Settled. The Boake Manufacturing Company entered an action against Jeremiah Dinwoody and others under the Mechanical Lien Act for material supplied, etc. An order has now been obtained on consent, dismissing the action without costs and vacating the certificate of its pendens filed against the property. Trial Postponed. S. Levy has an action against the Manes Tailoring Company, that was in the non-jury session of the court. The defendant has obtained judgment for the full amount claimed. Now the company is appealing to the divisional court. The case is not finished.

Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb. Michie & Co., Limited. A HIGH-CLASS SCHOOL. Elliott College. Cor. Yonge and Alexander Sts., Toronto. All graduates get positions. The demand is about twenty times the supply. Next session of school on Monday, Wednesday and Friday. Circulars free. Phone N. 2419. W. J. ELLIOTT, Principal.

Nothing too Good for O'Keefe's ALE, PORTER and LAGER.

The finest Imported Hops, the choicest Canadian Malt, and the most modern brewery plant in Canada, insure perfect results. Always call for O'KEEFE'S. COLLEGE DAYS AND AFTER. Bronze Wall Shields as Striking Room Decorations. Bronze crests enlarged in massive bronze and mounted on heavy oak shields, form the most-favored of wall adornments for the dens and sitting-rooms of collegians and alumni. Diamond Hall carries these in stock, embodying almost every Canadian college crest. Similar shields can be made by Rylie Bros., Limited, for other institutions, or with family crests if so desired. The wooden mounts measure 16x17 inches, and are included in the low price of \$7.50.

Patent Medicine Act Promised. Ottawa, Oct. 25.—A government bill will probably be presented to parliament at its approaching sessions dealing with some phases of the patent medicine problem, which was the subject of a parliamentary investigation last summer. Russ Ships Visit England. London, Oct. 25.—A Russian squadron, composed of the battleships Slava and Czarevitch and the protectors of cruiser Bogatyr, commanded by Admiral Bostrom, will arrive in British waters to-morrow. The Russian officers during their stay here will visit the British shipbuilding yards, Armour works and other places of interest.

Catarrh of the Stomach

A Pleasant, Simple, But Safe and Effective Cure for It.

COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable, but the symptoms are a full or bloating sensation after eating...

There is often a false taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

According to Dr. Harlanston, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aspartic Pepsin, a little Nux-Talena Seal and fruit acids.

Act Promised. A government bill presented to parliament yesterday...

with the salt? Hardens? Then WINDSOR never cures.

LABOR UNIONISM OF TO-DAY

DESTROYING GIFT OF GES

Rights of the Individual Being Submerged in Attempt to Level Men Down and Not Up, Says New York Orator Addressing the Empire Club—Union vs. State.

"God Almighty made men individuals and not in collections," was the keynote of the address before the Empire Club on "Industrial Problems," delivered by James A. Emory, New York, secretary of the Citizens' Industrial Organization of the United States.

Mr. Emory's speech, which consumed the best part of two hours, and met with the closest attention and considerable applause, was a well-considered argument, couched in a strain of finely-curbed eloquence. He traced with many enlargements the theme of the rise and growth of the rights of the individual in the evolution of English society, and the present corresponding loss of those rights thru the development of the corporation on one hand and the trade union on the other.

The quarrel of capital was not with high wages and short hours, but with the attempt to level men down and not up. They should not agree to a compromise platform which robbed one and improperly rewarded another.

The problems to be discussed were not to be decided, he said in opening, from the mere standpoint of political science. Human beings were at stake, and the civilization of the world would receive an impetus or set-back according to the way these problems of human flesh and blood were settled.

The relation between the man who worked and the man for whom he worked with the greatest interest their day. The first strike of the human bricklayers, the labor troubles of the Romans, when Agrippa spoke his famous parable of the stomach and the members of the body to the plebeians of that day, were cited as indicating that an organized effort was needed to solve the problems involved by labor on the one side and employer on the other.

England had the largest experience of labor unions, and they had watched with the greatest interest their development in America, patterned on the English model, but modified by local conditions.

From a negative attitude they had grown positive, and from preventing the reduction of wages, they had taken up the reduction of hours and the raising of the minimum wage.

They were not to be judged by their claims and their ideals, but by what they actually achieved, by the practical means they used, by the agencies they developed in the course of their motions.

The struggle had been a tremendous one that the laborer should be united in his most intimate personal possession—his labor. For hundreds of years he had suffered on the scaffold and in the prison, and he exerted political influence of a powerful nature upon legislation, giving workmen special benefits before the law.

Looking calmly and dispassionately and judging not by what was accomplished, but by what was sought to be accomplished, and by the means by which the unions endeavored to attain their ends, another view must be taken.

The right to belong to a union was as great as that of a church or to cast the ballot. It was no more to be questioned than a man's right to justice, and it could be no right to be justly obtained at the expense of others, and by lawful means to attempt to gain unlawful ends was against the spirit of English government.

Similarly with the consolidation by which partners rose into companies, trusts and syndicates, and by unifying their efforts in the production and waste of effort, rightly directed, they controlled, they must of necessity be a benefit in developing the resources of the corporation, but they must keep their regular use of the control of the state, so that it may not control the state. (Applause.)

The cure for this common and obstinate trouble is found in a treatment which causes the food to be thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

There is often a false taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

Brotherhood of Locomotive Engineers, whose president had frequently declared "it is committed to the open shop policy. Membership for non-membership was never questioned. They found that coerced members were bad members. The organization which attracted labor by the character of its members was the most powerful and the brotherhood was accepted by American railway men as a standard because of the care taken in selecting its members, and its policy of punishing carelessly as well as criminal acts. He misread the opinion of the country if employers were not satisfied with the labor worthy of a high wage. The highest wages were willingly paid to the most efficient workmen.

Acts of Violence. Nations, like men, do not lose their principles and survive, and they must answer on the line of their own principles or not at all. They knew of instances where men had been employed, and paid blood money to perform acts which resulted in the making way of non-union men. If those things were not tolerated, they were taken on by the leaders of the labor unions. He would never blame them for acts not countenanced, but they could not weigh against the fact of one piece of the silence of another. Where were such acts punished by rebuke, by being or by the expulsion of members when found guilty by a jury of their peers after being defended at the expense of the unions? He asked. Such conditions called for strong language and at the risk of being called a radical, he spoke.

All Service is Labor. George E. Foster, M.P., moved a vote of thanks, which was seconded by J. M. Stewart. Mr. Foster objected to narrowing the term labor to a narrow class. All service was labor. In difference was a difficulty in the unions as much as in politics or elsewhere, and the result was that the unions were dominated by a few owing to the indifference of the many.

D. J. O'Donoghue said many of Mr. Emory's remarks were a good deal of a dose to him, but were so sugar-coated, no doubt, they would do him good. The evils were not all on one side, and on both sides there were men actuated by the best motives. On the subject of technical education, both capital and labor had found something on which to agree.

The meeting, which was held in the St. Charles, was well attended. J. P. Murray was in the chair and J. Haney and Col. Lawson sat with the guest of the evening.

Attempts to induce the Hunter Rose Co., who have the right to publish certain text books, to enter the alleged combine, which includes the Canada Publishing Co., the W. J. Gage Co. and the Copp Clark Co., were fruitless.

These were two of the features of yesterday's session of the provincial commission, which is engaged in the cost of producing and the rates of selling school books.

A. W. Thomas, secretary-treasurer of Copp Clark Co., was the first witness yesterday, and from him was secured an admission of an agreement existing between the firms of the Canada Publishing Co., the W. J. Gage Co., and the W. J. Gage Co., which made them a syndicate who produced certain text books so that they could compete.

Three in One. "Is it not a fact that the Canada Publishing Co. is really Copp Clark, Gage and Warwick?" asked Mr. Lynch-Staunton.

"Well, some of the directors of both companies are also directors of the Canada Co.," Mr. Thomas said.

"Isn't it made up practically of the three firms mentioned?" "I can't say," was the reply, and the witness said that the firms were in the syndicate to produce the parts of the books. There was no incentive to improve the quality. There was no written agreement so far as he knew. The firm of Gage and Warwick got into the combine in 1884 by taking over the contract of the Nelson & Sons of Edinburgh. He demurred at telling what the price had been, but Chairman Crothers said the investigation must be open in every way and with no appearance of deception.

Mr. Thomas then said that his company had taken over all the government work of the Nelson firm for the contract of \$30,000 for their rights of half the cost of the plates. Afterwards there was a royalty of from 2 1/2 to 5 per cent. for 10 years' rights, and afterwards a 5 per cent. royalty. These amounted to about \$500 a year.

Renewed Agreement. In 1894 there was a renewal agreement by which Copp Clark & Co. were to pay Nelson & Sons the right to publish the books for the year 1894. Instead of \$2500 or \$3000 a year, 10 per cent of the retail price of all Ontario readers of the term till Feb. 5, 1896. Then another agreement was made by which Copp Clark & Co. had to pay a royalty of 10 per cent on the price of the books. The price after a new contract with the government was 10 per cent on the price of the books. The price after a new contract with the government was 10 per cent on the price of the books.

Interference. They found the apprentice denied the right to earn a living, the child at school interfered with, men and women hindered in their attempt to work. If these things were facts they required a remedy, and one commensurate with the wrong-doing.

John Mitchell had stated that it was essential for labor organizations to use coercion.

"I believe the day will shortly come," he said, "when compulsory membership in a union will be no more repulsive to the American mind than compulsory vaccination."

The comparison used, said Mr. Emory, placed the right of the union beside the right of the state. There were other means by which their aims could be obtained, and he cited the

Company, also he had seen all present at meetings of the three boards. The government, said Mr. Thomas, has never evinced a desire to break the contract.

Bought Copyrights. It developed that in 1893 copyright selections for the readers were purchased from Macmillan & Company, London, at 50 pounds a year for 14 years. The syndicate had split the costs, and Macmillan had charged heavily for the copyright.

HANDSOME NEW COATS AND SUITS

... NEW YORK'S LATEST OFFERINGS ...

October as usual has brought forth a variety of cloak and suit styles—different of course from those shown earlier. Of these later productions we received several shipments this week. These shipments embrace an assortment which is broad and which reaches a big total. In many instances, however, there is but a single garment of a kind. Our cloak and suit department, you know, aims for style exclusiveness. This exclusiveness is quite marked; it is, indeed, noticeable in almost every garment that we show. We're proud of the style character which compels visitors and buyers to say— "Well, Murray's things are different!" A coat's a coat and a suit's a suit, of course; but our offerings bear the hallmark of the artistry of fashion—the prices not a bit higher than quality and style call for. Smart new coats, \$12.00 to \$75.00. Smart new suits from \$20.00.

Under and by virtue of the power of sale in a certain mortgage to the vendor, which will be produced at the time of sale, and on default being made in payment of the moneys thereby secured, there will be offered for sale by public auction, by C. J. Townsend, Auctioneer, at twelve o'clock noon, the following property, namely:

Lot One to Forty-four, both inclusive, as shown on Plan Number 1044, registered in the Registry Office for the County of York, and being part of Lot Number One, in the First Concession west of Yonge street, Township of York; the said lands being situated on the north side of Beilinson avenue, about one mile west of Yonge street. On said property is said to be erected a brick veneered dwelling and frame barn.

Terms: Ten per cent at time of sale, and for the balance terms to be liberal, and will be made known at time of sale. For further particulars apply to C. J. TOWNSEND & CO., Auctioneers, 68 King Street East, DOUGLASS FORTON, 43 Adelaide St. East, BARWICK, AYLESWORTH, WRIGHT & MOSS, Real Estate Solicitors, Toronto. Dated 10th day of October, 1906.

The trade will find it pay to see our lines of up-to-date sellers. Liberal terms. We buy Raw Furs and Ginseng. Write for Catalog.

fall Merchants' Association, testified in the afternoon. He complained that the big stores were underselling the small dealers and wanted the government to demand that the price be printed on the covers and retailers compelled to abide by them. He didn't think that if the publishers should insist on this they could be held guilty of conspiracy to restrain trade.

He did not think the school book trade benefited the retailer except in the smaller towns. Albert Britnell, a bookseller for many years, said there was no profit in handling the public and high school books. He would like the prices placed fairly and maintained. There were too many authorized books on similar subjects.

Present Ont. E. H. Caswell of the Methodist Book Room said the firm published books in use in the high schools, some being authorized. The best one, as he pointed out, was the "Physiology and Anatomy" by the government, but was published by them. "And the place of publishers came to us and threatened to compete with us unless we came to terms with them," he said.

"Did they let you into the readers' books?" "Not likely." "So that altho they have no contract, they are sharing the business with you?" "That is just it."

"Do you make a return to the government of the number you sell?" "Yes, but I can't say that includes those sold by Gage and the others." "What was your agreement with Gage & Co?" "I could not say offhand."

"Were there any other agreements?" "Yes, one in connection with the Latin primer, in which Gage took advantage of the contract law. They came to us with an ultimatum that we should either make a deal with them or they would endeavor to cut us out, and we are now selling to the government at 1-2 cents a copy, and that includes the royalty of 2 1/2 cents."

"Does not the contract provide for tape-bound books?" "Yes, I think that is so, but no exception has ever been taken to machine-sewn books."

"If you had taken a contract, it would have been at the risk of being sued in regard to copyright?" "Yes, and the government did not offer to minimize the risk in any way." Rose Co. kept the Readers.

George M. Rose, manager of the Hunter-Rose Company, testified that in 1894 a five years' contract had been received from the government to publish the Public School Euclid and Public School Algebra. The books are still being produced at a cost of 11 cents, plus 2 1/2 cents royalty. The trade paid 18 cents a copy, about as cheap as was possible.

As to the cost of publishing, he said that a book of 500 pages, like the High School Reader, would cost about 75 cents a 1000 to wire stitch, and \$5 to sew. Wire stitching made it difficult to open a book. The High School Arithmetic cost 35 1/2 cents and was sold to the trade at 42 1/2 cents. Witness

Hunter's return tickets at single fare

On Sale Daily Until Nov. 6 to Following Points:

All stations between Mattawa and Port Arthur; on the Temiskaming-Kippewa branch; between Sudbury and the Sea; Havelock and Sharbot Lake; and on the Bobcaygeon branch.

COBALT--Silver Queen to Ship Four Cars of High-Grade Ore This Month--COBALT

NEW CENTRAL FIRE STATION WORKS SOON TO BE BEGUN

Chief Thompson's Recommendation--Controllers Talk on Street Railway Matters.

Preliminary work is soon to be begun in the way of clearing a site for the new central fire station on the north side of Adelaide-street, just west of York-street. Chief Thompson asked the board of control yesterday to expend a sufficiently large sum on the building to make its appearance creditable. The site cost \$37,500, and \$60,000 to erect a new one was not sufficient. The city solicitor wrote that there was nothing to prevent the city selling the Bay-street fire station property, and the board agreed that the land would increase in value, and that it had better be retained. A hose wagon may be kept there.

The street railway will not consent to pay mileage on a line of tracks from Bathurst-street through the garri-son common unless the city will provide a concrete foundation in which the company would pay the toll for six months of the year, so the city solicitor advised. The powers of the city with respect to laying concrete foundations only apply to streets. It was decided to talk the matter over further with the company.

"The present system of cars stopping at one corner and not at another is ridiculous," declared Mayor Coatsworth, and the application of the city solicitor for permission to retain the present location of laundries in the appeal to be made by the street railway to the privy council next month to have reversed the decision of the court of appeal allowing the city to prescribe the points at which the cars must stop.

The mayor declared that notices should be posted at all the corners where the cars did not stop to prevent citizens being fooled as at present. The board agreed to engage the counsel.

Securing the Exhibition. Park Commissioner Chambers wants the erection in the exhibition grounds of a watch tower from which the two night watchmen, who started on duty last night, could alternately post themselves and get a bird's-eye view of the entire grounds. He also favors having a fire alarm system installed connecting from the tower to his house and the fire department.

A. Ogda With Police Board. A conflict has arisen between the board of control and the police commissioners as to which body should deal with the petitions of residents against the location of laundries in their midst. The controllers have been handing over these communications to the commissioners, and they have been pointing back with the regularity of homing pigeons. Matters came to a head yesterday when another petition was returned, and some striking remarks were made by the mayor and controllers.

The Hamilton Bridge Works Company was successful in getting the board of control to pay an account of \$1100 that the city treasurer had refused to pay. It arose from the substitution by the company of iron for wood girders in work on the exhibition buildings.

Not Nominated in the Bond. The street railway company cannot be compelled to stop running its cars after Oct. 1, so the city solicitor reported yesterday. The agreement, he states, does not so specify.

City Relief Officer Taylor has been apprised of a sad case of wife desertion. An English woman, 21 years of age, was reported to have deserted her husband and two months afterwards he went to the northwest as a harvester. On his return recently he bought a railway ticket for New York and decided to return to his wife in England.

Mr. McPhail Will Go. The civic works department is losing a valuable official in W. M. McPhail, head of the roadways department, who leaves at the end of November for the Toronto and Hamilton Railway Co., the Canadian Society of Engineers, and the Civil Engineers' Club.

FUNERAL OF MR. JENNINGS. The funeral service of the late William Jennings, C.E., will be conducted at the family residence, 38 St. Vincent-street, at 10 o'clock this morning, by Rev. Dr. McTavish, whence the remains will be escorted to the Necropolis by large representations from the Canadian Society of Civil Engineers and the Civil Engineers' Club.

A Cure for Rheumatism. The best and safest cure for rheumatism and all kindred ailments is a course of baths and waters at Canada's health resort, Cascades Springs, Ont. This spa is midway between Ottawa and Montreal, on the C.P.R. main line, has a comfortable winter hotel, owned by the C.P.R., and all year round is a splendid place for a quiet vacation. The waters have been famed for over 100 years for their wonderful medicinal and curative properties.

A Convenient New York Train leaves Toronto daily at 8.10 p.m. with through Pullman Sleeper, via Grand Trunk and Lehigh Valley, and calls en route at Buffalo. Make reservations at city office, northwest corner King and Yonge-streets.

Hunters. "This is the best season for big game that we have had for a number of years." This remark was made by a well-known hunter, who has just returned from the north. He referred specially to the region of Temagami district.

No New Loan. St. Petersburg, Oct. 25.—Regarding the results of the government's loan sale is contemplating the issue of another loan, the Associated Press was authoritatively informed today that no loan, foreign or domestic, was contemplated, except the internal loan to be issued about Dec. 1, in order to balance the budget on the new year.

S. S. Service From Russia. Odessa, Oct. 25.—The new steamship service between this port and New York was inaugurated today with the sailing of the Russian steamer Gregory Morch, having on board 1520 steerage passengers, principally Jews.

MR. COCHRANE IS FAVORABLE TO PUBLISHING SHIPMENTS OF THE COBALT STOCKS

Would Help Cobalt Camp if Frequent and Accurate Statements Were Made. Will Cut Loose From the Influence of the Other Stock Markets.

Hon. Frank Cochrane was seen by The World with respect to the suggested weekly report of ores shipped from Cobalt. Mr. Cochrane had an open mind on the matter, and was quite willing to do anything that could be shown to be in the public interest. It was pointed out that facts, good, solid, substantial, well-authenticated and new-laid facts were always of the first importance. With the rumors and blurt of an approaching boom in the Cobalt district, it was not desirable to get first-hand and authoritative information of every description sent the situation. Mr. Cochrane admitted the force of this and recollect that the shipments of months ago were often made to do duty over and over again. A regularly published table of figures would indicate the actual results, and the public could then judge for itself. With regard to the proposal to have the table published in the Ottawa Journal over the T. & N. O. Railway given to the press, Mr. Cochrane had no objection at all, and moreover said he would support the idea if it came before the government. He thought the first move should come from the railway commission.

The present system of cars stopping at one corner and not at another is ridiculous," declared Mayor Coatsworth, and the application of the city solicitor for permission to retain the present location of laundries in the appeal to be made by the street railway to the privy council next month to have reversed the decision of the court of appeal allowing the city to prescribe the points at which the cars must stop.

Securing the Exhibition. No New Loan. St. Petersburg, Oct. 25.—Regarding the results of the government's loan sale is contemplating the issue of another loan, the Associated Press was authoritatively informed today that no loan, foreign or domestic, was contemplated, except the internal loan to be issued about Dec. 1, in order to balance the budget on the new year.

S. S. Service From Russia. Odessa, Oct. 25.—The new steamship service between this port and New York was inaugurated today with the sailing of the Russian steamer Gregory Morch, having on board 1520 steerage passengers, principally Jews.

GILLES SILVER MINING CO., LIMITED CAPITAL \$500,000.

Cobalt

Stock in this Cobalt company is recommended by us at today's price, \$1.50 per share. Will be higher this week. Get in at the start and make money. It will move quickly. Out-of-town investors better wire orders. SMILEY & STANLEY, Sole Canadian Agents, 162-164 Bay St. Toronto. Phone M. 6105

World Office. Thursday Evening, Oct. 25. Speculation and investment in the mining shares was not quite so active today. Sympathy with the slump in the New York and Canadian stock markets contributed to this end, but had no further influence. Prices were firm, but without any noteworthy advance. Nipissing continued its extraordinary rise and touched 25 on the New York curb before profit taking brought a reaction. The demand as far as the local exchanges are concerned is still concentrated in Foster, Silver Queen, Buffalo, McKinley and University. These issues closed at about unchanged prices from yesterday, but most of today's sales were made in the afternoon. The market as a whole is in a waiting attitude, by reason of rumors of numerous amalgamations. The market has been a dividend out of present shipments and the officers of this company will not deny that this action is not probable. Local traders expect that the Cobalt will break away from the influence of the other markets, and that fluctuations will ignore the movements in general securities when this occurs.

Poster to Ship Another Car. The returns from the first car of ore shipped from the Foster mine are expected to be announced by the end of this week. Another car has been ordered forward and is now being loaded for shipment.

Another Amalgamation. Syndicating of the Cobalt properties is proceeding, but the announcements are not being made today. It was rumored on good authority that Clear Lake, Hudson Bay, extended, and Clear Lake syndicate were to be amalgamated as the Cleveland Cobalt. Cleveland capitalists are understood to be heavily interested in the project, and the stock is in demand in that city.

White Bear Promising. Supt. Demuth of the White Bear Mine, Rossland, reports to the managers at Toronto as follows: "That on the 1000-foot shaft he has covered the vein for 25 feet and is still in ore." This is at a depth of 1000 feet below the surface.

The Green-Mechan Mine. It is now authoritatively stated that E. R. Mickey and associates are the purchasers of the Green-Mechan mine, some miles north of Cobalt, for \$250,000. This property is said to be exceedingly promising, and has \$200,000 having been taken out in three days by the pick and shovel.

Will Be Listed on Exchange. The stock of the Nipissing mines is ultimately to be listed on several exchanges, among them being the Toronto Stock Exchange. An early application to the stock exchange will be made for the stock to be called at the Boston Exchange.

Four Cars Shipped in a Month. Capt. Leyson, superintendent at the Silver Queen, is a hustler. He has undertaken to develop the property in the quickest order and seems to be filling the contract. On receipt of a wire Wednesday stating that two ships were on their way, Mr. Leyson, general manager of the company, thought it might be possible to get another car out this month. The following despatches speak for themselves: Toronto, Oct. 24, 1906. Foster & Co. report the following: Silver Queen, Cobalt, Ont. Can you ship another car this month? Answer at lot 1, concession 1, Coleman Township. Munroe's application was made on Aug. 6, 1906, but the mining recorder stated that there was already an application for the claim from one Gault and he refused to deal with Munroe till the previous application was wiped out. A similar report of mandamus was made on behalf of John Mackey in connection with a neighboring lot.

WHAT BECAME OF KELLY. When anyone happens to ask, "What has become of Kelly?" say that W. J. Kelly, formerly city salesman for the Cosgrove Brewing Company, is now conducting his own retail liquor store at 749 West Queen-street, and appreciates his friends' thoughtfulness. Add that a telephone order to Park 2283 will be filled with promptness and satisfaction to any part of the city, from a large assortment of ales, wines and liquors. Your order now for your week-end supply.

A Cure for Rheumatism. The best and safest cure for rheumatism and all kindred ailments is a course of baths and waters at Canada's health resort, Cascades Springs, Ont. This spa is midway between Ottawa and Montreal, on the C.P.R. main line, has a comfortable winter hotel, owned by the C.P.R., and all year round is a splendid place for a quiet vacation. The waters have been famed for over 100 years for their wonderful medicinal and curative properties.

A Convenient New York Train leaves Toronto daily at 8.10 p.m. with through Pullman Sleeper, via Grand Trunk and Lehigh Valley, and calls en route at Buffalo. Make reservations at city office, northwest corner King and Yonge-streets.

Hunters. "This is the best season for big game that we have had for a number of years." This remark was made by a well-known hunter, who has just returned from the north. He referred specially to the region of Temagami district.

No New Loan. St. Petersburg, Oct. 25.—Regarding the results of the government's loan sale is contemplating the issue of another loan, the Associated Press was authoritatively informed today that no loan, foreign or domestic, was contemplated, except the internal loan to be issued about Dec. 1, in order to balance the budget on the new year.

To Buildings, Location and Habits is Due the Present Epidemic, He Says.

Editor World: Kindly allow me space to correct some errors which appeared in your report this morning under the heading "Typhoid at New Toronto."

It is stated that no reports were made to the provincial board of health. This is utterly at variance with the facts, as I personally called at Dr. Hodgetts' office some two weeks ago and discussed the matter with him and Dr. Amyot. Dr. Hodgetts made arrangements with me to inspect the district in question on his return from Syracuse. Samples of water from some of the wells have been sent to the provincial authorities by me and reported upon. The local board of health held a meeting in New Toronto in June last, and after fully considering all the local conditions, made a recommendation to the township council that a trunk sewer be constructed for the disposal of the sewage from the factories and dwellings in the locality. We then found that the provincial authorities would not allow this sewer to be emptied into the lake, and that the City of Toronto is daily emptying millions of gallons of sewage into the bay. I might say that the locality known as New Toronto is very badly situated from a sanitary standpoint. The district is very flat, the soil is a heavy clay with impervious subsoil. There are no natural facilities for drainage. The houses were built by land speculators without any attention to sanitary precautions; the wells are shallow and are contaminated by surface water. But the chief trouble is the carelessness and want of cleanliness on the part of the residents themselves, and I am convinced that even in the unfavorable surroundings the general health would be better if the residents exercised a little more care in the disposal of their refuse and the renovation of their premises. I might also state that the Humber pigery referred to is not in Etobicoke Township, and certainly has nothing to do with the health of New Toronto. The local board of health have a very difficult problem to deal with, but are endeavoring to ameliorate the conditions as much as possible.

Emerson Bull, Medical Health Officer, Etobicoke, Lambton Mills, Oct. 25.

North Toronto. A wedding was solemnized by Rev. N. Hill of the Davisville Methodist Church on Wednesday evening at the home of the bride's uncle, George Douglas, Merton street, Davisville, when Miss Henrietta Thoroughgood of Toronto was married to Percy Adams, also of Toronto. The bride was dressed in white and wore a train of tulle. The groom wore a tuxedo and carried a sword. The ceremony was performed by Rev. N. Hill. There were 100 guests.

Deaths. A. F. & A. M., held in the Masonic Temple this morning. A. T. Neill, Hamilton; T. H. H. Wainwright; J. Robertson, Ottawa, and J. H. McKinnon, Toronto, were raised to the thirty-third degree. Next year the supreme council will meet in Montreal.

Deaths From Injuries. Kingston, Oct. 25.—Henry Francis G.T.R. broke his legs and his left arm, crushed here in a railway accident last night, died in the hospital at an early hour this morning.

Scarboro. Scarboro, Oct. 25.—In the presence of one of the largest gatherings ever assembled in St. Andrews Presbyterian Church, the induction service of the Rev. Malcolm MacArthur to the pastorate of the historic old structure was conducted this afternoon. The service was most impressive and a number of references to the leading part taken by the members in the early religious history of the Presbyterian Church in Ontario, in the absence of the moderator Rev. Mr. Tibb, the duties of the position were discharged by Rev. J. A. Brown of Agincourt, and in address expressed the hope and belief that the cordial relations would long be maintained. He is a fluent and ready speaker, and succeeds the Rev. D. B. Macdonald.

The incoming minister was for some time in charge of the parish of Queen's Park, and in address expressed the hope and belief that the cordial relations would long be maintained. He is a fluent and ready speaker, and succeeds the Rev. D. B. Macdonald.

CHINA'S MODERN ARMY. Notable Feature of Manoeuvres Was Portable Wireless Outfit.

Changtu, Oct. 25.—A notable feature of the autumn manoeuvres of the Chinese imperial army has been the presence in the field of portable wireless telegraph apparatus carried upon light wagons and so adjusted that it can be erected in less than 30 minutes. Experienced military observers are of the opinion that with the exception of certain minor defects and making allowances for a few trifling details, these operations were almost equal to those conducted in European countries.

The artillery and the principal equipment of the troops were manufactured in Japan. It is estimated that the manoeuvres cost \$500,000.

Enquiry Into Ontario Bank Affair Won't Go On To-Day. General Manager Charles McGill and President G. R. R. Cookburn will appear in police court this morning, but the trial will not be proceeded with. The curator has not yet been able to complete the necessary statements. Crown attorneys in Toronto have out-of-town witnesses they would not be required until later.

It has been discovered that many of the securities listed in New York are industrials that will yield a better profit than was expected. When the new directors is formed the shareholders will be directly presented in the group now looking after the assets of the bank. Yesterday, their resignations were practically insisted upon. None attended with any intention of resigning. Another one intimated that some of the brokers who encouraged Mr. McGill's speculations will be called to account.

Deaths. Mrs. H. B. Spencer. Ottawa, Oct. 25.—Mrs. Spencer, wife of H. B. Spencer, C.P.R. divisional superintendent here, died at 2:30 o'clock this morning. She was a Miss Barr of Prescott, Ont., and the body will be taken to that city for interment. She has sisters at North Bay and Sudbury.

Mrs. Geo. Brown. The death occurred on Wednesday night of the wife of Geo. Brown, 101 O'Hara-avenue. Mr. Brown was recently left for Calgary, and Mrs. Brown was to have followed him, but was taken ill with typhoid. Her husband and son were telegraphed for, and arrived a few hours before the end came.

Utica, N. Y., Oct. 25.—On October 4 Schayler W. Frame was struck by an electric car and instantly killed. To-day Mrs. Frame, despondent because of the death of her husband, committed suicide.

Thomas E. Hanlon. London, Oct. 25.—Thomas E. Hanlon, baggage man at the Grand Trunk depot, died in hospital this morning, after a three weeks' illness from typhoid fever.

Mrs. Mary S. Horton. Belleville, Oct. 25.—Mrs. Mary S. Horton, widow of the late Benjamin Horton of Toronto, died suddenly of heart failure in the morning. She was a daughter of the late William Hutton, the first ward of Hastings County, and at his death deputy minister of agriculture. Mrs. Jones, wife of Rev. Septimus Jones of Toronto, is a sister.

FIFTY-NINE NEW MEMBERS. Fifty-nine applications for membership to the C.M.A. were accepted at a meeting of the executive council held in the offices of the Employers' Association yesterday. The meeting was very largely attended, all the Ontario centres being represented in addition to eight members from Montreal and one from Winnipeg. Harry Cocksouth of Brantford presided.

Raised to 33rd Degree. London, Oct. 25.—At the meeting of the supreme council of Scottish Rites, A. F. & A. M., held in the Masonic Temple this morning, A. T. Neill, Hamilton; T. H. H. Wainwright; J. Robertson, Ottawa, and J. H. McKinnon, Toronto, were raised to the thirty-third degree. Next year the supreme council will meet in Montreal.

Dies From Injuries. Kingston, Oct. 25.—Henry Francis G.T.R. broke his legs and his left arm, crushed here in a railway accident last night, died in the hospital at an early hour this morning.

Dies From Injuries. Kingston, Oct. 25.—Henry Francis G.T.R. broke his legs and his left arm, crushed here in a railway accident last night, died in the hospital at an early hour this morning.

CLEARING OUT NINETY-FOUR Raincoats and Overcoats

We will not have any but good clothing in our store. That means our Overcoats are so good that a practical tailor could find no fault in them, outside or inside.

The ninety-four Overcoats and Raincoats we are clearing out at cost price are good garments. They fit around the collar, hang from the shoulder and in the skirt better than most coats made by high-priced tailors.

You have a good chance to get just what you want, as these 94 Overcoats are in all sizes, though, of course, some are short in certain patterns. Made of Cravette, Tweed and Cheviot, in fawn, olive steel, grey and black.

All are in newest style, and some are silk-lined. You get an idea of their quality when we tell you they have been selling regularly as high as \$22. These ninety-four will be sold Friday and Saturday at

\$10.50

POWER FROM LONG SAULT. American Company Will Develop 25,000 Horse Power.

Ogdensburg, N. Y., Oct. 25.—The Pillsbury Reduction Co., owners of the St. Lawrence Power Co.'s canal at Massena, to-day purchased additional water power of the north shore of Long Sault Island, St. Lawrence River.

The company will build a dyke parallel with the island commencing at the head of the rapids, which will give a 26-foot fall and develop 25,000 electrical horse power. The estimated cost of the project is a million and a half dollars.

FATHER ABDUCTS CHILD. Objected to Wife Treating Him According to Christian Science.

New York, Oct. 25.—Charged with abducting his 9-year-old son Arthur from the home of the boy's mother in this city several months ago, Count Gyalas de Pestetics was arrested in New York to-day.

De Pestetics, it is alleged, objected to his wife and sister-in-law treating the boy for a disease according to Christian Science methods.

HURRICANE SWEEPS JAPAN. Tokyo, Oct. 25.—A hurricane swept over southwestern Japan yesterday, delaying coal fishing boats and reported missing. Each boat is manned by at least two sailors.

HUTTON'S SYSTEM PRAISED.

Daring Innovation Justified by Its Success, Says Col. Stone.

(Canadian Associated Press Cable.) London, Oct. 25.—Col. Stone, formerly commanding the Canadian artillery at the Royal United Service Institution, to-day delivered a lecture on the organization of the Canadian militia.

Col. Stone said the system of training inaugurated by Gen. Hutton, both for cavalry and infantry, was a daring innovation, the success of which, however, more than justified it. It amounted in principle to the application of common sense and the adaptation of the means available to the end in view.

As regards the infantry, Col. Stone has nothing to gain by borrowing anything from Canada. The constitution of the two forces are very similar, but our system of constructive training is more advanced, and occupies a far longer time than it does in Canada. Col. Stone said:

No one could be associated with the Canadian militia as I have been without being deeply impressed with the intensely national character of the force. The militia enters into the daily life of the Canadian citizen farmer.

Col. Stone counts it as a special honor that his name is still retained on the Canadian militia list as an "unattached" officer, the his official connection with Canada was severed some years ago. Col. Stone says he learned many things from the militia, not the least of which was the true significance of the word "patriotism."

JAPS EXCLUDED FROM SCHOOL. Action of Prisco Authorities Leads to Unpleasant Feeling.

Washington, D. C., Oct. 25.—Viscount Aoki, the Japanese ambassador, at a conference with Secretary Root to-day, made the request in behalf of his government, that the United States see that the Japanese subjects in California were accorded their full rights under the treaty of 1894, including the right of children freely to attend the public schools of San Francisco.

Secretary Root will take the matter up with the president, and it is likely that representation will be made to the authorities of California. The ambassador said the exclusion of Japanese children from San Francisco schools was the chief cause of the harsh criticism of the United States.

NOT GENERAL. Tokyo, Oct. 25.—It is definitely believed here that the anti-Japanese feeling existing in America is confined to the Japanese element in California. The tone of the Japanese press is sobering down. Thoughtful Japanese believe that if the country allowed itself to be excited against America this would only play into the hands of those who are anxious to alienate foreign sympathy from Japan.

It generally is felt that the friendship between America and Japan is too deeply rooted to be sacrificed through local animosities.

OIL STRIKE IN N.B. Moncton, N.B., Oct. 25.—(Special.)—At the instance of Major Graham, London, Eng., and O. P. Boggis, Pittsburg, who were here three weeks in the interest of an English syndicate looking over the oil property of the New Brunswick Petroleum Company, a well was bored at Dover, near here, with good results.

BOYS FIND DEAD BODY. Arton, Oct. 25.—As two boys were walking through a small bush on Koehler's farm this morning they came across the dead body of Duncan McPhee, a farmer, who lived near Alfeld, who had been missing from home for two weeks. The body was badly decomposed.

48TH INSPECTION TO-NIGHT. The annual inspection by Brigadier-General Otter of the 48th Highlanders will be held at the armories to-night.

C.P.R. Wants Land. Ottawa, Oct. 25.—The railway commission to-day was engaged in hearing arguments concerning the C.P.R.'s proposal to take some land belonging to the Grand Trunk at Goderich for the purpose of the Guelph & Goderich Railway. The Grand Trunk want of the land limited to one main line track, and a retaining wall built to prevent the slope above the track from slipping down.

Claims Files From Archives. Kingston, Oct. 25.—The Kingston News will seek to recover from the provincial archives files of The Kingston Gazette, which it is alleged, were taken from the News office.

British Barque Ashore. Portland, Ore., Oct. 25.—The four-masted British barque, Peter Iredale, Salinas Cruz, Mexico, to Portland, to load wheat for England, is ashore near the old Point Adams lighthouse. The 115-sailing crew and soldiers from Fort Stevens have gone to the scene.

Killed by a Wagon. Charlottetown, P.E.I., Oct. 25.—The body of R. E. McLean arrived here today for burial. While riding a bicycle at Regina, he collided with a wagon and was killed.

Says Justice is Sold. New York, Oct. 25.—City Magistrate Charles G. F. Wible to-day asked permission to appear before the grand jury and make a statement in connection with the investigation into charges of the sale of justice by a city magistrate. The complaint has been before the grand jury for several days.

Big Injuns See Ministers. Ottawa, Oct. 25.—Chief Big George and the four other Indians from the Babine tribe of Skeena River, B.C., interviewed Hon. Messrs. Brodeur and Otter to-day in regard to their fishing rights in Skeena River, which they feel are being unduly curtailed.

Hurricane Sweeps Japan. Tokyo, Oct. 25.—A hurricane swept over southwestern Japan yesterday, delaying coal fishing boats and reported missing. Each boat is manned by at least two sailors.
