Mr. Smith and Mr. Kessen on The Stand

SUIT AGAINST BANK

Interesting Evidence Given This Morning in J. C. Mackintosh & Co. Action — Broker and Bank Manager do Not Agree on Vital Matter

The suit of J. C. Mackintosh & Co. against the Bank of New Brunswick for the recovery of some \$40,000 in connection with a transaction between them and H. B. Clark, former manager of the Charlottetown branch of the bank was continued before Mr. Justice White this morning.

There was a difference in the evidence of Mr. Smith and Mr. Kessen regarding the instructions of the general manager of the bank that he should not be allowed to close out the accounts and credit collateral.

When the court resumed this morning H. B. Clark again took the stand and his re-examination was continued by Mr. Powell.

In reply to another question the witness said that when Collins appeared in the transactions he had looked up his financial standing and found he had not much of a rating.

The witness said that he had not much of a rating. He was connected with H. O. Evans and was solicitor for a Mr. Garland of Pittsburg, who was rated at more than a million. Collins assumed Mr. Clark's liabilities.

Mr. Clark called up and said that with the consent of the witness he would open a joint account with Mr. Clark. The bonds had been hypothecated and an advance of \$10,000 made to Clark on Feb. 25, 1911.

Mr. Clark called up and said that with the consent of the witness he would open a joint account with Mr. Clark.

THE RELIABLE GLOBE THEN AND NOW

One Thing Demanded in March and the Opposite Called For in April, on Matter of Commission Candidates

It is as supposed by many persons, the committee had ulterior views in nominating the candidates for mayor and aldermen whom they nominated, their scheme was damaged in a very important degree by the result. It may be that at least the majority of the committee had no improper motive in making the nominations which they made, and this would be like- wise if the committee after having prepared the scheme, had left to the voters to enter the common council under the present system, they could not be induced to enter a council under a new system by which they would be obliged to give all their time to civic service.

The one duty now left to the voters is to select according to the best judgment those whom he supposes city business much better than it had been managed. So far very few candidates have announced themselves, except those who are or have been members of the new common council. The new system is deserving of a fair trial, and it will have a better chance for a fair trial if its promoters take up the burden of directing the operation.

The Evening Chit-Chat

By RUTH CAMERON

THE way in which we have come to look at the conveniences and luxuries of modern civilization, as absolute matter-of-fact necessities, is rather an amusing and startling thing, if you will stop to think about it.

The other day, in an office building where I occasionally have business, I found the elevator out of order. Word came that the lift would not be running again for fifteen or twenty minutes, and yet a constantly increasing group of people stood at the bottom of the stairs did not seem to care. The elevator—an invention which has not been in common use over these people, The elevator—an invention which has not been in common use over these people, The elevator—an invention which has not been in common use over these people.

Daily Hints For the Cook

RICED AND TOMATO CROQUETTES

Cook three cupfuls of canned tomatoes with a small onion in which have been inserted two cloves, two slices of carrot, a sprig of parsley, one sprig of thyme, one-third of a teaspoonful of pepper, one teaspoonful of salt and one-eighth of a teaspoonful of soda, for 30 minutes; then remove the onion, carrot and herbs and rub through a sieve. Bring to the boiling point, add one-half cupful of rice and steam until the rice is soft. Remove from the range, add one egg, slightly beaten; one-third of a cupful of grated cheese and a few grains of cayenne pepper. Cool, shape, dip in crumbs and egg and again fry until soft, again drain and fry in crumbs and fry in deep fat and drain.

THE HERPICIDE

GIRL KNOWS

While shopping the most annoying thing for me is to have someone try to sell me something "just as good" when I ask for Newbro's Herpicide. To be sure there are not many druggists who do this, but still there are those who do, and it is a pity that they will not sell me what I want.

where coffee and liqueurs were awaiting them. Standing in front of the two great blazes, as is the custom in great forest lands, the countess, who in her hands made a glorious picture in her brilliant jewels and gorgeous costume by the brilliant light of the candles, the countess approached, and, bending the knee, kissed her hand, exclaiming in the most imperious and grand manner that her father had ever heard of. In playful rejoinder, the Countess slipped from her belt the famous dagger, and, brandishing it over her head, declared in a mock-heroic tone, "Now I will play you for four lack of respect the most precious relic of my father's beloved country."

TO IMPROVE COLOR AND BEAUTY OF HAIR

(Marion Harlow in Woman's Sphere)

"To keep the hair free from signs of thinning and graying it is necessary to adopt some treatment that will act as a stimulating tonic and give the scalp and hair roots strength and vitality."

SKIN PEELING NATURE'S AID TO NEW COMPLEXION

(From Woman's Tribune)

Mercurochrome is a natural beautifier. By flaking off the dehydrated surface skin, it merely hastens Nature's work. The secret skin layer, brought gradually to view, exhibits the healthy youthful color produced by capillary circulation. This is because the capillaries are thus brought nearer to the surface, also because the new skin is unobscured by dust and dirt. This was to be had at any drug store (on occasions it is put on nightly like cold cream, but it is usually applied in the morning with water).

THE EVENING TIMES AND STAR, ST. JOHN N. B. TUESDAY, APRIL 23, 1912

The Evening Times and Star

ST. JOHN, N. B., APRIL 23, 1912.

The St. John Evening Times is printed at 27 and 29 Capreolary street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the laws of the Dominion of Newfoundland.

A GOOD EXAMPLE The province of British Columbia does not hide its light under a bushel. The fact that the Pacific province has had a great development of its orchard industry and that people from the old country, the United States and eastern Canada have gone into its valleys to establish orchards, is due to the bold and progressive policy which the province has pursued. It has spent money very freely in the old country to advertise its resources, and to exhibit in the markets there the products of its orchards.

The Times finds pleasure in directing attention to the enterprise of the Pacific province. It ought to serve as an example and an inspiration to the government of New Brunswick, which talks a great deal about what ought to be done, and what it is going to do, but stops at that point. If it says British Columbia to pursue such a policy as that indicated, there is profit for New Brunswick in the adoption of a similar one.

PRUDENT INVESTMENT The last issue of Canadian Finance prints the first of a series of plain talks by an investor, who frankly states that in his first venture he lost all he possessed. Being young, and willing to profit by a severe lesson, he was afterwards more careful. He presents as a golden rule for the small investor the statement that he should do business only through a reputable firm, and use that firm's experience, knowledge and ability in the selection of securities, although, of course, he should study market conditions himself, and not become a mere puppet in the hands of his brokers. Dealing with the man that is done to the country at large by investments which are made by men with their eyes shut, this writer quotes with approval the following paragraph from the Canadian Courier, which may well be passed on for the benefit of the readers of other journals:—

"All the millions of dollars wasted annually in schemes of a dangerous type were properly invested, they would quicken the pulse of our industrial, commercial and financial life. They would swell the tide of our prosperity. For instance, a million dollars thrown away in wireless telegraph or fake mining stock would mean much to the country if invested in railway bonds. It would help to finance new rolling stock, and help to carry western farmers' wheat. Invested in good industrial bonds, the same money, rather than encouraging the dishonesty of the second, would help to make plant extensions, increase production, employ more labor, and better supply the demand."

VALUABLE COLLEGE The agricultural college at Truro is doing a most valuable work; and, if a larger number of students from this province attended, the gain to agriculture would be proportionate. The college was organized in 1905. Last year the total enrollment in the short course and the regular course was 419, compared with 293 for the previous year. This shows an increase of 41 per cent. In noting these facts Prof. Cummings says he regards this growth as a criterion of the new spirit that has come

into Maritime Province agriculture. The present enrollment in the two years course at the college is 77, compared with 43 in 1909, and 62 in 1910. The majority of the students are Nova Scotians, but there are a few from Prince Edward Island, New Brunswick and elsewhere. In the short course which was held from January 22 to January 12th this year there was a total enrollment of 342, of whom 23 were ladies. Of the total number 59 were from Prince Edward Island, 61 from New Brunswick, 1 from Newfoundland and the rest from Nova Scotia.

In discussing this report Premier Murray stated that it would be practically necessary, if they were to give the advantage of the agricultural college to the increasing numbers who would like to avail themselves of it, to duplicate the buildings. Ten years ago it was thought the building then erected would meet all demands for years to come, but last year it was too small to accommodate the students. This statement by the Premier of Nova Scotia will be welcomed by all who are interested in agricultural development. Practical education is necessary and the young farmers should take advantage of it in increasing numbers. It may be hoped that New Brunswick will some day have an agricultural college of its own, but until that time comes, an increasing number should take advantage of the opportunity afforded by the college at Truro.

The United States is threatened with a great strike of locomotive engineers. Such a strike, practically blocking transportation for a time, would involve great trouble and immense loss to the public.

In March the Globe was calling on the Citizens' Committee to nominate candidates. Yesterday it condemned them for doing so. There's a "reliable" newspaper for you.

The Roosevelt campaign gains strength, and some of his friends are confident that he will receive the Republican nomination. Mr. Taft, however, is not dismayed, and will put more vigor into his own fight for the prize. There are many important states yet to be heard from.

The Montreal shareholder says:—"The building of the Grand Trunk Pacific and the establishment of its port at St. John, together with the decision of the Canadian Pacific Railway to increase its terminal facilities at the same place, has produced a small-sized boom in the city of St. John."

Bradstreet's says that \$25,000,000 insurance loss caused by the Titanic disaster does not seem an excessive estimate, and adds: "Whatever may be the amount of the loss occasioned by the sinking of the Titanic, it emphasizes the fact that the marine underwriting business has been receiving a series of heavy blows, and is, in respect to the values of ships and cargoes which have been lost."

An increase in the rolling stock of the Canadian Pacific Railway to the extent of \$22,000,000 in value will do something toward facilitating the movement of next year's crop; but the crop will also be increasing, and the railways for carrying it come will find it necessary to continue enlarging their equipment for carrying it to the market. An expenditure of \$22,000,000 means great activity in locomotive and car shops and a great outlay in wages as well as for materials.

The Chatham World, Conservative, has this to say of the extravagance of the provincial government in regard to printing:—"The facts, as brought out in the public accounts committee, seem to show that the economical policy that was followed in dealing with the country papers was reversed where the Gleaner, the Standard, and some other offices were concerned. If it were not so, how could the total expenditure be so large? If the economy that was practiced in small accounts had been followed in large ones, there would have been a very large reduction in the printing expenditure."

Of the struggle between Taft and Roosevelt, the Bangor Commercial says:—"The results of the primaries in Oregon and Nebraska swell the Roosevelt column. In neither of these states was the LaFollette vote as large as the supporters of the Wisconsin senator expected. Interest now centres largely on the Massachusetts primaries which will be held Tuesday of next week. It has been very confidently asserted, and seemingly with good reason, that Massachusetts Republicans would register for Taft but for the uncertainty of politics has been so clearly shown of late that the president is apparently determined to leave no effort untried, and during the present week will make a campaigning tour of the Bay state. The outcome of the battle of the ballots in Massachusetts will have a very vital bearing on the result of the Chicago convention."

CLASSIFIED HERSELF. A woman with little wit sat at a public meeting between a bishop and a rabbi. She thought she would be clever, and said to the rabbi: "I feel as if I were a leaf between the Old and the New Testaments."

"Yes, Madam," said the rabbi, "that page is usually a blank one."—Ladies' Home Journal.

ST. GEORGE'S DAY To all the loyal hearts who long To all our noble sons, the strong, New England has Southern Pines, To England under Italian skies, To those dark millions of her realm, To Canada whom we love and prize, Whatever statesman hold the helm: Hands all round God the traitor's hope confound! To this great name of England drink, my friends, And all her glorious Empire round and round. —Tennyson.

THE RAINY DAY (By Henry Wadsworth Longfellow.) The day is cold, and dark, and dreary; It rains, and the wind is never weary; The vine still clings to the mouldering wall, But at every gust the dead leaves fall, And the day is dark and dreary. My life is cold, and dark, and dreary; It rains, and the wind is never weary; My thoughts still cling to the mouldering past, But the hopes of youth fall thick in the blast, And the days are dark and dreary. Be still, and beat; and cease repining; Behind the clouds is the sun still shining; Thy fate is the common fate of all, Into each life some rain must fall, Some days must be dark and dreary.

IF HE WERE NOT. An English clergyman turned to a Scotchman and asked him: "What would you be were you not a Scot?" The Scotchman said: "Why an Englishman, of course!" Then the clergyman turned to a gentleman from Ireland and asked him: "What would you be were you not an Irishman?" The man thought a moment and said: "I'd be ashamed of myself!"—Ladies' Home Journal.

OPENING OF CASE OF J. C. MACKINTOSH & CO. AGAINST BANK OF N. B. The details of the claim of J. C. Mackintosh & Co. against the Bank of New Brunswick were made public for the first time when the hearing of their suit against the bank was commenced before Mr. Justice White in chambers yesterday afternoon. The action is on a check drawn by Edward L. Collins on the Bank of New Brunswick, payable to Herbert H. Smith, then manager for J. C. Mackintosh & Co., dated April 27, 1911, for \$10,000; also to recover \$28,000, amount of guarantee of certain bonds given by H. B. Clark, and interest on these sums amounting to \$2,000.

H. A. Powell, K.C., of this city, and A. H. Mellish, K.C., of Halifax, appeared for the plaintiffs, and Wallace Nesbitt, K. C., of Toronto, M. G. Teed, K.C., and W. A. Ewing, K.C., of this city appeared for the bank.

H. B. Clark was the only witness heard yesterday afternoon. He said that at the time of the transactions he was manager of the Charlotte street branch of the Bank of New Brunswick. He had been specializing in stocks and cotton first on his own account and later with W. H. McBeth, who is now in the penitentiary in Ontario. The result of their operations was a large balance against them. McBeth had put up as security for the account five Elk Development Company bonds, par value \$1,000 each and five Vanderbilt bonds.

ARTILLERY BAND CONCERT WAS MOST SUCCESSFUL The Artillery Band concert, given in the Opera House last night was a great success from every viewpoint. The audience was large. The vocal and instrumental music was of a high order. Lieut. Colonel Baxter, commanding officer of the 3rd Regiment, C. G. A., and Lieut. Colonel J. L. McAvity, commanding officer of the 62nd, both occupied boxes, accompanied by their staffs. Under the direction of Bandmaster F. W. McNeill, and at full strength, the band gave a most creditable performance. Bandmen C. H. Williams and A. E. Hopkins were heard in a concert duet, giving Verdi's "Misereve", from "Il Trovatore" in masterly manner. The soloists of the evening were Mrs. L. M. Curran and Charles A. Munro, Mrs. Curran sang excellently, and Mr. Munro was in good voice. A. E. Hopkins was pianist. As a tribute to the gallant band of the "Nearest My God to You" was softly played by the band before the curtain rose. KICKED OUT. The Lancashire people are fond of dogs—in fact they're very proud of them, and, therefore, when a prominent dog fancier came home one night and found his son had bought a nondescript mongrel he was rather riled. "How much didst thee gie for that dog?" "Five shillings," replied the son. "Tell thee what A'll do," replied the parent. "A'll go shares w' thee, A'll gie thee half a crown for my share." The half crown was duly paid; then the father remarked: "A'll tak' t' tall end, and A'm goin' to kick my half outen t' door!" And he did.

MORNING NEWS OVER THE WIRE The Moncton Gas Co. is to supply natural gas to steam boilers at fifteen cents a thousand feet, gas engines, twenty cents, and domestic purposes, thirty-eight cents. James R. Russell, keeper of the light and fog alarm at Grinstone Island, Albert county, has been dismissed by the Conservative government, and his place given to Egbert C. Peck. The trouble with Mr. Russell was that he was a Liberal. Harris Zein, aged twenty-eight, committed suicide yesterday in a cell in the jail at Lunenburg, N. S., by hanging himself with his suspenders. He had been arrested on drunkenness charge and while in jail outsiders gave him more liquor. Miss Rose Edmunds, sister to Violet Edmunds, once fiancée of Rev. C. T. V. Blenheim, was married on Saturday at her home in Devon Road, Newton, to Rev. George H. Holt, pastor of the First Baptist church, Harris, N. S. Roosevelt has swept the primaries in Oregon and Nebraska, thereby adding twenty-six delegates to his list. Much speculation is excited as to where he is getting his campaign funds, and a bill was introduced yesterday by Senator Henry calling upon candidates to present a complete statement of contributions made for their campaigns. Prince Albert, Sask., April 22—Four persons were burned to death early Sunday morning in a fire which destroyed the residence of Robert Adamson, a farmer, three miles west of Sherbrooke. The dead: Hazel Adams, aged eight; Cecil, aged six; Horace, aged three; John Ruhlman, the hired man. Ottawa, April 22—A. W. Smithers, chairman of the board of directors of the Grand Trunk Railway system, will come to Canada within a few days to take up with the officials here questions in regard to administration and other matters affecting the Grand Trunk and the Grand Trunk Pacific. Much of that which is called pure "news" is nothing but human nature. INTERVENTION BY UNITED STATES IN MEXICAN TROUBLES

(Bangor Commercial) The conditions in Mexico do not improve and indeed the contrary appears to be the case. The Americans who still remain in that country believe that intervention on the part of the United States is not far off and say that it must come if the lives and property of Americans are to be protected. There is no desire on the part of our people to send an army into Mexico. Our country has been bitterly condemned by historians as the only war of conquest in which the United States has ever indulged and it is realized that action on the part of the United States would, very likely, result in hostilities and serve as nothing else worth the antagonistic, the present discordant elements in Mexico in a united opposition to a foreign force. The other day our department of state sent a message to Mexico, a dignified statement that the rights of Americans must be protected, a statement, doubtless called forth by the early knowledge of matters that are just coming into public knowledge and which are reported to include the killing of several Americans. This note drew forth a rather cool answer from the Madero government to the effect that it proposes to comply with international law and that the United States must not attempt to interfere with Mexican affairs. The good intentions of the Madero government are not questioned but the difficulty is that the situation has reached far beyond government control. Mexico today is in a state of anarchy, a condition from which there is little indication that it can extricate itself without outside assistance, and there are constant reports of attacks upon Americans, assaults instigated by the hostility which the lower classes of Mexicans have long held against our people. The conditions have become so intolerable that the American engineers and other employes on the Mexican railway, numbering some 700 have quit work and will return north next week. By far the greater portion of Americans who were in Mexico three months ago have left the country but there are some who cannot resist the making very strong appeals to the state department for protection. The situation is a very delicate one.

THE ST. JOHN AMATEURS IN OTTAWA

(Ottawa Free Press) In producing Charles Rann Kennedy's "The Servant in the House," the Loyalist Dramatic club of St. John, N. B., also made a great hit. The play is so striking a contrast to Willie's comedy as it is so well known to Ottawa play-goers. The deep current of thought running through the play, the directness in the characters of the inmates of that home and the striking changes wrought by the sanity Bishop of Geneva on his followers, were intelligently interpreted and clearly defined. Fred C. Macneil was quite good as the Bishop in the Servant in the House. He was particularly careful of his manner, and he maintained the austerity of character throughout. To Rupert E. Walker, as the unfortunate drain man, the man around whose life and actions the play evolves, much praise must be given. It is a trying and difficult part for an amateur and he came through in first class style. As his brother Rev. William Smythe, J. L. Robertson was also excellent and support of an unusual strength was given him by Mrs. Frances C. McCall, as his wife. Miss Marjorie Knight as the niece acted very well but her provincial diction was unpleasant and she was also over-petulant. Mr. Walker yesterday received word that the St. John amateurs had won fifth place. The prizes for individual acting were awarded to Mrs. Walters, of the Ottawa Club, and Miss Dorothy Castle, of the Winnipeg amateurs, who tied for a bracelet donated by Margaret McIntyre, of McMann's of Winnipeg won the silver ring.

RECENT DEATHS

Captain John A. Ewing, a very well known citizen of this city, passed away at an early hour this morning at his residence, 60 Queen street, after a brief illness. Captain Ewing was very widely known and had a great host of friends, who will sympathize with his family in their bereavement. Besides his wife, the deceased leaves four children and one brother, Robert Ewing, of the Dominion Savings Bank here. For many years Captain Ewing has been connected with marine insurance companies represented by the firm of Cowie & Edwards, and his business often took him all along the Atlantic coast adjusting losses and examining wrecks. His death will be heard of with regret among shipping men and by citizens generally who had learned to appreciate his sterling worth and integrity of character. Fredericton, N. B., April 22—(Special)—Robert Abernethy, for many years postmaster of Durham Bridge, was found dead sitting in his chair shortly after noon today. He was ninety-four years of age and is survived by a large family. Heart disease caused death. Denis Callahan, an aged and respected resident of Little River, passed away yesterday. He was born in Ireland eighty-five years ago and came to St. John's very young. He has resided with his son Timothy, at Little River for the last ten or twelve years. The surviving members of the family are three sons, Timothy, at Little River; John and Denis, of this city. Announcement of the funeral will be made in the evening papers. At her home, 151 Chesley street occurred, last evening, the death of Jane E. McInnis, daughter of the late Malcolm McInnis. Miss McInnis was in the ninety-second year of her age and had been in good health until a few weeks ago. She was born in this city and resided in Chesley street all her life, where she was well known. The deceased is survived by one nephew and three nieces all of this city. Thomas McDonald, well known butcher of this city, passed away last evening at his home in Clarence street. He was in the 39th year of his age and is survived by a wife, four sons and four daughters, all young; also three brothers and three sisters, besides several relatives. The brothers are John, Edward J. and James, all of this city; the sisters are Mrs. Morarty, Mrs. Prouty and Miss Laura, of Boston, and Mrs. Edw. Walsh, of this city. Captain Richard Melke, late of the S. S. Pontiac, died at his home in New Glasgow yesterday, aged sixty-eight years. He was well known in shipping circles here. He is survived by his wife and family. Patrick Garnett, aged twenty-six, son of Patrick Garnett of Main street, died in Boston yesterday. The body will be brought home for burial. Rev. James Linton Downing, of the Church of England, died on April 5, in Colchester County, N. S. Rev. J. K. Bearist, aged seventy-three years, died yesterday at his home in Glasville, N. B. He was pastor of the Presbyterian Church in Glasville for twenty-five years and ten years ago he accepted a call to Amherst, where he remained until superannuated. He then purchased a farm at Glasville and made his home there. Edward Kinzie, collector of customs at Hopewell Cape, aged about seventy-five years, died on Friday night after a lengthy illness.

HEBREW GIVES \$25,000 TO CATHOLIC UNIVERSITY

Baltimore, Md., April 22—Cardinal Gibbons, who is chancellor of the Catholic University of Washington, is the recipient of a gift of \$25,000 for the university.

The donor is a wealthy Hebrew from the middle west but his name is withheld. He said that he regarded the Catholic church as the great bulwark in the United States against "bad features of socialism and anarchy and for the upholding of law and order."

Moved by these considerations, he offered the sum named, to be paid in five annual installments, either to found a lectureship by means of which socialism would be studied, analyzed and attacked or five scholarships for students who would pursue special investigations along the same line.

The cardinal accepted the scholarship offer and expressed his gratitude.

NOTHING SUCCEEDS LIKE SUCCESS

It is a glad and proper thing to be the originator of a novel success. The article that has caught on to the public taste may be less than your finger nail, or larger than your whole body, but it doesn't count—neither really counts but this: That you have worked your way to the discovery of a commodity that supplies a known and felt want, and that the great wide-eyed public have unhesitatingly taken up your new production and made it a success.

It has been exactly like that with H. P. Sausage. The delicious relish, made by the Midland Vinegar Company of England, the largest firm of malt vinegar brewers in the world, has been an unqualified success from the first day of its distribution until now.

H. P. is a thick, rich Sauce, compounded solely of most delicious Oriental fruits and spices, and pure malt vinegar. Its main claim for it is that there isn't another sauce to compare with it for true fruity flavor, and, judging from its already wide popularity, the general public have been quick to endorse the good opinion of the manufacturers.

A Hindu baker's assistant in Bombay, on setting up in business for himself, thought him of catering for the English community as well as for the native one. With this end in view, accordingly, he had the following notification painted over his doorway: "Ram Bux solicits respectful patronage. He is a first-class British baker."

Muscles Useless Without Nerve Force

Perhaps you are not quite clear on the relation of the nerves to the rest of the body. Through the nerve fibres which extend through countless branches to every nook and corner of the human system is conveyed the motive power which operates the various organs.

There could be no breathing, no beating of the heart, no work of the digestive organs, no action of any muscle or organ of the body without nerve force. Consequently, when the nervous system becomes exhausted there is complete collapse of the body, the different stages of which are described as nervous prostration, locomotor ataxia and paralysis.

The time to use such restorative treatment as Dr. Chase's Nerve Food is when the headache, sleeplessness, indigestion and other warning symptoms first appear. A few weeks' persistent treatment is then sufficient to revitalize the wasted nerve cells and restore health and vigor.

TRIBUTES TO ASTOR AS HERO ON TITANIC

Passengers Relate Stories of Calm Action of Millionaire on Sinking Steamer

New York, April 22—When finally the Titanic sank, survivors of the wreck agreed that John Jacob Astor was a hero. He was the first to be rescued, and he was the last to be rescued. He was the first to be rescued, and he was the last to be rescued.

Mr. Astor's death, Philip Mack bears his testimony. "Many men were hanging on rats in the sea. William Stead and Colonel Astor were among them. Their feet and hands were frozen, and they had to let go. Both were drowned."

Mrs. Margaret Hays told the following story of the heroism of Colonel Astor to her father, Frank Hays. "There seemed to be little doubt on the Carpathia that Colonel Astor acted the part of a hero. When the lifeboats were being filled with women and children, and Mrs. Astor refused to enter one of them without her husband, Colonel Astor was urging her to enter.

"Finally she was induced to step in, Colonel Astor gently pushing her. Some time behind Colonel Astor appears to have thought he belonged in the boat with his wife and children, whereas, when she scrambled out, and setting the first woman at hand, conducted her into the place in the boat he had occupied."

WELTH OF TWELVE MEN DROWNED WAS TOTAL OF \$191,000,000

John Jacob Astor, head of the house of Astor in America one of the richest, if not the richest, men in the world, died on the Titanic. His estate was valued at \$191,000,000.

Other names and amounts listed include: Harry Guggenheim, \$10,000,000; John D. Rockefeller, \$10,000,000; and others.

MAGISTRATE SPEAKS FOR ZAM-BUK

Magistrate Perry, of Goldfields, B.C., believes in making a good thing known. Writing of Zam-Buk, the great household ointment, he says: "After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good with."

DON'T NEGLECT THAT SORE!

A Chicago man has just died from blood poisoning arising from neglect of a small sore. Don't neglect a cut, a patch of eczema, or an open sore of any kind. The air is full of poison germs, waiting to start up their evil results in neglect of sore, wound, etc. In Zam-Buk is safety, Zam-Buk is so highly antiseptic that applied to any kind of sore or injury it makes blood poisoning impossible. In using Zam-Buk you have three processes going on at once for Zam-Buk is heating, soothing and antiseptic. Try it without delay.

A GENUINE OFFER. TEST ZAM-BUK AT OUR EXPENSE!

We appreciate the position taken by the man or woman who says: "If your preparation is what you claim, you should have no objection to letting us try it before spending our money on it." To every person taking this view we say, send our cent stamp (to pay return postage) and name and date of this paper to Zam-Buk Co., Toronto, and we will mail you a free trial box of Zam-Buk. Zam-Buk is purely herbal, suitable for the delicate skin of little children, yet powerful enough to heal chronic sores of long years' standing. All druggists and stores, 50c. per box, 3 for \$1.25.

WENT DOWN WITH THE SHIP, MINISTERING TO WELFARE OF SOULS

Titanic Passengers Tell of Last Hours of Father Byles and German Priest

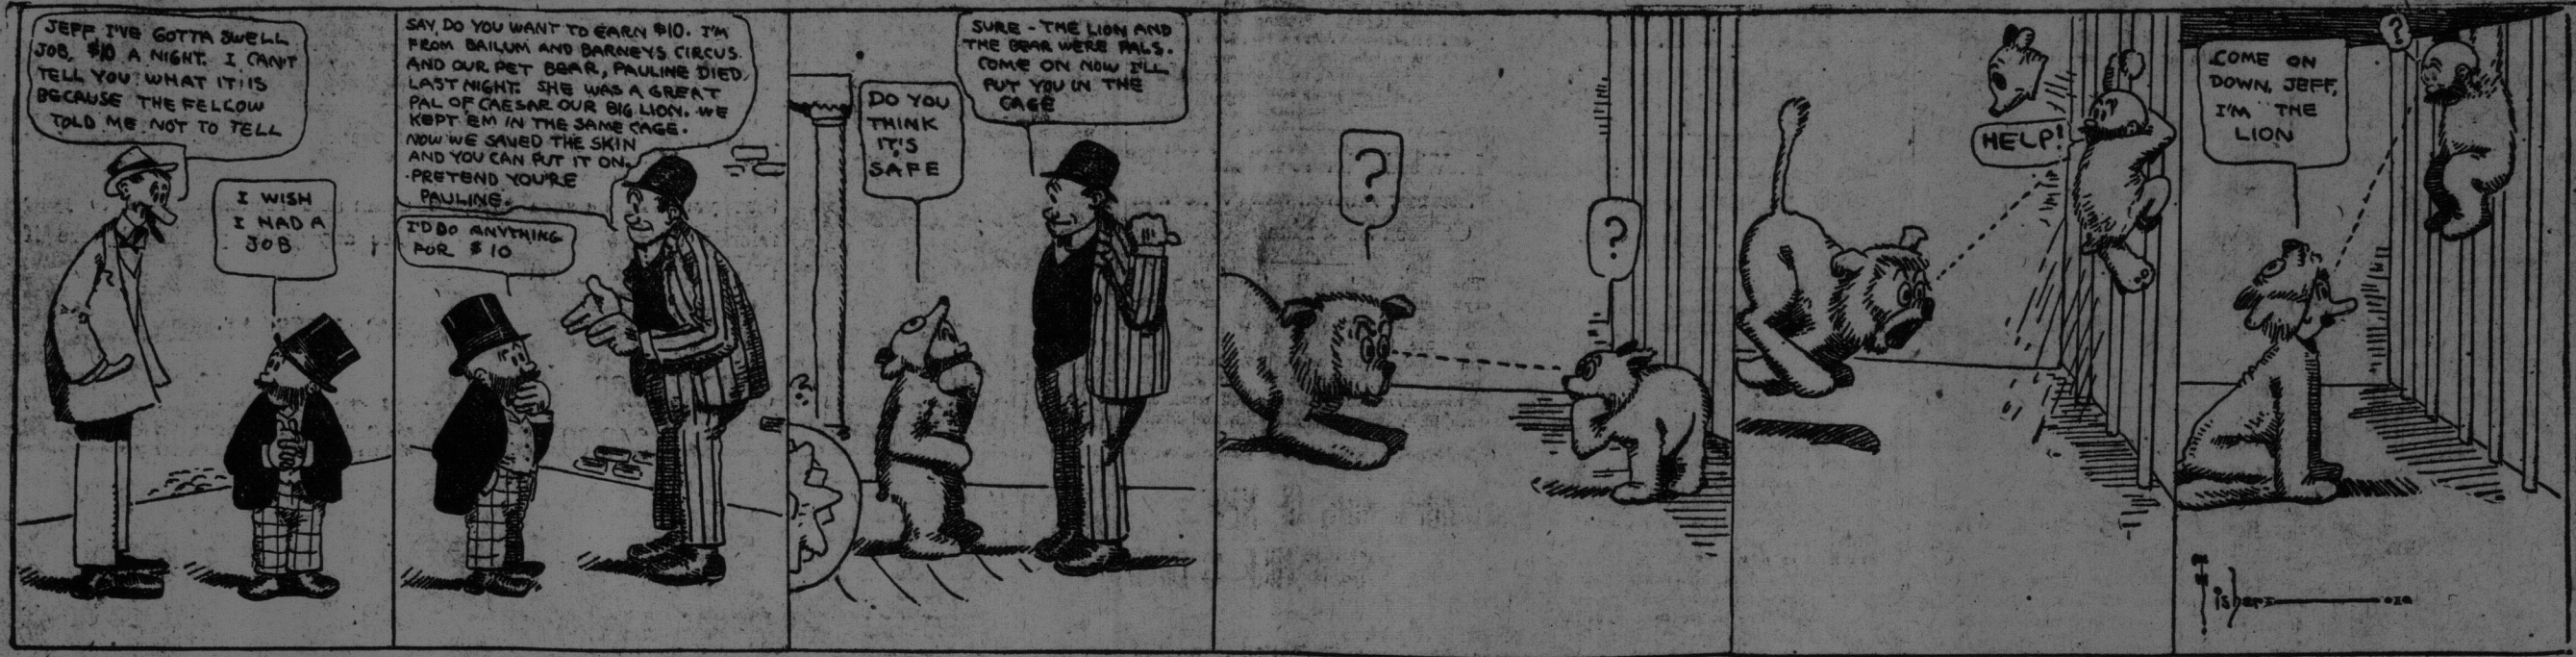

New York, April 22—Winnowed from among many pathetic stories of the Titanic catastrophe was a tale of two clergymen who went down with the Titanic ministering to the welfare of the souls of the stricken passengers grouped around their knees about them. One of the clergymen was the Rev. Thomas R. D. Byles of Westminster parish, London, who was on his way to officiate at the marriage of the brother in Brooklyn, and the other a German priest whose name is unknown.

SPORT NEWS OF A DAY; HOME AND ABROAD

Baseball

N. B. and Maine League.

It is now practically assured that the New Brunswick and Maine Baseball League will be run on much the same lines as last year. Joe Page has visited the different towns in the province and several in Maine and a meeting of managers in the Dufferin Hotel yesterday afternoon was the result.

Representatives were present as follows: C. M. Aspherton and J. W. Gallagher, Woodstock; T. H. Hanson, Houlton; J. J. McCaffrey, Fredericton; D. B. Donald and H. J. Fleming, St. John. It was decided to organize a league with these four teams and the salary limit per month for each club was placed at \$1,000. Visiting teams are to have the option of taking 35 p.c. of the gate receipts or a straight guarantee of \$30 for each game.

Each club agreed to put up a deposit of \$500 to ensure the carrying out of the terms of agreement and the rules of the league. The St. John representatives are to draft up rules and submit them to the different clubs so that final arrangements can be made at a meeting which is to be held in the Queen Hotel, Fredericton, on April 29.

It was decided to have two official umpires for the league and these men are to be selected by President Barrow of the International League.

Fredericton and St. John are to open the league here on May 24.

The closing of the league is to be on September 7.

St. John is to have games at home on Friday and Saturdays each week, with probably a game each Tuesday, and the local team is to play away from home two days each week.

Games each day will be played during Old Home Week and Exhibition week. It is expected that many of the players who were in the league last year will be seen in action here again this season.

luckily abandoned his intended trip on board the ill-fated Titanic, home interests were hard hit when the giant steamship foundered last week.

The National Capital Horse Show Association, whose second annual exhibition is to be held in Washington, May 1 to 4, lost two of its active officials, Clarence Moore was a member of the executive committee and Major Archibald W. Best was a member of the Horse Show committee. Mr. Moore was widely known as a horseman, having been for many years master of the Chevy Chase hounds, and a judge at numerous horse shows.

George D. Widener, another of the well known horsemen lost, was a prominent exhibitor and winner in the harness and blister classes at Bryn Mawr and other eastern shows, including the New York National, at Madison Square Garden.

Announcement of the Quebec race meet, August 26 to 31, is made. The races will be during the Quebec provincial exhibition. The programme so far includes:

2:30 race—\$1,000.
2:30 trot—\$1,000.
2:30 race—\$1,000.
2:30 trot—\$1,000.
2:15 race—\$1,000.

Useful Facts about Washing and Ironing

With the advent of the blouse as one of the particulars of women's dress the laundry bill has either been found swollen beyond recognition or the work in the household has enlarged. It is proper that girls who wear these pretty affairs should know how to wash and iron them, thereby saving the family pocketbook. The washing and ironing should be done in the easiest and plainest way.

The washing of prints is much the same as woolens, for there is no soaking except in particular cases. The particular case can mean that there is a new waist to be washed and there is some doubt as to whether the colors are fast. When this question is uppermost seek the waist in clear, cold water, to which a handful of salt has been added. This makes the water colder and harder, and its solvent powers are not so great. Colors that have a slight tendency to "run" are easily fixed. If the blouse has been made at home a small strip of the same material can be tested before the washing is started.

Have your tub ready with a warm suds bath made of melted soap in the same way that it is made for dummies. The melted soap, or soap jelly, is generally mixed with all the suds of soap that are used for ordinary use. These are shredded down and about four ounces of soap is used to four cups of water. This is placed in an old pot or jar over the fire. The fire should be very slow. If the suds is not to be used for prints, it is better to use a little of the soap jelly in a tub of warm water and raise the temperature by vigorous motion of the hands. Squeeze the blouse out in this after washing clean—having first been removed from the cold water bath. If the cuffs and neckband are much soiled a very little hard soap may be rubbed on, but not otherwise. Too hot water should be avoided, as it fades colors. If you very much soiled blouse requires only one lather, and the sleeves should be turned wrong side out in the first water after washing on the right side. Rinse with warm water, and then as many cold waters as needed. If the color has run even a very little put one tablespoonful of vinegar in the rinsing water, which helps to counteract the action of the alkali in the soap. It is a good plan to put colored blouses under running water. This often restores partially faded colors. Squeeze out the water, and pass through the wringer. Shake well and hang in an open place to dry. Hot water starch is the proper thing to use. Cold water starch gives prints a papery feeling and an appearance which is highly objectionable. Cold water starch must be cooked by the heat of the iron before it stiffens anything. Hot water starch, or as it ought to be called, boiling water starch, is really cooked before use. Cold water starch being used as a restorer to their smoothness and easy working.

If laid on the range they must have a sheet of iron between them and the gas at first and until they are thoroughly washed. Then they can be washed with gas without the sheet of iron. Ironing is a process which no amount of describing will render easy or successful at all, and great care should be taken. If an iron is laid on the gas flame before it is heated the moisture condenses on its surface and makes it rusty. Other little things can be noticed in the ironing of blouses. These things can be noticed in the ironing of blouses. These things can be noticed in the ironing of blouses.

Teaching the Young Girl How to Keep House

It is the duty of every mother to see that her daughter is provided with wholesome occupation and plenty of it. For the young girl who has graduated from school, or is still there, her studies have kept her busy to a certain extent and she has not used her physical strength. The mother should attend to the latter part, so that the daughter may possess a "sound mind in a strong body" when she comes to her heritage of womanhood.

The daughter should have certain duties strictly forced upon her if she is to be happy and contented. Hereof she has studied hard and eaten without much thought, grudging the time lost in that and in sleep. This must be changed and the mother must plan to have the daughter busy during her spare hours. It is to a lack of regular occupation that unwholesome and restless spirit may be equally charged; the girl has no special thing that she feels must be done, so she wastes the time as best she can, and the excitement. This does not mean that the daughter must be kept away from young associates. On the contrary, youth should be sought, and if the mother is wise she will allow all the young companions. But they should be brought into the daughter's life and she should be allowed to go into theirs.

At first the hands of the average girl are awkward in keeping house. She generally goes to a school where such arts are not taught and where she has learned to eat regularly, but they have to sleep with the elephants. They want all their friends to see them next Thursday and Friday, at the Queen's Rink, only they want it understood that they can't pass anybody in.

**JUDGMENT OF PRIVY
COUNCIL WILL NOT
BE GIVEN TILL MAY 4**

This Means There Will be Doubt as to Right of Supreme Court to Deal With Marriage Case

Toronto, April 22.—In response to a request for definite information, the attorney general's department of Ontario has received word that the privy council will not hand down a judgment before May 4, in the appeal of the provinces from the decision of the supreme court as to its right to try matrimonial cases submitted by the provinces. The appeal was heard some months ago, and involved several points, among them the rights of the provinces respecting the chartering of companies. The statement that no decision will be given before May 4 means that when the marriage case submitted to the supreme court by the dominion government comes up on that date there will be doubt as to whether the supreme court has the right to deal with the matter. Should the judgment of the privy council be entirely in favor of the provinces, and the right of the dominion to submit matrimonial cases to the supreme court be denied, the hearing on the questions raised with respect to the dominion parliament's right to enact a marriage law will, it is said, be of no effect.

**FAMILY HERE FROM

Mr. Weeds Not at Wharf When Steamer Arrived and Wife and Children Seek Him

The immigration authorities here would very much like to know of the whereabouts of Edward Weeds, an Englishman who came to this city about April 1, working in St. John as present. Soon after his arrival here he secured work and wrote back home for his wife and family to come to St. John on the S. S. Lake Manitoba, which was the next steamer sailing from the other side. Instead, Mrs. Weeds and her family of four children, sailed on the Lake Erie, which was substituted for the Lake Manitoba, and arrived here yesterday. They expected to meet Mr. Weeds at the wharf, but he was not there. Mrs. Weeds sought out A. P. Wilton of the provincial immigration department and placed the matter before him. Mr. Wilton made several inquiries but was unable to locate Mr. Weeds. He would like very much to hear from him.

RELATIVE HERE

A touch of local interest has been added to the terrible tragedy in Prince Edward Island in which the six little children of Mr. and Mrs. Patrick Magee died within a few hours of each other, supposedly from ptomaine poisoning, in the fact that James McQuade, of British streets, is a relative. Mr. McQuade is at present in Boston, where there are several other relatives, and he is much interested in the investigation which has been instituted into the tragedy. It was at first thought that the little ones had been poisoned by some fish which they had eaten, but this theory has now been questioned because of the death of the sixth child. Mr. McQuade is acquainted with the family and other relatives in the island, though he himself is but a distant connection.

**ACCIDENT SHUTS

One Man Hurt When Pulleys Break in York Factory

One man was quite seriously injured, and others narrowly escaped in an accident which occurred in the York Cotton Mill about half past six o'clock this morning, just a few minutes after the machinery had been set in motion, and the employees, about 300 in number, had gathered for their day's work. The pulleys of the main drive broke and wrecked the whole main drive of the mill. The pieces of the broken pulleys named McParland was struck and somewhat injured. The ambulance was summoned and he was conveyed to the General Public Hospital.

**WALTER LONG MAY STUMP
CANADA AGAINST BILL
FOR IRISH HOME RULE**

London, April 22.—Walter Long, M. P., speaking at Dalrymple, declared that after reading the home rule bill, he could not understand how any man outside the walls of bedlam, should have produced such a measure. Far from being a boon to Erin, it was an insult to her intelligence. If parliament were not sitting during August and September, the former Irish secretary said, he meant to visit Canada and place the whole question of home rule before the Unionists of the dominion.

**IT IS TIME THIS
WAS ATTENDED TO**

The little garden space in Market Square was to have been prepared and planted with grass, shrubs and trees this spring. The expense was to be shared between the city council and the Arboriculture Society. The city council voted \$200 for the share, which is ample, and the Arboriculture Society has its share ready. Mr. Gould has the plans prepared, the earth available for use, and all arrangements made to carry out the work. The city engineer was instructed to have the plot made ready. There is digging to be done, and material to be removed. Instead of this being done, a huge mound of street sweepings is being piled there, only to be hauled away again before anything else can be done. This is a repetition of what was done on the Germain street boulevard.
