

Sold His Wife for a Watch Sent to Jail for 3 Months

George Reynolds, His Wife Annie, and His Brother Walter, Con-
victed of Bigamous Complication Unique in Canadian
Courts—Woman Goes Back to No. 1.

Port Hope, Jan. 1.—A case, new in the criminal records of Canadian courts, was tried at Cobourg to-day in the County Court, before His Honor, Judge Benson. That a man in this

unlighted age said sold his wife for a watch seems almost inconceivable. But such is the fact which proves the charge brought by Crown Attorney Kerr against Albert Reynolds of Percy Township, near Dartmouth, Reynolds was to-day convicted of inciting to commit bigamy, and his brother and wife were convicted of bigamy.

Marriage No. 1.

On Dec. 10, 1900, George Albert Reynolds and Annie Clark were married by the Presbyterian minister at Norwood. They lived together as man and wife until the death of his brother, Walter Reynolds, aged 26, came home from Michigan.

George Reynolds' testimony existing between himself and George's wife, George resented this alienation of his wife's affections, she was tired of her, and offered to sell her and his household effects to Walter Reynolds, who offered a watch bought in Michigan for \$15.

A bargain to this effect was made.

The husband No. 2 took immediate possession of his brother's wife, two children and household furniture.

The affair culminated 6-day later, when Walter Reynolds and Annie Reynolds were defended by E. C. Hukye, K.C., and the jury returned a verdict of guilty to charges of bigamy, and returned a verdict of four months' incarceration for each of the defendants in the county jail, ordered by Judge Albert Reynolds, the first husband, who was defended by J. E. McConville, M.P., was convicted of inciting his brother and wife to commit bigamy, and was sentenced three months in the same place.

In passing sentence His Honor pointed out that the lightness of the punishment was due to the sympathy of the parties concerned, and that the offence against society and morality was not of a very serious nature.

Previously.

At a previous party, injured by a mix-up parties in this unique domestic case, the husband and wife, in their relationship, husband No. 1 promised her to take back his wife and children and to add as soon as possible to her expiring.

Mr. Allan stated that he understood that the inventor intended to experiment with a land line in Canada. Per-

sonally, he could not give any opinion on the subject, but could only repeat the impressions which he had gathered from Signor Marconi himself. Mr. Allan stated that he had a very high opinion of the wireless, so far as reliable communication, on the sea.

Mr. Jesse Joseph remarked that the Western Union people did not apparently take the possibilities of competition with the wireless system seriously. Some time ago the stock was selling at 88, and now it was 92.

PERMANENT POLITICAL FORCES.

The politicians have sized up Mr. Blake in their usual quick and sagacious manner. Mr. Blake wrote a letter in which he denounced certain methods of the government and expressed certain views on public affairs. The government has won three by-elections. Mr. Blake is, therefore, trusting that alone will show whether this crisp judgment is accurate. Certainly if a public man can be destroyed by the result of three by-elections he can hardly be considered as a factor in the political situation. Rightly or wrongly, we have always regarded Mr. Blake not as a weak man, to be blown away by the wind, of one or two elections, but as a strong man, a man of convictions and ideas, who remains strong in temporary defeat as well as in victory. It is for such men at least that the present political situation offers opportunities.

A man who comes before the public with a fixed policy, grounded upon conviction, is not inflated by temporary success nor cast down by temporary defeat. He is not always counting heads. He is ready to begin with a few followers, if need be, trusting that time and the force and truth of his ideas will increase the number.

"But by degrees to fulness wrought: The strength of some diffusive thought, Hath time and space to work and spread."

There are many instances in Canadian history of the success which has crowned the efforts of men of ideas. We may instance the winning of responsible government, the federation of the provinces, the establishment of a protective system and the building of the Pacific Railway. The achievement of these great objects was far more important than the mere winning of power and offices, and yet even from the latter point of view the plan of working steadily at a fixed policy had its reward.

On the other hand the man who plays for office and power only has neither inspiration for the fight nor consolation in the hour of defeat. Besides, it is becoming more and more evident that the game of machine politics is one which the poor man cannot play. Either he must be wealthy himself or he must be able to command or extort wealth from others. Money enters not only into the winning of elections, but into the trial of election petitions. Two out of the question is not whether a certain election is corrupt, but whether the petitioner can raise the money to force the matter to trial.

The money power is making itself felt in politics to an alarming extent. Its influence is seen in the lobbies of the legislature, in the elections and even in the courts; for litigation is an expensive luxury. The true policy is not to try to fight money with money, or machine with machine. There are ideas and convictions, which, when forcibly and steadily advocated, will cut through the most elaborate schemes like steel through a cobweb. This is the true way to fight corruption, to fight fraud, to fight the money power in politics.

TWO SYSTEMS OF CENSUS TAKING.

Ontario's loss of representation in the Dominion parliament carries with it a wound to provincial pride. This feeling is aggravated by the fact that this province is responsible for Ontario's loss. The population of Ontario must have been underestimated, and the population of Quebec overestimated, it is argued, to reduce Ontario's representation at Ottawa.

As yet there has been no verification of the charge that Ontario was not credited with her just share of population. Suspensions are strong enough. Of the five provinces east of Lake Superior four sustain loss in representation by reason of the decennial census. The representation of Quebec is, of course, a fixed quantity, but the inference is that the population of Quebec increased at a more rapid rate than the population of the other provinces.

While there may have been no deliberate attempt to under-value the population of Ontario, the population contributed to that result. In Ontario there was no determined effort to secure a complete enumeration such as characterized the census in Quebec. It is apparent that Quebec's friends at Ottawa left no stone unturned to give the province credit for the population of Ontario in other words, the ministerial representatives of Ontario pursued no such tactics. The census in Ontario was taken listlessly; in Quebec it was taken with a diligence and vigilance that secured a full count. A searching system in Quebec and an indifferent census in Ontario probably account for at least a part of the loss of representation which this province has sustained.

A CHAIR OF POLITICAL JOURNALISM.

The idea of a school of journalism or the founding of a chair of journalism in the university has been considerably discussed of late. One of the most difficult branches of the study is that of political journalism. When we read the work of the party journalist in the paper it seems easy, and we little think of the time and preparation. We will take for instance the writing of eulogies of statesmen commonly known in the profession as "pleasers." When a statesman is reasonably fluent the task is not a formidable one. It is necessary only to consult Roget's Thesaurus under the head of "eloquence" and to breathe the words into a suitable garland for his brow. But if he has no language to conceal his thought or lack of thought, resort must be had to another formula. A good plan is to say that, while the member is not garrulous, and takes up little of the time of the House, his counsel is much sought by the leaders of the party. As nobody knows what occurs in these secret interchanges of thought, the statement is perfectly safe, and all the statesman has to do is to live up to the eulogy and look as wise as possible. Another adroit description is to say that a man is possessed of "rare gifts" of eloquence, statecraft, or what not. The consequence of the writer can often be fooled by the knowledge that he is really understanding the case, the gifts in question being not only rare but non-existent.

THE FARMERS CALLING FOR RURAL DELIVERY.

The farmers of Canada are taking The World's tip and demanding that the government at Ottawa give them a rural mail delivery like farmers have in Michigan. A demand of this kind comes from the farmers of North Oxford, who met at Norwich the other day. The main feature of rural mail delivery, which is spreading all over the United States, is that it is demanded by the farmers, and that they organize to aid the government in putting it into practice. The farmers of this country are entitled to just as good a postal service as are the people of the cities and towns, and the only reason that they have not got it here is that they have not organized and insisted on it. All they have to do is to follow the example of the farmers in the United States and they can get rural mail delivery similar to what they have in Michigan and other States.

THE FARMERS CALLING FOR RURAL DELIVERY.

As The World has pointed out, there is no better place in Canada to try rural mail delivery than in the County of York, and when the County Council meets in a few days it ought to pass a resolution to that effect. Sir William Mulock might put two or three postmen on foot on Yonge-street from the northern limits of Toronto up to Newmarket, a distance of some 24 miles. If that were done then all the residents on the street would get mail delivered at the door at least once a day. Yonge-street is nothing but a continuous village, and should long ago have had an improved postal service. Sir William Mulock is the man to do it.

A PROMISE OR A BLUFF.

When the Dominion parliament convenes the government will have a majority of three in the Senate. It may in fact rely on a larger majority, as age and infirmity have rendered several Conservative Senators unfit for steady service. No barrier now stands between the Laurier government and its lofty desire to improve the Upper House. A clause in the Ottawa platform declared the present constitution of the Senate to be inconsistent with the Federal principle in the Canadian system of government, and demanded changes by which the Senate would cease to be independent of the people. The government has now the power, if it has the will, to lay the axe to the root of the inconsistencies of the Senate. Effectual resistance is no longer possible from the depleted band of Conservative Senators. If no effort is made towards reformation, it will be clear that a Liberal majority in the Senate violates all the evils of Senatorial construction that bristled in the Ottawa platform.

JUST ANOTHER VICTIM.

On Wednesday a Canadian Pacific express between Toronto and Hamilton, running at 50 miles an hour, cut down a teamster at a level road crossing near Port Credit. There was a blinding snow storm, so the reports say, and the teamster went heedlessly to his doom.

HOW MUCH LONGER THE FARMERS OF THE COUNTY OF YORK.

How much longer the farmers of the County of York will stand by and see the government at Ottawa and at Toronto neglect to secure suitable provision for their protection from this kind of death we do not know, but we again recall their attention to the fact that nearly a dozen of their number were run down in this sudden way in December last.

IN THE UNITED STATES, WHERE THEY HAVE LEVEL CROSSINGS, THE PEOPLE HAVE INSISTED ON AN ELECTRICAL ATTACHMENT, WHICH RINGS A BELL FOR A CONSIDERABLE TIME BEFORE A TRAIN GOES OVER, AND IN THIS WAY TEAM DRIVERS GET SOME NOTIFICATION, AND ESPECIALLY IT IS DESIGNED TO GIVE WARNING WHEN THE WEATHER IS BAD AND DARKNESS PREVAILS. WHEN TRAINS RUN AT 50 MILES AN HOUR THE LEVEL CROSSING MUST GO, BUT UNTIL THEY DO SO SOME KIND OF PROTECTION MUST BE AFFORDED TO PEOPLE DRIVING ON THE PUBLIC HIGHWAYS. THE FARMERS HAVE A GREAT MANY MEMBERS IN PARLIAMENT AND IN THE LEGISLATURE, BUT SO FAR WE HAVE NOT HEARD OF ANY OF THEIR REPRESENTATIVES CALLING THE ATTENTION OF THE LEGISLATURE TO THIS WHOLESALE DESTRUCTION OF LIFE. THEY ALSO PAY THE MINISTER OF RAILWAYS A VERY LARGE SALARY TO PROTECT THE INTERESTS OF THE PEOPLE IN CONNECTION WITH RAILWAYS, BUT WE FAIL TO FIND ON THE RECORD THAT HON. A. G. BLAIR OR ANY OF HIS ASSISTANTS EVER

THE SUZERAINTY OF AMERICA.

Amid the mass of lying cables sent the American papers from Europe generally, but especially from England, it is difficult to get at the truth. It is always necessary to check the count of a meeting or a speech by the report which comes subsequently the English papers. It is, therefore, not fair to judge of the attitude English public men by the cable reports. On one subject, however, fuller statements of the English newspapers and reviews bear out the cable. Apparently the English people are vigorous upholders of the Monroe Doctrine as the people of the United States. It is not exactly what might be expected by those who know the United States public men mean it. The English people think it is—England and America against the world, to prevent European aggression on the American continent, either north or south of the Isthmus. That is the meaning of the Monroe Doctrine as interpreted by the United States. Their version of it is, "We, the Americans of North and South America, you Canadians, you Mexicans, you Venezuelans, etc., poor devils, all you, exist by our suzerainty. Whenever we like we can clean you out. It is not any of your business, of German, Italian or any other nationality, what we do with you. It is our business, this opinion. It is the plain, simple notion that we are the masters of America. The English people in the exact way talk as we said about England and America together defy the world. The mean, of course, is that the United States of America, but the United States, "America." Many of the prominent English thinkers and speakers would welcome the fact if "America" meant "America," and included what is now part of their own empire. The wish is the father to the thought. But we believe they are a minority, although we fear a powerful minority. But what we wish to point out is that Canadians do not acknowledge or welcome the notion of this American suzerainty. If the English people deliberately express the opinion that the acknowledgment of the Monroe Doctrine, in its American sense, is a benefit to them by helping them to hold on to Canada, then they make two mistakes. First, the Americans would not assist them to hold on to Canada if attacked or menaced. They would do as the English do, they would care of your property to keep it himself. That the English people shut their eyes to this painful truth, is the cardinal defect in their foreign policy. Second, by acknowledging their dependence on American assistance to keep their own empire together, they are giving the Americans an undue sense of their own importance, and they are weakening Canadian loyalty to themselves. It is impossible for our people to feel the same affection for or confidence in Great Britain as they do in the United States, if they would feel they are Great Britain as plain spoken and determined towards the United States as the United States is to Great Britain. Once more on this continent England has drawn in her horns. She seems to have left Germany in the lurch in the Venezuela business. Once more on this continent England has drawn in her horns. She seems to have left Germany in the lurch in the Venezuela business. Germany now retaliates by refusing to endorse English protest against Russian aggression in the Black Sea. Once more, the United States appears as suzerain of America, and once more Great Britain takes back water. A few more such humiliations, and the English people will feel that they are Great Britain as plain spoken and determined towards the United States as the United States is to Great Britain. BURGHERS OR AFT ADDRESS

Will Recommend to Colonial Secretary
Chamberlain That Amnesty
Be Granted.

GENERALS URGE MODERATE ATTITUDE

Botha Says \$250,000 Has Been Col-
lected for Relief of Desti-
tute Boers.

Pretoria, Transvaal, Jan. 8.—An in-
fluential meeting of Burgers yesterday
drafted an address for presenta-
tion to Colonial Secretary Chamber-
lain, and the Legislative Council, em-
bodying the views of the leaders.

Among the recommendations are
general amnesty, the maintenance of
the Transvaal's pre-war regulations re-
garding natives, the importation of im-
migrants by the government, and their sale
to the Burgers at actual cost, and the
abolition of the South African constabulary.

Generals Botha, Dewet, and Delarey
strongly urged the necessity for a
moderate attitude and requested the
assistance of the present government.

General Botha reported that \$250,000
had been collected in America and
Europe for the relief of destitute
Boers.

AT THE THEATRES.

Princess—Henry Miller in "The Taming
of the Shrew."

Grand—The Volunteer Organist, a musical
drama.

Toronto—"Human Hearts," with a moral.
Star—George Fuller Golden and others.
Shaw—"Gay Morning Glories," burlesque.

It should be of particular interest
to theoretics that Charles Frohman's great-
est comedy success, "The Two
Orphans," comes to the Princess Theatre
next week. It has filled the Madison
Square Theatre for nearly three months
with New York's fashionable and smart
sets, and its drawing qualities at the close
of its run would have entitled it to a pro-
longed season, but it had to make way
for the attractions succeeding it, which
had already been booked. It has just
finished engagements in Philadelphia and
Washington and the local managers are
choosing for return dates. James Lee
Finney, Ida Conquest (John Drew's for-
mer leading lady), M. A. Kossuth, Win-
chell Smith, Jessie Busley, Ida Waterman
and Beatrice Morgan have all secured re-
sults in their roles as principals
and as they will be seen in the production
to the story treats of the troubles of a
young married couple, who quarrel and
contend until the wife quarrel and
ends in a divorce. Then, after various
unpleasant experiences, each discovers that
a mistake has been made, and that the
other is not so bad after all. In the end
they renew their love, and on a second
wedding.

There are many bright sparkling musical
comedies in "The Major and the Major's
Girl." The drama next week, and the scene of
the production is being removed from fair-
land. The second act is being removed from
off to the greatest advantage in the his-
tory of numerous musical comedies. The
production is that of the elaborate musical
comedy, which in its production is one of
the latest of the best of the best known
musical comedies. The cast includes such
well-known names as the Doherty
Sisters, Charles Fussy, Mitchell and Cain
Laurie Wilbur, James Lee Finney, and
Tom Ryan, Sam Lewis and Maud Hester.
The production is the combination of
musical and dramatic, and will be given
Wednesday and Saturday.

The Empire Show will be at Shea's next
week and it is credited with being one of
the finest vaudeville organizations on any
circuit. Every act is a feature and of the
highest order. James Lee Finney is the
company manager because he has
high distinction in his profession. He
has his own company of comedians picked
up in his own large and varied experience
and is really entertaining and amusing
the audience. The entire program is one of
merit and novelty, and in Buffalo this week
it is passing record-breaking figures.

Joe T. Powers will make his stellar de-
but in Boston on Jan. 15 in "The
Lionel Lincoln." The locale is in Constantinople
and Paris.

A splendid new production of a strong
melodrama, "A Kentucky Romance," will be
produced at the Princess Theatre next week.
It is claimed to be the most original, most
novel and sensational episode and among
the scenes represented are the haunts of
the "mountain men" and the life of the
frontier. The entire production is of
high merit and novelty, and in Buffalo this week
it is passing record-breaking figures.

At Springfield, Mass., the Irish Irish
society showed their appreciation of the
Irish caricatures in "A Hot Old Time" by
recommending to break up the performance.
The police were called in and arrests made.
The Irish have also noticed merchants that
display in their windows the caricatures of
Irishmen holding the Irish up to ridicule
will result in the withdrawal of their pa-
trons.

"The Crackjack" burlesque will give
one of the best shows of the season at the
Star next week. The crackjack is a game
called "Nature," and is given in three
personages with brilliant electrical ef-
fects. A crackjack is a game called "Nature,"
and is given in three personages with
brilliant electrical effects. A crackjack is

fects.

The public meeting to organize arrange-
ments for the holding of a grand musical
festival in Toronto in April to be conducted
by Sir Alexander Macdonald, the British
Trade Council Chamber this afternoon at
4:30 o'clock. Sir Northcote is the acting
chairman and extends a cordial invitation
to all interested in the project to attend.

The Toronto Festival Chorus have now
in rehearsal "The Dream of John Bull" by
Sir Arthur Sullivan. The chorus will be
conducted by C. V. Stanford, all of which
are to be performed at the concert hall
in April. Until the chorus are familiar
with their parts, in addition to the con-
certs on Tuesday nights, separate part
rehearsals under Mr. Thornton will be
held at the Toronto City Hall, on Wednes-
day and also Monday nights, tenors and
basses Thursday nights.

Condemnation of "Corners." The
Chicago, Jan. 8.—The Appellate
Court today, in a sweeping decision,
sustained the injunction by Judge
Chytrous against eight Board of Trade
members charged with operating a
"corner," and sustaining the conten-
tion against the "cornering" of the
market. The court holds that under
the laws of the State dealers cannot
be forced to sell their trades upon the
basis of an artificial value created
by a corner.

Smallpox Cases at Galt. Dr. Bryce of the Provincial Health
Department stated yesterday that as
far as he has learned the smallpox
situation at Galt is now in an im-
proved condition. A contagious dis-
ease hospital has been erected, and the
various cages taken in hand.

PROSPECTUS.

This corporation has been formed for the purpose of dealing in lands in
Manitoba and the Northwest Territories of Canada.
It is only within the last year or two that Canadians have come to re-
alize the great heritage we have in the west, a country immeasurably larger
than the east and capable of supporting in comfort many millions of people.
Few in Eastern Canada realize the great progress that will surpass the
east in population. Immigrants are pouring in, and the people of the
United States especially are investing immense sums in land and holding for
the rise which they know is sure to come. Lands in the west are increasing
rapidly in value and investments in them are bound to realize handsome
profits. The Canadian Pacific Railway Company in 1902 sold 2,420,440 acres
as against 830,922 acres for the previous year. The Canadian Northwest Land
Company in 1902 sold 516,000 acres as against 121,000 acres for the previous
year. The Saskatchewan Valley Land Company of St. Paul, Minn., sold over
900,000 acres of land in 1902. The Haslam Land and Investment Company
of St. Paul, Minn., sold nearly 300,000 acres in one year. The Northwest
Colonization Company, St. Paul, disposed of over 500,000 acres and if to
these be added the lands sold by The Dominion and Manitoba governments,
The Canadian Northern Railway and other companies, syndicates and in-
dividuals an opinion may be formed of the immense advance this western coun-
try has made in one year.

The Eastern and Western Land Corporation, Limited, after a careful in-
vestigation of the west has fixed upon what is known as the big Quill Plains
in Southern Saskatchewan as being the best available district in which to
make purchases and has secured options on about 125,000 acres of land in that
district. These lands are part of the lands granted to the Manitoba and North-
western Railway and afterwards taken over by the Manitoba Government and
have been three times selected, first by the Manitoba and Northwestern Rail-
way Company, then by the Manitoba government, and lastly by the present
holders after a careful and expert examination by the most competent land
selectors available. These lands will lie along and between the Manitoba and

Northwestern extension of the Canadian Pacific Railway and the Transconti-
nental line of the Canadian No-North Railway, thus assuring to settlers the
immense advantage of two competing lines of railway each within easy ac-
cess to their farms.
The soil is as good as any in the world, and the best water is everywhere
obtainable in the district and with easy access. It is expected that
a great influx will take place into this district during the coming season, and
these lands should increase in value with great rapidity.
Further large purchases of lands are pending and as the company will
purchase nothing except after a careful and reliable report practically every
element of risk is eliminated from an investment in shares in this company.
This is an investment which should especially appeal to the Canadian public,
as it gives a practical certainty of profitable returns without the risk so
often run in investing in companies doing a business of a hazardous na-
ture, and it is an investment which Canadians believing in their own coun-
try and its future may make feeling that in so doing they are helping to
develop their own land.

When it is remembered that the stock of the Canada Northwest Land
Company one year ago was purchasable at \$25, and is now selling at \$225, it
can be readily seen how great is the profit in investing in western lands at the
present time.

The Union Trust Company, Limited, now offers \$500,000 of the capital
stock of this corporation divided into 5000 shares of the par value of \$100
each, for subscription at par, 25 per cent. to be paid in on application,
10 per cent. more in 30 days thereafter, and the balance as called by the
directors if deemed necessary. Applications for stock will be accepted only in
order of their receipt by the trustees. Applications for stock should be ad-
dressed to the Union Trust Company, Limited, Toronto. Forms of applica-
tion and also the large prospectus of the company may be obtained from
the Union Trust Company, Limited, Toronto, or from any branch of the
Merchants' Bank of Canada, through whom also applications and payments may
be forwarded.

NOTHING LIKE CANADA.

Sir Wilfrid Back at His Desk and
Glad of It.

Ottawa, Jan. 8.—The Prime Minister
was at his office bright and early this
morning. He came up from his resi-
dence on the car, and walked up from
Sparks-street to the eastern depart-
ment block. It was zero weather,
and the Premier stepped out briskly.
His fur cap was pulled well down over
his ears, and he checked himself as he
descended the steps of the building, and
met the nipping influences of the keen
air. Meeting a couple of newspaper-
men, he stopped and chatted a few
minutes. He was in a cheerful mood,
and inquired in a bantering style,
"What's the news?" After chatting
for a minute, Sir Wilfrid passed on,
with the remark: "It's good to be
back again. There's nothing like Can-
ada."

The Premier received a number of
callers in his office, and made the
statement that he felt quite well. At
noon he went down to Rideau Hall
and paid his respects to the Govern-
ment. Sir Wilfrid did not make any
stay in Montreal on his way back
from New York, but will go there to-
morrow or next day.

Princess is Still Troublesome.
Dresden, Saxony, Jan. 8.—Archduke
Joseph Ferdinand, younger brother of
the Crown Princess of Saxony, is go-
ing to pay a second visit to his sister
at Geneva. This is interpreted to
mean that Emperor Francis Joseph is
renewing his attempt to induce the
Crown Princess to permanently break
off her relations with Prof. Giron (who
has left her and gone to Lausanne,
where he will stay during the divorce
proceedings on the advice of the Prin-
cess's lawyer), and take up a residence
in Austria.

Police Court Record.
George Clark was sent to jail for 30
days for Magistrate Denison on Thurs-
day morning for the theft of two coats.
Mary Speed was taxed \$50 and costs
or six months for drunkenness, and
David Enright and Michael Lynch were
each fined \$1 and costs or 30 days
each for the same offence.

Employees Taking Hit Official.
New York, Jan. 8.—An official of
the United States Steel Corporation re-
ports that applications to the amount
of 25,000 shares thus far have been
made by over 12,000 employees, who
wish to avail themselves of the pro-
fit-sharing plan.
