

EXONERATING CECIL RHODES.

The Attorney-General of Cape Colony Issues a Report Believing Him to be Innocent of the Murder.

London, July 20.—The Times' correspondent at Cape Town telegraphs that Sir Thomas Upton, Attorney-General of Cape Colony, in addition to signing the report of the Select Committee on the Rhodes case, has issued a minority report exonerating Cecil Rhodes in actual acquiescence in the invasion of the Transvaal, but that it does not show that when Rhodes became aware of it he did everything he possibly could to prevent further inroad into the territory of the Boers.

YET ANOTHER DROWNING.

Mrs. Mary Finucane, an Old Lady, Wanders From Home and is Found Drowned in the Cut—An Inquest Ordered.

The modest frame building at 179 Queen street, known as the 'Ladies' Rest,' was filled with mourning yesterday by the tidings brought by some children that the mother of the family, Mrs. Mary Finucane, an old lady of 79, had been picked up drowned in the deep waters of the eastern cut, a little after 10 o'clock. Almost on the heels of the breakers of the waves, followed the corpse in a wagon, and escorted by neighbors, who with the help of the hearing of the disaster, repaired to the spot and recovered the floating remains. Mrs. Finucane, the head of the household, died some six years ago, and the family, consisting of four sons and two daughters, who up to that time had been prosperous, have since found for them and have had hard work in sons employment, and she, the widow, felt the shock of her husband's death keenly and was never again the same. She was a very old lady, and had been frequently to be watched on Sunday evening about 9.30, after being guarded by her bedroom, she slipped out, and the next occasion on which the family saw her was when her dress and hat were found in the park, and she was carried in and laid on the parlor floor. She was found in the park, and she was carried in and laid on the parlor floor.

Busy Trade Upstairs!

Busy, in spite of the advanced season and bound to be busier as the better values get known. Everybody doesn't leave town for the summer, and there are just enough people interested in making homes comfortable to ensure a big demand for Housefurnishings.

OUR NEIGHBORS' TROUBLES.
The World has received several letters and newspaper comments from the United States in reply to an article that appeared in these columns eight days ago, in which we ventured to predict that a splitting up of the Republic was not a probability, of the near future. We further expressed our satisfaction that the onslaught of the Populists, Anarchists and Republicans against the United States, instead of an onslaught against Great Britain and Canada. The World's article seems to have touched our neighbors to the quick. While they admit the existence of more or less Anarchy and a strong reputation against the United States, they strenuously repel the insinuation that the bad elements of the country are going to triumph over honest and well-to-do citizens. That is a question which time only can answer. While the better elements of the two great parties pre-termed "popocrats" (a happy word-coinage to designate the combine of the Populists and the wicked end of the Democrats), it is easy to read between the lines of the newspapers representing these classes, that they have a vague, uncertain apprehension of coming evil. The signs of the approaching storm are already visible. United States securities are lower to-day than they were during the previous week. The signs of the approaching storm are already visible. United States securities are lower to-day than they were during the previous week.

THEY DID NOT UNDERSTAND EVERYTHING WHEREOF THEY SPOKE LAST NIGHT.
Mr. O. C. Davis of Washington, one of the speakers who delivered the money to entertain the Christian Endeavorers at the United States and attended last night's meeting at the Y. W. C. G., when the Toronto delegates to the convention submitted their reports of the gathering. Mr. Davis, who was seen at the Ross in last night, objected to some of the criticisms of Washington offered by a few of the speakers. He said that he was not in finding fault with the separate schools for blacks and whites. He said that he was not in finding fault with the separate schools for blacks and whites. LET'S BE GREAT.
The Hanlan's Point roof garden this week filled. It was a veritable cyclone of fun. Harry Love and Bessie Nitram were the stars of the evening. The boys will gather at Queen and Yonge at 12.30 and, headed by the Golden Circle Band, will march to the roof garden at the foot of Yonge-street. No doubt this generous move on the part of Mr. Main will be appreciated by the boys who cannot well afford to pay their way.

INTERNATIONAL ARBITRATION.
It is pleasing to observe that Lord Salisbury and Secretary Olney are making satisfactory progress in their joint endeavors to establish a permanent court for arbitrating the disputes of the Anglo-Saxon people. They are quite a long way off from the consummation of so desirable an end, but still there is a fair chance of a reasonably satisfactory solution of the problem being reached this stage. The British propose that what are arbitrary and what are not arbitrary cases shall be defined by treaty; that the nations shall be bound to submit to arbitration; that in at least a considerable number of cases the contestants shall not be bound to accept the award at all, and that in any important case the verdict of the arbitrators may be reviewed by a court of appeal. The American proposition, on the other hand, is that all questions shall be decided prima facie arbitral; that each nation shall have the privilege of deciding for itself whether or not it will submit any case to arbitration; that when a nation does so submit any case the award shall be binding, if confirmed upon appeal, and that a majority vote of the appellate tribunal shall be sufficient for confirmation.

TO ENTICE THE POSTOFFICE.
The Liberals of East York held a meeting in Boston's Hall last night, Richardson presiding. Mr. Frankland and many local Liberals, among them George Cobley, Finlay and Magistrate Trench, were present. The subject under discussion was the question of the postoffice of Coleman and East Toronto. If this idea is carried out, it is proposed to have the office at the corner of Main and Gerrard-streets.

The States Abhor Socialism. New York Sun, July 15. The United States are on the verge of a great social revolution. On the contrary, there is about to be in the United States the proof of an inequality in national sentiment never before exhibited in its history. The people of this republic will give before many months a more tremendous demonstration of their abhorrence of the socialist and repudiation of the doctrines promulgated at Chicago in the name of the marauded Democracy.

Co-operation of Citizens Requested to Have the Shade Trees-Cleaned and Shaved for the Parks.

The ravages of the white Tussock moth in the foliage of the shade trees, especially the horse chestnut, in the southern portion of the city have become so great that there is some talk about the Mayor calling a public meeting to consider the best means of exterminating the pest.

DRILL IN HOWARD PARK.

Clever Manoeuvring of the Boys' Brigade Last Night—Several and Pleasure-giving.

An eager crowd gathered about the parade grounds at Howard Park last evening to witness the drill of the Church Boys' Brigade. After some admirable manoeuvring directed by Commandant Starr, and followed by prayers, the commandant called for cheers for the Bishop of Toronto, who, surrounded by his clergy, sat attentively in front of the lines. These were heartily given, together with a "Gloria" and after telling the boys how pleased he was to be a camper with them, praised the efficiency and smartness of the companies. The brigades then marched back to camp and in a quarter of an hour emerged from the tents arrayed for the "Gloria" dance. It was elephants (St. Cyrilian), clovers (all brigades), Indians, daisies (St. John's), and responsive boys (St. Stephen). Mr. Simon's, dish washers, etc., all in distinctive attire, and in the bugle band, and followed by the spectators, the procession marched to the front of the line. These were heartily given, together with a "Gloria" and after telling the boys how pleased he was to be a camper with them, praised the efficiency and smartness of the companies. The brigades then marched back to camp and in a quarter of an hour emerged from the tents arrayed for the "Gloria" dance.

CHICAGO GOSSIP.

McIntyre & Wardwell (John J. Dixon) received the following letter from their branch office in Chicago:

Statistics on wheat to-day were in favor of the bulls, but a paucity and demoralized stock market and further engagements of gold to the extent of \$500,000 had more influence than anything else, and the price of wheat fell to 10c.

Corn and oats—The market was steady, but a feature was strength of primary winter wheat market. Toledo and St. Louis were very firm, and winter wheat in that market showing no decline. Stock went to 10c in Chicago last week.

There was some inquiry here, but a small business resulted. Outside trade did not increase, and an unusually large amount of wheat was sold.

Primary wheat market showed no decline. Stock went to 10c in Chicago last week.

THE "CALIFORNIA" MINERAL CLAIM

LOCATED IN THE CELEBRATED TRAIL CREEK GOLD MINING DISTRICT OF BRITISH COLUMBIA

OFFICERS

President: Rufus H. Pope, M.P., Cookshire, Que. Vice-President: O. G. Laberee, Rossland, B.C. Secretary and Treasurer: J. A. McDonald, Spokane, Wash.

TRUSTEES: HON. W. B. IVES, Minister of Trade and Commerce, Ottawa; RUFUS H. POPE, M.P.

The management of the development work is conservative and under an able and experienced Mining Engineer. This company has been formed for the purpose of opening up and developing the California Claim.

The owners, after doing considerable work, and demonstrating to their own satisfaction that they had a very valuable property, and that with further development they could make a shipping mine, incorporated the California Gold Mining Company, and now offer a limited number of their shares for sale for development purposes, purchasing machinery, etc.
